Other	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		&Enter answer here - or Type In Unknown If No Info Given. &; This study is being ordered for a neurological disorder.; 2015; There has been treatment or conservative therapy.; lower back pain, neck pain; Blocks; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
Other	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		none; This study is being ordered for Inflammatory/ Infectious Disease.; 45 days ago; There has been treatment or conservative therapy.; positive for back pain, weakness, bruising and red discoloration; antibiotics; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is x-ray evidence of a recent lumbar fracture.	1
Other	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	2
Other	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Limited range of motion	1

Other	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; Yes, this is a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT	1
Other	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are clinical findings or indications of Hematuria.; Yes this is a request for a Diagnostic CT	1
Other	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; Patient complains of upper back pain. The discomfort is most prominent in the mid and left, mid thoracic spine. This radiates to the left chest. He characterizes it as constant, moderate in intensity, and throbbing. This is a chronic, but intermittent; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; PT HAS HAD LEFT SIDED BACK FOR 1.5 YEARS. PT HAS COMPLETED A COURSE OF P/T AND HAS BREAST REDUCTION SURGERY TO ALLEVIATE BACK PAIN. PT EXPERIENCES TINGLING IN RIGHT HAND; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does not have any neurological deficits.; It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for a thoracic spine MRI.; There has not been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; chronic thoracic back pain	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does not have any neurological deficits.; The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for a thoracic spine MRI.; There has not been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; <Enter Additional Clinical Information>	2
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for a thoracic spine MRI.; There has not been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to Neurological deficits.; The patient is experiencing sensory abnormalities such as numbness or tingling.; ; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; patient has failed at home P.T., patient is 10/10 pain scale, patient has bilateral leg weakness; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1

General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; The patient is experiencing or presenting symptoms of abnormal gait.	2
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; trauma nov 2017 pain in upper back numbness and pain down arms; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to Neurological deficits.; The patient is experiencing sensory abnormalities such as numbness or tingling.; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	TO RULE OUT DISC DEFORMATIES AND SPINAL STENOSIS; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a neurological disorder.; 01/23/2018; There has been treatment or conservative therapy.; patient is having low back and mid back pain, numbness in upper extremity; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a neurological disorder.; unknown; There has been treatment or conservative therapy.; Numbness and tingling, leg weakness, burning sensation.; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	UNKNOWN; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 03/12/2018; There has been treatment or conservative therapy.; PAIN; MEDICATIONS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/2017; There has been treatment or conservative therapy.; Pain. Tingling in feet and hands. Neck pain and stiffness.; On topearamate with no relief.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		blood in stool, pt has history of diverticulitis. N/V/D. LLQ pain; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1

Other	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Follow-up while patient is on active chemo treatment.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for bilirubin.; Yes this is a request for a Diagnostic CT	1
Other	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Other	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has not had an abdominal ultrasound, CT, or MR study."; < Enter answer here - or Type In Unknown If No Info Given. >	1
Other	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a chronic headache, longer than one month; Headache best describes the reason that I have requested this test.	1
Other	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	"This request is for face, jaw, mandible CT.239.8"; "There is a history of serious facial bone or skull, trauma or injury.fct"; Yes this is a request for a Diagnostic CT	1
Other	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGGING; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Other	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; upper shoulder area left sided; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Other	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	cervical radiculopathy lumbar radiculopathy; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; cervical and lumbar radiculopathy with radiating pain; There has not been any treatment or conservative therapy.; Radiating pain, down the UPE and LE starting from the neck down the arms, and from the back down the legs, with sharp/ stabbing pains; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Other	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.; <Enter Additional Clinical Information>	1
Other	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; DEC 2014; There has been treatment or conservative therapy.; BACK PAIN; MEDICATION, PHYSICAL THERAPY; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	They have had X-rays; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2/2018; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	cervical radiculopathy lumbar radiculopathy; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; cervical and lumbar radiculopathy with radiating pain; There has not been any treatment or conservative therapy.; Radiating pain, down the UPE and LE starting from the neck down the arms, and from the back down the legs, with sharp/ stabbing pains; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	They have had X-rays; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2/2018; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	This test is for the Sacrum.; The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for None of the above	1
Other	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; Unknown	1

Other	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGGING; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a known tumor outside the brain.; Known or suspected tumor best describes the reason that I have requested this test.	1
Otolaryngology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The type of tumor is unknown.; Known or suspected tumor best describes the reason that I have requested this test.	1
Otolaryngology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material		"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is not suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; "There is not a history of serious head or skull, trauma or injury.ostct"; "There is not suspicion of neoplasm, or metastasis.ostct"; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material		"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"	27
Otolaryngology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material		"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; Yes this is a request for a Diagnostic CT	2
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material			8
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	4
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		Associated symptoms include congestion, coughing, ear pain, headaches, a hoarse voice, neck pain, shortness of breath, sinus pressure, sneezing, a sore throat and swollen glands. She says she has had 6 sinus infections in the last year and her last one w; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1

Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	Enter answer here - or Type In Unknown If N This patient has had a two-year history of recurrent episodes of sinusitis characterized by purulent rhinorrhea nasal obstruction facial pain pressure and drainage. He has had at least 5 rounds of antibiotics in ; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	None; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	Patient is having obstructive symptoms and drainage. Patient came into our office on 03/21/2018 and had a flex scope done that showed polys bilaterally with fungal debris. Patient has been on nasal steroid sprays, steroid dosage pack, allergy injections, ; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	Pt continues to c/o sinus infections, facial pain and pressure, thick drainage, dry cough and left side nasal congestion, refractory to po and nasal steroids and multiple antibiotics. The patient has been on amoxicillian as well as others. She has been on; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	Pt reports he has had sinus issues for many years. Six weeks ago he was hit in the nose by a baseball. He had some blood and popping sensation when he breathed in and now he complains of significant right nasal airway obstruction; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	sinus infections The patient is a 42 year old female kindly referred by Dr. Brittany Vaughn. Patient reports 4 episodes of sinusitis a year with bilateral maxillary pressure/pain, right greater than left mild to moderate nasal congestion and dryness, and; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a 47 year old male who comes in for a chief complaint of a deviated septum located on both sides of the nose, right worse than left. He has a deviated septum that causes partial nasal obstruction (the right side of the nose). He has symptoms tha; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is being ordered for follow-up to trauma.; Yes this is a request for a Diagnostic CT	4

Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for osteomyelitis.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for post-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset AND the patient failed a course of antibiotic treatment; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	10
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are unknown.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is immune-compromised.; Yes this is a request for a Diagnostic CT	7
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	77
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are unknown.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is not being ordered for trauma, tumor, sinusitis, osteomyelitis, pre operative or a post operative evaluation.; Yes this is a request for a Diagnostic CT	5
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This study is being ordered for post-operative evaluation.; This is a request for a Sinus CT.; Yes this is a request for a Diagnostic CT	2
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This study is being ordered for pre-operative evaluation.; This is a request for a Sinus CT.; Yes this is a request for a Diagnostic CT	9
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		unknown; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1

Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		unknown; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		unknown; This study is not being ordered for trauma, tumor, sinusitis, osteomyelitis, pre operative or a post operative evaluation.; This is a request for a Sinus CT.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material			10
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The neck mass is 1 cm or smaller.; The neck mass has NOT been examined twice at least 30 days apart.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		; This is a request for neck soft tissue CT.; The study is being ordered for something other than Trauma or other injury, Neck lump/mass, Known tumor or metastasis in the neck, suspicious infection/abcess or a pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		40 y.o. female with intermittent swelling of FOM and neck lymphadenopathy suggestive of sialadenitis vs ranula with chronic fatigue and anemia. Also on the differential is fibromyalgia given point tenderness.; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is NOT a palpable neck mass or lump.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		mass/trying to find out what it is; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The neck mass is larger than 1 cm.; A fine needle aspirate was NOT done.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		Michael D. Magill is a 44 year old Caucasian/White male that presents at this time for: suture removal following bx of chest lesion on 4-03-18. The path demonstrates that this is a Clark's level 5 malignant melanoma. He was called on the phone to advise ; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		RETAGING CANCER; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		right submandibular swelling; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The neck mass is larger than 1 cm.; A fine needle aspirate was NOT done.; Yes this is a request for a Diagnostic CT	1

Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; Surgery is scheduled within the next 30 days.; The study is being ordered as a pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; The study is being ordered for Initial Staging.; The patient has a known tumor or metastasis in the neck.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; It is unknown if there is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; It is unknown if there is a suspicion of an infection or abscess.; This is being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	2
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; It is unknown if there is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is a suspicion of an infection or abscess.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is no suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is a suspicion of an infection or abscess.; Yes this is a request for a Diagnostic CT	2
Otolaryngology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		"This is a request for orbit,face, or neck soft tissue MRI.239.8"; The study is ordered for the evaluation of lymphadenopathy or mass	1
Otolaryngology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Otolaryngology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		pt has asymmetric Sensorineural hearing loss and right pulsatile tinnitus possible acoustic neuroma or cholesteatoma; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; "There is not a sudden onset of one-sided weakness, speech impairment, vision defects or severe dizziness."; This is a request for a Neck MR Angiography.; The patient has had an abnormal ultrasound of the neck.	1

Otolaryngology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		This is a request for a head and neck MR Angiogram.; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; "There is not a sudden onset of one-sided weakness, speech impairment, vision defects or severe dizziness."; This patient does not have an abnormal ultrasound of the neck.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; The patient does not have a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection.; The doctor does not note on exam that the patient has delirium or acute altered mental status.; The patient does not have a Brain CT showing abscess, brain infection, meningitis or encephalitis.; This is NOT a Medicare member.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; It is not known if the tumor is a pituitary tumor or pituitary adenoma.	3
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	4
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Dr. is trying to r/o tumor. Sudden hearing loss, h/a's are increasing in frequency and severity. Unequal hearing loss-no hearing in left ear-sudden onset, tinnitus.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient does not have a sudden severe, chronic or recurring or a thunderclap headache.	1

Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		He has had the following previous treatments for this problem: Flonase, allergy meds, oral abx, steroid injection, nasal spray – tx for sinus and allergy do not seem to help  The patient states that the problem is he has been using Flonase daily for 4-5; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		hearing loss, ruling out brain tumor, vng will be schedule; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient is experiencing dizziness.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patient has has tinnitus of left ear for 3 months.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		pt has asymmetric Sensorineural hearing loss and right pulsatile tinnitus possible acoustic neuroma or cholesteatoma; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		She describes the symptoms as migraines, sinus drainage ie clear, ear pain and feel stopped up, sinus congestion, sinus pressure. immitrex, toradol.  She has had the following previous treatments for this problem: Zyrtec, OTC pain meds, Mucinex, Singula; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This is a request for an Internal Auditory Canal MRI.; There is a suspected Acoustic Neuroma or tumor of the inner or middle ear.	54

Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This is a request for an Internal Auditory Canal MRI.; There is not a suspected Acoustic Neuroma or tumor of the inner or middle ear.; There is not a suspected cholesteatoma of the ear.; The patient has not had a recent brain CT or MRI within the last 90 days.; There are no neurologic symptoms or deficits such as one-sided weakness, speech impairments, vision defects or sudden onset of severe dizziness.; This is a pre-operative evaluation for a known tumor of the middle or inner ear.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This is a request for an Internal Auditory Canal MRI.; There is not a suspected Acoustic Neuroma or tumor of the inner or middle ear.; There is not a suspected cholesteatoma of the ear.; The patient has not had a recent brain CT or MRI within the last 90 days.; There are no neurologic symptoms or deficits such as one-sided weakness, speech impairments, vision defects or sudden onset of severe dizziness.; This is not a pre-operative evaluation for a known tumor of the middle or inner ear.	4
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The patient did not have a normal audiogram.; The patient is experiencing hearing loss.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Requested due to trauma or injury.; There are new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	2
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	2
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing dizziness.	5
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing fatigue or malaise.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	1

Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has a congenital abnormality.; The patient has not undergone treatment for a congenital abnormality (such as hydrocephalus or craniosynostosis).; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; It is unknown why this study is being ordered.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has hearing loss.; The patient had an audiogram.; The results of the audiogram were abnormal.; It is unknown why this study is being ordered.	7
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for a tumor.	3
Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material		Coughing up blood (hemoptysis) describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material		CT of the neck and chest w contrast - L vocal cord paralysis  His reason for this visit is eval voice loss.  His problem has been present for approx four months.  He describes the problem as moderate in severity.  He describes the symptoms as voice lo; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material		Michael D. Magill is a 44 year old Caucasian/White male that presents at this time for: suture removal following bx of chest lesion on 4-03-18. The path demonstrates that this is a Clark's level 5 malignant melanoma. He was called on the phone to advise ; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material		new neck mass evaluation.; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Another abnormality led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This study is being requested for 'none of the above'.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material		Pre-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material		RESTAGING CANCER; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a more than 1 of the following; diagnostic test, imaging study, or biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Head/Neck Cancer.; The patient has Thyroid cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient is experiencing new signs or symptoms indicating a recurrence of cancer.; The patient does NOT have Thyroid or Brain cancer.; 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; The patient does NOT have Thyroid or Brain cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; There is existing evidence of metastasis or other tumor in the body.; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary		2
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; It is not known if the patient has been treated with medication.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; It is not known was medications were used in treatment.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; two plus right one to the left.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; patient falls/tenderness; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; It is not known was medications were used in treatment.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has been treatment or conservative therapy.; headache, numbness, tingling on lower extremity, blurred vision. BP is slightly elevated.; NSAIDS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10/4/2017; There has been treatment or conservative therapy.; low back pain, radiating to each side; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/22/18; There has been treatment or conservative therapy.; Lower back pain that radiates to back of leg, chronic intractable headaches, known arachoid cyst in brain; Muscle relaxers, exercise, anti inflammatory, Medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; don't know; There has been treatment or conservative therapy.; pain, numbness, limb pain; pain meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 12/16/18; There has been treatment or conservative therapy.; pain; PT, Medications.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 6/13/2016; There has been treatment or conservative therapy.; Severe Pain; Physical Therapy, medications, heating pads; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; Lumbar Spine 5/20/17; There has been treatment or conservative therapy.; persistent pain; physical therapy and chiropractic care; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.;	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.;	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.;; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	2
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; Pt. did do home exercises and limit movements. Also did oral meds.; OTC meds, Norco, Valium, and Toradol	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	2
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; None of the above; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1
Otolaryngology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	2
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	2
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	Allergic rhinitis, unspecified seasonality, unspecified trigger; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been less than 14 days since onset; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	chronic sinusitis; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for pre-operative evaluation.; Yes this is a request for a Diagnostic CT	14
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset AND the patient failed a course of antibiotic treatment; Yes this is a request for a Diagnostic CT	4
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	44

Otolaryngology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Room spinning. The problem quality is generalized. Patient reports dizziness severity as severe. Patient rates pain as no pain. Onset of dizziness was sudden. Patient's dizziness is intermittent. Progression of the dizziness is worsening. This pro; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
Otolaryngology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Disapproval	73706 Computed tomographic angiography, lower extremity, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary		1
Pediatric Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatric Oncology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatric Oncology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Evaluation prior to next stage of chemo; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatric Oncology	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Pediatrics	Approval	70450 Computed tomography, head or brain; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has not been any treatment or conservative therapy.; Headache, Blurred Vision.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Pediatrics	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; "There are recent neurological symptoms or deficits such as one-sided weakness, vision defects, speech impairments or sudden onset of severe dizziness."; This study is being requested for a recent head trauma or injury.	1
Pediatrics	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a chronic headache, longer than one month; Headache best describes the reason that I have requested this test.	2
Pediatrics	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a new onset of a headache within the past month; Headache best describes the reason that I have requested this test.	1
Pediatrics	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a suspected tumor outside the brain.; Known or suspected tumor best describes the reason that I have requested this test.	1
Pediatrics	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has Big head (Macrocephaly).; Known or suspected congenital anomaly best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Pediatrics	Approval	70486 Computed tomography, maxillofacial area; without contrast material		"This request is for face, jaw, mandible CT.239.8"; "There is a history of serious facial bone or skull, trauma or injury.fct"; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	70486 Computed tomography, maxillofacial area; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has not been any treatment or conservative therapy.; Headache, Blurred Vision.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		It is unknown if there is a suspicion of an infection or abscess.; This examination is NOT being requested to evaluate lymphadenopathy or mass.; It is unknown if there is a suspicion of a bone infection (osteomyelitis).; There is a suspicion of an orbit or face neoplasm, tumor, or metastasis.; This is a request for an Orbit MRI.; It is unknown if there is a history of orbit or face trauma or injury.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		5 yr old female pt w/ seizures and headaches since 12/17; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		EVALUATION OF MOTOR-CO-ORDINATION CONCERNS AND HYPOTONIA; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Gross motor delays and torticollis.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		na; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		NEW ONSET OF CLUSTER HEADACHES GRABBING BACK OF THE HEAD OCCURRING 2-3 TIMES A MONTH.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is not a new and sudden onset of a headache less than 1 week not improved by medications.; There is not a family history (parent, sibling, or child) of stroke, aneurysm, or AVM (arteriovenous malformation)	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Pt has a family hx of arnold chiari malformation.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	6
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	1

Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The patient has undergone treatment for a congenital abnormality (such as hydrocephalus or craniosynostosis).; The patient has a congenital abnormality.	2
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested due to trauma or injury.; There are new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has not been a previous Brain MRI completed.	2
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	2
Pediatrics	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	71555 Magnetic resonance angiography, chest (excluding myocardium), with or without contrast material(s)	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Pt has a family hx of arnold chiari malformation.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Pediatrics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	1
Pediatrics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Pt has a family hx of arnold chiari malformation.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Pediatrics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Pediatrics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Pt has a family hx of arnold chiari malformation.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Pediatrics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	2
Pediatrics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has had recent plain films of the shoulder.; The plain films were not normal.	1
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences			1
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Suspected meniscus, tendon, or ligament injury	3
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Swelling greater than 3 days	1
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Locking	1

Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Swelling greater than 3 days	2
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.; The patient is taking antibiotics.	1
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		unknown; This is a request for a foot MRI.; The study is not being ordered for foot pain, known dislocation, infection,suspected fracture, known fracture, pre op, post op or a known/palpated mass.	1
Pediatrics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1

Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	75557 Cardiac magnetic resonance imaging for morphology and function without contrast material;		This is a request for a heart or cardiac MRI	2
Pediatrics	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a chronic headache, longer than one month; Headache best describes the reason that I have requested this test.	1
Pediatrics	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a new onset of a headache within the past month; Headache best describes the reason that I have requested this test.	1
Pediatrics	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset; Yes this is a request for a Diagnostic CT	1
Pediatrics	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This patient is having intermittent facial weakness. Mom has noticed this over the past 2 months.  It is of mild intensity. He estimates that the frequency of this symptom is several times a month. Aggravating factors include talking/smiling. There is; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; February 8th, 2018; There has not been any treatment or conservative therapy.; Intermittent Facial Weakness. It is of mild intensity. He estimates that the frequency of this symptom is several times a month. Aggravating factors include talking/smiling. There is not constant facial weakness. They just notice that when he tries to sa; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; FATIGUE DUE TO EXCESSIVE EXERTION; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	pain since 01/01/2018; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has not been any treatment or conservative therapy.; back pain; numbness, arm ; bone pain also; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Pediatrics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	pain since 01/01/2018; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has not been any treatment or conservative therapy.; back pain; numbness, arm ; bone pain also; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has not been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
Pediatrics	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This request is not for follow up to abdominal and/or pelvic trauma ordered by a specialist or PCP on behalf of a specialist who has seen the patient.; There is no recent trauma with physical findings or abnormal blood work indicating either peritonitis or abscess.; There are no physical findings or lab results indicating an intra-abdominal bleed.; Trauma; &Enter Additional Clinical Information>; Yes this is a request for a Diagnostic CT	1
Physical Medicine	Approval	72125 Computed tomography, cervical spine; without contrast material		This study is to be part of a Myelogram.; This is a request for a Cervical Spine CT	1
Physical Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Physical Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Physical Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	1
Physical Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is an orthopedist.	1
Physical Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1

Plastic Surgery	Approval	70486 Computed tomography, maxillofacial area; without contrast material			1
Plastic Surgery	Approval	70486 Computed tomography, maxillofacial area; without contrast material		"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Plastic Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Pt has Carniosynostosis.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Plastic Surgery	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Suspected meniscus, tendon, or ligament injury	1
Plastic Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for known breast lesions.; There are benign lesions in the breast associated with an increased cancer risk.	1
Plastic Surgery	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Plastic Surgery	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1
Plastic Surgery	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Podiatry	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	1
Podiatry	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1

Podiatry	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	2
Podiatry	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a foot CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for None of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	18
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; 04/01/2018; There has been treatment or conservative therapy.; Numbness, pain radiating from buttocks to r hip. Pain in hip 8/10. Tenderness of L4. Limited ROM; Medication, PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; 3/2018; There has been treatment or conservative therapy.; numbness/tingling /weakness in lower extremities; meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; Enter date of initial onset here - 06-06-2017or Type In Unknown If No Info Given; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; Unknown; There has been treatment or conservative therapy.; Worsening bilateral upper extremity and bilateral lower extremity tingling and numbness.; Pain Management; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for Inflammatory/ Infectious Disease.; unknow; There has been treatment or conservative therapy.; neck pain, stiffness when waking up, headaches back pain, arm's tingling, leg pain; medication therapy, NSAIDS, muscle relaxers, gabapentin; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1-30-2016; There has been treatment or conservative therapy.; Chronic neck and back pain; Pt has been on pain meds since May 2016 and has been to pain management; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2 yrs; There has not been any treatment or conservative therapy.; sharp shooting stabbing pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2017; It is not known if there has been any treatment or conservative therapy.; 1. Degenerative disc disease, L5-S1, with axial low back pain, with pain into the left hip. 2. Left hip/groin pain. 3. Left hand pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal MRI 2015; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	BACK PAIN WITH PERIPHERAL NUMBNESS NOT IMPROVED WITH MEDICATION; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	BACK: L4 point tenderness with tapping causing shooting electric pains into the anterior knee and medial malleolus area into the medial ipsilateral toe,L5 point tenderness in which light tapping causes shooting pains in the dorum of the ipsilateral foot a; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Been on NSAIDs for 2 weeks with no help; Negative Xray; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Being referred to Neurosurgeon for consideration of surgery of Lumbar spine and needs reevaluation of the lumbar spine for this consultation.; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	C/o severe, acute onset low back pain that occurred last week when she sat down on the toilet. No numbness/tingling in her legs. No trauma/falls/swelling but has bruising low back b/l.  Lumbar back: She exhibits decreased range of motion and pain. S; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	cervical and thoracic tenderness and neck stiffness, limited range of motion, tenderness to palpitation of lumbar sacral spine, tenderness and pain to feet with ambulation; This study is being ordered for a neurological disorder.; 1/30/2018; There has been treatment or conservative therapy.; pain radiating down leg, neck pain, and lower back pain that radiates; anti inflammatory and pain medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic back and limb pain. Does a lot of kneeling at his job; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic back pain for 7 years, radiates to both legs, pain is sharp and affects daily routine activities; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	CHRONIC BACK PAIN; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; NO CHANGE 3 MONTHS; HYDROCODONE SOMA	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	CHRONIC BACK PAIN; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic low back pain, unspecified back pain laterality, with sciatica presence unspecified; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; The symptoms are aggravated by bending, coughing, lying down, position, standing, stress, sitting and twisting. Stiffness is present   Positive for activity change, appetite change, fatigue   arthralgias, back pain, gait problem, myalgias and neck s; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	chronic lower back pain with right sciatica; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	chronic middle and low back pain, takes hydrocodone for the pain. DDD with bulging disk l-spine in past; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic pain syndrome.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	chronic pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic right-sided low back pain with right-sided sciatica.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic worsening back pain and degenerative back disease.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Complains again of chronic back pain, worsening. Bilateral low back, radiates down both legs with numbness feeling in legs at times. Seems worse after he has been sitting or laying for a while and goes to stand up.  MRI in 2015 showed moderate central l; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Complains of low back pain. It started March 17 when she sneezed. Acute pain onset then and has continued since then. Spends most of her time sitting or laying due to pain. No radiation into her legs.&#xOD; Reports she went to WRMC ER the day this started. Had; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	complaints of increased pain in her back- has arthritis in her back- states "my back goes out every so often." States pain started last week. No known injury- no recent lifting/falls. Pain described as sharp- reports the pain shoots across her low back, d; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
Podiatry	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a foot CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient does not have a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Podiatry	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for an ankle CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; The patient has a documented limitation of their range of motion.; This study is being ordered by the operating surgeon for pre-operative planning.; Yes this is a request for a Diagnostic CT	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		"There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.; This is a request for bilateral foot MRI.; Has a Neuroma in each foot	2
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		"There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.; This is a request for bilateral foot MRI.; soft mass in arch of both feet	2

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		"There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.; This is a request for bilateral foot MRI.; Unkown	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a foot MRI.; The study is not being ordered for foot pain, known dislocation, infection,suspected fracture, known fracture, pre op, post op or a known/palpated mass.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Ankle MRI.; Surgery or arthrscopy is not scheduled in the next 4 weeks.; There is not a suspicion of fracture not adequately determined by x-ray.; The study is requested for ankle pain.; Tendon or ligament injuryis not suspected.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Ankle MRI.; The study is not requested for any of the standard indications for Knee MRI; The study is requested for a reason other that ankle pain.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		patient had posterior tibial tendon repair on this left ankle 3/20/2018- was improving but RTC on 5.14.18 with complaint of new intense pain; This is a request for an Ankle MRI.; Surgery or arthrscopy is not scheduled in the next 4 weeks.; There is not a suspicion of fracture not adequately determined by x-ray.; The study is requested for ankle pain.; Tendon or ligament injuryis not suspected.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		PHYSICAL EXAM FINDINGS/X-RAY FINDINGS: LOCALIZED EDEMA, MEDIAL MIDFOOT; ACUTE PAIN ON PALPATION OF NAVICULAR TUBEROSITY RIGHT; X-RAYS NEGATIVE FOR DEFINITE FRACTURE;; This study is being ordered for trauma or injury.; 06/06/2018; There has been treatment or conservative therapy.; SUDDEN ONSET OF EXCRUCIATING PAIN RIGHT MEDIAL MIDFOOT FOLLOWING RUNNING; WITH SWELLING AND BRUISING.; IMMOBILIZATION WITH CAM-WALKER, NSAID; STEROID DOSE-PACK; DISCONTINUATION OF ACTIVITIES;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.	2
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	2
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient does not have a documented limitation of their range of motion.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient has a documented limitation of their range of motion.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient has a documented limitation of their range of motion.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.	6
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	5
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; This study is not being ordered by an operating surgeon for pre-operative planning.	1

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient had an abnormal plain film study of the ankle other than arthritis.; There is not a suspected tarsal coalition.; The patient does not have a documented limitation of their range of motion.	8
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is a suspected tarsal coalition.	2
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.	8
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; This study is being ordered by the operating surgeon for pre-operative planning.	1

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient had an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient had an abnormal plain film study of the ankle other than arthritis.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.	2
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; Surgery or arthroscopy is scheduled in the next 4 weeks.; It is not known if there is a suspicion of fracture not adequately determined by x-ray.; The study is requested for ankle pain.; It is not known if there is a suspicion of tendon or ligament injury.	1
Podiatry	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Podiatry	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary		2
Podiatry	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1
Podiatry	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.	1

Psychiatry	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Psychiatry	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	anorexia; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The results of the lab tests are unknown.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Pulmonary Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		follow up for hilum; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Pulmonary Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; copd and sinusitis; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pulmonary Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is immune-compromised.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		"There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They did not have a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	2

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	6
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is 54 years old or younger.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		; The patient is NOT presenting new signs or symptoms.; "There is radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; It is unknown if there is radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10/2017; There has been treatment or conservative therapy.; pt has a dry cough described as hacking that has been going on for over 6 months. It causes him to be short of breath. He has tried medications with no relief; pt has tried folnase, proAir inhaler, Qvar Inhaler, and Tessalon Perles; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		3 nodules in left lung 7mm. it hasn't changed; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal pulmonary function test, restrictive lung, shortness of breath; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Assessment: Recurrent bronchitis-my suspicion is that this represents poorly controlled asthma. If she truly has that many infections then she really does have some sort of immunological issue. Because of her history of pneumonia at an early age, the p; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; This study is being requested for suspicion of pulmonary embolism (PE); This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		lung abscess and lung nodules; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		LUNG NODULE SURVEILLANCE; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Abnormal bronchoscopy finding was relevant in the diagnosis or suspicion of inflammatory lung disease; This study is being requested for known or suspected inflammatory disease such as sarcoidosis, pneumoconiosis, asbestosis, silicosis; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; An abnormal bronchoscopy finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Known tumor and new symptoms involving the chest, chest wall, lung or pelvis is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; 'None of the above' are related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	3
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Surveillance of a known cancer following treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; The patient had an abnormal finding on physical exam related to the suspicion of cancer.; This is a request for a Chest CT.; This study is beign requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; The patient had an abnormal imaging (xray) finding related to the suspicion of cancer in th is patient.; This is a request for a Chest CT.; This study is beign requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	4
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is 54 years old or younger.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This reason this study is being requested is unknown.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This study is being requested for an unresolved cough; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	3
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This study is being requested for 'none of the above'; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	14
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		pat has 2 pulmonary nodules, patient is a smoker; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Patient's last Chest CT was performed on 1/2/18 which showed multiple lung nodules. There is 6mm noncalcified in right lower lobe and 3mm noncalcified nodule in left upper lobe; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Post-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Pre-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	6
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	pt is short of breath and had a chest xray that showed interstitial markings; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	shortness of breath, chest pain, interstitial lung disease; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	solitary nodule of lung; noted on cxr. high risk patient; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	surveillance of a known nodule; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	The patient is presenting new signs or symptoms.; "There is radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; It is unknown if there is radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	The patient is presenting new signs or symptoms.; "There is radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	There is a known tumor.; Surgery is scheduled within the next 30 days.; A Chest/Thorax CT is being ordered.; The patient is NOT having an operation on the chest or lungs.; The study is being ordered for none of the above.; This study is being ordered for a pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	There is radiologic evidence of mediastinal widening.; A Chest/Thorax CT is being ordered.; This study is being ordered for vascular disease other than cardiac.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	This CT is to rule out interstitial lung disease. Patient reports cough with white phlegm, wheezing, chest tightness, intermittent pain to left side with respiration, and dyspnea.; patient had Pulmonary function test on 6/4/18 which showed FVC 49 and FEV1; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		This is a request for a Thorax (Chest) CT.; Abnormal imaging test describes the reason for this request.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		This is follow up exam for pulmonary nodule in a patient with COPD. Previous CT was performed in November 2017.; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		TO FOLLOW UP ON POSSIBLE INFECTION POST ANTIBIOTIC TREATMENT.; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		unknown; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	3
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		WILL FAX IN; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has not been any treatment or conservative therapy.; SOB Increased cough and wheezing; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pulmonary Medicine	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		This study is requested to evaluate suspected pulmonary embolus.; This study is requested to evaluate suspected pulmonary embolus.; Yes, this is a request for a Chest CT Angiography.; Yes, this is a request for a Chest CT Angiography.	1
Pulmonary Medicine	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		This study is requested to evaluate suspected pulmonary embolus.; Yes, this is a request for a Chest CT Angiography.	16
Pulmonary Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material			3
Pulmonary Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Pulmonary Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/2010; There has been treatment or conservative therapy.; unknown; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pulmonary Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has not had other testing done to evaluate new or changing symptoms.; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; There are new or changing cardiac symptoms including atypical chest pain (angina) and/or shortness of breath.; There is known coronary artery disease, history of heart attack (MI), coronary bypass surgery, coronary angioplasty or stent.; The member has known or suspected coronary artery disease.; The BMI is 20 to 29	1
Pulmonary Medicine	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		1
Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	lung cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; A nodule of less than 4 centimeters has not been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; This study is being requested for Lung Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	5
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	degenerative changes on xray pain is worsening, patient is unable to stand for grooming and showering. missing work due to pain; This study is being ordered for trauma or injury.; 06/07/18 pain began in back worsening over the week, failed muscle relaxers, anti-inflammatory and rest. Pain is beginning to radiate down leg. Degenerative changes on xray; There has been treatment or conservative therapy.; pain on left side of back unable to stand for periods of time, pain radiating down leg; muscle relaxers, anti-inflammatories, rest, heat.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Dx with low back pain; reason for visit: Pain. The discomfort is most prominent in the lumbar spine. She states that the current episode of pain started 2 months ago. She does not recall any precipitating event or injury. Other details: Patient also r; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Enter answer here -   chronic low back pain with bilateral sciatica for more than 6 weeks.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Failed treatment with Nsaids, Steroids, and PT.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	four wheeler roll over (ATV).; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Weakness on both lower extremity numbness in buttocks, gait problems, difficulty walking, hard to stand; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	frequent headaches and low back pain.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	had MRI in 2016; showed bulging discs; largest at L4-L5.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Hip joint pain on the left, hip joint stiffness causing difficulty crossing the legs, causing difficulty with the sitting position, the hip suddenly 'locked up' on the left, the hip catches during movement on the left, and deep pain in the greater trochan; This study is being ordered for a neurological disorder.; Unknown; There has been treatment or conservative therapy.; Hip joint pain on the left, hip joint stiffness causing difficulty crossing the legs, causing difficulty with the sitting position, the hip suddenly 'locked up' on the left, the hip catches during movement on the left, and deep pain in the greater trochan; previous NSAIDS before bleeding ulcer became active, also previously on Neurontin 300 mg QID, Flexaril 10 mg TID PRN, Physical therapy until DVT in LLE, currently on Lyrica 100 mg TID, and Oxycodone 10 mg QID, Zanaflex 4 mg Q 6 hours PRN, Votaren 1% gel ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	interference with sleep; interference with work (works at Valero, works as cashier.she is reporting her pain is getting worse , she cant do a lot of routine activities. mother of 2 young girls , 4 and 6 year old, cant be active with them also affects her; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Ashley is seen today for complain of having chronic back pain, getting worse. She wants to be seen by pain management as she feels that her activities of daily living are being affected by her pain.pain radiating to the legs (It more than Rt); low back, n; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Low back pain after motor vehicle accident; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Low back pain for 9 months, PT in 2017; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Low back pain noted. The discomfort is most prominent in the lumbar spine. This radiates to the right posterior thigh. She characterizes it as constant. She does not recall any precipitating event or injury. Associated symptoms include numbness in th; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	LOW BACK PAIN Dx: Bilateral low back pain with right-sided sciatica, unspecified chronicity; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	low back pain other intervertebral disc displacement hx bulging disc to lumbar spine worsening pain; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.; Carvedilol Loratadine Lasix Gabapentin Metformin MethIMazole Zithromax ProAIR	1
Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Brain Cancer/Tumor or Mass.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Pulmonary Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; This request is for initial evaluation of a murmur.; The murmur is NOT grade III (3) or greater.; There are clinical symptoms supporting a suspicion of structural heart disease.	1
Pulmonary Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; It is unknown if the patient has a history of a recent heart attack or hypertensive heart disease.	1
Pulmonary Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient has a history of hypertensive heart disease.; There is a change in the patient's cardiac symptoms.	1
Pulmonary Medicine	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING			2

Pulmonary Medicine	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	1
Pulmonary Medicine	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	9
Pulmonary Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	pt has a headahce, and abnormal CT; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Pulmonary Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a new onset of a headache within the past month; Headache best describes the reason that I have requested this test.	1
Pulmonary Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Lower back and leg pain. Described as achy and shooting at times. No relief from heat, ice, rest and pain medications.....To see if the disc disease or radiculopathy has worsened and to review for further treatment.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	LOWER BACK PAIN THAT HAS WORSENERD OVER THE LAST MONTH. PAIN IS A 5/10. DEGENERATION OF LUMBAR INT DISC; NARROWING OF INT DISC SPACE; BACK PAIN WITH RADICULOPATHY; PAIN RADIATES DOWN LEG AND NUMBS FOOT; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; LOWER BACK PAIN THAT HAS WORSENERD OVER THE LAST MONTH. PAIN IS A 5/10. DEGENERATION OF LUMBAR INT DISC; NARROWING OF INT DISC SPACE; BACK PAIN WITH RADICULOPATHY; PAIN RADIATES DOWN LEG AND NUMBS FOOT; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Lower back pain; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Lumbar back pain; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Lumbar pain Lumbar tenderness decreased range of motion weakness compromised adl and work ability; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; pt exhibits lumbar tenderness and decreased range of motion. unable to work or complete daily tasks r/t pain. xray shows degenerative disc disease and facet arthrop; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Lumbosacral spondylosis without arthropathy   RADIOLOGY: I have ordered (There is documentation of the patient completing and failing a 4-6 week trial of P.T. and/or NSAIDS.), MRI lumbar spine w/o contrast to be done. Has been on meloxicam since Mar; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; upper back pain and Lumbosacral spondylosis without arthropathy   I have ordered (There is documentation of the patient completing and failing a 4-6 week trial of P.T. and/or NSAIDS.), MRI lumbar spine w/o contrast to be done. Has been on meloxicam ; There has been treatment or conservative therapy.; abnormal T/spine imaging - pain in upper/mid back Tenderness over bilateral thoracic paraspinous muscles. No spasm. Left shoulder 1 cm higher than right. . Mild scoliosis when bends over higher on left side. . No numbness FROM without discomfo; Lumbosacral spondylosis without arthropathy   RADIOLOGY: I have ordered (There is documentation of the patient completing and failing a 4-6 week trial of P.T. and/or NSAIDS.), MRI lumbar spine w/o contrast to be done. Has been on meloxicam since Mar; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pulmonary Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	11
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	chronic cough, patient is a smoker; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	family hx of lung cancer; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1

Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	follow up for hilum; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; An abnormal imaging (xray) finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient has signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	none; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	PE and to evaluate nodule, dizziness. ; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days.;" They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Unexplained weight loss describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	M54.5: Low back pain, The pt continues to have pain to the right lower back, right hip and have signs of lumbar radiculopathy despite prior treatment. I will start him on a trial of gabapentin. I will stop the prednisone and Flexeril. I will order right h; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; He has been tried on ibuprofen and only as needed tramadol, but this is not enough per the pt. He does not feel the prednisone and cyclobenzaprine help much. The pt continues to have pain despite the treatment.  Symptoms are worse with: "anything as far	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Musculoskeletal: Positive for back pain.  Neurological: Positive for numbness.  Lumbar back: He exhibits decreased range of motion, tenderness, swelling, pain and spasm.; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	n/a; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	New onset back pain, with radiation to the right side, along with numbness.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; New onset of lower back pain, radiation to the right side, with numbness.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	no feeling in legs, falling; This study is being ordered for trauma or injury.; unknown; There has been treatment or conservative therapy.; weakness, numbness, tingling; spine injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	No info given.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Pulmonary Medicine	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Pulmonary Medicine	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/8/2018; There has not been any treatment or conservative therapy.; increased shortness of breath, right lung volume loss, increase in restriction, adalic, nicotine addiction.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pulmonary Medicine	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	Unknown; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	1
Radiation Oncology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a known brain tumor.; Known or suspected tumor best describes the reason that I have requested this test.; There are documented neurologic findings suggesting a primary brain tumor.; This is NOT a Medicare member.	2
Radiation Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Radiation Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	2
Radiation Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	2
Radiation Oncology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		"This is a request for orbit,face, or neck soft tissue MRI.239.8"; The study is ordered for suspicion of neoplasm, tumor or metastasis	1
Radiation Oncology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Radiation Oncology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		Scans are being requested for pre-op planning for SRS stereotactic radiosurgery.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	None; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	none; The study requested is a Lumbar Spine MRI.; None of the above; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PAIN AND NUMBNESS FOR THE PAST 6 WEEKS.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PAIN FOR 5-7, lumbar pain with radiation across abdomen. Had extensive GI and urology workup with no significant findings of source of pain; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	pain in lower back radiates down to legs, degeneration of discs at L5 S1 level, fibromyalgia; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	pain in the back reoccurring; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pain.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; N/A	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	paralysis in right groin area; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	parathesia in lower extremities; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; weakness with lifting, bending, twisting and walking, weakness in bilateral legs; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	past year lower back pain and right leg numbness; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; It is not known if there are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; It is not known if there is a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patient has been treated with SRS for a brain mets. Scan is requested to followup from SRS treatments; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; It is not known if the tumor is a pituitary tumor or pituitary adenoma.	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patient has had a dramatic response to treatments thus far. New scans are being requested for replanning purposes.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Scans are being requested for pre-op planning for SRS stereotactic radiosurgery.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	2

Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.	2
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; This study is being ordered for a tumor.	2
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This scan is being requested for pre-op planning for stereotactic surgery; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material			1
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material		A Chest/Thorax CT is being ordered.; This study is being ordered for known tumor.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	3
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Surveillance of a known cancer following treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1

Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material		Restaging with continued complaints of dizziness and headaches.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material		stage 4 a cervical cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Radiation Oncology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		breast cancer with possible spine metastasis. radiation planning; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	1
Radiation Oncology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		breast cancer with possible spine metastasis. radiation planning; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	1
Radiation Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		Pt has prostate cancer. Pt will be receiving SBRT w/ IMRT radiation therapy and will be have spaceoers placed. Evaluating placement of spaceoers and fiducials before starting radiation; This is a request for a Pelvis MRI.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; An abnormality was found in something other than the bladder, uterus or ovary.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
Radiation Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	4
Radiation Oncology	Approval	74150 Computed tomography, abdomen; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; Yes, this is a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	1
Radiation Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1

Radiation Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiation Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; 1 PET Scans has already been performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Head/Neck Cancer; This Pet Scan is being requested for Subsequent Treatment Strategy (Restaging and Monitoring response to treatment); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiation Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Radiation Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiation Oncology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Radiation Oncology	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; It is unknown if the patient completed a course of treatment initiated in the last 8 weeks or are experiencing new signs or symptoms.; The patient does NOT have Thyroid or Brain cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		patient following up with worsening symptoms after having vascular stents placed previously; This study is being ordered for Vascular Disease.; Unknown; There has been treatment or conservative therapy.; Dizziness, headaches, falls; Patient undergone prior vascular stenting procedures.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Radiology	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		This study is requested to evaluate suspected pulmonary embolus.; Yes, this is a request for a Chest CT Angiography.	1
Radiology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		PT HAS FEVER AND REDNESS IN AREA.; This is a request for a thoracic spine MRI.; Follow-up to Surgery or Fracture within the last 6 months; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.; There has not been a recurrence of symptoms following surgery.; The patient been not been seen by or is not the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	1
Radiology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	1
Radiology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		Uterus thyroids; This is a request for a Pelvis MRI.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; An abnormality was found in the uterus.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
Radiology	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; Yes, this is a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT	2
Radiology	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT	1
Radiology	Approval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing		This is a request for CT Angiography of the Abdomen and Pelvis.	1
Radiology	Approval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the abdomen.	1
Radiology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		surveillance of cancer; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Radiology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1

Radiology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; It is not known if the patient is presenting new symptoms.; The patient has had 3 or fewer follow-up abdomen MRIs.; This study is being ordered for follow-up.; It is not known if the patient is undergoing active treatment for cancer.; "The ordering physician is not an oncologist, urologist, gastroenterologist, or surgeon."; unknown	1
Radiology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon.";	1
Radiology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; Patient with hepatocellular carcinoma being treated for HCC and being evaluated for a liver transplant.	1
Radiology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Chirrosis, abnormal lab liver function tests, CT Scan shows mass on liver	1
Radiology	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the abdominal arteries.	2
Radiology	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; It is unknown if the patient is presenting with pulmonary signs or symptoms of lung cancer or if there are other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	4
Radiology	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	3
Radiology	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	; This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is 54 years old or younger.; It is unknown if the patient is presenting with pulmonary signs or symptoms of lung cancer or if there are other diagnostic test suggestive of lung cancer.; Patients who are NOT between the ages of 55 and 81 years of age do not meet the criteria for lung cancer screening.	1
Rehabilitations	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	1

Rehabilitations	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; clinically, the patient has fairly significant myotome weakness on examination which represents an abrupt change in neurologic status, likely representative of acute radiculopathy due to intervertebral disc herniation. I would not recommend conservative m; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Rehabilitations	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Rehabilitations	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rehabilitations	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		She presents today to follow-up after L-spine MRI which is normal and does not account for right objective weakness and numbness. She is 2 weeks postpartum, S/P epidural concerning for hematoma and cord compression. This represents a severe, abrupt change; This is a request for a thoracic spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Ms. Edmondson developed numbness and severe weakness in the right leg, which began after delivering her baby 2 weeks ago. This represents a severe, abrupt change in neurologic status with significant weakness, reflex impairment, and gait instability. She; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1
Rehabilitations	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Rehabilitations	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Axial back pain consistent with possible internal disc disruption L5-S1 versus L4-5 with facet joints ruled out. Lower limb and hip girdle pain may be more consistent with intrinsic hip pathology with no therapeutic or anesthetic response to trochanteric; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; Axial back pain consistent with possible internal disc disruption L5-S1 versus L4-5 with facet joints ruled out. Lower limb and hip girdle pain may be more consistent with intrinsic hip pathology with no therapeutic or anesthetic response to trochanteric	1
Rehabilitations	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Ms. Gee presented 5/2018 with several months of "sharp, aching, throbbing" axial back pain with "burning and tingling" pain radiating into bilateral legs; aggravated with sitting or standing, laying supine, exercise, ambulation; alleviated with positional; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
Rehabilitations	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Plain films L-spine AP/lateral 4/11/2018 imported into OA - on my review, there is some mild endplate sclerosis and disc height loss at L1-2 and L2-3 in comparison to adjacent segments, with early anterior osteophytic changes; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; As his left leg weakness and reflex impairment does represent an abrupt change in neurologic status; as such I would recommend we defer conservative management techniques for the time being and obtain a lumbar MRI to better delineate the likely underlying; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Rehabilitations	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Rehabilitations	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; The member has failed a 4 week course of conservative management in the past 3 months.; The hip pain is chronic.; The request is for hip pain.	1
Rehabilitations	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.; It is not known if the patient had six weeks of Chiropractic care related to this episode.; UNKNOWN	1

Rheumatology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the brain.	1
Rheumatology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Rheumatology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Rheumatology	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Rheumatology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.	1
Rheumatology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; <Enter Additional Clinical Information>; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Rheumatology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	1
Rheumatology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of abnormal gait.	1
Rheumatology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		labral tear of left hip, weakness of her limbs, lumbar spondylosis, left lower back and groin pain , tenderness of hip; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Rheumatology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	8
Rheumatology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	3
Rheumatology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	2
Rheumatology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		UNKNOWN; This study is being ordered for Inflammatory/ Infectious Disease.; 06/28/2017; There has been treatment or conservative therapy.; PAIN, WEAKNESS, AND TENDERNESS; PHYSICAL THERAPY, NSAIDS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)			1
Rheumatology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		chronic back pain, SI Joint x ray was performed on 04/09/2018; This is a request for a Pelvis MRI.; The study is being ordered for joint pain or suspicion of joint or bone infection.; The study is being ordered for arthritis.	1
Rheumatology	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		; This study is being ordered for Inflammatory/ Infectious Disease.; Patient was referred to our office and was seen 5/21/18.; There has been treatment or conservative therapy.; Ms. Walls is a 56 year old female who comes on referral of Dr. Jack Fendley for systemic lupus evaluation. She has a positive CCP of 250, positive ANA of 1:40 homogenous, and a SED rate of 67. She states that in March, she had elevated lab studies. She st; Prednisone therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		; This study is being ordered for Inflammatory/ Infectious Disease.; see clinicals; There has been treatment or conservative therapy.; ; see clinicals; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Rheumatology	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is a preoperative or recent postoperative evaluation.	1

Rheumatology	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is no suspicion of upper extremity bone or soft tissue infection.; The ordering physician is not an orthopedist.; There is not a history of upper extremity trauma or injury.	1
Rheumatology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 03/12/2018; There has been treatment or conservative therapy.; LOCKING AND POPPING IN KNEE. LIMITED RANGE OF MOTION IN R SHOULDER AND LEFT KNEE; PT 03/16/2018; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		; This study is being ordered for Inflammatory/ Infectious Disease.; Patient was referred to our office and was seen 5/21/18.; There has been treatment or conservative therapy.; Ms. Walls is a 56 year old female who comes on referral of Dr. Jack Fendley for systemic lupus evaluation. She has a positive CCP of 250, positive ANA of 1:40 homogenous, and a SED rate of 67. She states that in March, she had elevated lab studies. She st; Prednisone therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		BILATERAL MRI JOINT UP EXT SHOULDERS, History / Dx:M25.512 Pain in left shoulder History / Dx:M25.511 Pain in right shoulder, 3. bilat shoulder x-ray: bilat shoulder normal glenohumoral joints. mild osteoarthritis changes on the AC joints bilat; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Rheumatology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		seropositive rheumatoid arthritis; This study is being ordered for Inflammatory/ Infectious Disease.; Unknown; There has been treatment or conservative therapy.; Diffuse pain through her joints.; Methotrexate, Tramadol, gabapentin; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.	2
Rheumatology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 03/12/2018; There has been treatment or conservative therapy.; LOCKING AND POPPING IN KNEE. LIMITED RANGE OF MOTION IN R SHOULDER AND LEFT KNEE; PT 03/16/2018; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Rheumatology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.	1
Rheumatology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Locking	1
Rheumatology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	1
Rheumatology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; There is a suspicion of fracture not adequately determined by x-ray.; The study is requested for ankle pain.; Tendon or ligament injury is not suspected.	1
Rheumatology	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a request for a hip MRI.; The member has failed a 4 week course of conservative management in the past 3 months.; The hip pain is chronic.; The request is for hip pain.	2
Rheumatology	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a request for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is receiving long-term steroid therapy (Prednisone or Cortisone).; The patient has a documented limitation of their range of motion.	1
Rheumatology	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a kidney/ureteral stone.; There is a known or a strong suspicion of kidney or ureteral stones.; Yes this is a request for a Diagnostic CT	1
Rheumatology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has been completed.; The results of the contrast/barium x-ray were normal.; The patient had an endoscopy.; The endoscopy was normal.; Yes this is a request for a Diagnostic CT	1

Rheumatology	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Pulmonary Hypertension.	1
Rheumatology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The headache's character is unknown.; Headache best describes the reason that I have requested this test.	1
Rheumatology	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Rheumatology	Disapproval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)	Radiology Services Denied Not Medically Necessary	positive tuberculosis test; This study is NOT being ordered for a Work-up for Suspicious Mass, Known Tumor, Known or Suspected Inflammatory Disease, etc...; This is a request for a chest MRI.	1
Rheumatology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary		1
Rheumatology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	1
Rheumatology	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	None; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Rheumatology	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Ms. Talley is a 43 year old female who comes on referral of Dr. Pruitt for evaluation. She states that she has unusual lab studies. She reports a history of OA knees. She also reports left foot arthritis. She reports that she has pain throughout her entire; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 8/23/17; There has been treatment or conservative therapy.; Clinicals will be faxed.; Clinicals will be faxed.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Rheumatology	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Ms. Talley is a 43 year old female who comes on referral of Dr. Pruitt for evaluation. She states that she has unusual lab studies. She reports a history of OA knees. She also reports left foot arthritis. She reports that she has pain throughout her entire; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 8/23/17; There has been treatment or conservative therapy.; Clinicals will be faxed.; Clinicals will be faxed.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	However, we did obtain an upright abdominal x-ray which showed several air-fluid levels. She's abdominal surgeries concerning for adhesions and for this reason we will send for a CT scan of her abdomen and pelvis for further evaluation. She understands th; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; It is not known if the urinalysis was positive for bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Sports Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	5
Sports Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	2
Sports Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Sports Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; There is evidence of tumor or metastasis on a bone scan or x-ray.; Suspected Tumor with or without Metastasis	1
Sports Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; the patient was treated with a facet joint injection.	1
Sports Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	15

Sports Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is an orthopedist.	2
Sports Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; The study is being ordered for foot pain.; The study is being ordered for chronic pain.; The patient has had foot pain for over 4 weeks.; The patient has been treated with a protective boot for at least 6 weeks.	1
Sports Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Instability	1
Sports Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Suspected meniscus, tendon, or ligament injury	9
Sports Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; None of the above; bypassing the clinicals; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Sports Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for a neurological disorder.; Unknown; There has been treatment or conservative therapy.; chronic pain arthritis joint pain from movement; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Sports Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; + 6 months; There has been treatment or conservative therapy.; chronic low back/thoracic spine w/movement; unable to stand for long periods; intermediate pain w/bending; pain traveling from lumbar spine to l/leg; Physical Therapy xs Nov 2017 - March 2018;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Sports Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for a neurological disorder.; Unknown; There has been treatment or conservative therapy.; chronic pain arthritis joint pain from movement; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Sports Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Sports Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; < Describe treatment / conservative therapy here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	70336 Magnetic resonance (eg, proton) imaging, temporomandibular joint(s)		This is a request for a temporomandibular joint MRI.	1
Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	1
Surgery	Approval	70486 Computed tomography, maxillofacial area; without contrast material		"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	70486 Computed tomography, maxillofacial area; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has not been any treatment or conservative therapy.; PAIN; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	70490 Computed tomography, soft tissue neck; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/01/2018; There has not been any treatment or conservative therapy.; ASYMPTOMATIC; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Surgery	Approval	70490 Computed tomography, soft tissue neck; without contrast material	r/o or evaluate for cancer; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	2
Surgery	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/30/2018; It is not known if there has been any treatment or conservative therapy.; Carotid stenosis; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Surgery	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the Neck.	4
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	; This study is being ordered for Vascular Disease.; 10/22/17; There has been treatment or conservative therapy.; S/P Aortic root and ascending aortic replacement with a 25 mm ATS valved conduit (28 mm Dacron tube graft, hemi arch fashion) Cont anticoagulation, f/u by local cardiologist. RTN to see me in 6 mo with a CT chest (IV contrasted) and ECHO.; I have examined her, she has Marfan's syndrome, and had aortic root aneurysm. We have replaced her ascending aorta and aortic root with a 25 mm ATS valved conduit that has a 28 mm Dacron tube graft to replace the ascending aorta in a hemi arch fashion wit; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	4
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	Lung nods on chest.; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Initial staging prior to treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material		Pre-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material		r/o or evaluate for cancer; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material		unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; chest pain 1 month ago, abdominal pain started 1 week ago.; There has been treatment or conservative therapy.; stabbing pain in her chest, abdominal pain with nausea and vomiting.; NSAIDS, rest, ice and steroids; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		< Enter answer here - or Type In Unknown If No Info Given. > It is not known whether this study is requested to evaluate suspected pulmonary embolus.; This study is being ordered for another reason besides Known or Suspected Congenital Abnormality, Known or suspected Vascular Disease.; Yes, this is a request for a Chest CT Angiography.	1
Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		This study is requested to evaluate suspected pulmonary embolus.; Yes, this is a request for a Chest CT Angiography.	2
Surgery	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)		This study is being ordered for pre-operative evaluation.; The ordering physician is an oncologist, surgeon, pulmonologist, or cardiologist.; This is a request for a chest MRI.	1
Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Yes, this patient had a recent course of supervised physical Therapy.	1
Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist."; The study is being ordered due to follow-up to surgery or fracture within the last 6 months.	1

Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		none; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered because of a suspicious mass/ tumor.; "The patient has had a pelvic ultrasound, barium, CT, or MR study."; This is a request for a Pelvis CT.; There are NO documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material		On physical exam, difficult to palpate a definate hernia.  Past Inguinal Surgery:The patient reports having a previous inguinal hernia surgery. The surgery was ipsilateral, and took place approximately 35 years ago. He states the repair was of an unknown; This study is being ordered as pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material		Patient had developed onset of acute bulge in the right inguinal region has now somewhat resolved after delivery of her infant.No Definite bulges as Valsalva not detected today. We will obtain CT pelvis in follow-up after above 1. Inguinal pain R10.2: P; This study is being ordered because of a suspicious mass/ tumor.; "The patient has NOT had a pelvic ultrasound, barium, CT, or MR study."; This is a request for a Pelvis CT.; There are NO documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material		patient has history of 5 c sections and hysterectomy. after the hysterectomy she developed a fluid collection or potential abscess. she continues to have tenderness and there is asymmetry to the right lower abdomen. need more imaging to identify what it i; This study is being ordered as pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Inflammatory/ Infectious Disease.; 03/09/2018; There has been treatment or conservative therapy.; CHRONIC DIARRHEA , ABDOMINAL PAIN; MEDI CATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		Because of his complicated course and recurrent abscesses, I will re-image his abdomen again in about 2 weeks. The family requests we consider MR rather than CT to reduce radiation exposure, I think this is reasonable & we will arrange for this.40 y/o ma; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for evaluation of the pelvis prior to surgery or laparoscopy.	1
Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		unknown; This is a request for a Pelvis MRI.; The patient has NOT had previous abnormal imaging including a CT, MRI or Ultrasound.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1

Surgery	Approval	73200 Computed tomography, upper extremity; without contrast material		This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	3
Surgery	Approval	73200 Computed tomography, upper extremity; without contrast material		This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is not suspicion of upper extremity bone or joint infection.; The ordering physician is an orthopedist or rheumatologist.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		11 weeks status post a right carpal tunnel release, right thumb and wrist foreign body removal's, bilateral first CMC joint intra-articular steroid injections, Left carpal tunnel injection, and right wrist intra-articular steroid injection with continued ; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/1/2017; There has been treatment or conservative therapy.; Sharp stabbing pain, but also fire and electricity; Over-the-counter braces continuously with his activities. Diclofenac, Medrol dose pack, Gabapentin, pain medicine, surgery; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is a preoperative or recent postoperative evaluation.	9
Surgery	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is suspicion of upper extremity bone or soft tissue infection.	2
Surgery	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is suspicion of upper extremity neoplasm or tumor or metastasis.	1

Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	11 weeks status post a right carpal tunnel release, right thumb and wrist foreign body removal's, bilateral first CMC joint intra-articular steroid injections, Left carpal tunnel injection, and right wrist intra-articular steroid injection with continued ; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/1/2017; There has been treatment or conservative therapy.; Sharp stabbing pain, but also fire and electricity; Over-the-counter braces continuously with his activities. Diclofenac, Medrol dose pack, Gabapentin, pain medicine, surgery; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	12 months status post right carpal tunnel release and 6.5 months status post left carpal tunnel release. She presents today stating that she's never really gotten any relief after carpal tunnel releases and that her hands feel weak, have pain, and can rad; This study is being ordered for Inflammatory/ Infectious Disease.; 04/03/2017; There has been treatment or conservative therapy.; Weakness, pain with radiation; Carpal tunnel injections, NSAIDs, exercises, bracing and surgery; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Mass of the left hand, the ulnar dorsal aspect of the first CMC joint. A suspected ganglion cyst from the CMC joint. Minimal radiographic changes in the first CMC joint but a very shallow saddle contour to the distal aspect of the trapezium.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/01/2018; It is not known if there has been any treatment or conservative therapy.; Painful mass in the first webspace near base.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	1
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.	5

Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.	2
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has not been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	1
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.	2
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.	1
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.	1
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.	1
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	2

Surgery	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a preoperative or recent postoperative evaluation.; This is a request for a Leg CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.	1
Surgery	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.	2
Surgery	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The plain films were not normal.; EFFUSION; Known or Suspected Joint Infection	1
Surgery	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.	1
Surgery	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.	1
Surgery	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is a mass near the hip.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1

Surgery	Approval	74150 Computed tomography, abdomen; without contrast material		Having pain after removal of Gallbladder with nausea, vomiting and diarrhea; This is a request for an Abdomen CT.; This study is being ordered as a pre-op or post op evaluation.; The requested study is for post-operative evaluation.; The requested study is not a first follow up study for a post operative complication.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered as a pre-op or post op evaluation.; The requested study is for post-operative evaluation.; The requested study is a first follow up study for a post operative complication.; Yes this is a request for a Diagnostic CT	5
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient complains of hip pain.  Mr. TAYLOR complains of right hip pain. The location of the pain is deep. It radiates to the thigh and knee. He describes it as constant, burning, and stabbing. The initial onset of pain was 1 to 2 years ago. The was; The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for None of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient continues to complain of hip pain, shoulder pain, and low back pain that radiates to bilateral feet since fall a year ago. Pain has worsened over this period of time. Patient reports difficulty sitting for any small amount of time without being in; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient had a right sciatic pain and has gotten worse in the last two weeks, CT scan showed degeneration in L5 -S1 has abnormal sensation on the right side from sciatica. Has been on medication that has not helped. Patient had an injection recently on 05/; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient has been having chronic sciatic nerve pain in L5-S1 region; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has been having hip pain for 4 months now with no real alleviation of pain. Pain radiates down the side of his leg. Meloxicam isn't helping the pain. Patient was given a steroid shot and it helped for a few hours. the pain used to stop at the knee; The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for None of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has been having low back pain that radiates down into left leg with weakness and numbness.; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Patient has been having low back pain that radiates down into left leg with weakness and numbness.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has bursitis of her left hip and also sciatica and lumbar back pain with radiculopathy affecting lower left extremity; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT HAS CHRONIC BACK PAIN THAT HAS BEEN GOING ON FOR TWO YEARS. THE PATIENT HAD AN XRAY THAT SHOWS DEGENERATIVE DISC DISEASE; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Surgery	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered as a pre-op or post op evaluation.; The requested study is for pre-operative evaluation.; The study is requested by a surgeon, specialist or PCP on behalf of a specialist who has seen the patient.; Yes this is a request for a Diagnostic CT	2
Surgery	Approval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing		This is a request for CT Angiography of the Abdomen and Pelvis.	3
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	2
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		43 y/o male s/p resection of colon cancer (2/15 nodes positive, invasion into small bowel), declined to have followup (see prior chart notes). Here today for follow-up.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Had a hospital stay earlier in the month With diverticular abscess that was asperated; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Mr. McMillan is a 36 y.o. AAM with h/o R hemicolectomy for perforated appendicitis at SVI in 2006 followed by IHR in 2012 by Dr Cone with physiomesh. Patient was since treated for acute cholecystitis in 2014 by Dr Jensen with Kocher's incision and now has; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		patient persistent intermittent pain right of umbilicus since partial Colectomy; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient has decreased ROM and is in chronic pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT HAS GREATLY WORSENING SYMPTOMS AND XRAYS HAVE NOT SHOWN ANYTHING AND PATIENT HAS COMPLETED CONSERVATIVE THERAPY. FURTHER EVALUATION IS NEEDED; This study is being ordered for trauma or injury.; 1999; There has been treatment or conservative therapy.; LOW BACK PAIN, NOW SHOWING NEURO DEFICETS W/ RLE WEAKNESS, PARESTHESIAS, AND DROP FOOT; PATIENT HAS RECEIVED NSAIDS, PHYSICAL THERAPY, AND PAIN MEDS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient has had back pain for 4 weeks; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has had low back pain for the last 4-5 months. She was referred to pain management, though imaging hasn't been done. She didn't go to that appointment because she is hesitant about injections, but they wouldn't really be doing that until they had ; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has had previous back surgery.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient initially seen on 3/28/18 for low back pain after being seen twice in the ER. Failed conservative treatment of pt and medication. Was seen again 4/18/18 with no improvement. Has numbness and tingling down leg and limited ROM. Probable acute dis; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient is experiencing pain radiating into legs making patient weak; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; left sided weakness and numbness upon examination; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient is having continuing problems with her back despite over 6 weeks of medication and home exercises; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; stretching and heat	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient is having low back pain with sciatic nerve pain and positive straight leg lift. X-Ray only shows mild levoscoliosis; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient needs MRI done due to Back and Hip pain..; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient to be evaluated for low back pain. The discomfort is most prominent in the cervical spine, in the thoracic spine, and in the lumbar spine. It does not radiate. He characterizes it as intermittent, mild in severity, aching, and He is much better; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient was seen in office 05/24/18, c/o sciatic nerve pain. Was seen at Drew Memorial Hospital ER on 5/11/18, patient c/o numbness and tingling to left lower extremity.; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient with chronic low back pain with right leg radiculopathy, acute worsening over the last week, no with weakness in the right leg; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		patient with history of Ileostomy. now presents with possible ventral and stoma hernia. In need of Imaging before surgery.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		previous gunshot wound; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Pt is post op hernia repair, has mesh and mdo thinks its infected; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		RECURRENCES OF LIPSARCOMA POSS RECONSTRUCTION IN ABDOMINAL WALL.; This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; The study is requested for preoperative evaluation.; Surgery is not planned for within 30 days.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than billirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	3
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	6
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient with chronic low back pain, now with radiculopathy, has failed chiropractor in the past, has had normal lumbar spine films in the distant past, currently on NSAIDs but has poor tolerance d/t GI upset. Current on chronic pain meds for low back pai; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient's symptoms are worsening.; This study is being ordered for a neurological disorder.; 3/12/2018; It is not known if there has been any treatment or conservative therapy.; leg numbness, neck stiffness and decreased range of motion, headaches; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Positive straight leg test on the right.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	possible pancreatitis; bulging c-spine disc treated w/meds; cannot lay on back due to pain; lower back pain radiating to l leg; unable to straighten leg due to pain;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/16/2017; There has been treatment or conservative therapy.; kidney pain; siatica pain;; us of abd; steroid shot;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Previous Physical Therapy, dates of 11/30/2017.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PROGRESSIVELY WORSE; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PT IS HAVING LOWER BACK PAIN WITH PAIN GOING DOWN LEFT LEG, LEFT LEG NUMB AND TINGLING AT TIMES, TOES ARE COLD ON LEFT FOOT. PT HAS BEEN TO CHRIOPRACTOR WITH NO CHANGE IN PAIN. PATIENT BLOOD PRESSURE IS INCREASING WITH PAIN IN BACK. MEDICATIONS NOT HELP; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PT CAME IN MARCH 30 WITH BACK PAIN, MEDICATIONS GIVEN PT RETURNED APRIL 4 SAYING MEDICATIONS DID NOT HELP. XRAY WAS DONE THEN, NOTHING SHOWED SO MRI WAS ORDERED; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PT HAS HAD BACK PAIN FOR MONTHS ALL LABS AND XRAYS HAVE BEEN WNL. MEDICATIONS NOT HELPING WITH ANY OF THE PAIN AND STIFFNESS; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PT HAVING SEVERE BACK PAIN FOR THE PAST YEAR.SEVERE IN THE LAST TWO WEEKS, RADIATES TO LOWER ABD AND BUTTOCKS, HAS WEAKNESS IN LEGS AND UNABLE TO AMBULATE, NOT EATING DUE TO PAIN, LOST 20 LBS IN LESS THAN 2 MONTHS. WILL BE SEEING NEUROLOGY SO THEY NEED AN; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt is a 28 y/o WF with a PMH significant for chronic lower back pain and anxiety presented to the clinic for follow-up for back pain. Pt states her back pain ins largely unchanged. She c/o B/L paralumbar back pain, burning in quality, with radiation int; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Pt is a 28 y/o WF with a PMH significant for chronic lower back pain and anxiety presented to the clinic for follow-up for back pain. Pt states her back pain ins largely unchanged. She c/o B/L paralumbar back pain, burning in quality, with radiation int; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt suffers with degenerative disease.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	R/o discitis; The study requested is a Lumbar Spine MRI.; None of the above; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; Methadone-recently stopped within the past year, Tylenol with codeine, gabapentin, lyrica, tramadol	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	R/O HMP; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	radiating pain down lower extremity; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Reported by patient.  Location: pain radiating to the legs; pain radiating to the foot; R side  Severity: improving; moderate (5-7) Duration: for 1-2 years but worse x 3-4 months went to ER and had xray 1 week ago they recomended mri  Aggravating Fact; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Reevaluate of compression of spine to make sure there has not been any shifting.; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; in leg and on standing also numbness; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	sciatica; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	See last entry.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Patient came in last week and received a cortisone shot for her back pain. It has now gotten worse and is radiating down into her hips. Acute pain; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	SEVERE PAIN RADIATES TO BUTTOCKS, DOWN LEGS TO FOOT. SHARP, TINGLING AND DULL. WORSENING AND CONSIDERED SEVERE 8-10. INTERFERES W/SLEEP AND WORK. AGGRAVATING FACTORS MOVEMENT, TWISTING. NUMBNESS OF LEGS AND FEET. WEAK LIMBS. TINGLING.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	She also reports having Left hip pain. States this was from an old army injury. States hip feels out of place at times, will be stiff, and will catch. Will also have sharp pain in hip. Has tried PT previously and it was ineffective. States she was taking; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	she fell a few years ago and hurt her right buttock, right s-l joint, also injured her right neck. cont lower back pain with tingling sensation to arms and legs.; This study is being ordered for a neurological disorder.; 2016; There has been treatment or conservative therapy.; complains of low lumbar pain and today is really complaining of right SACRO-ILIAC pain. Also notes a tingling in her legs (all both legs, ant/posterior surfaces, tops of her feet also.; patient has been on pain meds since 2016; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; The study is requested for preoperative evaluation.; Surgery is planned for within 30 days.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	4
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed more than 10 months ago.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; It is unknown if the patient has completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	6
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were abnormal.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	4
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		CT/Chest W Contrast Exam Date: 01/26/18 IMPRESSION: 1. No pulmonary nodules. 2. Incompletely imaged hepatic hypodensities, several of which are too small to characterize. These probably represent cysts and/or hemangioma. However, if patient has histo; This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A liver abnormality was found on a previous CT, MRI or Ultrasound.; There is NO suspicion of metastasis.	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		staging for cancer; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; The patient is presenting new symptoms.; This study is being ordered for follow-up.; The patient is not undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; surveillance of mass	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; Liver mass found on previous CT scan	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for organ enlargement.; There is an ultrasound or plain film evidence of an abdominal organ enlargement.; none	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; Recently, all laboratory tests were within normal limits. The current radiology workup includes an ultrasound and a Hepatobiliary Scan with CCK. The ultrasound report, on 04/19/2018, states Focal hyperechoic mass of the right hepatic lobe measuring 3.1 cm	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; Recently, all laboratory tests were within normal limits. The current radiology workup includes an ultrasound and a Hepatobiliary Scan with CCK. The ultrasound report, on 4/25/2018, states Negative for cholelithiasis. Mild hepatic steatosis.. CCK stimulat	1
Surgery	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing			1
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	2
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		; This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; It is not known if this is an individual who has known breast cancer in the contralateral (other) breast.	1

Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Assessment  Abnormal Mammogram 793.80/R92.8  Mastodynia of left breast 611.71/N64.4  Dense breast tissue on mammogram 793.89/R92.2    Plan  OrdersMRI of both breasts (77059) - - 04/22/2018  Medicationevening primrose oil 500 mg ora; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	multiple family members, mother, 3 great aunt, aunt also has tyrer cuzick og 28.4%; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	PT HAS MULTIPLE SECOND DEGREE RELATIVES WITH PREMENOPAUSAL BREAST CANCER. PT'S CALCULATED LIFETIME RISK IS 25.4%; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered as a screening examination following genetic testing for breast cancer.; Yes, the patient have a known mutation such as BRCA1, BRCA2, PTEN or TP53.; It is unknown if the patient has a lifetime risk score of greater than 20.	1
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There is a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	6
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; Yes, this is a confirmed breast cancer.; Yes, the results of this MRI (size and shape of tumor) affect the patient's further management.	5
Surgery	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; This is for evaluation of axillary lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgery	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Melanoma.; This is for evaluation of regional lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Surgery	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Last several months, noticed fresh blood minimal in stool associated with pain, in 2016, patient had an open colectomy complicated by a pulmonary embolus. Major GI bleed possibly from peptic ulcer disease, placed a filter. Had a colonoscopy June 1st ; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Colo-rectal Cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgery	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; This is for evaluation of axillary lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgery	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lymphoma or Myeloma.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgery	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgery	Approval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;	This is a request for a Stress Echocardiogram.; The patient has NOT had cardiac testing including Stress Echocardiogram, Nuclear Cardiology (SPECT/MPI), Coronary CT angiography (CCTA) or Cardiac Catheterization in the last 2 years.; The member has known or suspected coronary artery disease.	1

Surgery	Approval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;		This is a request for a Stress Echocardiogram.; To evaluate the heart prior to non-cardiac surgery.; The member does not have known or suspected coronary artery disease	1
Surgery	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		recent gallbladder surgery; This is a request for MRCP.; There is no reason why the patient cannot have an ERCP.	1
Surgery	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Patient came in office with complaints of migraine headaches. Patient is seeing a neurologist whom started her on medication for the migraine headaches. The CT is to rule out any injuries to the brain.; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
Surgery	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	1
Surgery	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has not been any treatment or conservative therapy.; PAIN; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Pre-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Surgery	Disapproval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Pulmonary HTN/Pulmonary Nodule; This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for another reason besides Known or Suspected Congenital Abnormality, Known or suspected Vascular Disease.; Yes, this is a request for a Chest CT Angiography.	1
Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	pt with mid abd pain possible spigelian hernia. pt is also experiencing back pain; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/22/2018; There has been treatment or conservative therapy.; Thoracic, lumbar pain along with abdominal and pelvis pain; Rest along with OTC medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	1
Surgery	Disapproval	73706 Computed tomographic angiography, lower extremity, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the lower extremity.	1
Surgery	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	patient in pain an undergoing pain management; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	having bright red blood per rectum and hx of duodenal diverticulum; This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; The study is requested for post-op evaluation.; The study is not requested as a first follow up study for a suspected or known post-op complication.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	none; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	staging for cancer; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has not been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	3

Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	20
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient has a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	5
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	2
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	9
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has been completed.; The results of the contrast/barium x-ray were normal.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	6

Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	pt with mid abd pain possible spigelian hernia. pt is also experiencing back pain; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/22/2018; There has been treatment or conservative therapy.; Thoracic, lumbar pain along with abdominal and pelvis pain; Rest along with OTC medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; This is for evaluation of axillary lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgical Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The discomfort is most prominent in the lower, left and lower, right sacroiliac area. This radiates to the right posterior thigh and hips. He characterizes it as intermittent and sharp. This is a chronic, but intermittent problem with an acute exacerbation; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	2
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	9
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	This is the only way we are going to be able to see if there is any neurological damage for years of strain and pain.; This study is being ordered for a neurological disorder.; 2016; There has been treatment or conservative therapy.; Weakness in neck and lower back. limited range of motion.; Pain medication therapy as well as physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	This patient has neurological symptoms. She has radiating pain, down the arms from the neck, and legs from the back.  Patient has lumbosacral radiculopathy and cervical radiculopathy; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	TO RULE OUT DISC DEFORMATIES AND SPINAL STENOSIS; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Today she reports having Right sided back pain for the past 6 months. States pain started when she fell down stairs and landed on her tailbone in January. States pain is worsening over the past month. Worse when standing for long periods of time; frequent; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Surgical Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	3
Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material		Ms. Chris B Jones is a 53 y.o. female with thymic hyperplasia and hx of hashimoto thyroiditis. The thyroid has been excised and on follow up imaging the thymic areas is stable. No myasthenic symptoms. Overall healthy and doing well.  Discussed monitoring; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1

Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Known tumor and new symptoms involving the chest, chest wall, lung or pelvis is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Restaging during ongoing treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material		Pre-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	22
Surgical Oncology	Approval	72192 Computed tomography, pelvis; without contrast material		Pre-surgical evaluation to determine if surgery is necessary.; This study is being ordered as pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of pelvic inflammatory disease or abscess.	1
Surgical Oncology	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a Lower Extremity CT.; This is not a preoperative or recent postoperative evaluation.; There is suspicion of a lower extremity neoplasm, tumor or metastasis.; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an oncologist or orthopedist.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; Known Tumor	1
Surgical Oncology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; bilateral lower extremity weakness.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; limited mobility in lower extremities with weakness noted to bilateral lower extremities; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Unable to stand for periods of time because of the low back pain. Also causing pain in legs and knees.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; It is not known if there is x-ray evidence of a lumbar recent fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Weakness to lower back and lower extremities; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	2
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	7
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a neurological disorder.; 01/23/2018; There has been treatment or conservative therapy.; patient is having low back and mid back pain, numbness in upper extremity; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgical Oncology	Approval	74150 Computed tomography, abdomen; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	2
Surgical Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	1
Surgical Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is being ordered for staging.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is female.; Yes this is a request for a Diagnostic CT	1

Surgical Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; The patient is not presenting new symptoms.; The patient has had 3 or fewer follow-up abdomen MRIs.; This study is being ordered for follow-up.; The patient is not undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; Patient is a 49 y.o. female w/ likely side branch IPMN of the body of the pancreas and abdominal pain w/ low concern for malignancy	1
Surgical Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; The patient is presenting new symptoms.; This study is being ordered for follow-up.; The patient is not undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; discomfort in epigastrium	1
Surgical Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient had chemotherapy, radiation therapy or surgery in the last 3 months.	1
Surgical Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon.";	1
Surgical Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon.";	1
Surgical Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; CT abd/pel w/wo performed 11/27/2017 Impression:  1. The previously described cystic area in the pancreas is better seen on the previous MRA of the renal arteris done 10/17/2017. There is subtle low density in this area on today's Ct. A small, multi-cyst	1
Surgical Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Ultrasound 4/24/2018 Impression Rounded hypoechoic lesion visualized in the right adnexal region. Although a metastatic lesion cannot be completely excluded, relatively slow growth of this lesion over the past 2 years and imaging appearance indicate a	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	UNKNOWN; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 03/12/2018; There has been treatment or conservative therapy.; PAIN; MEDICATIONS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/20/2018; There has been treatment or conservative therapy.; Pain and bi lateral lower extremity numbness; Medications and home exercise.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	WILL UPLOAD NOTES; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Xray was performed was normal.; This study is being ordered for trauma or injury.; 3-4 months ago from 04/23/2018; There has not been any treatment or conservative therapy.; Tingling from mid back down and back pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	X-ray, showed degenerative, narrowing, L-4 & L-5.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Xrays showed degenerative changes and having numbness down both legs and pain.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; Unknown; There has been treatment or conservative therapy.; Pain, weakness, tingling, irregular gait; Pain management; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgical Oncology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered as a screening examination following genetic testing for breast cancer.; The patient has a lifetime risk score of greater than 20.	6
Surgical Oncology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; Yes, this is an individual who has known breast cancer in the contralateral (other) breast.	7
Surgical Oncology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for known breast lesions.; There are benign lesions in the breast associated with an increased cancer risk.	2

Surgical Oncology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This patient has a family history of breast cancer in her father and she has a life time risk of 37.1%. Mammogram demonstrates heterogeneously dense breast tissue which could obscure small masses.; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
Surgical Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	4
Surgical Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Ovarian or Esophageal Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgical Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Soft Tissue Sarcoma, Pancreatic or Testicular Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgical Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Lung Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgical Oncology	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	1
Surgical Oncology	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPH Y (MRCP)		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	3

General/Family Practice	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Having some bph symptoms Family hx PSA WNL flomax didn't help whole lot add finasteride CT Pelvis requested based on family history; This study is being ordered due to organ enlargement.; There is no ultrasound or plain film evidence of a pelvic organ enlargement.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	R10.2 Acute suprapubic pain,gs:severe pain and fullness over suprapubic area. SEvere pain with walking,r/o mass or fracture,LOW BACK PAIN,PAIN WITH WALKING OR STANDING,SEVERE TENDERNESS SUPRAPUBIC; This study is being ordered because of a suspicious mass/ tumor.; "The patient has NOT had a pelvic ultrasound, barium, CT, or MR study."; This is a request for a Pelvis CT.; There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 03/01/2017; There has been treatment or conservative therapy.; ; It is not better with anti-inflammatories or core strengthening. She has failed conservative measures including greater than 6 weeks of core strengthening hip strengthening and anti-inflammatories; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	he hernia and ultrasound to confirm it; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	PAIN MORE THAN 6 MONTHS, MEDICATIONS BUT NOT CONTROLLED WAS TOLD TO STOP TAKING.; This is a request for a Pelvis MRI.; The study is being ordered for joint pain or suspicion of joint or bone infection.; The study is being ordered for arthritis.	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	Patient continues to complain of hip pain, shoulder pain, and low back pain that radiates to bilateral feet since fall a year ago. Pain has worsened over this period of time. Patient reports difficulty sitting for any small amount of time without being in; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Surgical Oncology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1

Surgical Oncology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; Initial staging prior to treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; Known tumor and new symptoms involving the chest, chest wall, lung or pelvis is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgical Oncology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Thoracic Surgery	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the Neck.	3
Thoracic Surgery	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Restaging during ongoing treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Thoracic Surgery	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This study is being requested for 'none of the above'; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	2
Thoracic Surgery	Approval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing		This is a request for CT Angiography of the Abdomen and Pelvis.	2
Thoracic Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Thoracic Surgery	1

Thoracic Surgery	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	Patient has chronic elevated PSA.; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	Previous shoulder replacement; This study is being ordered for trauma or injury.; February 2018; There has been treatment or conservative therapy.; Pain; Pain medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	Radiculopathy; This is a request for a Pelvis MRI.; The study is being ordered for joint pain or suspicion of joint or bone infection.; The study is being ordered for something other than arthritis, slipped femoral capital epiphysis, bilateral hip avascular necrosis, osteomyelitis or tail bone pain or injury.	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for trauma or injury.; xray 04/03/2018; There has been treatment or conservative therapy.; pain both sides of legs, effecting activity daily living; steroids, injections, pain meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73200 Computed tomography, upper extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is not suspicion of upper extremity bone or joint infection.; The ordering physician is not an orthopedist or rheumatologist.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has been treatment or conservative therapy.; weakness. pain radiating down leg. muscle aching. swelling, LROM.; NSAIDS.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary		1

General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; Pain subsided a little bit while doing home exercises . Patients pain worsen once physical therapy was over.; The patient received oral analgesics.	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		HEADACHES AND CVA.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		Patient states that late Saturday night she had a feeling of eing hot with nausea, light headed and tunnel vision. Walked outside and passed out while trying to get in the vehicle hitting her head casueing slight injury. During episode patient had clenc; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; This study is being ordered for new onset of seizures or newly identified change in seizure activity or pattern.	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Known or suspected TIA (stroke) with documented new or changing neurologic signs and or symptoms best describes the reason that I have requested this test.; This is NOT a Medicare member.	2
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has the inability to speak.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; The patient is NOT able to have a Brain MRI for evaluation of these symptoms.	2
Unknown	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material		hyperthyroid myopic degeneration; This study is being ordered for a neurological disorder.; Unknown; There has not been any treatment or conservative therapy.; pressure behind eyes, blurred vision, double vision; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	70486 Computed tomography, maxillofacial area; without contrast material		"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	70486 Computed tomography, maxillofacial area; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	70486 Computed tomography, maxillofacial area; without contrast material		PATIENT HAS HAD FOR OVER 1 MONTH WITH NO IMPROVEMENT. CT MUST BE DONE FOR ENT APPOINTMENT; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset AND the patient failed a course of antibiotic treatment; Yes this is a request for a Diagnostic CT	1

Unknown	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is not being ordered for trauma, tumor, sinusitis, osteomyelitis, pre operative or a post operative evaluation.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	70486 Computed tomography, maxillofacial area; without contrast material		xray showed soft tissue swelling; radiology suggested ct; "This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is not a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	70490 Computed tomography, soft tissue neck; without contrast material		; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The size of the neck mass is unknown.; The neck mass has NOT been examined twice at least 30 days apart.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	70490 Computed tomography, soft tissue neck; without contrast material		; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	70490 Computed tomography, soft tissue neck; without contrast material		Have palpable lump to left aspect of neck 1.3 X 0.8 cm and a second 0.9 X 0.5 cm in the left neck which may represent lymph node.; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The neck mass is larger than 1 cm.; A fine needle aspirate was NOT done.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; It is unknown if there has been recent trauma or other injury to the neck.; It is unknown if there is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; It is unknown if there is a suspicion of an infection or abscess.; It is unknown if this is being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	2
Unknown	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	9
Unknown	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/21/18; There has been treatment or conservative therapy.; Tension Headache, Memory loss, Neck pain; Eliquis; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the brain.	3

Unknown	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		This is a 3 month follow up to surgery.; This study is being ordered for Vascular Disease.; 01/13/2017; There has been treatment or conservative therapy.; This is a post surgical follow up scan. Patient symptoms were Transient cerebral ischemia and Nonintractable headache; Patient had a carotid stent placed 02/2018; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.; The patient received oral analgesics.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.; The patient received oral analgesics.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; It is not known if there is a suspicion of fracture not adequately determined by x-ray.; The request is for shoulder pain.; There is not a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/25/2018; There has not been any treatment or conservative therapy.; Bilateral Shoulder Pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Unknown	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		There is not a suspicion of an infection or abscess.; This examination is being requested to evaluate lymphadenopathy or mass.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1

Unknown	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		This is a request for a head and neck MR Angiogram.; There is an immediate family history of aneurysm.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		3 mm lesion seen on mri; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		NUERO CHANGES; This study is being ordered for a neurological disorder.; 03-28-2018 ER VISIT FOR FACE DROOPING RIGHT SIDED POSSIBLE BELLS PALS 4-3-18 PAIN RIGHT JAW,RIGHT EAR PAIN, MIGRAINE HEADACHES; There has not been any treatment or conservative therapy.; JAW AND EAR PAIN,FACE DROOPING BELLS PALS WAS ALSO SEEN AT ER SYMPTOMS WORSE; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	First seen 4/24/18 as new patient - pain since February 2018 - noted as continued on 5/8/18 visit - no improvement in mobility - cannot abduct left shoulder - tender to palpation; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Left shoulder 3 views (5-4-18) Radiographically no acute displaced fracture or dislocation. Joint space maintained. Normal articulation of humeral head with the glenoid fossa. - If your shoulder continues to hurt, I recommend we proceed with a MRI for fur; The requested study is a Shoulder MRI.; The study is not requested for any of the standard indications for Knee MRI; It is not known if the study is requested for shoulder pain.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Only acute complaint is R shoulder pain. Onset 3 months ago, has been doing a lot of heavy lifting and dragging of brush for work. Pain is over anterior R shoulder, says prior doctor said to expect rotator cuff dysfunction later in life. Has taken 1250; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	patient could possibly have a tear or something abnormal findings.; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; patient has been doing at home P.T. patient is also seeing chiropratic care for 4 weeks with no results. Patient had 3 treatments last week and patient has decreased range of motion.; The patient received oral analgesics.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	patient has arthritis & bone spurs shown on xray. has had previous injection in left shoulder with no relief. DROM on exam; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	patient injured shoulder, now has pain and can not lift his arm; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Patient presents with shoulder pain that has lasted 6 months and getting worse with pain, tenderness and muscle spasm.; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patient has chronic headache order, with increased frequency. He has not had MRI of brain since Dec. 2015.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		patient has had a headache for 3 months with vomiting; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1

Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patient is being evaluate migraine.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/11/2017; It is not known if there has been any treatment or conservative therapy.; Migraine; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		RESTAGING SMALL CELL LUNG CANCER AFTER COMPLETION OF CHEMO  MOST RECENT PET SCAN SHOWED FDG UPTAKE INVOLVING THE LYMPH NODES  ASSESS RESPONSE TO THERAPY; This study is being ordered for a metastatic disease.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This is a request for an Internal Auditory Canal MRI.; There is not a suspected Acoustic Neuroma or tumor of the inner or middle ear.; There is a suspected cholesteatoma of the ear.; The patient has not had a recent brain CT or MRI within the last 90 days.; There are neurologic symptoms or deficits such as one-sided weakness, speech impairments, vision defects or sudden onset of severe dizziness.; This is not a pre-operative evaluation for a known tumor of the middle or inner ear.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	5
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has not been a previous Brain MRI completed.	3
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is a pituitary tumor or pituitary adenoma.; There are physical findings or laboratory values indicating abnormal pituitary hormone levels.; This is NOT a Medicare member.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	see attached; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; < Enter answer here - or Type In Unknown If No Info Given. >	2

General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Acute injury from fall with continued pain.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Complaints of left side neck and shoulder pain. Had Kenolog injection and taking Flexeril.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Dx with joint pain, multiple sites; the patient notes diffuse joint pain. Primary joints affected include right shoulder, right elbow, right hip, and right knee. Aggravating factors include lack of sleep and inactivity. Associated symptoms include sl	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Dx with shoulder pain; he complains of right shoulder pain. The pain initially started one year ago. The apparent precipitating event was lifting. Discomfort increases with lifting. NSAIDs not helping. h/o labral tear and ac joint degenerative changes	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; New onset right shoulder pain over the last 2 months. Has taken NSAIDs without improvement, has had shoulder injections x 2 with no improvement.l	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; poss rotator cuff tear	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; right shoulder and arm pain for 5 months, radiating from arm to elbow, taken anti-inflammatory and at home stretches	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Shoulder pain since 5.28.18, was seen in ER at NEA Baptist in Jonesboro. Unable to use right arm.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; trauma 2-18.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; < Enter answer here - or Type In Unknown If No Info Given. >	1

General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; Musculoskeletal System: Right Shoulder: decreased range of active flexion motion, flexion motion passive, active extension, passive extension, active internal rotation, passive internal rotation, active external rotation, passive external rotation, active	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; Pt has been having restricted range of motion with anterior pain.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; unknown	2
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; It is not known if there are documented findings of crepitus.; There are no documented findings of swelling.; The ordering physician is not an orthopedist.; Patient presents for follow-up regarding continued right shoulder pain, some weakness (reports some improvement with grip, however shoulder/arm is weak otherwise); reports difficulty with ADLs such as taking off his shirt, trying to shift gears in his tru; The patient is NOT experiencing joint locking or instability.; It is not known if the patient has a documented limited range of motion on physical examination.; It is not known if there is documented findings of severe pain on motion.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; There is documented findings of severe pain on motion.	3
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Pain is waking patient from sleep,tenderness along the anterosuperior aspect of the right shoulder, decreased range of motion	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Patient has been complaining of shoulder pain for about a month she had a Xr done of the shoulder as well. The pain is about a 10.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; PATIENT IS HAVING SEVERE PAIN IN HIS RIGHT SHOULDER, AND THE PAIN IS GETTING WORSE.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Positive for paresthesia and weakness right arm	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Shoulder pain, causing numbness in fingers. Minor grip weakness	1

General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	3
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has not been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Unknown; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/22/2018; There has been treatment or conservative therapy.; chronic pain; some numbness; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for trauma or injury.; 04/26/2018; There has been treatment or conservative therapy.; Pain; decreased movement; tenderness; decreased abduction; Medications (anti-inflammatory; steroid pack; injection); One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; LAST WEEK; There has not been any treatment or conservative therapy.; TIA; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for a Lower Extremity CT.; This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is no suspicion of lower extremity bone or joint infection.; There is not a history of lower extremity joint or long bone trauma or injury.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	trouble walking, muscle weakness, fell off stool while painting 3 weeks ago, legs will give out when walking and will fall, has fallen several times since accident, leg, hip and pelvis pain; This study is being ordered for trauma or injury.; unknown; It is not known if there has been any treatment or conservative therapy.; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/2018; There has not been any treatment or conservative therapy.; knee bend problems; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73706 Computed tomographic angiography, lower extremity, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the lower extremity.	2

General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a foot MRI.; The study is being ordered forfoot pain.; The study is being ordered for acute pain.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The results of the plain films is not known.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.; It is not known if patient has completed and failed a course of conservative treatment.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; It is not known if patient has completed and failed a course of conservative treatment.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; No, patient has not completed and failed a course of conservative treatment.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Pain greater than 3 days; No, patient has not completed and failed a course of conservative treatment.; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1

General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; PAIN, STIFFNESS; PT, MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Knee 01/01/2013; There has been treatment or conservative therapy.; Burning feeling in foot. Popping, locking, inflammation, arthritis in knee. possible underlin.; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has been treatment or conservative therapy.; Patient has acute pancreatitis, pain in both knees.; x rays. PT with no success.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 03/14/2018; There has been treatment or conservative therapy.; pain and can't bear weight, limited ROM; rest, elevation, crutches, xray; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2

General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; No, patient has not completed and failed a course of conservative treatment.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; Enter date of initial onset here - 06-06-2017or Type In Unknown If No Info Given; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 08/24/2017; There has been treatment or conservative therapy.; Knee Pain; Injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 06/23/2018; There has been treatment or conservative therapy.; severe pain with walking  left foot pain, left ankle pain,; Patient has done home exercises, she has been on anti inflammatory medications, which has not improved; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for a tumor.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		will fax clinical; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		"There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They did not have a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	2
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1

Unknown	Approval	71250 Computed tomography, thorax; without contrast material		; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	12
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		1.3cm nodule on CTA dated 3/27/18; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		A Chest/Thorax CT is being ordered.; This study is being ordered for known tumor.; Yes this is a request for a Diagnostic CT	5
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient does NOT have signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		A Chest/Thorax CT is being ordered.; This study is being ordered for suspected pulmonary Embolus.; Yes this is a request for a Diagnostic CT	2
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	3
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	8
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; 'None of the above' were related to the suspicion of cancer in this patient.; This is a request for a Chest CT.; This study is being requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1

Unknown	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; It is unknown if the patient quit smoking in the past 15 years.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This study is being requested for 'none of the above'.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		This is a request for a Thorax (Chest) CT.; Abnormal imaging test describes the reason for this request.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for Vascular Disease.; eason For Visit F/u CAD, HTN, hyperlipidemia   History of Present Illness Cardiology Follow-up: The patient states he has been generally doing well since the last visit.  Interval Events: Pt being seen for CAD, HTN and hyperlipemia f/u. Pt states pas; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		PULMONARY VEIN MAPPING FOR POSSIBLE CRYOABLATION.; This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for another reason besides Known or Suspected Congenital Abnormality, Known or suspected Vascular Disease.; Yes, this is a request for a Chest CT Angiography.	1
Unknown	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		REASONS: CTA IS WHAT YOU DO TO MONITOR A REPAIRED ANEURYSM.; This study is being ordered for Vascular Disease.; 05/02/2014 AAA SURGICAL REPAIR.; There has been treatment or conservative therapy.; NON SYMPTOMATIC; MONITORING THE REPAIR WITH CTA; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	72125 Computed tomography, cervical spine; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2 years; There has been treatment or conservative therapy.; mbr has pain in arm and leg weakness tingling immobility; PT and injection; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is not experiencing symptoms of radiculopathy for six weeks or more.; There is no neurologic symptoms of bowel or urinary bladder dysfunction.; There is no suspicion of lumbar spine infection.; There is no suspicion of lumbar spine neoplasm or tumor or metastasis.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		he is a new patient with us and to be able to prescribe him any kind of medication we have to get imaging on him. He reports pain in his low back and chronic pain in his neck and shoulders.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical Therapy.	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		These studies are to rule out enhancing lesion due to abnormal MRI Cervical Spine without contrast and Thoracic MRI on 4/9/2018. MRI Cervical without contrast recommended a MRI Cervical with contrast to rule out enhancing lesion in the spinal cord.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	5
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	3
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	13
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; numbness and pain on left side and low back pain	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Trauma or recent injury; Yes, the patient have new or changing neurological signs or symptoms.; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	2

Unknown	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does not have any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.	4
Unknown	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1
Unknown	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		Thoracic MRI order is a follow up order from an abnormal Thoracic MRI that was completed on 2/20/2017 that showed 1 cm increased T2 signal intensity and slight heterogeneous T1 signal intensity in T6 vertebral body which may represent bony lesion and equi; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; It is not known if there is x-ray evidence of a lumbar recent fracture.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Weakness to left leg and foot; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; It is not know if the patient has seen the doctor more then once for these symptoms.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Abnormal x-ray, failed physical therapy, and anti-inflammatory.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1

Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		chronic back pain; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Chronic low back pain with hx bulging discs and neural foramen encroachment on MRI; History / Dx:New onset more severe left sided sciatic pain with left lateral lower leg numbness. Pt has been doing therapy at home for yearEvaluate for nerve impingement; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		he is a new patient with us and to be able to prescribe him any kind of medication we have to get imaging on him. He reports pain in his low back and chronic pain in his neck and shoulders.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Patient is complaining of back pain and right lower extremity pain after a previous lumbar spine surgery.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		patient is continuing to have back pain that radiates into hips..only 30% improved since treatment...; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		stage 4 r upper lobe cancer. bone, brain and live mets. pt is complaining of pain on mid back radiating to r/ hip.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is x-ray evidence of a recent lumbar fracture.	2
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	13
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	2
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Known or suspected tumor with or without metastasis	1

Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	47
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	4
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	11
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; There is laboratory or x-ray evidence of osteomyelitis.; Known or Suspected Infection or abscess	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is x-ray evidence of a recent lumbar fracture.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		UNKNONW.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		unknown; The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; The patient has none of the above.; This procedure is being requested for Trauma or recent injury	1
Unknown	Approval	72192 Computed tomography, pelvis; without contrast material		unknown; This study is being ordered due to known or suspected infection.; "The ordering physician is NOT a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; "There are NO active, clinical findings or endoscopic findings of Crohn's disease, ulcerative colitis, or diverticulitis."; "There are no radiographical or ultrasound findings consistent with abnormal fluid collection, pelvic abscess, pelvic inflammation or ascites."; "Caller does not know if there are physical findings or abnormal blood work consistent with peritonitis, pelvic inflammatory disease, or appendicitis."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Unknown	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of joint or bone infection.	2
Unknown	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	3
Unknown	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The study is being ordered for joint pain or suspicion of joint or bone infection.; The study is being ordered for osteomyelitis.	1

Unknown	Approval	73200 Computed tomography, upper extremity; without contrast material		This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is a history of upper extremity joint or long bone trauma or injury.; Yes this is a request for a Diagnostic CT	6
Unknown	Approval	73200 Computed tomography, upper extremity; without contrast material		This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has not been treated with medication.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		; The requested study is a Shoulder MRI.; The pain is from a recent injury.; It is not know if surgery or arthroscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	2
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		patient injured several years ago when his shoulder dislocated. Last week while playing basketball it subluxed and has done so several times in the past few years but has not been as painful as the most recent. He has tried anti inflammatories and rest wi; The requested study is a Shoulder MRI.; The pain is from a recent injury.; It is not know if surgery or arthroscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		Patient presents for follow-up; reports continued left shoulder pain and limited ROM / weakness; onset x5months ago after fall. Reports she was seen last month for symptoms; had an MRI ordered, however was denied. Patient reports that since being seen, sh; The requested study is a Shoulder MRI.; The pain is from an old injury.; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; Patient presents for follow-up; reports continued left shoulder pain and limited ROM / weakness; onset x5months ago after fall. Reports she was seen last month for symptoms; had an MRI ordered, however was denied. Patient reports that since being seen, sh; The patient received oral analgesics.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		Surgery or arthroscopy is scheduled in the next 4 weeks.; The member has a recent injury.; There is a suspicion of tendon or ligament injury.; This is a request for an elbow MRI; The study is not requested for evaluation of elbow pain.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has had recent plain films of the shoulder.; The plain films were not normal.	3

Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has completed 6 weeks or more of Chiropractic care.; ; The patient received medication other than joint injections(s) or oral analgesics.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is from an old injury.; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.	1
Unknown	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a Lower Extremity CT.; This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is suspicion of lower extremity bone or joint infection.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		ALL CONSERVATIVE MEASURES, PHYSICAL THERAPY AND STEROID INJECTION FOR OVER 4 WEEKS HAVE FAILED.  PATIENT STILL HAVING SEVERE BILATERAL KNEE PAIN. CREPITUS, EFFUSION, WITH POPPING AT 30 DEGREES FLEXION.  NEGATIVE LACHMANS. DRAWERS AND MCMURRAYS.  BILAT; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; DECEMBER 1, 2017; There has been treatment or conservative therapy.; BILATERAL KNEE PAIN WITH CREPITUS DECREASED RANGE OF MOTION. POPPING AND LOCKING AND EFFUSION.MEDIAL JOINT LINE IS TENDER. XRAYS SHOW LATERAL TRACKING IN BILATERL KNEES.; NSAIDS DECEMBER 1, 2017 PHYSICAL THERAPY MARCH 1, 2018 STEROID INJECTION MARCH 1, 2018 ASPIRATION MARCH 1 2018 OTHER CONSERVATIVE TREATMENT DECEMBER 1, 2017; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Chronic pain and had 6 weeks of PT w/worsening symptoms; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 03/07/2018; There has been treatment or conservative therapy.; Knee and Shoulder pain; PT, Nsaids, home exercises, bracing and immobilization; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI; No, the patient did not have a recent ultrasound of the knee.; The patient had recent plain films of the knee.; There are physical findings (palpable mass) of a suspicious mass or known primary site of cancer.; The patient has not had a recent bone scan.; The plain films were normal.; palpable mass what else is there to say?; Suspicious Mass or Suspected Tumor/ Metastasis	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Limited range of motion	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Locking	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Locking; No, the member do not experience a painful popping, snapping, or giving away of the knee.	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Locking	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Swelling greater than 3 days	2

Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The study is requested for knee pain.; The pain is described as chronic; The member has failed a 4 week course of conservative management in the past 3 months.	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	3
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.	2
Unknown	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		; This is a requests for a hip MRI.; The hip pain is not due to a recent injury, old injury, Chronic Hip Pain or a Mass.; The request is for hip pain.	1
Unknown	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; The diagnosis of Mass, Tumor, or Cancer has been established.; The study is requested for staging.; The hip pain is due to a mass.; The request is for hip pain.	1
Unknown	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; The member has failed a 4 week course of conservative management in the past 3 months.; The hip pain is chronic.; The request is for hip pain.	2
Unknown	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is receiving long-term steroid therapy (Prednisone or Cortisone).	1
Unknown	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient has a documented limitation of their range of motion.	1

Unknown	Approval	74150 Computed tomography, abdomen; without contrast material		CONDUCT CT SCAN TO EVAL EPIGASTRIC MASS AND RIGHT FLANK MASS-; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1 year ago; There has been treatment or conservative therapy.; EPIGASTRIC MASS AND RIGHT FLANK MASS-; Antibiotics and no results; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; This study is being ordered for another reason besides Crohn's disease, Abscess, Ulcerative Colitis, Acute Non-ulcerative Colitis, Diverticulitis, or Inflammatory bowel disease.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are clinical findings or indications of Hematuria.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for organ enlargement.; There is evidence of organ enlargement on ultrasound, plain film, or IVP.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing		This is a request for CT Angiography of the Abdomen and Pelvis.	2
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	3
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; The study is requested for post-op evaluation.; The study is not requested as a first follow up study for a suspected or known post-op complication.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1

Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Abdominal: She exhibits mass. There is tenderness (mildy).  Slight odor to the area. Incision well heal. No induration, no drainage, and no redness; This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		MRSA Abdominal Infection, possible retained mesh - doing okay on Doxy daily. Wound currently closed but reports was open a few days ago. Other MPs have been pretty difficult for him. He is very depressed. Has severe COPD but did stop smoking. Wears oxygen; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		NEW ONSET LEFT SIDED BACK PAIN AND TESTICULAR PAIN; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Please set up for CT abdomen and pelvis to better visualize kidneys and adrenal mass, please set up for comparison to renal US. MLA APRN; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		RESTAGING METASTATIC OVARIAN CANCER; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Re-staging scan for melona with brain metastasis; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		RESTAGING SCANS  COMPLETED 5 CYCLES OF CHEMO ON 4/27/18. NO SCANS DONE SINCE TREATMENT COMPLETED.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for ketones.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The hematuria is due to Renal Calculi/kidney/ ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	12
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient has a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This is not request for evaluation of prostate cancer.; This study is being ordered for follow-up.; The patient is presenting new symptoms.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is male.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed more than 10 months ago.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	2

Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	3
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	8
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Unknown; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study.";	1
Unknown	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; h/o HCV abd sonogram significant for liver mass, multiple with largest at 1.1cm echogenic mass left lobe of liver, multiple subcm in the right lobe, MRI abdomen with and without gadlinoleum for further evaluation.	1
Unknown	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		unknown; This study is being ordered for Inflammatory/ Infectious Disease.; 6/1/2017; There has been treatment or conservative therapy.; coughs and shortness of breaths and wheezing; antibiotic treatment; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)		This request is for a Coronary CT Angiography study.; Yes, patient had a Nuclear Cardiology study within the past six months.; <Additional Clinical Information>	1

Unknown	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the abdominal arteries.	4
Unknown	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There is a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
Unknown	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; Yes, this is an individual who has known breast cancer in the contralateral (other) breast.	1
Unknown	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for known breast lesions.; There are benign lesions in the breast associated with an increased cancer risk.	1
Unknown	Approval	77084 Magnetic resonance (eg, proton) imaging, bone marrow blood supply		; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		< Enter answer here - or Type In Unknown If No Info Given. >; The patient has had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Abnormal EKG with intermittent left bundle branch block at higher heart rates. This is most likely a rate dependent left bundle branch block with persistent anterior T-wave inversion. Hypertension also.; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1

Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		chest pain, inconclusive stress due to unable to reach target heart rate.; The patient has had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		It is unknown if the patient has symptoms of atypical chest pain (angina) or shortness of breath.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have diabetes.; This is a Medicare member.; The patient has a cardiac history with known myocardial infarction and/or cardiac intervention such as cardiac surgery/angioplasty(PCI); It has been greater than 2 years since the surgery/procedure or last cardiac imaging	1
Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		palpitations and chest pain on exertion.This is a 40-year-old female was referred to us for evaluation of chest pain and palpitations. Has been complaining of retrosternal chest discomfort for the last 2-3 months, 5 out of 10 in intensity, without any rad; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; This is a 40-year-old female was referred to us for evaluation of chest pain and palpitations. Has been complaining of retrosternal chest discomfort for the last 2-3 months, 5 out of 10 in intensity, without any radiation, no aggravating or relieving fact; It is not known if there has been any treatment or conservative therapy.; Chest pain - Has both typical and atypical components of chest pain. Will order Lexiscan nuclear stress test (patient cannot walk on a treadmill because of multiple knee surgeries).-Will order 2-D Echocardiogram to evaluate LV functionPalpitations - ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for known CAD.; The patient is presenting new symptoms of chest pain or increasing shortness of breath.; This patient had a previous cardiac surgery or angioplasty.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	2
Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for known CAD.; The patient is presenting new symptoms of chest pain or increasing shortness of breath.; This patient had a previous myocardial infarction.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; This patient is clinically obese or has an emphysematous chest configuration.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	2
Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has 3 or more cardiac risk factors; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 40 or greater	1

Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The study is requested for known or suspected cardiac septal defect.	1
Unknown	Approval	78459 Myocardial imaging, positron emission tomography (PET), metabolic evaluation		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Cardiac-imaging PET scan.; This study is being ordered to identify a myocardial perfusion defect.; This patient has NOT had a SPECT scan within the past eight (8) weeks.; Yes, the patient has symptoms including chest tightness, angina and/or shortness of breath on exertion.; The patient does NOT have a body Mass List score index equal to or above 40.	1
Unknown	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lymphoma or Myeloma.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; The patient does NOT have Thyroid or Brain cancer.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		; This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; It is unknown if the patient has a history of a recent heart attack or hypertensive heart disease.	1

Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Discussion/Summary Cardiology Discussion Summary: Discussion: 1. CAD: This condition is stable, but new complaints of typical left sided chest pain with worsening DOE are concerning for stable angina. He is s/p 3/2018 LHC with PCI/BMS to LAD and mid a; This study is being ordered for Vascular Disease.; He reported symptoms of angina prompting request for cardiac stress test, which was done on 3/16/2018 and showed anterior and apical ischemia with LVEF of 47%. He subsequently underwent 3/2018 LHC with PCI/BMS to LAD and mid and distal LCx. He presents t; There has been treatment or conservative therapy.; Cardiovascular: chest pain and lower extremity edema, but no palpitations and no syncope . effort intolerance. Respiratory: shortness of breath during exertion, but no shortness of breath, no PND and no orthopnea. Musculoskeletal: no muscle aches and ; DOE: Currently this condition is stable but worsened. Echo on 12/19/2017 showed LVEF of 50-55% with wall motion suggesting previous small inferior wall infarct. There are no medication changes at this time. The plan was discussed with the patient and unde; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; The patient has shortness of breath; Known or suspected pulmonary hypertension	1
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of cardiac arrhythmias; It is unknown if this study is being requested for the initial evaluation of frequent or sustained atrial or ventricular cardiac arrhythmias.	1
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Embolism.	1
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Valves.; This is an annual review of known valve disease.; It has been 12 - 23 months or more since the last echocardiogram.	2

Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Heart Failure; There has been a change in clinical status since the last echocardiogram.; This is NOT for the initial evaluation of heart failure.	1
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Heart Failure; This is for the initial evaluation of heart failure.	3
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; It is unknown if the patient has a history of a recent heart attack or hypertensive heart disease.	1
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient does not have a history of a recent heart attack or hypertensive heart disease.	2
Unknown	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	1
Unknown	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		Patient has no hx of PE or DVT. No previous hx of dyspnea on exertion. Patient is a current smoker of 30 plus years of 1-2 ppd.; This study is being ordered for Inflammatory/ Infectious Disease.; 02/10/2018; There has been treatment or conservative therapy.; Dyspnea on Exertion Cough Fatigue; Patient currently taking Symbicort inhaler BID ProAir inhaler for exacerbation of symptoms Zpack antibiotic Budesinide nebulizations  Prednisone; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient quit smoking less than 15 years ago.	2
Unknown	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	NEW ONSET LEFT SIDED BACK PAIN AND TESTICULAR PAIN; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	Confirms severe nasal septal deviation toward right w soft tissue occlusion of nasal cavities and multiple sinues s/w extensive polyposis with opacifications and near opacification of bilateral frontal maxillaries and ethmoids with polyps at sphenoid Ost; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	SINUSITIS FAILED MEDICATION; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset AND the patient failed a course of antibiotic treatment; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are unknown.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	1
Unknown	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; July 29 2013; There has been treatment or conservative therapy.; Multiple sclerosis; medication aubagio; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	B35.4; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Unknown	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	4
Unknown	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; This reason this study is being requested is unknown.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1

Unknown	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; This study is being requested for an unresolved cough; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	2
Unknown	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	CONDUCT CT SCAN TO EVAL EPIGASTRIC MASS AND RIGHT FLANK MASS-; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1 year ago; There has been treatment or conservative therapy.; EPIGASTRIC MASS AND RIGHT FLANK MASS-; Antibiotics and no results; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Hiatal hernia and reflux that does not respond to PPI.; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; An abnormal imaging (xray) finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	THE ORDERING PROVIDER WANTS A CT OF CHEST DONE WITH CONTRAST PROVIDER SAW PATIENT TODAY WITH SOB CHF AND EDEMA ALSO ENCOURAGED PATIENT TO GO TO ER IF SYMPTOMS CONTINUE BEFORE TEST CAN BE PERFORMED; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	There is radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is a preoperative or recent post-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has not been any treatment or conservative therapy.; radiating pain in the upper extremities; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; July 29 2013; There has been treatment or conservative therapy.; Multiple sclerosis; medication aubagio; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	5

Unknown	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	DDD.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/16/2015; There has been treatment or conservative therapy.; Back Pain; Pain Management; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Female with hx of traumatic injury and known DDD, 6 month hx of numbness and tingling in arms, EMG study negative, recommends MRI and neuro eval; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	1
Unknown	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; It is not known if there has been any treatment or conservative therapy.; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; No improvement in pain in two months of home treatment	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; None of the above; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has not been any treatment or conservative therapy.; radiating pain in the upper extremities; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	4
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.;	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Numbness arms and hands have tingling and numbness; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; SEVERE LUMBAR LEFT SIDE SCIATICA ON RX SEEN PT BUT WORSE BEEN TO CHIROPRACTOR AND ACCUPUNCTURE; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	BACK PAIN; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Female with hx of traumatic injury and known DDD, 6 month hx of numbness and tingling in arms, EMG study negative, recommends MRI and neuro eval; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	LOW BACK PAIN; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	It side low back pain greater than 6 weeks, conservative treatment of Mobic and rest; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	mmbrr has back spasm, increase in back pain in recent years, urological issues; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Needing to see where the weakness and pain is coming from; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; weakness in limbs; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	No Info Given.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; No improvement	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	None; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; No improvement in pain over several months	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has had chronic back pain x several years w/ worsening pain. Would like to clarify x-ray results to determine the cause and refer patient to a specialist if necessary.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.	1

Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has six months of LBP radiating down is right leg. His xrays show grade II spondylolisthesis at L4/5 with L4 pars defects and significant degenerative changes; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	perilumbar tenderness, history of lower back surgery with hardware; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	recent fall, causing twisting injury with increased back pain.; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	she has an annular tear of her lumbar disc which causes lumbar radiculopathy.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; A 45 year old female patient presents with Lumbar back pain. Pattern of condition is persistent. Symptom is chronic. Severity of condition is moderate. Onset is gradual. It occurs in constant course. It is relieved by nothing. Aching, burning, stabbing. A; There has been treatment or conservative therapy.; back pain radiating to the bilateral hips to the bilateral groins to bilateral anterior thigh.; Opioids  Hydrocodone Tramadol  NSAID's  Aleve / Naproxen / Naprosyn Celebrex / Celecoxib Anti convulsants Lamotrigine Gabapentin / Neurontin Klonopin Pregabalin / Lyrica; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	2
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Left lower extremity - tenderness as well; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; It is not known if there has been any treatment or conservative therapy.; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	73200 Computed tomography, upper extremity; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Inflammatory/ Infectious Disease.; 03/27/2018; There has not been any treatment or conservative therapy.; pain, redness and swelling, limited ROM in hands; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Unknown	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is no suspicion of upper extremity bone or soft tissue infection.; The ordering physician is not an orthopedist.; There is not a history of upper extremity trauma or injury.	1
Unknown	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; July 29 2013; There has been treatment or conservative therapy.; Multiple sclerosis; medication aubagio; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; ; The patient received oral analgesics.	1
Unknown	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This study is being ordered for Inflammatory/ Infectious Disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	4

Unknown	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Unknown	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	pain is dull and throbbing. no aggravating or relieving factors. Pain in under the 9th rib. Pain began as occassional but has become constant. 1. abdominal pain  The location is right upper quadrant. The quality of the pain is dull and throbbing. The ; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Inflammatory/ Infectious Disease.; 02/13/2018; There has been treatment or conservative therapy.; neuropathy of feet and hands; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGING SMALL CELL LUNG CANCER AFTER COMPLETION OF CHEMO  MOST RECENT PET SCAN SHOWED FDG UPTAKE INVOLVING THE LYMPH NODES  ASSESS RESPONSE TO THERAPY; This study is being ordered for a metastatic disease.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are clinical findings or indications of unexplained weight loss of greater than 10% body weight in 1 month; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT	1

Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	2
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the abdominal arteries.	1
Unknown	Disapproval	76498 Unlisted magnetic resonance procedure (eg, diagnostic, interventional)	Radiology Services Denied Not Medically Necessary	; Requestor has decided to proceed with the unlisted code.	1

Unknown	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; shortness of breath when walking and breath when lying down and chest pain on exertion. Risk factors include age and hypertension Not well controlled. Will schedule the patient for Lexiscan nuclear stress test and 2-D echo cardiogram. If stress test is ab; It is not known if there has been any treatment or conservative therapy.; SOB WITH EXERTION,CHEST PAIN ON EXERTION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	A 39 -year-old lady with a strong family history of premature coronary artery disease, smoker who presented with typical angina like symptoms and abnormal EKG suggesting ischemia, which is assumed to be a new development as the patient did not know if she; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1
Unknown	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	he needs a follow up Myoview because of history of stents.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has NOT had cardiac testing including Stress Echocardiogram, Nuclear Cardiology (SPECT/MPI), Coronary CT angiography (CCTA) or Cardiac Catheterization in the last 2 years.; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; There are not new or changing cardiac symptoms including atypical chest pain (angina) and/or shortness of breath.; There is known coronary artery disease, history of heart attack (MI), coronary bypass surgery, coronary angioplasty or stent.; The member has known or suspected coronary artery disease.; The BMI is 20 to 29	1
Unknown	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Positive for malaise/ fatigue. Negative for fever and weight loss.Positive for chest pain, claudication and leg swelling Pulses: Dorsalis pedis pulses are 2+ on the right side, and 2+ on the left side.  Posterior tibial pulses are 2+ on the ri; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has 3 or more cardiac risk factors; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 30 to 39	1

Unknown	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	palpitations and chest pain on exertion. This is a 40-year-old female was referred to us for evaluation of chest pain and palpitations. Has been complaining of retrosternal chest discomfort for the last 2-3 months, 5 out of 10 in intensity, without any rad; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; This is a 40-year-old female was referred to us for evaluation of chest pain and palpitations. Has been complaining of retrosternal chest discomfort for the last 2-3 months, 5 out of 10 in intensity, without any radiation, no aggravating or relieving fact; It is not known if there has been any treatment or conservative therapy.; Chest pain - Has both typical and atypical components of chest pain. Will order Lexiscan nuclear stress test (patient cannot walk on a treadmill because of multiple knee surgeries). -Will order 2-D Echocardiogram to evaluate LV function Palpitations - ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	Patient has no hx of PE or DVT. No previous hx of dyspnea on exertion. Patient is a current smoker of 30 plus years of 1-2 ppd.; This study is being ordered for Inflammatory/ Infectious Disease.; 02/10/2018; There has been treatment or conservative therapy.; Dyspnea on Exertion Cough Fatigue; Patient currently taking Symbicort inhaler BID ProAir inhaler for exacerbation of symptoms Zpack antibiotic Budesinide nebulizations  Prednisone; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; The patient has shortness of breath; Known or suspected pulmonary hypertension	1
Urology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Lab values elevated. Rule out pituitary adenoma; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; It is not known if the tumor is a pituitary tumor or pituitary adenoma.	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

Urology	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; Abnormal finding on physical examination was relevant in the diagnosis or suspicion of inflammatory bowel disease; This is a request for a Chest CT.; This study is being requested for known or suspected blood vessel (vascular) disease; Yes this is a request for a Diagnostic CT	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material		Confirmed Prostate Cancer; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material		Follow up from Renal Cell Carcinoma has had a left Partial Nephrectomy in 2013; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Surveillance of a known cancer following treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is being requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	2
Urology	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This study is being requested for 'none of the above'; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material		Patient has history of testicular cancer. Radical orchiectomy performed 6/2014. Scan is being performed for yearly metastatic surveillance; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material		Patient was diagnosed with renal adenocarcinoma on 8/1/2017. She underwent left nephrectomy . Scan is being ordered for routine surveillance; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material		PATIENT WAS KNOWN KIDNEY CANCER. HE UNDERWENT A LEFT RADICAL DAVINCI NEPHRECTOMY ON 07/08/2016. CT CHEST/ABD/PELVIS IS NEEDED FOR SURVEILLANCE AND MAKE SURE THERE IS NO RECURRENCE OF METASTATIC DISEASE.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material		pt has know renal mass consistent with renal cell carcinoma..we need ct chest/abd/pelvis for initial staging and to look for metastatic disease; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Urology	Approval	71250 Computed tomography, thorax; without contrast material	Pt has Prostate cancer.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Neurologic deficits	1
Urology	Approval	72192 Computed tomography, pelvis; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	72192 Computed tomography, pelvis; without contrast material	; This study is being ordered because of a suspicious mass/ tumor.; "The patient has had a pelvic ultrasound, barium, CT, or MR study."; This is a request for a Pelvis CT.; There are NO documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	72192 Computed tomography, pelvis; without contrast material	PAIN IN SCOTUM RULE OUT INGUINAL HERNIA VS SPERMATIC HEMATOMA; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	3
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	abnormal xray in february; This is a request for a Pelvis MRI.; It is unknown if the patient had previous abnormal imaging including a CT, MRI or Ultrasound.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Biopsy shows prostate cancer; This is a request for a Pelvis MRI.; The patient has NOT had previous abnormal imaging including a CT, MRI or Ultrasound.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	evaluate for cystectomy for recently diagnosed, muscle invasive urothelial bladder cancer. Completed neo-adjuvant chemotherapy with Gemzar and Cisplatinum. Associated Signs & Symptoms: frequency, urgency and dysuria with gross hematuria all resolved .Di; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	exposure of implanted vaginal mesh; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Prostate cancer: on active surveillance with rising PSA. PSA 4.88 (3/16/17), 5.31 (8-24-17), 5.47 (6-7-18); This is a request for a Pelvis MRI.; It is unknown if the patient had previous abnormal imaging including a CT, MRI or Ultrasound.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1

Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Pt had TCC of the bladder and was treated with BCG. He then had significant urgency and frequency and cysto and biopsy indicated continued cancer. Pt continues to be symptomatic.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for suspicion of pelvic inflammatory disease or abscess.	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	46
Urology	Approval	74150 Computed tomography, abdomen; without contrast material	1. Prostate CA (Gleason's 9): s/p radical prostatectomy (11.9.04) with (+) margins and lymph node invasion (by Dr. Hahn). Current therapy with Lupron (Last injection: 9/1/16); Bone scan (9.7.16): negative; Chest XRay (10.4.16): negative; Pt has received 2; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74150 Computed tomography, abdomen; without contrast material	history of kidney stones; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74150 Computed tomography, abdomen; without contrast material	Pt has complex right renal mass, with calcification. CT back in 2016. This is a follow up CT.; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is no suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; It is not known if there are new symptoms including hematuria.; There are no new lab results or other imaging studies including ultrasound, Doppler or plain films findings.; There is not a suspicion of an adrenal mass.; It is not known if this is a request to confirm a suspicious renal mass suggested by physical exam, lab studies, IVP or ultrasound.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74150 Computed tomography, abdomen; without contrast material	right renal carcinoma treated with nephrectomy 6 months ago.; This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; It is not known if this is a request for follow up to a known tumor or abdominal cancer.; It is unknown if this study is being ordered for staging of a known tumor (not) prostate, known prostate CA with PSA > 10, abdominal mass, retroperitoneal mass or new symptoms including hematuria with known CA or tumor.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; This is not a request for initial staging of a known tumor other than prostate.; This patient does NOT have known prostate cancer with a PSA (prostate-specific antigen) greater than 10.; No, this is not a request for follow up to a known tumor or abdominal cancer.; No, there is a palpable or observed abdominal mass.; Yes, there is a Is there an abdominal and pelvic or retroperitoneal or abdominal mass that has been confirmed.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; This is not a request for initial staging of a known tumor other than prostate.; This patient does NOT have known prostate cancer with a PSA (prostate-specific antigen) greater than 10.; No, this is not a request for follow up to a known tumor or abdominal cancer.; Yes, there is a palpable or observed abdominal mass.; No, there has not been a recent abdominal CT scan.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; Yes, this is a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT	26
Urology	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT	4
Urology	Approval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the abdomen.	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material			14
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		back pain, nausea, fever; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		BI-LATERAL RENAL CALCULI 8.1 MM - LARGEST MEASURES; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed a Kidney/Renal cyst(s); Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		CARCINOMA OF PROSTATE - ONSET 2/2/18; This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This is a request for evaluation of prostate cancer.; There is not a PSA greater than 10.; It is not known if there is a Gleason Score (sum) 7 or greater.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is male.; The patient did not have a prior Abdomen/Pelvis CT.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Confirmed Prostate Cancer; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Elevates PSA and it was 826 up from 148. Biopsy was done 6/12 cords. Highest was 7.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	FLANK PAIN AND KIDNEY STONE; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	GROSS HEMATURIA AND MIXED INCONTINENCE, ABD PAIN  HAVING INCOMPLETE EMPTYING , URGENCY, FREQUENCY AND INCONTIENCE... REPORTED VAG DISCHARGE AND BLEEDING; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; It is unknown if there has been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	GROSS HEMATURIA WITH HISOTRY OF PROSTATE CANCER; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the hematuria is not known.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	HEMATURIA; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the hematuria is not known.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	KIDNEY STONE AND UTI; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for ketones.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Patient has history of testicular cancer. Radical orchiectomy performed 6/2014. Scan is being performed for yearly metastatic surveillance; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	PROSTATE CANCER; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Pt has hx of primary megaureter. she underwent surgery for ureteral reimplant on 1/16/2018 without complication. Scan is being done for postop evaluation to ensure ureter is functioning properly; This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; The study is requested for post-op evaluation.; The study is not requested as a first follow up study for a suspected or known post-op complication.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Pt has Prostate cancer.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		RENAL MASS; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Bilateral KNEE EFFUSION moderate to large, with crepitus and cracking over extremes of flexion and extension. Gentle attempts at rotation are painful and range of motion is limited partially due to capsular tendon secondary to the knee effusion. Effusion ; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; It is not known if there has been any treatment or conservative therapy.; c/o knee pain and swelling in the right knee that seems to be getting worse as time goes on, it will really swell up and be very painful and difficult to bend and extend when it is really aggravated. It seems to come and go for no reason though at times ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Focal tenderness Right GHJ with limited range of motion; This study is being ordered for trauma or injury.; Feb 20, 2018; There has been treatment or conservative therapy.; Trouble lifting rt arm, rt arm pain. Rt knee pain; Naproxen has been used for 6 weeks; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Foot pain x 3 years, foot deformity, numbness in toes; This is a request for a foot MRI.; The study is being ordered for foot pain.; The study is being ordered for chronic pain.; The patient has had foot pain for over 4 weeks.; The patient has been treated with anti-inflammatory medication for at least 6 weeks.	1

General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	none; This study is being ordered for a neurological disorder.; 05/2015; There has been treatment or conservative therapy.; knee pain and swelling around joints , numbness from knees to toes....; anti inflammatory; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	patient had a abnormal ct previously but never followed up with anyone; This study is being ordered for trauma or injury.; 01/01/2018; There has been treatment or conservative therapy.; severe headache, right knee pain with decrease range of motion; anti-inflammatory , steroids, pain meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Patient has had a recent fall; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Patient in our office on 05/22/18 with right hip and knee pain, she states another physician at Laser Spine institute is requesting MRI; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient has a documented limitation of their range of motion.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1

General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Instability	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The results of the plain films is not known.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physician directed course of non-steroidal anti-inflammatory medications	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a Knee MRI.; The study is requested for knee pain.; The pain is described as chronic; The member has failed a 4 week course of conservative management in the past 3 months.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	15
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient has a documented limitation of their range of motion.; This study is not being ordered by an operating surgeon for pre-operative planning.	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	unknown; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1

General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for trauma or injury.; 3/2/2018; There has been treatment or conservative therapy.; knee pain popping in cervical spine; medications/xrays; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a requests for a hip MRI.; The member has not failed a 4 week course of conservative management in the past 3 months.; The hip pain is due to an old injury.; The request is for hip pain.	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	3
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; This patient has been dealing with this for a couple of years now.; It is not known if there has been any treatment or conservative therapy.; Severe back and hip pain, also swelling and pain in feet.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	Complains again of chronic back pain, worsening. Bilateral low back, radiates down both legs with numbness feeling in legs at times. Seems worse after he has been sitting or laying for a while and goes to stand up. MRI in 2015 showed moderate central I; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has bursitis of her left hip and also sciatica and lumbar back pain with radiculopathy affecting lower left extremity; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT HAS GREATLY WORSENING SYMPTOMS AND XRAYS HAVE NOT SHOWN ANYTHING AND PATIENT HAS COMPLETED CONSERVATIVE THERAPY. FURTHER EVALUATION IS NEEDED; This study is being ordered for trauma or injury.; 1999; There has been treatment or conservative therapy.; LOW BACK PAIN, NOW SHOWING NEURO DEFICETS W/ RLE WEAKNESS, PARESTHESIAS, AND DROP FOOT; PATIENT HAS RECEIVED NSAIDS, PHYSICAL THERAPY, AND PAIN MEDS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient has a documented limitation of their range of motion.	1

General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient has a documented limitation of their range of motion.	2
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the hematuria is not known.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; It is not known if the urinalysis results were normal or abnormal.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; Yes this is a request for a Diagnostic CT	46
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for ketones.; Yes this is a request for a Diagnostic CT	4

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for protein.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; It is not known if the urinalysis was positive for bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; It is not known if the urinalysis was positive for bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	12
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is receiving long-term steroid therapy (Prednisone or Cortisone).; The patient has a documented limitation of their range of motion.	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/25/2018; There has been treatment or conservative therapy.; Left sided low back pain radiating down left leg.; Starting PT today. Taken anti-inflammatories.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; No, this is not a request for follow up to a known tumor or abdominal cancer.; This study being ordered for a palpable, observed or imaged abdominal mass.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/19/18; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; antibiotics; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	5
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	ab pain; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	abnormal chest xray with elevated hemidiaphragm. sob and mass on xray; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/25/2018; There has been treatment or conservative therapy.; abnormal chest xray with elevated hemidiaphragm. sob and mass on xray; patient was given Ventolin; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Elevated liver enzymes with history of ETOH abuse; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	elevation in liver numbers. History of multiple gunshot wounds in abdomen. Wanting to check for any damaged or ripped. Patient also does heavy lifting. R/O any problems.; This is a request for an Abdomen CT.; This study is being ordered for trauma.; This request is not for follow up to abdominal and/or pelvic trauma ordered by a specialist or PCP on behalf of a specialist who has seen the patient.; There is no recent trauma with physical findings or abnormal blood work indicating either peritonitis or abscess.; There are no physical findings or lab results indicating an intra-abdominal bleed.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	tenderness (right lower anterior and lateral ribs) RUQ pain. pt states she didn't sleep last night due to pain. pt rates pain a 7 to an 8 currently. pt states food worsens pain. GB removed 2014; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	weight loss 30 pounds since 05/2017, why she is losing weight; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for acute pain.; There has not been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	3
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The hematuria is due to Renal Calculi/kidney/ ureteral stone.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The hematuria is due to tumor or mass.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	3
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient has a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This is not request for evaluation of prostate cancer.; This study is being ordered for follow-up.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is male.; The last Abdomen/Pelvis CT was performed more than 10 months ago.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	3
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This is not request for evaluation of prostate cancer.; This study is being ordered for staging.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is male.; Yes this is a request for a Diagnostic CT	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is being ordered for follow-up.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is female.; The last Abdomen/Pelvis CT was performed more than 10 months ago.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Will fax in clinicals; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Vascular Disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; < Describe treatment / conservative therapy here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	This patient was in a car accident and we are trying to rule out internal bleeding.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Patient was in a motor vehicle accident, and upon inspection at the ER where patient was taken, there was a CT of chest and pelvis and a 2.7 left adrenal nodule was found. and a adrenal protocol ct with and with out contrast was recommended.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/9/2018; There has not been any treatment or conservative therapy.; mbr has weight loss unexplained and vomiting and abdominal pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	53 year old male with LLQ pain for the past 2 months, nothing has helped to alleviate the pain.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	53 year old male with LLQ pain, states it feels like he may have a hernia, history of hernia on right side.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Abdominal Pain Reported by patient. Location: RLQ  Quality: pain Duration: started: (November)  Onset/Timing: wax/wane  Associated Symptoms: no fever  Other: uses birth control; had Laparoscopic surgery by her ob gyn, outcome: fluid, non-infectious; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	BLOATING AND CONSTIPATION; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	CHRONIC ABDOMINAL AND FLANK PAIN. WE NEED TO RULE OUT CERTAIN URGENT DIAGNOSIS; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	CT of Abd/Pelvis;;right quadrant abdominal pain, no gallbladder, no appendix, partial hysterectomy, states long time ago was told she had a spot on her kidney CT of Head/Brain:: has numbness and tingling of right scalp with pain, also fainting spells; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Genitourinary: Positive for flank pain  Dysuria  Acute right flank pain, Right lower quadrant abdominal pain; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	hematuria, painful urination, w/ abdominal and flank pain; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	history of trich in the past, awaiting std results; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Knot in groin area- from right side to about penis area, painful at times. First noticed about 2 weeks ago in the shower. Denies lifting heavy objects for work. Does report that spot seems to get bigger when straining such as if going from lying to sittin; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	nausea and vomiting; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Neg urinalysis and pelvic ultrasound; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	none; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	none; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/9/18; There has been treatment or conservative therapy.; Weight loss, epigastric pain, hematuria; Medication, diet changes; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	patient has a kidney stone and is currently on antibiotics; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has abnormal liver functions; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT HAS BEEN COMPLAINING OF PELVIC AND ABDOMINAL PAIN FOR A MONTH. THE PAIN HAS NOT EASED UP.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	patient is having right lower quadrant pain with nausea. patient has no gallbladder and has had hysterectomy. still has right ovary; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient needs a Ct of chest for chest pain and a CT of abdomen and pelvis for unexplained weight loss and generalized abdominal pain.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patients mouth tastes like bile, everything she eats lands below her diaphragm and she has to take gas pills and heartburn meds every day, she feels like she is going to vomit at night.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	plain flank pain, trouble passing blood in stools.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has enlarged uterus; abdominal pain, abdominal mass in LLQ w/pelvic and perianal pain; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	pt is having stomach pain and bleeding with bowel movements.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Pt. complains of pain in left lower quadrant, has been going on for several weeks, pain is stabling. Gets worse as the day progresses. On exam: Abdomen: Tenderness in the right lower quadrant, left lower quadrant.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	28
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	7
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; The study is requested for post-op evaluation.; The study is requested as a first follow up study for a suspected or known post-op complication.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	6
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; It is not known if the patient is presenting new symptoms.; It is not known if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed more than 10 months ago.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	4
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; There is a known or a strong suspicion of kidney or ureteral stones.; Kidney/Ureteral stone; Yes this is a request for a Diagnostic CT	3
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for glucose.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for ketones.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than billirubin, ketones, nitrites, hematuria/blood, glucose or protein.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than billirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	3
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	8
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has been completed.; The results of the contrast/barium x-ray were normal.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	2

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	6
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	3
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed something other than Gall Stones, Kidney/Renal cyst, Aneurysm or a Pelvis Mass.; Yes this is a request for a Diagnostic CT	4
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Unknown; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)			2
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is NOT presenting new signs or symptoms.; The patient did NOT have chemotherapy, radiation therapy or surgery in the last 3 months.; They had an Abdomen MRI in the last 10 months.	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		evaluate for cystectomy for recently diagnosed, muscle invasive urothelial bladder cancer. Completed neo-adjuvant chemotherapy with Gemzar and Cisplatinum. Associated Signs & Symptoms: frequency, urgency and dysuria with gross hematuria all resolved .Di; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for hematuria.; "The patient has not had an abdominal ultrasound, CT, or MR study."; It is not known if the hematuria is painful.; gross hematuria, right flank pain	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; The patient is presenting new symptoms.; This study is being ordered for follow-up.; The patient is not undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; 1. Kidney Cancer: s/p L robotic partial nephrectomy (01/24/18) path: ccRCC, WHO/ISUP grade 1, 1.7 in greatest dimension, confined. initially seen on MRI (11/30/17). CXR (6.7.18) No acute cardiopulmonary findings. No masses demonstrated. 2. Renal Hematoma	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient did NOT have chemotherapy, radiation therapy or surgery in the last 3 months.; They did NOT have an Abdomen MRI in the last 10 months.	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; CT with and without was done and 3 indeterminate renal lesions were identified in the left kidney. MRI with and without contrast was recommended by radiologist for better determination.	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Patient has a suspicious mass on his left kidney that was found on a CT.	1

Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; renal mass Bilateral renal masses c/w RCCHas all markings of VHL Right lower pole lesion is larger but was embolized - did shrink some, but still enhances peripherally Left upper pole endophytic lesion ~4.1-cm	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; The patient has a history of renal cancer. His most recent CT scan showed a hyperdense pancreatic lesion measuring 2.2 cm, Radiologist recommended MRI to better characterize	1
Urology	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	the patient is having urinary incontinence predominantly stress incontinence. She doesn't wear any pads. She's had 4 vaginal deliveries including a set of twins. She also had some low back pain and has a nodular area in the right sacral iliac region.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	1. Renal mass - Bilateral renal masses c/w RCC  Has all markings of VHL   Right lower pole lesion is larger but was embolized - did shrink some, but still enhances peripherally   Left upper pole endophytic lesion ~4.1-cm      Will fill out forms; This study is being ordered for Congenital Anomaly.; 05/14/2018; There has not been any treatment or conservative therapy.; 42 year old male with VHL and bilateral renal masses that had recent CT showing some reduction in right renal mass s/p embolization; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	testicular pain, left hydrofield and tenderness, crohn's disease, back pain; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Urology	Disapproval	72191 Computed tomographic angiography, pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	This is a request for a pelvis CT angiography.	1

Urology	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	HISTORY OF GROSS HEMATURIA, RLQ PAIN, ABDOMINAL PAIN RADIATES TO RIGHT FLANK. ASSESS FOR KIDNEY STONES; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient need further evaluation of cyst found on previous ultrasound.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RENAL CYST AND KIDNEY STONE; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	The Patient is coming in for a follow up from his previous stone history. He has stones that are not able to be seen by a KUB study and needs a more enhance study done.; This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; It is not known if the urinalysis results were normal or abnormal.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; It is not known if the urinalysis was positive for billirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1

Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	2
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for ketones.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than billirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	5
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	28
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has not been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	6

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	35
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	2
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	2
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has not been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	2
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient does not have a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient does not have Crohn's Disease, Ulcerative Colitis or Diverticulitis.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	3

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient does not have a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient does not have Crohn's Disease, Ulcerative Colitis or Diverticulitis.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient does not have a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient has Crohn's Disease.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient has a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed more than 10 months ago.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed within the past 10 months.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	2
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1

Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	8
Urology	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Vascular Surgery	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Vascular Disease.; 5/2017; There has been treatment or conservative therapy.; Neck/shoulder pain.; Left carotid bypass; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Vascular Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		Donald E Wilkerson who is a 33 y.o. male who suffered a high mechanism MVC resulting in a traumatic transection of the Aorta. He had a TEVAR and left carotid-subclavian bypass that was complicated by inadvertent coverage of the left common carotid arter; It is not known whether this study is requested to evaluate suspected pulmonary embolus.; This study is being ordered for Suspected Vascular Disease.; It is not known whether there are new signs or symptoms indicative of a dissecting aortic aneurysm.; It is not known whether this is an evaluation for thoracic outlet syndrome.; It is not known whether there are signs or symptoms indicative of vascular insufficiency to the neck or arms.; Yes, this is a request for a Chest CT Angiography.	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; There are NO abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; This study is being ordered for another reason besides Crohn's disease, Abscess, Ulcerative Colitis, Acute Non-ulcerative Colitis, Diverticulitis, or Inflammatory bowel disease.; There are no findings that confirm hepatitis C.; Infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; /o LOWER RT ABD PAIN X 3 MONTHS ymptoms include abdominal pain and diarrhea. The patient describes the pain as crampy. The patient describes this as worsening Abdomen Palpation/Percussion Palpation and Percussion of the abdomen reveal - No Rebound tendern; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; There are NO abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; This study is being ordered for another reason besides Crohn's disease, Abscess, Ulcerative Colitis, Acute Non-ulcerative Colitis, Diverticulitis, or Inflammatory bowel disease.; There are no findings that confirm hepatitis C.; Infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; ; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; There are NO abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; This study is being ordered for another reason besides Crohn's disease, Abscess, Ulcerative Colitis, Acute Non-ulcerative Colitis, Diverticulitis, or Inflammatory bowel disease.; There are no findings that confirm hepatitis C.; Infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; c/o LOWER RT ABD PAIN X 3 MONTHS ymptoms include abdominal pain and diarrhea. The patient describes the pain as crampy. The patient describes this as worsening Abdomen Palpation/Percussion Palpation and Percussion of the abdomen reveal - No Rebound tend; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Other; Abdominal pain  Pain scale: 8/10. The problem has worsened. The location is epigastric. The patient denies relieving factors. Associated symptoms include back pain and nausea. Pertinent negatives include fever.; Yes this is a request for a Diagnostic CT	1
Vascular Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		f/u from aortic dissection after MVA; This study is not requested to evaluate suspected pulmonary embolus.; It is not known if this study will be performed in conjunction with a Chest CT.; This study is being ordered for Known Vascular Disease.; This is a post-operative evaluation.; It is not known whether there is physical evidence of re-bleed or re-stenosis.; There is no physical evidence of an infection or other complication.; Yes, this is a request for a Chest CT Angiography.	1
Vascular Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/01/2012; There has been treatment or conservative therapy.; pain, follow up on known aneurysm; previous surgery in 2012; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Vascular Surgery	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI.;" There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1

Vascular Surgery	Approval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing		This is a request for CT Angiography of the Abdomen and Pelvis.	2
Vascular Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Vascular Surgery	Disapproval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	54 year old male referred to us for carotid stenosis. He has a history of a right CEA in December 2017 after having a TIA (he describes the episode as inability to move, talk or see for a few minutes). At that time it was discovered that he had an occlude; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/2017; There has not been any treatment or conservative therapy.; 54 year old male referred to us for carotid stenosis. He has a history of a right CEA in December 2017 after having a TIA (he describes the episode as inability to move, talk or see for a few minutes). At that time it was discovered that he had an occlude; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Vascular Surgery	Disapproval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	This is a request for CT Angiography of the Abdomen and Pelvis.	1
Vascular Surgery	Disapproval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the abdomen.	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	8
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	12
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	3

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The results of the ultrasound are unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed a pelvic mass.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed gall stones.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	4

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient had an endoscopy.; The results of the endoscopy are unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	7
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	23
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	7
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; It is not known if there has been any treatment or conservative therapy.; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	US done 2 months ago with small ovarian cysts; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	enhancing liver lesion flash filling hemangioma not completely characterized on this exam could be further evaluated by ct for MRI,per liver mass protocol; This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A liver abnormality was found on a previous CT, MRI or Ultrasound.; It is unknown if there is suspicion of metastasis.	1
General/Family Practice	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI.; This study is being ordered for known or suspected infection.; "The ordering physician is not a gastroenterologist, urologist, or infectious disease specialist."; "There are not physical findings or abnormal blood work consistent with peritonitis, pancreatitis, or appendicitis."; "There are no active or clinical findings of Crohn's disease, ulcerative colitis, or diverticulitis."; "There is not radiographical or ultrasound findings consistent with abnormal fluid collection, abdominal abscess, or ascites.";	1
General/Family Practice	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI.; This study is being ordered for known or suspected infection.; "The ordering physician is not a gastroenterologist, urologist, or infectious disease specialist."; "There are not physical findings or abnormal blood work consistent with peritonitis, pancreatitis, or appendicitis."; "There are no active or clinical findings of Crohn's disease, ulcerative colitis, or diverticulitis."; "There is not radiographical or ultrasound findings consistent with abnormal fluid collection, abdominal abscess, or ascites."; < Enter answer here - or Type In Unknown If No Info Given. >	1
General/Family Practice	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; Pt has mild peri umbilical pain to the left	1
General/Family Practice	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; Reason for Study: Pt had elevated LFTs 4/9, worse 4/18, even worse 4/20 when pt was in NWMC. Pt taken by ambulance to ER 4/20 for abdominal pain and vertigo. Brain CT and abdominal XR unremarkable. No improvement to pt's symptoms. Dr. Moore (GI) recom	1

General/Family Practice	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Will fax.; This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.	1
General/Family Practice	Disapproval	74263 Computed tomographic (CT) colonography, screening, including image postprocessing	Radiology Services Denied Not Medically Necessary	This is a request for CT Colonoscopy for screening purposes only.	1
General/Family Practice	Disapproval	75571 Computed tomography, heart, without contrast material, with quantitative evaluation of coronary calcium	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a CT scan for evaluation of coronary calcification.	1
General/Family Practice	Disapproval	75571 Computed tomography, heart, without contrast material, with quantitative evaluation of coronary calcium	Radiology Services Denied Not Medically Necessary	Patient has mixed hyperlipidemia and family history of heart disease.; This is a request for a CT scan for evaluation of coronary calcification.	1
General/Family Practice	Disapproval	75571 Computed tomography, heart, without contrast material, with quantitative evaluation of coronary calcium	Radiology Services Denied Not Medically Necessary	Pt suffers with uncontrolled high cholesterol.; This is a request for a CT scan for evaluation of coronary calcification.	1
General/Family Practice	Disapproval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)	Radiology Services Denied Not Medically Necessary	This request is for a Coronary CT Angiography study.; Yes, patient had a Nuclear Cardiology study within the past six months.; CAD s/p INSTEMI with stent May 2017 Hyperlipidemia on statin	1
General/Family Practice	Disapproval	76497 Unlisted computed tomography procedure (eg, diagnostic, interventional)	Radiology Services Denied Not Medically Necessary	Unknown; Requestor has decided to proceed with the unlisted code.	1
General/Family Practice	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1

General/Family Practice	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	PT HAS A FAMILY HISTORY OF BREAST CANCER IN A SISTER THE SAME SISTER HAS ALSO TESTED POSITIVE FOR THE BRCA MUTATION. SHE ALSO HAS A FAMILY HISTORY OF OVARIAN CANCER.; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary		1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	2
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	2

General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	chest pain described as pressure, squeezing. occurs at rest. radiates to left arm; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Chest Pain- EKG shows sinus bradycardia and slight ST-T abnormality.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; Another test besides a Nuclear Cardiology Study, CCTA or Stress Echocardiogram has been completed to evaluate new or changing symptoms.; The patient has 2 cardiac risk factors; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; There are new or changing cardiac symptoms including atypical chest pain (angina) and/or shortness of breath.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Chest pain radiating to arms, with hx of HTN, Hyperlipidemia and family hx of heart dz.; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	chest pain with radiation to neck; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	CHEST PAIN; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	cp; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	has had some chest pain and that her heart rate had been varying between normal to very rapid. No particular activity brings on the chest pain.; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Having chest pain and tightness, shortness of breath, dyspnea on exertion, family history of CAD.; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	PATIENT HAS CHEST PAIN FOR THE PAST MONTH. SHE HAS A STRONG FAMILY HISTORY OF HEART DISEASE. PAIN HAS BEEN FAIRLY CONSISTENT BUT VARIES IN INTENSITY. INVOLVES HER LEFT SHOULDER, UNDERNEATH HER ARM AND CHEST WALL.; It is not known if the patient has had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Patient has had chest pain and tightness for more than 24 hours.; It is not known if the patient has had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	patient presents with increasingly severe chest pain; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	patient unable to do treadmill stress test secondary to tendon rupture in knee. hx of chronic htn, and smoker; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Pre hypertension, having precordial chest pain for a few weeks, heart rate has gotten over 100 on a couple of occasions, obesity; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; It is not known if the member has known or suspected coronary artery disease.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; The member does not have known or suspected coronary artery disease	4

General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The study is requested for evaluation of the heart prior to non cardiac surgery.	2
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The study is requested for known or suspected valve disorders.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	unknown; The patient has had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; The patient does NOT have Thyroid or Brain cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
General/Family Practice	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; It is unknown if the patient has a history of a recent heart attack or hypertensive heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; The patient has high blood pressure	1

General/Family Practice	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; The abnormal symptom, condition or evaluation is not known or unlisted above.	1
General/Family Practice	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; The patient has shortness of breath; Shortness of breath is not related to any of the listed indications.	1
General/Family Practice	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; It is unknown if this request is for initial evaluation of a murmur.; It is unknown if this is a request for follow up of a known murmur.	1
General/Family Practice	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; There has NOT been a change in clinical status since the last echocardiogram.; This request is for initial evaluation of a murmur.; It is unknown if the murmur is grade III (3) or greater.; There are NOT clinical symptoms supporting a suspicion of structural heart disease.; This is a request for follow up of a known murmur.	1
General/Family Practice	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; This request is for initial evaluation of a murmur.; It is unknown if the murmur is grade III (3) or greater.; It is unknown if there is clinical symptoms supporting a suspicion of structural heart disease.; This is NOT a request for follow up of a known murmur.	2
General/Family Practice	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/20/2018; There has been treatment or conservative therapy.; Pain and bi lateral lower extremity numbness; Medications and home exercise.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	93312 Echocardiography, transesophageal, real-time with image documentation (2D) (with or without M-mode recording); including probe placement, image acquisition, interpretation and report	Radiology Services Denied Not Medically Necessary	n/a; This a request for an echocardiogram.; This is a request for a Transesophageal Echocardiogram.; This study is NOT for suspected acute aortic pathology, pre-op of mitral valve regurgitation, infective endocarditis, left atrial thrombus, radiofrequency ablation procedure, fever with intracardiac device or completed NON diagnostic TTE.	1
General/Family Practice	Disapproval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;	Radiology Services Denied Not Medically Necessary	This is a request for a Stress Echocardiogram.; None of the listed reasons for the study were selected; It is not known if the member has known or suspected coronary artery disease.	1
General/Family Practice	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	.; This request is for a Low Dose CT for Lung Cancer Screening.; It is unknown if this patient has had a Low Dose CT for Lung Cancer Screening in the past 11 months.; It is unknown if the patient is presenting with pulmonary signs or symptoms of lung cancer or if there are other diagnostic test suggestive of lung cancer.	1
General/Family Practice	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	Patient has smoked two packs per day for 30 years.; This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is 54 years old or younger.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; Patients who are NOT between the ages of 55 and 81 years of age do not meet the criteria for lung cancer screening.	1
General/Family Practice	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	Patient is a high risk for cancer with both chronic Hep C and cirrhosis of liver.; This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is 54 years old or younger.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; Patients who are NOT between the ages of 55 and 81 years of age do not meet the criteria for lung cancer screening.	1
General/Family Practice	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	Right breast lumpectomy.; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	1
General/Family Practice	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	2

General/Family Practice	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	Tobacco abuse; This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is 54 years old or younger.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; Patients who are NOT between the ages of 55 and 81 years of age do not meet the criteria for lung cancer screening.	1
Geriatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.	1
Geriatrics	Approval	71250 Computed tomography, thorax; without contrast material		The pt has left sided chest pain under her left breast breast pt also had a lumpectomy; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Geriatrics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.	1
Geriatrics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	1
Geriatrics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Geriatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Geriatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were abnormal.; Yes this is a request for a Diagnostic CT	1
Geriatrics	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A liver abnormality was found on a previous CT, MRI or Ultrasound.; There is suspicion of metastasis.	1
Geriatrics	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Dementia, memory loss.; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
Gynecologic Oncology	Approval	70450 Computed tomography, head or brain; without contrast material			1

Gynecologic Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material			1
Gynecologic Oncology	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Surveillance of a known cancer following treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Gynecologic Oncology	Approval	71250 Computed tomography, thorax; without contrast material		stage 3 cancer; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Gynecologic Oncology	Approval	71250 Computed tomography, thorax; without contrast material		unknown.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Gynecologic Oncology	Approval	72125 Computed tomography, cervical spine; without contrast material			1
Gynecologic Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Gynecologic Oncology	Approval	73700 Computed tomography, lower extremity; without contrast material			2
Gynecologic Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material			3
Gynecologic Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
Gynecologic Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		stage 3 cancer; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Gynecologic Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1

Gynecologic Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		unknown.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Gynecologic Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		unknown; This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; The abnormality found on a previous CT, MRI or Ultrasound was not in the liver, kidney, pancreas or spleen.	1
Gynecologic Oncology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There is a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
Gynecologic Oncology	Approval	78813 Positron emission tomography (PET) imaging; whole body		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Gynecologic Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Gynecologic Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Ovarian or Esophageal Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		CT head, chest, abdomen, pelvis and Bone scan for restaging; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		Follow up CT hcap and bone scans evaluate for recurrent lung cancer. Ordered 3/22/18; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		Follow up CTs 7/18 to evaluate for recurrent disease. Ordered 5/24/18; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		Ms. Majors is here today for management of breast cancer while on Tamoxifen.   She reports improvement in hot flashes and night sweats.   Medium to high energy with some fatigue but no dyspnea.   Reports constipation which she states might be under ; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		Ms. Olson is here today for follow up of her lung cancer. She had scans at her 12/13/17 visit that were clear and she is NED. She had CXR today which did not show any signs of malignancy.  She denies SOB, dyspnea or hemoptysis. She is not a smoke; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		restaging checking response to treatment; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		RESTAGING MALIGNANT MELANOMA; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	56
Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		There is a question of new developing nodular asymmetry in central right breast. Defer determination of significance of this finding to breast examination and mammography.  5. RTC in 3 months for labs, scan results and exam.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a known tumor outside the brain.; Known or suspected tumor best describes the reason that I have requested this test.	4
Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a suspected brain tumor.; Known or suspected tumor best describes the reason that I have requested this test.; There are documented neurologic findings suggesting a primary brain tumor.; This is NOT a Medicare member.	8
Hematologist/Onco logist	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is immune-compromised.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		HODGKINS LYMPHOMA PATIENT COMPLAINS OF WORSENING NIGHT SWEATS, NECK AND JAW PAIN AND HEADACHE WITH NAUSEA AND VOMITING; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1

Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		Large oral tongue mass on the left, the base extends to at least the circumvallate. Ms. Chick presents with a likely T3N1M0. The initial workup is not complete. Patient will needs surgery in the form of hemi v.s. Total glossectomy with bilateral MRND, tra; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		RESTAGING LYMPHOMA; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		RESTAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	2
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; The study is being ordered for Follow Up.; The patient has a known tumor or metastasis in the neck.; The patient completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; The study is being ordered for Follow Up.; The patient has a known tumor or metastasis in the neck.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; There are new or changig symptoms in the neck.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is no suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is a suspicion of an infection or abscess.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	4
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient is experiencing fatigue or malaise.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; It is not known if a biopsy has been completed to determine tumor tissue type.; It is not known if there are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		complete staging of cancer; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1

Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		continuity of care; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		EMBRYONAL TUMOR WITH MULTILAYERED ROSETTES; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		HODGKINS LYMPHOMA PATIENT COMPLAINS OF WORSENING NIGHT SWEATS, NECK AND JAW PAIN AND HEADACHE WITH NAUSEA AND VOMITING; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Increasing headaches. We will order Brain MRI to further evaluate and to rule out metastatic disease; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		MALIGNANT MELANOMA  NEW SYMPTOMS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Mr. Story presents to the clinic today for ongoing evaluation and management of renal cell carcinoma.   He reports he was very depressed over the Christmas holidays and had some suicidal ideation. He states he also has some personal problems that have a; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		NEW ONSET DIZZINESS; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patient has a history of Non-small cell lung cancer with metastasis to the brain. She has recently presented to clinic with fatigue, headaches, and a weight loss of about 6 pounds in the last 3 weeks.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		patient with lung cancer with brain metastasis, patient with inability to feed self, patient with decreased fine motor skills such as brushing teeth, patient with increased confusion, patient with shuffling of feet with walking, patient with inability to ; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; It is unknown why this study is being ordered.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		PERSISTENT AND SEVERE HEADACHES; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		R/O Brain Metastases.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1

Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		RESTAGING LUNG CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	2
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Reviewed CT scans with Dr. Khalil, will get MRI brain to evaluate new lesion in left cerebellum. Pt called and given results and she has had MRIs in the past, no metal or claustrophobic.; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient is experiencing fatigue or malaise.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		staging to start chemo; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient is experiencing dizziness.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient is experiencing fatigue or malaise.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	2
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1

Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing dizziness.	3
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; The patient has undergone treatment for multiple sclerosis.	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.	2
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	67
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is a pituitary tumor or pituitary adenoma.; There are not physical findings or laboratory values indicating abnormal pituitary hormone levels.; There has been a previous Brain MRI completed.; The brain MRI was abnormal.; This is NOT a Medicare member.	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.	8
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; It is not known if a biopsy has been completed to determine tumor tissue type.; There are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The headache is described as a "thunderclap" or the worst headache of the patient's life.; Requested for evaluation of tumor; It is not known if a biopsy has been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is a new and sudden onset of headache (less than 1 week) not improved by pain medications.	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for a tumor.	15
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		unknown; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1

Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		"There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They did not have a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	4
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		. Schedule re-staging scans at BMC as indicated. Last BMC 5/15/18.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	11
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		1. Follicular lymphoma, grade 1 - diagnosed 1/2018 from EGD (stomach involvement). Gastric involvement, mesenteric nodes and possible cervical node involvement per PET/CT. Rituxan (375mg/m2) 750mg iv weekly x 4 started 1/25/18, Completed 2/15/18.  1; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		3 months for evaluation with CT chest, abd, pelvis done the week prior TO HER APPOINTMENT; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		4. Schedule re-staging CT's q 3 months. Last 3/29/18.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		53-year-old Caucasian female with past medical history significant for tobacco smoking, hypertension, type 2 diabetes, history of bleeding per rectum since age of 50 but did not seek any medical attention until January 2016-visited Wadley emergency room f; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		A Chest/Thorax CT is being ordered.; This study is being ordered for known tumor.; Yes this is a request for a Diagnostic CT	16
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		A Chest/Thorax CT is being ordered.; This study is being ordered for suspected pulmonary Embolus.; Yes this is a request for a Diagnostic CT	1

Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	14
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		cancer digestive system, esophagus and esophagogastric stage 111b; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; An abnormal imaging (xray) finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		continuity of care; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		Coughing up blood (hemoptysis) describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		CT DONE 8/22/2017  6.3 MM NONCALCIFIED NODULE IN THE RIGHT LOWER LOBE CONSISTENT WITH LUNG RADS CATEGORY 3.  REPEAT CT SCAN RECOMMENDED.; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		HODGKINS LYMPHOMA PATIENT COMPLAINS OF WORSENING NIGHT SWEATS, NECK AND JAW PAIN AND HEADACHE WITH NAUSEA AND VOMITING; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		I will see her again in 4 months for a CBC w/Diff, CMP and exam. She will have a CT C/A/P, WB bone scan and Bone density in 4 months prior to exam to continue to monitor her breast cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		I will see her again in 4 months with CBC w/Diff, CMP and exam. She will have a CT C/A/P, bone scan and bone density prior to her next exam to evaluate her breast cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		I will see him in 3 months with a CBC w/diff, CMP and exam. He will have a CT C/A/P prior to his next exam to evaluate his colon cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		mets pca, cancer of prostate; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		Mr. Holliday is a very pleasant 61 year old male who presents to the clinic with his wife today for evaluation and management of his Colon Cancer. He had a biopsy of his bladder in 2016 by Dr. Kuhn which was negative. He is feeling well today. He did hav; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material	Mr. Story presents to the clinic today for ongoing evaluation and management of renal cell carcinoma. He reports he was very depressed over the Christmas holidays and had some suicidal ideation. He states he also has some personal problems that have a; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material	Ms. Majors is here today for management of breast cancer while on Tamoxifen. She reports improvement in hot flashes and night sweats. Medium to high energy with some fatigue but no dyspnea. Reports constipation which she states might be under ; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material	new Metastatic disease and under post treatments; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; Another abnormality led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; Surveillance of a known cancer following treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	15
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is NOT a smoker nor do they have a history of smoking.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This study is being requested for an unresolved cough; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This study is being requested for suspicion of pulmonary embolism (PE); This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material	Patient has a history of Non-small cell lung cancer with metastasis to the brain. She has recently presented to clinic with fatigue, headaches, and a weight loss of about 6 pounds in the last 3 weeks.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material	Patient with a history of ocular melanoma needing a follow up scan to make sure there is no evidence of recurrence.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material	Patient with breast cancer has a new palpable lymph node in her left groin. Imaging to evaluate staging of her disease.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		Post-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		Pre-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		Pt suffers with cancer; a six month follow up.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		R59.9; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		RESTAGING LUNG CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		RESTAGING LYMPHOMA; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		RESTAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	2
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		Schedule CT CAP and BS at CARTI 7/2018 to evaluate response to therapy. (without contrast); One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		staging scan; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	502
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		This is a request for a Thorax (Chest) CT.; Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		will see her again in 4 weeks with CBC w/diff, CMP, exam and Lanreotide. She will have a CT C/A/P prior to her next exam to evaluate treatment response for carcinoid tumor.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		This study is requested to evaluate suspected pulmonary embolus.; Yes, this is a request for a Chest CT Angiography.	14
Hematologist/Onco logist	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)		This study is being ordered for a known tumor.; The ordering physician is an oncologist, surgeon, pulmonologist, or cardiologist.; This study is being ordered for staging.; This is a request for a chest MRI.	1

Hematologist/Onco logist	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)		unknown; This study is NOT being ordered for a Work-up for Suspicious Mass, Known Tumor, Known or Suspected Inflammatory Disease, etc...; This is a request for a chest MRI.	1
Hematologist/Onco logist	Approval	72125 Computed tomography, cervical spine; without contrast material		The patient is presenting new symptoms.; This study is being ordered for follow-up.; The patient is not undergoing active treatment for cancer.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to known tumor with or without metastasis.; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; There is a reason why the patient cannot have a Cervical Spine MRI.	1
Hematologist/Onco logist	Approval	72125 Computed tomography, cervical spine; without contrast material		This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to follow-up surgery or fracture within the last 6 months.; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist."; There is a reason why the patient cannot have a Cervical Spine MRI.	1
Hematologist/Onco logist	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient is not presenting new symptoms.; This study is being ordered for follow-up.; This is a request for cervical spine MRI; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; The last spine MRI was performed more than 6 months ago.; Known Tumor with or without metastasis	1
Hematologist/Onco logist	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	4
Hematologist/Onco logist	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	18
Hematologist/Onco logist	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with an Epidural.	1
Hematologist/Onco logist	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This study is being ordered for staging.; This is a request for cervical spine MRI; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; Known Tumor with or without metastasis	1
Hematologist/Onco logist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material			1
Hematologist/Onco logist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		EMBRYONAL TUMOR WITH MULTILAYERED ROSETTES; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1

Hematologist/Onco logist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		For his acute on chronic back pain, I will order an MRI T and L spine soon. I will further discuss intervention once I have reviewed his MRI results.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; This is a request for a thoracic spine MRI.; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; The study is being ordered due to known tumor with or without metastasis.	2
Hematologist/Onco logist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Back pain patient is status post radiation therapy to met to Lumbar spine; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Hematologist/Onco logist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		For his acute on chronic back pain, I will order an MRI T and L spine soon. I will further discuss intervention once I have reviewed his MRI results.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		mets pca, cancer of prostate; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Patient with Stage III CLL. He is complaining of lower back pain that has gotten worse over the past few week. The pain radiates down his legs, the posterior aspects of his thighs all the way down to his feet and prevents him from bending over. The pain w; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Hematologist/Onco logist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Patients had complaints of right hip pain. MRI right hip and pelvic bone revealed edema in the in the right psoas and right paraspinous musculature at the L4-5 level, recommending an MRI of the lumbar spine for further clarification.; The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for None of the above	1
Hematologist/Onco logist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		PT WITH HISTORY OF RENAL CELL CA. PT HAVING WORSENING BACK PAIN. DR CONCERNED FOR POSSIBLE METS TO BONE.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Hematologist/Onco logist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with an Epidural.	1
Hematologist/Onco logist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	11
Hematologist/Onco logist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	19

Hematologist/Onco logist	Approval	72192 Computed tomography, pelvis; without contrast material		; This study is being ordered because of a suspicious mass/ tumor.; "The patient has had a pelvic ultrasound, barium, CT, or MR study.;" This is a request for a Pelvis CT.; It is not known if there documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	72192 Computed tomography, pelvis; without contrast material		; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	2
Hematologist/Onco logist	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	8
Hematologist/Onco logist	Approval	73200 Computed tomography, upper extremity; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	4
Hematologist/Onco logist	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for suspicious mass/tumor/metastasis.; There are physical findings (palpable mass) of a suspicious mass or known primary site of cancer.; The patient has not had a recent bone scan.; It is not known if the patient has had recent plain films of the shoulder.; It is not known if the patient had a recent CT of the shoulder.	1
Hematologist/Onco logist	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient received joint injection(s).	1
Hematologist/Onco logist	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	3
Hematologist/Onco logist	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	1
Hematologist/Onco logist	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.	1
Hematologist/Onco logist	Approval	73700 Computed tomography, lower extremity; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	2

Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	4
Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	2
Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.	1
Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; No, the patient did not have a recent ultrasound of the knee.; The patient has not had recent plain films of the knee.; There are physical findings (palpable mass) of a suspicious mass or known primary site of cancer.; The patient has not had a recent bone scan.; Right groin/ suprapubic melanoma pT3aN1a BRAF mutation Positive  left  patella nodule? patient  is asymptomatic. will order MRI of left knee with and without contrast for further characterize.; Suspicious Mass or Suspected Tumor/ Metastasis	1
Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1
Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."	2

Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.	1
Hematologist/Oncologist	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		Ms. Wells comes in today with reports of trouble sleeping and nausea yesterday. She is having right hip pain that feels like she pulled a muscle. She denies fever, chills, and vomiting.  She is also being seen for followup and chemotherapy for her pa; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient has a documented limitation of their range of motion.	2
Hematologist/Oncologist	Approval	74150 Computed tomography, abdomen; without contrast material		PT WITH IRON DEFICIENCY ANEMIA RELATED TO GI BLOOD LOSS. EPISODE OF ACUTE EROSIIVE GASTRITIS WITH HEMORRHAGE-CAUSING SEVERE ANEMIA.; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74150 Computed tomography, abdomen; without contrast material		Scan needed for restaging of recurrent / metastatic Renal cell cancer; This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; No, this is not a request for follow up to a known tumor or abdominal cancer.; This study is ordered for something other than staging of a known tumor (not) prostate, known prostate CA with PSA>10, abdominal mass, Retroperitoneal mass or new symptoms including hematuria with known CA or tumor.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74150 Computed tomography, abdomen; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	8
Hematologist/Oncologist	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; Yes, this is a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT	4
Hematologist/Oncologist	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT	1

Hematologist/Onco logist	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; Yes, the patient has been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material			1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	4
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		. Schedule re-staging scans at BMC as indicated. Last BMC 5/15/18.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		1. Follicular lymphoma, grade 1 - diagnosed 1/2018 from EGD (stomach involvement). Gastric involvement, mesenteric nodes and possible cervical node involvement per PET/CT.Rituxan (375mg/m2) 750mg iv weekly x 4 started 1/25/18, Completed 2/15/18. 1; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		10. Repeat CT scans C/A/P prior to return visit for surveillance.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		6. CT NCAP at CCC in June 2018- restaging of HD.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		A 54yearold Caucasian gentleman who was diagnosed with uT3N0M0 Stage IIB adenocarcinoma of the lower end of the esophagus/GE junction. He received neoadjuvant concomitant chemotherapy + radiation utilizing Carboplatin and Taxol completed 11/28/16. He u; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Bertha M Keeton, 53 y.o. old, female with history of psoriasis who has been diagnosed with myeloproliferative disorder with positive JAK 2 Mutation Her most recent lab on 3/7/18 showing a WBC 17, RBC 7.89, HGB 18.5, HCT 55.7 with MCV of 71 and a platelet ; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		cancer digestive system, esophagus and esophagogastric stage 111b; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Continuation of care Lymphoma RTC in 6 months for lab work, evaluation with CTs done prior; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		CT head, chest, abdomen, pelvis and Bone scan for restaging; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		CT scan chest, abdomen, pelvis and Bone scan for restaging and rising tumor markers; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		CT scans chest, abdomen, pelvis for restaging; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		CT to evaluate effectiveness of treatment for lung cancer, and see if treatment needs to be altered or continued.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		f/u to prior test for abd. pain; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1

Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Follow up CTs 7/18 to evaluate for recurrent disease. Ordered 5/24/18; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		I will see him in 3 months with a CBC w/diff, CMP and exam. He will have a CT C/A/P prior to his next exam to evaluate his colon cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		liver cancer, invasion carcinoma, 6 cycles of treatment,; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Malignant neoplasm of overlapping  sites of unspecified female breast    Malignant neoplasm of upper-outer  quadrant of unspecified female  breast    Secondary and unspecified  malignant neoplasm of axilla and  upper limb lymph nodes  ; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		mets pca, cancer of prostate; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		new Metastatic disease and under post treatments; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		pt has breast cancer, f/u scans to monitor. Pt also c/o cough and hip pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Pt suffers with cancer; a six month follow up.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		rectal cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		restaging checking response to treatment; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Restaging during ongoing therapy.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		RESTAGING LUNG CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		RESTAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	2
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Schedule CT CAP and BS at CARTI 7/2018 to evaluate response to therapy. (without contrast); One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	123
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		There is a question of new developing nodular asymmetry in central right breast. Defer determination of significance of this finding to breast examination and mammography.    5. RTC in 3 months for labs, scan results and exam.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	5
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The hematuria is due to tumor or mass.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	2
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This is not request for evaluation of prostate cancer.; This study is being ordered for follow-up.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is male.; The patient completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is being ordered for follow-up.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is female.; The patient completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	2

Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	4
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is vascular disease.; There is not a known or suspicion of an abdominal aortic aneurysm.; There is an abnormal abdominal/pelvic ultrasound.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is being requested for abdominal and/or pelvic pain.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT ; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	11
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	2
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	2
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	2
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1

Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were abnormal.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		; This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.	1
Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	2
Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon.";	4
Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; pt is continuing monthly administration of Sandostatin-LAR (30 mg) for metastatic carcinoid tumor (to liver) without carcinoid syndrome.	1
Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; IMPRESSION: 1. Postsurgical changes with no evidence of disease. 2. Subtle 3.4 x 2.8 cm hypervascular lesion within segment 8 of the liver only seen on arterial phase. This suggests a benign lesion such as focal nodular hyperplasia. Recommend confirma	1
Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; LIVER LESION SEEN ON CT SCAN	1
Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; unknown	1
Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; It is not known if there are documented physical findings consistent with an abdominal mass or tumor.; "The patient has had an abdominal ultrasound, CT, or MR study.";	1
Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.;	3

Hematologist/Onco logist	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		6 mo follow up scan while being treated with letrozole; This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; It is not known if this is an individual who has known breast cancer in the contralateral (other) breast.	1
Hematologist/Onco logist	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		Pt needing MRI Breast -pt with breast cancer s/p mastectomy w/reconstruction. MD wanting this to check for implant stability.; This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; It is not known if this is an individual who has known breast cancer in the contralateral (other) breast.	1
Hematologist/Onco logist	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for known breast lesions.; There are benign lesions in the breast associated with an increased cancer risk.	2
Hematologist/Onco logist	Approval	77084 Magnetic resonance (eg, proton) imaging, bone marrow blood supply		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	12
Hematologist/Onco logist	Approval	77084 Magnetic resonance (eg, proton) imaging, bone marrow blood supply		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	3
Hematologist/Onco logist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		3. Schedule re-staging PET/CT on 5/24/18-Will ask them to pay attention to the thrombus in the left iliac. Last 3/19/18  Schedule MUGA scan 5/24/18 then q 3 months while on Herceptin. Last 3/12/18; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		PET CT scan for initial staging to rule out distant metastasis of patient with triple negative right breast carcinoma, Stage IIIB, T4b, pN1a. MUGA scan to evaluate left ventricular ejection fraction.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is a change in cardiac signs or symptoms (shortness of breath, etc.)."; The last MUGA scan was performed more than 3 months ago.; CARDIOTOXIC CHEMO	1
Hematologist/Onco logist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is a change in cardiac signs or symptoms (shortness of breath, etc.)."; The last MUGA scan was performed more than 3 months ago.; Ordering provider ordering repeat Muga scan due to pt now receiving Herceptin 545mg every 3 weeks with pt's B/P being elevated.	1

Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is a change in cardiac signs or symptoms (shortness of breath, etc.)."; The last MUGA scan was performed more than 3 months ago.; Patient is post chemotherapy and pre-Stem Cell Transplant.	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is a change in cardiac signs or symptoms (shortness of breath, etc.)."; The last MUGA scan was performed more than 3 months ago.; RESPONSE TO DRUG	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is not a change in cardiac signs or symptoms (shortness of breath, etc.)."; The patient will be undergoing more chemotherapy.; The last MUGA scan was performed more than 3 months ago.; restaging, prior to Stem Cell Transplant.	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; It is not known if there is a change in cardiac signs or symptoms.; The patient will be undergoing more chemotherapy.; The last MUGA scan was performed more than 3 months ago.;	2
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; It is not known if there is a change in cardiac signs or symptoms.; The patient will be undergoing more chemotherapy.; The patient has not had a previous MUGA scan.; CHANGE IN CHEMO, INITIATING A CARDIOTOXIC CHEMOTHERAPY	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; The last MUGA scan was performed within the last 3 months.; Restaging. CINE review demonstrates borderline normal regional wall motion.	1

Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has not been initiated or completed.; Chemotherapy is planned.;	8
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has not been initiated or completed.; Chemotherapy is planned.; BASE LINE CARDIAC FUNCTION	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has not been initiated or completed.; Chemotherapy is planned.; This study is to establish a baseline .	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has not been initiated or completed.; Chemotherapy is planned.; unknown	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Suspected Cardiomyopathy/ Myocarditis.; It is not known if the patient has been recently diagnosed with and/or treated for congestive heart failure.; It is not known if the patient is presenting new cardiac signs or symptoms.; < Enter answer here - or Type In Unknown If No Info Given. >	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	3
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		Pt has new symptoms including swollen lymph node under both arms. PET is needed to evaluate and treat.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Hematologist/Onco logist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; A nodule of less than 4 centimeters has not been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; This study is being requested for Lung Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Onco logist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; It is unknown if this is for an evaluation of axillary lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
Hematologist/Onco logist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Colo-rectal Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Onco logist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lymphoma or Myeloma.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Onco logist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lymphoma or Myeloma.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Onco logist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	7
Hematologist/Onco logist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Onco logist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Onco logist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with small cell lung cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; It is unknown if the patient completed a course of treatment initiated in the last 8 weeks or are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	6
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4

Hematologist/Onco logist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Soft Tissue Sarcoma, Pancreatic or Testicular Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Onco logist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Breast Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Onco logist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		3. Schedule re-staging PET/CT on 5/24/18-Will ask them to pay attention to the thrombus in the left iliac. Last 3/19/18  Schedule MUGA scan 5/24/18 then q 3 months while on Herceptin. Last 3/12/18; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		Evaluation of liver, cervical evaluation restaging.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		RESTAGING ESOPHAGEAL CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		RESTAGING OF HEAD AND NECK CANCER TO EVALUATE RESPONSE OF ONGOING TREATMENT.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	11

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	13
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; 1 PET Scans has already been performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Lung Cancer; This Pet Scan is being requested for Subsequent Treatment Strategy (Restaging and Monitoring response to treatment); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; 2 PET Scans have already been performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for Breast Cancer; This request is NOT for the initial diagnosis and/or initial staging of axillary lymph nodes; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; A nodule of less than 4 centimeters has been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; The solitary pulmonary nodule was identified on an imaging study in the last 30 days.; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	9
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; A nodule of less than 4 centimeters has been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; The solitary pulmonary nodule was NOT identified on an imaging study in the last 30 days.; This study is being requested for Lung Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; It is unknown how many PET Scans have already been performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for Breast Cancer; This request is NOT for the initial diagnosis and/or initial staging of axillary lymph nodes; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being requested for Breast Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Hematologist/Onco logist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	11
Hematologist/Onco logist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; It is unknown if this is for an evaluation of axillary lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Onco logist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; This is for evaluation of axillary lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	6
Hematologist/Onco logist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; This is NOT for an evaluation of axillary lymph nodes.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Onco logist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; This is NOT for an evaluation of axillary lymph nodes.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	9
Hematologist/Onco logist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Colo-rectal Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	6
Hematologist/Onco logist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lung Cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	17
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Melanoma.; This is for evaluation of regional lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Melanoma.; This is NOT for evaluation of regional lymph nodes.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Ovarian or Esophageal Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	7
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; More than 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	7
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; It is unknown how many PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	5
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	8
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The patient is experiencing new signs, symptoms indicating a reoccurrence of cancer or a rising CEA.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The patient is experiencing new signs, symptoms indicating a reoccurrence of cancer or a rising CEA.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The patient is experiencing new signs, symptoms indicating a reoccurrence of cancer or a rising CEA.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; The patient does NOT have Thyroid or Brain cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; The patient does NOT have Thyroid or Brain cancer.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; The patient does NOT have Thyroid or Brain cancer.; 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; The patient does NOT have Thyroid or Brain cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; It is unknown if the patient has been diagnosed with small cell or non small cell lung cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	6
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	6
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with small cell lung cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	5
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; It is unknown if the patient completed a course of treatment initiated in the last 8 weeks or are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	9
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	8
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	9
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient completed a course of treatment initiated within the last 8 weeks.; More than 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Ovarian or Esophageal Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Soft Tissue Sarcoma, Pancreatic or Testicular Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	5

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Breast Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Lung Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This would be the first PET Scan performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Colo-rectal Cancer; This Pet Scan is being requested for Subsequent Treatment Strategy (Restaging and Monitoring response to treatment); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This would be the first PET Scan performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Lung Cancer; This Pet Scan is being requested for Initial Treatment Strategy (Diagnosis and/or Staging); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This would be the first PET Scan performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Lymphoma or Myeloma; This Pet Scan is being requested for Initial Treatment Strategy (Diagnosis and/or Staging); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This would be the first PET Scan performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Lymphoma or Myeloma; This Pet Scan is being requested for Subsequent Treatment Strategy (Restaging and Monitoring response to treatment); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; The patient has shortness of breath; Shortness of breath is not related to any of the listed indications.	1

Hematologist/Oncologist	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Mass.; This is for the initial evaluation of a cardiac mass.	1
Hematologist/Oncologist	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient does not have a history of a recent heart attack or hypertensive heart disease.	3
Hematologist/Oncologist	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	2
Hematologist/Oncologist	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Enter answer here - or Type In UnknowNeuro: Mild headaches If No Info Given.-1. Stage IV nonsmall cell lung cancer, adenocarcinoma with bilateral lung involvement and also mediastinal adenopathy and right cervical adenopathy (2.5 cm, bx proven) - Prese; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
Hematologist/Oncologist	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a new onset of a headache within the past month; Headache best describes the reason that I have requested this test.	1
Hematologist/Oncologist	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for a known or suspected tumor.; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	A 61yearold lady who presented with unintentional weight loss and she has gained more than half of it back and also with self palpable lower cervical mass and left axillary mass. I do not feel any masses on clinical exam today, she has a bit of fullness; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Oncologist	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	Follow up; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1

Hematologist/Oncologist	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	1
Hematologist/Oncologist	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	A 61yearold lady who presented with unintentional weight loss and she has gained more than half of it back and also with self palpable; lower cervical mass and left axillary mass. I do not feel any masses on clinical exam today, she has a bit of fullness; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	3
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	6
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal laboratory test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; Surveillance of a known cancer following treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is being requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Follow up; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGING CANCER DURING ONGOING TREATMENT; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGING LUNG CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGING MALIGNANT MELANOMA; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	7

Hematologist/Oncologist	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the hematuria is not known.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; The results of the urinalysis were abnormal.; It is not known if the urinalysis was positive for bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Follow up; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	MALIGNANT MELANOMA  NEW SYMPTOMS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGING LUNG CANCER AND BONE CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGING LUNG CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGING MALIGNANT MELANOMA; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGING OF HEAD AND NECK CANCER TO EVALUATE RESPONSE OF ONGOING TREATMENT.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has not been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
Hematologist/Oncologist	Disapproval	78813 Positron emission tomography (PET) imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; The patient does NOT have Thyroid or Brain cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	RESTAGING LUNG CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	RESTAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	2
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	3
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being requested for Breast Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3

Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with small cell lung cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient completed a course of treatment initiated within the last 8 weeks.; It is unknown how many PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	; This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; The abnormal symptom, condition or evaluation is not known or unlisted above.	1

Hematologist/Oncologist	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	; This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is 54 years old or younger.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; Patients who are NOT between the ages of 55 and 81 years of age do not meet the criteria for lung cancer screening.	1
Hospital	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has 3 or more cardiac risk factors; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 30 to 39	1
Hospital	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has not had other testing done to evaluate new or changing symptoms.; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; There are new or changing cardiac symptoms including atypical chest pain (angina) and/or shortness of breath.; There is known coronary artery disease, history of heart attack (MI), coronary bypass surgery, coronary angioplasty or stent.; The member has known or suspected coronary artery disease.; The BMI is 20 to 29	1
Infectious Diseases	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	1
Infectious Diseases	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is immune-compromised.; Yes this is a request for a Diagnostic CT	1
Infectious Diseases	Approval	71250 Computed tomography, thorax; without contrast material		; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Infectious Diseases	Approval	71250 Computed tomography, thorax; without contrast material		indocritis; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Infectious Diseases	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Another abnormality led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Infectious Diseases	Approval	71250 Computed tomography, thorax; without contrast material		Post-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1

Infectious Diseases	Approval	72125 Computed tomography, cervical spine; without contrast material		; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	1
Infectious Diseases	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		There are documented clinical findings of immune system suppression.; This is a request for a thoracic spine MRI.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis, Follow up to or Pre-operative evaluation, or Neurological deficits."	1
Infectious Diseases	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; Yes, the patient has been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1
Infectious Diseases	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		abdominal pain; This study is being ordered for Inflammatory/ Infectious Disease.; unknown; There has been treatment or conservative therapy.; fever; IV Antibiotics; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Infectious Diseases	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		indocritis; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Infectious Diseases	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient has a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Infectious Diseases	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Infectious Diseases	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	abdominal pain; This study is being ordered for Inflammatory/ Infectious Disease.; unknown; There has been treatment or conservative therapy.; fever; IV Antibiotics; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1

Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		complaints of worst headache of his life. Started yesterday at 4pm. Felt like a tight band around the head. At one point it was so bad he felt like going to the ER but never did. Felt nauseated. Complains of pain in bilateral temporal areas.; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient does not have dizziness, one sided arm or leg weakness, the inability to speak, or vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		THE PATIENT HAS FREQUENT FALLS,DIZZINESS AND WEAKNESS. BI-LATERAL EDEMA WITH GAIT PROBLEMS AND CONFUSION; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	5
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.	10
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a headache involving the back of the head and the patient is over 55 years old; Headache best describes the reason that I have requested this test.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has the worst headache of patient's life with onset in the past 5 days; Headache best describes the reason that I have requested this test.; This is NOT a Medicare member.	2
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The headache is described as a "thunderclap" or the worst headache of the patient's life.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; The patient is NOT able to have a Brain MRI for evaluation of these symptoms.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or aneurysm.; This study is being ordered for neurological deficits.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; There is not a suspected or known brain tumor.; The patient currently does not have cancer.; This is an evaluation for a bone tumor or abnormality of the skull.; This study is being requested for known or suspected brain tumor, mass or cancer.	1
Internal Medicine	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material		"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	Enter answer here - or Type In Unknown If No ISUBJECTIVE:;CC: Mrs. BEAVERS is a 51 year old White female. She presents with sinus symptoms. HPI: Mrs. BEAVERS presents with acute sinusitis, other. This has been a problem for the past 2 week; This study is being ordered for Inflammatory/ Infectious Disease.; chronic newest symptoms of HA and drooping of eye /protrusion 2 weeks; There has been treatment or conservative therapy.; protrusion of eye, vascular HA drainage from eyes cloudy, chronic non resolved sinusitis; Abx, nsaids tylenol OTC cold medication/allergy medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material	"This request is for face, jaw, mandible CT.239.8"; "There is a history of serious facial bone or skull, trauma or injury.fct"; Yes this is a request for a Diagnostic CT	3
Internal Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material	"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is suspicion of bone infection, [osteomyelitis].fct"; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is not being ordered for trauma, tumor, sinusitis, osteomyelitis, pre operative or a post operative evaluation.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70490 Computed tomography, soft tissue neck; without contrast material		1
Internal Medicine	Approval	70490 Computed tomography, soft tissue neck; without contrast material	; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; There has been recent trauma or other injury to the neck.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; It is unknown if there is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is not a suspicion of an infection or abscess.; This is not being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is no suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is a suspicion of an infection or abscess.; Yes this is a request for a Diagnostic CT	2

Internal Medicine	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	13
Internal Medicine	Approval	70490 Computed tomography, soft tissue neck; without contrast material		unknown; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; It is not known if there is a palpable neck mass or lump.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 4/12/18; There has not been any treatment or conservative therapy.; lose of conciseness, Syncope, headache, neck pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Diplopia, ataxia, double vision, dizziness, numbness right side of neck, carotid bruit found on exam. Recent ER visit, had ct head that showed microvascular disease. ER recommended patient see PCP for further evaluation and testing.; This study is being ordered for a neurological disorder.; Diplopia, ataxia, double vision, dizziness, numbness right side of neck, carotid bruit found on exam. Recent ER visit, had ct head that showed microvascular disease; There has been treatment or conservative therapy.; Diplopia, ataxia, double vision, dizziness, numbness right side of neck, carotid bruit found on exam. Recent ER visit, had ct head that showed microvascular disease.; Treated at the ER - treated with aspirin and told to see PCP for further evaluation and testing.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for Vascular Disease.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Evaluation of Head and Neck vessels, due to previous history of carotid stent; This study is being ordered for Vascular Disease.; Daniel L Turner is an 67 y.o. male who presents as a work in with complaint of new onset right arm weakness that started approximately a month ago when his wife is in the hospital. He states he slept in a recliner and woke up one morning and had difficul; There has not been any treatment or conservative therapy.; Right arm weakness.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Internal Medicine	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	<p>follow-up to recent stroke; This study is being ordered for Vascular Disease.; PVD (peripheral vascular disease) (HCC)&#x0D;</p> <p>Comments:&#x0D;</p> <p>s/p stent "a few months ago"&#x0D;</p> <p>Acute CVA (cerebrovascular accident) (HCC)&#x0D;</p> <p>Comments:&#x0D;</p> <p>bilateral occipital lobe stroke &#x0D;</p> <p>ct 3-23-18-MCSA &#x0D;</p> <p>refer to OCMC CTA head and neck &#x0D;</p> <p>refer to OCMC for MRI brain (str; There has been treatment or conservative therapy.; Neurological: Positive for dizziness, vertigo and light-headedness. Negative for weakness and headaches; Dizziness &#x0D;</p> <p>This is a new problem. The current episode started more than 2 days ago. The problem occurs constantly. The problem has not changed since onset. There was no loss of consciousness. The problem is associated with normal activity. Associated sym; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Internal Medicine	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	"This is a request for orbit, face, or neck soft tissue MRI.239.8"; The study is ordered for suspicion of infection or abscess	1
Internal Medicine	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	RULE OUT TUMORS; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/15/2018; There has not been any treatment or conservative therapy.; BULGING LEFT EYE; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	There is an immediate family history of aneurysm.; This is a request for a Brain MRA.	2
Internal Medicine	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Internal Medicine	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has been a stroke or TIA within the past 2 weeks.; This is a request for a Brain MRA.	1
Internal Medicine	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)	The patient has had a recent MRI or CT for these symptoms.; This is a request for a Neck MR Angiography.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		6

Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/01/2018; There has been treatment or conservative therapy.; HEADACHE, R EYE SWOLLEN, FAMILY HISTORY OF ANEURYSM; OTC MEDICATIONS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		/o persistent vertigo - moderate/stable/present greater than 4mos - positional c/o palpitations - intermittent/moderate/stable - no cp but very symptomatic.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient is experiencing vertigo	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The headache is not described as a "thunderclap" or the worst headache of the patient's life.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is a new and sudden onset of headache (less than 1 week) not improved by pain medications.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Enter answer here - or Type In Unknown If No Info Given patient having trouble with dizziness and gait disturbance.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Fainting; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1

Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>FOLLOW UP MRI BRAIN LAST MRI 4/17/2017 &#x0D; REQUEST OF: CHRISTOPHER HARDIN, MD&#x0D; PATIENT NAME: RHODES STANFORD, MELBA&#x0D; DOB: 07/19/1953&#x0D; AGE/SEX: 63/Female&#x0D; PATIENT ID#: 1527093&#x0D; DATE OF SERVICE: 04/17/2017&#x0D; &#x0D; &#x0D; PROCEDURE(S): MRI BRAIN W/O CONTRAST&#x0D; &#x0D; ; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.</p>	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>HA. Occurred twice exactly 2 weeks apart; was terrible and associated with severe N/V which lasted about 40 to 60 minutes and then HA resolved; told by wife that he was not responding; last about 2 weeks ago; history of sinus problems but HA pain never th; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; It is unknown if there recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; It is not known if there is a new and sudden onset of a headache less than 1 week not improved by medications.; It is not known if there is a family history (parent, sibling, or child) of stroke, aneurysm, or AVM (arteriovenous malformation)</p>	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>History / Dx:G44.309 Headaches due to old head injury&#x0D; History / Dx:Concussion 2 years ago, after collusion with a horse; right temporal HA&#x0D; History / Dx:;R/O tumor.esent Illness:&#x0D; 1. Establish &#x0D; Pt presents today as a new patient to establish prim; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.</p>	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>Musculoskeletal: Positive for arthralgias and gait problem (due to dizziness). &#x0D; Neurological: Positive for dizziness and headaches.&#x0D; Worsening dizziness. History of diffuse Large B-cell lymphoma; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has dizziness.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.</p>	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>none; This study is being ordered for a neurological disorder.; 03/27/2018; There has been treatment or conservative therapy.; fatigue, h/a, neck pain, numbness & weakness; lab work and testing; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patient is giddy and dizzy; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient is experiencing dizziness.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		sensitivity to light; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/08/218; There has not been any treatment or conservative therapy.; sharp pain in head; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		She has a personal history of arachnoid cyst that need evaluation; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is a new and sudden onset of a headache less than 1 week not improved by medications.; The headache is described as a "thunderclap" or the worst headache of the patient's life.	4
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has the inability to speak.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	3
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing dizziness.	4

Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient is experiencing fatigue or malaise.	2
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; The patient has not undergone treatment for multiple sclerosis.; There are intermittent or new neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.	10
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	2
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for a tumor.	2
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for Multiple Sclerosis.; This study is being ordered as a 12 month annual follow up.; This is a routine follow up.	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; It is not known if there is radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; It is not known if there is radiologic evidence of a lung abscess or empyema.; It is not known if there is radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	3
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; Abnormal finding on physical examination was relevant in the diagnosis or suspicion of inflammatory bowel disease; This is a request for a Chest CT.; This study is being requested for known or suspected blood vessel (vascular) disease; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; An abnormal finding on physical examination led to the suspicion of infection.; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; An abnormal imaging (xray) finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; The patient had an abnormal finding on physical exam related to the suspicion of cancer.; This is a request for a Chest CT.; This study is being requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		CT done at NWMC showed 8mm RUL nodule. They had CT from 2014 that showed 4mm nodule States found a nodule in lung. Documentation reviewed. Found 8mm RUL pulmonary nodule that grew from 4mm from CT done in 2014, which she states she didn't know about; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		lung nodule seen by chest xray and needing work up; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Mass seen on CXR.; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; The patient had an abnormal imaging (xray) finding related to the suspicion of cancer in th is patient.; This is a request for a Chest CT.; This study is being requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient does NOT have signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	3

Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		obstructive esophageal mass found 6/27/18; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Patient has adenocarcinoma of the Rectum. Patient completed 5FU/XRT and FOLFOX. Last CT scans were in August 2017. Doctor is wanting patient to follow up with scans prior to next visit.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Pre-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		She has had complaints of fatigue. No weight loss; appetite is good. Fatigue has been present for a few months. She is not UTD on colon cancer or breast cancer screening. Has known COPD but has not been taking her inhalers at all. Does endorse dys; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		This is a new patient, she is fasting for labs. Her primary complaint is recurrent vomiting over the last 18 months. She has had extensive workup for this without a diagnosis determined. She has been seen by Dr Mathews then lastly UAMS. On average she; This study is being ordered for Inflammatory/ Infectious Disease.; This is a new patient, she is fasting for labs. Her primary complaint is recurrent vomiting over the last 18 months. She has had extensive workup for this without a diagnosis determined. She has been seen by Dr Mathews then lastly UAMS. On average she; It is not known if there has been any treatment or conservative therapy.; This is a new patient, she is fasting for labs. Her primary complaint is recurrent vomiting over the last 18 months. She has had extensive workup for this without a diagnosis determined. She has been seen by Dr Mathews then lastly UAMS. On average she; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		this study is for a 3 month reevaluation of 1 4mm and 1 6mm lung nodules that showed on imaging done 05/22/18.; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Unexplained weight loss describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Unknown; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Internal Medicine	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		patient has a know thoracic Aortic Aneurysm, hypertension; This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for Known or Suspected Congenital Abnormality.; The abnormality is of a cardiac nature.; There is a known or suspected coarctation of the aorta.; Yes, this is a request for a Chest CT Angiography.	1
Internal Medicine	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		This study is requested to evaluate suspected pulmonary embolus.; Yes, this is a request for a Chest CT Angiography.	18
Internal Medicine	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)		Initial staging for newly diagnosed patient coming to UAMS for eval/treat of Multiple Myeloma.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)		INITIAL STAGING FOR NEWLY DX MULTIPLE MYELOMA PATIENT; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)		Restaging Multiple Myeloma patient. Afterwards he will be seen in clinic with the plan to proceed with consolidation of darzalex 16mg/kg IV weekly x 9 weeks then every other week for 4 doses. He will be ordered to also receive revlimid 25mg po q hs days ; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72125 Computed tomography, cervical spine; without contrast material		RADIATING NECK PAIN TO BOTH UPPER EXTREMITIES PARESTHESIA BOTH EXTREMITIES R & L 4TH FINGER NUMBNESS; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	1
Internal Medicine	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is experiencing symptoms of radiculopathy for six weeks or more.; Yes this is a request for a Diagnostic CT	4

Internal Medicine	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is not experiencing symptoms of radiculopathy for six weeks or more.; There is no neurologic symptoms of bowel or urinary bladder dysfunction.; There is no suspicion of lumbar spine infection.; There is no suspicion of lumbar spine neoplasm or tumor or metastasis.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is to be part of a myelogram or discogram.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT ; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 4/3/208; There has not been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; april 2018; There has been treatment or conservative therapy.; bp; pain management and specialist physical rehab and health doctors; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Initial staging for newly diagnosed patient coming to UAMS for eval/treat of Multiple Myeloma.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Initial Staging; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Patient was evaluated by a spine specialist who believes his condition to be neuropathic and recommended a cervical spine MRI for further evaluation.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical Therapy.; Yes, the patient had six weeks of Chiropractic care related to this episode.	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is x-ray evidence of a recent cervical spine fracture.	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	20
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	10
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; None of the above; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	2
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; <Enter Additional Clinical Information>	2
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There is no evidence of tumor or metastasis on a bone scan or x-ray.; Suspected Tumor with or without Metastasis; pt had an MRI that showed he has a lesion in the C7 level and it could possibly be a mass MRI with and without recommended by radiologist	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		Initial Staging; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		none; This study is being ordered for a neurological disorder.; 03/27/2018; There has been treatment or conservative therapy.; fatigue, h/a, neck pain, numbness & weakness; lab work and testing; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		Patient here for chemo with complaint of worsening back pain.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		right arm numbness, neck pain, lower back pain Dx: S/P allogeneic bone marrow transplant. Trying to r/o relapse.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		Still having severe back pain. Pain goes down into her right leg as well as the left. Can't lay down or get up. Also having pain down right arm and her hand is weak and can't open a bottle without severe pain. Pain in neck. When she walks, if she steps t; This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; right arm/hand weakness 3/5 on physical exam; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of recent fracture on previous imaging studies.	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does not have any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.	3

Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material			12
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; None of the above; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	3
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has been treatment or conservative therapy.; Worsening pain, left side worse, unable to sit, lay, or stand,; Medications, PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; april 2018; There has been treatment or conservative therapy.; bp; pain management and specialist physical rehab and health doctors; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		.  Clinical Information History / Dx:M54.2 Chronic neck and back pain History / Dx:G95.89 Myelopathy concurrent with and due to spinal stenosis of cervical region History / Dx:M53.9 Multilevel degenerative disc disease Reason for Study: Dr.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; History / Dx:M54.2 Chronic neck and back pain History / Dx:G95.89 Myelopathy concurrent with and due to spinal stenosis of cervical region History / Dx:M53.9 Multilevel degenerative disc disease, Chronic neck and back pain (M54.2). He has trama; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>CHECK OUT MIGRAINES, HEADACHES AND DIZZINESS</p> <p>CERVICAL RADICULAPATHY - EVALUATE WEAKNESS</p> <p>BACK PAIN AND WEAKNESS OF LEFT LOWER EXTREMITY; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/07/2018; There has not been any treatment or conservative therapy.; LEFT LOWER EXTREMITY WEAKNESS</p> <p>MIGRAINE</p> <p>NECK PAIN</p> <p>LEFT UPPER EXTREMITY WEAKNESS</p> <p>CERVICAL RADICULAPATHY</p> <p>NUMBNESS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Continued pain despite 8 weeks of activity modification, conservative treatment and bracing. Pain goes down into her right leg as well as the left. Can't lay down or get up. When she walks, if she steps through on her toes, gets bad nerve pain in her to; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; It is not known if there is x-ray evidence of a lumbar recent fracture.; achilles reflexes 1+ bilaterally</p>	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>DDD; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above</p>	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Initial Staging; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>low back pain and sciatica; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.</p>	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>na; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above</p>	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Pain is more now just in the lower back. June 2017 she was lifting some chickens in the delicatessen at Walmart and felt something pop or twist and cause pain Mild spondylosis at L1-L2 through L4-L5 with moderate arthritic change&#x0D;</p> <p>involving the apophyse; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.</p>	1

Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		PATIENT HAD A FALL. DRAGGING LEGS WHILE WALKING.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		patient is having nerve pain; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		problems with LBP and pain with radiation to the left lower extremity. In addition he has a tender "cyst" in the left inguinal area which causes pain in the left testicle when he is sitting. Straight leg raising does cause pain into the left heel at 90DDD; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Still a lot of back problems and sciatica down both legs. She has numbness on the sides . Feet burn on the bottoms. She isn't able to work. Lumbar DDD diagnosed in 2014 - last MRI in 2016 noted STIR signal abnormality to R sacrum s1 level measuring 9.4m; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; Reflex Scores: Patellar reflexes are 0 on the right side and 0 on the left side. Achilles reflexes are 0 on the right side and 0 on the left side.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	3
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Pre-Operative Evaluation; No, the last Lumbar spine MRI was not performed within the past two weeks.; Surgery is scheduled within the next 4 weeks.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Known or suspected infection or abscess	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	52
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	14
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		unknown; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		will just upload notes; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
Internal Medicine	Approval	72192 Computed tomography, pelvis; without contrast material		; This study is being ordered due to known or suspected infection.; "The ordering physician is a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has been treatment or conservative therapy.; Worsening pain, left side worse, unable to sit, lay, or stand,; Medications, PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for pelvic trauma or injury.	1
Internal Medicine	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of pelvic inflammatory disease or abscess.	2
Internal Medicine	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is a preoperative or recent postoperative evaluation.	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; < Enter answer here - or Type In Unknown If No Info Given. >;	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; < Enter answer here - or Type In Unknown If No Info Given. >;	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; patient had accident about 3 or 4 months ago and has rt shoulder pain that wont go away , rotator cuff tendonitis and the xray is normal	1

Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has had recent plain films of the shoulder.; The plain films were not normal.	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	2
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
Internal Medicine	Approval	73700 Computed tomography, lower extremity; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. > This is a request for a Lower Extremity CT.; This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is no suspicion of lower extremity bone or joint infection.; There is not a history of lower extremity joint or long bone trauma or injury.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a Lower Extremity CT.; This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is no suspicion of lower extremity bone or joint infection.; There is a history of lower extremity joint or long bone trauma or injury.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		none; This study is being ordered for Inflammatory/ Infectious Disease.; diagnosed approx. 2 years ago with osteomyelitis, recent infection flared up 2 days ago; There has been treatment or conservative therapy.; swelling, foul smelling discharge and pain; antibiotics; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient has a documented limitation of their range of motion.	1

Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Limited range of motion	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Swelling greater than 3 days	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Instability; It is not known if the member experience a painful popping, snapping, or giving away of the knee.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Instability; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Locking; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Instability	6
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Locking	1

Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; Swelling greater than 3 days	2
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were normal.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Pain greater than 3 days	2
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physician directed exercise program	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; This study is not being ordered prior to arthroscopic surgery.; "This study is being ordered prior to a planned or scheduled open surgery (joint replacement, etc.)."; The ordering physician is not an orthopedist.; Pre-operative Evaluation; Swelling greater than 3 days	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is a pre-operative study for planned surgery.	1

Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.; The patient is taking antibiotics.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is a suspected tarsal coalition.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.	1
Internal Medicine	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; The member has failed a 4 week course of conservative management in the past 3 months.; The hip pain is chronic.; The request is for hip pain.	1
Internal Medicine	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; There is a suspicion of fracture not adequately determined by x-ray.; It is not known if there is a suspicion of tendon or ligament injury.; The hip pain is due to a recent injury.; The request is for hip pain.	1
Internal Medicine	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient has a documented limitation of their range of motion.	2
Internal Medicine	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has a documented limitation of their range of motion.	2
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		Abnormal imaging. Mutiple cysts found.; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		obstructive esophogeal mass foud 6/27/18; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material	Right upper quad pain of unknown origin; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered as a pre-op or post op evaluation.; The requested study is for pre-operative evaluation.; The study is requested by a surgeon, specialist or PCP on behalf of a specialist who has seen the patient.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; This is a request for initial staging of a known tumor other than prostate.; No, this is not a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT	3
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT	3
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is no suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; It is not known if there are new symptoms including hematuria.; There are new lab results or other imaging studies including ultrasound, Doppler or plain films findings.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is no suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; There are no new symptoms including hematuria.; There are new lab results or other imaging studies including ultrasound, Doppler or plain films findings.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; Yes, the patient has been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	8
Internal Medicine	Approval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the abdomen.	3
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	3
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This study is being ordered for Inflammatory/ Infectious Disease.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Blood in stool R/o gastroenteritis; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		further evaluation of the patients reported chief complaint of abdominal pain which radiates to the left lower quadrant along with the Left flank. The request is being made to see any possible underlining etiology/pathology including the extent of diverti; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		None; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Patient has adenocarcinoma of the Rectum. Patient completed 5FU/XRT and FOLFOX. Last CT scans were in August 2017. Doctor is wanting patient to follow up with scans prior to next visit.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Patient has very large fluid accumulation. He is needing further evaluation to determine treatment plan.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Patient is experiencing abdominal and lower back pain, hematuria, urinalysis completed but results have not come back yet. Constant pain, no improvement in pain with medication (Aleve), pain when moving; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		PT HAVING ABD PAIN, NAUSEA AND VOMITTING WITH A HX OF CHRONIC PANCREATITIS. HAD AN US OF ABD SINCE LAST REQUEST AND HAS ABNORMAL VIEWS OF LIVER.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		PT WITH STAGE III RECTAL CA. PT FINISHED FOLFOX ON 3/28/18. PT DUE FOR FOLLOW UP SCANS.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs speciality is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the hematuria is not known.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; Yes this is a request for a Diagnostic CT	3
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; It is not known if the urinalysis results were normal or abnormal.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for protein.; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; It is not known if the urinalysis was positive for bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has not been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; It is unknown if there has been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The hematuria is due to tumor or mass.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient has a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	3
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	2

Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed more than 10 months ago.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed within the past 10 months.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	5
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	13
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	4
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	3

Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; It is unknown if there has been a physical exam.; The patient had an amylase lab test.; The results of the lab test were abnormal.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	11
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed something other than Gall Stones, Kidney/Renal cyst, Aneurysm or a Pelvis Mass.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient had an endoscopy.; The endoscopy was normal.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	4
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has been completed.; The results of the contrast/barium x-ray were normal.; The patient had an endoscopy.; The endoscopy was normal.; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient had an endoscopy.; The endoscopy was normal.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were abnormal.; Yes this is a request for a Diagnostic CT	8
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were abnormal.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	20
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		PHENERGAN GIVEN AS WELL, abdominal pain, nausea and vomiting, (vomited 3 times); This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; Epigastric abdominal pain; PROTONIX; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.; "The ordering physician is not an oncologist, urologist, gastroenterologist, or surgeon."; < Enter answer here - or Type In Unknown If No Info Given. >	1
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study.";	1
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Cyst found in spleen. Radiology recommended.	1
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has not had an abdominal ultrasound, CT, or MR study."; patient had an abnormal renal ultrasound while being seen in the hospital. they couldn't find the left kidney but she never had it removed. also echogenic mass found on the liver, needing mri to confirm that it is a cavernous hemangioma	1

Internal Medicine	Approval	74185 Magnetic resonance angiography, abdomen, with or without contrast material(s)		This is a request for a MR Angiogram of the abdomen.	1
Internal Medicine	Approval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)		The patient does not have three or more of the following conditions: age over 50, diabetes, history of hypertension, history of LDL cholesterol above 130, history of HDL cholesterol below 35, obesity (BMI above 35), and/or active history of smoking.; This request is for a Coronary CT Angiography study.; No, patient did not have a Nuclear Cardiology study within the past six months.; This study is being ordered for suspected Coronary Artery Disease (CAD) and symptomatic?; No, patient does not have new onset congestive heart failure.; Patient had a negative stress echo on 10/04/17, however, she had poor exercise capacity. She presented with complaints of achy chest pain with exertion that is midsternal and to the left sternal border that radiates to her back, lasting 20-30 minutes.; Yes, there is Chronic Chest Pain.	1
Internal Medicine	Approval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)		This request is for a Coronary CT Angiography study.; No, patient did not have a Nuclear Cardiology study within the past six months.; This study is being ordered for prior equivocal or uninterruptible cardiac imaging .; Patient had an equivocal stress echo on 05/21/18.; Yes, this patient has an equivocal or uninterpretable stress test (exercise, perfusion, or stress echo).	1
Internal Medicine	Approval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)		This request is for a Coronary CT Angiography study.; No, patient did not have a Nuclear Cardiology study within the past six months.; This study is being ordered for suspected Coronary Artery Disease (CAD) and asymptomatic (no significant symptoms)?; pt has a family history of cardiac disorder	1

Internal Medicine	Approval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)		This request is for a Coronary CT Angiography study.; No, patient did not have a Nuclear Cardiology study within the past six months.; This study is being ordered for suspected Coronary Artery Disease (CAD) and symptomatic?; Yes, patient has new onset congestive heart failure.; unknown	1
Internal Medicine	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the abdominal arteries.	7
Internal Medicine	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; It is not known if this patient have axillary node adenocarcinoma.	1
Internal Medicine	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		; This is a request for Breast MRI.; This study is being ordered for known breast lesions.; There are NOT benign lesions in the breast associated with an increased cancer risk.	1
Internal Medicine	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		CLINICAL INFO ATTACHED.; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
Internal Medicine	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		Enter answer here - or Type In Unknown   If No Info Given.  THERE IS AN APPARENT DEVELOPING APPROIMATELY 1 CM INDETERMINITE ISODENSITY IN THE POSTERIOR SUPERIOR RIGHT BREAST SINCE 2012 SEEN ONLY ON OBLIQUE/LATERAL VIEWS WITHOUT A SONOGRAPHIC CORRELATIO; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
Internal Medicine	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		Enter answer here - or Type In Unknown I No Info Given.; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1

Internal Medicine	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Pt suffers with a suspicious mass or nodule.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There is a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	3
Internal Medicine	Approval	77078 Computed tomography, bone mineral density study, 1 or more sites, axial skeleton (eg, hips, pelvis, spine)	This is a request for a Bone Density Study.; Unknown if this patient had a bone mineral density study within the past 23 months.; This is a bone density study in a patient with clinical risk of osteoporosis or osteopenia.; The patient has not been on steroid therapy for more than 3 months.; This is a repeat study due to a change in treatment or a change in symptoms of osteoporosis.	1
Internal Medicine	Approval	77084 Magnetic resonance (eg, proton) imaging, bone marrow blood supply	Initial staging for newly diagnosed patient coming to UAMS for eval/treat of Multiple Myeloma.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	77084 Magnetic resonance (eg, proton) imaging, bone marrow blood supply	Restaging Multiple Myeloma patient. Afterwards he will be seen in clinic with the plan to proceed with consolidation of darzalex 16mg/kg IV weekly x 9 weeks then every other week for 4 doses. He will be ordered to also receive revlimid 25mg po q hs days ; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	77084 Magnetic resonance (eg, proton) imaging, bone marrow blood supply	Restaging; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	< Enter answer here - or Type In Unknown If No Info Given. >; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	2

Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	pt has been having chest pain and shortness of breath. This is worsened by exercise or activity. It is better when resting; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Reason for Appointment  1. NP per Dr. Hall    History of Present Illness  HPI:  Mr. Lewey is a 55 year old gentleman (self employed, cab driver) with significant history for HTN, HLPD, OSA on CPAP, back pain from injury 10 years ago, arthri; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	The patient is diabetic.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	3

Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have diabetes.; This is a Medicare member.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have diabetes.; This is NOT a Medicare member.; The patient is 65 or older.	2
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; It is not known if there are documented findings of hyperlipidemia.; There are documented clinical findings of hypertension.; The patient has not had a recent non-nuclear stress test.; "Patient is not clinically obese, nor has an emphysematous chest configuration."; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	2
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are documented clinical findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	16

Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; The patient had a recent non-nuclear stress test.; This patient is clinically obese or has an emphysematous chest configuration.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; This patient is clinically obese or has an emphysematous chest configuration.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	6
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; The member does not have known or suspected coronary artery disease	1
Internal Medicine	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		Restaging after chemo; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Internal Medicine	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; The last MUGA scan was performed within the last 3 months.; MUGA ON 5/22/18 SHOWED LVEF=42-47%, MUGA ON 6/19/18 SHOWED LVEF=46-49%, -REPEAT MUGA AGAIN IN TWO WEEKS FOR POSSIBLE MORE CHEMOTHERAPY(HERCEPTIN/PERJETA).	1
Internal Medicine	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; The last MUGA scan was performed within the last 3 months.; pt needing chemo for ca. previous ef below 50%.	1
Internal Medicine	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Breast Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; A nodule of less than 4 centimeters has been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; The solitary pulmonary nodule was identified on an imaging study in the last 30 days.; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a more than 1 of the following; diagnostic test, imaging sstudy, or biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Head/Neck Cancer.; The patient has Thyroid cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; This is NOT for an evaluation of axillary lymph nodes.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/1/18; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of heart failure.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; The patient has shortness of breath; Known or suspected Congestive Heart Failure.	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of Pericardial Disease.; This is for the initial evaluation of a pericardial disease.	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Valves.; The patient has suspected prolapsed mitral valve.	1

Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Valves.; This is an evaluation of new or changing symptoms of valve disease.	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Heart Failure; This is for the initial evaluation of heart failure.	1
Internal Medicine	Approval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;		abnormal EKG; This is a request for a Stress Echocardiogram.; This patient has not had a Nuclear Cardiac study within the past 8 weeks.; This study is not being ordered for: CAD, post MI evaluation, or as a pre/post operative evaluation.	1
Internal Medicine	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	1
Internal Medicine	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	12
Internal Medicine	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.; The patient has not quit smoking.	1

Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary		1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	R/O disc problem; This study is being ordered for trauma or injury.; 2015; There has not been any treatment or conservative therapy.; visual disturbances, migraine, pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	The patient couldn't state the date of onset so a PA is being created to further evaluate possible underlining etiology/pathology which could indicate the cause for the memory loss.; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has a congenital abnormality.; The patient has not undergone treatment for a congenital abnormality (such as hydrocephalus or craniosynostosis).; It is unknown if the patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Known or suspected TIA (stroke) with documented new or changing neurologic signs and or symptoms best describes the reason that I have requested this test.; This is NOT a Medicare member.	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Loss of smell - "anosmia" best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a suspected brain tumor.; Known or suspected tumor best describes the reason that I have requested this test.; There are documented neurologic findings suggesting a primary brain tumor.; This is NOT a Medicare member.	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The headache is described as a "thunderclap" or the worst headache of the patient's life.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
Internal Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	BLOODY NOSE, CHRONIC CONGESTION OF PARANASAL SINUS, SINUS PAIN; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Internal Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is immune-compromised.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1

Internal Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is not being ordered for trauma, tumor, sinusitis, osteomyelitis, pre operative or a post operative evaluation.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for neck soft tissue CT.; Surgery is NOT scheduled within the next 30 days.; The patient has a suspicious infection or abscess.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	chronic back pain even after surgery; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 09/2016; There has been treatment or conservative therapy.; unknown; pain medicine's over the counter and prescription. he also is to see neurosurgery and pain management in the near future; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Initial staging for newly diagnosed patient coming to UAMS for eval/treat of Multiple Myeloma.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	initial staging; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	PA for an Cervical spine MRI is being requested for further evaluation of underlining etiology/pathology which is causing the patient to have severe cervicgia which radiates down the Left upper extremity with range of motion along with debilitating head; "This is a request for orbit,face, or neck soft tissue MRI.239.8"; The reason for the study is not for trauma, infection,cancer, mass, tumor, pre or post-operative evaluation	1
Internal Medicine	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Severe Neck Pain.; "This is a request for orbit,face, or neck soft tissue MRI.239.8"; The reason for the study is not for trauma, infection,cancer, mass, tumor, pre or post-operative evaluation	1
Internal Medicine	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 5/2017; There has not been any treatment or conservative therapy.; Rapid memory loss; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	2

Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	had a headache for a few days and passed out yesterday. Got up to make supper Broke out in a sweat, clammy. Hit her head, feels bruised. Vomited after all of that. Mild headache right now. Getting more forgetful and having memory loss.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has dizziness.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has not been any treatment or conservative therapy.; SPIKING FEVER ANYWHERE FROM 100-102 OCCURS ABOUT 3-4 DAYS OUT OF THE WEEK. PT HAS A HISTORY OF MONO, OCCASIONAL JOINT PAIN. PT DOES HAVE A LOT OF ABDOMINAL PAIN. EPIGASTRIC RADIATING INTO THE LEFT UPPER QUADRANT.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is 54 years old or younger.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; This study is being requested for an unresolved cough; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	lung nodule seen by chest xray in office x2. Seems to be worsening.; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	lung nodule seen on chest xray Patient complains of acute upper respiratory infection. Cough has been worse in the past 2 weeks. Patient has an established diagnosis of chronic bronchitis and COPD. It is associated with dyspnea, nasal congestion, post; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; An abnormal finding on physical examination led to the suspicion of infection.; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient does NOT have a 30 pack per year history of smoking.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient has signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This study is being requested for an unresolved cough; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This study is being requested for 'none of the above'; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	rule out lung cancer, shortness of breath, abnormal x ray; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Thorax (Chest) CT.; Abnormal imaging test describes the reason for this request.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Disapproval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)	Radiology Services Denied Not Medically Necessary	initial staging; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	Neurosurgery has requested an advance film study for better resolution outlining possible etiology/pathology of the patients chronic cervicalgia; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
Internal Medicine	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	R/O disc problem; This study is being ordered for trauma or injury.; 2015; There has not been any treatment or conservative therapy.; visual disturbances, migraine, pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Internal Medicine	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	None; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 09/2017; There has been treatment or conservative therapy.; Pt known osteoporosis; Injections , pain management; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. > This study is being ordered for trauma or injury.; 2016; There has not been any treatment or conservative therapy.; complaining of neck and low back pain, radiating down to leg, pain on/off, more exruciating within the last month, pain meds, muscle spasms in back and neck (12/2017), PT pain not relieved, member was given medication that was not working.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; will upload info physician has provided; It is not known if there has been any treatment or conservative therapy.; will upload info provided by physician; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	4 months of PT and not helping; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; when turns neck in a lot of pain.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal CT performed on 3/21/2018; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Pt suffers with pain and weakness in lt hand.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Having pain down right arm and her hand is weak and can't open a bottle without severe pain. Pain in neck. Muscle weakness noted on physical exam - also has thoracic bony tenderness and recent L4 stress fracture. Provider notes that member has gone from ; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; right arm/hand strength noted as 3/5 on physical exam; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	initial staging; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Looking for herniated disc; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2/27/18; There has not been any treatment or conservative therapy.; Back and neck pain, pain that radiates down legs.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	no; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; his hands not able to grip; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	THE PATIENT HAS DDD, TENDERNESS AND PAIN FOR 6WEEKS OR MORE; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; PATIENT HAS CHRONIC NECK PAIN, ALTRALGIA, MUSCLE SPASM, DECREASE RANGE OF MOTION AND AN ANNUAL TEAR IN THE LUMBAR REGION; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.; A Xray was performed on patient on 6/12/18 and findings wer as follows: AP, lateral, swimmer's and odontoid views of the cervical spine provided. Prevertebral soft tissues are normal in thickness. Degenerative disc space narrowing and anterior osteophytos	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; "The patient is not being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; Known Tumor with or without metastasis; Patient is having some pain in the right antercubital. He feels this pain when his arm is stretched out or when he moves his head to the right. This happened 1 week a go. He rolled over and placed his arm over his wife in bed. Has some pain from his shoul; No, the patient does not have new or changing neurological signs or symptoms.	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; don't have any other clinical	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Patient has tried therapy. States that therapy did not help. Made it worse. Patient has a slow gait while walking and moves slowly as she is trying to get up and down.	1

Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.;	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Trauma or recent injury; R/O:HERNIATED NUCLEUS PULPOSUS AT THE REQUEST OF:DAVID W CLAY, MD PATIENT NAME:NANCY M MAHAFFEY DOB:02/13/1962 AGE/SEX:56/Female DATE OF SERVICE:06/01/2018 PATIENT ID#:1270982  PROCEDURE(S): XR C SPINE 2-3 V  History: Cervical spine pain that r; Yes, the patient have new or changing neurological signs or symptoms.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Worsening plaque like lesions in central nervous system noted - impression from September 2017 MRI Brain notes continued progression of advanced multifocal white matter and new areas of enhancement - onset of vision changes/pain due to MS exacerbation - n; This study is being ordered for a neurological disorder.; 3/18/18; There has been treatment or conservative therapy.; dizziness - blurred vision - pain - photophobia; solu-medrol given for MS flare; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	initial staging; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	large disc tear L spine, moderate bilateral narrowing, radiculopathy, leg pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	R/O bulging disc or fracture; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 03/19/2018; There has been treatment or conservative therapy.; back pain; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does not have any neurological deficits.; It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for a thoracic spine MRI.; There has not been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; none	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; arms and hands; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; It is not know if the patient has seen the doctor more then once for these symptoms.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Pre-Operative Evaluation; Surgery is not scheduled within the next 4 weeks.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	2
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2008; There has been treatment or conservative therapy.; Knee Pain, radiculopathy; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 2016; There has not been any treatment or conservative therapy.; complaining of neck and low back pain, radiating down to leg, pain on/off, more excruciating within the last month, pain meds, muscle spasms in back and neck (12/2017), PT pain not relieved, member was given medication that was not working.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Reason for Study: Pt has had worsening low back pain for years, however, he has started to have bilateral leg weakness. Dr. Barry is concerned for bulging disc that would need treatment. Wanting to complete MRI thoracic and lumbar spine due to these is; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	2
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; Meloxicam	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; will upload info physician has provided; It is not known if there has been any treatment or conservative therapy.; will upload info provided by physician; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	c/o low back pain. pulled at work yesterday doing work. tried tylenol and muscle rub which did not help; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	chronic midline lower back pain with bilateral sciatica, lumbar radiculopathy; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	large disc tear L spine, moderate bilateral narrowing, radiculopathy, leg pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	pain and nerve conduction study; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient had hemilaminectomy 10-13-2017. He had a "re-do" hemilaminectomy 12-22-2017. Patient presents to the office complaining of back pain for 1 month. pain radiates to right hip. Patient was treated with steroids and pain medicine. He needs to see hi; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has failed physical therapy and multiply injections in the past, but not in past 6 weeks.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient here for same day appointment for neck pain and low back pain. Patient has a past medical history of chronic neck pain and chronic low back pain but states that the pain has worsened over the past couple of days. Patient fell about one week ago. H; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	pt has been having back pain for a while; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	pt has had a prior MRI that showed disc degeneration and now is having worsening pain and difficulty walking; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; pt has numbness and tingling all the way down his left leg that causes pain and difficulty walking; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt suffers with low back pain.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	She was told previously that she had scoliosis. I discussed with her the nature of this diagnosis, and she reports that there have been some previous x-rays done remotely. We did pull up some x-rays from the hospital from 2013, and she had significant deg; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1

Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	2
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	TRIPLE STUDY MEANS AUTOMATIC REVIEW, WILL JUST UPLOAD NOTES; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; TRIPLE STUDY MEANS AUTOMATIC REVIEW, WILL JUST UPLOAD NOTES; It is not known if there has been any treatment or conservative therapy.; TRIPLE STUDY MEANS AUTOMATIC REVIEW, WILL JUST UPLOAD NOTES; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
Internal Medicine	Disapproval	72159 Magnetic resonance angiography, spinal canal and contents, with or without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for a spinal canal/contents MR Angiography.	1
Internal Medicine	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	pt is having pain in her groin; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Internal Medicine	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Initial Staging; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; DEC 2017; There has not been any treatment or conservative therapy.; SHOULDER NECK AND BACK PAIN; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Bilateral - prior right sided injury and she cannot raise her right arm above her head...since the right has been so problematic she has overused the left s side and can no longer raise her left above her head and she is having a great deal of pain...she ; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	initial staging; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Left shoulder: She exhibits decreased range of motion, tenderness and bony tenderness.Musculoskeletal: Positive for arthralgias and myalgias	1
Internal Medicine	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	RETAGGING AFTER CHEMO; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/01/2013; There has been treatment or conservative therapy.; PAIN; STEROID INJECTIONS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	It foot pain, progressively getting worse; This is a request for a foot MRI.; The study is being ordered for foot pain.; The study is being ordered for chronic pain.; The patient has had foot pain for over 4 weeks.; The patient has been treated with anti-inflammatory medication for at least 6 weeks.	1

Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	pain meds; This study is being ordered for Congenital Anomaly.; At birth; There has been treatment or conservative therapy.; restless legs, irregular gait; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	pt fell and hurt her left knee. She says the pain is getting worse; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; Pain greater than 3 days; No, patient has not completed and failed a course of conservative treatment.	1
Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	2
Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	unknown-pt is new to our clinic; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	1
Internal Medicine	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has had several falls due to pain . worse with moving . Diagnosed w/ AVN; This is a requests for a hip MRI.; It is not known if the member has failed a 4 week course of conservative management in the past 3 months.; The hip pain is chronic.; The request is for hip pain.	1
Internal Medicine	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Internal Medicine	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Abdominal pain, suspected hernia; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	The Pt has thyroid cancer. Pt is throwing UP. Rule out METS.; This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; No, this is not a request for follow up to a known tumor or abdominal cancer.; It is unknown if this study is being ordered for staging of a known tumor (not) prostate, known prostate CA with PSA> 10, abdominal mass, retroperitoneal mass or new symptoms including hematuria with known CA or tumor.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	This is a request for CT Angiography of the Abdomen and Pelvis.	2
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has not been any treatment or conservative therapy.; SPIKING FEVER ANYWHERE FROM 100-102 OCCURS ABOUT 3-4 DAYS OUT OF THE WEEK. PT HAS A HISTORY OF MONO, OCCASIONAL JOINT PAIN. PT DOES HAVE A LOT OF ABDOMINAL PAIN. EPIGASTRIC RADIATING INTO THE LEFT UPPER QUADRANT.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	44 year old female complaining of lower abdominal pain with diarrhea.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	ABD PAIN, NAUSEA & VOMITING. Has intermittent abdominal pain with N/V. Has had pancreatitis in past and a strictured CBD theat needed opening. Has HTN and GERD; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	abd pn; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	P TH AS HAD ABDOMINAL PAIN, NAUSEA & VOMITIN, & ACID REFLUX FOR 2 MONTHS; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has abdominal tenderness and firmness around umbilical area and has had an u/s abdomen and it shows possible ventral hernia and radiologist suggest f/u with a CT; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	patient has dealt with this pain for couple of years. She had normal right hip xray last year and normal US of abdomen. Over the past several weeks the pain has now started to radiate to upper stomach and to groin area down into right leg.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Surveillance of cancer.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for ketones.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	6
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	3
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has not had an abdominal ultrasound, CT, or MR study."; Pt has a hx of cancer in other body parts. MRI ordered for liver lesions.	1
Internal Medicine	Disapproval	77084 Magnetic resonance (eg, proton) imaging, bone marrow blood supply	Radiology Services Denied Not Medically Necessary	initial staging; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has not had other testing done to evaluate new or changing symptoms.; The patient has 2 cardiac risk factors; The study is requested for congestive heart failure.; There are new or changing cardiac symptoms including atypical chest pain (angina) and/or shortness of breath.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 30 to 39	1
Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	c/o feelings of chest pains. went to ED due to this. reports some feeling of elephant on her chest. stopped caffeine. very concerned about this. BP has been running high as of late as well. not on any blood pressure medications; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	It is unknown if the patient has symptoms of atypical chest pain (angina) or shortness of breath.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have diabetes.; This is a Medicare member.; It is unknown if the patient has a cardiac history with known myocardial infarction and/or cardiac intervention such as cardiac surgery/angioplasty(PCI); This is NOT for a preoperative evaluation of a non cardiac surgery involving general anesthesia; It has not been greater than 5 years since cardiac testing has been performed	1

Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Patient is having chest pain daily lasting for an hour or more.; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	pt has been having chest pain, shortness of breath, and left arm numbness for 2 weeks; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	pt has known coronary artery disease she says that she is unable to do a stress echo because she had one in the past and had chest pain and shortness of breath; The study is being ordered for known CAD.; The CAD diagnosis was established by something other than, a previous cardiac surgery / angioplasty, a previous MI, congestive heart failure or a previous stress echocardiogram, nuclear cardiology study or a stress EKG.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; It is not known if the member has known or suspected coronary artery disease.	1

Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The study is requested for evaluation of the heart prior to non cardiac surgery.	1
Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The study is requested for known or suspected valve disorders.	1
Internal Medicine	Disapproval	78813 Positron emission tomography (PET) imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with small cell lung cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	Hypertension related symptoms/issues notes fatigue, notes swelling of ankles Edema, unspecified type prior venous doppler negative.; This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; The abnormal symptom, condition or evaluation is not known or unlisted above.	1
Internal Medicine	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Heart Failure; It is unknown if there been a change in clinical status since the last echocardiogram.; This is NOT for the initial evaluation of heart failure.	1
Internal Medicine	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient does not have a history of a recent heart attack or hypertensive heart disease.	2

Internal Medicine	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	1
Internal Medicine	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	Family hx of cancer; This request is for a Low Dose CT for Lung Cancer Screening.; It is unknown if this patient has had a Low Dose CT for Lung Cancer Screening in the past 11 months.; It is unknown if the patient is presenting with pulmonary signs or symptoms of lung cancer or if there are other diagnostic test suggestive of lung cancer.	1
Internal Medicine	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	Personal history of nicotine dependence; This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; It is unknown if the patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.	1
Interventional Radiologists	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Interventional Radiologists	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	1
Interventional Radiologists	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		PELVIC CONGESTION SYNDROME; This is a request for a Pelvis MRI.; No, this is not a preoperative study.; The study is being ordered for suspicion of pelvic inflammatory disease or abscess.	1
Interventional Radiologists	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		Liver lesion; This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.	1
Interventional Radiologists	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Nephrology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the brain.	1

Nephrology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Nephrology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	will fax clinical; This study is being ordered for a neurological disorder.; unknown; There has not been any treatment or conservative therapy.; will fax clinical; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Nephrology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are not recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.; It is not known if there a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Nephrology	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for organ enlargement.; There is evidence of organ enlargement on ultrasound, plain film, or IVP.; Yes this is a request for a Diagnostic CT	1
Nephrology	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for organ enlargement.; Which organ is enlarged? Kidney; The patient had an Ultrasound.; The Ultrasound results were equivocal.; Yes this is a request for a Diagnostic CT	1
Nephrology	Approval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the abdomen.	2
Nephrology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is organ enlargement.; It is not known if there is ultrasound or plain film evidence of an abdominal organ enlargement.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Nephrology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1

Nephrology	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1
Nephrology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Nephrology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for protein.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	2
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 02/01/2016; There has been treatment or conservative therapy.; pain up and down spine including neck area, numbness in legs and feet with standing/walking, aching burning stabbing; injections, medications, chiropracter; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	3
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		55 year old female that presented from OSH ER. Patient presented with right side weakness and tremors, family stated that it started a few days ago. States the patient has been unable to walk due to RLE feeling like it would "give out". Denies headache or; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		patient is status post chiari decompression and is experiencing increase in headaches as well as bulging at the incision site. would like to evaluate for hydrocephalus.; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1

Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material	Patient reports intermittent abdominal pain and intermittent headaches which began postoperatively.; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	5
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; Evaluation of known or suspected subarachnoid hemorrhage best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; Known or suspected blood vessel abnormality (AVM, aneurysm) with documented new or changing signs and or symptoms best describes the reason that I have requested this test.; This is NOT a Medicare member.	3
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; Known or suspected infection best describes the reason that I have requested this test.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; 'None of the above' describes the headache's character.; Headache best describes the reason that I have requested this test.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; Post-operative evaluation best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	2
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.	7
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; The patient has a known brain tumor.; Known or suspected tumor best describes the reason that I have requested this test.; There are documented neurologic findings suggesting a primary brain tumor.; This is NOT a Medicare member.	4
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; The patient has an Abnormality of the skull bones (craniosynostosis).; Known or suspected congenital anomaly best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; The patient has the worst headache of patient's life with onset in the past 5 days; Headache best describes the reason that I have requested this test.; This is NOT a Medicare member.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or aneurysm.; This study is being ordered for a previous stroke or aneurysm.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; This study is being ordered for evaluation of known tumor.	3

Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.	2
Neurological Surgery	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70486 Computed tomography, maxillofacial area; without contrast material		"This request is for face, jaw, mandible CT.239.8"; "There is a history of serious facial bone or skull, trauma or injury.fct"; Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Approval	70486 Computed tomography, maxillofacial area; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the brain.	27
Neurological Surgery	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/21/2018; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the Neck.	8
Neurological Surgery	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 4/2015; There has been treatment or conservative therapy.; mbr has headache, dizziness; A Shunt and Diamox and medication for pain verapamil and shunt monitoring; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Neurological Surgery	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		The patient has had a recent MRI or CT for these symptoms.; This is a request for a Neck MR Angiography.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/13/2017; There has been treatment or conservative therapy.; She has a thunderclap headache due to the aneurysm in her head , but it hasn't ruptured; She had a cerebral angiogram on 11/14/17; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/30/2018; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; < Describe treatment / conservative therapy here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	4
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	2
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has vision changes.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		6.3 mm chiari malformation present on previous MRI further diagnostic studies required for further diagnosing.; This study is being ordered for a neurological disorder.; 1 year; There has been treatment or conservative therapy.; Headaches, bilateral hand numbness, decreased coordination, vision changes; Medications, relaxation; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>Along the posteromedial aspect of the right occipital cortex adjacent to the calvarium is an area of decreased attenuation most consistent with an arachnoid cyst. The arachnoid cyst measures 1.7cm</p> <p>AP x 1.5cm transverse.; This study is being ordered for a neurological disorder.; 4/24/18; There has been treatment or conservative therapy.; Bilateral burning, aching, throbbing, and shooting pain in lower back that is radiating to both legs. Weakness, numbness, and tingling in both feet and legs.</p> <p>He is also having severe headaches. It is the worst headache of his life. Patient had a CT Sca; OTC PAIN RELIEVERS AND ANTI-INFLAMMATORY MEDICATIONS. ALSO ORAL STEROIDS AND STEROID INJECTIONS. HOME EXERCISES, ICE, HEAT, AND REST; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>Chairi I, lumbar DDD, DJD with scoliosis. Plan for baseline cine flow eval , MRI head and will refer for PT for core strengthening/ home exercise program. May benefit from injections at some point if back symptoms worsen. Would not recommend intervention f; This study is being ordered for Congenital Anomaly.; 6/6/17; There has been treatment or conservative therapy.; Duration: 10 years</p> <p>Frequency Frequently</p> <p>Severity: Average pain level over the last week 4/10</p> <p>Location: Low back Both; Mid-back Both</p> <p>Quality: Dull; Aching; Burning</p> <p>Timing: Gradual onset</p> <p>Context/Mechanism: Cannot identify</p> <p>Aggravating Factors: ; Alleviating Factors: sitting; heat; rest; massage; anti-inflammatory medication; physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>Dizziness past stroke Numbness and tingling fingertips of right hand nausea/headache 9-8-2017 Gamma knife for residual left cerebellar AVM access response to radiation.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; A metabolic work up was not done including urinalysis, electrolytes and complete blood count with results completed.; The patient is experiencing loss of smell.</p>	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>F/U in one year studies with studies Head, cine, C/ T.; This study is being ordered for Congenital Anomaly.; 7/24/15; There has been treatment or conservative therapy.; Son of an adult Chiari patient who has been diagnosed with Chiari. Patient has occasional headaches which can be exacerbated by Valsalva but are fairly uncommon. No other major issues. MRI head/ spine shows 21 mm tonsillar herniation but at least some pos; Clinicals to be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	HAS HAD TREMORS, POSSIBLE SEIZURES; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; AT BIRTH; There has been treatment or conservative therapy.; HEADACHES, HYPERSENSITIVITY TO TOUCH, POSSIBLE AUTISM, GENECTIC ABNORMALITIES, HEART MURMUR; SHUNT PLACEMENT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	HEADACHE AND HYDRO; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	headaches past 4 months MRI Brain w/wo shows enlarged pituitary gland.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	MACROCEPHALY; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	na; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; It is not known if the headache is described as a "thunderclap" or the worst headache of the patient's life.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is a new and sudden onset of headache (less than 1 week) not improved by pain medications.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Patient has a Chiari malformation type 1. Tinnitus and weakness in her extremities.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Patient is coming in for a 6 month follow-up of mass lesion of brain with imaging. Patient's last office visit was on 12/15/17, and there were no new complaints or issues since previous visit on 11/10/17. Normal physical exam on 12/15/17.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1

Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	per op for surgery; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	PRE OP FOR SURGERY; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	S/P LP shunt. Wounds C/D/I. Some pain over flank and abdominal area. Has continued to have right facial and ear pain likely still related to Trigeminal neuralgia but would not do any further lesioning at this point. Some SO pain on right as well. Will fol; This study is being ordered for Congenital Anomaly.; 12/05/2014; There has been treatment or conservative therapy.; S/P LP shunt. Wounds C/D/I. Some pain over flank and abdominal area. Has continued to have right facial and ear pain likely still related to Trigeminal neuralgia but would not do any further lesioning at this point. Some SO pain on right as well. Will fol; Patient has had surgery with shunt placement for chiari malformation.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	srs; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; It is not known if a biopsy has been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	15
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	2
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	3

Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The patient has undergone treatment for a congenital abnormality (such as hydrocephalus or craniosynostosis).; The patient has a congenital abnormality.	2
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested due to trauma or injury.; There are new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; The patient has a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection.; This is NOT a Medicare member.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; The patient has not undergone treatment for multiple sclerosis.; There are intermittent or new neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has not been a previous Brain MRI completed.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for and infection or inflammation.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for Parkinson's disease.; This study is being ordered for new neurological symptoms.; The neurologic symptoms include one sided arm or leg weakness.	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	5
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	2
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		62yo M with CSM and 3 months history of progressively worsening weakness, difficulty with fine motor control, muscular atrophy of the shoulders and bilateral UE. Imaging cervical kyphosis with cervical spondylosis with central and foraminal stenosis worst; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	1

Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		abnormal Mri; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		Enter answer here - or Type In Unknown If No Info Give  This is a follow up to a C6/7 fracture which is best followed with a CT scan rather than a MRI; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		MRI patient had showed inflammatory changes, trying to access for pseudoarthrosis; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		part of myelogram; This study is being ordered for a neurological disorder.; 4/1/2018; There has been treatment or conservative therapy.; neck and back pain arm weakness ,numbness, tingling; medication , home exercise; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		rule out nerve root compression; This study is being ordered for a neurological disorder.; 11/9/2017; There has been treatment or conservative therapy.; Back and neck pain, arm and leg weakness, walks using a cane, to be part of a myelogram; Patient has been on anti-inflammatories, steroids, physical therapy (3 weeks, back in November); One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		The patient does have neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to chronic neck pain or suspected degenerative disease.; There is a reason why the patient cannot have a Cervical Spine MRI.; The patient is experiencing or presenting symptoms of Abnormal gait.	6
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		unknown; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	1
Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; unknown; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		; This is a request for a thoracic spine CT.; There is no reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	2
Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		; This study is being ordered for a neurological disorder.; February 2018; There has been treatment or conservative therapy.; bil leg spasms; pain medication, referral for surgical weightloss; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		Post-op evaluation; patient was given antibiotics; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Surgery 03/31/2018; There has been treatment or conservative therapy.; Surgical site painful; still wearing brace; myalgia and back pain; Surgery; PT and OT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine CT.; The study is being ordered due to chronic back pain or suspected degenerative disease.; There is a reason why the patient cannot undergo a thoracic spine MRI.; The patient is experiencing or presenting lower extremity weakness.; Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		The patient is not presenting new symptoms.; This study is being ordered for follow-up.; The patient is not undergoing active treatment for cancer.; This is a request for a thoracic spine CT.; The patient has had 3 or fewer Thoracic Spine CTs.; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; The study is being ordered due to known tumor with or without metastasis.; There is a reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		unknown; This study is being ordered for a neurological disorder.; 02/2018; There has been treatment or conservative therapy.; low back pain radiating to left leg; surgery, pain management, PT, antibiotics; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material		part of myelogram; This study is being ordered for a neurological disorder.; 4/1/2018; There has been treatment or conservative therapy.; neck and back pain arm weakness ,numbness, tingling; medication , home exercise; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material		rule out nerve root compression; This study is being ordered for a neurological disorder.; 11/9/2017; There has been treatment or conservative therapy.; Back and neck pain, arm and leg weakness, walks using a cane, to be part of a myelogram; Patient has been on anti-inflammatories, steroids, physical therapy (3 weeks, back in November); One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is not experiencing symptoms of radiculopathy for six weeks or more.; There is no neurologic symptoms of bowel or urinary bladder dysfunction.; There is no suspicion of lumbar spine infection.; There is suspicion of lumbar spine neoplasm, tumor or metastasis.; Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; It is not know if the patient has seen the doctor more then once for these symptoms.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.; Absent throughout.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 04/16/2016; There has been treatment or conservative therapy.; Radicular pain and pain radiating into the left arm. Reflexes are diminished.; Injections, medications, and PT.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/20/12; There has been treatment or conservative therapy.; vomiting, nausea, pain; surgery on eye; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; It is not known if the patient is presenting new symptoms.; This study is being ordered for follow-up.; This is a request for cervical spine MRI; Known Tumor with or without metastasis; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.; It is unknown when the last Cervical Spine MRI was performed.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	15
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	2

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Weak in the left by 3/5.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; diminished grip strength; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This study is being ordered for a neurological disorder.; Surgery was on 06/07/2018; There has been treatment or conservative therapy.; Radiculopathy and weakness; Surgery and PT before surgery.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; CHIARITYPE 1 MALFORMATION AND SMALL SYRINX; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		1. Chiari malformation - 8 years s/p SOD for chiari malformation. Sudden onset weakness and numbness to left leg 4 days ago, which started when she walked into dance class. Physical exam demonstrated resolution of weakness at this time. She does experienc; This study is being ordered for Congenital Anomaly.; December 2010.; There has been treatment or conservative therapy.; Emily is here to discuss recent change in symptoms. 8 years s/p SOD for chiari malformation. She reports sudden onset weakness and numbness to left leg 4 days ago, which started when she walked into dance class. She was unable to "pick up left leg" and fe; Chiari sx - Dec 2010; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>45 year old female with history of headaches for years that are suboccipital and exacerbated by Valsalva. Reports blurry double vision at times as well as rumbling in ears, word finding difficulty, swallowing difficulties, neck pain, decreased ROM of neck; This study is being ordered for Congenital Anomaly.; Patient reports years of headaches.; There has been treatment or conservative therapy.; Frequency Constantly &#x0D;</p> <p>Severity: Average pain level over the last week 6/10 &#x0D;</p> <p>Location: Neck &#x0D;</p> <p>Quality: Shooting &#x0D;</p> <p>Timing: Cannot identify &#x0D;</p> <p>Context/Mechanism: Cannot identify &#x0D;</p> <p>Aggravating Factors: sitting; coughing/sneezing; looking up; looking down; ne; Medications listed in clinicals.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>continuing difficulty with neck and right arm pain. Described as a C4-C5 radiculopathy. Significant changes at C3-4. Also at 5667. Patient has failed extensive conservative trial he is ready for surgery. New MRI is needed.; This is a request for cervical spine MRI; Pre-Operative Evaluation; It is not known when surgery is scheduled.</p>	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>F/U in one year studies with studies Head, cine, C/ T.; This study is being ordered for Congenital Anomaly.; 7/24/15; There has been treatment or conservative therapy.; Son of an adult Chiari patient who has been diagnosed with Chiari. Patient has occasional headaches which can be exacerbated by Valsalva but are fairly uncommon. No other major issues. MRI head/ spine shows 21 mm tonsillar herniation but at least some pos; Clinicals to be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>FOR BETTER EVALUATION DUE TO THE INCREASING PAIN. EVALUATION FOR SURGERY OR INJECTIONS.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 07/01/2017; There has been treatment or conservative therapy.; INCREASING NECK AND LOW BACK PAIN. PATIENT IS HAVING BILATERAL HIP PAIN. SHE IS HAVING INCREASING BILATERAL ARM PAIN THAT HAS JUST STARTED GETTING WORSE.; PATIENT HAS COMPLETED SEVERAL COURSES OF PHYSICAL THERAPY AND HAS HAD INJECTIONS AND IS ON MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>HAS HAD TREMORS, POSSIBLE SEIZURES; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; AT BIRTH; There has been treatment or conservative therapy.; HEADACHES, HYPERSENSITIVITY TO TOUCH, POSSIBLE AUTISM, GENECTIC ABNORMALITIES, HEART MURMUR; SHUNT PLACEMENT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Looking at this due to tethered spinal chord. Dr wants to see sagittal and axel T1 sequence images. These were not viewed on prior Lumbar spine MRI.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/2013; There has been treatment or conservative therapy.; Low back pain that radiates to bilat lower extremities with urinary frequency and urge incontinence. Looking at this due to tethered spinal chord.; Medications and HEP; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	LROM in shoulder, grip strength limited.; This study is being ordered for a neurological disorder.; 05/16/2017; There has been treatment or conservative therapy.; LROM, neck pain radiates to LUE, also to LLE, which becomes numb and burning.; ESI, meds, ice, heat, activity modification, chiropractic.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	none; This study is being ordered for Congenital Anomaly.; 6/5/18; There has not been any treatment or conservative therapy.; Unknown symptoms. Pt is 3 months.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	PAIN; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; NECK SHOULDER AND ARM; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Patient has a Chiari malformation type 1. Tinnitus and weakness in her extremities.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Patient with prior Chiari surgery and righ VP shunt which was at 2.0 presents with recurrent headaches / visual issues exacerbated by being up. Shunt at 0.5 today. replaced to 1.5. Will reeval . in two weeks. Need new staudies, last 2 years ago.Neuro - in; This study is being ordered for Congenital Anomaly.; 10/25/16; There has been treatment or conservative therapy.; Pleasant female with history of Chiari decompression as well as LP and VP shunts who has essentially had recurrent full blown symptomatology including Valsalva and bending forward headaches, tinnitus, visual issues, swallowing issues, palpoitqtions , d; Failed Chiari surgery. Will get cine flow and T/L/S to ;look for syrinx/ tethered cord. EDS workup as well as dysautonomia eval. Follow up after to see if there is anything we can do to help; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Pt with primary brain tumor and possible leptomeningeal metastasis coming for follow up after chemotherapy; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; It is not known if this patient had a recent course of supervised physical Therapy.	2
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient is presenting new symptoms.; This study is being ordered for follow-up.; This is a request for cervical spine MRI; Known Tumor with or without metastasis; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist."; Follow-up to Surgery or Fracture within the last 6 months	13
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; Patient has been experiencing radicular pain in right scapula should and arm. She has also been experiencing numbness and tingling. She has tried NSAIDS and at home exercises with no relief. Her symptoms have increasingly worsened over the last 4 months.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; This 54 year old male presents with neck pain with tingling in left hand. His main complaint is the tingling in his 2nd, 3rd and 4th digits in his right hand. He states this began about one month ago without incident and has progressively worsened.   He; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; None of the above; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	1

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Pre-Operative Evaluation; No, the last Cervical spine MRI was not performed within the past two weeks.	4
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Pre-Operative Evaluation; Surgery is scheduled within the next 4 weeks.; The last Cervical Spine MRI was not performed within the past two weeks.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	15
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Cont w neck and right shoulder pain that radiates down to upper back	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Unable to explain his symptoms with his lumbar findings.; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; back pain and neck pain with history of tetraparesis/ increased reflexes in the legs Evaluation of Deep Tendon Reflexes on the right side demonstrates 1/4 Triceps Reflex, 0/4 Biceps Reflex, 0/4 Brachioradialis Reflex and 3/4 Patellar Reflex, but 2/4 Achil; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Unknown; This study is being ordered for a neurological disorder.; 10/27/2016; There has been treatment or conservative therapy.; Recent fall, neck and back pain, diminished reflexes, poor ROM due to pain, easy bruising, arm and leg weakness, neurological deficits.; Surgery, injections, medicaitons; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		weak grip on right, pain with leg raise; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 8/9/2012; There has been treatment or conservative therapy.; radiculopathy ;, PM, PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 15 years ago; There has been treatment or conservative therapy.; lower back pain numbness and tingling in both legs and feet; surgery muscle relaxers spine injection; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/20/12; There has been treatment or conservative therapy.; vomiting, nausea, pain; surgery on eye; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	; This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	; This study is being ordered for a neurological disorder.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	; This study is being ordered for trauma or injury.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	1. Chiari malformation - 8 years s/p SOD for chiari malformation. Sudden onset weakness and numbness to left leg 4 days ago, which started when she walked into dance class. Physical exam demonstrated resolution of weakness at this time. She does experienc; This study is being ordered for Congenital Anomaly.; December 2010.; There has been treatment or conservative therapy.; Emily is here to discuss recent change in symptoms. 8 years s/p SOD for chiari malformation. She reports sudden onset weakness and numbness to left leg 4 days ago, which started when she walked into dance class. She was unable to "pick up left leg" and fe; Chiari sx - Dec 2010; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	55 year old female with chronic neck pain, history of migraines, seizure disorder and recent progressive strain related SO headaches as well as visual issues, tinnitus, dysautonomia, dysphagia, stiff joints , ataxia, myelpathy especially on right and MRI ; This study is being ordered for Congenital Anomaly.; Patient states years.; There has been treatment or conservative therapy.; Headaches, neck pain, numbness, seizures, inability to speak and confusion.; Keppra, Mobic, Gabapentin, Robaxin, Paxil. Topamax.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>Chairi I, lumbar DDD, DJD with scoliosis. Plan for baseline cine flow eval , MRI head and will refer for PT for core strengthening/ home exercise program. May benefit from injections at some point if back symptoms worsen. Would not recommend intervention f; This study is being ordered for Congenital Anomaly.; 6/6/17; There has been treatment or conservative therapy.; Duration: 10 years &#x0D;</p> <p>Frequency Frequently &#x0D;</p> <p>Severity: Average pain level over the last week 4/10 &#x0D;</p> <p>Location: Low back Both; Mid-back Both &#x0D;</p> <p>Quality: Dull; Aching; Burning &#x0D;</p> <p>Timing: Gradual onset &#x0D;</p> <p>Context/Mechanism: Cannot identify &#x0D;</p> <p>Aggravating Factors: ; Alleviating Factors: sitting; heat; rest; massage; anti-inflammatory medication; physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>Clinicals to be uploaded.; This study is being ordered for Congenital Anomaly.; 2008; There has been treatment or conservative therapy.; Clinicals to be uploaded.; Clinicals to be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>F/U in one year studies with studies Head, cine, C/ T.; This study is being ordered for Congenital Anomaly.; 7/24/15; There has been treatment or conservative therapy.; Son of an adult Chiari patient who has been diagnosed with Chiari. Patient has occasional headaches which can be exacerbated by Valsalva but are fairly uncommon. No other major issues. MRI head/ spine shows 21 mm tonsillar herniation but at least some pos; Clinicals to be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>Melinda presents today with new imaging with complaints of 10/10 head and low back pain. She was last seen in our clinic by Laura Flowers approximately a year ago. The visit note is as follows: &#x0D;</p> <p>Melinda is a 53 y.o. female who presents the clinic for hos; This study is being ordered for a neurological disorder.; 03/29/2017; There has been treatment or conservative therapy.; Melinda presents today with new imaging with complaints of 10/10 head and low back pain. She was last seen in our clinic by Laura Flowers approximately a year ago. The visit note is as follows: &#x0D;</p> <p>Melinda is a 53 y.o. female who presents the clinic for hos; bracing, TSLO, flexeril; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>none; This study is being ordered for Congenital Anomaly.; 6/5/18; There has not been any treatment or conservative therapy.; Unknown symptoms. Pt is 3 months.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		Patient has a Chiari malformation type 1. Tinnitus and weakness in her extremities.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		Patient with primary complaints of low back pain but he has unusual history of leg numbness and weakness with cauda equina type symptoms will go ahead and complete workup with cervical and thoracic MRI scan return to clinic. Unable to explain his symptoms; This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Will get some numbness in his legs/feet when back is really hurting. Will have episodes when he cannot move or feel his legs or bowel/bladder function.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; &Enter Additional Clinical Information>; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; 3/23/18 - Known to me. S/P MRI head neck cine T/L/S. Cine with good flow. No increase in Chiari. Remainder OK except for very slight increase in T8/9 syrinx though it is shorter. Has had some vision issues as well as back pain and leg numbness recently. T; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of abnormal gait.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does not have any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.	7
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient is presenting new symptoms.; This study is being ordered for follow-up.; The patient is not undergoing active treatment for cancer.; This is a request for a thoracic spine MRI.; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.;" The study is being ordered due to known tumor with or without metastasis.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient is presenting new symptoms.; This study is being ordered for follow-up.; This is a request for a thoracic spine MRI.; Known Tumor with or without metastasis; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	1

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist.;" The study is being ordered due to follow-up to surgery or fracture within the last 6 months.	7
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; The patient is experiencing or presenting symptoms of abnormal gait.	2
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; The patient is experiencing or presenting symptoms of bowel or bladder dysfunction.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; There is x-ray or laboratory evidence of paraspinal abscess.; The study is being ordered due to known or suspected infection or abscess.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		WONT LET ME TYPE; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; We saw her in the hospital 6/4/18 for subarachnoid hemorrhage that was preopntine with now 2 CTAs that dont show any aneurysm or vascular malformations. I have advised her from the standpoint of that, I am satisfied, however, she is having a tremendous a; There has been treatment or conservative therapy.; WONT LET ME TYPE; ORAL ANALGESIA FOR SUSPECTED SUBARA; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material			1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Document exam findings; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 15 years ago; There has been treatment or conservative therapy.; lower back pain numbness and tingling in both legs and feet; surgery muscle relaxers spine injection; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 3 weeks ago; There has been treatment or conservative therapy.; patient has weakness and pain radiating down to her legs through her feet; Home exercises, also ice bags with heat; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; January 2018; There has been treatment or conservative therapy.; numbness and pain in arms which has transitioned to weakness in her right arm. unbalanced and weakness in legs. Low back and leg pain.; Pt has had pain meds, PT, and also been put in splint for arm; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 02/01/2016; There has been treatment or conservative therapy.; pain up and down spine including neck area, numbness in legs and feet with standing/walking, aching burning stabbing; injections, medications, chiropracter; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; 56 yrs female with a long history of mechanical back pain with radiation down LLE. Patient has pain with ambulation. Pt complains of new onset of numbness, tingling in the left anterior thigh. Pt notes intermiitent weakness. Patient failed conservative ma; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; back pain; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for trauma or injury.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		1. Chiari malformation - 8 years s/p SOD for chiari malformation. Sudden onset weakness and numbness to left leg 4 days ago, which started when she walked into dance class. Physical exam demonstrated resolution of weakness at this time. She does experie; This study is being ordered for Congenital Anomaly.; December 2010.; There has been treatment or conservative therapy.; Emily is here to discuss recent change in symptoms. 8 years s/p SOD for chiari malformation. She reports sudden onset weakness and numbness to left leg 4 days ago, which started when she walked into dance class. She was unable to "pick up left leg" and fe; Chiari sx - Dec 2010; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		55 year old female with chronic neck pain, history of migraines, seizure disorder and recent progressive strain related SO headaches as well as visual issues, tinnitus, dysautonomia, dysphagia, stiff joints , ataxia, myelopathy especially on right and MRI ; This study is being ordered for Congenital Anomaly.; Patient states years.; There has been treatment or conservative therapy.; Headaches, neck pain, numbness, seizures, inability to speak and confusion.; Keppra, Mobic, Gabapentin, Robaxin, Paxil. Topamax.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Clinicals to be uploaded.; This study is being ordered for Congenital Anomaly.; 2008; There has been treatment or conservative therapy.; Clinicals to be uploaded.; Clinicals to be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		follow up on abscess; The study requested is a Lumbar Spine MRI.; It is not known if there is laboratory evidence of osteomyelitis.; Known or Suspected Infection or abscess; It is not known if there is laboratory or x-ray evidence of meningitis.; It is not known if there is laboratory or x-ray evidence of a paraspinal abscess.; It is not known if there is laboratory or x-ray evidence of an infected disc, septic arthritis, or "discitis".	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		her MRI W/WO contrast of her C spine. I dont see much in the way of enhancement. I think overall, things look okay. I dont see any evidence of a tumor. I think overall this is going to be either a compressive syrinx or overall just incidental finding. ; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Known to me. Has had L4 - S1 then L3/L4 fusion. Post op did OK but has had recurrent right LBP in SI joint area as well as claudication. Xrays OK. SI joint injection with minimal relief. recent EMG with mild bilateral chronic radiculopathy L5 which is lik; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; tenderness of the spinous process at L 2 and to palpation of the the right sacroiliac joint(s).tenderness of the gluteus medius. restricted lumbar flexion; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; It is not known if there is x-ray evidence of a lumbar recent fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		long history of incapacitating sciatica consistent with L5 radiculopathy; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Patient with prior Chiari surgery and righ VP shunt which was at 2.0 presents with recurrent headaches / visual issues exacerbated by being up. Shunt at 0.5 today. replaced to 1.5. Will reeval . in two weeks. Need new staudies, last 2 years ago. Neuro - in; This study is being ordered for Congenital Anomaly.; 10/25/16; There has been treatment or conservative therapy.; Pleasant female with history of Chiari decompression as well as LP and VP shunts who has essentially had recurrent full blown symptomatology including Valslvalva and bending forward headaches, tinnitus, visual issues, swallowing issues, palpoitqations , d; Failed Chiari surgery. Will get cine flow and T/L/S to ;look for syrinx/ tethered cord. EDS workup as well as dysautonomia eval. Follow up after to see if there is anything we can do to help; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>REQUESTING APPROVAL FOR A LUMBAR MRI DUE TO INCREASING PAIN AFTER INJECTIONS AND PHSYICAL THERAPY FOR PRESURGICAL REVIEW.&#x0D; &#x0D; REQUESTING APPROVAL FOR A CERVICAL MRI FOR INCREASING PAIN AFTER CERVICAL FUSION.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.</p>	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>S/P SOD and ACDF. Doing OK. Some frontal headaches recently as well as visual issues. MRI head with flow is stable however. Has persistent CRPS so will start Lamictal and get Optho referral for ? papilledema. MRI Spine with nect visit for persistent myelo; This study is being ordered for Congenital Anomaly.; 12/23/16; There has been treatment or conservative therapy.; 49 year old female presents to clinic with history of neck pain as well as suboccipital headaches for years (had 4 wheeler wrecks in mid 2000s). Reports headcahes are exacerbatedby Valsalva. She has also had tinnitus, facial numbness and transwient weakn; Craniectomy, suboccipital; exploration/decompression, cranial nerves&#x0D; Anterior cervical discectomy, with fusion and plating - 09/25/2017&#x0D; Anterior cervical discectomy, with fusion and plating - 09/25/2017&#x0D; Craniectomy, suboccipital; exploration/decompress; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>T/L and MRI cine. Will f/u after. Chari I , needs completion studies, Moniter vs SOD as he has improved with lifestyle modification (stopped jogging); This study is being ordered for Congenital Anomaly.; Duration: 1 years; There has been treatment or conservative therapy.; 44 year old male with issues for years including SO headaches tinnitus, vision, speech, swallowing issues as well as brain fog/ gait issues, extremitiy isses. Recent MRI shows Chiari I with crowding. Prior studies back to 2005 show similar Chiari but not ; Alleviating Factors: heat; rest &#x0D; Associated Symptoms: weakness&#x0D; Previous Spine Physical Therapy: did not help; jan 2017; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	THAT MRI WAS DONE ON 3/26/18 FOR PRESURGERY.  SHE HAD SPINAL SURGERY A HEMILAMINECTOMY ON 4/6/18. DR SMITH WANTS THIS MRI SINCE SHE IS HAVING SEVERE PAIN IN RIGHT LEG POST SURGERY. SHE IS NOT RESPONDING TO MEDICATION, HEAT, ICE, BRACE ETC. SHE IS UNABLE; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with an Epidural.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for Neurologic deficits	6
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Pre-Operative Evaluation; No, the last Lumbar spine MRI was not performed within the past two weeks.; Surgery is scheduled within the next 4 weeks.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Follow-up to surgery or fracture within the last 6 months; The patient is experiencing new or changing symptoms.; It is unknown if the patient has been seen by or if the ordering physician a neuro-specialist, orthopedist, or oncologist.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Known or suspected tumor with or without metastasis	6
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Neurologic deficits	2
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Pre-operative evaluation; The patient has not had a Lumbar Spine MRI performed within the past 2 weeks.	2
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal nerve study involving the lumbar spine	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	11
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has completed Treatment with a facet joint or epidural injection in the past 6 weeks	4

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	84
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; There is laboratory or x-ray evidence of osteomyelitis.; Known or Suspected Infection or abscess	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		tingling numbess; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		weak grip on right, pain with leg raise; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 8/9/2012; There has been treatment or conservative therapy.; radiculopathy ,; PM, PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72192 Computed tomography, pelvis; without contrast material		; This study is being ordered as pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		bilateral hip pain; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Neurological Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		right hip pain; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Neurological Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for pelvic trauma or injury.	2
Neurological Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 04/16/2016; There has been treatment or conservative therapy.; Radicular pain and pain radiating into the left arm. Reflexes are diminished.; Injections, medications, and PT.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is an orthopedist.	1

Neurological Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for post-operative evaluation.; The ordering physician is not an orthopedist.; It is not known if there are documented findings of joint infection.; It is not known if there is documented findings of delayed healing.; There are no documented physical or plain film findings of prosthetic device dislocation.;	1
Neurological Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Neurological Surgery	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physician directed course of non-steroidal anti-inflammatory medications	1
Neurological Surgery	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; Surgery or arthroscopy is scheduled in the next 4 weeks.; There is not a suspicion of fracture not adequately determined by x-ray.; It is not known if there is a suspicion of tendon or ligament injury.; The hip pain is due to a recent injury.; The request is for hip pain.	1
Neurological Surgery	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is receiving long-term steroid therapy (Prednisone or Cortisone).; The patient has a documented limitation of their range of motion.	1
Neurological Surgery	Approval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the abdomen.	1
Neurological Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		S/P LP shunt. Wounds C/D/I. Some pain over flank and abdominal area. Has continued to have right facial and ear pain likely still related to Trigeminal neuralgia but would not do any further lesioning at this point. Some SO pain on right as well. Will fol; This study is being ordered for Congenital Anomaly.; 12/05/2014; There has been treatment or conservative therapy.; S/P LP shunt. Wounds C/D/I. Some pain over flank and abdominal area. Has continued to have right facial and ear pain likely still related to Trigeminal neuralgia but would not do any further lesioning at this point. Some SO pain on right as well. Will fol; Patient has had surgery with shunt placement for chiari malformation.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	3

Neurological Surgery	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; It is unknown if the study is being requested for evaluation of a headache.; The patient has a congenital abnormality.; The patient has undergone treatment for a congenital abnormality (such as hydrocephalus or craniosynostosis).; It is unknown if the patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
Neurological Surgery	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has a congenital abnormality.; The patient has undergone treatment for a congenital abnormality (such as hydrocephalus or craniosynostosis).; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
Neurological Surgery	Disapproval	70547 Magnetic resonance angiography, neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; ; There has not been any treatment or conservative therapy.; memory loss; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; CHIARI MALFORMATION; It is not known if there has been any treatment or conservative therapy.; CHIARI I MALFORMATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Clinicals to be uploaded.; This study is being ordered for Congenital Anomaly.; 5/26/15; There has been treatment or conservative therapy.; The patient reports having increasing suboccipital pain. She did have successful relief with an ablation procedure of the third occipital nerve previously. There was worsening symptom complex of the patient and she did undergo a right positive C5-6 diagno; s/p Anterior Cervical Discectomy with Fusion and Plating for Spondylosis without Myelopathy 8/31/2015.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for a tumor.	1
Neurological Surgery	Disapproval	70554 Magnetic resonance imaging, brain, functional MRI; including test selection and administration of repetitive body part movement and/or visual stimulation, not requiring physician or psychologist administration	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/13/2017; There has been treatment or conservative therapy.; She has a thunderclap headache due to the aneurysm in her head , but it hasn't ruptured; She had a cerebral angiogram on 11/14/17; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2014; There has been treatment or conservative therapy.; CHRONIC PAIN; 2014 CERVICAL FUSION DONE, INJECTIONS SINCE SURGERY, PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; jan 2016; There has been treatment or conservative therapy.; PROGRESSIVE LOWER EXTREMITY CLAUDICATION, HEAVINESS IN BILATERAL LEGS, UNABLE TO LIFT LEGS, INABILITY TO WALK; heat, ice, NSAids, MUSCLE RELAXERS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	ruling out a lesion & evaluating her scoliosis to determine surgical interventions; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; BACK PAIN BEGAN 12 YEARS AGO. SHE HAS HAD PHYSICAL THERAPY, EPIDURAL STEROID INJECTIONS & NSAID USE WITH MINIMAL TO NO RELIEF.; There has been treatment or conservative therapy.; CERVICAL PAIN THAT RADIATES UP BEHIND BOTH EARS INTO HER HEAD AND DOWN BETWEEN HER SHOULDERS. THIS PAIN CAUSES HEADACHES ON A DAILY BASIS. THE EPICENTER OF HER PAIN IS ABOUT T5. SHE HAS SOME DISARTICULATION OF HER RIBS AT THE COSTOVERTEBRAL JOINTS AT T2 A; PATIENT HAS HAD PHYSICAL THERAPY, 2 EPIDURAL STEROID INJECTIONS, AND NSAID USE WITH MINIMAL TO NO RELIEF.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Neurological Surgery	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is not experiencing symptoms of radiculopathy for six weeks or more.; There is no neurologic symptoms of bowel or urinary bladder dysfunction.; There is no suspicion of lumbar spine infection.; There is no suspicion of lumbar spine neoplasm or tumor or metastasis.; Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is to be part of a myelogram or discogram.; Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	2

Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/12/2017; There has been treatment or conservative therapy.; pain numbness weakness; meds and injections and pt; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; CHIARI MALFORMATION; It is not known if there has been any treatment or conservative therapy.; CHIARI I MALFORMATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 3-1-2017; There has been treatment or conservative therapy.; PATIENT IS HAVING BILATERAL ARM AND LEG PAIN, NUMBNESS, AND WEAKNESS THAT IS SEEMING TO INCREASE; PATIENT HAS UNDERGONE MULTIPLE INJECTIONS AND PHYSICAL THERAPY, ALL WITH NO RELIEF; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Clinicals to be uploaded.; This study is being ordered for Congenital Anomaly.; 5/26/15; There has been treatment or conservative therapy.; The patient reports having increasing suboccipital pain. She did have successful relief with an ablation procedure of the third occipital nerve previously. There was worsening symptom complex of the patient and she did undergo a right positive C5-6 diagno; s/p Anterior Cervical Discectomy with Fusion and Plating for Spondylosis without Myelopathy 8/31/2015.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT IS HAVING INCREASING LOW BACK AND LEG PAIN AND NECK PAIN AND NOW INCREASING ARM PAIN.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/23/2017; There has been treatment or conservative therapy.; PATIENT IS HAVING INCREASING LOW BACK PAIN WITH PAIN IN BILATERAL LEGS, WITH RIGHT LEG NUMBNESS AND WEAKNESS. PATIENT IS HAVING INCREASING NECK PAIN WITH BILATERAL ARM PAIN.; PATIENT HAS DONE PHYSICAL THERAPY AND CHIROPRACTIC THERAPY FOR MANY YEARS.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	post op 04/28/2018 work up for sx to make nothing else is going one; This study is being ordered for trauma or injury.; 10/01/2017; There has been treatment or conservative therapy.; increased back pain and seizures; upper/lower back pain; surgery; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	See attached clinicals; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; I spoke with Ms. Skinner today to give her the results of her thoracic MRI. She requested to be scheduled for a cervical MRI at this time. She states she has bilateral neck pain that radiates up toward her head. She states she feels "a knot back there and; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; ; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1

Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; She also complains of numbness in her arms and hands and cramping of her fingers especially at night. She has a history of a ACF in the past; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Pre-Operative Evaluation; Yes, the patient have new or changing neurological signs or symptoms.; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.; It is not known if the last Cervical spine MRI was performed within the past two weeks.	1
Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; CHIARI MALFORMATION; It is not known if there has been any treatment or conservative therapy.; CHIARI I MALFORMATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 3-1-2017; There has been treatment or conservative therapy.; PATIENT IS HAVING BILATERAL ARM AND LEG PAIN, NUMBNESS, AND WEAKNESS THAT IS SEEMING TO INCREASE; PATIENT HAS UNDERGONE MULTIPLE INJECTIONS AND PHYSICAL THERAPY, ALL WITH NO RELIEF; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Clinicals to be uploaded.; This study is being ordered for Congenital Anomaly.; 5/26/15; There has been treatment or conservative therapy.; The patient reports having increasing suboccipital pain. She did have successful relief with an ablation procedure of the third occipital nerve previously. There was worsening symptom complex of the patient and she did undergo a right positive C5-6 diagno; s/p Anterior Cervical Discectomy with Fusion and Plating for Spondylosis without Myelopathy 8/31/2015.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a thoracic spine MRI.; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist.;" The study is being ordered due to follow-up to surgery or fracture within the last 6 months.	1
Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; ; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1

Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/12/2017; There has been treatment or conservative therapy.; pain numbness weakness; meds and injections and pt; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4YRS AGO; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; PT , NARCO , PERCS, TRAMADOL; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; It is not known if there is x-ray evidence of a lumbar recent fracture.	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; oral steroid, methylprednisone  meloxicam diclofenac	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; SYRINGOMYELIA; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; CHIARI MALFORMATION; It is not known if there has been any treatment or conservative therapy.; CHIARI I MALFORMATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Clinicals to be uploaded.; This study is being ordered for Congenital Anomaly.; 5/26/15; There has been treatment or conservative therapy.; The patient reports having increasing suboccipital pain. She did have successful relief with an ablation procedure of the third occipital nerve previously. There was worsening symptom complex of the patient and she did undergo a right positive C5-6 diagno; s/p Anterior Cervical Discectomy with Fusion and Plating for Spondylosis without Myelopathy 8/31/2015.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	He describes spasms in the mid-back and low back pain with electric type pain that radiates along the posterior aspect of the right lower extremity reaching the foot and all toes. Pain is aggravated by standing long periods of time and straightening his b; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	He has tingling in his right leg and cramps under his buttocks. He has to use his hands to lift his leg in order to cross it and sometimes to move it to get started walking. He is unable to travel long distances without stopping to walk around. He hurts i; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; He has tingling in his right leg and cramps under his buttocks. He has to use his hands to lift his leg in order to cross it and sometimes to move it to get started walking. He is unable to travel long distances without stopping to walk around. He hurts i; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient is 4 four months post-op on lumbar spine and still has the same pain as did before.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient reports subjective weakness. She complains of back pain for the past three years after falling through a trailer in a scrap yard. Describes low back pain radiating along the lateral and posterior aspect of the right lower extremity reaching the mi; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	RADICULOPATHY, DISC HERNIATION; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/9/17; There has been treatment or conservative therapy.; BACK PAIN, INTO HIP AND LEG; SURGERY, MEDICATION,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	6
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/10/2017; There has been treatment or conservative therapy.; Low back and mid back pain. Neck pain and left arm pain radiating into the fingers. Bilateral leg pain left leg more affected than the right.; patient has had all medications, flexural, hydrocodone. physical therapy activity modification but continues to worsen.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Neurological Surgery	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	MRI needed to defined his sacral pain and he has failed physical therapy as well as pain management.; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Neurological Surgery	Disapproval	73200 Computed tomography, upper extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is not suspicion of upper extremity bone or joint infection.; The ordering physician is not an orthopedist or rheumatologist.; Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation.";	1

Neurological Surgery	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is an abnormal EMG/NCV study in the right upper extremity showing electrophysiological evidence suggestive of moderate right median neuropathy across the wrist, consistent with moderate right carpal tunnel syndrome. The right ulnar appears electrophory; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; started 6/5/12. was given flexing & strengthening exercises. these exercises didn't help they just made the pain worst. patient tried for 8 weeks; The patient received oral analgesics.	1
Neurological Surgery	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; knee pain; There has been treatment or conservative therapy.; ; meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Neurology	Approval	70450 Computed tomography, head or brain; without contrast material		He has a pounding internal pain in bilateral temples. He describes it as feeling like someone is trying to kick their way out. He does not have photophobia but does report phonophobia. The headaches been present all day every day.; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
Neurology	Approval	70450 Computed tomography, head or brain; without contrast material		pt has a history of left intracranial hemorrhage. he presents with dizziness. He also has numbness, weakness and tingling in the right upper extremity. previous hospital with possible cva or tia. also surgery to the right orbit. Hypertention associated wi; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or aneurysm.; This study is being ordered for a previous stroke or aneurysm.	1
Neurology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	6
Neurology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Evaluation of known or suspected subarachnoid hemorrhagebest describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Neurology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Known or suspected inflammatory disease best describes the reason that I have requested this test.	1
Neurology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	2
Neurology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.	1
Neurology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a chronic headache, longer than one month; Headache best describes the reason that I have requested this test.	2

Neurology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
Neurology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has the inability to speak.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or aneurysm.; This study is being ordered for a previous stroke or aneurysm.	1
Neurology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; This study is being requested for Hydrocephalus or congenital abnormality.	1
Neurology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is suspicion of bone infection, [osteomyelitis].fct"; Yes this is a request for a Diagnostic CT	1
Neurology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 02/01/2018; There has been treatment or conservative therapy.; BLURRED SPEACH; MEDS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	16
Neurology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Neurology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for a neurological disorder.; December 2017; There has been treatment or conservative therapy.; This is a 6 month f/u to evaluate.; 4 Vessel Arteriogram, Physical Therapy and Neurologist visits; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		further stroke work-up; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; dysarthria, numbness left face, arm and leg; testing on an inpatient basis started on 81mg ASA; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		<p>The pt has a hx of TIA 11 years ago and now states he is having the same s/s of past TIA. Mri and CTA is needed to assess TIA; This study is being ordered for a neurological disorder.; 53-year-old white male with history of polycythemia vera comes here for evaluation and treatment of. His neurological symptoms. He is unaccompanied.&#x0D;</p> <p>11 years ago he had a TIA. His left arm went numb and he had difficulty speaking. At that time he was dia; There has been treatment or conservative therapy.; left arm goes numb, curls up. Sometimes the numbness is also in the right upper extremity.He has numbness in the fingers. Also complains of difficulty with balance. Cognitive decline.&#x0D;</p> <p>history of polycythemia vera; He is taking aspirin 81 mg per day.&#x0D;</p> <p>He is taking hydroxyurea every day; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		<p>Unknown; This study is being ordered for a neurological disorder.; 12/2017 -; There has been treatment or conservative therapy.; dysarthria, dysphagia; MRI brain and ASA; stroke rehab for speech and gait; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		<p>vision lose , weakness in body movement; This study is being ordered for a neurological disorder.; 09/2017; There has not been any treatment or conservative therapy.; vision lose , weakness of body movement; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		<p>had a sudden loss of vision in the right periphery, around a month ago he had sudden onset of fogginess, dizziness, inability to move body and confusion which lasted for less than 30 minutes. He was told he had a TIA; This study is being ordered for a neurological disorder.; JANUARY 2017; It is not known if there has been any treatment or conservative therapy.; right visual loss, around a month ago he had sudden onset of fogginess, dizziness, inability to move body and confusion which lasted for less than 30 minutes. He was told he had a TIA; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		<p>Known stroke, daily headaches; This study is being ordered for Vascular Disease.; 05/30/2018; There has been treatment or conservative therapy.; Known stroke, daily headaches.; Aspirin; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Neurology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		none; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/1/18; There has been treatment or conservative therapy.; Pt has dizziness, visual field deficits, migraines, facial and extremity numbness. Severe HA. L sided facial drooping; PCP has tried using medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		unknown; This study is being ordered for a neurological disorder.; 01/02/2018; There has been treatment or conservative therapy.; difficulty walking, memory loss, headaches, lack of adequate sleep and numbness, muscle weakness; Had some outpatient rehab, medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		; This study is being ordered for a neurological disorder.; 2017; It is not known if there has been any treatment or conservative therapy.; MULTIPLE SCLEROSIS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		Ms. Allison M Hoover is a 38 y.o. female with bilateral papilledema, a lot of headaches, and a concern for Pseudotumor Cerebri. We can do a spinal tap, high volume, and recommend weight loss as well She states that she is having issues with her vision. ; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/05/18; There has been treatment or conservative therapy.; Headaches have been present for year(s), and are now getting worse. Frequency is constantly. Location of the headache is frontal region, temporal region, parietal region, occipital region on the Bilateral sides. Quality of the pain is pounding, sharp, d; Ms. Allison M Hoover is a 38 y.o. female. Headaches have been present for year(s), and are now getting worse. Frequency is constantly. Location of the headache is frontal region, temporal region, parietal region, occipital region on the Bilateral sides.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		There is not a suspicion of an infection or abscess.; This examination is NOT being requested to evaluate lymphadenopathy or mass.; There is a suspicion of a bone infection (osteomyelitis); This is a request for a Face MRI.; There is not a history of orbit or face trauma or injury.	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	2

Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		; This study is being ordered for a neurological disorder.; July 2017; There has been treatment or conservative therapy.; memory loss, word finding difficulties; Cerebral interventional studies, aspirin, counseling; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		He has had migraines since he was 15 yo. At his 30s, his HAs went away, instead, he had just episodes of numbness on the left side, either the left face, left arm or the left leg considered as auras, about once a couple of years. Recently he got much more; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is an immediate family history of aneurysm.; This is a request for a Brain MRA.	12
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient has a known aneurysm.; This is a request for a Brain MRA.	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		This is a request for a head and neck MR Angiogram.; There is an immediate family history of aneurysm.	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		This is a request for a head and neck MR Angiogram.; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; "There is a sudden onset of one-sided weakness, speech impairment, vision defects or severe dizziness."	2
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		This is a request for a head and neck MR Angiogram.; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; "There is a sudden onset of one-sided weakness, speech impairment, vision defects or severe dizziness."; This patient does not have an abnormal ultrasound of the neck.	1
Neurology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		none; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 7/1/17; There has been treatment or conservative therapy.; Patient complains of numbness in hands and lower back; Steroid injections, PT, and back brace; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		The patient has not had a recent MRI or CT for these symptoms.; There has been a stroke or TIA within the past 2 weeks.; This is a request for a Neck MR Angiography.	2
Neurology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; "There is a sudden onset of one-sided weakness, speech impairment, vision defects or severe dizziness."; This is a request for a Neck MR Angiography.	4

Neurology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		This is a request for a head and neck MR Angiogram.; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; "There is a sudden onset of one-sided weakness, speech impairment, vision defects or severe dizziness."; This patient does not have an abnormal ultrasound of the neck.	1
Neurology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		to examine the area of the head and neck and nerve involvement; This study is being ordered for a neurological disorder.; 3 years ago; It is not known if there has been any treatment or conservative therapy.; shock-like pain, gnawing and stabbing pain to the right mid cheek; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material			2
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has been a previous Brain MRI completed.; The brain MRI was normal.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2016; There has not been any treatment or conservative therapy.; dizziness, numbness, tingling, loss of vision; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; since a teen.; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	19
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	2
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is not a new and sudden onset of a headache less than 1 week not improved by medications.; There is not a family history (parent, sibling, or child) of stroke, aneurysm, or AVM (arteriovenous malformation)	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	2
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; The patient has not undergone treatment for multiple sclerosis.; There are not intermittent or new neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	2
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, one sided arm or leg weakness, the inability to speak, or vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; It is unknown why this study is being ordered.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	3
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for Multiple Sclerosis.; It is unknown why this study is being ordered.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/23/2018; There has not been any treatment or conservative therapy.; WORST HA OF LIFE/FACIAL WEAKNESS/FACIAL NUMBNESS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		1. Migraine  Additional information: Tolerating Desipramine 50mg/d. No neg side effects. Rizatriptan effective PRN. Having daily HA's. 2-3 migraines per month that is not responsive to medication. MRI scheduled for 5/3. Seen OD and notes in chart. Pa; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		1. trigeminal neuralgia  Left V2-3. Feels numb, painful, tender. Carb helped, worked up to 200mg bid, makes sleepy. Also on Gabapentin 100mg tid for needle sensation after skin rash, much better. In hands and feet. related to sulfa med. Higher doses ; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		59 year old female with history of breast cancer in 2015 now c/o headache, episodes of double and blurred vision and progressive memory changes.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has vision changes.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Altered taste, sense of smell altered, family history of dementia complains of an alteration of smell, in which certain items smell and taste bad, whereas other smells are fine. She states this has gotten worse over the past year. She sometimes has t; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The headache is not described as a "thunderclap" or the worst headache of the patient's life.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; It is not known if there are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is a new and sudden onset of headache (less than 1 week) not improved by pain medications.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Enter answer hereMIRGARINES, ABNORMAL MRI BRAIN WO - or Type In Unknown If No Info Given.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Family history of cerebral aneurysm. Her father passed away from this.; This study is being ordered for a neurological disorder.; 08/14/2014; There has not been any treatment or conservative therapy.; blurred and double vision, tremors, headaches, malaise, dizziness, numbness and tingling, memory loss, shortness of breath, joint pain and neck pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Gary W Stafford is a 44 year old male who is here for evaluation of spells. Etiology of spells unclear but d/d include complex partial seizures given h/o reported abnormal EEG vs less likely orthostatic hypotension vs psychogenic non epileptic spells; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		ha; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		He started having seizures from the beginning of 2017. So far he had total of 4-5 seizures. His last seizure was around Thanksgiving of 2017.He started Keppra 500 mg twice a day at that time. Since then he did not have any more seizures. He has no memory; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; It is not known if there has been a previous Brain MRI completed.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		In summary, Shanisa Lowery Finks is a 29 y.o. year old female who presents to the neurology clinic at the request of Dr. Navarro for evaluation of numbness and tingling on the right side of the body. Neurological examination as documented above and signif; This study is being ordered for Inflammatory/ Infectious Disease.; Ms.Lowery Finks is a 29 year old female who presents to the neurology clinic at the request of Dr. Navarro for evaluation of numbness and tingling on the right side of the body. She tells me that in November 2017 she had a fairly acute onset of numbness i; There has been treatment or conservative therapy.; Initially there was both a numbness, tingling, and painful sensation on the right side, but over the past several weeks the pain has resolved and she has been left with a nagging numb sensation. She denies any weakness. She denies any bowel or bladder pro; Medications lisdexamfetamine (VYVANSE) 70 mg capsule ibuprofen (MOTRIN) 800 mg tablet norethindrone-e.estradiol-iron (TAYTULLA) 1 mg-20 mcg (24)/75 mg (4) Capsule ARIPiprazole (ABILIFY) 15 mg tablet cyclobenzaprine (FLEXERIL) 10 mg tablet; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Migraine without status migrainosus, not intractable. The headaches best reflect a possible transformed migraine or medication rebound headache.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		migraines; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Mr. Shannon Watson is a 33 y.o. male with Essential Tremor vs Etoh induced tremors. I can't quite rule out the last one, due to chronic Etoh use. Furthermore, there are some signs of cerebellar dysfunction (appendicular ataxia). He needs to talk to a sle; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient is experiencing fatigue or malaise.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		MRI of the cervical spine to address the neck pain as well as assess for any MS lesions. MRI of the brain as MS check up for new white matter lesions; This study is being ordered for a neurological disorder.; April, 2017; There has been treatment or conservative therapy.; Patient experiencing neck pain with upper extremity numbness. No improvement from physical therapy; MRI brain - abnormal - 2017;  spinal analysis 2017; currently taking Copaxone. Physical therapy for the neck pain without improvement; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		MRI of the cervical spine to investigate for any cord disease or impingement. MRI of the brain to investigate for evidence of ventriculomegaly; This study is being ordered for a neurological disorder.; 05/01/2017; There has been treatment or conservative therapy.; swelling of lower extremities, gait difficulties; trace movement left lower extremity & right lower extremity; reduced DTRs, Diminished vibration; Gabapentin; Baclofen; Valium; Hydrocodone; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Ms. Andrea K Bixler is a 35 y.o. female with atypical spells during which she has a blank stare, her whole body will feel cold ... She can hear people talk to her, but she "don't want to talk outloud at that moment" even though she can talk, "can hear, a; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; It is unknown why this study is being ordered.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Ms. Patricia A Spencer is a 59 y.o. female. Tremor has been present for year(s), and is now getting worse. It is a tremor present at rest, during activity and during sleep, and affects the bilateral side. Other associated symptoms include poor handwriting; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient is experiencing fatigue or malaise.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patient is a 63-year-old woman with dizziness and imbalance who is here for follow-up. Since last seen she has had laminectomy and bladder surgery. She states her dizziness has gotten worse. She states when she turns her head a certain way or looks down; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient is experiencing dizziness.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patient presents with intermittent nystagmus,  vertigo, intermittent tongue numbness and an episode right sided facial twitching, difficulty talking, eye blinking. We need to evaluate for intracranial process and epileptiform activities. If No Info Given.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient is experiencing vertigo	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patient reports that he has been having short term problems for at least one year. He frequently forgets appointments. He some times forget names of distant relatives. Forget dates/times. Never lost way back home. Wife always pays bills.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Pt has abnormal eye movement doing pe.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has been a previous Brain MRI completed.; The brain MRI was normal.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Pt received a MRI within the past few weeks from another physician that was w/o contrast only. To properly rule of MS we need to get a MRI w/ and w/o contrast to see if that is what is causing this pts. numbness; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; The patient has not undergone treatment for multiple sclerosis.; There are not intermittent or new neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>pt stated he is having memory issues and at times forget where he is going and conversations he has had with people. pt stated he has a history of dementia in family</p> <p>5/10/2018</p> <p>42-year-old white male with history of hypertension, hyperlipidemia comes her; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The results of the lab tests are unknown.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.</p>	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>PT'S NEUROLOGIST IS LEAVING AND SHE IS ESTABLISHING CARE WITH A NEW ONE.</p> <p>started having seizures around 5 years ago. Has generalized tonic-clonic seizures. falls down, generalized shaking for 2-3 minutes, not associated with tongue and cheek bites, fol; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; It is not known if there has been a previous Brain MRI completed.</p>	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>repeat mri .; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; The patient has not undergone treatment for multiple sclerosis.; It is not known if there are intermittent or new neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.</p>	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>See attached clinicals; This study is being ordered for Vascular Disease.; See attached clinicals.</p> <p>Numbness and tingling of the face for about 3 months. Started suddenly right before a business meeting. States mostly on the left side but does occasionally happen on the right. Does feel on ear and lips.; There has been treatment or conservative therapy.; Numbness and tingling of the face for about 3 months. Started suddenly right before a business meeting. States mostly on the left side but does occasionally happen on the right. Does feel on ear and lips.; Inderal 20mg prn; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>She started having a twitching in her right eye. She then had numbness in the corner of her eye. It has then progressed to right facial numbness though it seems to come and go. She was treated with a steroid as well as a Z-Pak. She never had any droop; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.</p>	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	SYNCOPE, Sometimes dyspnea. Sometimes chest pain.  There has never been any witnessed convulsive activity. To rule out a variety of neurological diseases/conditions we will go ahead and get an MRI of his brain as well as an MRA (rule out vertebrobasil; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are not recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	syncope.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	The pt has a hx of TIA 11 years ago and now states he is having the same s/s of past TIA. Mri and CTA is needed to assess TIA; This study is being ordered for a neurological disorder.; 53-year-old white male with history of polycythemia vera comes here for evaluation and treatment of. His neurological symptoms. He is unaccompanied. 11 years ago he had a TIA. His left arm went numb and he had difficulty speaking. At that time he was dia; There has been treatment or conservative therapy.; left arm goes numb, curls up. Sometimes the numbness is also in the right upper extremity.He has numbness in the fingers. Also complains of difficulty with balance. Cognitive decline. history of polycythemia vera; He is taking aspirin 81 mg per day. He is taking hydroxyurea every day; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	these are needed to determine disease burden prior to switching medications as well as yearly follow up imaging.; This study is being ordered for a neurological disorder.; pt diagnosed with MS in 1991. we need new imaging to start new medication.; There has been treatment or conservative therapy.; patient has multiple sclerosis. she has known lesions on the brain and cervical spine.; patient has been on disease modifying medication medication, has had yearly MRI's to determine disease burden.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing vertigo	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Requested for evaluation of seizures; There has not been a previous Brain MRI completed.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	30
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	28
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient had a thunderclap headache or worst headache of the patient's life (within the last 3 months).	10
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	2
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing dizziness.	15
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing fatigue or malaise.	5
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient is experiencing dizziness.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The patient has not undergone treatment for a congenital abnormality (such as hydrocephalus or craniosynostosis).; There are recent neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.; The patient has a congenital abnormality.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; The patient has not undergone treatment for multiple sclerosis.; There are intermittent or new neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.	19

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; The patient has undergone treatment for multiple sclerosis.	90
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	12
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).; This study is being ordered as a 12 month annual follow up.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has a congenital abnormality.; The patient has undergone treatment for a congenital abnormality (such as hydrocephalus or craniosynostosis).; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; It is unknown why this study is being ordered.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for Multiple Sclerosis.; The patient has new symptoms.	5
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has the inability to speak.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for a tumor.	5
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for and infection or inflammation.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for Multiple Sclerosis.; The patient is taking Tysabri (Natalizumab).	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for Parkinson's disease.; This study is being ordered for a new diagnosis of Parkinson's.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for Parkinson's disease.; This study is being ordered for a new patient to this office.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	UNKNOWN; < Enter answer here - or Type In Unknown If No Info Given. >; ; This study is being ordered for a neurological disorder.; This study is being ordered for a neurological disorder.; This study is being ordered for a neurological disorder.; UNKNOWN; < Enter date of initial onset here - or Type In Unknown If No Info Given >; ; There has been treatment or conservative therapy.; There has been treatment or conservative therapy.; There has been treatment or conservative therapy.; PATIENT HAS MS; The patient has MS; patient has MS; medications; medications; MEDICATIONS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	unknown; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	unknown; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	unknown; This request is for a Brain MRI; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient is experiencing vertigo; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Unknown; This study is being ordered for a neurological disorder.; 03/01/2018; It is not known if there has been any treatment or conservative therapy.; dizziness, confusion, fatigue, slurred speech, right sided weakness, balance is off and a right foot drop has been noticed.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/09/2018; There has been treatment or conservative therapy.; RADIATING NECK PAIN COUPLED WITH NUMBNESS IN THE HANDS. RADIATES TO ARMS AND SHOULDERS. PRESENTS WITH VICE-LIKE HEADACHES AT THE BASE OF SKULL WHICH ARE OCCURRING ON A NEAR-DAILY BASIS. NOTES SEVERE NECK PAIN AT TIMES WITH DISTINCT RADIATING COMPONENT. OC; Medication therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		vision lose , weakness in body movement; This study is being ordered for a neurological disorder.; 09/2017; There has not been any treatment or conservative therapy.; vision lose , weakness of body movement; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		we want to r/o any major pathology; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is a new and sudden onset of a headache less than 1 week not improved by medications.; The headache is not described as a "thunderclap" or the worst headache of the patient's life.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		weakness, fasciculations; This study is being ordered for Vascular Disease.; 12/17/2017; There has been treatment or conservative therapy.; body numbness; pt exercise; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		will just upload notes; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; The patient has not undergone treatment for multiple sclerosis.; There are not intermittent or new neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.	1
Neurology	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Neurology	Approval	72125 Computed tomography, cervical spine; without contrast material		patient reports that "crushing headache" has been getting progressively worse over the last 2 years.; There are no documented clinical findings of immune system suppression.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; None of the options listed is the reason for the study.; There is a reason why the patient cannot have a Cervical Spine MRI.; The patient is not experiencing cervical neck pain not improving despite treatment.	1
Neurology	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	2

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; This is the pt's 1st visit to this dr & was referred to them by a different dr.; It is not known if there has been any treatment or conservative therapy.; The pt has tremor, numbness in her arms & hands, headaches, abnormal deep tendon reflexes.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; since a teen.; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	18
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if there is x-ray evidence of a recent cervical spine fracture.	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This study is being ordered for a neurological disorder.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This study is being ordered for a neurological disorder.; HEADACHE; There has been treatment or conservative therapy.; HEADACHE; CONTINUE PROTONIX AS ORDERED; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This study is being ordered for a neurological disorder.; October 2017; There has been treatment or conservative therapy.; He had an acute onset of right upper back and shoulder pain that was accompanied by discomfort affecting the right side of his trunk and leg. Acutely, he also had bladder retention for roughly two weeks; Lumbar puncture, He was subsequently treated with IV steroids and had a short course of physical therapy following his hospitalization; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		57-year-old lady with diagnosis of multiple sclerosis and stroke. We need to do a complete workup. She needs MRI of the brain with and without contrast, MRI of the cervical spine with and without contrast and MRA of the head and neck.; This study is being ordered for a neurological disorder.; Patient was diagnosed in 1990 with Multiple Sclerosis.; There has been treatment or conservative therapy.; patient has multiple sclerosis and previous stroke. L sided weakness.; patient has been on a disease modifying medication in the past.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	chronic radiculopathies balance impairment tremors of his hands. Complains of tingling in his legs. States has to curl his toes to keep his balance. Progressive imbalance weakness persists, with residual myelomalacia; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Progressive imbalance, not corrected by lumbar and cervical spine surgery, but strength improved, though weakness persists, with residual myelomalacia Periodic limb movements with some tremors of his hands. Complains of tingling in his legs. chronic rad; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Daniel E Dabrney is a 53 year old male with PMH of HTN, HLP, CAD, head injury in 05/2017, closed fracture of right tripod and nasal bone who is here for follow up on right sided numbness/weakness. Last seen in clinic in 02/2018. Since last visit, continue; This is a request for cervical spine MRI; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	DOUBLE STUDY MEANS AUTOMATIC REVIEW, WILL JUST UPLOAD NOTES; This study is being ordered for a neurological disorder.; DOUBLE STUDY MEANS AUTOMATIC REVIEW, WILL JUST UPLOAD NOTES; There has been treatment or conservative therapy.; DOUBLE STUDY MEANS AUTOMATIC REVIEW, WILL JUST UPLOAD NOTES; DOUBLE STUDY MEANS AUTOMATIC REVIEW, WILL JUST UPLOAD NOTES; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	In summary, John E Funke is a 58 y.o. year old male who presents to the Neurology clinic at the request of Dr.Bumpas for evaluation of balance problems, falls, and tremors. Neurological examination as documented above and significant for diffuse weakness.; This study is being ordered for a neurological disorder.; He reports onset of symptoms was approximately one year ago when he noticed he was unable to walk long distances or hike like he typically does. He also noted a fairly sudden onset of weakness mostly involving his right side. He feels over the course of t; There has been treatment or conservative therapy.; Weakness Hyperreflexia Spastic gait Fasciculations; He uses his cane when he is walking in public or long distances, but is not using any assistive devices at home. He does report chronic neck pain and tells me he is having "issues" with his neck telling me that a "vertebrae misalignments" at times. He was; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>In summary, Shanisa Lowery Finks is a 29 y.o. year old female who presents to the neurology clinic at the request of Dr. Navarro for evaluation of numbness and tingling on the right side of the body. Neurological examination as documented above and signif; This study is being ordered for Inflammatory/ Infectious Disease.; Ms.Lowery Finks is a 29 year old female who presents to the neurology clinic at the request of Dr. Navarro for evaluation of numbness and tingling on the right side of the body. She tells me that in November 2017 she had a fairly acute onset of numbness i; There has been treatment or conservative therapy.; Initially there was both a numbness, tingling, and painful sensation on the right side, but over the past several weeks the pain has resolved and she has been left with a nagging numb sensation. She denies any weakness. She denies any bowel or bladder pro; Medications&#x0D;</p> <p>lisdexamfetamine (VYVANSE) 70 mg capsule&#x0D;</p> <p>ibuprofen (MOTRIN) 800 mg tablet&#x0D;</p> <p>norethindrone-e.estradiol-iron (TAYTULLA) 1 mg-20 mcg (24)/75 mg (4) Capsule&#x0D;</p> <p>ARIPiprazole (ABILIFY) 15 mg tablet&#x0D;</p> <p>cyclobenzaprine (FLEXERIL) 10 mg tablet&#x0D;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>looking for further lesions.; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Bilateral LE weaknes; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.</p>	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>lower limb spasms,; This study is being ordered for a neurological disorder.; 1/15/2018; There has been treatment or conservative therapy.; pain, cramping, restlessness in legs, burring of bottom of feet; home exercise, medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>MRI of brain & cervical spine requested to check on demyelinating plaque volume; This study is being ordered for a neurological disorder.; 2012, patient diagnosed with Multiple Sclerosis; There has been treatment or conservative therapy.; imbalance and numbness left side with left ocular pain; Rebif&#x0D;</p> <p>Tecfidera; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>MRI of brain and cervical spine to evaluate for any new lesions and cause of numbness; This study is being ordered for a neurological disorder.; April, 2017; There has been treatment or conservative therapy.; Numbness LUE; Patient treated with Tecfidera.&#x0D;</p> <p>MRI and EMG/NCV testing 2017; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	MRI of the cervical spine to address the neck pain as well as assess for any MS lesions. MRI of the brain as MS check up for new white matter lesions; This study is being ordered for a neurological disorder.; April, 2017; There has been treatment or conservative therapy.; Patient experiencing neck pain with upper extremity numbness. No improvement from physical therapy; MRI brain - abnormal - 2017;  spinal analysis 2017; currently taking Copaxone. Physical therapy for the neck pain without improvement; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Ms. Brown returns to the clinic today for follow up on pain and weakness. Over the last few weeks she has been having worsening cramps and spasms in her interscapular region, her bilateral wrists, and at the posterior aspect of her neck. With this she has; This study is being ordered for a neurological disorder.; 01/17/2017; There has been treatment or conservative therapy.; Ms. Brown returns to the clinic today for follow up on pain and weakness. Over the last few weeks she has been having worsening cramps and spasms in her interscapular region, her bilateral wrists, and at the posterior aspect of her neck. With this she has; s. Brown returns to the clinic today for follow up on pain and weakness. Over the last few weeks she has been having worsening cramps and spasms in her interscapular region, her bilateral wrists, and at the posterior aspect of her neck. With this she has ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	MS; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/2009; There has been treatment or conservative therapy.; Unknown; medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	none; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 7/1/17; There has been treatment or conservative therapy.; Patient complains of numbness in hands and lower back; Steroid injections, PT, and back brace; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	pt had an abnormal neurological exam and dr khaleel is wanting to rule out multiple sclerosis; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Relapsing remitting MS; This study is being ordered for a neurological disorder.; 10/17/2017; There has been treatment or conservative therapy.; Patient had a recent MS flare up consisting of increased numbness and tingling in both of her feet, much worse on the left. She had a new complaint of headache which began 5 days ago. She said the pain is a throbbing pulsating pain behind her temples a; on Aubagio; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	SEE ATTACHED; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	2
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical Therapy.; It is not known if the patient had six weeks of Chiropractic care related to this episode.; Headaches.G95.9 Myelopathy, Some elements suggestive of migraines.  She has been doing a lot of musculoskeletal work on her own with the guidance of her own research, meeting with chiropractors, massage therapists and physical therapists. She did meet	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient is presenting new symptoms.; This study is being ordered for follow-up.; This is a request for cervical spine MRI; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; Known Tumor with or without metastasis	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	these are needed to determine disease burden prior to switching medications as well as yearly follow up imaging.; This study is being ordered for a neurological disorder.; pt diagnosed with MS in 1991. we need new imaging to start new medication.; There has been treatment or conservative therapy.; patient has multiple sclerosis. she has known lesions on the brain and cervical spine.; patient has been on disease modifying medication medication, has had yearly MRI's to determine disease burden.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	46

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Follow-up to Surgery or Fracture within the last 6 months; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Known or Suspected Multiple Sclerosis, Infection or abscess; Denies any exacerbations. Continues tecfidera 240 mg bid, no side effects. CBC with normal WBC but does have anemia that has worsened over the past year. Has not seen PCP and is not established. She does get dizzy and light headed around her menses. M; No, the patient does not have new or changing neurological signs or symptoms.; yes, there are documented clinical findings of Multiple sclerosis.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Known or Suspected Multiple Sclerosis, Infection or abscess; Need MRI brain to asses disease burden on patient; Yes, the patient have new or changing neurological signs or symptoms.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing or presenting new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.; yes, there are documented clinical findings of Multiple sclerosis.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; Mr. Christopher Cruickshank is a 49 y.o. male who had an operation on the head/brain due to head trauma (beaten after assault, left for dead) - he is not sure of the year (maybe, Bill Clinton was probably president) ... "my head bled for 8 months before ; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; NUMBNESS/DAD HAS MS; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; Patient with neuropathy and recent onset numbness, has hyperreflexia not consistent with problems; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; Spinal MRI will be ordered to rule out myelopathy, given her hyperreflexia, Positive tingling in her lower limbs, She has pain in both legs and her feet, the right side,ngs:HEADACHE, SPINAL PAIN, HYPER-REFLEXIA, DYSESTHESIA,A pleasant and appreciative ; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	55
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; None of the above; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; Yes, the patient is experiencing or presenting new symptoms of Bowel or bladder dysfunction.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; None of the above; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Pre-Operative Evaluation; No, the last Cervical spine MRI was not performed within the past two weeks.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	7
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; <Enter Additional Clinical Information>	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Trauma or recent injury; 1. *neck pain  The patient returns. I had seen her last year when she was found to have a cervical disc protrusion. She was referred to Dr. Knox and has had physical therapy on her neck since then and also injections by pain management. She says her; No, the patient does not have new or changing neurological signs or symptoms.	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	unknown  see attached; This study is being ordered for a neurological disorder.; 04/18/2018; It is not known if there has been any treatment or conservative therapy.; tremors on both hands, tense muscles, coarse tremors of UE and LE to a point where she cannot ambulate much anymore.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	UNKNOWN; < Enter answer here - or Type In Unknown If No Info Given. >; ; This study is being ordered for a neurological disorder.; This study is being ordered for a neurological disorder.; This study is being ordered for a neurological disorder.; UNKNOWN; < Enter date of initial onset here - or Type In Unknown If No Info Given >; ; There has been treatment or conservative therapy.; There has been treatment or conservative therapy.; There has been treatment or conservative therapy.; PATIENT HAS MS; The patient has MS; patient has MS; medications; medications; MEDICATIONS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	unknown; This study is being ordered for a neurological disorder.; 12/07/2017; There has been treatment or conservative therapy.; facial pains, deep ear pain, nausea and vomiting, tachycardia, numbness of UE bilaterally, neck discomfort.; Physical therapy and speech therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/09/2018; There has been treatment or conservative therapy.; RADIATING NECK PAIN COUPLED WITH NUMBNESS IN THE HANDS. RADIATES TO ARMS AND SHOULDERS. PRESENTS WITH VICE-LIKE HEADACHES AT THE BASE OF SKULL WHICH ARE OCCURRING ON A NEAR-DAILY BASIS. NOTES SEVERE NECK PAIN AT TIMES WITH DISTINCT RADIATING COMPONENT. OC; Medication therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	UNKNOWN; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/25/2018; There has been treatment or conservative therapy.; SEVERE MIGRAINE HEADACHES. PRESENTS WITH SEVERE HEADACHES WITH THROBBING COMPONENT WHICH ARE BECOMING INCREASINGLY SEVERE AS OF LATE. SOMETIMES ASSOCIATED WITH IRRITABILITY TO BRIGHT LIGHTS AND LOUD NOISES. ASSOCIATED WITH CONFUSION AND NAUSEA WITH HEADAC; MEDICATION THERAPY WITHOUT IMPROVEMENT.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 08/2017; There has been treatment or conservative therapy.; Back pain, tingling in legs, pain in legs; Medications, HEP; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 2015; There has been treatment or conservative therapy.; mbr has pain in back and numbness going to left leg and arm and right leg and buttocks and weakness decrease in pin prick that goes up both side of the legs; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; since a teen.; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	15
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	; This study is being ordered for a neurological disorder.; October 2017; There has been treatment or conservative therapy.; He had an acute onset of right upper back and shoulder pain that was accompanied by discomfort affecting the right side of his trunk and leg. Acutely, he also had bladder retention for roughly two weeks; Lumbar puncture, He was subsequently treated with IV steroids and had a short course of physical therapy following his hospitalization; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		It is not known if there are documented findings of immune system suppression.; This is a request for a thoracic spine MRI.; It is not known if the patient is experiencing back pain associated with abdominal pain.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis, Follow up to or Pre-operative evaluation, or Neurological deficits.";	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for a thoracic spine MRI.; It is not known how many follow-up thoracic spine MRIs the patient has had.; It is not known if there has been a supervised trial of conservative management for at least six weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.; back pain; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; G93.89 White matter lesion of central nervous system, Some are juxtacortical and some are in the deep white matter.: Memory loss. Also with some trouble when she talks that has been going on for a few months, Blurred vision. Muscle twitching everywher; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of asymmetric reflexes.	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of bowel or bladder dysfunction.	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	2
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	1

Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; Patient with MS with new onset numbness and weakness bilateral legs; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; The patient is experiencing or presenting symptoms of abnormal gait.	10
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		UNKNOWN; < Enter answer here - or Type In Unknown If No Info Given. >; ; This study is being ordered for a neurological disorder.; This study is being ordered for a neurological disorder.; This study is being ordered for a neurological disorder.; UNKNOWN; < Enter date of initial onset here - or Type In Unknown If No Info Given >; ; There has been treatment or conservative therapy.; There has been treatment or conservative therapy.; There has been treatment or conservative therapy.; PATIENT HAS MS; The patient has MS; patient has MS; medications; medications; MEDICATIONS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/17/18; There has not been any treatment or conservative therapy.; Numbness from lower abdomen down, lower back pain radiating to right leg.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 2015; There has been treatment or conservative therapy.; mbr has pain in back and numbness going to left leg and arm and right leg and buttocks and weakness decrease in pin prick that goes up both side of the legs; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	6
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; back pain; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for a neurological disorder.; 01/15/2018; There has been treatment or conservative therapy.; with upper and lower extremity weakness spasticity and hyperreflexia and was found to have cervical stenosis with some myelomalacia. The left with residual spasticity as well as weakness predominantly in his lower extremities.; He's taking the baclofen 10 mg at night as well as the gabapentin just 100 mg at night; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for a neurological disorder.; 6/7/2018; There has not been any treatment or conservative therapy.; Numbness and tingling sensation of skin; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for a neurological disorder.; October 2017; There has been treatment or conservative therapy.; He had an acute onset of right upper back and shoulder pain that was accompanied by discomfort affecting the right side of his trunk and leg. Acutely, he also had bladder retention for roughly two weeks; Lumbar puncture, He was subsequently treated with IV steroids and had a short course of physical therapy following his hospitalization; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		45-year-old gentleman with lumbar radiculopathy as well as what sounds to be meralgia paresthetica. MRI of the lumbar spine without contrast. Hold off on any physical therapy since he has had some increase in pain. Start gabapentin 3 mg daily at bedtime; The study requested is a Lumbar Spine MRI.; Neurological deficits; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; NSAIDs Acetaminophen	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		patient has low back pain with burning pain in his back. pain in his feet that radiates to his knees, he has had Physical therapy in the past that did help; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		provided needs to rule out stenosis or radiculopathy; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.;	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		right upper extremity weakness, pain in spine and shoulder; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		see attached; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for Neurologic deficits	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Neurologic deficits	11
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal nerve study involving the lumbar spine	4
Neurology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		; This study is being ordered for a neurological disorder.; 04/05/2018; There has been treatment or conservative therapy.; pain increases in the shoulders when he raises his arms above his head; soma, mobic; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Neurology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; There is documented findings of severe pain on motion.	4

Neurology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; It is not known if the ordering physician is an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.	1
Neurology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Swelling greater than 3 days	1
Neurology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.; The patient is taking antibiotics.	1
Neurology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is organ enlargement.; There is ultrasound or plain film evidence of an abdominal organ enlargement.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Neurology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Neurology	Approval	78608 Brain imaging, positron emission tomography (PET); metabolic evaluation	This is a request for a Metabolic Brain PET scan; This study is being ordered for refractory seizures.; This study is being ordered for pre-surgical evaluation.	2
Neurology	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; The abnormal symptom, condition or evaluation is not known or unlisted above.	1
Neurology	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Valves.; This is an initial evaluation of suspected valve disease.	1

Neurology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Headaches have been present for years and getting worse. Frequency is daily. Pain is pounding, sharp, constant, occurs any time of day associated with sonophobia, photophobia, decreased social functioning, neck stiffness, irritability, photosensitive. Foc; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
Neurology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	<p>Patient with new and worsening headaches with lupus concerning for possible vasculitis.&#x0D;&#x0D;</p> <p>Set up for CT head without contrast and CTA head with contrast.; This study is being ordered for a neurological disorder.; about 2 years ago &#x0D;&#x0D;</p> <p>Ms. Harris is a 26 year old woman who comes to the clinic today for evaluation of headaches. She has been having headaches for several years but over time this has started to become worse. Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	none; This study is being ordered for a neurological disorder.; 00/0000; There has been treatment or conservative therapy.; weakness, numbness, neuritis, degenerative disease of nervous system.; 1. medication, 2. injections, 3. physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient having symptoms of Multiple sclerosis with headaches that have gradually worsened over the past year associated with photo and phonophobia, grip strength weakness; balance issues, tripping over things, memory issues; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	She is here with her daughter and sister for the first visit. She states the dizziness has been going on for 15 years but it gets worse lately. She has been seeing flashing light on both eyes, also going on many years. Dizziness feels like lightheadedness; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Symptoms began about a month ago - blurred vision and pain in right eye; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient does not have a sudden severe, chronic or recurring or a thunderclap headache.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	2
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing vertigo	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	1

Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for seizures.; There has NOT been a change in seizure pattern or a new seizure.; This is a new patient.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Unknown.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	We will go ahead and repeat angiotensin-converting enzyme as well as her MRI brain and C-spine to make sure that there is nothing else she may need to have an LP if we cannot clearly delineate what's going on.; This study is being ordered for a neurological disorder.; 09/18/2017; There has been treatment or conservative therapy.; difficulty with dysarthria as well as leg weakness. She does have underlying peripheral neuropathy; a trial of Mestinon; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	worsening headaches; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Neurology	Disapproval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for a chest MRI.	1
Neurology	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
Neurology	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is not experiencing symptoms of radiculopathy for six weeks or more.; There is no neurologic symptoms of bowel or urinary bladder dysfunction.; There is no suspicion of lumbar spine infection.; There is no suspicion of lumbar spine neoplasm or tumor or metastasis.; Yes this is a request for a Diagnostic CT	1
Neurology	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1

Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	6
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.;	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 09/2017 - Headache, neck pain, low back pain numbness; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	gait disturbance; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	headaches, pain, pain in neck,  1. *ha  The patient returns for her headaches. She says that a number of months ago she discontinued her Topamax on around and now says that she has recurrent migraines. She went to see a chiropractor who did some plai; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; TORADOL INJECTION 60 MG	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	migraines, bilateral temporal pain, neck pain, intense pressure.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Pain in neck/occipital area: likely cervical/occipital neuralgia.  He tried thoracic spine injections in the past and not interested in injections to neck.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; unknown; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1

Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; None of the above; ; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There is no laboratory or x-ray evidence of osteomyelitis.; Known or Suspected Multiple Sclerosis, Infection or abscess; ; It is not known if there are documented clinical findings of Multiple sclerosis.; No, there is not a laboratory or x-ray evidence of Meningitis.; No, there is not a laboratory or x-ray evidence of an infected disc, septic arthritis or "discitis".; No, there is no laboratory or x-ray evidence of a paraspinal abscess.	2
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	UNKNOWN; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/21/2017- FIRST VISIT FOR SAME ISSUES; There has been treatment or conservative therapy.; THROBING HEADACHES. RADIATING NECK PAIN INTO BILATERAL SHOULDERS. HEADACHES ARE DESCRIBED TO HAVE SPORADIC VISUAL AURA IN THE PERIPHERAL FIELDS OF VISION PRIOR TO INCEPTION. IRRITABILITY TO BRIGHT LIGHTS AND LOUD NOISES ASSOCIATED WITH HEADACHES, AS WELL; PATIENT HAS BEEN ON MEDICATION THERAPY WITHOUT IMPROVEMENT. DR DOES NOT FEEL PHYSICAL THERAPY WOULD BE SAFE FOR PATIENT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	We will go ahead and repeat angiotensin-converting enzyme as well as her MRI brain and C-spine to make sure that there is nothing else she may need to have an LP if we cannot clearly delineate what's going on.; This study is being ordered for a neurological disorder.; 09/18/2017; There has been treatment or conservative therapy.; difficulty with dysarthria as well as leg weakness. She does have underlying peripheral neuropathy; a trial of Mestinon; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	6
Neurology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	gait disturbance; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Neurology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; ; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Neurology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; pain that radiates in to extremities; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Neurology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; The patient is experiencing or presenting symptoms of abnormal gait.	1
Neurology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	UNKNOWN; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/03/2018; There has been treatment or conservative therapy.; PATIENT PRESENTS WITH WORSENING GAIT DYSFUNCTION, INCREASING LEVEL OF CERVICAL AND THORACIC SPINE PAIN AND WORSENING OF INCONTINENCE OF URINE. WORSENING, RADIATING PAIN WITH SPASMS NOTATED.; HAS UNDERGONE INJECTIONS AND MEDICATION TREATMENT WHICH HAVE FAILED.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; back pain; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for None of the above	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Ms. Yasmin Tahira is a 58 y.o. female with clinical meralgia paresthetica, but perhaps DJD L spine as well. We need MRI L spine but she should do some PT exercises as well.with 2-3 month history of numbness in the L lateral thigh. Just numbness, no tingl; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	On exam, he has decreased sensation to light touch/pin prick on entire right side but strength is normal through out although patient reports subjective weakness.; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Neurologic deficits	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	2
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has completed Treatment with a facet joint or epidural injection in the past 6 weeks	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	This is the first time we have seen the patient in office she has had NCV/EMG that are abnormal with signs of radiculopathy and we are wanting to get a MRI so that we can get a clearer picture.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1
Neurology	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	will just upload notes; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Neurology	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	none; This study is being ordered for a neurological disorder.; 00/0000; There has been treatment or conservative therapy.; weakness, numbness, neuritis, degenerative disease of nervous system.; 1. medication, 2. injections, 3. physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

Neurology	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	<p>Assessment/ Plan&#x0D;</p> <p>53 year old man with left forearm pain and mild weakness of wrist/finger extension. EMG findings are consistent with a posterior interosseous nerve injury but are mild. Region of pain is at or near the arcade of Frohse.&#x0D;</p> <p>&#x0D;</p> <p>Plan:&#x0D;</p> <p>For: (G; This study is being ordered for trauma or injury.; 2/2017; There has been treatment or conservative therapy.; extremity weakness on exam left arm pain &#x0D;</p> <p>53 year old man with left forearm pain and mild weakness of wrist/finger extension. EMG findings are consistent with a posterior interosseous nerve injury but are mild. Region of pain is at or near the arcade of ; Mr. Henry is a 53 year old man who comes to the clinic today for evaluation of left arm pain. In February of 2017 he was involved in an MVA with an 18-wheeler where the driver's side back tire was struck causing his vehicle to spin and then flip before la; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	right upper extremity weakness, pain in spine and shoulder; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	<p>Counseled on narcotics, take only when absolutely necessary and for severe pain. Always read for side effects even on medications you have take before. &#x0D;</p> <p>Bed rest is NOT necessary. As you have seen movement helps and laying in bed has only made the pai; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.</p>	1
Neurology	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1
Neurology	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	<p>Ms. Janet D Fitch is a 56 y.o. female, seen by Dr Kannout who ws "mortified", with pain and weakness that prevent her from lifting her feet (worse in the proximal LEs). The same problems have now affected the UEs. She can barely lift her hands ... She is; This study is being ordered for a neurological disorder.; Ms. Janet D Fitch is a 56 y.o. female, seen by Dr Kannout who ws "mortified", with pain and weakness that prevent her from lifting her feet (worse in the proximal LEs). The same problems have now affected the UEs. She can barely lift her hands ... She is; There has been treatment or conservative therapy.; She can barely lift her feet. It is painful when she moves or when she lays on one side for to long. Back pain, joint pain, myalgias, and neck pain. Weakness in extremities that is getting worse; Injections and meds. Chiropractor and accupuncture specialist, who recommended that she see a neurologist because she has become too weak to walk; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	2

Neurology	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient has a documented limitation of their range of motion.	1
Neurology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; patient has Tuberous Sclerosis and this imaging is to check patient's kidney's.	1
Neurology	Disapproval	78608 Brain imaging, positron emission tomography (PET); metabolic evaluation	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Metabolic Brain PET scan; This study is not being ordered for refractory seizures, dementia, Alzheimer's disease or Tumor/Cancer.	2
Neurology	Disapproval	78608 Brain imaging, positron emission tomography (PET); metabolic evaluation	Radiology Services Denied Not Medically Necessary	confusion and memory difficulties. Brain MRI was normal done on 03/17/18. Tends to be confused by the end of the day.; This is a request for a Metabolic Brain PET scan; This study is not being ordered for refractory seizures, dementia, Alzheimer's disease or Tumor/Cancer.	1
Neurology	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; There has NOT been a change in clinical status since the last echocardiogram.; This is not for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.	1
OB/Gynecology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a new onset of a headache within the past month; Headache best describes the reason that I have requested this test.	1
OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1

OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	absence of menstrual period.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Endometrial Biopsy performed on 03/07 shows malignant neoplasm, compatible with metastatic malignant melanoma. The biopsy shows abundant tumor cells with plasmacytoid morphology. Necrosis and brisk mitotic activity are seen.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Patient has elevated prolactin levels. Patient has a diagnosis of Hyperprolactinemia.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	R/O brain or ovarian tumor; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; August 2017; There has been treatment or conservative therapy.; LLQ pain, dizziness, nausea, vomiting, early onset puberty, headache; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing dizziness.	1
OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	2
OB/Gynecology	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1

OB/Gynecology	Approval	71250 Computed tomography, thorax; without contrast material	TVUS 61118 reveals uterus 10 x 5 x 6 cm. nml sized ovaries.; This study is being ordered for Congenital Anomaly.; ; There has been treatment or conservative therapy.; ABNORMAL UTERINE, EXCESSIVE AND FREQUENT MENSTRUATION , PELVIC AND PERINEAL PAIN AND ABDOMINAL PAIN; 27 y/o with suspected endometriosis, dysmenorrhea. menorrhagia, failed conservative treatment. TVUS 61118 reveals uterus 10 x 5 x 6 cm. nml sized ovaries. She has a prior BTL.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/16/2018; There has been treatment or conservative therapy.; hormonal pregnancy level is starting to rise; injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Approval	72125 Computed tomography, cervical spine; without contrast material	Endometrial Biopsy performed on 03/07 shows malignant neoplasm, compatible with metastatic malignant melanoma. The biopsy shows abundant tumor cells with plasmacytoid morphology. Necrosis and brisk mitotic activity are seen.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
OB/Gynecology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; <Enter Additional Clinical Information>	1
OB/Gynecology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; There is evidence of tumor or metastasis on a bone scan or x-ray.; The study is being ordered due to suspected tumor with or without metastasis.	1
OB/Gynecology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has completed Treatment with a facet joint or epidural injection in the past 6 weeks	1
OB/Gynecology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; There is no laboratory or x-ray evidence of osteomyelitis.; Known or Suspected Infection or abscess; There is not laboratory or x-ray evidence of meningitis.; There is laboratory or x-ray evidence of a paraspinal abscess.; There is not laboratory or x-ray evidence of an infected disc, septic arthritis, or "discitis".	1
OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	3
OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material	; This study is being ordered due to known or suspected infection.; "The ordering physician is a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	2
OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material	27 yr old female pt w/ pelvic pain; negative ULTRA; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1

OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material		Pain and irregular Menses; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material		Patient had U/S on 6/14/18 that showed a complex cyst vs. solid lesion in left ovary measuring up to 2.3cm.; This study is being ordered because of a suspicious mass/ tumor.; "The patient has had a pelvic ultrasound, barium, CT, or MR study."; This is a request for a Pelvis CT.; There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material		Post C-section seroma of skin, possible disruption of fascia or dehiscence.; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		none; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		Patient had a pelvic u/s that showed a 12.5 x 9.1 x 10.2 cm uterus with large 7 cm mass c/w fibroid.; This is a request for a Pelvis MRI.; The study is being ordered for something other than suspicion of tumor, mass, neoplasm, metastatic disease, PID, abscess, Evaluation of the pelvis prior to surgery or laparoscopy, Suspicion of joint or bone infect	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		Patient had an ultrasound on 06/21/18 and the findings showed:  2.5 cm well-circumscribed cystic lesion that appears to be contiguous with the posterior vaginal wall however, definitive evaluation is limited secondary to the close proximity of the ultr; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		patient has uterine fibroids with recurrent miscarriages; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		Pre-surgical study; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has been treatment or conservative therapy.; Severe dysmenorrhea, anemia, pelvic pressure and pain, uterine fibroids, 20-22 week sizes; Medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for evaluation of the pelvis prior to surgery or laparoscopy.	3
OB/Gynecology	Approval	74150 Computed tomography, abdomen; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1

OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/2/2018; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	pt had a C section and she's having pain.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	R/O kidney stone, low back pain, just had bady; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the hematuria is not known.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	2
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1

OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	2
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed something other than Gall Stones, Kidney/Renal cyst, Aneurysm or a Pelvis Mass.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	5
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	2
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		unknown; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Vaginal Bleeding and cervix cancer Reports irregular vaginal bleeding, duration several weeks, severity-mild to moderate, quality-bright red, timing- intermittent, context-started gradually, modifying factors-increases with effort, associated with tiredn; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

OB/Gynecology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Pre-surgical study; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has been treatment or conservative therapy.; Severe dysmenorrhea, anemia, pelvic pressure and pain, uterine fibroids, 20-22 week sizes; Medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; TWO LIVER MASSES SEEN ON MRI IN 2016 WHICH SUGGESTED FOLLOW UP OF MRI WITH CONTRAST OR LIVER BIOPSY. PT NEVER FOLLOWED UP AND SHE IS NOW 21 WEEKS PREGNANT.	1
OB/Gynecology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/16/2018; There has been treatment or conservative therapy.; hormonal pregnancy level is starting to rise; injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; No, this patient does not have axillary node adenocarcinoma.; No, there are no anatomic factors (deformity or extreme density) that make a simple mammogram impossible.	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	CLINICAL INFO IS ATTACHED.; This is a request for Breast MRI.; This study is being ordered for known breast lesions.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; It is not known if this patient have axillary node adenocarcinoma.; It is unknown if there are benign lesions in the breast associated with an increased cancer risk.	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Extensive family history of breast cancer; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	PT HAS A FAMILY HISTORY OF BREAST AND OVARIAN CANCER. PT HAS A CALCULATED LIFETIME RISK OF 23.85%; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	PT HAS A FAMILY HISTORY OF BREAST CANCER IN HER MOTHER DIAGNOSED AT AGE 56 AND IS DECEASED PT ALSO HAS A CALCULATED LIFETIME RISK OF DEVELOPING BREAST CANCER OF 20.5%; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1

OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		She is post-breast surgeries including reduction and augmentation with silicone implants. She is having bloody nipple discharge. MRI is needed for further evaluation.; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There is a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	4
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; Yes, this is a confirmed breast cancer.; Yes, the results of this MRI (size and shape of tumor) affect the patient's further management.	5
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for a suspected implant rupture.; Yes, this study is being ordered to evaluate a suspected silicone implant rupture.	3
OB/Gynecology	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
OB/Gynecology	Approval	78813 Positron emission tomography (PET) imaging; whole body		Vaginal Bleeding and cervix cancer; Reports irregular vaginal bleeding, duration several weeks, severity-mild to moderate, quality-bright red, timing- intermittent, context-started gradually, modifying factors-increases with effort, associated with tiredn; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		CERVICAL CANCER; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		Endometrial Biopsy performed on 03/07 shows malignant neoplasm, compatible with metastatic malignant melanoma. The biopsy shows abundant tumor cells with plasmacytoid morphology. Necrosis and brisk mitotic activity are seen.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

OB/Gynecology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
OB/Gynecology	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	2
OB/Gynecology	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
OB/Gynecology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2016; There has been treatment or conservative therapy.; BACK & HIP PAIN, GROIN PAIN; NSAIDS, PT, ULTRASOUND; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	8 days post op C section; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
OB/Gynecology	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	ABDOMINAL PAIN ALONG WITH ABDOMINAL MASS; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is no suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; There are no new symptoms including hematuria.; There are no new lab results or other imaging studies including ultrasound, Doppler or plain films findings.; There is not a suspicion of an adrenal mass.; This is not a request to confirm a suspicious renal mass suggested by physical exam, lab studies, IVP or ultrasound.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has a hernia and left ovarian cyst that biopsied. Not malignant; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1

OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	SEE UPLOADED NOTE; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed a Kidney/Renal cyst(s); Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	STRESS/URINARY INCONTINENCE, INCREASED FREQUENCY; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	The patient is a 32 year old Caucasian/White female, G2 P0002, whose LMP is 03/27/2018, who presents with a history of pelvic pain.  The pt had a diagnostic laparoscopy with removal of her right ovary a few months ago and states that her pain has remaine; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	4
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	2
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1

OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	2
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Ultrasound 4/30/18, mass on her ovary; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has not had an abdominal ultrasound, CT, or MR study.";	1
OB/Gynecology	Disapproval	76380 Computed tomography, limited or localized follow-up study	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/2/2018; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	CLINICAL INFO IS ATTACHED.; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
Obstetrics & Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Pt is experiencing continuous LLQ pain. U/S shows R ovarian mass of mixed density, possible hemorrhagic cyst. Measuring 3.8 x 3.4x 2.5 cm; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Oncology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There are 2 exams are being ordered.; There are 2 exams are being ordered.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology; The ordering MDs specialty is Oncology; The ordering MDs specialty is Oncology	1
Oncology	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Restaging during ongoing treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Oncology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology	1
Oncology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		restaging; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	2
Oncology	Approval	74150 Computed tomography, abdomen; without contrast material		; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology	1
Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology	6
Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Ophthalmology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material		"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is not suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; "There is not a history of serious head or skull, trauma or injury.ostct"; "There is not suspicion of neoplasm, or metastasis.ostct"; This is not a preoperative or recent postoperative evaluation.; "There is not suspicion of acoustic neuroma, pituitary or other tumor. ostct"; Yes this is a request for a Diagnostic CT	4
Ophthalmology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material		"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is not suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; "There is not a history of serious head or skull, trauma or injury.ostct"; "There is suspicion of neoplasm, or metastasis.ostct"; Yes this is a request for a Diagnostic CT	2
Ophthalmology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material		"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; Yes this is a request for a Diagnostic CT	2

Ophthalmology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	visual symptoms. floaters. flashing lights; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/12/18; There has been treatment or conservative therapy.; intractable headaches; medication and an injection for headaches; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; November 2015; It is not known if there has been any treatment or conservative therapy.; On may 3rd 2018 in our office for appointment-pt stated that ever since his open heart surgery-heart valve replacement due to thoracic aortic aneurysm- on 11/19/2015 he has had episodes of auras and bright light after image. It lasts 5 to 10 minutes and s; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the Neck.	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	< Enter answer here - or Type In Unknown If No Info Given. >; There is not a suspicion of an infection or abscess.; This examination is NOT being requested to evaluate lymphadenopathy or mass.; There is not a suspicion of a bone infection (osteomyelitis).; There is NOT a suspicion of an orbit or face neoplasm, tumor, or metastasis.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	2
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 2-3 months ago; There has not been any treatment or conservative therapy.; numbness, tingling, sensitive to light, eye pain, issues driving at night, colors are not vivid, blank spot in vision, history of clotting; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has not been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/2018; There has not been any treatment or conservative therapy.; Headache, pain around right eye , blurred vision ,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 08/04/2017; There has not been any treatment or conservative therapy.; Vertical stigma, head bobbing,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10/23/2017; There has not been any treatment or conservative therapy.; blur vision headache; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/26/18; There has been treatment or conservative therapy.; migraine headaches, diplopia, eyes crossing; glasses; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		, Paralytic strabismus associated with left trochlear nerve palsy H4912 , surgery - left 10 myectomy 67314-50 . R head tilt due to diplopia.; It is unknown if there is a suspicion of an infection or abscess.; This examination is NOT being requested to evaluate lymphadenopathy or mass.; It is unknown if there is a suspicion of a bone infection (osteomyelitis); It is unknown if there is a suspicion of an orbit or face neoplasm, tumor, or metastasis.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		; This study is being ordered for a neurological disorder.; March 26, 2018-diagnosis of left cranial nerve six palsy on exam.; There has not been any treatment or conservative therapy.; patient only sees peripheral in left eye. Her left eye pulls and hurts, especially when she is trying to sleep. She has had four eye surgeries to straighten her vision as well as increase her vision clarity in the left eye. She has a history of left optic; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; vision loss on and off since 2010; It is not known if there has been any treatment or conservative therapy.; pt. states that she wakes up and her vision is gone. it comes and goes and lasts for up to 30 minutes. She had an MRI in 2011 and that was negative. need a repeat MRI. Blurred vision. She was seen in our office on April 16th 2018. She has Ehlers-Danlos Sy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		15 y.o. female who was referred for evaluation of papilledema, s/p shunt placement and revision.; There is not a suspicion of an infection or abscess.; This examination is NOT being requested to evaluate lymphadenopathy or mass.; There is not a suspicion of a bone infection (osteomyelitis); There is NOT a suspicion of an orbit or face neoplasm, tumor, or metastasis.; This is a request for a Face MRI.; There is not a history of orbit or face trauma or injury.	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		It is unknown if there is a suspicion of an infection or abscess.; This examination is being requested to evaluate lymphadenopathy or mass.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		patients sight is getting dramatically worse all of the sudden need to r/o brain tumor or other pathology that may be causing sudden loss of sight; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		Pt suffers with double vision for 4x months. Accompanied with pains and tremors.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		There is a suspicion of an infection or abscess.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	2

Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		unknown; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Ophthalmology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		This is a request for a head and neck MR Angiogram.; There is an immediate family history of aneurysm.	2
Ophthalmology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		unknown; This study is being ordered for a neurological disorder.; 04/27/2018; There has not been any treatment or conservative therapy.; dizziness, double vision, bell palsy.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		Woke up with a headache today but otherwise was asymptomatic. Concern for possible pseudotumor cerebri. Placed a referral yesterday to UAMS for NeuroOphthalmology/Neurology for urgent MRI/MRV followed by LP with opening pressure in the left lateral decubi; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Ophthalmology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		This is a request for a head and neck MR Angiogram.; There is an immediate family history of aneurysm.	2
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 2-3 months ago; There has not been any treatment or conservative therapy.; numbness, tingling, sensitive to light, eye pain, issues driving at night, colors are not vivid, blank spot in vision, history of clotting; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has not been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/2018; There has not been any treatment or conservative therapy.; Headache, pain around right eye , blurred vision ;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2009 first leak repair; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; Diamox - medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/12/18; There has not been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; It is not known if there has been any treatment or conservative therapy.; eye is turning outward; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/07/2018; There has been treatment or conservative therapy.; Large blind spot; swollen optic nerves; feels pressure on her eyes; sees spots when she coughs; Wt loss and meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	dry eyes; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Feb 2018; There has not been any treatment or conservative therapy.; vision decrease in both eyes, changes in periferial vision.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	for visual field defects, visual disturbances, eye pain, blurred vision, fuzzy feeling in the brain.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Patient has abnormal visual field, headache daily with sudden onset of blurred vision.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is a new and sudden onset of a headache less than 1 week not improved by medications.; The headache is described as a "thunderclap" or the worst headache of the patient's life.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	1

Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	4
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing dizziness.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	unknown; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	unknown; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Vision loss.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	weight gain, but started Diamox and has being trying to lose weight; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; She said at the age of 15 she had severe headaches and had several spinal taps with elevated opening pressures. She is currently having headaches and optic nerve swelling. recurrence of IIH.; It is not known if there has been any treatment or conservative therapy.; severe headaches, she does have pulsatile tinnitus but no transient visual loss. elevated pressures for past lumbar punctures, persistent papilledema; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2009 first leak repair; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; Diamox - medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	1
Ophthalmology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2009 first leak repair; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; Diamox - medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 03/21/2018; There has not been any treatment or conservative therapy.; Hit with baseball bat; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Disapproval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	Radiology Services Denied Not Medically Necessary	"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is not suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; "There is not a history of serious head or skull, trauma or injury.ostct"; "There is not suspicion of neoplasm, or metastasis.ostct"; This is not a preoperative or recent postoperative evaluation.; "There is not suspicion of acoustic neuroma, pituitary or other tumor. ostct"	1
Ophthalmology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for a known or suspected tumor.; Yes this is a request for a Diagnostic CT	1
Ophthalmology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is not being ordered for trauma, tumor, sinusitis, osteomyelitis, pre operative or a post operative evaluation.; Yes this is a request for a Diagnostic CT	1
Ophthalmology	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; There is not a suspicion of an infection or abscess.; This examination is NOT being requested to evaluate lymphadenopathy or mass.; There is not a suspicion of a bone infection (osteomyelitis).; There is NOT a suspicion of an orbit or face neoplasm, tumor, or metastasis.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1

Ophthalmology	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	There is not a suspicion of an infection or abscess.; It is unknown if this examination is being requested to evaluate lymphadenopathy or mass.; It is unknown if there is a suspicion of a bone infection (osteomyelitis).; There is a suspicion of an orbit or face neoplasm, tumor, or metastasis.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1
Ophthalmology	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/07/2018; There has been treatment or conservative therapy.; Large blind spot; swollen optic nerves; feels pressure on her eyes; sees spots when she coughs; Wt loss and meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3 weeks ago; There has not been any treatment or conservative therapy.; Vision loss in R eye and headaches; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Hypertension; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Ophthalmology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	She reports having headaches daily that had been worse since her last visit. She reports worsening headaches, 2 per week, one occurred upon waking up and the other mid day, throughout her whole head, aching in pain. She reports her vision is more blurred; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Ophthalmology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Woke up with a headache today but otherwise was asymptomatic. Concern for possible pseudotumor cerebri.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Ophthalmology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 3 MONTHS AGO; There has not been any treatment or conservative therapy.; BLURRED VISION, HEADACHE, LEG PAIN AND SWELLING; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 3 MONTHS AGO; There has not been any treatment or conservative therapy.; BLURRED VISION, HEADACHE, LEG PAIN AND SWELLING; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 3 MONTHS AGO; There has not been any treatment or conservative therapy.; BLURRED VISION, HEADACHE, LEG PAIN AND SWELLING; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Oral/Maxillofacial	Approval	70336 Magnetic resonance (eg, proton) imaging, temporomandibular joint(s)		This is a request for a temporomandibular joint MRI.	7
Oral/Maxillofacial	Approval	70486 Computed tomography, maxillofacial area; without contrast material		"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is suspicion of bone infection, [osteomyelitis].fct"; Yes this is a request for a Diagnostic CT	1
Oral/Maxillofacial	Disapproval	70336 Magnetic resonance (eg, proton) imaging, temporomandibular joint(s)	Radiology Services Denied Not Medically Necessary	This is a request for a temporomandibular joint MRI.	3
Orthopedics	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		"This is a request for orbit,face, or neck soft tissue MRI.239.8"; The study is ordered for pre-operative evaluation	1
Orthopedics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Headache causing neck pain that shoots down into the arm.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is not a new and sudden onset of a headache less than 1 week not improved by medications.; There is not a family history (parent, sibling, or child) of stroke, aneurysm, or AVM (arteriovenous malformation)	1
Orthopedics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	1
Orthopedics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Very weak ER strength of right arm. Weak IR of right arm compared to left but not as profound as ER strength. Weak grip strength. Good biceps and triceps strength. Normal appear shoulder blades. Nontender about the clavicle. Very weak abduction of the rig; This study is being ordered for a neurological disorder.; 4/01/2018; It is not known if there has been any treatment or conservative therapy.; He reports that he has been having some neck pain. He reports that he is having some numbness and tingling in his hands. He states that her is having the most numbness and tingling in his thumbs. He states that this has been going on since April. He state; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)		Brachial plexus protocol; abnormal EMG; now has atrophy in the right shoulder; This study is NOT being ordered for a Work-up for Suspicious Mass, Known Tumor, Known or Suspected Inflammatory Disease, etc...; This is a request for a chest MRI.	1

Orthopedics	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)		This study is being ordered for follow-up to trauma.; "The ordering physician is a surgeon, pulmonologist, or cardiologist."; This is a request for a chest MRI.	1
Orthopedics	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)		Very weak ER strength of right arm. Weak IR of right arm compared to left but not as profound as ER strength. Weak grip strength. Good biceps and triceps strength. Normal appear shoulder blades. Nontender about the clavicle. Very weak abduction of the rig; This study is being ordered for a neurological disorder.; 4/01/2018; It is not known if there has been any treatment or conservative therapy.; He reports that he has been having some neck pain. He reports that he is having some numbness and tingling in his hands. He states that her is having the most numbness and tingling in his thumbs. He states that this has been going on since April. He state; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72125 Computed tomography, cervical spine; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2 years; There has not been any treatment or conservative therapy.; Mr. Hearn is a 72-year-old man with a history of left-sided neck pain for several years. This has been a pain that is intermittent with certain activity such as moving his head to the left. His pain is always been 1 specific spot left side of his neck ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72125 Computed tomography, cervical spine; without contrast material		Persistant pain, weakness and numbness. unable to lay down, standing, walking. Decreased mobility, gait disturbance, numbness and weakness.; This study is being ordered for a neurological disorder.; 3/12/2018; There has been treatment or conservative therapy.; Gait disturbance, hand clumsiness, numbness, decreased mobility, tenderness, weakness in legs.; Non steroidal anti inflammatory medication, Pain medication, home exercise, Physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72128 Computed tomography, thoracic spine; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Orthopedics	Approval	72128 Computed tomography, thoracic spine; without contrast material		58-year-old female status post anterior posterior reconstructive surgery for kyphoscoliosis. Over the last 1.5 years he developed progressive bilateral buttock and leg pain to the knee. Occasionally goes below the knee but mostly stays above the knee.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Orthopedics	Approval	72128 Computed tomography, thoracic spine; without contrast material	Had a previous lumbar spine surgery; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; April 6, 2018; There has been treatment or conservative therapy.; Severe back pain; Medications (inflammatory medications); One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72128 Computed tomography, thoracic spine; without contrast material	I am very concerned that over the last months she is developing positional neurologic changes including paralysis from the waist down. She is having some uncontrolled bladder as well as. It is reasonable given the progression of the deformity that she c; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/22/18; It is not known if there has been any treatment or conservative therapy.; 62-year-old female with history of kyphoscoliosis.   She continues to have severe back pain that radiates down the left buttock and leg. The patient over the last month has developed numbness and weakness from the waist down with inability to we are le; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72128 Computed tomography, thoracic spine; without contrast material	I spent around one hour with Ms. Smith today. I discussed with them that surgical reconstruction of the patient's spinal deformity is an extremely large surgery. The patient understands that this is a high risk surgery. I discussed the risk of the surgery; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10 years; There has been treatment or conservative therapy.; Over the last 10 years she has had progressive moderate to severe right-sided thoracolumbar pain with minimal radiation down the leg. She occasionally has pain down the right leg most all the pain is in the right thoracolumbar area. She can only walk sh; physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72128 Computed tomography, thoracic spine; without contrast material	Persistant pain, weakness and numbness. unable to lay down, standing, walking. Decreased mobility, gait disturbance, numbness and weakness.; This study is being ordered for a neurological disorder.; 3/12/2018; There has been treatment or conservative therapy.; Gait disturbance, hand clumsiness, numbness, decreased mobility, tenderness, weakness in legs.; Non steroidal anti inflammatory medication, Pain medication, home exercise, Physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	72131 Computed tomography, lumbar spine; without contrast material		<p>; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2 years; There has not been any treatment or conservative therapy.; Mr. Hearn is a 72-year-old man with a history of left-sided neck pain for several years. This has been a pain that is intermittent with certain activity such as moving his head to the left. His pain is always been 1 specific spot left side of his neck ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72131 Computed tomography, lumbar spine; without contrast material		<p>I am very concerned that over the last months she is developing positional neurologic changes including paralysis from the waist down. She is having some uncontrolled bladder as well as. It is reasonable given the progression of the deformity that she c; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/22/18; It is not known if there has been any treatment or conservative therapy.; 62-year-old female with history of kyphoscoliosis. &#x0D; &#x0D; She continues to have severe back pain that radiates down the left buttock and leg. The patient over the last month has developed numbness and weakness from the waist down with inability to we are le; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72131 Computed tomography, lumbar spine; without contrast material		<p>I discussed the patient today that he has scoliosis. I reviewed the case with Dr. Saer who agrees that a fusion from L2-L5 might give the best long-term outcome given the risk. However the patient understands that further surgery above and below may be ; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/1/2016; There has been treatment or conservative therapy.; severe back pain that radiates down both legs.; DICLOFENAC; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72131 Computed tomography, lumbar spine; without contrast material		<p>Persistent pain, weakness and numbness. unable to lay down, standing, walking. Decreased mobility, gait disturbance, numbness and weakness.; This study is being ordered for a neurological disorder.; 3/12/2018; There has been treatment or conservative therapy.; Gait disturbance, hand clumsiness, numbness, decreased mobility, tenderness, weakness in legs.; Non steroidal anti inflammatory medication, Pain medication, home exercise, Physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72131 Computed tomography, lumbar spine; without contrast material		<p>This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is a preoperative or recent post-operative evaluation.; Yes this is a request for a Diagnostic CT</p>	11

Orthopedics	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is experiencing symptoms of radiculopathy for six weeks or more.; Yes this is a request for a Diagnostic CT	3
Orthopedics	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is to be part of a myelogram or discogram.; Yes this is a request for a Diagnostic CT	5
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material			1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10 YEARS AGO; There has been treatment or conservative therapy.; SEVERE BACK PAIN, NECK PAIN; MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; year ago; There has been treatment or conservative therapy.; radiating sharp pain arm, affecting sleep, weakness; Injections, anti inflammatory meds, HEP; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This is a request for cervical spine MRI; Pre-Operative Evaluation; It is not known when surgery is scheduled.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This is a request for cervical spine MRI; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.;	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 08/12/2015; It is not known if there has been any treatment or conservative therapy.; scoliosis; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2 years; There has not been any treatment or conservative therapy.; Mr. Hearn is a 72-year-old man with a history of left-sided neck pain for several years. This has been a pain that is intermittent with certain activity such as moving his head to the left. His pain is always been 1 specific spot left side of his neck ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; SCOLIOSIS; It is not known if there has been any treatment or conservative therapy.; UPPER BACK PAIN WHICH IS INTERMITTENT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		diminished sensation to L2-S1. she appears to have weakness and numbness throughout the left side; This study is being ordered for trauma or injury.; 6/5/18; There has been treatment or conservative therapy.; Neck and lower back pain with left arm and leg weakness and numbness; Left arm sling; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		I visited with Mr. Hearn about his neck pain and his x-ray findings. I really don't see anything that explains his pain from his x-rays. This sounds neuropathic and since then it seems to have ongoing looks over left-sided seems hand-held like a lighten; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.; Patient had injections 6-7 years ago in neck that helped last year pain came back.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.; shoulder pain burning and sharp. nothing relieves the pain. Tried a steroid pack	1

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Neck pain that radiates down the right arm. The patient experiences numbness, tingling, weakness and giving way. The symptoms have been present for 3 months. Range of motion is decreased for cervical flexion, extension and axial rotation. There is signifi; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; There is significant intrinsic weakness and tricep is completely out. He has motor deficits in two different nerve distributions.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	None; This study is being ordered for trauma or injury.; 5-6years ago; There has been treatment or conservative therapy.; Numbness, tingling, weakness, pain, headaches; Chiropractor and medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.	3
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient is a right handed 31 year old female seen today for the right shoulder. Pain is moderate with a rating of 8/10. She describes the symptoms as sharp, stabbing, aching and shooting. The symptoms are constant. Since the onset, she reports the pro; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist."; Follow-up to Surgery or Fracture within the last 6 months	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has completed 6 weeks or more of Chiropractic care.; Diclofenac Aleve	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	40
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Follow-up to Surgery or Fracture within the last 6 months; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	28
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; None of the above; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	2
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Yes, this patient had a recent course of supervised physical Therapy.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.;	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		unknown; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; unknown; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 04/2017; There has not been any treatment or conservative therapy.; LEFT ARM WEAKNESS, LEFT LEG WEAKNESS, BLADDER INCONTINENCE, ANTALGIC GAIT ON LEFT SIDE.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/22/2017; There has been treatment or conservative therapy.; Back pain, numbness, tingling.; Chiropractor, Medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; This is a 24-year-old woman who was diagnosed with idiopathic scoliosis as an adolescent and treated in a brace. She never required surgery in the brace was effective in containing the curve magnitude to a nonoperative magnitude. She says that she was ; There has not been any treatment or conservative therapy.; This is a 24-year-old woman who was diagnosed with idiopathic scoliosis as an adolescent and treated in a brace. She never required surgery in the brace was effective in containing the curve magnitude to a nonoperative magnitude. She says that she was ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; YEAR AGO; There has not been any treatment or conservative therapy.; She is known to Dr. Saer who evaluated her neck pain and referred her to therapy.   She was attending physical therapy at Elite functional therapy from December to February. At that time she was having neck pain and some degree of left lower back pain ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	I spent around one hour with Ms. Smith today. I discussed with them that surgical reconstruction of the patient's spinal deformity is an extremely large surgery. The patient understands that this is a high risk surgery. I discussed the risk of the surgery; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10 years; There has been treatment or conservative therapy.; Over the last 10 years she has had progressive moderate to severe right-sided thoracolumbar pain with minimal radiation down the leg. She occasionally has pain down the right leg most all the pain is in the right thoracolumbar area. She can only walk sh; physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Lumbar Spine: Inspection: no induration, ecchymosis, or swelling and scoliosis and asymmetry. Bony Palpation of the Lumbar Spine: pain to palpation intire t and l spine. Bony Palpation of the Right Hip: no tenderness of the iliac crest, the ASIS, the PSIS; This is a request for a thoracic spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Neurological System: Coordination: heel-to-shin normal. Babinski Reflex Right: plantar reflex absent. Babinski Reflex Left: plantar reflex absent. Special Tests: Valsalva's test negative. Ankle Reflex Right: hyperactive (3). Ankle Reflex Left: normal (2).; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	patient in severe pain in the thoracic lumbar region.  xrays are abnormal but non diagnostic . suspected t 10 compression fracture. Radiologist recommended an MRI for further evaluation.; This study is being ordered for a neurological disorder.; 6 months ago. getting no relief with Physical therapy for over 8 weeks, NSAIDS for 6 months and home exercise program and change in activity level and other conservative treatment.; There has been treatment or conservative therapy.; Pain in the thoracic lumbar region that has been going on for 6 months steadily increasing with in the past month. No conservative treatment helps it.  symptoms consistent with a t10 compression fracture.; All conservative treatment has failed: NSAIDS like Ibuprofen for 6 months Physical therapy for over 8 weeks Home exercises for over 8 weeks,  oral steroids , muscle relaxers like Flexiril for over 8 weeks   xrays taken 6/7/2018 of the lumbar and th; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of radiculopathy documented on EMG or nerve conduction study.	1

Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		There are documented clinical findings of immune system suppression.; This is a request for a thoracic spine MRI.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis, Follow up to or Pre-operative evaluation, or Neurological deficits."	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist."; The study is being ordered due to follow-up to surgery or fracture within the last 6 months.	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Follow-up to Surgery or Fracture within the last 6 months; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		unknown; This study is being ordered for Congenital Anomaly.; 5-21-12; There has been treatment or conservative therapy.; Pain in her lower back, chronic low back pain, spine bifida, spondylolthesis; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; This is important in that she has some neurological changes on her left foot.On standing erect, she has the corset. She says it does feel good and helps her. With removal, she can stand erect. She has a good reciprocal and heel-toe gait. On evaluation	1

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 08/12/2015; It is not known if there has been any treatment or conservative therapy.; scoliosis; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1. Multilevel degenerative disc disease, significant C5-6 with bilateral foraminal stenosis severe on the right, radiating right shoulder, arm pain, numbness, tingling 2. Mild to moderate left foraminal narrowing, C3-4, C4-5 and C6-7 3. Right C7 radi; There has been treatment or conservative therapy.; This is a pleasant 57-year-old female who presents follow-up left transforaminal L5-S1 epidural steroid injection for disc protrusion performed 4/24/18.  She has history of degenerative disc disease, central protrusion at L5-S1. She has had several inj; Injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/01/2017; There has been treatment or conservative therapy.; LBP and right hip pain with radiculopathy, numbness and tingling; Steroid injections; medications; lifestyle modification; back exercises; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; February 2016; There has not been any treatment or conservative therapy.; 45-year-old male who is a known IV drug user who is treated and Fort Smith in February 2016 for L5-S1 discitis with Ivana biotics only. He was in bed for 8 weeks before able to mobilize due to debilitating pain. He has been clean other than nicotine sin; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; This is a 24-year-old woman who was diagnosed with idiopathic scoliosis as an adolescent and treated in a brace. She never required surgery in the brace was effective in containing the curve magnitude to a nonoperative magnitude. She says that she was i; There has not been any treatment or conservative therapy.; This is a 24-year-old woman who was diagnosed with idiopathic scoliosis as an adolescent and treated in a brace. She never required surgery in the brace was effective in containing the curve magnitude to a nonoperative magnitude. She says that she was i; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; YEAR AGO; There has not been any treatment or conservative therapy.; She is known to Dr. Saer who evaluated her neck pain and referred her to therapy. &#x0D; &#x0D; She was attending physical therapy at Elite functional therapy from December to February. At that time she was having neck pain and some degree of left lower back pain ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>AP and lateral x-ray of the lumbar spine ordered, obtained, and interpreted today reveals L4 pincer fracture. This is been caudal burst fracture with this is not adequate. It appears the posterior column was intact. Diffuse degeneration. Mild flatten; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; It is not known if the physician has directed conservative treatment for the past 6 weeks.</p>	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Concern of the severity of his lumbar degeneration for his age and radiculopathy; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; EMG test reveals marginal evidence of mild, acute and chronic L5 and S1 radiculopathies on the right and left. he has ample increased insertional activity without a single, clear run of a tib or PSW. There were more convincing chronic changes proximally</p>	1

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Discussed x-rays. She has degenerative changes of mild anterolisthesis at L4-5. &#x0D;</p> <p>&#x0D;</p> <p>We recommended MRI, however she did not proceed with the MRI secondary to cost. Therefore she canceled the MRI. &#x0D;</p> <p>&#x0D;</p> <p>Pain seems to be worse and she would like to get so; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; MELOXICAM</p>	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>I discussed the patient today that he has scoliosis. I reviewed the case with Dr. Saer who agrees that a fusion from L2-L5 might give the best long-term outcome given the risk. However the patient understands that further surgery above and below may be ; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/1/2016; There has been treatment or conservative therapy.; severe back pain that radiates down both legs.; DICLOFENAC; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>I spent around one hour with Ms. Smith today. I discussed with them that surgical reconstruction of the patient's spinal deformity is an extremely large surgery. The patient understands that this is a high risk surgery. I discussed the risk of the surgery; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10 years; There has been treatment or conservative therapy.; Over the last 10 years she has had progressive moderate to severe right-sided thoracolumbar pain with minimal radiation down the leg. She occasionally has pain down the right leg most all the pain is in the right thoracolumbar area. She can only walk sh; physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>IMPRESSION:&#x0D; Lumbar levoscoliosis &#x0D; Lumbar radiculopathy right leg; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Muscle Strength EXAM&#x0D; &#x0D; Hip&#x0D; &#x0D; Adductors:&#x0D; Normal&#x0D; Abductors:&#x0D; Normal&#x0D; Flexors:&#x0D; Normal&#x0D; Extensors:&#x0D; Normal&#x0D; Paraspinous Muscles:&#x0D; Normal&#x0D; Gluteus Maximus:&#x0D; Normal&#x0D; Quadriceps:&#x0D; Weakness bilaterally&#x0D; Ham; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.</p>	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Right S1 radiculopathy with numbness functional numbness and tingling; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above</p>	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>states he has had onset of low back pain with radiation into bilateral legs, mainly the left side, though. He states he has remained in the supine position in order to get relief. Anytime he sits up it bothers him quite significantly. Apparently he has; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.; flexeril&#x0D; mobic&#x0D; oxycodone</p>	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.</p>	1

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; the patient was treated with a facet joint injection.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	14
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Follow-up to Surgery or Fracture within the last 6 months; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; The patient has Neurological abnormalities; This procedure is being requested for Trauma or recent injury	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Neurologic deficits	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	41
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 8/2017; There has been treatment or conservative therapy.; pain with daily activity, bumpy deformity on the spine and that is rapidly progressing and the magnitude of the curvature is rapidly progressing.; Bracing, Home exercise , anti-inflammatories and Vit D.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		We discussed x-ray findings and remote CT findings. He had prior fusion L3-4 and L4-5, remote laminectomy L2-3. Multilevel degenerative changes with moderate spinal canal narrowing L2-3 and L1-2. Multilevel foraminal narrowing. CT is not definitive. ; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Orthopedics	Approval	72192 Computed tomography, pelvis; without contrast material		BONE SCAN SHOWED SIGNIFICANCE INCREASE IN UPTAKE OF THE SACRAL AREA. NEED TO DEFINE THE ABNORMALITY.; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	72192 Computed tomography, pelvis; without contrast material		She has fractured pelvis and trying to evaluate the consolidation. Needs to see if they need to do a surgery of the hip. She is limited on activity. She is in constant pain.; This study is being ordered as pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)			2
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Pelvis MRI.; The study is being ordered for joint pain or suspicion of joint or bone infection.; The study is being ordered for something other than arthritis, slipped femoral capital epiphysis, bilateral hip avascular necrosis, osteomyelitis or tail bone pain or injury.	1
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		He has normal lumbar spine x-rays and has had extensive testing for the hip except for the sclerosis in the SI joint. HLA-B27 was ordered but not done. We will reorder that. Further diagnostic information is needed and could best be obtained with MRI p; This is a request for a Pelvis MRI.; The study is being ordered for joint pain or suspicion of joint or bone infection.; The study is being ordered for something other than arthritis, slipped femoral capital epiphysis, bilateral hip avascular necrosis, osteomyelitis or tail bone pain or injury.	1
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		pain in the sacrum with radiation to bilateral lower extremities consistent with lumbar radiculopathy; This is a request for a Pelvis MRI.; The study is being ordered for pelvic trauma or injury.; This is an evaluation of the sacrum.	1
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		Severe R hip pain. Unable to relieve pain by standing, sitting or laying down. Unable to sleep due to pain. Joint feels like it is locked. Possible fracture in the pelvis or sacrum; This is a request for a Pelvis MRI.; The study is being ordered for joint pain or suspicion of joint or bone infection.; The study is being ordered for something other than arthritis, slipped femoral capital epiphysis, bilateral hip avascular necrosis, osteomyelitis or tail bone pain or injury.	1
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of pelvic inflammatory disease or abscess.	1
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	2
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The study is being ordered for joint pain or suspicion of joint or bone infection.; The study is being ordered for bilateral hip avascular necrosis.	1
Orthopedics	Approval	73200 Computed tomography, upper extremity; without contrast material		; This study is being ordered for trauma or injury.; 6/3/18; There has been treatment or conservative therapy.; shoulder pain and swelling; treated in ER; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	73200 Computed tomography, upper extremity; without contrast material		CT bilateral shoulders are being ordered for pre-operative planning.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; History of right shoulder surgery hemi arthroplasty 5/15/17. She continues to have limited range of motion and pain at night. CT bilateral shoulders are ordered for pre-operative planning.; There has been treatment or conservative therapy.; limited range of motion after surgery 5/15/17, pain at night; She has had at least 20 weeks of Physical Therapy, wore sling, home exercise program, prescription medication, anti-inflammatories, NSAIDS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73200 Computed tomography, upper extremity; without contrast material		There is not a history of upper extremity joint or long bone trauma or injury.; This is a preoperative or recent postoperative evaluation.; This is a request for an Arm CT Non Joint; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73200 Computed tomography, upper extremity; without contrast material		This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is a history of upper extremity joint or long bone trauma or injury.	1
Orthopedics	Approval	73200 Computed tomography, upper extremity; without contrast material		This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is a history of upper extremity joint or long bone trauma or injury.; Yes this is a request for a Diagnostic CT	52
Orthopedics	Approval	73200 Computed tomography, upper extremity; without contrast material		This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is not suspicion of upper extremity bone or joint infection.; The ordering physician is an orthopedist or rheumatologist.	1
Orthopedics	Approval	73206 Computed tomographic angiography, upper extremity, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for trauma or injury.; 6/3/18; There has been treatment or conservative therapy.; shoulder pain and swelling; treated in ER; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is a preoperative or recent postoperative evaluation.	48
Orthopedics	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is no suspicion of upper extremity bone or soft tissue infection.; The ordering physician is an orthopedist.	18

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	< Enter answer here - or Type In Unknown If No Info Given. >; The requested study is a Shoulder MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The member has a recent injury.; The study is not requested for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	< Enter answer here - or Type In Unknown If No Info Given. >; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/12/18; There has been treatment or conservative therapy.; pain, swelling, tingling; HEP; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; year ago; There has been treatment or conservative therapy.; radiating sharp pain arm, affecting sleep, weakness; Injections, anti inflammatory meds, HEP; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	3
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	; The requested study is a Shoulder MRI.; The pain is from a recent injury.; It is not know if surgery or arthroscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	; This study is being ordered for a neurological disorder.; RECENT WORST PAIN STATER 05/01/2018; There has been treatment or conservative therapy.; ; 4 ibuprofen 220 mg, 2 tylenols of 325 mg , aleve 220   gabapentin (NEURONTIN) 600 MG tablet  traMADol (ULTRAM) 50 mg tablet  evaluation today because x-ray showed concern for AVN. She has been on and off steroids multiple times over the years for he; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		; This study is being ordered for trauma or injury.; 01/24/2018 Left Shoulder & Fall of 2017 Right Shoulder; There has been treatment or conservative therapy.; On examination, he is profoundly weak on the right side to supraspinatus testing, almost as bad on the left. Rotator cuff strength is likewise diminished. His exam is very crepitant and tender at the acromioclavicular joint as well, and he has markedly ; NSAIDs; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		; This study is being ordered for trauma or injury.; 02/04/2018; There has not been any treatment or conservative therapy.; She describes the symptoms as aching, stabbing and throbbing. Symptoms improve with rest, ice. Symptoms worsen with activity. The knee has not given out or felt unstable. The patient cannot bend and straighten the knee fully.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		2nd metacarpal fx, wrist pain, dec ROM, dec strength, eval for ligament tear in wrist; The pain is from a recent injury.; It is not know if surgery or arthrscopy is scheduled in the next 4 weeks.; There is a suspicion of tendon or ligament injury.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		62-year-old white female in today for left shoulder. She has had left shoulder pain for form is a year. She has pain at night and overhead activities. She has weakness. She had no particular injury.  She has history of previous right shoulder rotator cuf; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		cudd tear knee meniscus tear; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		Daniel is 47-year-old carpenter was in an altercation with his son four days ago, when he sustained an elbow injury on the left side, seen at Saline County Hospital. X-rays show no evidence of acute fracture or dislocation at the time of his x-rays, but h; The pain is from a recent injury.; It is not know if surgery or arthrscopy is scheduled in the next 4 weeks.; There is a suspicion of tendon or ligament injury.; This is a request for an elbow MRI; The study is requested for evaluation of elbow pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		Date: 06/13/2018Vicki Otwell64090 DOB: 06/09/1956 GLOBAL FOLLOW-UP NOTE  HPI: Pt is 9.5 weeks s/p right shoulder RCR, SAD on 4/6/18. Pt is doing well. Pt complains of moderate pain. Pt states she feels the shoulder is dislocating with certain m; The requested study is a Shoulder MRI.; The pain is from a recent injury.; It is not know if surgery or arthrscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		Evaluation for potential Surgery. Negative Hawkins and O'briens, + scapulation and painful arc; The requested study is a Shoulder MRI.; The pain is from a recent injury.; It is not know if surgery or arthrscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		initial injury from 2007 was casted and has had ongoing pain since. Heavy lefting on job and has aggravated his wrist. X-rays show a nonunion scaphoid fracture.; The pain is from an old injury.; The member has not failed a 4 week course of conservative management in the past 3 months.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		Injury to wrist 3 weeks ago. Has been wearing a splint with some relief. worse with lifting and gripping; The pain is from a recent injury.; It is not know if surgery or arthroscopy is scheduled in the next 4 weeks.; There is a suspicion of tendon or ligament injury.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		none; This study is being ordered for trauma or injury.; Feb 2018; There has been treatment or conservative therapy.; none; steroid injection , PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		Patient has had left shoulder pain for over 5 weeks. Not able to lift the arm overhead, press down with the arm or lift anything without severe pain. He has recurrent popping in the left shoulder. Nothing he does alleviates the pain. Left shoulder pain ; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; Patient is unable to do exercises due to inability to lift arm over his head, press down or lifting. he has altered his activities and has been using anti-inflammatories for over 4 weeks with no improvement; The patient received oral analgesics.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		positive Jobe positive Neer positive Hawkins Positive Crossover adduction Left shoulder injury Chronic calcific tendonitis She's been through therapy and injection for this condition and has over 6 months of symptoms. This is acute and chronic injur; The requested study is a Shoulder MRI.; The pain is from a recent injury.; It is not know if surgery or arthroscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		positive jobe postitive neer positive crossover adduction night pain more difficulty with overhead activities; This study is being ordered for trauma or injury.; Rotator cuff syndrome of right shoulder; There has been treatment or conservative therapy.; positive jobe postitive neer positive crossover adduction night pain more difficulty with overhead activities; Injection Home exercise program topical; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		pt c/o right shoulder pain after a motor vehicle accident on 5/2/18. Dr Powell ordered a right shoulder MRI to r/o a rotator cuff tear.; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Pt is a 50 years old RHD Female with RIGHT shoulder pain for some time but has increased over the past 2 weeks. No specific injury is noted. No pain at night. No associated numbness and tingling. She points anteriorly as the area that is most painful. No; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	right shoulder pain with decreased and painful ROM, positive exam for impingement and positive empty can test. Decreased strength and limited external and internal rotation.; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The pain is described as chronic; The member has failed a 4 week course of conservative management in the past 3 months.; This is a request for an elbow MRI; The study is requested for evaluation of elbow pain.	8
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The pain is described as chronic; The member has failed a 4 week course of conservative management in the past 3 months.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.	9
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The pain is from a recent injury.; Surgery or arthroscopy is scheduled in the next 4 weeks.; There is a suspicion of tendon or ligament injury.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The pain is from an old injury.; The member has failed a 4 week course of conservative management in the past 3 months.; This is a request for an elbow MRI; The study is requested for evaluation of elbow pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The pain is from an old injury.; The member has failed a 4 week course of conservative management in the past 3 months.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.	4
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation.";	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Evaluate for rotator cuff tear.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Injury to left shoulder several weeks ago. Acute pain. Sensation of tearing in the shoulder. Weakness with pain coming down the lateral arm toward the deltoid insertion. Taking ibuprofen which helps a little with discomfort. Possible rotator cuff tear.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; MRI left shoulder ordered to rule out rotator cuff tear. Stiffness and weakness in left shoulder. Limited range of motion and decreased strength. has tried and failed, PT, home exercises, and rx pain medication.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Patient has had pain in his shoulder for several months. he has pain with lying on his shoulder and night pain with overhead activity. He feels popping from time to time. He notes weakness in his shoulder. He has tenderness out laterally, has limited full	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Patient has had pain in shoulder for 6 months. She does quite a bit of lifting and working in the chicken houses and it has been bothering her. She has pain with overhead activity and discomfort at night. Patient has diffuse tenderness to palpation ante	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Possible rotators cuff tear	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Pt had fallen in 11/2017 landed on right side. Pt did not go for prior MRI instruction. Symptoms worsening, Pt can no longer work. Pain, tenderness, xrays have been done	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; rotator cuff tear	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; She had a fall 2 weeks ago and has had pain ever since. At two weeks after a fall, continued pain, and decreased motion, an MRI is ordered for evaluation. Her shoulder was normal prior to the fall.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; This is a 59-year-old woman who does have bilateral lateral recess stenosis at L4-5 however her pattern of pain today is diffuse. Additionally she is has severe right arm dysfunction which I believe is related to her shoulder. I explained very clearly tha	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; unknown	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; 04-26-18 60-year-old phlebotomist at Baptist health known to me from previous left rotator cuff repair 5 years ago with excellent recovery. That was a golf injury. Recent onset of aching pain in his right shoulder. He tried to show his grandchildren how	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; Pain is sharp think its from sleeping . Patient thinks something is torn	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; suspected rotator cuff tear	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.;	10
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; < Enter answer here - or Type In Unknown If No Info Given. >	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; INJURY ON 4/24/18 LIFTING WEIGHTS. SYMPTOMS: PAIN, NUMBNESS, TINGLING DOWN ARM, SWELLING, DECREASED MOBILTIY, JOINT INSTABILITY, JOINT LOCKING, JOINT TENDERNESS, SPASMS, WEAKNESS, AND BRUISING. +OBREIN'S, +SPEED'S TEST, +NEER'S, +HAWKIN'S XRAY ON 4/30/18	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Patient fell and hurt his shoulder.He has tenderness of the bicipital groove. O'Brien's test positive, Speed's test positive, and Yergason's test positive. He also has weakness in his right arm.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; POSSIBLE ROTATOR CUFF TARE, RIGHT SHOULDR PAIN EXTENDED, RANGE OF MOTION DECREASED, CANNOT RAISE ARM ABOVE HEAD WITHOUT PAIN	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; To rule out possible labral tear, mild ac joint arthrosis	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has had recent plain films of the shoulder.; The plain films were normal.; The patient is experiencing joint locking or instability.	12
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; "This study is not being ordered prior to a planned or scheduled open surgery (joint replacement, etc.)."; Left shoulder pain with AC joint arthritis and bursitis and possible rotator cuff tear.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; 05-25-18: Larry Lagarde returns for right cuff arthropathy and is ready to go ahead with reverse total shoulder arthroplasty. He was last treated in 2016 with intraarticular Depo-Medrol/0.5% Marcaine injections to. Other treatment modalities included ant	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; April 23, 2018  RE:Matthew Carlisle, #1817838 DOB: 03/29/1981  ESTABLISHED PATIENT OFFICE VISIT  SUBJECTIVE: Mr. Carlisle is back here for follow-up on his right shoulder. Patient states the steroid injection lasted a couple of days. Pain ret	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; April 26, 2018   John L. Gustavus, M.D. Sherwood, AR Fax: 501-833-0223  RE:Jeffrey Lemaire, #1817817 DOB: 02/17/1961  Dear Dr. Gustavus:  It was a pleasure to see your patient, Jeffrey Lemaire, in the office today. My office notes are as	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; FULL THICKNESS ROTATOR CUFF TEAR!	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; History of Present Illness: Left shoulder instability: The patient is a 50-year-old man who presents with complaint of chronic instability of left shoulder. The patient recalls an injury occurring five years ago when the shoulder was first injured. App	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; History of Present Illness: Right shoulder pain: The patient is a 47-year-old female who fell down six steps landing on ground impacting right shoulder. The patient complains of severe pain with any attempted movement as well as pain with palpation. She	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; patient had a right shoulder injury and unable to move her right arm. limited range of motion, pain. patient has been using a sling and taking NSAIDs.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; PATIENT HAS BEEN BEING SEEN FOR THIS PROBLEM SINCE 12/27/18,AFTER FALLING FROM A STOOL ONTO HIS SHOULDER. HE HAS BEEN IN A SLING, AND HAS DONE HOME STRETCHING AND THERABAND STRENGTHENING SINCE 1/23/18, WITH SOME IMPROVEMENT. STILL PAINFUL MOVEMENT WITH CR	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; Patient has dislocated left shoulder multiple times in the past 3 years. Jammed his shoulder while playing sports on 3/15/18 causing an increase in pain that has not improved with anti inflammatory or rest. He reports pain with range of motion.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; Right shoulder follow up: Patient returns to clinic complaining of right shoulder pain following rotator cuff repair originally completed November 3, 2017. The patient has been in physical therapy yet still complains of pain with elevation of the arm.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; This is been bothering him for the last year.He has had an injection in the past. He has been doing therapy exercises which have not helped. This is causing constant pain and limiting his activities. Left shoulder shows no swelling and no deformity. He i	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; X-rays done, dislocation, soft tissues are unremarkable. large osteocyte formation.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is not being ordered prior to arthroscopic surgery.; "This study is being ordered prior to a planned or scheduled open surgery (joint replacement, etc.)."	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for suspicious mass/tumor/metastasis.; There are physical findings (palpable mass) of a suspicious mass or known primary site of cancer.; It is not known if the patient has had a recent bone scan.; The patient has had recent plain films of the shoulder.; The plain films were normal.; The patient has not had a recent CT of the shoulder.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study is being ordered for known/suspected joint infection.; The patient has not had a recent bone scan.; The patient has not had a recent ultrasound of the shoulder.; The plain films were normal.; There are documented physical or laboratory findings of a joint infection.; The patient has not had a recent CT of the shoulder.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient received joint injection(s).	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	16
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is from an old injury.; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	11
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.	29
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	6
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.	15

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.	5
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.	11
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	4
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.	4
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has not been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.	4
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.	3
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	4
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		unknown; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/1/2018; There has been treatment or conservative therapy.; shoulder pain, weakness; physical therapy, steroids injections, and pain medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		X-ray right shoulder: Images reviewed and interpreted by me. No fracture or dislocation noted. Glenohumeral and AC joint appears normal. Mild inferior AC joint spurring. Sclerosis noted over the greater tubercle indicating chronic rotator cuff pathology. ; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1

Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material			1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 05/23/2018; There has been treatment or conservative therapy.; significant , bruising,swelling, decreased motion,; meds, boot; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/12/18; It is not known if there has been any treatment or conservative therapy.; she started to have severe low left hip pain that involves the lateral aspect of the hip and worsens with any movement of the hip. She had been doing some weeding recently. Pain does not travel down her leg. It is not at the midline; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		Concern for loosening prosthesis; This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is no suspicion of lower extremity bone or joint infection.; There is not a history of lower extremity joint or long bone trauma or injury.; This is a request for a Knee CT; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a foot CT.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; Yes this is a request for a Diagnostic CT	11
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a foot CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a foot CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	4
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a foot CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient does not have a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	5

Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a foot CT.; The patient has not used a cane or crutches for greater than four weeks.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a foot CT.; The patient has not used a cane or crutches for greater than four weeks.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is a suspected infection of the hip.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass adjacent to or near the hip.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; The patient does not have a documented limitation of their range of motion.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	4
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	4
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; The patient has been treated with and failed a course of supervised physical therapy.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	5

Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; The patient has been treated with and failed a course of supervised physical therapy.; There is not a mass adjacent to or near the hip.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip.;" There is a suspicion of AVN.; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has a documented limitation of their range of motion.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass adjacent to or near the hip.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip.;" There is not a suspicion of AVN.; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient does not have a documented limitation of their range of motion.; The patient has not been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a Lower Extremity CT.; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	10
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a Lower Extremity CT.; This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is no suspicion of lower extremity bone or joint infection.; There is a history of lower extremity joint or long bone trauma or injury.; Yes this is a request for a Diagnostic CT	3
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for an ankle CT.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle.;" There is a history of new onset of severe pain in the ankle within the last two weeks.; There is a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for an ankle CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle.;" There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient had an abnormal plain film study of the ankle other than arthritis.; There is not a suspected tarsal coalition.; The patient does not have a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for an ankle CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle.;" There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	3

Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for an ankle CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient had an abnormal plain film study of the ankle other than arthritis.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences			16
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; It is not known if the ordering physician is an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,supsected tumor or Aseptic Necrosis; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10/01/2017; There has been treatment or conservative therapy.; Pain, swelling, significantly limited by mechanical symptoms in her knees; Non-steroidal anti inflammatory medication, Ice and heat, compressive knee slings; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		; This study is being ordered for trauma or injury.; 02/04/2018; There has not been any treatment or conservative therapy.; She describes the symptoms as aching, stabbing and throbbing. Symptoms improve with rest, ice. Symptoms worsen with activity. The knee has not given out or felt unstable. The patient cannot bend and straighten the knee fully.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		06-18-18: 46-year-old female with left ankle pain. She has had some off and on ankle trouble in the past. She had an acute injury on 6/16/18. She had immediate pain. She developed swelling. She developed bruising. She had difficulty with weightbearing. X; This is a request for an Ankle MRI.; It is not know if surgery or arthrscopy is scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	20-year-old male with bilateral knee pain, previous right ACL reconstruction and lateral meniscus repair. I'm concerned that he tore his graft and possibly his lateral meniscus. He also likely has a meniscus tear of the left knee. I ordered MRI of both kn; This study is being ordered for trauma or injury.; 7/1/14; It is not known if there has been any treatment or conservative therapy.; 20-year-old male status post right ACL reconstruction with hamstring autograft and lateral meniscus repair on 6/18/14. He has bilateral knee pain. He has had off and on pain for years. Pain in the right knee is medial and lateral. Pain is worse with attem; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	5.8.18 pt twisted her ankle at work. suspected Achilles tear or CRPS; This is a request for a foot MRI.; The study is being ordered forfoot pain.; The study is being ordered for acute pain.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	ASSESSMENT AND PLAN: Tibialis posterior insufficiency, left worse than right. I would like to get a MRI of his left foot and he needs to start getting arch supports. The reason I would like a MRI is because I want to evaluate for tibialis posterior ten; This is a request for a foot MRI.; The study is being ordered forfoot pain.; The study is being ordered for tendonitis.; The patient has had foot pain for over 4 weeks.; The patient has been treated with anti-inflammatory medication for at least 6 weeks.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	CBC w/diff, CRP, Sed Rate and blood smear; This study is being ordered for trauma or injury.; April 30,2018; There has been treatment or conservative therapy.; Pain, limping, unable to bear weight; Non Weight bearing for past 10 days with rest and elevation; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	cudd tear knee meniscus tear; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	He is a pleasant 57-year-old gentleman who comes today with chronic bilateral anterior knee pain. This is worse with sitting and getting from a seated position. It is not associated any catching, locking, instability. He has previously tried physical t; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		Left foot examined, ulceration noted over the medial aspect of the midfoot, arch. No gross purulence, some surrounding erythema. Loss of the normal medial arch is noted, heel valgus; This study is being ordered for trauma or injury.; December, 2017 ankle fracture; There has been treatment or conservative therapy.; Chronic wound left foot, poorly controlled insulin-dependent diabetic, smoker; wound care, home health care; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		MRI in 09/2017, pt. needs surgery. Pre-op evaluation.; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		On X-Ray it showed irregularity of calcaneus and cuboid, no dislocation, normal alignment. Patient has swelling, tenderness of the lateral ankle; calcaneus tenderness, tenderness of the tibialis posterior and the lateral anterior talofibular ligament, Sta; This study is being ordered for trauma or injury.; 5/2008; There has been treatment or conservative therapy.; SWELLING, TENDERNESS, WEAKNESS,; PATIENT HAS DONE PHYSICAL THERAPY, WORE A WALKING BOOT, PAIN MEDS, ICE, HEAT, REST, HOME EXERCISES, ANTI-INFLAMMATORY MEDS,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		Pain and swelling to her left first MTP joint has worsening now over the past year. X-ray show mild degenerative changes but no specific abnormality. She does have significant swelling on exam as well as tenderness to palpation and I'm highly concerned ab; This is a request for a foot MRI.; The study is being ordered for foot pain.; The study is being ordered for acute pain.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		Patient has tenderness of the anterior talofibular ligament, the calcaneofibular ligament, the peroneal retinaculum, and the deltoid ligament. Also decreased range of motion due to pain. Stability Left: anterior drawer grade 2+ and talar tilt grade 2+.; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	<p>Patient is 37 years old and is seen in the office today for several problems, one being chronic lumbar Discomfort, 1 being an injury to his right knee where he feels he has a torn anterior cruciate ligament and, 1 is An old ligament injury to his left knee; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Patient is 37 years old and is seen in the office today for several problems, one being chronic lumbar Discomfort, 1 being an injury to his right knee where he feels he has a torn anterior cruciate ligament and, 1 is An old ligament injury to his left knee; It is not known if there has been any treatment or conservative therapy.; osteoarthritis of both knees&#x0D;</p> <p>torn anterior cruciate ligament; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	<p>Patient is having pain in bilateral legs specifically along shins. On examination he has tenderness along the crest of his tibia to about the junction of the distal and middle thirds. Difficult to tell if this is more along the anterior compartment or alo; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; February 2018; There has been treatment or conservative therapy.; Bilateral leg pain located along shins.; Compression stockings and binding of shins and NSAID's. Avoid physical activity for 4 weeks.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	<p>Patient is in severe pain in both of her knees.; This study is being ordered for trauma or injury.; Patient has been having pain since 05/21/17.; There has been treatment or conservative therapy.; throbbing, aching, stabbing, burning, radiating pain; Injections, physical therapy, ice, rest, elevation, NSAID's, pain medications.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	<p>patient rolled her ankle approximately 6 weeks ago, presented with tenderness of posterior subtalar and minimal Achilles tenderness, x-rays show mild posterior talar spurring with perhaps some cystic changes, given a pneumatic boot and was advised to avoi; This is a request for an Ankle MRI.; The pain is from a recent injury.; Surgery or arthrscopy is not scheduled in the next 4 weeks.; The member has a recent injury.; The study is requested for a reason other that ankle pain.</p>	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	<p>PATIENT STEPPED IN A HOLD THREE MONTHS AGO AND HAS PAIN SINCE, HAS JOINT PAIN, STIFFNESS, SWELLING,TENDER OVER THE ANTERIOFIBULAR LIGAMENT, PAIN WITH ATTEMPTED INVERSION,SUSPECTED LIGAMENTOUS INJURY; This is a request for an Ankle MRI.; It is not know if surgery or arthrscopy is scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.</p>	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		Rule out osteochondritis; This study is being ordered for Inflammatory/ Infectious Disease.; 01/01/2018; It is not known if there has been any treatment or conservative therapy.; Diffuse tenderness about ankle and foot; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a 61 year old female who comes in for a chief complaint of knee pain, involving the left knee and right knee. The knee pain is located all over the knee (diffuse). This occurred in the context of a gradual and insidious onset. The knee pain has ; This is a request for a Knee MRI.; Suspected Aseptic Necrosis; Yes, the patient had recent plain films or bone scan of the knee.; No, the plain films/scans are not normal.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.	3
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient does not have a documented limitation of their range of motion.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient has a documented limitation of their range of motion.	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; Surgery is planned for within 30 days.; The study is being ordered for a pre op.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Instability	25
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Limited range of motion	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Locking	17
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Swelling greater than 3 days	12
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Suspected meniscus, tendon, or ligament injury	781

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,supsected tumor or Aseptic Necrosis; Swelling greater than 3 days	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were normal.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; It is not known if there is a known trauma involving the knee.; Pain greater than 3 days; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; This study is being ordered prior to arthroscopic surgery.; The ordering physician is an orthopedist.; Pre-operative Evaluation; Pain greater than 3 days	5
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; This study is not being ordered prior to arthroscopic surgery.; "This study is being ordered prior to a planned or scheduled open surgery (joint replacement, etc.)."; The ordering physician is an orthopedist.; Pre-operative Evaluation; Pain greater than 3 days	4
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; This study is not being ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.; The ordering physician is an orthopedist.; Pre-operative Evaluation; Pain greater than 3 days	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The results of the plain films is not known.; The ordering physician is an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,supsected tumor or Aseptic Necrosis; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physician directed course of non-steroidal anti-inflammatory medications	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The study is requested for knee pain.; The pain is from an old injury.; The member has failed a 4 week course of conservative management in the past 3 months.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; This study is being ordered prior to arthroscopic surgery.; The ordering physician is an orthopedist.; Pre-operative Evaluation; Locking	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is a pre-operative study for planned surgery.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."	6
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.; The patient is taking antibiotics.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is a study for a fracture which does not show healing (non-union fracture).; This is a pre-operative study for planned surgery.	3
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient had an abnormal plain film study of the ankle other than arthritis.; There is not a suspected tarsal coalition.; The patient does not have a documented limitation of their range of motion.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.	3
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has been treated with and failed a course of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; This study is not being ordered by an operating surgeon for pre-operative planning.	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient does not have a documented limitation of their range of motion.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.	28
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.	2

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient had an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has been treated with and failed a course of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; There is a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; Surgery or arthroscopy is scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	8
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; There is a suspicion of fracture not adequately determined by x-ray.; The study is requested for ankle pain.; Tendon or ligament injury is not suspected.	3
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		Three-view standing left ankle x-ray was ordered, obtained and interpreted findings include possible irregularity on the lateral talar dome which could represent osteochondral lesion. No fracture seen about the fibula no periosteal reaction seen. There ; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; There is not a suspicion of fracture not adequately determined by x-ray.; The study is requested for ankle pain.; Tendon or ligament injury is not suspected.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/01/2017; There has been treatment or conservative therapy.; LBP and right hip pain with radiculopathy, numbness and tingling; Steroid injections; medications; lifestyle modification; back exercises; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	<p>patient being tested for possible elevated metal ions &#x0D; cobalt, serum&#x0D; chromium, serum &#x0D; c-reactive protein&#x0D; westergren esr; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/1/2012; There has been treatment or conservative therapy.; bilateral hip pain; physical therapy post hip replacement surgery; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	2
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	<p>This is a requests for a hip MRI.; The study is for post operative evaluation.; There are physical or plain film findings of delayed or failed healing.; The request is not for hip pain.</p>	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	<p>This is a requests for a hip MRI.; There is a suspicion of fracture not adequately determined by x-ray.; Tendon or ligament injuryis not suspected.; The hip pain is due to a recent injury.; The request is for hip pain.</p>	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	<p>This is a requests for a hip MRI.; This study is being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip.;" There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient has a documented limitation of their range of motion.</p>	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	<p>This is a requests for a hip MRI.; This study is being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip.;" There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has a documented limitation of their range of motion.</p>	2
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	<p>This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip.;" There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient has a documented limitation of their range of motion.</p>	22
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	<p>This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip.;" There is a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient has a documented limitation of their range of motion.</p>	9

Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has a documented limitation of their range of motion.	12
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient has a documented limitation of their range of motion.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	3
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has a documented limitation of their range of motion.	12
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	2

Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Orthopedics	Approval	73725 Magnetic resonance angiography, lower extremity, with or without contrast material(s)		unknown; Is this a request for one of the following? MR Angiogram lower extremity	1
Orthopedics	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; Yes, the patient has been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the abdominal arteries.	1
Orthopedics	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/23/17; There has been treatment or conservative therapy.; Neck and back pain with radiculopathy. Decreased mobility, numbness and weakness in the lower extremities. Symptoms include bowel and bladder dysfunction, erectile dysfunction, problems climbing stairs, bending, walking and pain at night.; Nonsteriodal anti-inflammatory medication, lifestyle modification, spinal exercises and rest for over 6 weeks; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does not have any neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to chronic neck pain or suspected degenerative disease.; There has been a supervised trial of conservative management for at least 6 weeks.; There is a reason why the patient cannot have a Cervical Spine MRI.	1
Orthopedics	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; May 5th 2017; There has been treatment or conservative therapy.; Severe low back pain in the gluteal area and legs. Pain is radiated to the legs. Pain is described as ache, sharp and throbbing. symptoms are aggravated by ascending stairs, bending, descending stairs, lifting, walking and night pain. Symptoms include; Patient has had 6 weeks of conservative care without any results.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary		1
Orthopedics	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	evaluate pseudo joint; This study is being ordered for a neurological disorder.; 2006; There has been treatment or conservative therapy.; chronic radiculopathy.; home exercise program, out pt therapy. medications.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has had injections in the past but they have been over 1 year ago. I recommend a right L4 nerve root block After the nerve root block will see the patient back. At that time I will get an MRI to evaluate for progression of the foraminal; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1. Foraminal stenosis, right, L4-5 with right L4 radiculopathy 2. Avascular necrosis, bilateral hips 3. Status post L5-S1 TLIF and PSIF, on 2/1/13 for lytic spondylolisthesis; There has been treatment or conservative therapy.; ; Inj Foramen Epidural right L4 nerve root block; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	1

Orthopedics	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	X-rays reveal pedicle instrumentation L5-S1 I think her fusion is stable disc height above this as well maintained. She does have some mild degenerative changes status post extensive lumbar laminectomy and fusion L5-S1 chronic low back pain; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2010; There has not been any treatment or conservative therapy.; Now she has some chronic ongoing pain. She was morbidly obese in the past and had a gastric bypass surgery which allowed her to lose over 200 pounds. She does have an ongoing pannus that may be contributing to her chronic low back pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; left arm; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.;	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; 04/16/2018; There has been treatment or conservative therapy.; Weakness on left side.; NSAIDs; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; The problem began 1 year ago and the pain is a 8 out of 10 in severity; There has not been any treatment or conservative therapy.; Pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	neck problems in bicep and tricep area, pain is 9 out 10, pt has had CHIRO tx, limited range of motion of the neck on both sides.; This is a request for cervical spine MRI; None of the above; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	none; This study is being ordered for trauma or injury.; Feb 2018; There has been treatment or conservative therapy.; none; steroid injection , PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	r/o dislocation; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3-1-18; There has been treatment or conservative therapy.; shoulder pain, right lateral cervical pain.; injections, Meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	There is pain with range of motion of the neck. There is decreased sensation in the radial aspect of the forearm; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; The patient is a 34-year-old, right-hand-dominant male who states that for the past 2-1/2 weeks he has had pain and numbness in the right upper extremity. He is also complaining of weakness.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	2
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	2
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Yes, this patient had a recent course of supervised physical Therapy.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.;	2
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Trauma or recent injury; ; No, the patient does not have new or changing neurological signs or symptoms.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	to rule out partial rupture of bicep tendon; This study is being ordered for trauma or injury.; 8/2017; There has been treatment or conservative therapy.; Pain in left bicep and weakness; anti inflammatory medications and injection; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if there is x-ray evidence of a recent cervical spine fracture.; tingling and numbness	1
Orthopedics	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Orthopedics	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	I reviewed the x-rays of her lumbar spine which reveals spondylolysis with minimal spondylolisthesis at L5-S1. I reviewed the thoracic x-rays which show mild degenerative changes. There is some subtle scoliosis. Spondylolysis L5-S1; This is a request for a thoracic spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 05/07/2018; There has been treatment or conservative therapy.; cervical and lumbar pain.....radiating symptom on legs; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.;	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; None of the above; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; he could not walk without the use of someone to support him, more use of a crutch His left hip shows pain with internal rotation as well as flexion of the hip. Strength is appropriate. He does have some discomfort with palpation across the lumbar region ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/13/2018; There has been treatment or conservative therapy.; ; pain management; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	bilat hip pain, inguinal aream tenderness to touch on spine, left sciatic nerve pain, pt been treated w nsaid, oral analgesics, chiropractor therapy, antalgic gait; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; lbp, tenderness at spine, left sciatic nerve pain, antalgic gait, no relief from nsaid, PT and chiropractor care; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	D disc degeneration and severe facet hypertrophy, L4-5 and L5-S1 with probable moderate foraminal stenosis, radiating bilateral leg pain; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; It is not know if the patient has seen the doctor more then once for these symptoms.	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	evaluate pseudo joint; This study is being ordered for a neurological disorder.; 2006; There has been treatment or conservative therapy.; chronic radiculopathy.; home exercise program, out pt therapy. medications.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	I reviewed her studies with her and they show straight alignment a solid fusion and no significant changes in the disc below the level of the fusion. With the fact that this pain only started April 1st I have encouraged her to take anti-inflammatories an; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Lumbar degenerative disc disease, L4-5 and L5-S1; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	none; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/18/18; There has not been any treatment or conservative therapy.; Pain in motion and positive straight leg raise.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	persistent low back and leg pain- failed conservative management treatment.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; L-Spine ROM: Decreased lumbar flexion and pain with ROM on extension	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	prior surgery on Lumbar spine tenderness; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	<p>The patient has had injections in the past but they have been over 1 year ago.&#x0D;&#x0D;</p> <p>I recommend a right L4 nerve root block&#x0D;&#x0D;</p> <p>After the nerve root block will see the patient back. At that time I will get an MRI to evaluate for progression of the foraminal; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1. Foraminal stenosis, right, L4-5 with right L4 radiculopathy&#x0D;</p> <p>2. Avascular necrosis, bilateral hips&#x0D;</p> <p>3. Status post L5-S1 TLIF and PSIF, on 2/1/13 for lytic spondylolisthesis; There has been treatment or conservative therapy.; ; Inj Foramen Epidural right L4 nerve root block; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	<p>The patient is a left handed 63 year old female seen today for the low back. Pain is moderate with a rating of 8/10. She describes the symptoms as aching. The symptoms come and go. Since the onset, she reports the problem is getting worse. The symptoms ar; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Straight leg testing is negative on the left lower extremity but very painful on the right lower extremity. &#x0D;</p> <p>Local inspection shows no step-off or bruising. Lumbar alignment is abnormal due to underlying scoliosis. Sagittal and Coronal balance is neutral; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.</p>	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	<p>The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?</p>	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	<p>The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection</p>	6
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	<p>UNKNOWN; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2006; There has been treatment or conservative therapy.; NECK PAIN RADIATING INTO SHOULDERS, LOW BACK PAIN, LEG PAIN RADIATING INTO ANKLES AND FEET; HOME EXERCISE, PHYSICAL THERAPY, MEDICATIONS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	<p>History of Present Illness&#x0D;</p> <p>Ms. Gann is a 32 year old female who comes on follow up. She has a history of primary fibromyalgia syndrome and obesity. She has had several skin patches that she was concerned could be psoriasis, so she was referred to a derma; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT</p>	1

Orthopedics	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	swelling above right clavicle; checking for possible mass; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/01/2017; There has been treatment or conservative therapy.; pain, discomfort reaching behind, swelling, stiffness; Physical Therapy, NSAID'S, HEP; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	to rule out partial rupture of bicep tendon; This study is being ordered for trauma or injury.; 8/2017; There has been treatment or conservative therapy.; Pain in left bicep and weakness; anti inflammatory medications and injection; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; Dr. Corbett has been treating patient for more than 6 weeks with anti-inflammatories and home exercises with no improvement; Meloxicam tramadol; The patient received medication other than joint injections(s) or oral analgesics.	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; 04/16/2018; There has been treatment or conservative therapy.; Weakness on left side.; NSAIDs; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; The problem began 1 year ago and the pain is a 8 out of 10 in severity; There has not been any treatment or conservative therapy.; Pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	I need MRI of her right hand and wrist w/wo contrast to rule out RA; This study is being ordered for Inflammatory/ Infectious Disease.; 09/29/2017; There has been treatment or conservative therapy.; Bilateral hands show prominent styloids. Carpal bones are well delineated. MCP, PIP, DIP joints show no erosions, no proliferative disease.  Feet films show normal metatarsophalangeal joints. Calcaneal spurring. Osteophytosis dorsum of both feet.  tenos; clotrimazole-betamethasone 1 %-0.05 % topical cream triamcinolone acetonide 0.1 % topical cream Prednisone; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Patient has a tear.; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthrscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	r/o dislocation; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3-1-18; There has been treatment or conservative therapy.; shoulder pain, right lateral cervical pain.; injections, Meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Suspected rotator cuff tears; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has been treatment or conservative therapy.; Chronic pain; injections, medications, physical therapy, home exercises; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is an orthopedist.	1
Orthopedics	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/26/2015; There has been treatment or conservative therapy.; Pain; Steroid injections, Medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; There is not a suspicion of fracture not adequately determined by x-ray.; The study is requested for ankle pain.; Tendon or ligament injury is not suspected.	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Mild medial and lateral patellar facet tenderness. There is moderate tenderness along the medial joint line. Right knee ROM is 0 - 90 degrees. Positive for Patellar Compression testing. There is a small mass noted in the calf just proximal to the musculot; This study is being ordered for trauma or injury.; January 2018; There has been treatment or conservative therapy.; The patient experiences pain, bruising, swelling, popping and weakness.; There has been no change in the symptoms with ice, heat, rest and anti-inflammatory medication. Anti-inflammatory medication: Ibuprofen x 6 months.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	SUSPECTED MORTONS NEUROMA IN LEFT FOOT. PATIENT IS IN EXTREME PAIN.; This is a request for a foot MRI.; The study is being ordered for foot pain.; The study is being ordered for neuroma.; The patient has had foot pain for over 4 weeks.; The patient has been treated with anti-inflammatory medication for at least 6 weeks.	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Instability	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI.;" There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI.;" There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	3

Orthopedics	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 4/20/2018; There has not been any treatment or conservative therapy.; Lesions that have increased in size, painful coccyx, and unable to sit directly erect due to the pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	1. BILATERAL HIP  tthis patient comes in today for evaluation. She fell 15 feet from a zip line in August 2017 it directly on her back. She said that the Army told her she had a sacral alar fracture and a lesser trochanteric fracture. They really did; This study is being ordered for trauma or injury.; She fell 15 feet from a zip line in August 2017 it directly on her back. She said that the Army told her she had a sacral alar fracture and a lesser trochanteric fracture. They really didn't offer any treatment. She presents today with bilateral hip pa; There has been treatment or conservative therapy.; 1. BILATERAL HIP  tthis patient comes in today for evaluation. She fell 15 feet from a zip line in August 2017 it directly on her back. She said that the Army told her she had a sacral alar fracture and a lesser trochanteric fracture. They really did; She has attended physical therapy and the physical therapist said he didn't have anything to offer her. She is seeing a neurosurgeon who is ruled out discogenic problems; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient has a documented limitation of their range of motion.	1
Orthopedics	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has a documented limitation of their range of motion.	2
Osteopath	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.	1
Osteopath	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Osteopath	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; < Enter Additional Clinical Information>; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1

Osteopath	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1
Other	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.	1
Other	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has the worst headache of patient's life with onset in the past 5 days; Headache best describes the reason that I have requested this test.; This is NOT a Medicare member.	1
Other	Approval	70486 Computed tomography, maxillofacial area; without contrast material		"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Other	Approval	70486 Computed tomography, maxillofacial area; without contrast material		Cyst; "This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is not a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Other	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	1
Other	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		It is not known if the patient has any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.	1
Other	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 2015; There has been treatment or conservative therapy.; lower back pain, neck pain; Blocks; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		none; This study is being ordered for Inflammatory/ Infectious Disease.; 45 days ago; There has been treatment or conservative therapy.; positive for back pain, weakness, bruising and red discoloration; antibiotics; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	1

Other	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has completed Treatment with a facet joint or epidural injection in the past 6 weeks	1
Other	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	1
Other	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is suspicion of upper extremity bone or soft tissue infection.	1
Other	Approval	73700 Computed tomography, lower extremity; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is no suspicion of lower extremity bone or joint infection.; There is not a history of lower extremity joint or long bone trauma or injury.; This is a request for a Leg CT.; Yes this is a request for a Diagnostic CT	1
Other	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	2
Other	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.	2
Other	Approval	74150 Computed tomography, abdomen; without contrast material		pt.'s liver is enlarged.; This is a request for an Abdomen CT.; This study is being ordered for organ enlargement.; Which organ is enlarged? Liver; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
Other	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		checking disease status on treatment; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1

Other	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Other	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Other	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Other	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been less than 14 days since onset; Yes this is a request for a Diagnostic CT	1
Other	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are unknown.; Yes this is a request for a Diagnostic CT	1
Other	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; DEC 2014; There has been treatment or conservative therapy.; BACK PAIN; MEDICATION, PHYSICAL THERAPY; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Other	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; cervical radiculopathy, and UPE pain	1
Other	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/4/18; There has been treatment or conservative therapy.; pain, leg pain; meds, PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/4/18; There has been treatment or conservative therapy.; pain, leg pain; meds, PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; DEC 2014; There has been treatment or conservative therapy.; BACK PAIN; MEDICATION, PHYSICAL THERAPY; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Disapproval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	This is a request for CT Angiography of the Abdomen and Pelvis.	1
OTHER O/P DIAG TESTING	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	1
Otolaryngology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The headache is described as a "thunderclap" or the worst headache of the patient's life.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.	1
Otolaryngology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material		"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is not suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; "There is not a history of serious head or skull, trauma or injury.ostct"; "There is not suspicion of neoplasm, or metastasis.ostct"; This is a preoperative or recent postoperative evaluation.	5

Otolaryngology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is not suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; "There is not a history of serious head or skull, trauma or injury.ostct"; "There is not suspicion of neoplasm, or metastasis.ostct"; This is not a preoperative or recent postoperative evaluation.; "There is not suspicion of acoustic neuroma, pituitary or other tumor. ostct"	7
Otolaryngology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is not suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; "There is not a history of serious head or skull, trauma or injury.ostct"; "There is not suspicion of neoplasm, or metastasis.ostct"; This is not a preoperative or recent postoperative evaluation.; "There is not suspicion of acoustic neuroma, pituitary or other tumor. ostct"; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is not suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; "There is not a history of serious head or skull, trauma or injury.ostct"; "There is suspicion of neoplasm, or metastasis.ostct"	1
Otolaryngology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	This is a request for an Internal Auditory Canal CT.; There is a suspected cholesteatoma of the ear.; The patient had a recent abnormal auditory brainstem response.; The patient has not had a recent abnormal brain CT or MRI.; There are neurological symptoms of one-sided hearing loss or sudden onset of ringing in 1 or both ears.; There is a suspected Acoustic Neuroma or tumor of the inner or middle ear.	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	"This request is for face, jaw, mandible CT.239.8"; "There is a history of serious facial bone or skull, trauma or injury.fct"; Yes this is a request for a Diagnostic CT	4
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	3
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is suspicion of neoplasm, tumor or metastasis.fct"; Yes this is a request for a Diagnostic CT	4
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	4
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	38 year old female presents today with complaints of nasal tip redness swelling and tenderness to touch. She reporting having small pimple inside the left nostril that got worse on Saturday and she then had to go to ER. She was started on bactrim and he; "This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is not a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1

Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		4 infection in past six months- Tried MEDS - Pain between eyes, nose congestion- ear and teeth Pain,; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		Chronic sinusitis, PT has asthma, had complains of pressure and pain from forehead up to head. Takes antibiotics amoxicillin once a month. Took daily for several weeks, and Benadryl occasionally; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		Deviated Nasal Septum, hypertrophy nasal turbinates; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are unknown.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		his is a 59 year old male who comes in for a chief complaint of sinus problems noticed in between the eyes, both sides of the brow, both sides of the face, both sides of the head, and both sides of the nose. The patient is referred by Self referred , wh; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		HPI Patient is here today with complaints of nasal congestion and nasal polyp in the left nare. He states that it has been present for several weeks. He is not using any nasal steroid sprays. He states that he did get a Decamix injection and the polyp; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		pt cant smell or taste; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		pt has facial pain/headaches/drainage/fatigue. She has tried antibiotics/steroids/antihistamines/decongestants with no improvement; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		sinusitis bilateral periorbital pressure, and bilateral variable nasal congestion. Denies significant rhinorrhea. He has some mild post nasal drainage. He does have purulent drainage with infections. He has occasional sneezing and itchy eyes. He has not; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1

Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for a known or suspected tumor.; Yes this is a request for a Diagnostic CT	10
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for pre-operative evaluation.; Yes this is a request for a Diagnostic CT	27
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset AND the patient failed a course of antibiotic treatment; Yes this is a request for a Diagnostic CT	6
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset; Yes this is a request for a Diagnostic CT	2
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	43
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This study is being ordered for a known or suspected tumor.; This is a request for a Sinus CT.; Yes this is a request for a Diagnostic CT	4
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The neck mass is 1 cm or smaller.; The neck mass has been examined twice at least 30 days apart.; The lump did not get smaller.; A fine needle aspirate was NOT done.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is NOT a palpable neck mass or lump.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		Carcinoma metathesized to neck; chest CT is for surveillance to lung; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		CT of the neck and chest w contrast - L vocal cord paralysis  His reason for this visit is eval voice loss.  His problem has been present for approx four months.  He describes the problem as moderate in severity.  He describes the symptoms as voice lo; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		CT of the neck to look at his airway and laryngeal anatomy prior to considering direct endoscopy; This is a request for neck soft tissue CT.; Surgery is NOT scheduled within the next 30 days.; The study is being ordered as a pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		history of the lump on the neck the left side is more than the right and has gotten larger over time; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The neck mass is larger than 1 cm.; A fine needle aspirate was NOT done.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		Marion Russell is a 61 y.o. female here for follow up. She had sequential removal of elongated/calcified stylohyoid ligament. She is about 2 months out for surgery on left side. She still has pain on left side that radiates into entire face. Worse with s; This is a request for neck soft tissue CT.; The study is being ordered for something other than Trauma or other injury, Neck lump/mass, Known tumor or metastasis in the neck, suspicious infection/abcess or a pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		mouth mass, tongue swelling.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		Ms. Nava-Lopes is a 23 y.o. female with a history of recurrent plexiform fibrohistiocytoma treated with surgery (4th resection) in Feb 2018. She initially did well but now notes new, sharp stabbing pain to anterior low neck. No palpable masses on exam, TT; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is NOT a palpable neck mass or lump.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		patient has a five month post level interior infusion. Further evaluation of pain.; This is a request for neck soft tissue CT.; The study is being ordered for something other than Trauma or other injury, Neck lump/mass, Known tumor or metastasis in the neck, suspicious infection/abcess or a pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		Pt has severe otalgia and other causes have been ruled out. Dr. suspects a nerve impingement per his note. Cervical x-ray was negative.; This is a request for neck soft tissue CT.; The study is being ordered for something other than Trauma or other injury, Neck lump/mass, Known tumor or metastasis in the neck, suspicious infection/abcess or a pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		smokes 1/2 ppd for 40 years  the lesion appeared gradually and was not associated with a precipitating event. the patient has not undergone any prior treatment for the current condition. pt complains the knot in left neck has been there for 12 years.; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The neck mass is larger than 1 cm.; A fine needle aspirate was NOT done.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; It is unknown if there has been recent trauma or other injury to the neck.; It is unknown if there is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; It is unknown if there is a suspicion of an infection or abscess.; It is unknown if this is being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; Surgery is scheduled within the next 30 days.; The patient has a suspicious infection or abscess.; Yes this is a request for a Diagnostic CT	2

Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; The study is being ordered for Follow Up.; The patient has a known tumor or metastasis in the neck.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; There are new or changig symptoms in the neck.; Yes this is a request for a Diagnostic CT	3
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; It is unknown if there is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is not a suspicion of an infection or abscess.; This is being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is no suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is not a suspicion of an infection or abscess.; This is being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	3
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	72
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		Unknown; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The neck mass is 1 cm or smaller.; The neck mass has been examined twice at least 30 days apart.; The lump did not get smaller.; A fine needle aspirate was NOT done.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		We do not have the results yet from the fine needle biopsy; This is a request for neck soft tissue CT.; It is not known if the patient has been diagnosed with cancer.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The neck mass is larger than 1 cm.; A fine needle aspirate was done.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the brain.	2
Otolaryngology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)			1
Otolaryngology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		"This is a request for orbit,face, or neck soft tissue MRI.239.8"; The study is ordered for suspicion of neoplasm, tumor or metatstasis	1
Otolaryngology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		There is a suspicion of an infection or abscess.; This is a request for an Orbit MRI.; It is unknown if there is a history of orbit or face trauma or injury.	1
Otolaryngology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		There is not a suspicion of an infection or abscess.; This examination is being requested to evaluate lymphadenopathy or mass.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	2

Otolaryngology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		Pulsatile tinnitus; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Otolaryngology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		pulsating tinnitus, headache, HTN, carotid bruit; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Otolaryngology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Otolaryngology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		This is a request for a head and neck MR Angiogram.; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; "There is not a sudden onset of one-sided weakness, speech impairment, vision defects or severe dizziness."; This patient does not have an abnormal ultrasound of the neck.	1
Otolaryngology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		The patient has had a recent MRI or CT for these symptoms.; This is a request for a Neck MR Angiography.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient is experiencing vertigo	1

Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Headache  This is a new problem. The current episode started 1 to 4 weeks ago. The problem occurs constantly. The problem has been gradually worsening. The pain is located in the retro-orbital and frontal region. The pain does not radiate. The pain qual; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has dizziness.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	na; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient is experiencing dizziness.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	significant decrease or loss of smell history of migraine headaches denies any recent new focalized increased frequency or duration of headaches, vision changes or loss facial weakness or numbness, purulent green drainage. 2-3 month history of voice ra; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if a metabolic work up was done including urinalysis, electrolytes and complete blood count with results completed.; The patient is experiencing loss of smell.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This is a request for an Internal Auditory Canal MRI.; There is not a suspected Acoustic Neuroma or tumor of the inner or middle ear.; There is not a suspected cholesteatoma of the ear.; The patient has not had a recent brain CT or MRI within the last 90 days.; There are neurologic symptoms or deficits such as one-sided weakness, speech impairments, vision defects or sudden onset of severe dizziness.	3
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The patient did not have a normal audiogram.; The patient is experiencing hearing loss.	18
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; The patient has a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection.; This is NOT a Medicare member.	1

Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.	2
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for and infection or inflammation.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		unknown; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material			2
Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material		Carcinoma metathesized to neck; chest CT is for surveillance to lung; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material		mouth mass, tongue swelling.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material		pre op for surgery; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		This study is requested to evaluate suspected pulmonary embolus.; Yes, this is a request for a Chest CT Angiography.	1
Otolaryngology	Approval	73725 Magnetic resonance angiography, lower extremity, with or without contrast material(s)			1

Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body			1
Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lymphoma or Myeloma.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; It is unknown if the patient completed a course of treatment initiated in the last 8 weeks or are experiencing new signs or symptoms.; The patient does NOT have Thyroid or Brain cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Otolaryngology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	2
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for a known or suspected tumor.; Yes this is a request for a Diagnostic CT	4
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for post-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	7
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are unknown.; Yes this is a request for a Diagnostic CT	1

Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is immune-compromised.; Yes this is a request for a Diagnostic CT	3
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been less than 14 days since onset AND the patient improved, then worsened; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	17
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is not being ordered for trauma, tumor, sinusitis, osteomyelitis, pre operative or a post operative evaluation.; Yes this is a request for a Diagnostic CT	4
Otolaryngology	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	There is a suspicion of an infection or abscess.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1
Otolaryngology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an Internal Auditory Canal MRI.; There is a suspected Acoustic Neuroma or tumor of the inner or middle ear.	2
Otolaryngology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an Internal Auditory Canal MRI.; There is not a suspected Acoustic Neuroma or tumor of the inner or middle ear.; There is not a suspected cholesteatoma of the ear.; The patient has not had a recent brain CT or MRI within the last 90 days.; There are no neurologic symptoms or deficits such as one-sided weakness, speech impairments, vision defects or sudden onset of severe dizziness.; This is not a pre-operative evaluation for a known tumor of the middle or inner ear.	1
Otolaryngology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Thorax (Chest) CT.; Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Melanoma.; This is for evaluation of regional lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Pediatric Oncology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a known brain tumor.; Known or suspected tumor best describes the reason that I have requested this test.; There are documented neurologic findings suggesting a primary brain tumor.; This is NOT a Medicare member.	1
Pediatric Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.; A biopsy has been completed to determine tumor tissue type.	1
Pediatric Oncology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatric Oncology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Evaluation prior to next stage of chemo; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatric Oncology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		Evaluation prior to next stage of chemo; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatric Oncology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	3
Pediatrics	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Known or suspected blood vessel abnormality (AVM, aneurysm) with documented new or changing signs and or symptoms best describes the reason that I have requested this test.; This is NOT a Medicare member.	1
Pediatrics	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Pediatrics	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.	2
Pediatrics	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has the worst headache of patient's life with onset in the past 5 days; Headache best describes the reason that I have requested this test.; This is NOT a Medicare member.	1
Pediatrics	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; It is unknown if there is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is a suspicion of an infection or abscess.; Yes this is a request for a Diagnostic CT	1

Pediatrics	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		; This study is being ordered for trauma or injury.; NEUROFIBROMATOSIS TYPE 1; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient is experiencing dizziness.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for trauma or injury.; NEUROFIBROMATOSIS TYPE 1; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		patient fell and had a concussion from that four weeks ago; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested due to trauma or injury.; There are not new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; The trauma or injury to the head occurred more than 1 week ago.	1

Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This patient is having intermittent facial weakness. Mom has noticed this over the past 2 months.  It is of mild intensity. He estimates that the frequency of this symptom is several times a month. Aggravating factors include talking/smiling. There is; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; February 8th, 2018; There has not been any treatment or conservative therapy.; Intermittent Facial Weakness. It is of mild intensity. He estimates that the frequency of this symptom is several times a month. Aggravating factors include talking/smiling. There is not constant facial weakness. They just notice that when he tries to sa; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	3
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient had a thunderclap headache or worst headache of the patient's life (within the last 3 months).	1
Pediatrics	Approval	71250 Computed tomography, thorax; without contrast material	lung nodule; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	; This study is not requested to evaluate suspected pulmonary embolus.; It is not known if this study will be performed in conjunction with a Chest CT.; This study is being ordered for Suspected Vascular Disease.; There are new signs or symptoms indicative of a dissecting aortic aneurysm.; Yes, this is a request for a Chest CT Angiography.	1
Pediatrics	Approval	71555 Magnetic resonance angiography, chest (excluding myocardium), with or without contrast material(s)	RECURRENT PALPITATIONS AND DOCUMENTED SVT ON EVENT MONITOR; This is a request for an MR Angiogram of the chest or thorax	1
Pediatrics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Pediatrics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.; It is not known if the patient had six weeks of Chiropractic care related to this episode.;	1

Pediatrics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	1
Pediatrics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Pediatrics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	8
Pediatrics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; There is documented findings of severe pain on motion.	3
Pediatrics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; There are no documented findings of crepitus.; There are documented findings of swelling.; The ordering physician is not an orthopedist.; The patient does not have a documented limited range of motion on physical examination.; There is no documented findings of severe pain on motion.	1
Pediatrics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.	2
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.; It is not known if patient has completed and failed a course of conservative treatment.	1
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Instability	2

Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Limited range of motion	1
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; Swelling greater than 3 days	1
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were normal.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Pain greater than 3 days	1
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.	1
Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; FATIGUE DUE TO EXCESSIVE EXERTION; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	5
Pediatrics	Approval	75557 Cardiac magnetic resonance imaging for morphology and function without contrast material;		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Pediatrics	Approval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)		This request is for a Coronary CT Angiography study.; No, patient did not have a Nuclear Cardiology study within the past six months.; None of the above.; to evaluate the echogenic structure at the origin of the RPA and to be sure that there is no obstruction to RPA flow.	1
Pediatrics	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Developmental delay.; This study is being ordered for Inflammatory/ Infectious Disease.; Unknown.; There has been treatment or conservative therapy.; Pain and shortness of breath. Interspinous lung disease. Sleep apnea.; Physical therapy.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/02/2018; There has been treatment or conservative therapy.; Neck pain and low back pain; Medication & exercise; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Developmental delay.; This study is being ordered for Inflammatory/ Infectious Disease.; Unknown.; There has been treatment or conservative therapy.; Pain and shortness of breath. Interspinous lung disease. Sleep apnea.; Physical therapy.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; &Enter Additional Clinical Information&	1
Pediatrics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/02/2018; There has been treatment or conservative therapy.; Neck pain and low back pain; Medication & exercise; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	1

Pediatrics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	tingling of feet and lower extremities, headaches; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Pediatrics	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	She has tenderness to palpation over her anterior and posterior elbow and over her humerus. No tenderness to palpation over her scapula or shoulder. There is pain with supination and pronation, more pain in the elbow with flexion with adduction and abduct; This study is being ordered for trauma or injury.; There is pain with supination and pronation, more pain in the elbow with flexion with adduction and abduction, internal and external rotation of the shoulder she has pain in her humerus also. pain has returned again since she began playing softball. The p; There has been treatment or conservative therapy.; The pain is a dull pain with moments of shooting pain. It occurs in her anterior posterior elbow up the humerus and then also in the shoulder. The greatest pain is in the elbow and in the humerus.; ibuprophen and bio-freeze; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	She has tenderness to palpation over her anterior and posterior elbow and over her humerus. No tenderness to palpation over her scapula or shoulder. There is pain with supination and pronation, more pain in the elbow with flexion with adduction and abduct; This study is being ordered for trauma or injury.; There is pain with supination and pronation, more pain in the elbow with flexion with adduction and abduction, internal and external rotation of the shoulder she has pain in her humerus also. pain has returned again since she began playing softball. The p; There has been treatment or conservative therapy.; The pain is a dull pain with moments of shooting pain. It occurs in her anterior posterior elbow up the humerus and then also in the shoulder. The greatest pain is in the elbow and in the humerus.; ibuprophen and bio-freeze; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Pediatrics	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is a suspected infection of the hip.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass adjacent to or near the hip.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has a documented limitation of their range of motion.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.; Yes this is a request for a Diagnostic CT	1

Pediatrics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	She also does complain of her left ankle bothering her both laterally over the Tate Lowe fibular ligament was also more medially. It does bother most days for year and a half. It did not get better when she took off dancing last summer.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1 YEAR AND A HALF; There has been treatment or conservative therapy.; She also does complain of her left ankle bothering her both laterally over the Tate Lowe fibular ligament was also more medially. It does bother most days for year and a half. It did not get better when she took off dancing last summer.; OTC; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Pediatrics	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; Follow-up- fatty liver disease	1
Physical Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	1
Plastic Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a suspected brain tumor.; Known or suspected tumor best describes the reason that I have requested this test.; It is unknown if there are documented neurologic findings suggesting a primary brain tumor.	1
Plastic Surgery	Approval	70486 Computed tomography, maxillofacial area; without contrast material		"This request is for face, jaw, mandible CT.239.8"; "There is a history of serious facial bone or skull, trauma or injury.fct"; Yes this is a request for a Diagnostic CT	1
Plastic Surgery	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Plastic Surgery	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	1

Plastic Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	1
Plastic Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for a suspected implant rupture.; Yes, this study is being ordered to evaluate a suspected silicone implant rupture.	2
Plastic Surgery	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Evaluation of known or suspected CSF (cerebrospinal fluid) leak best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Plastic Surgery	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; It is unknown what led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Podiatry	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	3
Podiatry	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a foot CT.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; Yes this is a request for a Diagnostic CT	4
Podiatry	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a Lower Extremity CT.; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Podiatry	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for an ankle CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient had an abnormal plain film study of the ankle other than arthritis.; There is a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Podiatry	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for an ankle CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	2

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 04/12/2018; There has been treatment or conservative therapy.; PAIN, TENDENITIS, SPRAIN; MEDICATION, STRECTHING , RICE THERAPY; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	CHRONIC PAIN RIGHT FOOT/ANKLE, INCREASING IN SEVERITY WITH NEGATIVE XRAYS AND UNRELEIVED BY IMMOBILIZATION OR MEDICATION.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; APPROXIMATELY FEB 2018; There has been treatment or conservative therapy.; UNABLE TO STAND, WALK WITHOUT PAIN INTO FOOT, ANKLE AND SENDS PAIN UP HER LEG; IMMOBILIZATION, NSAIDS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	na; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	PATIENT HAS PAIN AND UNILATERAL SWELLING OF THE RIGHT ANKLE OF ABOUT 6 MONTHS DURATION. SIGNIFICANT PAIN AND LIMITATION OF MOBILITY WITH LIMITED ABILITY TO BEAR WEIGHT ON FOOT. X-RAYS WERE TAKEN (X 2; 2 MONTHS APART) THEY WERE NEGATIVE FOR FRACTURE OR OT; This is a request for an Ankle MRI.; Surgery or arthrscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	PATIENT TWISTED HER ANKLE IN MARCH. DJD NOTED LEFT TALO NAVICULAR JOINT. SHE WAS GIVEN AN INJECTION AND PLACED IN A CAM WALKER. ON 4-25 THERE IT IS STILL PAINFUL, PALPABLE PAIN TNJ L. NOTED. R/O PT TENDON RUPTURE.; This is a request for an Ankle MRI.; The pain is from a recent injury.; Surgery or arthrscopy is not scheduled in the next 4 weeks.; The member has a recent injury.; The study is requested for a reason other than ankle pain.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	pt fell on 05/14/18 off a curb, X-ray showed no breaks, but bruising, Pt has boot for 6 weeks and medication, limited range of motion, pain. MRI checking for tendon injury.; This is a request for an Ankle MRI.; Surgery or arthrscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Soft tissue mass; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/2018; There has not been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	3
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.	6
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.	8
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient does not have a documented limitation of their range of motion.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.	4

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.	11
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient has a documented limitation of their range of motion.	4
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; Surgery is planned for within 30 days.; The study is being ordered for a pre op.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; The study is being ordered for known fracture.; The study is being ordered to evaluate a possible non union fracture.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; The study is being ordered for foot pain.; The study is being ordered for chronic pain.; The patient has had foot pain for over 4 weeks.; The patient has been treated with a protective boot for at least 6 weeks.	1

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a suspected tarsal coalition.	9
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has been treated with and failed a course of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient has a documented limitation of their range of motion.; This study is not being ordered by an operating surgeon for pre-operative planning.	3
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; Surgery or arthroscopy is scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	3
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; This is a request for an Ankle MRI; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.; The patient has a documented limitation of their range of motion.	1
Podiatry	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 1/15/18; There has been treatment or conservative therapy.; Back Pain, numbness, weakness; PT, medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Podiatry	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 1/15/18; There has been treatment or conservative therapy.; Back Pain, numbness, weakness; PT, medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Podiatry	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	"There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.; This is a request for bilateral foot MRI.; Patient has pain in both feet	2
Podiatry	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	"There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.; This is a request for bilateral foot MRI.; Pt has continued pain in both feet. There is swelling and burning pain. There's a tinel's sign with percussion over the sural nerve about the lateral forefoot bilaterally	2
Podiatry	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	"There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.; This is a request for bilateral foot MRI.; Unkown	1
Podiatry	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a foot MRI.; The study is being ordered for foot pain.; The study is being ordered for tendonitis.; The patient has had foot pain for over 4 weeks.; The patient has been treated with anti-inflammatory medication for at least 6 weeks.	1
Podiatry	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Ashley Friend is a 38 y.o. female who had concerns including Foot Problem (R foot pain. Patient said it hurts really bad. Patient said that her 3rd,4th and 5th toes she cant hardly feel those. Patient said on her heel it been hurting really bad too. Pati; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1

Podiatry	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Mass on top of right foot Pain in right foot Difficulty walking possible stress fracture Pain for about 1 year, worse in the last 2 months; The patient has not had a recent bone scan.; This is a request for a foot MRI.; The study is being ordered for suspected fracture.; They did not have 2 normal xrays at least 3 weeks apart that did not show a fracture.	1
Podiatry	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI.;" There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	2
Pulmonary Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material			1
Pulmonary Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material		; This study is being ordered for Congenital Anomaly.; December 2017.; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pulmonary Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	70490 Computed tomography, soft tissue neck; without contrast material			1
Pulmonary Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Check to make sure that cancer did not spread to his brain.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Pulmonary Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		lung cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material			79

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	"There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is radiologic evidence of a lung abscess or empyema.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	; This study is being ordered for Congenital Anomaly.; December 2017.; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; copd and sinusitis; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has not been any treatment or conservative therapy.; SOB Increased cough and wheezing; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	4 mm non calcified nondule right middle lob of lung R, bybiapical pleural parenchymal thickening scaring; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	5mm Lung nodule noted on CT 1 year ago. Patient is a current smoker; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	A Chest/Thorax CT is being ordered.; The patient had a Chest x-ray in the past 2 weeks.; The study is being ordered for none of the above.; This study is being ordered for hemoptysis.; Yes this is a request for a Diagnostic CT	3
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	A Chest/Thorax CT is being ordered.; This study is being ordered for known tumor.; Yes this is a request for a Diagnostic CT	14
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	A Chest/Thorax CT is being ordered.; This study is being ordered for suspected pulmonary Embolus.; Yes this is a request for a Diagnostic CT	3

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal finding in lung field. Hospitalized with CVA in May.; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	40
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	105
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	CALCIFIED LYMPH NODES, INTERMITTENT DYSPNEA AND CHEST PAIN. GASTROPARESIS WITH INTRACTABLE NAUSEA AND VOMITING. ULCERATIVE COLITIS; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Chest pain describes the reason for this request.; This study is being requested for an unresolved cough; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Coughing up blood (hemoptysis) describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	3
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	follow up 6 month CT of Chest to evaluate multiple lung nodules with largest in size 6mm.; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	lung nodules in L lung; 5 were 2cm in size;; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; Abnormal imaging (xray) finding was relevant in the diagnosis or suspicion of inflammatory lung disease; This study is being requested for known or suspected inflammatory disease such as sarcoidosis, pneumoconiosis, asbestosis, silicosis; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; Abnormal imaging (xray) finding was relevant in the diagnosis or suspicion of vascular disease; This is a request for a Chest CT.; This study is being requested for known or suspected blood vessel (vascular) disease; Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; Abnormal lab finding was relevant in the diagnosis or suspicion of inflammatory lung disease; This study is being requested for known or suspected inflammatory disease such as sarcoidosis, pneumoconiosis, asbestosis, silicosis; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; An abnormal finding on physical examination led to the suspicion of infection.; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient does NOT have signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Patient has COPD and Asthma, she has a worsening cough and shortness of breath. She also has abnormal Pulmonary Function Test in 10/2017. This is a 6 month follow up CT Scan from her appt in October 2017.; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		PMr. Bledsoe is a 63 year old white male being referred for shortness of breath. He has a PMH of hypertension, hyperlipidemia, and tobacco use. He states that he has had shortness of breath with exertion for years, night sweats, and a dry cough that is pr; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient has signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		pt has a headahce, and abnormal CT; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Pt know lung cancer, completed pacification of left hemi thoracic atelectasis plural effusion; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; It is unknown if there is radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		PT REFERRED TO PULM. BECAUSE SHE WAS SEEN BY PCP FOR A CHRONIC COUGH AND CXR WAS DONE, SHOWS INTERSTITIAL PROMINENCE,Scar pelvic atelectasis noted in the mid lungs No effusion or pneumothorax.; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		pt seen following a CT chest for evaluation of atherosclerotic disease of the thoracic aorta, which showed a 8mm patchy nodular density in the right lower lobe medially, which could reflect an inflammatory nodule although neoplastic process is difficult t; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; It is unknown if they had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		There is radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	9
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Two pulmonary nodules in the left lung, the largest of which measures 6.5 mm in size. The lung rads category is 3 and low-dose chest CT in 6 months is recommended. Hx tobacco abuse.; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Unexplained weight loss describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		will fax.; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		will FAX; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing			5
Pulmonary Medicine	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/2010; There has been treatment or conservative therapy.; unknown; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pulmonary Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; There is evidence of tumor or metastasis on a bone scan or x-ray.; The study is being ordered due to suspected tumor with or without metastasis.	1
Pulmonary Medicine	Approval	74150 Computed tomography, abdomen; without contrast material			1

Pulmonary Medicine	Approval	74150 Computed tomography, abdomen; without contrast material	Duration of Symptoms:Start: 04/25/2018 Physical Exam Findings:large hernia seen on cxr / shortness of breath Preliminary Procedures X-rays Already Completed:Procedure Date: 04/25/2018; Abnormal large paraesophageal hernia ; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone, Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement, Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is no suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; There are new symptoms including hematuria.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; It is unknown if the patient has completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1

Pulmonary Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)			2
Pulmonary Medicine	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on an imaging study.; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; A nodule of less than 4 centimeters has been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; The solitary pulmonary nodule was identified on an imaging study in the last 30 days.; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on an imaging study.; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	6

Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Melanoma.; It is unknown if this is for evaluation of regional lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This would be the first PET Scan performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Lung Cancer; This Pet Scan is being requested for Initial Treatment Strategy (Diagnosis and/or Staging); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This would be the first PET Scan performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Other, not listed above; This Pet Scan is being requested for Other solid tumor(s); This Pet Scan is being requested for Initial Treatment Strategy (Diagnosis and/or Staging); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Pulmonary Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; The reason for ordering this study is unknown.	3
Pulmonary Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Valves.; This is an initial evaluation of suspected valve disease.	1
Pulmonary Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Pulmonary Hypertension.	6
Pulmonary Medicine	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient quit smoking less than 15 years ago.	5

Pulmonary Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10/2017; There has been treatment or conservative therapy.; pt has a dry cough described as hacking that has been going on for over 6 months. It causes him to be short of breath. He has tried medications with no relief; pt has tried folnase, proAir inhaler, Qvar Inhaler, and Tessalon Perles; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	40
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal laboratory test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; An abnormal finding on physical examination led to the suspicion of infection.; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is 54 years old or younger.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; This study is being requested for 'none of the above'.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; Abnormal imaging (xray) finding was relevant in the diagnosis or suspicion of inflammatory lung disease; This study is being requested for known or suspected inflammatory disease such as sarcoidosis, pneumoconiosis, asbestosis, silicosis; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; An abnormal finding on physical examination led to the suspicion of infection.; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; Another abnormality led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; Known tumor and new symptoms involving the chest, chest wall, lung or pelvis is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1

Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; 'None of the above' are related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is being requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; 'None of the above' led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This study is being requested for an unresolved cough; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	5
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This study is being requested for 'none of the above'.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Pre-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	pt has pulmonary nodules; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is 54 years old or younger.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Disapproval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/8/2018; There has not been any treatment or conservative therapy.; increased shortness of breath, right lung volume loss, increase in restriction, adalic, nicotine addiction.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pulmonary Medicine	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Please see office notes from provider. Needing scan so patient can see a gastro doctor; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	pt has a headache, and abnormal CT; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Pulmonary Medicine	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; The patient has shortness of breath; Shortness of breath is not related to any of the listed indications.	1

Pulmonary Medicine	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	Mr. Carlton is a 53 y/o here today for c/o shortness of breath. His shortness of breath started about 3-4 months ago accompanied with chest pain. He has a DVT in his LLE. He feels he can walk "maybe a block", he does have a cough with white thick mucous p; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	1
Radiation Oncology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.	1
Radiation Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		Restaging with continued complaints of dizziness and headaches.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Radiation Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has been recent trauma or other injury to the neck.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is no suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is not a suspicion of an infection or abscess.; This is not being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Anterior floor of the mouth carcinoma; moderately differentiated carcinoma; did surgery; invasive squamous cell carcinoma with sarcomatoid differentiation with perineural and lymphovascular invasion present; has 2 of 28 lymph nodes that have cancer; 3/25 ly; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		CHECKING FOR BRAIN METS; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient is experiencing fatigue or malaise.	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patient has been treated with SRS and will return for follow up visit post treatment; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; It is not known if the tumor is a pituitary tumor or pituitary adenoma.	1

Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Per MRI done 03/28/18-A total of at least 7 enhancing intracranial lesions present on today's examination highly suspicious for intracranial metastatic disease with a questionable punctate enhancing eighth lesion adjacent to the right fourth ventricle ver; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; It is not known if there are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; It is not known if the tumor is a pituitary tumor or pituitary adenoma.	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Pt had recent ct of head showing brain mets. Radiation MD wants mri brain for srs planning with thinner slices.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; It is not known if the tumor is a pituitary tumor or pituitary adenoma.	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	5
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	11
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for a tumor.	7
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material		1year f/u; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; Known tumor and new symptoms involving the chest, chest wall, lung or pelvis is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Restaging during ongoing treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; It is unknown if the patient had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1

Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This reason this study is being requested is unknown.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material		Post-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material		surveillance; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	5
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material		unknown will fax; "Caller is NOT SURE if there is evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		breast cancer with possible spine metastasis. radiation planning; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	1
Radiation Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		< diagnose with cervical cancer; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Radiation Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		anal CA; This is a request for a Pelvis MRI.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; An abnormality was found in something other than the bladder, uterus or ovary.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
Radiation Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		breast cancer with possible spine metastasis. radiation planning; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	1
Radiation Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		initial staging.; This is a request for a Pelvis MRI.; The study is being ordered for something other than suspicion of tumor, mass, neoplasm, metastatic disease, PID, abscess, Evaluation of the pelvis prior to surgery or laparoscopy, Suspicion of joint or bone infect	1
Radiation Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		stage 4 a cervical cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Radiation Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	1
Radiation Oncology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."	1

Radiation Oncology	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	1
Radiation Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		surveillance; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Radiation Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		Patient has had a dramatic response to treatments thus far. New scans are being requested for replanning purposes.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Radiation Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being requested for Lymphoma or Myeloma.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiation Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being requested for Melanoma.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiation Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiation Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Radiation Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Radiation Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lung Cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiation Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs, symptoms or a rising CEA.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiation Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new sings or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiation Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; It is unknown if there is existing evidence of metastasis or other tumor in the body.; There is NOT a head and/or neck tumor that has been persistent over 3 months.; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiation Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiation Oncology	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient quit smoking less than 15 years ago.	1

Radiation Oncology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Radiology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)			1
Radiology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		patient following up with worsening symptoms after having vascular stents placed previously; This study is being ordered for Vascular Disease.; Unknown; There has been treatment or conservative therapy.; Dizziness, headaches, falls; Patient undergone prior vascular stenting procedures.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Radiology	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Radiology	Approval	71250 Computed tomography, thorax; without contrast material		surveillance of cancer; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Radiology	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	1
Radiology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does not have any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.	1
Radiology	Approval	72192 Computed tomography, pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Radiology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for evaluation of the pelvis prior to surgery or laparoscopy.	1
Radiology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Radiology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Radiology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; It is unknown if the patient has completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1

Radiology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for hematuria.; The patient has painful hematuria.; It is unknown if the patient has had an IVP (intravenous pyelogram).;	1
Radiology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; SUVERILLANCE OF CANCER	1
Radiology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; "The ordering physician is not an oncologist, urologist, gastroenterologist, or surgeon.";	1
Radiology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; < Enter answer here - or Type In Unknown If No Info Given. >	1
Radiology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
Radiology	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; It is unknown if the patient is presenting with pulmonary signs or symptoms of lung cancer or if there are other diagnostic test suggestive of lung cancer.; The patient quit smoking less than 15 years ago.	1
Rehabilitations	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is to be part of a myelogram or discogram.; Yes this is a request for a Diagnostic CT	1
Rehabilitations	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Plain films L-spine AP/lateral/flexion/extension 5/29/2018 at OA - On my review, there is transitional anatomy with small transitional T12 ribs, and likely partial sacralization of L5. There is disc height loss at L5-S1 which may represent transitional an; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Lumbar Spine Inspection: Normal alignment Bony Palpation of the Lumbar Spine: No tenderness of the spinous processes, No tenderness to palpation of the sacroiliac joints, No tenderness to palpation of the greater trochanters, No tenderness of the coccyx; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Rehabilitations	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	12

Rehabilitations	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	1
Rheumatology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a chronic headache, longer than one month; Headache best describes the reason that I have requested this test.	1
Rheumatology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Rheumatology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	2
Rheumatology	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Rheumatology	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Rheumatology	Approval	71250 Computed tomography, thorax; without contrast material		Iritis- H20.9; This study is being ordered for Inflammatory/ Infectious Disease.; Years ago.; There has been treatment or conservative therapy.; Chest pain, abdomen pain and dyspnea; Plaquinil. Medication Therapy. High dose steroids. Hospital admissions.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	1
Rheumatology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		UNKNOWN; This study is being ordered for Inflammatory/ Infectious Disease.; 06/28/2017; There has been treatment or conservative therapy.; PAIN, WEAKNESS, AND TENDERNESS; PHYSICAL THERAPY, NSAIDS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Rheumatology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	2
Rheumatology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	2
Rheumatology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of joint or bone infection.	5
Rheumatology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of pelvic inflammatory disease or abscess.	3
Rheumatology	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 7years ago; There has been treatment or conservative therapy.; tenderness; Medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Rheumatology	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		ordering these MRI's to rule out RA; This study is being ordered for Inflammatory/ Infectious Disease.; 05-26-2015; There has been treatment or conservative therapy.; extreme joint pain; venlafaxine ER 150 mg capsule,extended release 24 hr traZODone 100 mg tablet diclofenac 1 % topical gel steroid injections Plaquenil; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		seropositive rheumatoid arthritis; This study is being ordered for Inflammatory/ Infectious Disease.; Unknown; There has been treatment or conservative therapy.; Diffuse pain through her joints.; Methotrexate, Tramadol, gabapentin; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is no suspicion of upper extremity bone or soft tissue infection.; The ordering physician is an orthopedist.	5

Rheumatology	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is suspicion of upper extremity bone or soft tissue infection.	16
Rheumatology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		ordering these MRI's to rule out RA; This study is being ordered for Inflammatory/ Infectious Disease.; 05-26-2015; There has been treatment or conservative therapy.; extreme joint pain; venlafaxine ER 150 mg capsule,extended release 24 hr traZODone 100 mg tablet diclofenac 1 % topical gel steroid injections Plaquenil; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs speciality is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is an orthopedist.	3
Rheumatology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; There is documented findings of severe pain on motion.	10
Rheumatology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for suspicious mass/tumor/metastasis.; The patient has had recent plain films of the shoulder.; The plain films were not normal.	1
Rheumatology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.	1
Rheumatology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	4

Rheumatology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.	3
Rheumatology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Suspected meniscus, tendon, or ligament injury	1
Rheumatology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; It is not known if there is a known trauma involving the knee.; Pain greater than 3 days; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
Rheumatology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.; The patient is taking antibiotics.	1
Rheumatology	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		labral tear of left hip, weakness of her limbs, lumbar spondylosis, left lower back and groin pain , tenderness of hip; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Rheumatology	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		left hip pain for 7 months -difficulty crossing legs - some pain with sitting - pain is descibed as lateral - stiff and painful in cold environment - limping - unable to take NSAIDS due to other medications; This is a requests for a hip MRI.; The hip pain is not due to a recent injury, old injury, Chronic Hip Pain or a Mass.; The request is for hip pain.	1
Rheumatology	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.; The patient is receiving long-term steriod therapy (Prednisone or Cortisone).	1
Rheumatology	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has a documented limitation of their range of motion.	1

Rheumatology	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; The patient has a documented limitation of their range of motion.	1
Rheumatology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Iritis- H2O.9; This study is being ordered for Inflammatory/ Infectious Disease.; Years ago.; There has been treatment or conservative therapy.; Chest pain, abdomen pain and dyspnea; Plaquinil. Medication Therapy. High dose steroids. Hospital admissions.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; The patient has shortness of breath; Shortness of breath is not related to any of the listed indications.	1
Rheumatology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a chronic headache, longer than one month; Headache best describes the reason that I have requested this test.	1
Rheumatology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	3
Rheumatology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary		1
Rheumatology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; It is unknown if the patient has acute or chronic back pain.; The patient has Neurological deficit(s); This procedure is being requested for None of the above	1
Rheumatology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Weakness in back, shoulders, and knees.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Rheumatology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt suffers with collapsed L2 vertebrae; The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for None of the above	1

Rheumatology	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	2
Sports Medicine	Approval	71250 Computed tomography, thorax; without contrast material		There is radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Sports Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	2
Sports Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	2
Sports Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	13
Sports Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	2
Sports Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The pain is from a known mass.; The diagnosis of Mass, Tumor, or Cancer has been established.; The study is requested for staging.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.	1

Sports Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Limited range of motion	1
Sports Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.; Yes, patient has completed and failed a course of conservative treatment.; Physical Therapy	1
Sports Medicine	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient has a documented limitation of their range of motion.	1
Sports Medicine	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is not experiencing symptoms of radiculopathy for six weeks or more.; There is no neurologic symptoms of bowel or urinary bladder dysfunction.; There is no suspicion of lumbar spine infection.; There is no suspicion of lumbar spine neoplasm or tumor or metastasis.; Yes this is a request for a Diagnostic CT	1
Sports Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Sports Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Sports Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; < Describe treatment / conservative therapy here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Sports Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; + 6 months; There has been treatment or conservative therapy.; chronic low back/thoracic spine w/movement; unable to stand for long periods; intermediate pain w/bending; pain traveling from lumbar spine to l/leg; Physical Therapy xs Nov 2017 - March 2018;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Sports Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	1
Sports Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for a neurological disorder.; Unknown; There has been treatment or conservative therapy.; chronic pain arthritis joint pain from movement; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a history of HIV or immunocompromised status.; Headache best describes the reason that I have requested this test.	1
Surgery	Approval	70490 Computed tomography, soft tissue neck; without contrast material		neck mass it is been present for about 2 months. She has been treated for antibiotics. She has a enlarged mobile nontender jugulodigastric node on the right side with a enlarged posterior cervical lymph node and a level 5 lymph node. She has no other palp; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/08/2018; There has been treatment or conservative therapy.; lump on neck growing in size and causing discomfort and pain; She has been treated for antibiotics.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; It is unknown if there is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; It is unknown if there is a suspicion of an infection or abscess.; This is not being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is no suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is not a suspicion of an infection or abscess.; This is not being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/30/2018; It is not known if there has been any treatment or conservative therapy.; Carotid stenosis; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Surgery	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		"This is a request for orbit, face, or neck soft tissue MRI.239.8"; The study is ordered for the evaluation of lymphadenopathy or mass	1
Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	1
Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		wide local excision of back melanoma, 12 x 4 cm with complex closure and right posterior axillary sentinel lymph node . Pathology from procedure sentinel node right posterior axillary line showed one of two lymph nodes showing malignant melanoma, metastat; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Surgery	Approval	71250 Computed tomography, thorax; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/01/2018; There has not been any treatment or conservative therapy.; ASYMPTOMATIC; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	43 y/o male s/p resection of colon cancer (2/15 nodes positive, invasion into small bowel), declined to have followup (see prior chart notes). Here today for follow-up.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	3
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	neck mass it is been present for about 2 months. She has been treated for antibiotics. She has a enlarged mobile nontender jugulodigastric node on the right side with a enlarged posterior cervical lymph node and a level 5 lymph node. She has no other palp; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/08/2018; There has been treatment or conservative therapy.; lump on neck growing in size and causing discomfort and pain; She has been treated for antibiotics.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	none; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	previous chest x ray results Right mid upper lung nodular density not definitely appreciated on prior exams. Given smoking status CT of chest may be necessary. There is a 8 mm nodular density overlying the right sixth posterior rib which is not definite; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	Yes, the patient was seen by a specialist because of the traumatic injury.; Chest pain describes the reason for this request.; The patient was seen by a general surgeon.; This is a request for a Chest CT.; This study is being requested for chest injury or trauma within the past 2 weeks.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	surveillance; This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for Known Vascular Disease.; This is a Follow-up to a previous angiogram or MR angiogram.; There are new signs or symptoms indicative of a dissecting aortic aneurysm.; Yes, this is a request for a Chest CT Angiography.	1

Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	1
Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	1
Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Pre-operative evaluation; The patient has not had a Lumbar Spine MRI performed within the past 2 weeks.	1
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered as pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material		1/29/18 f/u from hernia repair. Pt states he has constant inguinal pain since repair on Post Operative Exam: General Appearance: No evidence of obvious recurrence. Patient is very thin-walled male. No obvious evidence of infection; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material		na; This study is being ordered due to known or suspected infection.; "The ordering physician is a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material		PT HAS HAD LONG STANDING PROBLEM WITH TESTICULAR PAIN, IT'S ASSOCIATED SYMPTOMS ARE BILATERAL GROING PAIN, HAS TAKEN ANTIBIOTICS AND PAIN IS STILL PRESENT, EXAM IS NEGATIVE.; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material		Pt. has a pelvic mass/left inguinal hernia-pain and swelling; This study is being ordered because of a suspicious mass/ tumor.; "The patient has NOT had a pelvic ultrasound, barium, CT, or MR study."; This is a request for a Pelvis CT.; There are NO documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material		This 32 year old male presents for .abdominal pain.   History of Present Illness: 1. .abdominal pain  Mr. Martinez comes in due to abdominal pain. It started a week ago. He has LLQ pain in the area he had an inguinal hernia repair in that are back; This study is being ordered as pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	72192 Computed tomography, pelvis; without contrast material		Unknown; This study is being ordered due to known or suspected infection.; "The ordering physician is a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material		will fax clinical; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for pelvic trauma or injury.	2
Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	3
Surgery	Approval	73200 Computed tomography, upper extremity; without contrast material		There is not a history of upper extremity joint or long bone trauma or injury.; This is a preoperative or recent postoperative evaluation.; This is a request for an Arm CT Non Joint; Yes this is a request for a Diagnostic CT	2
Surgery	Approval	73200 Computed tomography, upper extremity; without contrast material		This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is a history of upper extremity joint or long bone trauma or injury.; Yes this is a request for a Diagnostic CT	5
Surgery	Approval	73206 Computed tomographic angiography, upper extremity, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the upper extremity.	1
Surgery	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is no suspicion of upper extremity bone or soft tissue infection.; The ordering physician is an orthopedist.	9
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/24/18; It is not known if there has been any treatment or conservative therapy.; left and right elbow pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	2
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.	1
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.	1
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.	2
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1

Surgery	Approval	73700 Computed tomography, lower extremity; without contrast material		Pre-op; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/14/2018; There has been treatment or conservative therapy.; Reoccurring abdominal hernia and ademia. Pain and mass.; Medications and lasics for leg; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a Lower Extremity CT.; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a foot MRI.; Surgery or other intervention is not planned for in the next 4 weeks.; The study is being ordered for infection.; There are physical exam findings, laboratory results, other imaging including bone scan or plain film confirming infection, inflammation and or aseptic necrosis.	1
Surgery	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; It is not known if the study is ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.; The ordering physician is not an orthopedist.; Pre-operative Evaluation; Instability	1
Surgery	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Limited range of motion	1
Surgery	Approval	74150 Computed tomography, abdomen; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	74150 Computed tomography, abdomen; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Surgery	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; This study is being ordered for organ enlargement.; There is no suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; There are new symptoms including hematuria.; There is evidence of organ enlargement on ultrasound, plain film, or IVP.; Yes this is a request for a Diagnostic CT ; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; This is a request for initial staging of a known tumor other than prostate.; No, this is not a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; This is not a request for initial staging of a known tumor other than prostate.; This patient does NOT have known prostate cancer with a PSA (prostate-specific antigen) greater than 10.; No, this is not a request for follow up to a known tumor or abdominal cancer.; Yes, there is a palpable or observed abdominal mass.; No, there has not been a recent abdominal CT scan.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; Yes, this is a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; Yes, the patient has been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74150 Computed tomography, abdomen; without contrast material		unknown; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is no suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; There are no new symptoms including hematuria.; There are no new lab results or other imaging studies including ultrasound, Doppler or plain films findings.; There is not a suspicion of an adrenal mass.; This is not a request to confirm a suspicious renal mass suggested by physical exam, lab studies, IVP or ultrasound.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74150 Computed tomography, abdomen; without contrast material		unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; chest pain 1 month ago, abdominal pain started 1 week ago.; There has been treatment or conservative therapy.; stabbing pain in her chest, abdominal pain with nausea and vomiting.; NSAIDS, rest, ice and steroids; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material			1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. > This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	2 weeks pain, pea size knots; This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	ABD MASS.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	abdominal hernia - gunshot victim 2008 - 2 ping pong ball sized visible bumps; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	anal mass; This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	bypass; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has not been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	complicated diverticular abscess and required re-operation for abdominal wall dehiscence.2/3/17 pt had Lap for dehiscence w/ repair w/ Vicral mesh and Veritas bowel patch mesh.Still experiencing pain when lifting.Pt has 2 bulges that come up around incisi; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Hernia repair in 0/2016. Bulging and popping in and out, pain increasing in frequency and intensity over the last few weeks.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		LARGE PROTRUDING PANNICULUS THAT GROSSLY APPEARS SYMMETRICAL; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		none; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Patient is having abdominal pain and patient has a history of small bowel obstruction due to postoperative adhesions.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Patient with abdominal pain and history of incisional hernia repair. CT needed to rule out recurrent incisional hernia; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		POSSIBLE HERNIA RECURRENCE; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Pre-op; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/14/2018; There has been treatment or conservative therapy.; Reoccurring abdominal hernia and anemia. Pain and mass.; Medications and lasics for leg; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Pt had a lap chole August 2017. She developed abdominal pain after eating that is only relieved by vomiting or diarrhea since she had surgery.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		pt has colon mass; This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Pt has had drainage , odor and pain for 2 years in umbilical area .; This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; It is not known if this is the first visit for this complaint.; It is unknown if there has been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Pt has reducible umbilical hernia. She had hernia repair in 2015 for same problem; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		She has chronic irritation of her abdominal wall and multiple very large hernias. She is now having mild symptoms from her gallstones. best option is to undergo a major procedure that would include cholecystectomy, ventral hernia repair, panniculectomy. ; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	2
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	15
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; It is unknown if there has been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is follow up trauma.; There is laboratory or physical evidence of an intra-abdominal bleed.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; It is not known if the patient has a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient has Diverticulitis.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient has a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	3
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is being ordered for follow-up.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is female.; The last Abdomen/Pelvis CT was performed more than 10 months ago.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	26
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; It is unknown if the patient had an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed within the past 10 months.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	2
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	9
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	2

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	7
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has not been a physical exam.; The patient had an lipase lab test.; The results of the lab test were abnormal.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	14
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed something other than Gall Stones, Kidney/Renal cyst, Anerysm or a Pelvis Mass.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	2
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient had an endoscopy.; The endoscopy was normal.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	6
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Unknown; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Inflammatory/ Infectious Disease.; 03/09/2018; There has been treatment or conservative therapy.; CHRONIC DIARRHEA , ABDOMINAL PAIN; MEDI CATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Because of his complicated course and recurrent abscesses, I will re-image his abdomen again in about 2 weeks. The family requests we consider MR rather than CT to reduce radiation exposure, I think this is reasonable & we will arrange for this.40 y/o ma; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for known or suspected infection.; "The ordering physician is not a gastroenterologist, urologist, or infectious disease specialist."; "There are not physical findings or abnormal blood work consistent with peritonitis, pancreatitis, or appendicitis."; "There are no active or clinical findings of Crohn's disease, ulcerative colitis, or diverticulitis."; "There is radiographical or ultrasound findings consistent with abnormal fluid collection, abdominal abscess, or ascites."; < Enter answer here - or Type In Unknown If No Info Given. >	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon.";	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; < Enter answer here - or Type In Unknown If No Info Given. >	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; unknown	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; 6 MONTH FOLLOW-UP	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; ct done	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Patient had CT abdomen and pelvis that shows 1.5 x 1 cm low-attenuation lesion within the head of the pancreas. This may represent a small cystic lesion but would be more completely evaluated with MRI of the abdomen pancreas mass protocol without and with	1

Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Ultrasound showed nodule in liver; possible hemangeoma	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A abnormality was found on the pancreas during a previous CT, MRI or Ultrasound.	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; < Enter answer here - or Type In Unknown If No Info Given. >	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; pain, trying to rule out stones ,	1
Surgery	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the abdominal arteries.	4
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; No, this patient does not have axillary node adenocarcinoma.; No, there are no anatomic factors (deformity or extreme density) that make a simple mammogram impossible.	1
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered as a screening examination following genetic testing for breast cancer.; The patient has a lifetime risk score of greater than 20.	1
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	2
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; Yes, this is an individual who has known breast cancer in the contralateral (other) breast.	11
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for known breast lesions.; There are benign lesions in the breast associated with an increased cancer risk.	7

Surgery	Approval	78813 Positron emission tomography (PET) imaging; whole body		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Surgery	Approval	78813 Positron emission tomography (PET) imaging; whole body		wide local excision of back melanoma, 12 x 4 cm with complex closure and right posterior axillary sentinel lymph node . Pathology from procedure sentinel node right posterior axillary line showed one of two lymph nodes showing malignant melanoma, metastat; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Surgery	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a more than 1 of the following; diagnostic test, imaging sstudy, or biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgery	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for Breast Cancer; This request is for the initial diagnosis and/or initial staging of axillary lymph nodes; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgery	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This is a PET Scan with Dotatate (Gallium GA 68-Dotatate)	1
Surgery	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		; This study is being ordered for Vascular Disease.; 10/22/17; There has been treatment or conservative therapy.; S/P Aortic root and ascending aortic replacement with a 25 mm ATS valved conduit (28 mm Dacron tube graft, hemi arch fashion) Cont anticoagulation, f/u by local cardiologist. RTN to see me in 6 mo with a CT chest (IV contrasted) and ECHO.; I have examined her, she has Marfan's syndrome, and had aortic root aneurysm. We have replaced her ascending aorta and aortic root with a 25 mm ATS valved conduit that has a 28 mm Dacron tube graft to replace the ascending aorta in a hemi arch fashion wit; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs speciality is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPH Y (MRCP)		This is a request for MRCP.; There is a reason why the patient cannot have an ERCP.; The patient has not undergone an unsuccessful ERCP.; The patient does not have an altered biliary tract anatomy that precludes ERCP.; The patient does not require evaluation for a congenital defect of the pancreatic or biliary tract.; The MRCP will be used to identify a pancreatic or biliary system obstruction that cannot be opened by ERCP.	1
Surgery	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPH Y (MRCP)		This is a request for MRCP.; There is a reason why the patient cannot have an ERCP.; The patient has not undergone an unsuccessful ERCP.; The patient has an altered biliary tract anatomy that precludes ERCP.	3

Surgery	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a new onset of a headache within the past month; Headache best describes the reason that I have requested this test.	1
Surgery	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Surgery	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; This reason this study is being requested is unknown.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; This study is being requested for 'none of the above'; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	<p>IMPRESSION: &#x0D;</p> <p>1. Air and fluid-filled mildly prominent proximal small bowel with&#x0D; decompressed mid to distal small bowel. A low-grade obstructive&#x0D; process may be present. This could also be related to an ileus.&#x0D;</p> <p>2. Cholecystectomy.&#x0D;</p> <p>3. Normal appendix.&#x0D;</p> <p>4; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Barrett's esophagus&#x0D;</p> <p>Pulmonary nodules/lesions, multiple&#x0D;</p> <p>Overview: 10/20/17: CT A/P: Incidental note of pulmonary nodules in the right middle &#x0D; lobe and right lower lobe measuring up to 5 mm. The right lower lobe &#x0D; nodules are unchanged in; It is not known if there has been any treatment or conservative therapy.; phenergan; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Surgery	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This study is being requested for 'none of the above'; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Patent abdominal aorta with no evidence of stenosis. Patent R aorto-femoral bypass graft. Patent L external iliac artery stent. Elevated velocities identified at the proximal e Normal R ankle/brachial index and great toe pressure. Abnormal L ankle/br; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	patient in pain an undergoing pain management; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	pt with mid abd pain possible spigelian hernia. pt is also experiencing back pain; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/22/2018; There has been treatment or conservative therapy.; Thoracic, lumbar pain along with abdominal and pelvis pain; Rest along with OTC medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient in pain an undergoing pain management; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; home treatment documentation/ No change in pain treatment for over 6 weeks.	1
Surgery	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	pt with mid abd pain possible spigelian hernia. pt is also experiencing back pain; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/22/2018; There has been treatment or conservative therapy.; Thoracic, lumbar pain along with abdominal and pelvis pain; Rest along with OTC medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Mass of the left hand, the ulnar dorsal aspect of the first CMC joint. A suspected ganglion cyst from the CMC joint. Minimal radiographic changes in the first CMC joint but a very shallow saddle contour to the distal aspect of the trapezium.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/01/2018; It is not known if there has been any treatment or conservative therapy.; Painful mass in the first webspace near base.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Disapproval	73706 Computed tomographic angiography, lower extremity, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary		1

Surgery	Disapproval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	This is a request for CT Angiography of the Abdomen and Pelvis.	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; It is unknown if the patient had an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	2
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1

Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	2
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	2
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; The previous image for was good enough for diagnostic purposes but not clear enough for surgical planning, i.e. vessel anatomy..	1
Surgery	Disapproval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Patent abdominal aorta with no evidence of stenosis. Patent R aorto-femoral bypass graft. Patent L external iliac artery stent. Elevated velocities identified at the proximal e Normal R ankle/brachial index and great toe pressure. Abnormal L ankle/br; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Surgery	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	; This is a request for Breast MRI.; This study is being ordered for known breast lesions.; There are NOT benign lesions in the breast associated with an increased cancer risk.	1
Surgery	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	Mastitis; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1

Surgery	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The study is requested for evaluation of the heart prior to non cardiac surgery.	2
Surgery	Disapproval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)	Radiology Services Denied Not Medically Necessary	CA 125 188.6 CA19-9 12,105.0  Also with non healing wound; This is a request for MRCP.; There is a reason why the patient cannot have an ERCP.; The patient has not undergone an unsuccessful ERCP.; The patient does not have an altered biliary tract anatomy that precludes ERCP.; The patient does not require evaluation for a congenital defect of the pancreatic or biliary tract.; The MRCP will not be used to identify a pancreatic or biliary system obstruction that cannot be opened by ERCP.; "The patient is not an infant or young child, and not an adult who is debilitated or uncooperative in such a manner that ERCP is unsafe or cannot be performed."; "The patient has neither a documented allergy to iodine-based contrast materials, or a general history of allergic responses."; It is not known if patient has acute pancreatitis.	1
Surgical Oncology	Approval	70450 Computed tomography, head or brain; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	1
Surgical Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	1
Surgical Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	1
Surgical Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material		A Chest/Thorax CT is being ordered.; This study is being ordered for known tumor.; Yes this is a request for a Diagnostic CT	3
Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Abnormal mass in the chest, chest wall, or lung is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	3

Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Initial staging prior to treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	3
Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; 'None of the above' are related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Surveillance of a known cancer following treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	2
Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	1
Surgical Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		; This is a request for a Pelvis MRI.; The patient has NOT had previous abnormal imaging including a CT, MRI or Ultrasound.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
Surgical Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; Surgery is planned for within 30 days.; The study is being ordered for Evaluation of the pelvis prior to surgery or laparoscopy.	2
Surgical Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	5
Surgical Oncology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	1
Surgical Oncology	Approval	73700 Computed tomography, lower extremity; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	1
Surgical Oncology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	3
Surgical Oncology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physician directed course of non-steroidal anti-inflammatory medications	1
Surgical Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	16

Surgical Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; The study is requested for post-op evaluation.; The study is requested as a first follow up study for a suspected or known post-op complication.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	3
Surgical Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	2
Surgical Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.	1
Surgical Oncology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Surgical Oncology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There is a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
Surgical Oncology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; Yes, this is a confirmed breast cancer.; Yes, the results of this MRI (size and shape of tumor) affect the patient's further management.	4
Surgical Oncology	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	1
Surgical Oncology	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; This is NOT for an evaluation of axillary lymph nodes.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2

Surgical Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Surgical Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Soft Tissue Sarcoma, Pancreatic or Testicular Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgical Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient completed a course of treatment initiated within the last 8 weeks.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgical Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Ovarian or Esophageal Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgical Oncology	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		1 YEAR SCREENING; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	1
Surgical Oncology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgical Oncology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	A Chest/Thorax CT is being ordered.; This study is being ordered for known tumor.; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is 54 years old or younger.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; An abnormal imaging (xray) finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1

Surgical Oncology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgical Oncology	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	1
Surgical Oncology	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	This patient has a family history of breast cancer in mother and paternal aunt. Imaging demonstrates bilateral heterogeneous dense breast tissue which could obscure small masses.; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
Surgical Oncology	Disapproval	78813 Positron emission tomography (PET) imaging; whole body	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Thoracic Surgery	Approval	70490 Computed tomography, soft tissue neck; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Thoracic Surgery	1
Thoracic Surgery	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Thoracic Surgery	Approval	71250 Computed tomography, thorax; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Thoracic Surgery	1
Thoracic Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Thoracic Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		4.7 thoracic; This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for Known Vascular Disease.; This is a pre-operative evaluation.; This surgery is not scheduled/ planned.; Yes, this is a request for a Chest CT Angiography.	1
Thoracic Surgery	Approval	71555 Magnetic resonance angiography, chest (excluding myocardium), with or without contrast material(s)		4.3 cm ascending aortic aneurysm found Nov 2017; This is a request for an MR Angiogram of the chest or thorax	1

Thoracic Surgery	Approval	72192 Computed tomography, pelvis; without contrast material		Samantha Irwin is a pleasant 52 y.o. year-old female who is being seen in the CVT surgery clinic for evaluation. She reports lower extremity discomfort with swelling for over a year. She has a tired, heavy discomfort of her right leg. She has had swellin; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Thoracic Surgery	Approval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)		This request is for a Coronary CT Angiography study.; No, patient did not have a Nuclear Cardiology study within the past six months.; This study is being ordered for being evaluated prior to a cardiac surgical procedure.; Mitral Valve. Repair vs Replacement. Risks of procedure, possibility of having to use mechanical devices to support circulation after surgery. We discussed valve prostheses types and are in agreement Mechanical valve is appropriate. We'll go ahead and obt; Yes, the examination is for noninvasive coronary arterial mapping.	1
Thoracic Surgery	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the abdominal arteries.	1
Thoracic Surgery	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Thoracic Surgery	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. > This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		CHRONIC HEADACHE, BLURRED VISION, PHOTOPHOBIA WITH VISUAL DISTURBANCE; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1

Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		hyperthyroid myopic degeneration; This study is being ordered for a neurological disorder.; Unknown; There has not been any treatment or conservative therapy.; pressure behind eyes, blurred vision, double vision; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		Patient stated that she had a seizure on 6/03/18 and is concerned about hitting her head on the left side as it is sore and has had 2 more seizures .; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; It is not known if the headache is described as a "thunderclap" or the worst headache of the patient's life.; It is unknown if the patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	2
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.	5
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a chronic headache, longer than one month; Headache best describes the reason that I have requested this test.	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a headache involving the back of the head and the patient is over 55 years old; Headache best describes the reason that I have requested this test.	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a new onset of a headache within the past month; Headache best describes the reason that I have requested this test.	2
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has the worst headache of patient's life with onset in the past 5 days; Headache best describes the reason that I have requested this test.; This is NOT a Medicare member.	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; This study is being ordered for evaluation of known tumor.	1
Unknown	Approval	70486 Computed tomography, maxillofacial area; without contrast material		"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is suspicion of bone infection, [osteomyelitis].fct"; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	70486 Computed tomography, maxillofacial area; without contrast material		Sinus x-ray was also performed I see really no evidence of any severe sinus disease there may be some opacification of the ethmoids. Therefore we will see if her sinus is causing any of these problems. We'll need a CT scan of the sinus for more detail e; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1

Unknown	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	2
Unknown	Approval	70490 Computed tomography, soft tissue neck; without contrast material		; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	4
Unknown	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is no suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is not a suspicion of an infection or abscess.; This is not being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		HEADACHES AND CVA.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		This is a 3 month follow up to surgery.; This study is being ordered for Vascular Disease.; 01/13/2017; There has been treatment or conservative therapy.; This is a post surgical follow up scan. Patient symptoms were Transient cerebral ischemia and Nonintractable headache; Patient had a carotid stent placed 02/2018; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/21/18; There has been treatment or conservative therapy.; Tension Headache, Memory loss, Neck pain; Eliquis; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the Neck.	4
Unknown	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		Patient is being evaluate migraine.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/11/2017; It is not known if there has been any treatment or conservative therapy.; Migraine; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		This is a request for a head and neck MR Angiogram.; There is an immediate family history of aneurysm.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Pt presents today with dizziness and spells of passing out since she was 5 years old. last episode occurred in dec 2016. states she does feel it happens more often if she doesn't eat, will get weak and dizzy feeling. will be disoriented for awhile after. ; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient is experiencing dizziness.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Re-staging scan for melona with brain metastatis; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		right sides facial numbness 4 to 5 times a day; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		These studies are to rule out enhancing lesion due to abnormal MRI Cervical Spine without contrast and Thoracic MRI on 4/9/2018. MRI Cervical without contrast recommended a MRI Cervical with contrast to rule out enhancing lesion in the spinal cord.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	5
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has the inability to speak.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1

Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing dizziness.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	2
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; The patient has not undergone treatment for multiple sclerosis.; There are intermittent or new neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.	3
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; It is not known if there are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is a pituitary tumor or pituitary adenoma.; There are physical findings or laboratory values indicating abnormal pituitary hormone levels.; This is NOT a Medicare member.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for seizures.; There has been a change in seizure pattern or a new seizure.	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	3
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal laboratory test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1

Unknown	Approval	71250 Computed tomography, thorax; without contrast material		cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; Abnormal finding on physical examination was relevant in the diagnosis or suspicion of inflammatory bowel disease; This is a request for a Chest CT.; This study is being requested for known or suspected blood vessel (vascular) disease; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		COPD, very severe; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		Duration of Symptoms:Start: 06/20/2016   Physical Exam Findings:follow up CT -this is the 3rd CT to monitor pulmonary nodules  Preliminary Procedures  Already Completed:   Scoped Procedures / Referrals:   Other:nodules--8; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		NEW ONSET LEFT SIDED BACK PAIN AND TESTICULAR PAIN; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; The patient had an abnormal imaging (xray) finding related to the suspicion of cancer in th is patient.; This is a request for a Chest CT.; This study is beign requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		pulmonary nodule that needs follow up; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		RESTAGING COLON CANCER WITH METS OF THE LUNGS AND LIVER; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		RESTAGING COLON CANCER; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		RESTAGING METASTATIC OVARIAN CANCER; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Approval	71250 Computed tomography, thorax; without contrast material		RESTAGING RECTAL CANCER FOLLOWING TREATMENT; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		Re-staging scan for melona with brain metastatis; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		RESTAGING SCANS  COMPLETED 5 CYCLES OF CHEMO ON 4/27/18. NO SCANS DONE SINCE TREATMENT COMPLETED.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		The patient is presenting new signs or symptoms.; "There is radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		There is radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		This is a request for a Thorax (Chest) CT.; Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		unknown; This study is being ordered for Inflammatory/ Infectious Disease.; 6/1/2017; There has been treatment or conservative therapy.; coughs and shortness of breaths and wheezing; antibiotic treatment; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		This study is requested to evaluate suspected pulmonary embolus.; Yes, this is a request for a Chest CT Angiography.	5
Unknown	Approval	72131 Computed tomography, lumbar spine; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2 years; There has been treatment or conservative therapy.; mbr has pain in arm and leg weakness tingling immobility; PT and injection; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is experiencing symptoms of radiculopathy for six weeks or more.; Yes this is a request for a Diagnostic CT	2
Unknown	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has been treatment or conservative therapy.; mbr has pain in back and neck and right sciatica and numbness Hx of nodules; pain management and medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Patient recently had Cervical Spine Series done that shows Advanced degenerative Cervical spine endplate changes and cervical spasm/strain. has radiculopathy on right arm; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Patient recently had Cervical Spine Series done that shows Advanced degenerative Cervical spine endplate changes and cervical spasm/strain. Patient has Radiculopathy on Right arm.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	3
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is x-ray evidence of a recent cervical spine fracture.	1

Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	5
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Follow-up to Surgery or Fracture within the last 6 months; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; ; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; None of the above; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	1
Unknown	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		History of several prior lumbar surgeries with Dr. Mason and Dr. Peek as well as cervical surgeries with Dr. Cathy. I think he would be a candidate for spinal cord stimulation. Set him up with a thoracic MRI to ensure safe lead placement.; This is a request for a thoracic spine MRI.; Pre-Operative Evaluation; It is not known when surgery is scheduled.	1
Unknown	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		preparation for surgical intervention with spinal cord stimulation; This is a request for a thoracic spine MRI.; Pre-Operative Evaluation; It is not known when surgery is scheduled.	1
Unknown	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		stage 4 r upper lobe cancer. bone, brain and live mets. pt is complaining of pain on mid back radiating to r/ hip.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; There is evidence of tumor or metastasis on a bone scan or x-ray.; Suspected Tumor with or without Metastasis	1

Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 15 years; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; percocet, hydrocodone, surgery in 2016; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; diminished bilaterally	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; MRI scan that demonstrated significant degenerative change at 5-1 with foraminal stenosis bilaterally. He has an old MRI from 2014, which basically showed this but without a significant amount of foraminal stenosis at that time, just a lot of degenerativ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		pain going down the bilateral lower extremities and mid back pain low back pain sharp and constant associated with muscle spasms; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; sentanyl cold cacfl lyrica oxycodyn tyzanidine	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Pt has a history of low back surgery in 2007.; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Loss of strength in lower extremities; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	3
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	3

Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with an Epidural.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Pre-Operative Evaluation; No, the last Lumbar spine MRI was not performed within the past two weeks.; Surgery is scheduled within the next 4 weeks.	2
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; The patient has Neurological abnormalities; This procedure is being requested for Trauma or recent injury	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Thoracic MRI order is a follow up order from an abnormal Thoracic MRI that was completed on 2/20/2017 that showed 1 cm increased T2 signal intensity and slight heterogeneous T1 signal intensity in T6 vertebral body which may represent bony lesion and equi; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		unknown; This study is being ordered for trauma or injury.; 3/8/2018; There has been treatment or conservative therapy.; Tenderness of the hip flexor muscles, tenderness of the hip adductor muscles, tender at the bursa, tenderness of the iliac crest, and multiple muscles involving lumbar spine.; Aleve, Robaxin, chiropractic care, stretching, physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	72192 Computed tomography, pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered as a follow-up to trauma.; "The ordering physician is a gastroenterologist, urologist, gynecologist, or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for pelvic trauma or injury.	2
Unknown	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of pelvic inflammatory disease or abscess.	1
Unknown	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is no suspicion of upper extremity bone or soft tissue infection.; The ordering physician is not an orthopedist.; There is a history of upper extremity trauma or injury.	1

Unknown	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is suspicion of upper extremity neoplasm or tumor or metastasis.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		; The pain is described as chronic; It is not known if the member has failed a 4 week course of conservative management in the past 3 months.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		; This study is being ordered for Inflammatory/ Infectious Disease.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		eval rotator cuff tear; The requested study is a Shoulder MRI.; The pain is from a recent injury.; It is not know if surgery or arthrscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		injury to left wrist 2 weeks ago not healing redness and swelling pain radiating up left arm; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; There is a suspicion of tendon or ligament injury.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		Limited ROM; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; It is not known if there is a suspicion of fracture not adequately determinjed by x-ray.; The request is for shoulder pain.; It is not known if there is a suspicion of tendon, ligament, rotator cuff injury, or labral tear.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The pain is described as chronic; The member has failed a 4 week course of conservative management in the past 3 months.; This is a request for an elbow MRI; The study is requested for evaluation of elbow pain.	2
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The pain is from a recent injury.; There is a suspicion of fracture not adequately determined by x-ray.; Tendon or ligament injuryis not suspected.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; arthritis and a rotator cuff tear in the left shoulder,	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; There is documented findings of severe pain on motion.	5
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; < Enter answer here - or Type In Unknown If No Info Given. >	1

Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has had recent plain films of the shoulder.; The plain films were normal.; The patient is experiencing joint locking or instability.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for suspicious mass/tumor/metastasis.; There are physical findings (palpable mass) of a suspicious mass or known primary site of cancer.; The patient has not had a recent bone scan.; The patient has had recent plain films of the shoulder.; The plain films were normal.; The patient has not had a recent CT of the shoulder.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	7
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient received joint injection(s).	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has not been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
Unknown	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a preoperative or recent postoperative evaluation.; This is a request for a Leg CT.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a foot CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass adjacent to or near the hip.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has a documented limitation of their range of motion.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.; Yes this is a request for a Diagnostic CT	1

Unknown	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a Lower Extremity CT.; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	73700 Computed tomography, lower extremity; without contrast material		This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is no suspicion of lower extremity bone or joint infection.; There is a history of lower extremity joint or long bone trauma or injury.; This is a request for a Leg CT.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 15 years; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; percocet, hydrocodone, surgery in 2016; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		Constant pain in knees; This study is being ordered for trauma or injury.; 03/02/2018; There has been treatment or conservative therapy.; Constant Chronic pain no alleviating factors; Medication and therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; Surgery or other intervention is planned in the next 4 weeks.; The study is being oordered for infection.; There are physical exam findings, laboratory results, other imaging including bone scan or plain film confirming infection, inflammation and or aseptic necrosis.	1

Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Suspected meniscus, tendon, or ligament injury	12
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Instability	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Swelling greater than 3 days	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Instability; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Limited range of motion; No, the member do not experience a painful popping, snapping, or giving away of the knee.	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Swelling greater than 3 days; No, the member do not experience a painful popping, snapping, or giving away of the knee.	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Instability	4

Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Limited range of motion	2
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were normal.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a suspected tarsal coalition.	1
Unknown	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.	1
Unknown	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone); The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has a documented limitation of their range of motion.	1

Unknown	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; The patient has a documented limitation of their range of motion.	1
Unknown	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		unknown; This study is being ordered for trauma or injury.; 3/8/2018; There has been treatment or conservative therapy.; Tenderness of the hip flexor muscles, tenderness of the hip adductor muscles, tender at the bursa, tenderness of the iliac crest, and multiple muscles involving lumbar spine.; Aleve, Robaxin, chiropractic care, stretching, physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a kidney/ureteral stone.; There is a known or a strong suspicion of kidney or ureteral stones.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are known or endoscopic findings of Diverticulitis.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; Yes, the patient has been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are clinical findings or indications of Hematuria.; The hematuria is not newly diagnosed, it's known previous history.; There are new signs or symptoms other than hematuria.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing		REASONS: CTA IS WHAT YOU DO TO MONITOR A REPAIRED ANEURYSM.; This study is being ordered for Vascular Disease.; 05/02/2014 AAA SURGICAL REPAIR.; There has been treatment or conservative therapy.; NON SYMPTOMATIC; MONITORING THE REPAIR WITH CTA; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the abdomen.	1

Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed gall stones.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	8
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	78 year old female patient referred by Dr. Derek Bryant for evaluation of a hiatal hernia. Patient had a CT scan completed on 6/22/2017 and impression revealed a small hiatal hernia. Patient today states that when she bends over it feels like something is; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	RESTAGING COLON CANCER WITH METS OF THE LUNGS AND LIVER; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	RESTAGING COLON CANCER; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	RESTAGING RECTAL CANCER FOLLOWING TREATMENT; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	study is to rule out stones; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the hematuria is not known.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; Yes this is a request for a Diagnostic CT	3
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for bilirubin.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; It is not known if the urinalysis was positive for bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	3
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The hematuria is due to tumor or mass.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient does not have a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient does not have Crohn's Disease, Ulcerative Colitis or Diverticulitis.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This is not request for evaluation of prostate cancer.; This study is being ordered for staging.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is male.; Yes this is a request for a Diagnostic CT	1

Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	4
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	3
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	2
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	3
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient had an endoscopy.; The endoscopy was normal.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; Unknown	1
Unknown	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Lobulated hyperechoic mass in the hepatic lobe associated with prominent color flow in the periphery. Due to solitary nature of the mass and imaging characteristics, the findings are most in keeping with a hepatic hemangioma. Further evaluation with MRI	1
Unknown	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A abnormality was found on the pancreas during a previous CT, MRI or Ultrasound.	1

Unknown	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A liver abnormality was found on a previous CT, MRI or Ultrasound.; There is suspicion of metastasis.	3
Unknown	Approval	75557 Cardiac magnetic resonance imaging for morphology and function without contrast material;		This is a request for a heart or cardiac MRI	1
Unknown	Approval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)		The patient does not have three or more of the following conditions: age over 50, diabetes, history of hypertension, history of LDL cholesterol above 130, history of HDL cholesterol below 35, obesity (BMI above 35), and/or active history of smoking.; This request is for a Coronary CT Angiography study.; No, patient did not have a Nuclear Cardiology study within the past six months.; This study is being ordered for suspected Coronary Artery Disease (CAD) and symptomatic?; No, patient does not have new onset congestive heart failure.; patient developed retrosternal chest pain after surgery; Yes, there is Chronic Chest Pain.	1
Unknown	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		; This is a request for Breast MRI.; This study is being ordered for known breast lesions.; There are NOT benign lesions in the breast associated with an increased cancer risk.	1
Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		; This study is being ordered for Vascular Disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		; This study is being ordered for Vascular Disease.; eason For Visit F/u CAD, HTN, hyperlipidemia   History of Present Illness Cardiology Follow-up: The patient states he has been generally doing well since the last visit.  Interval Events: Pt being seen for CAD, HTN and hyperlipemia f/u. Pt states pas; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Discussion/Summary Cardiology Discussion Summary: Discussion: 1. CAD: This condition is stable, but new complaints of typical left sided chest pain with worsening DOE are concerning for stable angina. He is s/p 3/2018 LHC with PCI/BMS to LAD and mid a; This study is being ordered for Vascular Disease.; He reported symptoms of angina prompting request for cardiac stress test, which was done on 3/16/2018 and showed anterior and apical ischemia with LVEF of 47%. He subsequently underwent 3/2018 LHC with PCI/BMS to LAD and mid and distal LCx. He presents t; There has been treatment or conservative therapy.; Cardiovascular: chest pain and lower extremity edema, but no palpitations and no syncope . effort intolerance. Respiratory: shortness of breath during exertion, but no shortness of breath, no PND and no orthopnea. Musculoskeletal: no muscle aches and ; DOE: Currently this condition is stable but worsened. Echo on 12/19/2017 showed LVEF of 50-55% with wall motion suggesting previous small inferior wall infarct. There are no medication changes at this time. The plan was discussed with the patient and unde; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are documented clinical findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	3
Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The study is requested for known or suspected valve disorders.	1
Unknown	Approval	78459 Myocardial imaging, positron emission tomography (PET), metabolic evaluation	This is a request for a Cardiac-imaging PET scan.; This study is being ordered to identify a myocardial perfusion defect.; This patient has NOT had a SPECT scan within the past eight (8) weeks.; Yes, the patient has symptoms including chest tightness, angina and/or shortness of breath on exertion.; The patient has a body Mass List score index equal to or above 40.	1

Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	RESTAGING COLON CANCER WITH METS OF THE LUNGS AND LIVER; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	RESTAGING SMALL CELL LUNG CANCER AFTER COMPLETION OF CHEMO  MOST RECENT PET SCAN SHOWED FDG UPTAKE INVOLVING THE LYMPH NODES  ASSESS RESPONSE TO THERAPY; This study is being ordered for a metastatic disease.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a more than 1 of the following; diagnostic test, imaging sstudy, or biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Lymphoma or Myeloma.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on an imaging study.; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; It is unknown how many PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on an imaging study.; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lymphoma or Myeloma.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; The patient does NOT have Thyroid or Brain cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; The patient does NOT have Thyroid or Brain cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient completed a course of treatment initiated within the last 8 weeks.; More than 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This would be the first PET Scan performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Head/Neck Cancer; This Pet Scan is being requested for Initial Treatment Strategy (Diagnosis and/or Staging); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		; This study is being ordered for Vascular Disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		Patient presents to clinic with several complaints. Continue chest pain or discomfort in upper right area, always present, "always aware" its there. Denies SOB or dizziness. Muscle cramp in left calf the other night, was trying to move something and had t; This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient does not have a history of a recent heart attack or hypertensive heart disease.	1
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; The reason for ordering this study is unknown.	1
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; The patient has an enlarged heart; The patient's enlarged heart is not due to any of the listed indications	1
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient has a history of hypertensive heart disease.; There is a change in the patient's cardiac symptoms.	5

Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Pulmonary Hypertension.	3
Unknown	Approval	93312 Echocardiography, transesophageal, real-time with image documentation (2D) (with or without M-mode recording); including probe placement, image acquisition, interpretation and report		cardiac evaluation prior to Watchman procedure to replace anticoagulant therapy, which is non therapeutic. HX of CVA, will fax notes is needed.; This a request for an echocardiogram.; This is a request for a Transesophageal Echocardiogram.; This study is NOT for suspected acute aortic pathology, pre-op of mitral valve regurgitation, infective endocarditis, left atrial thrombus, radiofrequency ablation procedure, fever with intracardiac devise or completed NON diagnostic TTE.	1
Unknown	Approval	93312 Echocardiography, transesophageal, real-time with image documentation (2D) (with or without M-mode recording); including probe placement, image acquisition, interpretation and report		patient with aroita valve insuffice and history of anureysum; This a request for an echocardiogram.; This is a request for a Transesophageal Echocardiogram.; This study is NOT for suspected acute aortic pathology, pre-op of mitral valve regurgitation, infective endocarditis, left atrial thrombus, radiofrequency ablation procedure, fever with intracardiac devise or completed NON diagnostic TTE.	1
Unknown	Approval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;		Patient has no hx of PE or DVT. No previous hx of dyspnea on exertion. Patient is a current smoker of 30 plus years of 1-2 ppd.; This study is being ordered for Inflammatory/ Infectious Disease.; 02/10/2018; There has been treatment or conservative therapy.; Dyspnea on Exertion Cough Fatigue; Patient currently taking Symbicort inhaler BID ProAir inhaler for exacerbation of symptoms Zpack antibiotic Budesinide nebulizations  Prednisone; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;		This is a request for a Stress Echocardiogram.; It is unknown if the patient had cardiac testing including Stress Echocardiogram, Nuclear Cardiology (SPECT/MPI), Coronary CT angiography (CCTA) or Cardiac Catheterization in the last 2 years.; The patient is experiencing new or changing cardiac symptoms.; The member has known or suspected coronary artery disease.	1

Unknown	Approval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;		This is a request for a Stress Echocardiogram.; The patient has NOT had cardiac testing including Stress Echocardiogram, Nuclear Cardiology (SPECT/MPI), Coronary CT angiography (CCTA) or Cardiac Catheterization in the last 2 years.; The member has known or suspected coronary artery disease.	3
Unknown	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	3
Unknown	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Headache increasing in frequency and intensity; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
Unknown	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	1
Unknown	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Known or suspected TIA (stroke) with documented new or changing neurologic signs and or symptoms best describes the reason that I have requested this test.; This is NOT a Medicare member.	1
Unknown	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a suspected brain tumor.; Known or suspected tumor best describes the reason that I have requested this test.; There are documented neurologic findings suggesting a primary brain tumor.; This is NOT a Medicare member.	1
Unknown	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; "This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is not a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the Neck.	1
Unknown	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has not been any treatment or conservative therapy.; radiating pain in the upper extremities; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	. Dizziness  In today c/o dizziness that started about 6 weeks ago. She thought it was just her allergies and she took some type of OTC medication. She went to Chicago and her daughter got her some type of oil that she put behind her ear which helps a ; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient is experiencing dizziness.	1
Unknown	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is a new and sudden onset of a headache less than 1 week not improved by medications.; The headache is not described as a "thunderclap" or the worst headache of the patient's life.	1
Unknown	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; "Caller is NOT SURE if there is evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Inflammatory/ Infectious Disease.; 02/13/2018; There has been treatment or conservative therapy.; neuropathy of feet and hands; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	3
Unknown	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; This study is being requested for a congenital abnormality; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	chronic COPD.; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	His wife is very concerned that she has witnessed him stop breathing during sleep. There is also reported snoring. There continues to be waxing and waning shortness of breath. He does report concern regarding environmental exposure to his lungs from work; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1

Unknown	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This reason this study is being requested is unknown.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Radiologist suggest CT chest due to X-ray of Chest that has been attached.; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGING SMALL CELL LUNG CANCER AFTER COMPLETION OF CHEMO  MOST RECENT PET SCAN SHOWED FDG UPTAKE INVOLVING THE LYMPH NODES  ASSESS RESPONSE TO THERAPY; This study is being ordered for a metastatic disease.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	THE ORDERING PROVIDER WANTS A CT OF CHEST DONE WITH CONTRAST PROVIDER SAW PATIENT TODAY WITH SOB CHF AND EDEMA ALSO ENCOURAGED PATIENT TO GO TO ER IF SYMPTOMS CONTINUE BEFORE TEST CAN BE PERFORMED; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Female with hx of traumatic injury and known DDD, 6 month hx of numbness and tingling in arms, EMG study negative, recommends MRI and neuro eval; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	NEUROLOGIC: CN 2-12 normal, Sensation to pain, touch, and proprioception normal, alert and oriented x 3.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Unknown	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has cervical raiuduclopathy.  Radiating pain down the shoulders and arms.   Has had testing and been on pain management, we need testing to see what exactly is going on; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Unknown	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This is a request for cervical spine MRI; Trauma or recent injury; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
Unknown	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	There are no documented clinical findings of immune system suppression.; This is a request for a thoracic spine MRI.; The patient is not experiencing back pain associated with abdominal pain.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis, Follow up to or Pre-operative evalution, or Neurological deficits.";	1

Unknown	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/2017; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; Medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	5
Unknown	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	DDD.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/16/2015; There has been treatment or conservative therapy.; Back Pain; Pain Management; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has been treatment or conservative therapy.; mbr has pain in back and neck and right sciatica and numbness Hx of nodules; pain management and medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/2017; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; Medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; left leg and foot sometimes goes numb; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; Back exercises; Naproxen	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; Tramadol Naproxen	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for None of the above	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for Inflammatory/ Infectious Disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	chronic low back pain w radiation down legs; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Failed medication treatment. 4/20/2018 analgesic. No reports of improvement to date.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Bilateral lower extremity weakness. Decreased strength in right leg.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient had new x-ray done that shows upper lumbar scoliosis and Advanced Degenerative lumbar spine changes most pronounced at L4-5 and L5-S; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient is a single mother with a young son, analgesics and muscle relaxers are not an option for her. Need to find out the exact problem so we can correct it.; This study is being ordered for trauma or injury.; 12/01/2018; There has been treatment or conservative therapy.; Pain, numbness/tingling, Instability, Weakness.; Anti-inflammatory, PT, chiropractor; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has pain and trouble sleeping, stiffness in legs. and weakness; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; unknown; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	1
Unknown	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	Growing pain; This is a request for a Pelvis MRI.; The study is being ordered for something other than suspicion of tumor, mass, neoplasm, metastatic disease, PID, abscess, Evaluation of the pelvis prior to surgery or laparoscopy, Suspicion of joint or bone infect	1
Unknown	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	Patient is a single mother with a young son, analgesics and muscle relaxers are not an option for her. Need to find out the exact problem so we can correct it.; This study is being ordered for trauma or injury.; 12/01/2018; There has been treatment or conservative therapy.; Pain, numbness/tingling, Instability, Weakness.; Anti-inflammatory, PT, chiropractor; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	she has an annular tear of her lumbar disc which causes lumbar radiculopathy.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; A 45 year old female patient presents with Lumbar back pain. Pattern of condition is persistent. Symptom is chronic. Severity of condition is moderate. Onset is gradual. It occurs in constant course. It is relieved by nothing. Aching, burning, stabbing. A; There has been treatment or conservative therapy.; back pain radiating to the bilateral hips to the bilateral groins to bilateral anterior thigh.; Opioids  Hydrocodone Tramadol  NSAID's  Aleve / Naproxen / Naprosyn Celebrex / Celecoxib Anti convulsants Lamotrigine Gabapentin / Neurontin Klonopin Pregabalin / Lyrica; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Chronic pain and had 6 weeks of PT w/worsening symptoms; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 03/07/2018; There has been treatment or conservative therapy.; Knee and Shoulder pain; PT, Nsaids, home exercises, bracing and immobilization; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	recurrent L shoulder pain without associated injury, or hx of trauma, Mechanism of injury: denies acute injury, c/o recurrent pain associated with lifting child; The requested study is a Shoulder MRI.; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.	1
Unknown	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; numbness	1
Unknown	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; severe at times right shoulder pain	1
Unknown	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has not had recent plain films of the shoulder.; Pt fell off of plane, pt can not raise his left are due to extreme pain, can not lift a glass of water. Unable to drive self to clinic	1
Unknown	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Unknown; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Unknown	Disapproval	73706 Computed tomographic angiography, lower extremity, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the lower extremity.	1
Unknown	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 15 years; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; percocet, hydrocodone, surgery in 2016; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/17/18; There has been treatment or conservative therapy.; hurts to walk; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Unknown	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 5/10/2018; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Unknown	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	The Chief Complaint is: Med refills; knot in stomach; discuss lab results. Visit for: screening for human immunodeficiency virus, viral disease, for malignant neoplasm of colon, of prostate, neck pain, and impotence.; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is no suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; It is unknown if the patient has new symptoms including hematuria, new lab results or other imaging studies including ultrasound, doppler or x-ray (plain film) findings, suspicion of an adrenal mass or suspicion of a renal mass.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an Abdomen CT.; This study is being ordered as a pre-op or post op evaluation.; The requested study is for pre-operative evaluation.; The study is requested by a surgeon, specialist or PCP on behalf of a specialist who has seen the patient.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	This is a request for CT Angiography of the Abdomen and Pelvis.	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	concern about appendicitis; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has a history of kidney stones, has gross hematuria, lower abdominal pain, flank pain.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient having right upper abdominal pain that radiates to right lower abdomen for 3 days. Patient states that pain started 2 days after her period was over Labs and abdominal imaging ordered to evaluate for appendicitis vs cholecystitis vs ovarian cyst i; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient is complaining of RLQ pain- close to the navel that feels hard at times and is painful to touch. Also complains of RUQ and epigastric pain that is worse after eating. Has daily nausea but no vomiting.; This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a recurrent problem. This has happened frequently in the past several years.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)	Radiology Services Denied Not Medically Necessary	It is not known if patient has any conditions like diabetes, age over 50 etc.; This request is for a Coronary CT Angiography study.; No, patient did not have a Nuclear Cardiology study within the past six months.; This study is being ordered for suspected Coronary Artery Disease (CAD) and symptomatic?; No, patient does not have new onset congestive heart failure.; Patient with worsening chest pain, palpitations, irregular heart beat, orthopenia, and dyspnea. Patient also has a complaint of fatigue and weight loss. Patient has a history of tobacco abuse.; Yes, there is Chronic Chest Pain.	1

Unknown	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Strong family history of cardiovascular disease which is patient brother @ 58 years ago . Had MI and is within coronary stents; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Unknown	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Unknown; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1
Unknown	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; shortness of breath when walking and breath when lying down and chest pain on exertion. Risk factors include age and hypertension Not well controlled. Will schedule the patient for Lexiscan nuclear stress test and 2-D echo cardiogram. If stress test is ab; It is not known if there has been any treatment or conservative therapy.; SOB WITH EXERTION,CHEST PAIN ON EXERTION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Disapproval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;	Radiology Services Denied Not Medically Necessary	This is a request for a Stress Echocardiogram.; None of the listed reasons for the study were selected; The member does not have known or suspected coronary artery disease	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material		A Chest/Thorax CT is being ordered.; This study is being ordered for known tumor.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	4
Urology	Approval	71250 Computed tomography, thorax; without contrast material		Bladder cancer and pulmonary nodule.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material		Elevates PSA and it was 826 up from 148. Biopsy was done 6/12 cords. Highest was 7.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material		LUNG NODULE; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material		LUNG NODULES; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; 'None of the above' are related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is being requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material		patient had an ultrasound on 5/10/18 testicular and noted solid appearing right testicular mass measuring 4.1 cm in diameter which is most consistent with presence of a primary testicular neoplasm; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material		Pre-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material		PROSTATE CANCER; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	71250 Computed tomography, thorax; without contrast material	Pt has a history of right renal pT1b clear cell adenocarcinoma. He had right nephrectomy 8/15/17. Scans are being ordered for routine metastatic surveillance; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material	Pt has hx of adenocarcinoma left kidney. Laparoscopic left nephrectomy done 6/27/2017 with no clinical evidence of recurrence. Scan is being done for routine surveillance; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material	pt w c/o of pain to ruq abd and rib pain, bloody urine, also has shortness of breath. He also has a history of kidney stones. He has had a 20-30 pound weight loss. He has a long history of smoking.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material	Routine metastatic surveillance for left renal cancer. Pt underwent left radical nephrectomy on 1/2/2018. No radiology studies since surgery; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material	staging studies for testis cancer; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material	SURVEILLANCE OF KNOWN KIDNEY CANCER. MAKE SURE NO RECURRENCE OR METASTATIC DISEASE.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	72192 Computed tomography, pelvis; without contrast material	1. Adrenal Mass: S/P CT guided percutaneous adrenal gland bx on 04/02/2018 path revealed adrenal cortical tissue and small amount of adrenal medullary tissue with adjacent blood clot no evidence of metastatic disease.  2. Adenomas: CT (2/14/18): There ar; This study is being ordered for known tumor, cancer, mass, or rule-out metastasis.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This study is being ordered for initial staging.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	72192 Computed tomography, pelvis; without contrast material	FLUID COLLECTION AFTER PROCEDURE; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	72192 Computed tomography, pelvis; without contrast material	na; This study is being ordered as a follow-up to trauma.; "The ordering physician is a gastroenterologist, urologist, gynecologist, or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	72192 Computed tomography, pelvis; without contrast material	NEWLY DX WITH PROSTATE CANCER/GLEASON SCORE OF 7; This study is being ordered for known tumor, cancer, mass, or rule-out metastasis.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This study is being ordered for initial staging.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	72192 Computed tomography, pelvis; without contrast material	Pt had a previous stone of 3mm on last CT. She was scheduled to have manipulation to rid the stone. However, the pain resolved and she cancelled. The pain is back and we are needing to see if this is a new stone and the location.; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	72192 Computed tomography, pelvis; without contrast material	Pt is having groin pain and testicular pain, He has palpable swollen inguinal lymph nodes; This study is being ordered because of a suspicious mass/ tumor.; "The patient has NOT had a pelvic ultrasound, barium, CT, or MR study."; This is a request for a Pelvis CT.; There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	72192 Computed tomography, pelvis; without contrast material	Sudden swelling in his groin area; This study is being ordered due to known or suspected infection.; "The ordering physician is a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	72192 Computed tomography, pelvis; without contrast material	Unknown; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		2
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	; This is a request for a Pelvis MRI.; The patient has NOT had previous abnormal imaging including a CT, MRI or Ultrasound.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Patient has elevated PSA levels.; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Prostate Cancer: on active surveillance.  Date of diagnosis: 07/10/15 with a PSA of 6.72  Gleason grade: 6 (3+3) x2 cores; This is a request for a Pelvis MRI.; The patient has NOT had previous abnormal imaging including a CT, MRI or Ultrasound.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	prostate levels PSA high looking for cancer PT has had a 4K test done.; This is a request for a Pelvis MRI.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; An abnormality was found in something other than the bladder, uterus or ovary.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	see attached clinicals.; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for evaluation of the pelvis prior to surgery or laparoscopy.	1

Urology	Approval	74150 Computed tomography, abdomen; without contrast material		SURVEILLANCE OF KNOWN KIDNEY CANCER. MAKE SURE NO RECURRENCE OR METASTATIC DISEASE.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered as a pre-op or post op evaluation.; The requested study is for pre-operative evaluation.; The study is requested by a surgeon, specialist or PCP on behalf of a specialist who has seen the patient.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a kidney/ureteral stone.; There is a known or a strong suspicion of kidney or ureteral stones.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is no suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; There are no new symptoms including hematuria.; There are new lab results or other imaging studies including ultrasound, Doppler or plain films findings.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are clinical findings or indications of Hematuria.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has not been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed within the past 10 months.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This is a request for evaluation of prostate cancer.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is male.; The patient had a prior Abdomen/Pelvis CT.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Bladder cancer and pulmonary nodule.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	CT Renal stone protocol. Locate stone for possible surgical intervention.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	FLANK PAIN WITH HISTORY OF KIDNEY STONES; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for glucose.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Follow up from Renal Cell Carcinoma has had a left Partial Nephrectomy in 2013; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	GROSS HEMATURIA; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the hematuria is not known.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT	4
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	HX OF KIDNEY STONE AND FLANK PAIN; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	KIDNEY CANCER; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	KIDNEY STONE AND FLANK PAIN; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for ketones.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	KIDNEY STONE; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT	2

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	NEW DIAG PROSTATE CA, PSA 16.24, GLEASON 3+4  IS HAVING A WHOLE BODY BONE SCAN ALSO; This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	New pt referred for microscopic hematuria.  Pt states that she has been told that she "has had blood in her urine for several years." PMH HTN, depression, genital herpes (on acyclovir, no recent outbreaks), 15 pack year smoking hx. She denies gross hemat; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the hematuria is not known.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; The results of the urinalysis were abnormal.; It is not known if the urinalysis was positive for billirubin, ketones, nitrites, hematuria/blood, glucose or protein.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	patient had an ultrasound on 5/10/18 testicular and noted solid appearing right testicular mass measuring 4.1 cm in diameter which is most consistent with presence of a primary testicular neoplasm; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Patient was diagnosed with renal adenocarcinoma on 8/1/2017. She underwent left nephrectomy . Scan is being ordered for routine surveillance; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	PATIENT WAS KNOWN KIDNEY CANCER. HE UNDERWENT A LEFT RADICAL DAVINCI NEPHRECTOMY ON 07/08/2016. CT CHEST/ABD/PELVIS IS NEEDED FOR SURVEILLANCE AND MAKE SURE THERE IS NO RECURRENCE OF METASTATIC DISEASE.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Pt has a history of right renal pT1b clear cell adenocarcinoma. He had right nephrectomy 8/15/17. Scans are being ordered for routine metastatic surveillance; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Pt has hx of adenocarcinoma left kidney. Laparoscopic left nephrectomy done 6/27/2017 with no clinical evidence of recurrence. Scan is being done for routine surveillance; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		pt has know renal mass consistent with renal cell carcinoma..we need ct chest/abd/pelvis for initial staging and to look for metastatic disease; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		PT HAS RECURRENT UTIS' AND OCCASIONAL HEMATURIA; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the hematuria is not known.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for protein.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		pt w c/o of pain to ruq abd and rib pain, bloody urine, also has shortness of breath. He also has a history of kidney stones. He has had a 20-30 pound weight loss. He has a long history of smoking.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Pt. diagnosed with prostate cancer4/26/2018; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		RENAL CELL CARCINOMA; This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This is not request for evaluation of prostate cancer.; This study is being ordered for follow-up.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is male.; The last Abdomen/Pelvis CT was performed within the past 10 months.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		right flank pain, hx of renal and ureteral stones 11/2017 plain films: show bilateral renal stones. pt has been unable to pass them; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Routine metastatic surveillance for left renal cancer. Pt underwent left radical nephrectomy on 1/2/2018. No radiology studies since surgery; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		staging studies for testis cancer; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the hematuria is not known.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; Yes this is a request for a Diagnostic CT	24

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for bilirubin.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for glucose.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than billirubin, ketones, nitrites, hematuria/blood, glucose or protein.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT	8
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	4
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for ketones.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	23
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The hematuria is due to Renal Calculi/kidney/ ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	14
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This is a request for evaluation of prostate cancer.; There is not a PSA greater than 10.; There is a Gleason Score (sum) 7 or greater.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is male.; The patient did not have a prior Abdomen/Pelvis CT.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is organ enlargement.; There is ultrasound or plain film evidence of an abdominal organ enlargement.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; It is unknown if the patient had an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was perfromred more than 10 months ago.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	4
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	8
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT ; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed something other than Gall Stones, Kidney/Renal cyst, Anerysm or a Pelvis Mass.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has been completed.; The results of the contrast/barium x-ray were normal.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	241
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		Pt had TCC of the bladder and was treated with BCG. He then had significant urgency and frequency and cysto and biopsy indicated continued cancer. Pt continues to be symptomatic.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; The patient is not presenting new symptoms.; The patient has had 3 or fewer follow-up abdomen MRIs.; This study is being ordered for follow-up.; The patient is not undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; L Myelolipoma: 3.4 cm adrenal gland mass on prior CT (12.7.16). MRI (12.8.16) showed 3.4cm myelolipoma.	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; primary malignant neoplasm of kidney Had right partial nephrectomy for grade 1 cystic renal cell ca in 3/17. Seems to be doing well. Has Bosniak 3 cyst in upper pole on right on CT and US. Cyst is stable. Will follow for now. Will see again in 6 months w	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; HPI: 54 y.o. male referred for Large 17 cms LEFT renal mass with tumor thrombus extending into the IVC. , I see extending at or above the level of the portal vein. Complaint of left loin pain. Moderate weight loss and loss of appetite. No loin swelling. N	1

Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; CT scan that revealed a 2cm mass on R kidney	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; F/U RENAL MASS FROM 2017 SCAN	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; NEEDS RE-EVALUATION-	1
Urology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Urology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Urology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; Surveillance of a known cancer following treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is being requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	3
Urology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This reason this study is being requested is unknown.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1

Urology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	1. Renal mass - Bilateral renal masses c/w RCC  Has all markings of VHL   Right lower pole lesion is larger but was embolized - did shrink some, but still enhances peripherally   Left upper pole endophytic lesion ~4.1-cm     Will fill out forms; This study is being ordered for Congenital Anomaly.; 05/14/2018; There has not been any treatment or conservative therapy.; 42 year old male with VHL and bilateral renal masses that had recent CT showing some reduction in right renal mass s/p embolization; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	the patient is having urinary incontinence predominantly stress incontinence. She doesn't wear any pads. She's had 4 vaginal deliveries including a set of twins. She also had some low back pain and has a nodular area in the right sacral iliac region.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	previous biopsy, PSA's elevating, latest PSA 05/10/2018 = 11.87; This is a request for a Pelvis MRI.; The study is being ordered for something other than suspicion of tumor, mass, neoplasm, metastatic disease, PID, abscess, Evaluation of the pelvis prior to surgery or laparoscopy, Suspicion of joint or bone infect	1
Urology	Disapproval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the abdomen.	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	BLADDER PAIN AND OVERACTIVE BLADDER; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	FLANK PAIN AND HISTORY OF KIDNEY STONES; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	FLANK PAIN; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1

Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for glucose.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for protein.; Yes this is a request for a Diagnostic CT	2
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than billirubin, ketones, nitrites, hematuria/blood, glucose or protein.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT	6
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	6
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; It is unknown if there has been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	10
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1

Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; It is unknown if the patient had an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; There is a known or a strong suspicion of kidney or ureteral stones.; Kidney/Ureteral stone; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	3
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed a Kidney/Renal cyst(s); Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	history of hydronephrosis; This request is for an Abdomen MRI.; This study is being ordered for hematuria.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; The abnormality found on a previous CT, MRI or Ultrasound was not in the liver, kidney, pancreas or spleen.	1
Vascular Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Vascular Disease.; 5/2017; There has been treatment or conservative therapy.; Neck/shoulder pain.; Left carotoid bypass; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Vascular Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		F with aberrant right subclavian artery status post carotid and subclavian bypass graft with ligation of the aberrant right subclavian artery on 03/27/2017. TEVAR placed on 04/07/2017 for treatment of persistent aberrant subclavian artery causing dysphagi; It is not known whether this study is requested to evaluate suspected pulmonary embolus.; This study is being ordered for Suspected Vascular Disease.; It is not known whether there are new signs or symptoms indicative of a dissecting aortic aneurysm.; It is not known whether this is an evaluation for thoracic outlet syndrome.; It is not known whether there are signs or symptoms indicative of vascular insufficiency to the neck or arms.; Yes, this is a request for a Chest CT Angiography.	1
Vascular Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		Pt is a 39yo with a complex chronic type B dissection. She has been managed medically due to several issues. She has thrombosed her true lumen and has additionally thrombosed her SMA and left renal artery. She has a patent celiac and right renal artery th; This study is being ordered for Vascular Disease.; February 16th 2018; There has been treatment or conservative therapy.; pain in her chest and epigastrium; patient has been Medically treated with pain and Blood pressure medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Vascular Surgery	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."	1
Vascular Surgery	Approval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Pt is a 39yo with a complex chronic type B dissection. She has been managed medically due to several issues. She has thrombosed her true lumen and has additionally thrombosed her SMA and left renal artery. She has a patent celiac and right renal artery th; This study is being ordered for Vascular Disease.; February 16th 2018; There has been treatment or conservative therapy.; pain in her chest and epigastrium; patient has been Medically treated with pain and Blood pressure medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Vascular Surgery	Approval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing		unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/01/2012; There has been treatment or conservative therapy.; pain, follow up on known aneurysm; previous surgery in 2012; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Vascular Surgery	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the abdominal arteries.	9
Vascular Surgery	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This study is being ordered as a pre-operative evaluation.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; The patient has not had a recent stress echocardiogram.; The patient has suspected CAD.; This patient is clinically obese or has an emphysematous chest configuration.; The patient has not had a stress echocardiogram within the past eight weeks.; This evaluation is prior to major surgery involving general anesthesia.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Vascular Surgery	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This study is being ordered as a pre-operative evaluation.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; There are documented clinical findings of hypertension.; The patient has not had a recent non-nuclear stress test.; The patient has not had a recent stress echocardiogram.; The patient has suspected CAD.; "Patient is not clinically obese, nor has an emphysematous chest configuration."; The patient has not had a stress echocardiogram within the past eight weeks.; This evaluation is prior to major surgery involving general anesthesia.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Vascular Surgery	Disapproval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	54 year old male referred to us for carotid stenosis. He has a history of a right CEA in December 2017 after having a TIA (he describes the episode as inability to move, talk or see for a few minutes). At that time it was discovered that he had an occlude; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/2017; There has not been any treatment or conservative therapy.; 54 year old male referred to us for carotid stenosis. He has a history of a right CEA in December 2017 after having a TIA (he describes the episode as inability to move, talk or see for a few minutes). At that time it was discovered that he had an occlude; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
