General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 3/26/2018; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; < Describe treatment / conservative therapy here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; November 2017; There has been treatment or conservative therapy.; pain; pt and medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	: acute low back pain, started over weekend; denies any injury or trauma; denies any pain radiation into lower ext; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	4
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	4
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Lower Leg Reported by patient. Location: right Quality: burning; stabbing; sharp Severity: severe Duration: 4 days Timing: acute Context: cannot identify Alleviating Factors: nothing helps Associated Symptoms: weakness; numbness Previ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Patient is having low back pain with increasing lower extremity pain and weakness.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; The patient has none of the above.; This procedure is being requested for Trauma or recent injury	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; 11/2017; There has been treatment or conservative therapy.; left foot drop, paresthesias, cervical myelopathy with radiculopathy; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; 4/5/2018; There has been treatment or conservative therapy.; Left low back pain w/radiation to the left sacral notch, around the anterior thigh, knee and medial lower leg, left foot numbness; Physical Therapy, Epidural Steroid Injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; cervical disc disease, on c spine xray, also c/o low back pain with numbness of left side. with pain radiation into left lower leg.; There has been treatment or conservative therapy.; patient with cervical disc disease, on c spine xray, also c/o low back pain with numbness of left side. with pain radiation into left lower leg.  patient c/o a lot of increased pain on her left side. she c/o left side toes are numb; naproxen is not controlling the pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; This patient has been dealing with this for a couple of years now.; It is not known if there has been any treatment or conservative therapy.; Severe back and hip pain, also swelling and pain in feet.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; Describe primary symptoms here - or Type In Unknown If No Info Giv en PAIN IN CERVICAL, THORACIC & LUMBAR SPINE RADIATING TO LEFT HIP THEN DOWN TO FOOT WITH TOE INVOLVEMENT; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 08/10/2017; There has been treatment or conservative therapy.; Low Back and Cervical spine pain. Radiating pain from the low back into both buttocks and lateral thighs. She describes episodes of intermittent sharp pain radiating into both upper extremities and lower extremities.; Baclofen/Mobic/Gabapentin - 08/10/2017 Physical Therapy 08/10/2017; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/01/2017; There has been treatment or conservative therapy.; chronic bilateral leg pain and lower bilateral back pain. worse on right side. neck pain. MRI 2015 abnormal, budging disc and compressed fracture.; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	9
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient does not have a fever and elevated white blood cell count or abnormal amylase/lipase.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; It is unknown if the patient has Crohn's Disease, Ulcerative Colitis or Diverticulitis.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient does not have a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient has Crohn's Disease.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient has a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This is not request for evaluation of prostate cancer.; This study is being ordered for staging.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is male.; Yes this is a request for a Diagnostic CT	2
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	2
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Other; <Enter Additional Clinical Information>; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 03/01/2017; There has been treatment or conservative therapy.; ; It is not better with anti-inflammatories or core strengthening. She has failed conservative measures including greater than 6 weeks of core strengthening hip strengthening and anti-inflammatories; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 03/07/2014; There has been treatment or conservative therapy.; Mid to low back pain with radiculopathy to bilateral lower extremities; sent for X-Ray. Pt has been given anti inflammatories and does stretching exercises; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 4/4/2018; There has been treatment or conservative therapy.; Back pain; xrays, pain medications, muscle relaxers; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	4 WHEELER ACCIDENT IN LATE MARCH, WENT TO ER & PAIN NOT BETTER, NOW TO SEE HER PCP.; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	a lot of pain; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal x-ray of lumbar spine. Being referred to neurology specialist. Specialist requires MRI to see member; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; Not quick to respond	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Acute back pain s/p injury while lifting heavy object, no response to heat/cold stretching, NSAIDs, muscle relaxers or steriods.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	After two weeks of Heat and meds pt is still having pain. f/u was done by phone pt states still having same issues; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/19/2018; There has been treatment or conservative therapy.; Back Pain Midline and lower back and left and right lower back Moderate in severity and worsening; Tylenol w/ Codine, Robaxin and Prednisone; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	back pain continues despite medication for over 6 weeks; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Back pain persistent , radiating to lle , causing numbness in lower back . Has been using nsadis ,muscle relaxant and stretching exercises at home and not better ,Desires to proceed with further eval.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Back pain worse with standing and flexing, relieved with rest and reclining. Notes numbness in extremity or muscular weakness. Notes stiffness with activity. Notes limited range of motion.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Back pain worse with standing and flexing, relieved with rest and reclining. Notes numbness in extremity and muscular weakness. Notes stiffness with activity. Notes limited range of motion.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	back pain worsens with activity; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; Hydrocodone ,Acetometaphine	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	blood in urine...neck pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	chr back pain, MRI in 2012 shows early disc degeneration L4_L5, mod. R foraminal narrowing; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	chronic back pain. injections no longer helping. has a history of bulging discs and disc herniation. pain radiates to lower limbs; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; weakness in limbs, numbness of legs/feet; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic low back pain - Onset: 02/12/2018; Low back pain - Onset: 05/10/2018; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Back Pain; Reported by patient.; Location: lumbar; pain radiating to the legs; Quality: sharp; Severity: severe (8-10); Onset/Timing: 7 months ago; Associated Symptoms: numbness of the legs/feet; tingling; nausea; There has been treatment or conservative therapy.; Back Pain; Reported by patient.; Location: lumbar; pain radiating to the legs; Quality: sharp; Severity: severe (8-10); Onset/Timing: 7 months ago; Associated Symptoms: numbness of the legs/feet; tingling; nausea.; Musculoskeletal System: Lumbar / Lumbos; OTC Tylenol (acetaminophen), diphenhydramine, and ibuprofen; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	chronic low back pain that radiates down his right leg.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic lower back pain- 4/10 in intensity- Worse with exertion, pushing, pulling, lifting weight Info Given.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	continued low back pain even after taking medications, such as diclofenac sodium 100 mg tablet extended release 24 hr, 1 tablet 1 time per day. and Robaxin 500 mg take 1 tablet 2 times per day PRN.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	CT shows a disc bulge at the L4-L5 and L5-S1.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	DDD; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Degenerative changes with possible plate compression deformities.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; January 2018; There has been treatment or conservative therapy.; Lumbar radiculopathy; Medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	degenerative disc disease, worsening pain, last MRI in 2015--; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Due to the amount of pain and limited mobility I feel that it is in his best interest to have an MRI to rule anything out.; This study is being ordered for trauma or injury.; Wednesday May 2nd 2018 for shoulder. Friday May 4th 2018 for lumbar.; There has been treatment or conservative therapy.; Pain and limited mobility; Heat and ice 4 times a day. Muscle relaxers; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Eval for organic cause of low back pain prior to referral to pain management by PCP.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	has bulging disc, has sculeosis; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	HAS FAILED 6 WEEKS PT AND CONSERVATIVE THERAPY.; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; HAS FAILED OVER 6 WEEKS OF CONSERVATIVE THERAPY INCLUDING PHYSICAL THERAPY, MEDICATIONS AND CHIROPRACTIC. STILL HAVING SIGNIFICANT PAIN AND NOT ABLE TO FUNTION IN HIS DAILY ACTIVITIES WITH ABNORMAL REFLEXES.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	has tried naprosyn, flexeril, toradol, and 2 steriod injections with no relief. pt returns today with continued back pain; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	HERNIATED DISCS NEEDS MRI C SPINE AND LUMBOSACRAL SPINE; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	history of Harrington Rod due to scoliosis, suspected herniated disc; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	hx of lumbar degenerative disc disease, and has been on chronic pain mgt since 2006.was also on Flexeril in the past but it did not help much so will provide a trial of Baclofen. hx of chronic low back pain that radiates down her right leg, and causes dif; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Difficulty walking as pain runs down her leg; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	I am concerned that she has nerve compression. I am going to treat her with prednisone taper and robaxin. We will get her setup for MRI. Further diagnostic evaluations ordered today include(s) LUMBAR SPINE COMPLETE to be performed today.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Left leg numbness after sitting for long period of time. "Throbbing" and is not constant. Feels like its a sharp and "pinched". Located to left lower back and rads to left groin. Can provoke pain with pressure to specific spot to left of his tail bone -- ; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Patient is having weakness and numbness of left leg.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Limited range of motion, secondary to pain. Low back pain bilaterally, lumbar, that is constant; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	low back pain chronic reoccurring lower back pain since teenager as a cheerleader fell multiple times and had injury with +mri and arthritis. pt can not remember where mri was done. sharp pain in lumbar area, has been gradually getting worse. aggravated b; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	low back pain, decreased rom in rt leg as well leg pain; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	low back pain. The pain developed acutely several months ago. It is 10/10 in severity, has an aching quality and radiates into the right leg, buttocks, thigh, and calf distribution. The pain has been constant. The patient states the pain is aggravated by ; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Lumbar HNP; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	MD believes that pt has hernia disc.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Ms. Meredith presents with classic migraine. Ms. Meredith was diagnosed with migraine headaches several years ago. The current headache began approximately two weeks ago. Associated symptoms include nausea. The pain improves with Phenergan. Patient t; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Musculoskeletal * Gait - no assistive device, antalgic. Lumbar spine - Range of motion: mild pain w/ motion. of Present Illness: 1. Right Leg Pain  Onset: 1 month ago. Duration: varies. Severity level is moderate. It occurs constantly and is flu; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	My lower back is hurting and going down my leg. Me and my dad was carry pipe on our shoulders and he let his end down and I bent back and heard a pop, This happen 7 days ago; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	n/a; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/2018; There has been treatment or conservative therapy.; patient having headaches causing Dizziness and having numbness run down her legs; physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	na; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	2
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	none; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	none; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; pain that runs down right leg; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	none; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; exercises printed out by the MD and given to the Pt	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	none; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/29/2018; There has not been any treatment or conservative therapy.; several low back pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	numbness in right leg; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	old MRI shows herniated disc; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; tenderness noted in L5 region and lower neck discomfort on physical examination	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	pain and numbness primarily in back and left side pain elicited by motion pain medication did not ease pain; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/17/2018 first office visit for this symptom; There has been treatment or conservative therapy.; pain and numbness left shoulder arm and leg. upper and lower back pain; pain medication with no improvement; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Paresthesia of lower extremity bilateral hx DM, no prev back surgery; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient came in for 2nd opinion for low back pain and swelling on the left side of back. Patient complains of sharp pains and interfering with her work.; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient had a x-ray of c-spine that shows severe disc narrowing and moderate stenosis and spurring. Patient also has chronic back pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT HAD MRI AND XRAY IN DECEMBER 2016, SHOWED DISC PROTRUSIONM PT SAYS PAIN IS GETTING WORSE SINCE HAVE MRI AND XRAYS,PT HAS BEEN PRESCRIBED STERIODS, MUSCLE RELAXER, PAIN MEDICATIONS, AND ANTI-INFLAMATORY, WITH NO RELIEF.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient had previous abnormal lumbar x-ray; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient has back pain, neck pain and paresthesia; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient has been seen multiple times for this complaint. failed conservative therapy; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.;	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has diagnosis of Scoliosis. Complains of chronic back pain. Patient reports not being able to stand for more than four minutes without experiencing pain. Also, she is limited on sitting. This pain has worsened to the point that it's limiting her a; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT HAS DONE PHYSICAL THERAPY WITH NO RELIEF; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; LEFT LOWER LUMBAR RADICULOPATHY, PAIN INTO LEFT HIP AND LEFT POSTERIOR THIGH.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has had a recent fall; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has had back pain for the last 4 months; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; It is not known if there is x-ray evidence of a lumbar recent fracture.	1
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Other; possible crohn's disease and enteritis, Pt had previous hiatal hernia; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	3
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	4
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	16
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	5
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has been completed.; The results of the contrast/barium x-ray were normal.; The patient had an endoscopy.; The endoscopy was normal.; Yes this is a request for a Diagnostic CT	22

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient has slight lumbar scoliosis with back pain; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient has tried steroids, pain medication, nsaid, and exercises with no relief; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT HAS WEAKNESS IN BILATERAL LEGS AND BACK .; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; PT HAS HAD BACK PAIN FOR MORE THAN 1 YR TAKING METHOCARBAMOL TID BUT IS NOT WORKING. PATIENT HAS TRIED P/T. BACK PAIN IS WORSENING.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient having difficulty walking, back exercise made back pain worse , radiating pain down to thigh; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient having ongoing neck pain with neurologic deficit. Cervical Xray did not provide clinical answer. Also chronic low back pain with radiculopathy. Patient has had previous lumbar surgery.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT IS HAVIGN SEVERE LOW BACK PAIN RADIATING INTO LEGS. WAS SUPPOSE TO HAVE SURGERY BUT WAS NOT ABLE TO HAVE IT DONE AT THAT TIME; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; PATIENT STATES WEAK TO STAND; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient is here to discuss getting a referral to surgeon. She states she had a CT scan of gallbladder about a month ago and physician said her spine was compressed. She is currently having pain in lower back. She is currently taking Flexeril and Hydrocodo; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient needs these MRI's to evaluate her back pain and the progression of her Scoliosis.; This study is being ordered for Congenital Anomaly.; Patient has had Scoliosis since childhood. Not exactly sure the date. Close to 15 years ago.; There has been treatment or conservative therapy.; Severe thoracic and lumbar back pain.; Patient has wore a brace and taken methocarbamol 500 mg.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient presents for follow-up; was seen recently for lower back pain with radiation down left leg; started on gabapentin, also taking flexeril and tramadol. Patient reports that symptoms seemed to have worsened; now causing left testicular pain, worsenin; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient states all up and down the back and neck is achy when laying down and standing. Lower part of the back is worse with overall pain but the neck is what messes with most daily life activities.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/15/2018; There has been treatment or conservative therapy.; Patient has arthritis issues in both cervical and lumbar spine. Patient also has neck and lower back pain.; Patient has been taking Meloxicam, Flexeril, Cyclobenzaprine Hydrochloride, gabapentin, and Norco. Using a heat pad. Patient has been going to Physical Therapy.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient suffers from Chronic right-sided low back pain with right-sided sciatica; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient works standing on concrete daily. He is having numbness in thighs, pins and needle sensation in both thighs. He can NOT take any INSAIDS do to being on Warfarin. Patient can bleed to death.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; It is not known if there is x-ray evidence of a lumbar recent fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Please describe the weakness found by the doctor on examination. Document exam findings: Acute Low Back Pain, Muscle Spasms Lower Back with pain and numbness radiating down the right buttocks with electrical shock pain and leg giving out on him, patient h; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Acute Low Back Pain, Muscle Spasms Lower Back with pain and numbness radiating down the right buttocks with electrical shock pain and leg giving out on him, patient has had multiple falls in the past three weeks; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Positive for back pain and neck pain. Cervical back: She exhibits decreased range of motion, tenderness, swelling and pain.  Thoracic back: She exhibits decreased range of motion, tenderness, swelling and pain.  Lumbar back: She exhibits decreased rang; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt had slip and fall 2 yrs ago. Pt has been seeing another doctor, Pt had MRI Last year and needs new imaging for Neurosurgeon appointment.; This study is being ordered for trauma or injury.; 2 years, slip and fall some where around May 2016; There has been treatment or conservative therapy.; Lower back pain with radiculopathy, Neck and shoulder pain, Neuropathy. Weakness in both legs.; Pain medication, spine injection.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has had back pain for years. Wants referral to neurosurgeon but will have to have MRI before the specialist will schedule for evaluation; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PT HAS LBP AND B LE PAIN, UA WAS NEGATIVE AT OFFICE.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PT HAS NUMBNESS AND TINGLING FROM LOW BACK DOWN TO HIS ANKLE, TENDERNESS IN HIS LOW BACK ON EXAM. straight leg raise positive on left.; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has pain radiating down her leg pain is acute started within past day is severe 10/10; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has significant scoliosis to the thoracolumbar spine and has developed chronic low back pain. Xrays have been performed in another office, however, we do not have the records on file; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PT HAVING CONTINUED BACK PAIN FOR 2 MONTHS, PRESCRIPTION MEDICATION IS NOT HELPING PER THE PT. XRAY REPORTED NORMAL.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PT HAVING LOWER BACK PAIN GOING DOWN RIGHT LEG FOR SEVERAL MONTHS. MEDICATIONS NOT HELPING; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt is her today with pain due to a wreck that he had this weekend He has had broken ribs and back and fingers with amputation of middle finger low back pain toenail abnormality; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt suffers with left hip pain with numbness in right foot.; The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for None of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt taking meds.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt unable to stand on toes or heels, unable to squat or bend over. Has been treated with muscle relaxers, steroids, morphine, and tramadol with no improvement. Xrays show no fracture.; The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; The patient has none of the above.; This procedure is being requested for Trauma or recent injury	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Radiculopathy that goes from left foot into upper thigh.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	see DX codes; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; It is not known if there has been any treatment or conservative therapy.; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	sever pain and numbness in wrist and legs; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; pt came in slow gait weakness noted in legs and wrist area. C/o sever pain in lower back. referral to neurology. need MRI performed prior to the referral.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	2
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	3
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1

Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has been completed.; The results of the contrast/barium x-ray were normal.; The patient had an endoscopy.; The endoscopy was normal.; Yes this is a request for a Diagnostic CT	6
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient had an endoscopy.; The endoscopy was abnormal.; The patient is under 50 years old.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	3
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were abnormal.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	6
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		ULTRA was negative. Elevated liver enzymes.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		unknown; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has not been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)			13
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.	1

Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		<p>&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for Inflammatory/ Infectious Disease.; 2015; There has been treatment or conservative therapy.; elevated LFT FATIGUE ITCHING URSODIOL HYDROXOLINE FOR ITCHING QUESTRAN; Liver Biopsy imaging labwork; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		<p>; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		<p>LIVER MASS; This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A liver abnormality was found on a previous CT, MRI or Ultrasound.; There is NO suspicion of metastasis.</p>	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		<p>On 9/11/2017 MRI Abdomen showed Signal change involving the posterior medial aspect of the lateral segment of the left lobe of the liver is present.Recommended 3 or 6 month follow up exam.; This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is NOT presenting new signs or symptoms.; The patient did NOT have chemotherapy, radiation therapy or surgery in the last 3 months.; They had an Abdomen MRI in the last 10 months.</p>	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		<p>This request is for an Abdomen MRI.; This study is being ordered for known or suspected infection.; "The ordering physician is a gastroenterologist, urologist, or infectious disease specialist."; &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;;</p>	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	<p>Severity: worsening; pain level 7/10&#x0D; Prior Imaging: MRI; degenerative lumbar disk disease.&#x0D; worsening; interference with sleep&#x0D; do not improve with medication&#x0D; tingling in feet&#x0D; Motor Strength and Tone: normal tone and motor strength. Joints, Bones, and; This study is being ordered for a neurological disorder.; UNKNOWN; There has been treatment or conservative therapy.; WEak limbs; numbness of the legs/feet; tingling; gait instability&#x0D; DULL, STIFFNESS&#x0D; restricted range of extremity movement; Patient has tried ice, heat, stretches, NSAIDs, and PT.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The Pt had abnormal lumbar ray of pars defect at L-5.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; not effective, 4 weeks; tramadol,	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	3
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	5
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	10
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Tried and failed medications.&#xOD; Tried and failed physical therapy.&#xOD; Tried and failed home therapy stretches.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Abnormal Upper and Lower Back Pain; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unable to lift objects and unable to bend at waist; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	2
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; weakness on left side, raiding from arm down to thigh and back; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; over the counter meds 800 ml ibeproben	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	2
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Neurological: Positive for numbness (left foot goes numb frequently). left sided sciatica; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for known or suspected infection.; "The ordering physician is a gastroenterologist, urologist, or infectious disease specialist."; Severe abdominal pain. Ultrasound, gastric emptying scan and lab work & EGD all done. Liver functions getting higher.	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for known or suspected infection.; "The ordering physician is a gastroenterologist, urologist, or infectious disease specialist."; will order MRI to r/o pancreatic lesions, as well as any splenic lesions that may account for her pain	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for known or suspected vascular disease.; The ordering physician is a surgeon.; US on 5.16.2018 showed Increased echogenicity of the liver may represent hepatic parenchymal disease and/or hepatic steatosis	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon.";	2

Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.	1

Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; Unknown	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for organ enlargement.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A liver abnormality was found on a previous CT, MRI or Ultrasound.; There is suspicion of metastasis.	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for organ enlargement.; There is an ultrasound or plain film evidence of an abdominal organ enlargement.; < Enter answer here - or Type In Unknown If No Info Given. >	3
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for organ enlargement.; There is an ultrasound or plain film evidence of an abdominal organ enlargement.; Pt has cirrhosis - this is his 1 yr FU MRI to check status.	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for organ enlargement.; There is an ultrasound or plain film evidence of an abdominal organ enlargement.; The patient underwent a gastric sleeve operation in August of 2017. She has lost about 40 pounds since the surgery. In March of 2018, the patient developed severe abdominal pain and underwent a laparotomy and was told that she had an internal hernia are	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for None of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a neurological disorder.; 05/17/2018; There has not been any treatment or conservative therapy.; limited range of motion , dragging legs.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/2017; There has been treatment or conservative therapy.; Pain. Tingling in feet and hands. Neck pain and stiffness.; On topearamate with no relief.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/25/2018; There has been treatment or conservative therapy.; Left sided low back pain radiating down left leg.; Starting PT today. Taken anti-inflammatories.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unsuccessful results with medication and therapy; This study is being ordered for trauma or injury.; unknown; There has been treatment or conservative therapy.; Back pain unrelieved with medication and physical therapy; Physical therapy, Nsaids. muscle relaxers; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	X ray of l spine but not enough details.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study.";	7
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; a FOCAL AREA OF HYPERECHONGENICITY IS APPRECITED WITHIN THE RIGHT LOBE OF THE LIVER. THIS IS INDETERMINATE ON ULTRASOUND EXAMINATION AND FURTHER IMAGING IS NEEDED.	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; MRI110/9/2017	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; PT IS COMPLAINING WITH CHRONIC PAIN, HAS HAD AN ABNORMAL DIAGNOSTIC IMAGING, NOTHING SHOWS UP ON COLON OR EGD.	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; There is a mass with progressive interrupted peripheral nodular enhancement along the inferior margin of the right hepatic lobe measuring approximately 28 mm that is more prominent than on previous imaging but suspected to reflect a hepatic hemangioma.	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study.";	2

Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" Follow-up MRI for documented cystic mass of pancreas, area was too small to be biopsied 6 months ago	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" Patient had CT on 6/8/18 that showed nonspecific liver lesions in patient with cirrhosis and early hepatocellular carcinoma cannot be excluded. Recommended MRI	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	X RAY SHOWS NARROWING FOR L4 AND L5; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	X-ray showed old compression fracture of L1 and L2 vertebra.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; pain with walking,standing,sitting, ect.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Evaluate fracture; This study is being ordered for trauma or injury.; 04/03/2018; There has been treatment or conservative therapy.; low back pain radiating to leg; medications, injection; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	patient has had groin pain, technician at the Baptist Health Imaging Center stated that an Ultrasound of the Scrotum area wouldn't be sufficient.; This study is being ordered due to organ enlargement.; There is no ultrasound or plain film evidence of a pelvic organ enlargement.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Possible hernia, history of hernia on opposite side; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This study is being ordered due to known or suspected vascular disease.; The ordering physician is not a surgeon or PCP who is ordering on behalf of a surgeon who has seen the patient.; There is NOT plain film, ultrasound or Doppler evidence of a vascular abnormality.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	trouble walking, muscle weakness, fell off stool while painting 3 weeks ago, legs will give out when walking and will fall, has fallen several times since accident, leg, hip and pelvis pain; This study is being ordered for trauma or injury.; unknown; It is not known if there has been any treatment or conservative therapy.; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	; This is a request for a Pelvis MRI.; The study is being ordered for joint pain or suspicion of joint or bone infection.; The study is being ordered for something other than arthritis, slipped femoral capital epiphysis, bilateral hip avascular necrosis, osteomyelitis or tail bone pain or injury.	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A kidney abnormality was found on a previous CT, MRI or Ultrasound.; The patient has a tumor.	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.;	3
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.;; Acute Pancreatitis . Iron deficiency and abnormal liver function.	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.;; ELEVATED PROTEIN	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.;; Liver lesion found on ct.	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.;; unknown	1
Gastroenterology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.;; Will alternate US and MRI(liver protocol) Q6months for HCC screening as he had prior US where an area of his liver was not well visualized. Will get MRI in 6 months(ordered).	1
Gastroenterology	Approval	74261 Computed tomographic (CT) colonography, diagnostic, including image postprocessing; without contrast material		; This patient has a medical problem that makes him/her unsuitable for conventional colonoscopy.; The member had colon screening studies completed prior to this request.	1
Gastroenterology	Approval	74261 Computed tomographic (CT) colonography, diagnostic, including image postprocessing; without contrast material		Pt has reducdant colon with several polyps in 2017 and it was hard to do a colonoscopy; This patient has a medical problem that makes him/her unsuitable for conventional colonoscopy.; The member had colon screening studies completed prior to this request.	1

Gastroenterology	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Patient being evaluated for listing for a liver transplant.; The patient has had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for Congenital Anomaly.; 19 year old with Mayer-Rokitansky-Kuster-Hauser syndrome type 2, needing MRI's prior to visit with gynecologist.; It is not known if there has been any treatment or conservative therapy.; Unknown, new patient establishing prior to seeing specialist at University of Arkansas Medical Science.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	none; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	none; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/29/2018; There has not been any treatment or conservative therapy.; several low back pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	Patient has had several imaging studies performed but in all the L ovary had been obscured by something; This is a request for a Pelvis MRI.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; Something other than a cyst, tumor or mass was found on previous imaging.; An abnormality was found in the ovary.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	patient is having pelvic pain; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	she fell a few years ago and hurt her right buttock, right s-l joint, also injured her right neck. cont lower back pain with tingling sensation to arms and legs.; This study is being ordered for a neurological disorder.; 2016; There has been treatment or conservative therapy.; complains of low lumbar pain and today is really complaining of right SACRO-ILIAC pain. Also notes a tingling in her legs (all both legs, ant/posterior surfaces, tops of her feet also.; patient has been on pain meds since 2016; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	We are trying to rule out patient doesn't have a tumor, mass, neoplasm, or metastatic disease.; This is a request for a Pelvis MRI.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; An abnormality was found in the uterus.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
Gastroenterology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Ovarian or Esophageal Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Gastroenterology	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		; This is a request for MRCP.; There is no reason why the patient cannot have an ERCP.	1
Gastroenterology	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Gastroenterology	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		Abnormal Liver Functions, Hematochezia, Rectal pain, Elevated Alk Phos; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Abnormal Liver Functions, Hematochezia, Rectal pain, Elevated Alk Phos; There has not been any treatment or conservative therapy.; Abnormal Liver Functions, Hematochezia, Rectal pain, Elevated Alk Phos; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Gastroenterology	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		enlarged bowel ducts; This is a request for MRCP.; There is no reason why the patient cannot have an ERCP.	1
Gastroenterology	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		Patient with elevated liver functions and elevated sed rate. Ordering MRCP to evaluate bile ducts and liver; This is a request for MRCP.; There is no reason why the patient cannot have an ERCP.	1
Gastroenterology	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		This is a request for MRCP.; There is a reason why the patient cannot have an ERCP.; The patient has not undergone an unsuccessful ERCP.; The patient does not have an altered biliary tract anatomy that precludes ERCP.; The patient does not require evaluation for a congenital defect of the pancreatic or biliary tract.; The MRCP will be used to identify a pancreatic or biliary system obstruction that cannot be opened by ERCP.	1
Gastroenterology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; It is unknown what led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1

Gastroenterology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Surgery at age 24. Low back pain with sciatica.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Gastroenterology	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered because of a suspicious mass/ tumor.; "The patient has NOT had a pelvic ultrasound, barium, CT, or MR study."; This is a request for a Pelvis CT.; It is not known if there documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	atypical hemangioma; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Gastroenterology	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Hx of Hepatoma; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	The differentials of his abdominal pain is would include celiac disease, Inflammatory bowel disease and after this has been ruled then then possible irritable bowel syndrome. Will send for celiac serologies and stool for calprotectin. In addition to this ; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Disapproval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	This is a request for CT Angiography of the Abdomen and Pelvis.	3
Gastroenterology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1

Gastroenterology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	73200 Computed tomography, upper extremity; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 4/18/2018; There has been treatment or conservative therapy.; back pain; steroids; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73200 Computed tomography, upper extremity; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has been treatment or conservative therapy.; Pain, tenderness, radiating pain down to fingers.; Medications, muscle relaxers, hot and cold therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	PATIENT IS HAVING RIGHT WRIST PAIN AND RIGHT HAND PAIN. HAS TENDONITIS; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is no suspicion of upper extremity bone or soft tissue infection.; The ordering physician is not an orthopedist.; There is not a history of upper extremity trauma or injury.	2
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The pain is from a recent injury.; It is not know if surgery or arthroscopy is scheduled in the next 4 weeks.; There is a suspicion of tendon or ligament injury.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1

General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The requested study is a Shoulder MRI.; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.	3
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2017; There has been treatment or conservative therapy.; BACK PAIN; PAIN MANAGEMENT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/4/18; There has not been any treatment or conservative therapy.; pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 9/2017; There has been treatment or conservative therapy.; mbr has pain in shoulders and swelling joint tingling and numbness and complains of dislocation type of pressure; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has been treatment or conservative therapy.; Pain, tenderness, radiating pain down to fingers.; Medications, muscle relaxers, hot and cold therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1

General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; The patient received oral analgesics.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; The requested study is a Shoulder MRI.; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Focal tenderness Right GHJ with limited range of motion; This study is being ordered for trauma or injury.; Feb 20, 2018; There has been treatment or conservative therapy.; Trouble lifting rt arm, rt arm pain. Rt knee pain; Naproxen has been used for 6 weeks; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	left shoulder pain; The requested study is a Shoulder MRI.; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Limitation of movement, pain with extension and rotation, loss of strength.; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	MRI of neck and both shoulders for ongoing neck and shoulder pain following MVA.; This study is being ordered for trauma or injury.; 03/14/2018; There has been treatment or conservative therapy.; ; Patient started physical therapy 04/06/2018, has completed 11 visits. Prescribed Flexeril, Norco, Voltaren.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Musculoskeletal:: Motor Strength and Tone: normal and normal tone. Joints, Bones, and Muscles: no contractures, malalignment, tenderness, or bony abnormalities and normal movement of all extremities. Extremities: no cyanosis, edema, varicosities, or palpa; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	None; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; The patient received oral analgesics.	1

General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Patient has been treated and followed by other physicians for 2-3 years. He has moved and is now a patient of ours. We have only seen this patient once at this practice.; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
Gastroenterology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has a low red blood count 3.01, hemoglobin 8.3, hematocrit 26.7% elevated ast of 44 black tarry stool, abdominal tenderson, abdominal or pelvis swelling, mass or lump on physical exam and weight loss; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	ruling out diverticulitis in order to do a colonoscopy; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	7
Gastroenterology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; It is unknown if there has been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	4
Gastroenterology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	2
Gastroenterology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Patient has cervical spine pain and right shoulder pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	patient has failed multiple forms of conservative treatment. further imaging is recommended; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/16/18; There has been treatment or conservative therapy.; Patient is experiencing radiculopathy starting in her neck and traveling through her shoulder.She is having numbness, tingling, muscle spasms, and some limited ROM.; oral medications, chiropractor visits, injectible medications, steroids, massage; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	PATIENT IS HAVING RIGHT WRIST PAIN AND RIGHT HAND PAIN. HAS TENDONITIS; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Patient tried to intervene between 2 men fighting and got injured. Patient's shoulder began hurting and has continued to hurt after conservative treatment.; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Pt presents to clinic for pain to left shoulder. She states three months ago she fell and injured it. Denies any popping sounds or immediateswelling. Today has point ttp and decreased ROM. Has not been taking any thing for the pain. No previous injury Has; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; It is not known if there is a suspicion of fracture not adequately determinj by x-ray.; The request is for shoulder pain.; It is not known if there is a suspicion of tendon, ligament, rotator cuff injury, or labral tear.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Pt suffers with bi-lateral pain in shoulder accompanied with limited ROM.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	r/o possible torn rotator cuff for shoulder; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Brain - 2wks Shoulder - unknown; There has been treatment or conservative therapy.; Brain - intractable cluster h/a x 2wks; pain is sharp; sometimes affect vision; photophobia and nausea Shoulder - pain; decreased rom; Home exercises and anti-inflammatory meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Severity: worsening; pain level 7/10; Prior Imaging: MRI; degenerative lumbar disk disease.; worsening; interference with sleep; do not improve with medication; tingling in feet; Motor Strength and Tone: normal tone and motor strength. Joints, Bones, and; This study is being ordered for a neurological disorder.; UNKNOWN; There has been treatment or conservative therapy.; WEak limbs; numbness of the legs/feet; tingling; gait instability; DULL, STIFFNESS; restricted range of extremity movement; Patient has tried ice, heat, stretches, NSAIDs, and PT.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Shoulder tendonitis - looking for rotator cuff tear.; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation.";	2
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; pt hurt her shoulder wakeboarding on the 15th.; shoulder pain with decreased rom especially crossing arm across body can lift to 120 degrees and pain at 90 pain in ac joint.; instructions for pt; pt put in sling and ibuprofen and mri	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; severe pain; lrm; weakness; meds w/o relief	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; shoulder pain	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; unknown	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.;	3

Gastroenterology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; It is unknown if the patient had an Ultrasound.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	15
Gastroenterology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has been completed.; The results of the contrast/barium x-ray were normal.; The patient had an endoscopy.; The endoscopy was normal.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed something other than Gall Stones, Kidney/Renal cyst, Aneurysm or a Pelvis Mass.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Trying to rule out infection; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	UNKNOWN.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the hematuria is not known.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; It is not known if the urinalysis results were normal or abnormal.; Yes this is a request for a Diagnostic CT	1
Gastroenterology	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; This request is for an Abdomen MRI.; This study is being ordered for known or suspected infection.; There are NO physical findings or abnormal blood work consistent with peritonitis, pancreatitis or appendicitis.; It is unknown if there is active or clinical findings of ulcerative colitis, bowel inflammation or diverticulitis.	1

Gastroenterology	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Abnormal Liver Functions, Hematochezia, Rectal pain, Elevated Alk Phos; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Abnormal Liver Functions, Hematochezia, Rectal pain, Elevated Alk Phos; There has not been any treatment or conservative therapy.; Abnormal Liver Functions, Hematochezia, Rectal pain, Elevated Alk Phos; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Gastroenterology	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	ENLARGED LYMPH NODES, ABNORMAL CT DONE 06/2017 THIS IS A FOLLOW UP TO SEE IF THERE ARE ANY CHANGES; This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.	1
Gastroenterology	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; UNKNOWN	1
Gastroenterology	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/5/2018; There has not been any treatment or conservative therapy.; upper gastric pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Gastroenterology	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient does not have a history of a recent heart attack or hypertensive heart disease.	1
Gastroenterology	Disapproval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)	Radiology Services Denied Not Medically Necessary	none; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/8/18; There has been treatment or conservative therapy.; Pt has nausea, abdominal pain, jaundice and epigastric sharp abdominal pain radiating to back; Pt was given hydrocodone for pain and Zofran for nausea; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; ongoing right shoulder pain unrelieved with otc regimens	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; pain in left shoulder chronic	1

General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; PT STATES HE FEEL OFF A 5 FT TRAILER ABOUT A YEAR AGO. SINCE THEN HE HAS HAD PAIN AND HIS SHOULDER WILL POP OUT OF SOCKET AT RANDOM TIMES.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; The patient has a documented limited range of motion on physical examination.; There is no documented findings of severe pain on motion.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; There are no documented findings of crepitus.; There are no documented findings of swelling.; The ordering physician is not an orthopedist.; ; The patient is NOT experiencing joint locking or instability.; The patient does not have a documented limited range of motion on physical examination.; There is no documented findings of severe pain on motion.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.;	6
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; &t; Enter answer here - or Type In Unknown If No Info Given. &t;	5
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; na	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Pain to left shoulder for several years, but has been worsening the past 2-3 months Was given diclofenac in the ER but never took medication. No pain with adduction but has pain with abduction No pain with external rotation  Does have pain with intern	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; PATIENT IS HAVING NUMBNESS AND TINGLING IN THE LEFT ARM. SEVERE SHOULDER PAIN, TENDERNESS OF THE SCAPULA.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Pt has completed 3 weeks of conservative therapy with rest and anti inflammatories, however, the pain in her shoulder is getting worse.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; pt has weakness and pain, has tried motrin for pain with no improvement. she hurt shoulder at gym.	1

General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Unknown	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has not had recent plain films of the shoulder.; < Enter answer here - or Type In Unknown If No Info Given. >;	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has not had recent plain films of the shoulder.; Patient fell 04-14-18 and injured her right shoulder.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has not had recent plain films of the shoulder.; patient has right shoulder trauma and now has pain in her shoulder	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; Zachary McQuay is a 22 Years Old here for left shoulder pain. The pain is located anterior/lateral radiates to neck. The pain is described as dull, and is severe in intensity. Onset was 4 days ago(06/02/18). Symptoms have been constant, a little better si	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 6/12/2018; There has been treatment or conservative therapy.; Headache and blurred vision and knee pain; Medications and steroid injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	2

General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		48 year old male having severe headaches that wake him up from sleep 3-4 times per week.; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		CT of Abd/Pelvis;;right quadrant abdominal pain, no gallbladder, no appendix, partial hysterectomy, states long time ago was told she had a spot on her kidney CT of Head/Brain:: has numbness and tingling of right scalp with pain, also fainting spells; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		Episode of syncope occurred 12 hours ago. There is a known history of syncope. There is no known history of seizures. The episode was not witnessed. Mr. Cox notes that loss of consciousness occurred suddenly without any prior warning. It is estimated; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has fatigue or malaise; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		HEADACHE BEGAN WEEKS AGO. NEW ONSET HEADACHES FOR THE PAST 2 WEEKS. HEADACHE MOSTLY BEGAN IN THE EVENINGS AFTER WORK AND LAST ABOUT 1 HOUR. HEADACHE IS MOSTLY LOCATED BILATERAL TEMPORAL AREA.; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		Headache Reported by patient. Location: "all over"  Quality: similar to previous headaches  Severity: moderate  Duration: intermittent episodes lasting;; daily  Onset/Timing: gradual  Context: not related to trauma  Aggravating factors: loud noise; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		Hit head approx. a month ago while swimming. Felt like maybe a whiplash type injury. Now having severe dizziness episodes. Unable to support himself when standing during these episodes. Causes head pressure and nausea. Worsens with bending, moving he; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		INJURED IN A FALL; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; It is unknown if the patient is able to have a Brain MRI for evaluation of these symptoms.	1

General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		Pain behind left eye. Usually, she has pain behind her right eye. No other symptoms, like n/v, scotoma, photophobia or phonophobia. She had been having headaches and she has taken sumatriptan and it helped, but it returned. She had to come in 5/28/2018. T; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient does not have dizziness, one sided arm or leg weakness, the inability to speak, or vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		Patient complains of headache. Describes head rush with pressure in her head. Onset was approximately two weeks ago. The location is primarily behind the eyes. The pain radiates to the around her ears. Associated symptoms include nausea, hoarseness an; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient does not have dizziness, one sided arm or leg weakness, the inability to speak, or vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		Patient fell and hit her head and has had a constant headache since, x 1 week.; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The headache is not described as a "thunderclap" or the worst headache of the patient's life.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	unknown; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	73225 Magnetic resonance angiography, upper extremity, with or without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an upper extremity MR Angiography.	1
General/Family Practice	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	severe lower back pain with unresolved swelling, pain radiating to right hip with numbness and burning; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is a suspected infection of the hip.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass adjacent to or near the hip.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; The patient has a documented limitation of their range of motion.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an ankle CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	"There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; The patient has a documented limitation of their range of motion.; This study is not being ordered by an operating surgeon for pre-operative planning.; Pain for 6 months - Right ankle: He exhibits decreased range of motion (due to pain with ROM) and swelling. He exhibits no ecchymosis, no deformity, no laceration and normal pulse. Tenderness. Lateral malleolus tenderness found.  Left ankle: He exh; This is a request for a bilateral ankle MRI.	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; It is not known if the ordering physician is an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,supsected tumor or Aseptic Necrosis; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.	2
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		PATIENT PRESENTS TO CLINIC WITH CHRONIC HEADACHES X 1 YEAR. TOP OF HEAD HURTS AND HAS SEEN A NEUROLOGIST. PATIENT HAS TRIED AND FAILED BOTOX AND HER FATHER PASSED AWAY WITH BRAIN CANCER. PATIENT CANNOT HAVE MRI DUE TO PACEMAKER; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		Patient was hit in the right eye with a softball. Patient has headaches, dizziness and confusion.; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		Pt has had a psychotic break Seeing different things Visual hallucinations per family No auditory hallucinations It is a trigger to make him angry He is religious, thinks God is talking too him family think it schizophrenia; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		Pt passed out; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		PT presenting with new onset headache and blurred vision after recent head trauma; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1

General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		Recurring after accident in April of 2018; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		She had a headache with near syncopal episode and vision loss in one eye.; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		subdural hematoma that needs a follow up; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	41
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; It is not known if there is a known trauma involving the knee.; Pain greater than 3 days; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; The ordering physician is not an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 4/6/18; There has been treatment or conservative therapy.; Joint pain.; HEP, Medications.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has been treatment or conservative therapy.; weakness. pain radiating down leg. muscle aching. swelling, LROM.; NSAIDS.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 11/27/17; There has been treatment or conservative therapy.; DECREASED RANGE OF MOTION, LOCKING INSTABILITY; STEROIDS, MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; Lumbar Spine 5/20/17; There has been treatment or conservative therapy.; persistent pain; physical therapy and chiropractic care; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This is a request for a Knee MRI.; No, the patient did not have a recent ultrasound of the knee.; The patient had recent plain films of the knee.; There are no physical findings (palpabel mass) of a suspicious mass or known primary site of cancer.; The patient has not had a recent bone scan.; The plain films were normal.; Suspicious Mass or Suspected Tumor/ Metastasis	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Pain greater than 3 days; No, patient has not completed and failed a course of conservative treatment.; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.; Yes, patient has completed and failed a course of conservative treatment.; There is conservative treatment other than physical Therapy, physician directed course of non-steroidal medications, Immobilization or Physical directed exercise.; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	achilles tendonitis r ankle, questionable disruption; This study is being ordered for trauma or injury.; 04/11/2018; There has been treatment or conservative therapy.; LIMB WEAKNESS, SEVERITY IS WORSENING; BRACING/IMMOBILIZATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	knee pain x 1 month from sports injury. Has been to an urgent care with steroids and physical therapy. Has no improvement yet.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2

General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	need to rule out possible osteomyelitis; This study is being ordered for trauma or injury.; feb 2018; There has been treatment or conservative therapy.; inflammation to left ankle, difficulty with ambulation; Patient was seen in office on 5/24/18 with c/o left ankle and left foot pain, inability to walk at times. Patient has history of trauma to site 3 months ago and had sutures placed, patient attempted to remove sutures himself, unsure if he got all of them ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs speciality is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Patient has Left Foot pain; This is a request for a foot MRI.; The study is being ordered for foot pain.; The study is being ordered for plantar fasciitis.; The patient has had foot pain for over 4 weeks.; The patient has been treated with anti-inflammatory medication for at least 6 weeks.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Patient may have a dislocated patella in left knee and right knee has trauma with instability to go along with everything else. Needs to further eval to see if damage has been done to bilateral knee's; This study is being ordered for trauma or injury.; Patient is having instability in both knee's with the left we suspect a dislocated patella both knee's in severe pain with no resolve with NSAIDs or pain meds.; There has been treatment or conservative therapy.; Left knee suspect dislocated patella and right knee is trauma from instability from left.; Exercise at home when she was able to but due to the pain cannot proceed with exercise and pt at home.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs speciality is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	patient with persistent left knee pain with recent worsening. Has tried rest, ice, elevation, home therapy program and medication therapy without improvement.; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Pt C/O left knee pain and swelling after twisting it at gym last week. Pt has tried OTC medications without relief.; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Pain greater than 3 days; No, patient has not completed and failed a course of conservative treatment.; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Pt has c/o pain and swelling to knee joint since MVA in Feb. She has not had any prior imaging done to area. Knee has easily palpable crepitus at all points around patella.; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; There is no suspected meniscus, pre-op or post-op evaluation, non-acute Chronic Pain, suspected tumor or Aseptic Necrosis; Pain greater than 3 days; No, patient has not completed and failed a course of conservative treatment.	1

General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; &Additional Clinical Information&; Suspicious Mass or Suspected Tumor/Metastasis	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is taking antibiotics.; This is a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has been treatment or conservative therapy.; Pt has pain in both left and right knees. Right knee occasionally buckles causing Pt to fall.; Pt has had knee injections.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	&Enter answer here - or Type In Unknown If No Info Given. &; This is a requests for a hip MRI.; Surgery or arthrscopy is not scheduled in the next 4 weeks.; There is a suspicion of tendon or ligament injury.; The hip pain is due to a recent injury.; The request is for hip pain.	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	&Enter answer here - or Type In Unknown If No Info Given. &; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &Enter date of initial onset here - or Type In Unknown If No Info Given &; It is not known if there has been any treatment or conservative therapy.; &Describe primary symptoms here - or Type In Unknown If No Info Given &; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2017; It is not known if there has been any treatment or conservative therapy.; 1. Degenerative disc disease, L5-S1, with axial low back pain, with pain into the left hip. 2. Left hip/groin pain. 3. Left hand pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	Diagnosis procedure; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; no info given; There has not been any treatment or conservative therapy.; Pain in right hip numbness and tingling down leg worsening; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	Patient in our office on 05/22/18 with right hip and knee pain, she states another physician at Laser Spine institute is requesting MRI; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient has a documented limitation of their range of motion.	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has a documented limitation of their range of motion.	1

General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	3
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Known or suspected blood vessel abnormality (AVM, aneurysm) with documented new or changing signs and or symptoms best describes the reason that I have requested this test.; This is NOT a Medicare member.	2
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Known or suspected infection best describes the reason that I have requested this test.	4
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Known or suspected inflammatory disease best describes the reason that I have requested this test.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	4
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.	55
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a chronic headache, longer than one month; Headache best describes the reason that I have requested this test.	12
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a headache, elevated sedimentation rate and or the patient is over 55 years old; Headache best describes the reason that I have requested this test.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a known tumor outside the brain.; Known or suspected tumor best describes the reason that I have requested this test.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a new onset of a headache within the past month; Headache best describes the reason that I have requested this test.	17
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has the worst headache of patient's life with onset in the past 5 days; Headache best describes the reason that I have requested this test.; This is NOT a Medicare member.	9
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; The patient is NOT able to have a Brain MRI for evaluation of these symptoms.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	3

General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or aneurysm.; This study is being ordered for a previous stroke or aneurysm.	2
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	to see if pt has brain hemorrhage or fluid; This study is being ordered for trauma or injury.; Hip - unsure, years ago Head - Jan 2017; There has been treatment or conservative therapy.; Hip - chronic pain radiates down to knee Head - dizzy, blurred vision, can not speak at times; Hip - Nerve Block; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are NO abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; This study is being ordered for another reason besides Crohn's disease, Abscess, Ulcerative Colitis, Acute Non-ulcerative Colitis, Diverticulitis, or Inflammatory bowel disease.; There are no findings that confirm hepatitis C.; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc...; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	5
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; It is not known if there is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; There are no new symptoms including hematuria.; It is not known if there are new lab results or other imaging studies including ultrasound, Doppler or plain films findings.; There is not a suspicion of an adrenal mass.; This is not a request to confirm a suspicious renal mass suggested by physical exam, lab studies, IVP or ultrasound.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for Vascular Disease.; 03/21/2017; There has been treatment or conservative therapy.; Enlarged liver; Abnormal liver function; really high labs; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or aneurysm.; This study is being ordered for neurological deficits.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; This study is being ordered for evaluation of known tumor.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		TIA; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		vision loss, vertigo, head pain; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has vertigo.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		Will fax if requested.; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		Will FAX; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The headache is not described as a "thunderclap" or the worst headache of the patient's life.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.	1
General/Family Practice	Approval	70450 Computed tomography, head or brain; without contrast material		worse headache of Pt life; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient does not have dizziness, one sided arm or leg weakness, the inability to speak, or vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
General/Family Practice	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material		"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	70486 Computed tomography, maxillofacial area; without contrast material			1
General/Family Practice	Approval	70486 Computed tomography, maxillofacial area; without contrast material		"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	70486 Computed tomography, maxillofacial area; without contrast material		"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is suspicion of bone infection, [osteomyelitis].fct"; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	ABD pain; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	abdominal pain for past month, she has experienced heartburn and nausea with the pain; she has been to SRMC ER twice, once last month and again this past Sunday; pt was rx'd protonix and zofran. Pt continues to have the pain, the nausea is not as bad now; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	continues to have RUQ pain with negative gallbladder ultrasound, pain not related to meals; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	disorder of adrenal gland; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Looking at Gallbladder; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	mid upper abdominal pain for couple of months; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Non specific Abdominal abnormality on ultrasound Pt having significant abdominal pain for several months. Plain film x-ray shows constipation. Ultrasound of liver showed concern. Pt also has elevated Lipase and Hep A.; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	70486 Computed tomography, maxillofacial area; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/17/2018; There has been treatment or conservative therapy.; nosebleeds; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	70486 Computed tomography, maxillofacial area; without contrast material		; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset AND the patient failed a course of antibiotic treatment; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	70486 Computed tomography, maxillofacial area; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	70486 Computed tomography, maxillofacial area; without contrast material		none; "This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is not a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	70486 Computed tomography, maxillofacial area; without contrast material		recurrent sinusitis that does not improve w treatment; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This 62-year-old female was seen on 326 for left facial redness of the cheek and associated pain. The time she was diagnosed with sinusitis and was given a prescription for Levaquin. Apparently, several days before that she had been given steroids and upo; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset AND the patient failed a course of antibiotic treatment; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for follow-up to trauma.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has abdominal pain, believed to be a hernia, patient is having left lower quadrant pain.; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc...; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT WITH 30 LB WEIGHT LOSS IN A YEAR, ABDOMINAL PAIN, LIVER LESION FOUND ON CT ABDOMEN WITH CONTRAST. WANTING TO GET CT OF ABDOMEN, ATTENTION TO LIVER; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc...; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	pt is needing to be evulated for a hernia. pt is having upper abdominal pain , tenderness and burning . pt does have a history of a hernia repair in the past; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc...; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	She has had ongoing neck stiffness with some radiation to her L upper trap. She feels popping in her neck whenever she tilts head to L or R. Tried PT after a car accident about 3 years ago and again last summer without relief. Last MRI done July of 2017 i; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	This is a request for CT Angiography of the Abdomen and Pelvis.	3
General/Family Practice	Disapproval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the abdomen.	8

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset AND the patient failed a course of antibiotic treatment; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	10
General/Family Practice	Approval	70490 Computed tomography, soft tissue neck; without contrast material		65 y.o. female seen today for urgent work in for neck pain that has been present for one week and the pain is radiating down her arms.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	70490 Computed tomography, soft tissue neck; without contrast material		further evaluation is needed for this large neck mass on the side of this patient's neck. It has had a been biopsied before by open excision and was diagnosed as a neurilemmoma. Patient has developed new symptom of syncope and further evaluation of this en; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The neck mass is larger than 1 cm.; A fine needle aspirate was NOT done.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	70490 Computed tomography, soft tissue neck; without contrast material		None at this time; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The size of the neck mass is unknown.; The neck mass has been examined twice at least 30 days apart.; The lump did not get smaller.; A fine needle aspirate was NOT done.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	70490 Computed tomography, soft tissue neck; without contrast material		pt. renal insufficiency, pt. have swollen and painful lymph nodes, increased rate on labs; This is a request for neck soft tissue CT.; The study is being ordered for something other than Trauma or other injury, Neck lump/mass, Known tumor or metastasis in the neck, suspicious infection/abscess or a pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; It is unknown if there has been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; Surgery is scheduled within the next 30 days.; The patient has a suspicious infection or abscess.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has been recent trauma or other injury to the neck.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; It is unknown if there is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; It is unknown if there is a suspicion of an infection or abscess.; This is not being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has been treatment or conservative therapy.; abnormal weight loss, depression; medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/2018; There has been treatment or conservative therapy.; The pt has naseau, vomiting, malase, wt loss; Appetite inducers, anti-naseau medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is no suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is a suspicion of an infection or abscess.; Yes this is a request for a Diagnostic CT	6
General/Family Practice	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is no suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is not a suspicion of an infection or abscess.; This is not being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Neurology recommends that she has a follow up CTA Head and Neck 6-8 weeks status post CVA; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Patient had CVA due to embolism of cerebral artery 4-17-2018; There has been treatment or conservative therapy.; She has recovered from her deficits need to do follow up from her CVA.; Anti Coagulants; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Recurrent falls noted and dizziness . concerns of vertebrobasilar insufficiency due persistent dizziness and ataxia , .as well syncopal spells and collapse episodes.Balance issues persistent.Has already had cardiac eval including echo and cath as well as ; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2012; There has not been any treatment or conservative therapy.; History of small aneurysms, denies neurological symptoms or headaches.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		unknown; This study is being ordered for Vascular Disease.; unknown; There has not been any treatment or conservative therapy.; vertigo and headaches worsen; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for Vascular Disease.; 2009; There has been treatment or conservative therapy.; Dizziness; gait abnormality; stroke; Diet, exercise and Aspirin; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Dr. Mayfield would like to r/o stroke.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Neurology recommends that she has a follow up CTA Head and Neck 6-8 weeks status post CVA; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Patient had CVA due to embolism of cerebral artery 4-17-2018; There has been treatment or conservative therapy.; She has recovered from her deficits need to do follow up from her CVA.; Anti Coagulants; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		r side parathesias; resent stroke; This study is being ordered for a neurological disorder.; 03/24/2018; There has been treatment or conservative therapy.; r side weakness; ha; htn; rehab for therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		"This is a request for orbit,face, or neck soft tissue MRI.239.8"; The study is ordered for suspicion of neoplasm, tumor or metatstasis	2
General/Family Practice	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		"This is a request for orbit,face, or neck soft tissue MRI.239.8"; The study is ordered for the evaluation of lymphadenopathy or mass	1
General/Family Practice	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		"This is a request for orbit,face, or neck soft tissue MRI.239.8"; The sudy is ordered for pre-operative evaluation	1
General/Family Practice	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		Carotid atheromas; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1

General/Family Practice	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		Has had headaches and left side of the face is droopy. Back pain on the left side as well.; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; Wt loss; anemic; anxiety; acute renal failure; asthma; anorexia; Depression meds did not work; labs; pain meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/05/2018; There has been treatment or conservative therapy.; ABNORMAL WEIGHT LOSS, DRY COUGH, ELEVATED LIVER FUNCTIONS, NICOTINE DEPENDENCE; ANTIBIOTICS AND COUGH MEDICATION ALONG WITH CHEST XRAYS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		Patient has been having headaches that wake him from sleep. .; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	5
General/Family Practice	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient has a known aneurysm.; This is a request for a Brain MRA.	1
General/Family Practice	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		This is a request for a head and neck MR Angiogram.; There is an immediate family history of aneurysm.	2
General/Family Practice	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; "There is a sudden onset of one-sided weakness, speech impairment, vision defects or severe dizziness."; This is a request for a Neck MR Angiography.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material			3
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	2
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The results of the lab tests are unknown.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested due to trauma or injury.; There are not new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; The trauma or injury to the head occurred more than 1 week ago.	1

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	53 year old male with continued LLQ abdominal pain. Physical exam finds LLQ tenderness, family history of colon cancer.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	ABD Pain, Nausea; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Abdominal pain previous lung mass; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	ABDOMINAL PAIN; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	erosive esophagitis; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Having sensation something moving in upper abdomen and up in chest when changing positions ,Hiatal hernia suspected. GERd symptoms only occasional , Desires further eval. Pt reports Heartburn and abdominal pain, will need to do CT Scan and r/o hiatal h; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Heplatic >Panel; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	none; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Operative changes of gastric bypass with no postoperative complication identified on this study. 2. Fatty infiltration of the liver. 3. Right renal cyst. female states that she has noticed pain in the epigastrium when she eats meat. It does radiate ; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient does have a family history of ovarian cancer; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has been having abnormality Sweeting; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has lower abdominal pain for 12 weeks now. nausea with it. abdominal xray was normal; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT HERE WITH CHRONIC ABD PAIN, LABS AND U/S HAVE BEEN DONE, MEDICATIONS HAVE BEEN GIVEN, PT HERE SAYING PAIN IS GETTING WORSE, PT HAS A FAMILY HISTORY OF ABD CANCER.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient is having chest pain, unspecified and abdominal pain, unspecified; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient is having lower abdominal pain and dysuria.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	patient with lower abdominal pain and mass; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1

General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 4/28/2018; It is not known if there has been any treatment or conservative therapy.; The pt has change in vision, weakness on left side affecting fine motor skills.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; past week; There has not been any treatment or conservative therapy.; Arm numbness, temors, - Family HX MS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	4
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	5
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Possible kidney stone; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Pt complains of rectal pain, requested colonoscopy but not completed.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has RLQ and R flank tenderness, fever, diarrhea.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	pt presents with c/o pain in lower abdomen radiating to lower back; BM small in caliber; a little diarrhea.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	R/O cancer; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RUQ Right upper quad pain knots in abdomen; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; It is unknown if there has been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	3
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for Multiple Sclerosis.; The patient has new symptoms.	1

General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for a neurological disorder.; 8 Years ago; There has been treatment or conservative therapy.; Reports history of optic neuritis 8 years ago with loss of bilateral peripheral vision that lasted for several days, was seen by ophthalmologist who started her on oral steroids, vision returned to baseline and this past summer had increased stress with ; Reports history of optic neuritis 8 years ago with loss of bilateral peripheral vision that lasted for several days, was seen by ophthalmologist who started her on oral steroids, vision returned to baseline and this past summer had increased stress with ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for trauma or injury.; PT involved in MVA 5/8/18; There has been treatment or conservative therapy.; Neck pain, headache and blurry vision and decreased taste since MVA; Pt has been taking muscle relaxers and pain meds since accidnet, continue to have pain and blurry vision; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Abnormality of gait due to impairment of balance I suspect that he may have Marie Charcot tooth disease or similar neurological abnormality that is resulting in unsteadiness of his gait. I do not think it is Parkinson's Recommend referral to Dr. diamon; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has fatigue or malaise; It is unknown why this study is being ordered.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		CT scan showed brain atrophy not consistant with age of patient; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; It is not known if the urinalysis was positive for billirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; It is not known if the urinalysis was positive for bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for bilirubin.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		dizziness, HA, nausea, worsens with valsalva. R/o vascular or other cause. CT head negative 03/25/18.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		DIZZY WITH VISUAL CHANGES; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has dizziness.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Hallucinations; labs done 05/29/2018; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1

General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		HAS SEEN A NEUROLOGIST IN THE PAST FOR HER HEADACHES, BUT NEEDS AN MRI PRIOR. HAS DEPRESSION, FATIGUE AND ANXIETY; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Headache that has lasted 3 months with no relief. moving head makes headache worse. headaches have been worsening over the last week; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		headaches for 2 years getting worse father died from brain aneurysm at 44; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		HEADACHES OCCURRING MORE OFTEN WITH PHOTOPHOBIA, POOR BALANCE, DECREASED STRENGTH OF UPPER EXTREMITY, 4/5 STRENGTH OF RIGHT UPPER AND LOWER EXT, NECK PAIN; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Headaches ongoing and hx of prior brain surgery due to brain astrocytoma. Neurofibromatosis hx present as well, due to hx of brain tumor, neurology consult after imaging; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has not been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; It is unknown if there has been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		History of stroke; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a sudden and severe headache.; The patient has NOT had a recent onset (within the last 3 months) of neurologic symptoms.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		n/a; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/2018; There has been treatment or conservative therapy.; patient having headaches causing Dizziness and having numbness run down her legs; physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		na; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		None; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		numbness on left side.; This study is being ordered for a neurological disorder.; 04/10/2018; There has been treatment or conservative therapy.; pain....headaches...vision disturbances....nausea...unsteady gate...vertigo.; medication..; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Obtain MRI to see possibility of cerebrospinal fluid leakage; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 09/28/2017; There has been treatment or conservative therapy.; Reported by patient.  Location: facial; bilateral (right side); temporal  Quality: worst headache ever Severity: pain level 8/10  Duration: occur many times in groups or clusters; 2 months  Onset/Timing: gradual; still present  Context: triggered by ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	patient is having severe headaches more frequently with dizziness. ent work up was normal; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has dizziness.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	patient keeps falling, fatigue, Father with hx of MS; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Patient with a 4 day history of numbness on the entire left side of the body.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; The patient has not undergone treatment for multiple sclerosis.; It is not known if there are intermittent or new neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Pineal cyst - follow up. Last MRI that was done in 2010 and it was 11 millimeters at that time.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Problem # 1: Headache, atypical (ICD-784.0) (ICD10-R51)  These are not at all like her typical migraines or tension headaches, and have concerning features such as waking her from sleep, occurring during sleep, lasting for days without improvement, and ; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1

General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Pt fell recently that results in direct blow to the top of her head. The patient now feel pressure and pulsating sensation as a result of the blow. The patient had MRI of brain done in 2013 showed venous angioma.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		PT had seizure on 5/8/2018 and was possible the first one.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for seizures.; It is unknown if there has there been a change in seizure pattern or a new seizure.; This is not a new patient.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Pt has had Headache, ringing in ears, blurry Vision, dizziness, falling for the past 5 months along with Memory loss. .; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Pt has neurogoloical defect and pt has tumors; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Pt has Right sided hemiplegia not improved, vision impaired in right eye; had a normal head CT Scan; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		pt is having seizures; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		PT REPORTS WEAKNESS AND NUMBNESS BUT NO DIZZINESS. FAMILY HISTORY OF MS.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Pt saw neuro for possible TIA, neuro is recommending this follow up at 6 month interval; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		R/O TRAUMATIC BRAIN INJURY; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1

General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		R/O multi-level radiculopathy.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		r42 r41.3 r26.9; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		ringing in ears, dizziness; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient is experiencing dizziness.	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	14
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is vascular disease.; There is known or suspicion of an abdominal aortic aneurysm.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	2

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	50
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	5
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	7
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	35
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	15

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	9
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed a Kidney/Renal cyst(s); Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	unresolved abd pain, not sure of etiology, need to rule out kidney stone vs. ovary...blood in urine; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	whitewalls; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for Congenital Anomaly.; 19 year old with Mayer-Rokitansky-Kuster-Hauser syndrome type 2, needing MRI's prior to visit with gynecologist.; It is not known if there has been any treatment or conservative therapy.; Unknown, new patient establishing prior to seeing specialist at University of Arkansas Medical Science.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Symptoms include dizziness and difficulty ambulating. The dizziness is described as lightheadedness. Onset was gradual 9 month(s) ago. The symptoms occur intermittently. The patient describes this as moderate in severity and unchanged. Review of Systems (; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient is experiencing dizziness.	1

General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	156
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	83
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has the inability to speak.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurological symptoms.	2
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	2
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has not had an abdominal ultrasound, CT, or MR study.";	1
General/Family Practice	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; It is not known if the patient had and abdominal ultrasound, CT or MR study.; na	1
General/Family Practice	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; Unknown	1
General/Family Practice	Disapproval	75571 Computed tomography, heart, without contrast material, with quantitative evaluation of coronary calcium	Radiology Services Denied Not Medically Necessary	; This is a request for a CT scan for evaluation of coronary calcification.	1

General/Family Practice	Disapproval	75571 Computed tomography, heart, without contrast material, with quantitative evaluation of coronary calcium	Radiology Services Denied Not Medically Necessary	PATIENT IS WANTING TO BE SCREENED FOR HEART DISEASE BECAUSE OF THE PROBLEMS HE HAS BEEN HAVING WITH HYPERTENSION AND BECAUSE HIS FATHER HAD HEART FAILURE; This is a request for a CT scan for evaluation of coronary calcification.	1
General/Family Practice	Disapproval	75571 Computed tomography, heart, without contrast material, with quantitative evaluation of coronary calcium	Radiology Services Denied Not Medically Necessary	The patient is male.; This patient does not have diabetes.; This is a request for an EBCT.; This patient is between 45 - 76 years old.	1
General/Family Practice	Disapproval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)	Radiology Services Denied Not Medically Necessary	This request is for a Coronary CT Angiography study.; It is not known if patient did not have a Nuclear Cardiology study within the past six months.; This patient has DVT of LLE of femoral vein	1
General/Family Practice	Disapproval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the abdominal arteries.	5
General/Family Practice	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	Breast injury- assess rupture. Grade 2 conconsion, short term mem loss.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has not had other testing done to evaluate new or changing symptoms.; The study is requested for congestive heart failure.; There are new or changing cardiac symptoms including atypical chest pain (angina) and/or shortness of breath.; There is known coronary artery disease, history of heart attack (MI), coronary bypass surgery, coronary angioplasty or stent.; The member has known or suspected coronary artery disease.; The BMI is 20 to 29	1

General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	4
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	abnormal ekg w/multiple cardiac risk factors including htn, dm, hyperlipidemia, over 55; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has 3 or more cardiac risk factors; The study is requested for congestive heart failure.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 30 to 39	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	BMI 38 chest pain,she started having sharp stabbing chest pain and then she will feel only chest pressure and then it will alternate back to the stabbing chest pains.Pt is a diabetic with HTN, Hyperlipidemia and no history of CAD; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has 3 or more cardiac risk factors; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 30 to 39	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	CAD AND SYNCOPE AND CHEST PAIN; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has not had other testing done to evaluate new or changing symptoms.; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; There are new or changing cardiac symptoms including atypical chest pain (angina) and/or shortness of breath.; There is known coronary artery disease, history of heart attack (MI), coronary bypass surgery, coronary angioplasty or stent.; The member has known or suspected coronary artery disease.; The BMI is 30 to 39	1

General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	CHEST PAIN WITH NO HX OF CAD; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Chest pain Smoker High Cholesterol; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has 3 or more cardiac risk factors; The study is requested for congestive heart failure.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 30 to 39	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	CHEST PAIN, NO HX OF CAD, DOES HAVE HTN AND HYPERLIPIDEMIA AND IS A DIABETIC.; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	chest pain; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Complaining of chest pain for 6 weeks in the sub sternal radiating down left elbow when chest pain starts . Takes 3 low dose aspirin, seems to help but pain comes back, previous CT done was negative; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	crushing chest pain, 7 out of 10, left arm and jaw numbness, family history of MI9father) patient has MS; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	episodes of chest pain that occurred two nights ago. She reports 2 episodes that woke her up from her sleep. She has had a lot of belching and excessive gas lately. Tried pepcid with improvement in her chest pain. Describes chest pain as a muscle spasm. L; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	N/A; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	na; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Patient has has Shortness of Breath with tachycardia, along with substernal chest pain that occurs with exertion.; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	patient is being referred to Heart Doctor, but cannot make an appt. until this test is done; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has not had other testing done to evaluate new or changing symptoms.; The study is requested for congestive heart failure.; There are new or changing cardiac symptoms including atypical chest pain (angina) and/or shortness of breath.; There is known coronary artery disease, history of heart attack (MI), coronary bypass surgery, coronary angioplasty or stent.; The member has known or suspected coronary artery disease.; The BMI is 20 to 29	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Stress test to evaluate cardiac function as source of shortness of breath. DOE while on 3 different inhaled medications. He has long history of chewing tobacco useHe has respiratory issues and he is on Advair and Spiriva. He has been on these since he was; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	The patient's total calcium score is 289 compared to 100 on the previous study. No acute mediastinal abnormality is identified. The upper abdomen is normal. The lungs are clear of acute air space opacities. Degenerative changes are present in the spine; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has NOT had cardiac testing including Stress Echocardiogram, Nuclear Cardiology (SPECT/MPI), Coronary CT angiography (CCTA) or Cardiac Catheterization in the last 2 years.; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; There are not new or changing cardiac symptoms including atypical chest pain (angina) and/or shortness of breath.; There is known coronary artery disease, history of heart attack (MI), coronary bypass surgery, coronary angioplasty or stent.; The member has known or suspected coronary artery disease.; The BMI is 20 to 29	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The study is requested for congestive heart failure.; The member does not have known or suspected coronary artery disease	2
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The study is requested for known or suspected cardiac septal defect.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Unknown; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	2

General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Unknown; The study is being ordered for suspected CAD.; The patient is not presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had a recent non-nuclear stress test.; The patient has not had a recent abnormal EKG consistent with CAD.; The patient has not had a recent stress echocardiogram.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/8/2018; There has been treatment or conservative therapy.; chest pain shortness of breath, headache, EKG showed low heart rate; admitted to hospital given medications.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	78813 Positron emission tomography (PET) imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
General/Family Practice	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of Pericardial Disease.; It is unknown if there been a change in clinical status since the last echocardiogram.; It is unknown if this for the initial evaluation of a pericardial disease.	1

General/Family Practice	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Heart Failure; It is unknown if there been a change in clinical status since the last echocardiogram.; This is NOT for the initial evaluation of heart failure.	1
General/Family Practice	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient does not have a history of a recent heart attack or hypertensive heart disease.	2
General/Family Practice	Disapproval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;	Radiology Services Denied Not Medically Necessary	This is a request for a Stress Echocardiogram.; None of the listed reasons for the study were selected; The member does not have known or suspected coronary artery disease	1
General/Family Practice	Disapproval	G0235 PET IMAGING, ANY SITE, NOT OTHERWISE SPECIFIED	Radiology Services Denied Not Medically Necessary	This is a request for a G0235 PET scan, for an unspecified site.; Requestor has decided to proceed with the unlisted code.	1
General/Family Practice	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	&It; Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	2
General/Family Practice	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	CHRONIC OBSTRUCTIVE LUNG DISEASE. PT SMOKES 1 PACK PER DAY AND STILL SMOKES EVERY DAY. PT HAS BEEN SMOKING FOR 20 YEARS. PT HAS LIGHTHEADEDNESS ALONG WITH CHEST PAIN.; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	1
General/Family Practice	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	Lung cancer screening, personal h/o smoking more than 30 years; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	1

General/Family Practice	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	tobacco abuse; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	1
Geriatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Geriatrics	Approval	71250 Computed tomography, thorax; without contrast material		; There is no radiologic evidence of asbestosis.; "The caller doesn't know if there is radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Geriatrics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	1
Geriatrics	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have diabetes.; This is NOT a Medicare member.; The patient is 65 or older.	1
Geriatrics	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; It is not known if there are documented findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; This patient is clinically obese or has an emphysematous chest configuration.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

Geriatrics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	non healing wound; This is a request for a foot MRI.; Surgery or other intervention is not planned for in the next 4 weeks.; The study is being oordered for infection.; There are physical exam findings, laboratory results, other imaging including bone scan or plain film confirming infection, inflammation and or aseptic necrosis.	1
Geriatrics	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Gynecologic Oncology	Approval	71250 Computed tomography, thorax; without contrast material			1
Gynecologic Oncology	Approval	71250 Computed tomography, thorax; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Gynecologic Oncology	Approval	71250 Computed tomography, thorax; without contrast material		Restaging; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Gynecologic Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)			1
Gynecologic Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		unknown; This is a request for a Pelvis MRI.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; An abnormality was found in the uterus.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
Gynecologic Oncology	Approval	73200 Computed tomography, upper extremity; without contrast material			2
Gynecologic Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Gynecologic Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Gynecologic Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Restaging; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Gynecologic Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Gynecologic Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body			1
Gynecologic Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Gynecologic Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Gynecologic Oncology	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	1
Gynecologic Oncology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Gynecologic Oncology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	3

Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		new Metastatic disease and under post treatments; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		Patient with a history of ocular melanoma needing a follow up scan to make sure there is no evidence of recurrence.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		Pt suffers with cancer; a six month follow up.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		R59.9; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		RESTAGING ESOPHAGEAL CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		RESTAGING LUNG CANCER AND BONE CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		RESTAGING LYMPHOMA; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	8
Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.	2
Hematologist/Onco logist	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; This study is being ordered for evaluation of known tumor.	3
Hematologist/Onco logist	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material		"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is not suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; "There is not a history of serious head or skull, trauma or injury.ostct"; "There is not suspicion of neoplasm, or metastasis.ostct"; This is not a preoperative or recent postoperative evaluation.; "There is not suspicion of acoustic neuroma, pituitary or other tumor. ostct"; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	70486 Computed tomography, maxillofacial area; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for neck soft tissue CT.; The study is being ordered for Follow Up.; The patient has a known tumor or metastasis in the neck.; They had a previous Neck CT in the last 10 months.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; There are NO new or changing symptoms in the neck.; Yes this is a request for a Diagnostic CT	1

Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		; This is a request for neck soft tissue CT.; The study is being ordered for Follow Up.; The patient has a known tumor or metastasis in the neck.; They had a previous Neck CT in the last 10 months.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; There are NO new or changing symptoms in the neck.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		1. Follicular lymphoma, grade 1 - diagnosed 1/2018 from EGD (stomach involvement). Gastric involvement, mesenteric nodes and possible cervical node involvement per PET/CT.Rituxan (375mg/m2) 750mg iv weekly x 4 started 1/25/18, Completed 2/15/18. 1; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		6. CT NCAP at CCC in June 2018- restaging of HD.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		na; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		R59.9; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	20
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	53
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is no suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is not a suspicion of an infection or abscess.; This is not being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	19
Hematologist/Oncologist	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		"This is a request for orbit,face, or neck soft tissue MRI.239.8"; The study is ordered for suspicion of neoplasm, tumor or metastasis	1
Hematologist/Oncologist	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		"This is a request for orbit,face, or neck soft tissue MRI.239.8"; The study is ordered for trauma or injury of the orbit, face or neck soft tissue	1

Hematologist/Onco logist	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		; "This is a request for orbit, face, or neck soft tissue MRI.239.8"; The reason for the study is not for trauma, infection, cancer, mass, tumor, pre or post-operative evaluation	1
Hematologist/Onco logist	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	3
Hematologist/Onco logist	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		There is a suspicion of an infection or abscess.; This is a request for a Face MRI.; There is not a history of orbit or face trauma or injury.	1
Hematologist/Onco logist	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		There is a suspicion of an infection or abscess.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1
Hematologist/Onco logist	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		There is not a suspicion of an infection or abscess.; This examination is being requested to evaluate lymphadenopathy or mass.; This is a request for a Face MRI.; There is not a history of orbit or face trauma or injury.	1
Hematologist/Onco logist	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		There is not a suspicion of an infection or abscess.; This examination is being requested to evaluate lymphadenopathy or mass.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; It is not known if there is a new and sudden onset of a headache less than 1 week not improved by medications.; It is not known if there is a family history (parent, sibling, or child) of stroke, aneurysm, or AVM (arteriovenous malformation)	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	3
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1

Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	5
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; Is is not known if the patient has a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection.; It is not known if the doctor notes on exam that the patient has delirium or acute altered mental status.; It is not known if the patient does have a Brain CT showing abscess, brain infection, meningitis or encephalitis.; This is NOT a Medicare member.	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are not recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.; It is not known if there a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1

Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; It is not known if a biopsy has been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Fatigue and weakness; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		patient has cancer; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient is experiencing dizziness.	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Pt fell and hit his head. Per previous MRI the pt had an acute 1 cm subdural hematoma. MD would like MRI to make sure that all is well after fall.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested due to trauma or injury.; It is not known if there are new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; The trauma or injury to the head was less than 24 hours ago.	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Pt has new symptoms including swollen lymph node under both arms. PET is needed to evaluate and treat.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		RESTAGING OF HEAD AND NECK CANCER TO EVALUATE RESPONSE OF ONGOING TREATMENT.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		seems to have metastatic disease on the CT scan,MRI brain to complete her staging; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	18
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	17

Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	4
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	6
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has one sided arm or leg weakness.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient is experiencing dizziness.	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing vertigo	1
Hematologist/Onco logist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; It is not known if a biopsy has been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; It is not known if there is a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is a pituitary tumor or pituitary adenoma.; There are physical findings or laboratory values indicating abnormal pituitary hormone levels.; This is NOT a Medicare member.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material			4
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has not been any treatment or conservative therapy.; unkonwn; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		10. Repeat CT scans C/A/P prior to return visit for surveillance.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		6. CT NCAP at CCC in June 2018- restaging of HD.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		A 54yearold Caucasian gentleman who was diagnosed with uT3N0M0 Stage IIB adenocarcinoma of the lower end of the esophagus/GE junction. He received neoadjuvant concomitant chemotherapy + radiation utilizing Carboplatin and Taxol completed 11/28/16. He u; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	26
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal laboratory test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		colon cancer, abnormal pet scan in January; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		Continuation of care Lymphoma RTC in 6 months for lab work, evaluation with CTs done prior; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		CT head, chest, abdomen, pelvis and Bone scan for restaging; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		CT scan chest, abdomen, pelvis and Bone scan for restaging and rising tumor markers; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		CT scans chest, abdomen, pelvis for restaging; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		CT to evaluate effectiveness of treatment for lung cancer, and see if treatment needs to be altered or continued.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		FACTOR 5; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		Follow up CT hcap and bone scans evaluate for recurrent lung cancer. Ordered 3/22/18; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		Follow up CTs 7/18 to evaluate for recurrent disease. Ordered 5/24/18; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		liver cancer, invasion carcinoma, 6 cycles of treatment,; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs speciality is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		Malignant neoplasm of overlapping  sites of unspecified female breast    Malignant neoplasm of upper-outer  quadrant of unspecified female  breast    Secondary and unspecified  malignant neoplasm of axilla and  upper limb lymph nodes  ; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		Ms. Olson is here today for follow up of her lung cancer. She had scans at her 12/13/17 visit that were clear and she is NED.  She had CXR today which did not show any signs of malignancy.   She denies SOB, dyspnea or hemoptysis. She is not a smoke; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		na; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		no info given; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Abnormal mass in the chest, chest wall, or lung is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Known tumor and new symptoms involving the chest, chest wall, lung or pelvis is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	6
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	18

General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing fatigue or malaise.	5
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing vertigo	5
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient is experiencing dizziness.	2
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient is experiencing fatigue or malaise.	4
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested due to trauma or injury.; There are new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	14
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; The patient has a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection.; This is NOT a Medicare member.	2
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; The patient has not undergone treatment for multiple sclerosis.; There are intermittent or new neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.	6
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Restaging during ongoing treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	18
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is 54 years old or younger.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		pt has breast cancer, f/u scans to monitor. Pt also c/o cough and hip pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		rectal cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		RESTAGING CANCER WITH NEW BILATERAL HIP PAIN; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		restaging checking response to treatment; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		Restaging during ongoing therapy.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		restaging for metastatic colon cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		restaging; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		she was told she has some kind of lab or scan due to nodule? She is not sure what was exactly told but will plan on getting the records from VA.; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; It is unknown if they had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		six month check up, May 2018 for provider evaluation. CAP CTs to be done prior.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	133
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		There is a question of new developing nodular asymmetry in central right breast. Defer determination of significance of this finding to breast examination and mammography.    5. RTC in 3 months for labs, scan results and exam.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	71250 Computed tomography, thorax; without contrast material		Unexplained weight loss describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1

Hematologist/Onco logist	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for another reason besides Known or Suspected Congenital Abnormality, Known or suspected Vascular Disease.; Yes, this is a request for a Chest CT Angiography.	1
Hematologist/Onco logist	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		The patient is experiencing shortness of breath and is going through chemotherapy.; This study is requested to evaluate suspected pulmonary embolus.; This study is not requested to evaluate suspected pulmonary embolus.; It is not known if this study will be performed in conjunction with a Chest CT.; This study is being ordered for another reason besides Known or Suspected Congenital Abnormality, Known or suspected Vascular Disease.; Yes, this is a request for a Chest CT Angiography.; Yes, this is a request for a Chest CT Angiography.	1
Hematologist/Onco logist	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	4
Hematologist/Onco logist	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	5
Hematologist/Onco logist	Approval	72125 Computed tomography, cervical spine; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	72131 Computed tomography, lumbar spine; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		EMBRYONAL TUMOR WITH MULTILAYERED ROSETTES; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist."; Follow-up to Surgery or Fracture within the last 6 months	1

Hematologist/Onco logist	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Trauma or recent injury; Yes, the patient have new or changing neurological signs or symptoms.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; Yes, the patient is experiencing or presenting x-ray evidence of a recent fracture.	1
Hematologist/Onco logist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		mets pca, cancer of prostate; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does not have any neurological deficits.; It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for a thoracic spine MRI.; There has not been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.;	1
Hematologist/Onco logist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does not have any neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to trauma or acute injury within 72 hours.;	1
Hematologist/Onco logist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does not have any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.	1
Hematologist/Onco logist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	7
Hematologist/Onco logist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	20
Hematologist/Onco logist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; There is evidence of tumor or metastasis on a bone scan or x-ray.; The study is being ordered due to suspected tumor with or without metastasis.	2
Hematologist/Onco logist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material			1
Hematologist/Onco logist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	2
Hematologist/Onco logist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		EMBRYONAL TUMOR WITH MULTILAYERED ROSETTES; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1

Hematologist/Oncologist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	5
Hematologist/Oncologist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal nerve study involving the lumbar spine	1
Hematologist/Oncologist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	6
Hematologist/Oncologist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has completed Treatment with a facet joint or epidural injection in the past 6 weeks	1
Hematologist/Oncologist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	1
Hematologist/Oncologist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; This study is being ordered for staging.; Known Tumor with or without metastasis; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	1
Hematologist/Oncologist	Approval	72192 Computed tomography, pelvis; without contrast material		Right hip pain; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		Neuro fibro mestasis; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Hematologist/Oncologist	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		RESTAGING MULTIPLE MYELOMA; This is a request for a Pelvis MRI.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; An abnormality was found in something other than the bladder, uterus or ovary.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
Hematologist/Oncologist	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	18
Hematologist/Oncologist	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	14
Hematologist/Oncologist	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		TUMOR; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	73200 Computed tomography, upper extremity; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1

Hematologist/Oncologist	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is suspicion of upper extremity neoplasm or tumor or metastasis.	1
Hematologist/Oncologist	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	11
Hematologist/Oncologist	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	4
Hematologist/Oncologist	Approval	73700 Computed tomography, lower extremity; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	4
Hematologist/Oncologist	Approval	73700 Computed tomography, lower extremity; without contrast material		This is not a preoperative or recent postoperative evaluation.; There is suspicion of a lower extremity neoplasm, tumor or metastasis.; This is a request for a Leg CT.; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; It is not known if there is a known trauma involving the knee.; Instability; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Swelling greater than 3 days	1
Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI.;" There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1

Hematologist/Onco logist	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		RESTAGING CANCER WITH NEW BILATERAL HIP PAIN; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	2
Hematologist/Onco logist	Approval	74150 Computed tomography, abdomen; without contrast material			1
Hematologist/Onco logist	Approval	74150 Computed tomography, abdomen; without contrast material		; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74150 Computed tomography, abdomen; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	4
Hematologist/Onco logist	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is no suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; There are no new symptoms including hematuria.; There are new lab results or other imaging studies including ultrasound, Doppler or plain films findings.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has not been any treatment or conservative therapy.; unkonwn; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	10
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1

Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		3 months for evaluation with CT chest, abd, pelvis done the week prior TO HER APPOINTMENT; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		4. Schedule re-staging CT's q 3 months. Last 3/29/18.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		53-year-old Caucasian female with past medical history significant for tobacco smoking, hypertension, type 2 diabetes, history of bleeding per rectum since age of 50 but did not seek any medical attention until January 2016-visited Wadley emergency room f; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		colon cancer, abnormal pet scan in January; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		continuity of care; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Follow up CT hcap and bone scans evaluate for recurrent lung cancer. Ordered 3/22/18; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		HODGKINS LYMPHOMA PATIENT COMPLAINS OF WORSENING NIGHT SWEATS, NECK AND JAW PAIN AND HEADACHE WITH NAUSEA AND VOMITING; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		I will see her again in 4 months for a CBC w/Diff, CMP and exam. She will have a CT C/A/P, WB bone scan and Bone density in 4 months prior to exam to continue to monitor her breast cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		I will see her again in 4 months with CBC w/Diff, CMP and exam. She will have a CT C/A/P, bone scan and bone density prior to her next exam to evaluate her breast cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Mr. Holliday is a very pleasant 61 year old male who presents to the clinic with his wife today for evaluation and management of his Colon Cancer. He had a biopsy of his bladder in 2016 by Dr. Kuhn which was negative. He is feeling well today. He did hav; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Mr. Story presents to the clinic today for ongoing evaluation and management of renal cell carcinoma. He reports he was very depressed over the Christmas holidays and had some suicidal ideation. He states he also has some personal problems that have a; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Ms. Majors is here today for management of breast cancer while on Tamoxifen. She reports improvement in hot flashes and night sweats. Medium to high energy with some fatigue but no dyspnea. Reports constipation which she states might be under ; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Ms. Olson is here today for follow up of her lung cancer. She had scans at her 12/13/17 visit that were clear and she is NED.She had CXR today which did not show any signs of malignancy. She denies SOB, dyspnea or hemoptysis. She is not a smoke; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Patient has anemia related to cancer and worsened with chemo. Patient has had a rapid drop in hemoglobin. Hemoglobin on 3/30 was 6.6. After ordering anemia labs, doctor is wanting to order a CT Abd/Pelvis to rule out Retroperitoneal or Intraperitoneal ble; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Patient is currently being treated with imatinib. Disease has been stable. New CT ordered for restaging. Last CT was performed on 10/25/2017.; This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This is not request for evaluation of prostate cancer.; This study is being ordered for follow-up.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is male.; The last Abdomen/Pelvis CT was performed within the past 10 months.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Patient with breast cancer has a new palpable lymph node in her left groin. Imaging to evaluate staging of her disease.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Patient with new onset of upper abdominal pain with palpable mass in the left upper abdomen with tenderness. Patient with nausea and vomiting.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1

Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Possible colon resection pending CT scan.; This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This is not request for evaluation of prostate cancer.; This study is being ordered for follow-up.; It is not known if the patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is male.; The last Abdomen/Pelvis CT was performed within the past 10 months.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	PT WITH CHRONIC MILD LEUKOCYTDOSIS AND CHRONIC RETROPERITONEAL LAD. PT HAVING LLQ ABDOMINAL PAIN AND RED BLOOD IN STOOLS. PT ALSO WITH LYMPHADENOPATHY. DR WANTING FOLLOW UP SCAN.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.	41
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	2
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for Multiple Sclerosis.; The patient has new symptoms.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has the inability to speak.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	4
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for and infection or inflammation.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for Parkinson's disease.; This study is being ordered for new neurological symptoms.; The neurologic symptoms include one sided arm or leg weakness.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for seizures.; There has been a change in seizure pattern or a new seizure.	8
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	TINGLING, INJURY TO NECK AND LOWER BACK; This study is being ordered for a neurological disorder.; 11/21/2017; There has been treatment or conservative therapy.; HEADACHES, NUMBNESS; PHYSICAL THERAPY; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Unknown; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		unknown; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	4
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		unknown; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Unknown; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Unknown; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is not a new and sudden onset of a headache less than 1 week not improved by medications.; There is not a family history (parent, sibling, or child) of stroke, aneurysm, or AVM (arteriovenous malformation)	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Unknown; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		unknown; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		unknown; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1

General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		unknown; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		UNKNOWN; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2 WEEKS AGO; There has been treatment or conservative therapy.; WORSENING HEADACHE, SEVERE HEAD PRESSURE WHN COUGHS OR STRAINS IN ANY WAY. RELIEVED WHEN TILTS HEAD.; IBUPROFEN; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		vertigo; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		weakness, gait disturbance; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		worse (and more frequent, occurs 3-4 times per week); wakes up in middle of night also has photophobia and blind spots; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material			6
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		"There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient has signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; It is unknown if there is radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Inflammatory/ Infectious Disease.; 03/27/2018; There has been treatment or conservative therapy.; coughing lump in throat , trouble swallowing , unresolving pneumonia; antibiotics; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/17/2018; There has been treatment or conservative therapy.; nosebleeds; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/19/18; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; antibiotics; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		R59.9; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		RESTAGING CANCER WITH NEW BILATERAL HIP PAIN; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1

Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Restaging for metastatic anal cancer patient with new onset of abdominal pain and bloating with nausea and vomiting; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		restaging for metastatic colon cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		RESTAGING LYMPHOMA; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		restaging; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		six month check up, May 2018 for provider evaluation. CAP CTs to be done prior.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Small cell carcinoma of lung; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed a pelvic mass.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		staging scan; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	468
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1

Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The hematuria is due to Renal Calculi/kidney/ ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is being ordered for staging.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is female.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	33
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	2
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	3
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is organ enlargement.; There is not ultrasound or plain film evidence of an abdominal organ enlargement.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is organ enlargement.; There is ultrasound or plain film evidence of an abdominal organ enlargement.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is organ enlargement.; There is ultrasound or plain film evidence of an abdominal organ enlargement.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Hematologist/Onco logist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; It is not known if the patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was perfromred more than 10 months ago.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1

Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	4
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		UNDERLYING MALIGNANCY; This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		will see her again in 4 weeks with CBC w/diff, CMP, exam and Lanreotide. She will have a CT C/A/P prior to her next exam to evaluate treatment response for carcinoid tumor.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		BREAST CANCER  RENAL LESION/CYST ON CT DONE 10/25/2017; This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A kidney abnormality was found on a previous CT, MRI or Ultrasound.; The patient has a renal cyst.	1
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		Evaluation of liver, cervical evaluation restaging.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	10
Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; The patient is not presenting new symptoms.; The patient has had 3 or fewer follow-up abdomen MRIs.; This study is being ordered for follow-up.; The patient is not undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon.";	2
Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient had chemotherapy, radiation therapy or surgery in the last 3 months.	1
Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; METASTATIC COLON CANCER	1
Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.	2
Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; < Enter answer here - or Type In Unknown If No Info Given. >	1
Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; STARTING CHEMO	1
Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study.";	4
Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; 5. MRI of abdomen performed on 03/05/18 to evaluate known liver lesion which showed right renal mass and subcentimeter mass in in liver. Patient was than referred to urology, Dr. Jacobs to evaluate right renal mass. According to her note, it was felt tha	1
Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has not had an abdominal ultrasound, CT, or MR study."; MRI abdomen has been ordered to further evaluate suspicious lesions measuring approximately 2.2 x 2.2 cm in size seen on CTA chest performed 6/23/2018	1

Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A liver abnormality was found on a previous CT, MRI or Ultrasound.; There is suspicion of metastasis.	1
Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		TUMOR; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Onco logist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		Unknown; This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A liver abnormality was found on a previous CT, MRI or Ultrasound.; There is NO suspicion of metastasis.	1
Hematologist/Onco logist	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		Bilateral Silicone Implants Family History of Breast Cancer in Mother and Paternal Aunt.; This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; It is not known if this is an individual who has known breast cancer in the contralateral (other) breast.	1
Hematologist/Onco logist	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		Given history of breast cancer, MRI screening is recommended.; This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; No, this patient does not have axillary node adenocarcinoma.; No, there are no anatomic factors (deformity or extreme density) that make a simple mammogram impossible.	1
Hematologist/Onco logist	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		Pt has not had an MRI Breast since 2016-MD would like this for restaging purposes.; This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; It is not known if this is an individual who has known breast cancer in the contralateral (other) breast.	1
Hematologist/Onco logist	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There is a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	2
Hematologist/Onco logist	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; Yes, this is a confirmed breast cancer.; Yes, the results of this MRI (size and shape of tumor) affect the patient's further management.	2
Hematologist/Onco logist	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; Yes, this is an individual who has known breast cancer in the contralateral (other) breast.	2
Hematologist/Onco logist	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for a suspected implant rupture.; Yes, this study is being ordered to evaluate a suspected silicone implant rupture.	1
Hematologist/Onco logist	Approval	77084 Magnetic resonance (eg, proton) imaging, bone marrow blood supply		; This is a request for an MRI Bone Marrow.	2

Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		BREAST CANCER; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	3
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is a change in cardiac signs or symptoms (shortness of breath, etc.)."; The last MUGA scan was performed more than 3 months ago.; BILATERAL EDEMA AND SOB	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is a change in cardiac signs or symptoms (shortness of breath, etc.)."; The last MUGA scan was performed more than 3 months ago.; Patient reported having chest pain, shortness of breath, and severe fatigue starting 6/7/2018. She states that the symptoms have progressively gotten worse.	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is a change in cardiac signs or symptoms (shortness of breath, etc.)."; The last MUGA scan was performed more than 3 months ago.; TOXIC CHEMO	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is a change in cardiac signs or symptoms (shortness of breath, etc.)."; The patient has not had a previous MUGA scan.; NEEDS RESTAGING TO DETERMINE CONDITION OF HEART PRIOR TO STARTING NEW CHEMO	1

Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is not a change in cardiac signs or symptoms (shortness of breath, etc.)."; The patient will be undergoing more chemotherapy.; The last MUGA scan was performed more than 3 months ago.;	9
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is not a change in cardiac signs or symptoms (shortness of breath, etc.)."; The patient will be undergoing more chemotherapy.; The last MUGA scan was performed more than 3 months ago.; clearance for chemotherapy	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is not a change in cardiac signs or symptoms (shortness of breath, etc.)."; The patient will be undergoing more chemotherapy.; The last MUGA scan was performed more than 3 months ago.; pT IS AT AN INCREASED RISK OF HEART RELATED ISSUES DUE TO CHEMOTHERAPY REGIMEN SHE IS ON.	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is not a change in cardiac signs or symptoms (shortness of breath, etc.)."; The patient will be undergoing more chemotherapy.; The last MUGA scan was performed more than 3 months ago.; This is for completion of chemotherapy and pre-transplant.	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is not a change in cardiac signs or symptoms (shortness of breath, etc.)."; The patient will be undergoing more chemotherapy.; The last MUGA scan was performed more than 3 months ago.; unknown	3
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is not a change in cardiac signs or symptoms (shortness of breath, etc.)."; The patient will be undergoing more chemotherapy.; The patient has not had a previous MUGA scan.;	3

Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is not a change in cardiac signs or symptoms (shortness of breath, etc.)."; The patient will be undergoing more chemotherapy.; The patient has not had a previous MUGA scan.; Metastatic melanoma. Clinically deteriorating, scans show progressive disease. I think this is beyond what might be expected from tumor flare from pseudo-progression. Unfortunately, the patient's prognosis is grim. His options are attempting a regimen	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is not a change in cardiac signs or symptoms (shortness of breath, etc.)."; The patient will be undergoing more chemotherapy.; The patient has not had a previous MUGA scan.; unknown	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; The last MUGA scan was performed within the last 3 months.;	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; The last MUGA scan was performed within the last 3 months.; < Enter answer here - or Type In Unknown If No Info Given. >	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; The last MUGA scan was performed within the last 3 months.; . MUGA scan q 3 months while on Herceptin. Last 3/27/18.	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; The last MUGA scan was performed within the last 3 months.; Neoplasm of upper at inner quadrant of left breast, T1d, stage I, hormone positive, HER-2 positive. Doing well post surgery, Taxol, radiation, and continuing with trastuzumab. Continue with every 3 week Herceptin, see orders as outlined below. Will arr	1

Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; The last MUGA scan was performed within the last 3 months.; Restaging. The left ventricular ejection fraction is calculated as 45 %. WALL MOTION IS borderline hypokinesia.	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has not been initiated or completed.; Chemotherapy is planned.; BASELINE FUNCTION	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has not been initiated or completed.; Chemotherapy is planned.; evaluation for stem cell transplant.	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has not been initiated or completed.; Chemotherapy is planned.; PT NEEDS EVALUATED FOR CHEMO INDUCED MANAGEMENT. SHE WILL BEGIN CHEMOTHERAPY TREATMENT ON 6/28/18.	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has not been initiated or completed.; Chemotherapy is planned.; THIS TEST IS PRE CHEMOTHERAPY AND SHE IS SCHEDULED TO START CHEMO 4/27/18	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body			1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		PET CT scan for initial staging to rule out distant metastasis of patient with triple negative right breast carcinoma, Stage IIIB, T4b, pN1a. MUGA scan to evaluate left ventricular ejection fraction.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	3

Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; A nodule of less than 4 centimeters has been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; The solitary pulmonary nodule was identified on an imaging study in the last 30 days.; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being requested for Lung Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a more than 1 of the following; diagnostic test, imaging study, or biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Colo-rectal Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	3 month follow up on known lung nodule; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	A Chest/Thorax CT is being ordered.; The patient had a Chest x-ray in the past 2 weeks.; The study is being ordered for none of the above.; This study is being ordered for hemoptysis.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	A Chest/Thorax CT is being ordered.; This study is being ordered for suspected pulmonary Embolus.; Yes this is a request for a Diagnostic CT	9
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	74
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	122

General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal laboratory test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		cancer; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; Abnormal finding on physical examination was relevant in the diagnosis or suspicion of inflammatory bowel disease; This is a request for a Chest CT.; This study is being requested for known or suspected blood vessel (vascular) disease; Yes this is a request for a Diagnostic CT	11
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; Abnormal imaging (xray) finding was relevant in the diagnosis or suspicion of vascular disease; This is a request for a Chest CT.; This study is being requested for known or suspected blood vessel (vascular) disease; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; An abnormal finding on physical examination led to the suspicion of infection.; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; An abnormal lab finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient does NOT have signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient quit smoking in the past 15 years.; The patient has signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; This study is being requested for a congenital abnormality; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; This study is being requested for 'none of the above'.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	2

General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	Chest x-ray Interpretation: no active pulmonary disease, no cardiomegaly, no lymphadenopathy, and no diaphragm abnormalities; mass noted to the lower lung on the L, 2 cm diameter.; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	Complete right lower lobe atelectasis.; 2. Interstitial disease most likely reflective of pulmonary; hyperinflation with superimposed right lung pneumonia; No pulmonary embolus although breathing motion artifact limits the study.; 2. Complete consolidati; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	COUGH; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; It is unknown if the patient has a 30 pack per year history of smoking.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	CXR with posteroanterior and lateral views pulmonary nodule; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	Enter answer here hx of kidney stones, pain is progressing severely day by day; left hemidiaphragm is not working as well as the right one.; This study is being ordered for Inflammatory/ Infectious Disease.; has been of and on for a few months, but 04/01/2018 intensified greatly; There has been treatment or conservative therapy.; sharp pains on breathing inspiration and on bending over, pain originally left posterior rib/back now is more lateral and anterior rib/flank and steady with increase in pain with inspiration and bending over.; he has history of kidney stones; received medications for hurt back in October 2017; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	History of Cough, History of Bronchitis.; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	hospitalized for pneumonia for three days; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	It is unknown if the patient was seen by a specialist because of the traumatic injury.; Chest pain describes the reason for this request.; Abnormal lab finding was noted on evaluation after the injury.; This is a request for a Chest CT.; This study is being requested for chest injury or trauma within the past 2 weeks.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	MASS; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	No, the patient was NOT seen by a specialist because of the traumatic injury.; Chest pain describes the reason for this request.; Abnormal finding on physical examination was noted on evaluation after the injury.; This is a request for a Chest CT.; This study is being requested for chest injury or trauma within the past 2 weeks.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	No, the patient was NOT seen by a specialist because of the traumatic injury.; 'None of the above' describes the reason for this request.; 'None of the above' were noted on evaluation after the injury.; This is a request for a Chest CT.; This study is being requested for chest injury or trauma within the past 2 weeks.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; An abnormal imaging (xray) finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; It is unknown if anything else was noted related to the suspicion of cancer in this patient.; This is a request for a Chest CT.; This study is being requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; It is unknown what led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient does NOT have signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	5
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient quit smoking in the past 15 years.; The patient has signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This reason this study is being requested is unknown.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	4

General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		none; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		Patient has breast cancer and is having breast surgery on 5/8/18. She also has renal cell carcinoma. And she has also found a mass under neck.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		PATIENT PRESENTS TO CLINIC WITH CHRONIC DYSPNEA AND SEVERE THORACIC BACK PAIN. PATIENT IS A LONG TERM SMOKER OF 60 PACKS PER YEAR AND HAS HAD MRI OF THORACIC SPINE THAT WAS NORMAL.; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient has signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		Patient reports shortness of breath.; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient has signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		Post-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		pt had abnormal ct in feb and radiologist recommended recheck in 3 months.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		Pt has 4 mm nodule in right middle lobe; few additional 5 mm nodules in right lung, which were not seen previously. FU recommended in 6 months; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		pt has been having upper abdominal pain, has history of abscess. had normal US. needs CT to assess. pt also needs CT chest for f/u breast cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		PT WAS IN CLINIC FOR C/O SOB GETTING WORSE FOR THE LAST FEW YEARS, CURRENT EVERYDAY SMOKER. CHEST XRAY SHOWS SMALL NODULES IN LEFT LUNG. INITIAL CT WORKUP FOR THE NODULES.; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		Pulmonary nodule on x-ray and previous CT 6 month follow up, nodule has increased in size; "There is evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; This is NOT for an evaluation of axillary lymph nodes.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; This is NOT for an evaluation of axillary lymph nodes.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	8
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The patient is experiencing new signs, symptoms indicating a recurrence of cancer or a rising CEA.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs, symptoms or a rising CEA.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Hematologist/Onco logist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Onco logist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Onco logist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Onco logist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Onco logist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Ovarian or Esophageal Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Onco logist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This would be the first PET Scan performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Colo-rectal Cancer; This Pet Scan is being requested for Initial Treatment Strategy (Diagnosis and/or Staging); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Onco logist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This would be the first PET Scan performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Lung Cancer; This Pet Scan is being requested for Initial Treatment Strategy (Diagnosis and/or Staging); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Onco logist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		BREAST CANCER; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		Large oral tongue mass on the left, the base extends to at least the circumvallate. Ms. Chick presents with a likely T3N1M0. The initial workup is not complete. Patient will need surgery in the form of hemi v.s. Total glossectomy with bilateral MRND, tra; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		MALIGNANT MELANOMA  NEW SYMPTOMS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		RESTAGING LUNG CANCER AND BONE CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		RESTAGING LUNG CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		RESTAGING MALIGNANT MELANOMA; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		RESTAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; 2 PET Scans have already been performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Lung Cancer; This Pet Scan is being requested for Subsequent Treatment Strategy (Restaging and Monitoring response to treatment); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; 2 PET Scans have already been performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Ovarian or Esophageal Cancer; This Pet Scan is being requested for Subsequent Treatment Strategy (Restaging and Monitoring response to treatment); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		Pulmonary nodule right lung on previous CXR and CT Chest. Need repeat CT Chest to note stability or change.; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		Recurrent cough: Follow-up. Cough getting worse and is now getting productive with clear/whitish sputum. Patient is having intermittent recurrent cough for almost 3 months now. We have been treating him for seasonal allergy because it was first thought th; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		restaging with active tx Votrient for the diagnosis of Renal Cell Carcinoma metastatic to Lung.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		Shortness of breath, Low back pain, Sleep apnea.; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		solitary lung nodule; There is no radiologic evidence of mediastinal widening.; There is no physical or radiologic evidence of a chest wall abnormality.; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for follow up trauma.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		The patient is presenting new signs or symptoms.; "There is radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		There is radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	9
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		This is a request for a Thorax (Chest) CT.; Chest pain describes the reason for this request.; This study is being requested for 'none of the above'.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		this is annual f/u to previous CT 3/2017, 5 ml size; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; 3 PET Scans have already been performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Lung Cancer; This Pet Scan is being requested for Subsequent Treatment Strategy (Restaging and Monitoring response to treatment); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; 3 PET Scans have already been performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Other, not listed above; This Pet Scan is being requested for Other solid tumor(s); This Pet Scan is being requested for Subsequent Treatment Strategy (Restaging and Monitoring response to treatment); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; A nodule of less than 4 centimeters has not been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; This study is being requested for Lung Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being requested for Lymphoma or Myeloma.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on an imaging study.; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on an imaging study.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Lymphoma or Myeloma.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		Unexplained weight loss describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		unknown.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		Unknown; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; It is not known if there has been any treatment or conservative therapy.; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	71250 Computed tomography, thorax; without contrast material		Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has not been any treatment or conservative therapy.; CT Brain/head: Osteoma  CT Chest: smoker, sob, and dysphagia, LUL diminished; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is not requested to evaluate suspected pulmonary embolus.; This study will be performed in conjunction with a Chest CT.; Yes, this is a request for a Chest CT Angiography.	1
General/Family Practice	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		Patient had an Echocardiogram that showed a dilated aortic root at 4.1cm; This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for Suspected Vascular Disease.; There are new signs or symptoms indicative of a dissecting aortic aneurysm.; Yes, this is a request for a Chest CT Angiography.	1

General/Family Practice	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		<p>Patient was sent from Central Arkansas Lung Due To Prominent Pulsations Of Right Carotid Area.&#x0D; &#x0D; Sent To Central Arkansas Heart Center For Carotid U/S Which Showed Jugular Vein Was Distended.&#x0D; &#x0D; &#x0D; Patient Was Sent To BAPTIST HEALTH For Chest X-Ray Which S; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/17/2018; There has not been any treatment or conservative therapy.; Pulsatile Mass Right Side of Neck; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		<p>This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on an imaging study.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Soft Tissue Sarcoma, Pancreatic or Testicular Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)</p>	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		<p>This is a request for a Tumor Imaging PET Scan; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Other, not listed above; This Pet Scan is being requested for None of the above; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)</p>	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		<p>This is a request for a Tumor Imaging PET Scan; This is a PET Scan with Dotatate (Gallium GA 68-Dotatate)</p>	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		<p>This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Colo-rectal Cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)</p>	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		<p>This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)</p>	3

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lymphoma or Myeloma.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lymphoma or Myeloma.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	8
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Ovarian or Esophageal Cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
General/Family Practice	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		this is an angio which means you automatically send to review...will just upload notes.; This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for Known Vascular Disease.; This is a Follow-up to a previous angiogram or MR angiogram.; There are no new signs or symptoms indicative of a dissecting aortic aneurysm.; There are no signs or symptoms indicative of a progressive vascular stenosis.; Yes, this is a request for a Chest CT Angiography.	1
General/Family Practice	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for Suspected Vascular Disease.; There are no new signs or symptoms indicative of a dissecting aortic aneurysm.; This is not an evaluation for thoracic outlet syndrome.; There are signs or symptoms indicative of vascular insufficiency to the neck or arms.; Yes, this is a request for a Chest CT Angiography.	1
General/Family Practice	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		This study is requested to evaluate suspected pulmonary embolus.; Yes, this is a request for a Chest CT Angiography.	49
General/Family Practice	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)		This study is being ordered for a work-up of a suspicious mass.; There is radiographic or physical evidence of a lung or chest mass.; This is a request for a chest MRI.	1

General/Family Practice	Approval	72125 Computed tomography, cervical spine; without contrast material			3
General/Family Practice	Approval	72125 Computed tomography, cervical spine; without contrast material		65 y.o. female seen today for urgent work in for neck pain that has been present for one week and the pain is radiating down her arms.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	72125 Computed tomography, cervical spine; without contrast material		from mri 02/22/18:; IMPRESSION:; 1. Abnormal edema within the right C3-C4 facets with a questionable distal C3 facet fracture. Recommend cervical spine CT.; 2. Multilevel cervical spondylosis resulting in multilevel moderate to severe foraminal stenosis a; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
General/Family Practice	Approval	72125 Computed tomography, cervical spine; without contrast material		Had a CT of Cervical spine 12 days ago, showed a questionable fracture. Needs a follow up CT.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to follow-up surgery or fracture within the last 6 months.; It is not known if the patient has been seen by or if the ordering physician is a neuro-specialist, orthopedist, or oncologist.; It is not known if this study is for a continuation or recurrence of symptoms related to a previous surgery or fracture.; There is no known condition of tumor, infection, or neurological deficits.; There is a reason why the patient cannot have a Cervical Spine MRI.	1
General/Family Practice	Approval	72125 Computed tomography, cervical spine; without contrast material		Patient presents with new onset neck pain for three days worsening.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Soft Tissue Sarcoma, Pancreatic or Testicular Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	16
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	9

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	12
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; More than 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; It is unknown if the patient completed a course of treatment initiated in the last 8 weeks or are experiencing new signs, symptoms or a rising CEA.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	6
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The patient is experiencing new signs, symptoms indicating a reoccurrence of cancer or a rising CEA.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs, symptoms or a rising CEA.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	5
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; The patient does NOT have Thyroid or Brain cancer.; More than 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; It is unknown if the patient completed a course of treatment initiated in the last 8 weeks or are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	5

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	11
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; More than 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	7
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; More than 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Ovarian or Esophageal Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Ovarian or Esophageal Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
General/Family Practice	Approval	72125 Computed tomography, cervical spine; without contrast material		The patient does have neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to chronic neck pain or suspected degenerative disease.; There is a reason why the patient cannot have a Cervical Spine MRI.; The patient is experiencing or presenting symptoms of Asymmetric reflexes.	1
General/Family Practice	Approval	72125 Computed tomography, cervical spine; without contrast material		The patient does have neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to trauma or acute injury within 72 hours.; There is a reason why the patient cannot have a Cervical Spine MRI.; The patient is experiencing or presenting symptoms of Evidence of a recent fracture on previous imaging studies.	2
General/Family Practice	Approval	72125 Computed tomography, cervical spine; without contrast material		This study is to be part of a Myelogram.; This is a request for a Cervical Spine CT	6
General/Family Practice	Approval	72125 Computed tomography, cervical spine; without contrast material		unknown; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1

General/Family Practice	Approval	72128 Computed tomography, thoracic spine; without contrast material	Patient is here requesting a CT myelogram. She has seen her NSGN (Dr.Koger) who did her previous surgery. We discussed her symptoms today. She is having hammering of her toes. She was offered surgery and she declined for now. She continues to have some ne; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Patient is here requesting a CT myelogram. She has seen her NSGN (Dr.Koger) who did her previous surgery. We discussed her symptoms today. She is having hammering of her toes. She was offered surgery and she declined for now. She continues to have some ne; There has been treatment or conservative therapy.; Patient is here requesting a CT myelogram. She has seen her NSGN (Dr.Koger) who did her previous surgery. We discussed her symptoms today. She is having hammering of her toes. She was offered surgery and she declined for now. She continues to have some ne; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72128 Computed tomography, thoracic spine; without contrast material	Plates and screws in neck. Degenerative changes noted. Previous back surgery; This study is being ordered for trauma or injury.; 04/5/18; There has not been any treatment or conservative therapy.; Pain. Post surgical changes after vehicle accident.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72128 Computed tomography, thoracic spine; without contrast material	This is a request for a thoracic spine CT.; The study is being ordered due to Neurological deficits.; There is a reason why the patient cannot undergo a thoracic spine MRI.; The patient is experiencing or presenting lower extremity weakness.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Ovarian or Esophageal Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; There is existing evidence of metastasis or other tumor in the body.; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being requested for Head/Neck Cancer.; It is unknown if the patient has Thyroid or Brain cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This would be the first PET Scan performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Other, not listed above; This Pet Scan is being requested for Other solid tumor(s); This Pet Scan is being requested for Initial Treatment Strategy (Diagnosis and/or Staging); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; The reason for ordering this study is unknown.	2
Hematologist/Oncologist	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; It is unknown if the patient is presenting with pulmonary signs or symptoms of lung cancer or if there are other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	1
Hematologist/Oncologist	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Follow up; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a suspected brain tumor.; Known or suspected tumor best describes the reason that I have requested this test.; There are documented neurologic findings suggesting a primary brain tumor.; This is NOT a Medicare member.	2
General/Family Practice	Approval	72128 Computed tomography, thoracic spine; without contrast material		This is a request for a thoracic spine CT.; The study is being ordered due to pre-operative evaluation.; There is a reason why the patient cannot undergo a thoracic spine MRI.; There is no known condition of tumor, infection, or neurological deficits.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	72131 Computed tomography, lumbar spine; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/22/2013; There has been treatment or conservative therapy.; low back pain with radiculopathy numbness and tingling and falling; medication steroid injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72131 Computed tomography, lumbar spine; without contrast material		; This study is being ordered for trauma or injury.; 06/09/2018; There has been treatment or conservative therapy.; There is burning and stinging sensation in his inner thighs. Feels a pulling sensation in groin area. pain is worse when standing; pain medication, NSAIDS, muscle relaxer; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Approval	72131 Computed tomography, lumbar spine; without contrast material		Patient is here requesting a CT myelogram. She has seen her NSGN (Dr.Koger) who did her previous surgery. We discussed her symptoms today. She is having hammering of her toes. She was offered surgery and she declined for now. She continues to have some ne; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Patient is here requesting a CT myelogram. She has seen her NSGN (Dr.Koger) who did her previous surgery. We discussed her symptoms today. She is having hammering of her toes. She was offered surgery and she declined for now. She continues to have some ne; There has been treatment or conservative therapy.; Patient is here requesting a CT myelogram. She has seen her NSGN (Dr.Koger) who did her previous surgery. We discussed her symptoms today. She is having hammering of her toes. She was offered surgery and she declined for now. She continues to have some ne; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72131 Computed tomography, lumbar spine; without contrast material		Plates and screws in neck. Degenerative changes noted. Previous back surgery; This study is being ordered for trauma or injury.; 04/5/18; There has not been any treatment or conservative therapy.; Pain. Post surgical changes after vehicle accident.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Oncologist	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is immune-compromised.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	Large oral tongue mass on the left, the base extends to at least the circumvallate papillae . Ms. Chick presents with a likely T3N1M0. The initial workup is not complete. Patient will needs surgery in the form of hemi v.s. Total glossectomy with bilateral; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Enter answer here - or Type In Unknown If N Right, cervical level 2/3 adenopathy, 2.5 cm. This could be related to occult head and neck cancer versus metastatic disease from the lung. o Info Given.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	MALIGNANT MELANOMA  NEW SYMPTOMS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1

Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; It is unknown what led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; Restaging during ongoing treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is being requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; Surveillance of a known cancer following treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is being requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This reason this study is being requested is unknown.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGING ESOPHAGEAL CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGING LUNG CANCER AND BONE CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGING OF HEAD AND NECK CANCER TO EVALUATE RESPONSE OF ONGOING TREATMENT.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	8
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	Ms. Wells comes in today with reports of trouble sleeping and nausea yesterday. She is having right hip pain that feels like she pulled a muscle. She denies fever, chills, and vomiting.  She is also being seen for followup and chemotherapy for her pa; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This is not request for evaluation of prostate cancer.; This study is being ordered for follow-up.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is male.; The last Abdomen/Pelvis CT was performed within the past 10 months.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGING CANCER DURING ONGOING TREATMENT; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGING ESOPHAGEAL CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	10
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	7
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	3
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	76497 Unlisted computed tomography procedure (eg, diagnostic, interventional)	Radiology Services Denied Not Medically Necessary	770121 32405; Requestor has decided to proceed with the unlisted code.	1

Hematologist/Oncologist	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	Coravella L Young is a 57 y.o. female with a new diagnosis of metastatic non-small cell carcinoma of unknown origin. She was admitted to the hospital in March 2018 with complaints of chest pain. Workup revealed CAD, a mediastinal mass, lymphadenopathy, a; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
Hematologist/Oncologist	Disapproval	78813 Positron emission tomography (PET) imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78813 Positron emission tomography (PET) imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78813 Positron emission tomography (PET) imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	Large oral tongue mass on the left, the base extends to at least the circumvallate papillae . Ms. Chick presents with a likely T3N1M0. The initial workup is not complete. Patient will needs surgery in the form of hemi v.s. Total glossectomy with bilateral; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a more than 1 of the following; diagnostic test, imaging sstudy, or biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Lymphoma or Myeloma.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lymphoma or Myeloma.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The patient is experiencing new signs, symptoms indicating a reoccurrence of cancer or a rising CEA.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; The patient does NOT have Thyroid or Brain cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hospital	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hospital	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	unknown; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has 3 or more cardiac risk factors; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 30 to 39	1
Infectious Diseases	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Known or suspected infection best describes the reason that I have requested this test.	1
Infectious Diseases	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Infectious Diseases	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1

Infectious Diseases	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient has a documented limitation of their range of motion.	1
Infectious Diseases	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Infectious Diseases	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Infectious Diseases	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Infectious Diseases	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Infectious Diseases	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	She had Lower back pain and mid back pain and spine tenderness and she has a fever; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Infectious Diseases	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	complains of low back pain; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Infectious Diseases	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	She had Lower back pain and mid back pain and spine tenderness and she has a fever; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material			3
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		Dizziness, frequent falls, balance problems in a patient with diabetes, and chronic kidney disease; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or aneurysm.; This study is being ordered for neurological deficits.	1

Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material	dizziness, numbness, weakness; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or aneurysm.; This study is being ordered for neurological deficits.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material	Memory loss; this problem has been slowly worsening over the last couple of years; does have mild ischemic disease on last MRI; check neuropsych testing; check above labs; check MRI brain; may have Alzheimer versus ischemic disease versus mild cognit; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; Known or suspected TIA (stroke) with documented new or changing neurologic signs and or symptoms best describes the reason that I have requested this test.; This is NOT a Medicare member.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; The patient has a chronic headache, longer than one month; Headache best describes the reason that I have requested this test.	2
Internal Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material	"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material	; This study is not being ordered for trauma, tumor, sinusitis, osteomyelitis, pre operative or a post operative evaluation.; This is a request for a Sinus CT.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is being ordered for a known or suspected tumor.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is being ordered for follow-up to trauma.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	3
Internal Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1

Internal Medicine	Approval	70490 Computed tomography, soft tissue neck; without contrast material		; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The neck mass is 1 cm or smaller.; The neck mass has NOT been examined twice at least 30 days apart.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70490 Computed tomography, soft tissue neck; without contrast material		PT HAS NON HODGKINS LYMPHOMA AND WAS DIAGNOSED IN 2016.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70490 Computed tomography, soft tissue neck; without contrast material		Submandibular salivary glands enlarged, no palpable stones to Wharton's duct or visualized at orifice.; This is a request for neck soft tissue CT.; Surgery is NOT scheduled within the next 30 days.; The patient has a suspicious infection or abscess.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; The study is being ordered for recent trauma or other injury.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is no suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is not a suspicion of an infection or abscess.; This is not being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for Vascular Disease.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Evaluation of Head and Neck vessels, due to previous history of carotid stent; This study is being ordered for Vascular Disease.; Daniel L Turner is an 67 y.o. male who presents as a work in with complaint of new onset right arm weakness that started approximately a month ago when his wife is in the hospital. He states he slept in a recliner and woke up one morning and had difficul; There has not been any treatment or conservative therapy.; Right arm weakness.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Internal Medicine	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	<p>follow-up to recent stroke; This study is being ordered for Vascular Disease.; PVD (peripheral vascular disease) (HCC)&#x0D;</p> <p>Comments:&#x0D;</p> <p>s/p stent "a few months ago"&#x0D;</p> <p>Acute CVA (cerebrovascular accident) (HCC)&#x0D;</p> <p>Comments:&#x0D;</p> <p>bilateral occipital lobe stroke &#x0D;</p> <p>ct 3-23-18-MCSA &#x0D;</p> <p>refer to OCMC CTA head and neck &#x0D;</p> <p>refer to OCMC for MRI brain (str; There has been treatment or conservative therapy.; Neurological: Positive for dizziness, vertigo and light-headedness. Negative for weakness and headaches; Dizziness &#x0D;</p> <p>This is a new problem. The current episode started more than 2 days ago. The problem occurs constantly. The problem has not changed since onset. There was no loss of consciousness. The problem is associated with normal activity. Associated sym; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Internal Medicine	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the brain.	1
Internal Medicine	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 4/12/18; There has not been any treatment or conservative therapy.; lose of conciseness, Syncope, headache, neck pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	<p>Diplopia, ataxia, double vision, dizziness, numbness right side of neck, carotid bruit found on exam. Recent ER visit, had ct head that showed microvascular disease. ER recommended patient see PCP for further evaluation and testing.; This study is being ordered for a neurological disorder.; Diplopia, ataxia, double vision, dizziness, numbness right side of neck, carotid bruit found on exam. Recent ER visit, had ct head that showed microvascular disease; There has been treatment or conservative therapy.; Diplopia, ataxia, double vision, dizziness, numbness right side of neck, carotid bruit found on exam. Recent ER visit, had ct head that showed microvascular disease.; Treated at the ER - treated with aspirin and told to see PCP for further evaluation and testing.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Internal Medicine	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the Neck.	2
Internal Medicine	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5 Years ago; There has not been any treatment or conservative therapy.; Neck swelling, chronic headaches, mass; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/01/2018; There has been treatment or conservative therapy.; HEADACHE, R EYE SWOLLEN, FAMILY HISTORY OF ANEURYSM; OTC MEDICATIONS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; During her 3rd pregnancy- she delivered may 2017; It is not known if there has been any treatment or conservative therapy.; Whooshing sensation in ears sometimes accompanied by sever headache, all over head that will last a few seconds. Happens when she hops out of bed or gets up off the floor. Sometimes mild sometimes severe, always associated with a change in position. No Ve; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; During her 3rd pregnancy- she delivered may 2017; It is not known if there has been any treatment or conservative therapy.; Whooshing sensation in ears sometimes accompanied by sever headache, all over head that will last a few seconds. Happens when she hops out of bed or gets up off the floor. Sometimes mild sometimes severe, always associated with a change in position. No Ve; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	CHECK OUT MIGRAINES, HEADACHES AND DIZZINESS CERVICAL RADICULAPATHY - EVALUATE WEAKNESS BACK PAIN AND WEAKNESS OF LEFT LOWER EXTREMITY; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/07/2018; There has not been any treatment or conservative therapy.; LEFT LOWER EXTREMITY WEAKNESS MIGRAINE NECK PAIN LEFT UPPER EXTREMITY WEAKNESS CERVICAL RADICULAPATHY NUMBNESS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	facial asymmetry; C/o right facial weakness for a few months; History of meningioma; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has fatigue or malaise; It is unknown why this study is being ordered.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	loss of sensation in hand dizziness and alter mental status and blurred speech; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; It is unknown why this study is being ordered.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Memory loss.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, one sided arm or leg weakness, the inability to speak, or vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Multiple falls, bilateral leg weakness, balance problems, muscle weakness lower extremities, dizzy spells - ct scan showed moderate volume loss and microvascular ischemic changes. Medications have not helped; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Patient was recently diagnosed with NSCLC and the doctor is requesting a complete work up to determine stage, prognosis, treatment options.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	PT WITH EXTENSIVE STAGE SMALL CELL LUNG CA. HE NEEDS A PET/CT AND MRI BRAIN TO FURTHER DEFINE THE EXTENT OF HIS DISEASE.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Pulsatile tinnitus; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		reoccurring HA since april 2018 in frontal lobe; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		RULE OUT TUMORS; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/15/2018; There has not been any treatment or conservative therapy.; BULGING LEFT EYE; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		The Patient is autistic and hits himself in the head repeatedly which causes concern for the psychiatrist who recommended this imaging for further evaluation; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Requested due to trauma or injury.; There are not new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; The trauma or injury to the head occurred more than 1 week ago.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		The patient states she has had 5 episodes of dizziness for the last 3 months which have mostly occurred while sitting (although last episode was 4 days ago while standing after walking for 1 hour). Describes it as feeling like the room is spinning. Each e; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		The Pt has headache. pt is having dizziness, memory difficulty. difficulty sleeping. increases from sitting to stand. Family history of brain tumors; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This is a request for an Internal Auditory Canal MRI.; There is not a suspected Acoustic Neuroma or tumor of the inner or middle ear.; There is not a suspected cholesteatoma of the ear.; The patient has not had a recent brain CT or MRI within the last 90 days.; There are no neurologic symptoms or deficits such as one-sided weakness, speech impairments, vision defects or sudden onset of severe dizziness.; This is not a pre-operative evaluation for a known tumor of the middle or inner ear.	1
General/Family Practice	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	27
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; pt has extreme weakness on left arm and upper extremity numbness; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Swelling, numbness in the fingers.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for cervical spine MRI; None of the above; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 03/05/2018; There has been treatment or conservative therapy.; dragging left foot and leg, numbness, weakness, sever lower back pain into left leg; PT, meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 03/30/2018; There has been treatment or conservative therapy.; neck and back pain, numbness in right arm down to fingers; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 10/2017; There has been treatment or conservative therapy.; back pain, numbness, decrease in motor movements; PT, Medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 3/30/18; There has not been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; past week; There has not been any treatment or conservative therapy.; Arm numbness, temors, - Family HX MS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2/28/18; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; Injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2003; There has been treatment or conservative therapy.; patients neck pain and back pain.; injections.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/25/18; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; several years ago; There has been treatment or conservative therapy.; LOWER BACK PAIN AND NUMBNESS LEFT SIDED NECK PAIN AND IN HIP ABNORMAL X RAYS; failed PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 1/24/201; There has been treatment or conservative therapy.; right leg and knee pain. shooting pain down arm; medication and physical threapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 3/26/2018; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; < Describe treatment / conservative therapy here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This is a request for cervical spine MRI; None of the above; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if there is x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This study is being ordered for a neurological disorder.; 4/5/2018; There has been treatment or conservative therapy.; Left low back pain w/radiation to the left sacral notch, around the anterior thigh, knee and medial lower leg, left foot numbness; Physical Therapy, Epidural Steroid Injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/24/2018; There has been treatment or conservative therapy.; Low back pain radiating to buttocks and lateral thighs. Cervical spine pain radiates into upper extremities.; Medications (Gabapentin/Baclofen) 04/24/2018 Physical Therapy 04/24; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This study is being ordered for trauma or injury.; 2013; There has been treatment or conservative therapy.; back pain. Upper thoracic and cervical back pain. Numbness and tingling in both upper ext, but L is greater than R. He has also noticed some weakness in both arms, R.L. bulging disc on MRI in 2014; physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		ADDITIONAL AND MORE EXTENSIVE IMAGING IS NEEDED TO PROPERLY TREAT PATIENT.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3 YEARS PRIOR; There has been treatment or conservative therapy.; PAIN, LIMITED MOBILITY, LIMITED RANGE OF MOTION, DECREASED QUALITY OF LIFE; MEDICATION AND PHYSICAL THERAPY; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		chronic pain.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/30/2018; There has been treatment or conservative therapy.; cervical and lumbar pain, neuropathy.; Medications.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Continues to have neck pain radiating into left shoulder and arm, had bouts of numbness, has gone through PT and it helped somewhat but still continues to have pain.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; neck pain that radiates into left shoulder and causes numbness/weakness; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		fatigue, exercise intolerance Musculoskeletal: muscle aches, weakness, and cramps and arthralgias/joint pain and back pain; neck pain wroseing. Neck pain ongoing and severe . Pain severe and having string muscle spasms ,having spells of feeling fainty ; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; CERVICAL XRAY...DDD with bone spurring C4 /5 and C5/6 numbness, tingling, and frequent or severe headaches .Musculoskeletal: muscle aches, weakness, and cramps and arthralgias/joint pain and back pain; neck pain wroseing. failed oral regimen ,home exer; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		h/a's, trouble sleeping; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.; Yes, the patient had six weeks of Chiropractic care related to this episode.	1

General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.;	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Musculoskeletal: She exhibits no edema.  Right shoulder: She exhibits decreased range of motion, tenderness, bony tenderness, pain, spasm and decreased strength.  Left shoulder: She exhibits decreased range of motion.  Cervical back: She; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Musculoskeletal: She exhibits no edema.  Right shoulder: She exhibits decreased range of motion, tenderness, bony tenderness, pain, spasm and decreased strength.  Left shoulder: She exhibits decreased range of motion.  Cervical back: She; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		NECK PAIN AND NUMBNESS; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; CANT PICK RIGHT ARM UP; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		NECK PAIN,DECREASED STRENGTH OF EXTREMITIES,Inspection - Normal. decreased pinprick and light touch over right upper arm, right forearm and hand, decrease pinprick and light touch over right anterior and posterior upper leg, no change to foot/calf Poor ; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Inspection - Normal. decreased pinprick and light touch over right upper arm, right forearm and hand, decrease pinprick and light touch over right anterior and posterior upper leg, no change to foot/calf Poor balance when standing on right foot 4/5 str; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Pain and numbness to lower extremity and back worsening; This study is being ordered for a neurological disorder.; Hx of subarachnoid hemorrhage Abnormal MRI,NCV/EMG July 2017.; There has been treatment or conservative therapy.; lower back pain,bilater lower extremity, bowel and bladder incontinence; Pain medication,steroid injection,muscle relaxer not relieving pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Patient had cervical spine surgery with fusion in 2015. He has also done physical therapy twice with no improvement.; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if there is x-ray evidence of a recent cervical spine fracture.; Patient has cervical radiculopathy with inflammatory spondylopathy and cervical herniated disc.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Patient has completed physical therapy with worsening symptoms after therapy was completed. Weakness/numbness left arm due to pain from neck/back.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/28/2018; There has been treatment or conservative therapy.; -neck pain  -upper pack pain  -radiculopathy thoracic spine  -left side shoulder pain due to neck pain.  -left arm pain/numbness.; 6 weeks of conservative treatment.  steroid pack given.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Pt has neck pain that radiates down left shoulder to left hand. he hears a "crunching" sound when he twists his neck. He has completed 6 weeks of physical therapy and still has weakness; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; after 6 weeks of PT patient still shows weakness with shld flexion; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		suspect a C-7 nerve root but atypical carpal tunnel also a consideration. Will get MRI neck as symptoms getting worse. 6 weeks; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.; Tinel negative ulnar groove, wrist. Reflexes have diminished right brachioradialis reflex compared to the left.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.	3
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.	4
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	29

General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical Therapy.; Yes, the patient had six weeks of Chiropractic care related to this episode.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.; unknown	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient is presenting new symptoms.; This study is being ordered for follow-up.; This is a request for cervical spine MRI; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; Known Tumor with or without metastasis	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is x-ray evidence of a recent cervical spine fracture.	2
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has completed 6 weeks or more of Chiropractic care.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	5
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	32
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	17
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	1

Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient is experiencing fatigue or malaise.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing vertigo	2
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	2
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient is experiencing dizziness.	2
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; It is not known if the patient has undergone treatment for multiple sclerosis.; There are intermittent or new neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has not been a previous Brain MRI completed.	7
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is a pituitary tumor or pituitary adenoma.; It is not known if there are physical findings or laboratory values indicating abnormal pituitary hormone levels.; There has been a previous Brain MRI completed.; The brain MRI was abnormal.; This is NOT a Medicare member.	1

Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is a pituitary tumor or pituitary adenoma.; There are physical findings or laboratory values indicating abnormal pituitary hormone levels.; This is NOT a Medicare member.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	2
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; There has been a recent assessment of the patient's visual acuity.; This study is being ordered for stroke or TIA (transient ischemic attack).	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for seizures.; There has been a change in seizure pattern or a new seizure.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		UNKNOWN; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		unknown; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5 Years ago; There has not been any treatment or conservative therapy.; Neck swelling, chronic headaches, mass; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material			10
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		"There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		; This study is being ordered for Inflammatory/ Infectious Disease.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2014; There has been treatment or conservative therapy.; vaginal bleeding, pavm; previous ct scan for pavm, hht genetic testing; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		A Chest/Thorax CT is being ordered.; This study is being ordered for known tumor.; Yes this is a request for a Diagnostic CT	3
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient does NOT have signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		A Chest/Thorax CT is being ordered.; This study is being ordered for suspected pulmonary Embolus.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	15
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	37
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal laboratory test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	3

Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; Abnormal lab finding was relevant in the diagnosis or suspicion of inflammatory bowel disease; This is a request for a Chest CT.; This study is being requested for known or suspected blood vessel (vascular) disease; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; An abnormal lab finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Coughing up blood (hemoptysis) describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Lung nodule found on abd/pel last April a 4 ml nodule was found this is a F/U.; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		No pulmonary embolism. 2. Mild pulmonary emphysema with hypoventilatory atelectasis. 3. Stable scarring and volume loss in the left lower lobe and stable pulmonary nodularity in the right lower lobe. 4. Granulomatous sequela  Lung nodule; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This study is being requested for an unresolved cough; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This study is being requested for 'none of the above'; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		none; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Post-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		PT HAS NON HODGKINS LYMPHOMA AND WAS DIAGNOSED IN 2016.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		PT WITH STAGE III RECTAL CA. PT FINISHED FOLFOX ON 3/28/18. PT DUE FOR FOLLOW UP SCANS.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material	<p>Pulmonary nodule</p> <p>Stable subtle nodularity in the periphery of the left upper lobe;</p> <p>likely related to subpleural postinfectious scarring. Recommend;</p> <p>continued followup in six months to ensure stability;</p> <p>Left upper lobe pulmonary nodule is less discrete on; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT</p>	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material	<p>Review of Systems</p> <p>Constitutional: Positive for diaphoresis, fatigue and fever. Negative for appetite change and chills.</p> <p>Weight gain</p> <p>HENT: Positive for rhinorrhea, sore throat and voice change (hoarse voice). Negative for congestion, ear dischar; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT</p>	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material	<p>STAGE IA GIST OF THE ILEUM. CT ON 2/27/18 SHOWED LYMPH NODE INCREASED FROM 1.0 TO 1.3CM. CLOSE FOLLOW UP WAS RECOMMENDED. PT DUE FOR 3MONTH FOLLOW UP SCAN.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material	<p>Surveillance of cancer.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material	<p>There is radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT</p>	5
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material	<p>This is a request for a Thorax (Chest) CT.; Abnormal imaging test describes the reason for this request.; Yes this is a request for a Diagnostic CT</p>	1
Internal Medicine	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)	<p>Restaging; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Internal Medicine	Approval	71555 Magnetic resonance angiography, chest (excluding myocardium), with or without contrast material(s)	<p>&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an MR Angiogram of the chest or thorax</p>	1

Internal Medicine	Approval	72125 Computed tomography, cervical spine; without contrast material		The patient does have neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to trauma or acute injury within 72 hours.; There is a reason why the patient cannot have a Cervical Spine MRI.; The patient is experiencing or presenting symptoms of Lower extremity weakness.	1
Internal Medicine	Approval	72125 Computed tomography, cervical spine; without contrast material		This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to neurological deficits.; There has been a supervised trial of conservative management for at least 6 weeks.; "The caller indicated that the patient is not experiencing or presenting symptoms of Abnormal Gait, Lower Extremity Weakness, Asymmetric Reflexes, Cauda Equina Syndrome, Bowel or Bladder Disfunction, New Foot Drop, or Radiculopathy."; The patient is experiencing sensory abnormalities such as numbness or tingling.; There is a reason why the patient cannot have a Cervical Spine MRI.	1
Internal Medicine	Approval	72125 Computed tomography, cervical spine; without contrast material		This study is to be part of a Myelogram.; This is a request for a Cervical Spine CT	2
Internal Medicine	Approval	72128 Computed tomography, thoracic spine; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a thoracic spine CT.; Caller does not know whether there is a reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	72131 Computed tomography, lumbar spine; without contrast material			1
Internal Medicine	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	4
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material			1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>CHECK OUT MIGRAINES, HEADACHES AND DIZZINESS</p> <p>CERVICAL RADICULAPATHY - EVALUATE WEAKNESS</p> <p>BACK PAIN AND WEAKNESS OF LEFT LOWER EXTREMITY; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/07/2018; There has not been any treatment or conservative therapy.; LEFT LOWER EXTREMITY WEAKNESS</p> <p>MIGRAINE</p> <p>NECK PAIN</p> <p>LEFT UPPER EXTREMITY WEAKNESS</p> <p>CERVICAL RADICULAPATHY</p> <p>NUMBNESS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>right arm numbness, neck pain, lower back pain&#x0D;</p> <p>Dx: S/P allogeneic bone marrow transplant. Trying to r/o relapse.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>She does report hx of MS, last MRI brain was stable for MS and she has not been on medication for this, but she reports her vision is getting worst.; This is a request for cervical spine MRI; There is no laboratory or x-ray evidence of osteomyelitis.; Known or Suspected Multiple Sclerosis, Infection or abscess; There is not laboratory or x-ray evidence of meningitis.; There is not laboratory or x-ray evidence of a paraspinal abscess.; There is not laboratory or x-ray evidence of an infected disc, septic arthritis, or "discitis".</p>	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.</p>	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.</p>	5

Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.; History / Dx:M54.9 Acute upper back pain History / Dx:R20.0 Numbness in both hands History / Dx:X-rays  Already Completed:Procedure Date: 06/06/2018; Normal,X-rays  Already Completed:Procedure Date: 06/06/2018; Normal,Dr. Ba	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	6
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Yes, this patient had a recent course of supervised physical Therapy.	2
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Pain pressing into the nerves in the arms.	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Trauma or recent injury; <Enter Additional Clinical Information>; Yes, the patient have new or changing neurological signs or symptoms.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		There are no documented clinical findings of immune system suppression.; This is a request for a thoracic spine MRI.; The patient is experiencing back pain associated with abdominal pain.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis, Follow up to or Pre-operative evaluation, or Neurological deficits."	1

Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; april 2018; There has been treatment or conservative therapy.; bp; pain management and specialist physical rehab and health doctors; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Clinical Information History / Dx:M48.00 Spinal stenosis, multilevel History / Dx:M53.9 Multilevel degenerative disc disease History / Dx:R29.898 Bilateral leg weakness, Reason for Study: Pt has had worsening low back pain for years, however; This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Description Chronic neck and back pain (M54.2). Worsened. We have been unable to get MRI of additional spine regions, we will reorder. He has been referred to both Dr. Knox and Dr. Evans (neurosurgery). He is getting PT. He has used a TENS unit. H; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Initial staging for newly diagnosed patient coming to UAMS for eval/treat of Multiple Myeloma.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	PT TOOK NSAID AT HOME; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; September 19, 2017; There has been treatment or conservative therapy.; CHRONIC BACK PAIN, HAVING TROUBLE DOING DAILY LIVING ACTIVITIES SUCH AS GETTING OUT OF BED, RADICULOPATHY, PAIN THAT STARTS IN HER LOWER BACK AND RADIATES DOWN HER LEFT LEG.; MILD PAIN MEDICATION SUCH AS AMTRIPTYLINE,MUSCLE RELAXER. PT HAS DONE 2 WEEKS OF PHYSICAL THERAPY AND IT DID NOT HELP.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	1

Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Follow-up to Surgery or Fracture within the last 6 months; The patient does have new or changing neurologic signs or symptoms.; There has not been a recurrence of symptoms following surgery.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; The patient been not been seen by or is not the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.; There is recent evidence of a thoracic spine fracture.	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		unknown; This study is being ordered for Inflammatory/ Infectious Disease.; 3/15/18; There has been treatment or conservative therapy.; mid and low back pain numbness and tingling in legs and across chest area; patient tried PT and activity modifications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Weakness in right leg; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Already Completed:  Home exercise program, can't afford P.T. Additional Exam(s):Needs xray for eye exam, prior to MRI due to welding hx  Clinical Information History / Dx:M54.5 Chronic midline low back pain, with sciatica presence unspecifie; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		CHRONIC PAIN, WORSE WHEN CHANGING POSITIONS; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		further evaluation; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; weakness in the Rt leg; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Initial staging for newly diagnosed patient coming to UAMS for eval/treat of Multiple Myeloma.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	left side siataca; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	none; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	none; This study is being ordered for a neurological disorder.; 03/27/2018; There has been treatment or conservative therapy.; fatigue, h/a, neck pain, numbness & weakness; lab work and testing; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	none; This study is being ordered for Inflammatory/ Infectious Disease.; diagnosed approx. 2 years ago with osteomyelitis, recent infection flared up 2 days ago; There has been treatment or conservative therapy.; swelling, foul smelling discharge and pain; antibiotics; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Patient has bilateral low back pain with right side radiculitis.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Patient here for chemo with complaint of worsening back pain.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Patient ID: Jessie Toney Doyle Floyd is a 47 y.r. male.; 47 year old male states that he is has ongoing back pain that is getting worse including pain down the right leg with numbness and weakness.; HPI.; 47 yr male with PMH of anxiety, chronic back pain, ; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	PT TOOK NSAID AT HOME; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; September 19, 2017; There has been treatment or conservative therapy.; CHRONIC BACK PAIN, HAVING TROUBLE DOING DAILY LIVING ACTIVITIES SUCH AS GETTING OUT OF BED, RADICULOPATHY, PAIN THAT STARTS IN HER LOWER BACK AND RADIATES DOWN HER LEFT LEG.; MILD PAIN MEDICATION SUCH AS AMTRIPTYLINE, MUSCLE RELAXER. PT HAS DONE 2 WEEKS OF PHYSICAL THERAPY AND IT DID NOT HELP.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	right arm numbness, neck pain, lower back pain Dx: S/P allogeneic bone marrow transplant. Trying to r/o relapse.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	4
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	4
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Neurologic deficits	3
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI; The patient has acute or chronic back pain.; The patient has an Abnormal nerve study involving the lumbar spine	3
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI; The patient has acute or chronic back pain.; The patient has completed Treatment with a facet joint or epidural injection in the past 6 weeks	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	49
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Unknown; The study requested is a Lumbar Spine MRI; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Weakness and numbness going down both legs. Gait is slow.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		unknown; This study is being ordered for Inflammatory/ Infectious Disease.; 3/15/18; There has been treatment or conservative therapy.; mid and low back pain numbness and tingling in legs and across chest area; patient tried PT and activity modifications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		XRAY DONE AND IN NOTE; The study requested is a Lumbar Spine MRI; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; PAIN RADIATING DOWN BOTH LEGS , XRAY DONE; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Approval	72192 Computed tomography, pelvis; without contrast material		; This study is being ordered because of a suspicious mass/ tumor.; "The patient has had a pelvic ultrasound, barium, CT, or MR study."; This is a request for a Pelvis CT.; There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	72192 Computed tomography, pelvis; without contrast material		Enter answer here - Patient fell off counter tops in kitchen landed on ceramic tile floor, patient having pain in lower back and pelvic pain. unable to stand up straight or walk at this time Xray showed Left ramus fx Dr Whorton wants Ct Pelvis to Rule ou; This study is being ordered as a follow-up to trauma.; There is NO laboratory or physical evidence of a pelvic bleed.; There are no physical or abnormal blood work consistent with peritonitis or pelvic abscess.; There is physical or radiological evidence of a pelvic fracture.; "The ordering physician is not a gastroenterologist, urologist, gynecologist, or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	72192 Computed tomography, pelvis; without contrast material		Unknown; This study is being ordered due to organ enlargement.; There is ultrasound or plain film evidence of a pelvic organ enlargement.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2014; There has been treatment or conservative therapy.; vaginal bleeding, pavm; previous ct scan for pavm, hht genetic testing; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		caller will fax in the clincials; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Internal Medicine	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		Initial staging for newly diagnosed patient coming to UAMS for eval/treat of Multiple Myeloma.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	1

Internal Medicine	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		Initial staging for newly diagnosed patient coming to UAMS for eval/treat of Multiple Myeloma.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Internal Medicine	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is no suspicion of upper extremity bone or soft tissue infection.; The ordering physician is not an orthopedist.; There is a history of upper extremity trauma or injury.	1
Internal Medicine	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is suspicion of upper extremity bone or soft tissue infection.	3
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)			1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		FOLLOW-UP/RESTAGING; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Abnormal x-ray. Possible impingement rotator cuff	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; rule out abnormal xray possible rotator cup	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; It is not known if there are documented findings of crepitus.; There are no documented findings of swelling.; The ordering physician is not an orthopedist.; Pt suffers with chronic right shoulder pain without trauma.; The patient is NOT experiencing joint locking or instability.; The patient does not have a documented limited range of motion on physical examination.; It is not known if there is documented findings of severe pain on motion.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	193

General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Known or Suspected Multiple Sclerosis, Infection or abscess; Yes, the patient have new or changing neurological signs or symptoms.; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.; yes, there are documented clinical findings of Multiple sclerosis.	2
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; Yes, the patient is demonstrating unilateral muscle wasting.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	81
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; None of the above; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	4
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Pre-Operative Evaluation; No, the last Cervical spine MRI was not performed within the past two weeks.	2
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	46
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Neck pain 3week ago 5 out of 10- Sharp pain radiates to R shoulder and head.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; The patient has been having chronic pain for the past two months. Patient has done 2 sessions of PT and it seems to be getting worse.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; unknown	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; <Enter Additional Clinical Information>	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is an orthopedist.	1

Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; There is documented findings of severe pain on motion.	25
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient received joint injection(s).	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient received joint injection(s).	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		With regard to the shoulder impingement syndrome, she complains of right shoulder pain. The location of the pain is inferior. It radiates to the arm and hand. The pain initially started 9 to 10 months ago. The apparent precipitating event was frequent; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Internal Medicine	Approval	73700 Computed tomography, lower extremity; without contrast material			1

Internal Medicine	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a Lower Extremity CT.; This is not a preoperative or recent postoperative evaluation.; There is suspicion of a lower extremity neoplasm, tumor or metastasis.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences			2
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		1) doppler ordered to rule out DVT due to leg tenderness. MRI knee and ankle ordered; Given prazosin for nightmares Keep follow up as scheduled.; This study is being ordered for trauma or injury.; On Sunday, she was walking into church and stepped off of a curb.; There has been treatment or conservative therapy.; she has had extreme pain from her right knee down to right ankle.Right ankle swelling with decreased ROM  Right knee ttp over medial meniscus; Was placed in an immobilizer from the ER which she is wearing sporadically.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		currently in pt; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Pain greater than 3 days; No, patient has not completed and failed a course of conservative treatment.; No, the member do not experience a painful popping, snapping, or giving away of the knee.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.	5
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.	3

Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; No, the patient did not have a recent ultrasound of the knee.; The patient has not had recent plain films of the knee.; There are physical findings (palpable mass) of a suspicious mass or known primary site of cancer.; The patient has not had a recent bone scan.; CARDIOLOGIST NEEDS TO KNOW IF THIS IS MASS OR HEMATOMA SINCE PATIENT HAD CORONARY STENTS 3 WKS AGO AND IS NOW ON TRIPLE THERAPY BLOOD THINNERS.; Suspicious Mass or Suspected Tumor/ Metastasis	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Swelling greater than 3 days; No, the member do not experience a painful popping, snapping, or giving away of the knee.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Swelling greater than 3 days; Yes, the member experience a painful popping, snapping, or giving away of the knee.	2
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Limited range of motion	3
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Swelling greater than 3 days	4
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; It is not known if there is a known trauma involving the knee.; Pain greater than 3 days; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Pain greater than 3 days	3

Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The results of the plain films is not known.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physician directed course of non-steroidal anti-inflammatory medications	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physician directed course of non-steroidal anti-inflammatory medications	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.; The patient is not taking antibiotics.; This is a study for a fracture which does not show healing (non-union fracture).	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is a pre-operative study for planned surgery.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.	4
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	1
Internal Medicine	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.	1

Internal Medicine	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient has a documented limitation of their range of motion.	1
Internal Medicine	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.; The patient is receiving long-term steriod therapy (Prednisone or Cortisone).	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		CT abdomen with contrast to rule out CBD as tumor not visualized by abdomen us  High risk of cancer due to etoh ingestion. Abdomen is distended. Abnormal abdominal ultrasound.; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.;; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		Cystic mass in the pancreas.; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.;; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		Hypodensities in the liver are indeterminate and measure up to 13 mm. Indeterminate hepatic hypodense lesions. Recommend pre and post contrast abdominal CT for further evaluation.;; This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.;; No, this is not a request for follow up to a known tumor or abdominal cancer.;; This study being ordered for a palpable, observed or imaged abdominal mass.;; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		Pt suffers with a suspicious mass or nodule.;; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.;; This is not a request for initial staging of a known tumor other than prostate.;; This patient does NOT have known prostate cancer with a PSA (prostate-specific antigen) greater than 10.;; No, this is not a request for follow up to a known tumor or abdominal cancer.;; Yes, there is a palpable or observed abdominal mass.;; No, there has not been a recent abdominal CT scan.;; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a kidney/ureteral stone.;; There is a known or a strong suspicion of kidney or ureteral stones.;; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a vascular disease.;; The requested studies are being ordered for known or suspected aneurysms and are being ordered by a surgeon or by the attending physician on behalf of a surgeon.;; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.;; There are abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.;; It is not known if the patient has been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.;; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	4
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are clinical findings or indications of Hematuria.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for organ enlargement.; There is evidence of organ enlargement on ultrasound, plain film, or IVP.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	This is a request for CT Angiography of the Abdomen and Pelvis.	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		15
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	ABDOMEN-ANTERIOR PALPATION-TENDERNESS,RUQ EXTREMITY-EDEMA-LOCATON:LOWER EXTREMITY,SIDE:BILATERAL,SEVERITY:4+,TYPE:PITTING DIAPHORETIC,TREMOR CHRONIC DIARRHEA STOOLS:SLUDGE HA OF ROUX-N-Y GASTRIC BYPASS; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has not been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Patient has abdominal tenderness, retractable vomiting, 4 times since in office, folding over holding stomach, Phenergan and Toradol given. Trying to rule out appendicitis; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Patient has known testicular tumor.; This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This is a request for evaluation of prostate cancer.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is male.; The patient had a prior Abdomen/Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Patient to be evaluated for dysuria. This was first noted 2 months ago. Associated symptoms include abdominal pain (over bladder), decreased force of urine stream, dribbling or intermittent urine stream, left flank pain, urgency and urinary frequency.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	PT HAS NON HODGKINS LYMPHOMA AND WAS DIAGNOSED IN 2016.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	STAGE IA GIST OF THE ILEUM. CT ON 2/27/18 SHOWED LYMPH NODE INCREASED FROM 1.0 TO 1.3CM. CLOSE FOLLOW UP WAS RECOMMENDED. PT DUE FOR 3MONTH FOLLOW UP SCAN.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a new patient, she is fasting for labs.; Her primary complaint is recurrent vomiting over the last 18 months. She has had extensive workup for this without a diagnosis determined. She has been seen by Dr Mathews then lastly UAMS. On average she; This study is being ordered for Inflammatory/ Infectious Disease.; This is a new patient, she is fasting for labs.; Her primary complaint is recurrent vomiting over the last 18 months. She has had extensive workup for this without a diagnosis determined. She has been seen by Dr Mathews then lastly UAMS. On average she; It is not known if there has been any treatment or conservative therapy.; This is a new patient, she is fasting for labs.; Her primary complaint is recurrent vomiting over the last 18 months. She has had extensive workup for this without a diagnosis determined. She has been seen by Dr Mathews then lastly UAMS. On average she; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	11
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	3
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	6
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; It is not known if this is the first visit for this complaint.; It is unknown if there has been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The hematuria is due to Renal Calculi/kidney/ ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; It is not known if the patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed more than 10 months ago.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	5
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has been completed.; The results of the contrast/barium x-ray were abnormal.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has been completed.; The results of the contrast/barium x-ray were normal.; The patient had an endoscopy.; The endoscopy was normal.; Yes this is a request for a Diagnostic CT	12
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		unknown; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for bilirubin.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A liver abnormality was found on a previous CT, MRI or Ultrasound.; It is unknown if there is suspicion of metastasis.	1

Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	< Enter answer here - or Type In Unknown If No Info Given. > This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A liver abnormality was found on a previous CT, MRI or Ultrasound.; There is NO suspicion of metastasis.	1
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; The patient is presenting new symptoms.; This study is being ordered for follow-up.; The patient is not undergoing active treatment for cancer.; "The ordering physician is not an oncologist, urologist, gastroenterologist, or surgeon."; PATIENTS LABS ARE ELEVATED.	1
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Impression:&#xOD; 1. There is a 17.5 mm lesion in segment seven of the right lobe of the liver which becomes increasingly hyperdense on the postcontrast images and never becomes isodense with the liver. This lesion does not meet the imaging characteristics of	1
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Abnormal ultrasound requires further imaging	1
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A abnormality was found on the pancreas during a previous CT, MRI or Ultrasound.	1
Internal Medicine	Approval	75571 Computed tomography, heart, without contrast material, with quantitative evaluation of coronary calcium	Yearly check-up, lab results showed high cholesterol, discussion of medication, however would like to do the EBCT first.; This is a request for a CT scan for evaluation of coronary calcification.	1
Internal Medicine	Approval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)	The patient does not have three or more of the following conditions: age over 50, diabetes, history of hypertension, history of LDL cholesterol above 130, history of HDL cholesterol below 35, obesity (BMI above 35), and/or active history of smoking.; This request is for a Coronary CT Angiography study.; No, patient did not have a Nuclear Cardiology study within the past six months.; This study is being ordered for suspected Coronary Artery Disease (CAD) and symptomatic?; No, patient does not have new onset congestive heart failure.; Patient had a dobutamine stress echo for chest pain on 01/11/18 which was negative. Patient presented to the office on 04/11/18 with complaints of worsening chest pain with shortness of breath. With the ongoing chest pain & multiple risk factors for Coron; Yes, there is Chronic Chest Pain.	1
Internal Medicine	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	PT HAS HETEROGENEOUSLY DENSE BREAST TISSUE THAT MAY LOWER THE SENSITIVITY OF MAMMOGRAPHY.; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1

Internal Medicine	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	She had a breast MRI 06/20/17 which was normal, screening mammogram 11/9/17, diagnostic mammogram of left breast 11/13/17, and ultrasound of left breast on 11/13/17 with BiRads 2 (normal). Pt has known family history of breast and ovarian cancer in her m; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; No, this patient does not have axillary node adenocarcinoma.; No, there are no anatomic factors (deformity or extreme density) that make a simple mammogram impossible.; It is unknown if there are benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
Internal Medicine	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered for known breast lesions.; There are benign lesions in the breast associated with an increased cancer risk.	2
Internal Medicine	Approval	77084 Magnetic resonance (eg, proton) imaging, bone marrow blood supply	; This is a request for an MRI Bone Marrow.	1
Internal Medicine	Approval	77084 Magnetic resonance (eg, proton) imaging, bone marrow blood supply	FOLLOW-UP/RESTAGING; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	77084 Magnetic resonance (eg, proton) imaging, bone marrow blood supply	INITIAL STAGING FOR NEWLY DX MULTIPLE MYELOMA PATIENT; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	77084 Magnetic resonance (eg, proton) imaging, bone marrow blood supply	RESTAGING AFTER CHEMO; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		2

Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/1/18; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	chest pain , abnormal stress test; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Enter answer here - or Type In UMrs. Fraser is a 53 year old postmenopausal lady (Conway Corp call center) with significant history of T2DM on insulin (HgbA1c 10%, 10/2017), Meniere's Disease, HLPD, and neuropathy, followed by Dr. Johnson, referred for ra; The patient has had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Patient was scheduled for a non exercise stress test as he has severe back pain requiring surgery. This limits his ability to demonstrate a 4 mets working capacity required to clear him for back surgery. Therefore for him to safely ensure he will not have; The study is being ordered for known CAD.; The patient is not presenting new symptoms of chest pain or increasing shortness of breath.; The patient has not had a recent non-nuclear stress test.; The patient had a recent abnormal EKG consistent with CAD.; The patient has not had a recent stress echocardiogram.; This patient had a previous cardiac surgery or angioplasty.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient is male.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Patient was unable to achieve target heart rate and adequate cardiac stress.; The patient has had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	pt is wheelchair bound with trach due to brain hemorrhage. She had a negative exercise stress test 1 year ago; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	pt. presented to clinic on 4/4/18 with c/o shortness of breath with exertion. pt. had Echocardiogram on 4/11/18. His Echo with bubble study shows good EF of 60% and Grade 1 diastolic dysfunction. pt. presented to clinic on 5/30/18 with c/o constant chest ; The patient has had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Summary Probably positive but low risk stress echo. Normal LV size, wall thickness and wall motion. LVEF 55-60%. Good exercise tolerance with blunted heart rate response to exercise. Walked Via Bruce protocol for 9: 00 min achieving 10.1 M; The patient has had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	The study is being ordered for known CAD.; The patient is presenting new symptoms of chest pain or increasing shortness of breath.; This patient had a previous cardiac surgery or angioplasty.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	The study is being ordered for known CAD.; The patient is presenting new symptoms of chest pain or increasing shortness of breath.; This patient had a previous myocardial infarction.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; There are documented clinical findings of hypertension.; The patient has not had a recent non-nuclear stress test.; "Patient is not clinically obese, nor has an emphysematous chest configuration."; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	3

Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has 3 or more cardiac risk factors; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 40 or greater	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has diabetes.; This is NOT a Medicare member.; The patient is 65 or older.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This study is being ordered as a pre-operative evaluation.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are documented clinical findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; The patient has not had a recent stress echocardiogram.; The patient has suspected CAD.; The patient has not had a stress echocardiogram within the past eight weeks.; This evaluation is prior to major surgery involving general anesthesia.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		unknown; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

Internal Medicine	Approval	78813 Positron emission tomography (PET) imaging; whole body		PT WITH EXTENSIVE STAGE SMALL CELL LUNG CA. HE NEEDS A PET/CT AND MRI BRAIN TO FURTHER DEFINE THE EXTENT OF HIS DISEASE.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lymphoma or Myeloma.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Soft Tissue Sarcoma, Pancreatic or Testicular Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		Unknown; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is an evaluation of new or changing symptoms of valve disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; The patient has shortness of breath; Known or suspected valve disease.	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of cardiac arrhythmias; This study is being requested for the initial evaluation of frequent or sustained atrial or ventricular cardiac arrhythmias.	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; It is unknown if there been a change in clinical status since the last echocardiogram.; It is unknown if this request is for initial evaluation of a murmur.; This is a request for follow up of a known murmur.	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Valves.; This is an initial evaluation of suspected valve disease.	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Valves.; This is NOT for prolapsed mitral valve, suspected valve disease, new or changing symptoms of valve disease, annual review of known valve disease, initial evaluation of artificial heart valves or annual re-eval of artificial heart valves.	1

Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient does not have a history of a recent heart attack or hypertensive heart disease.	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient has a history of hypertensive heart disease.; There is a change in the patient's cardiac symptoms.	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient has a history of hypertensive heart disease.; There is NOT a change in the patient's cardiac symptoms.; It has been at least 24 months since the last echocardiogram was performed.	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Pulmonary Hypertension.	6
Internal Medicine	Approval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Stress Echocardiogram.; It is unknown if the patient had cardiac testing including Stress Echocardiogram, Nuclear Cardiology (SPECT/MPI), Coronary CT angiography (CCTA) or Cardiac Catheterization in the last 2 years.; The patient is not experiencing new or changing cardiac symptoms.; The member has known or suspected coronary artery disease.	1
Internal Medicine	Approval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;		The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are documented clinical findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; This is a request for a Stress Echocardiogram.; This patient has not had a Nuclear Cardiac study within the past 8 weeks.; This study is being ordered for suspected coronary artery disease.	1

Internal Medicine	Approval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;		This is a request for a Stress Echocardiogram.; The patient has NOT had cardiac testing including Stress Echocardiogram, Nuclear Cardiology (SPECT/MPI), Coronary CT angiography (CCTA) or Cardiac Catheterization in the last 2 years.; The member has known or suspected coronary artery disease.	1
Internal Medicine	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Low Dose CT for Lung Cancer Screening.; This patient has had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.	1
Internal Medicine	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; It is unknown if the patient is presenting with pulmonary signs or symptoms of lung cancer or if there are other diagnostic test suggestive of lung cancer.; The patient quit smoking less than 15 years ago.	1
Internal Medicine	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient quit smoking less than 15 years ago.	6
Internal Medicine	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for MRCP.; There is no reason why the patient cannot have an ERCP.	2
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 4/3/208; There has not been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The headache is not described as a "thunderclap" or the worst headache of the patient's life.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.	1

Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Enter answer here - or Type In Unknown If No ISUBJECTIVE:; CC:  Mrs. BEAVERS is a 51 year old White female. She presents with sinus symptoms.  HPI:  Mrs. BEAVERS presents with acute sinusitis, other. This has been a problem for the past 2 week; This study is being ordered for Inflammatory/ Infectious Disease.; chronic newest symptoms of HA and drooping of eye /protrusion 2 weeks; There has been treatment or conservative therapy.; protrusion of eye, vascular HA drainage from eyes cloudy, chronic non resolved sinusitis; Abx, nsaid tylenol OTC cold medication/allergy medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	12
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a chronic headache, longer than one month; Headache best describes the reason that I have requested this test.	12
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a new onset of a headache within the past month; Headache best describes the reason that I have requested this test.	2
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has the worst headache of patient's life with onset in the past 5 days; Headache best describes the reason that I have requested this test.; This is NOT a Medicare member.	2
Internal Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been less than 14 days since onset AND the patient improved, then worsened; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary		1

Internal Medicine	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	nodule in patient's shoulder; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	FOLLOWUP/RESTAGING; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	INITIAL STAGING FOR NEWLY DX MULTIPLE MYELOMA PATIENT; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for trauma or injury.; 12/01/2017; There has been treatment or conservative therapy.; unknown; er treatment; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has vision changes.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 5/2017; There has not been any treatment or conservative therapy.; Rapid memory loss; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	abnormal thyroid hormone levels; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Memory loss and light headedness.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	pt has been having chronic headaches for most of his life but the last 2 months they have been significantly worse; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1

Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	PT HAS EXPERIENCED VERTIGO FOR MORE THAN 2 WEEKS AND CAUSING NAUSEA. MAKING HIS ADL'S DIFFICULT,PATIENTS VERTIGO IS SO EXTREME PATIENT CAN NOT GET OUT OF BED; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient is experiencing vertigo	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Pt suffers with dissociative amnesia.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; It is unknown why this study is being ordered.	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	2
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing vertigo	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for trauma or injury.; 12/01/2017; There has been treatment or conservative therapy.; unknown; er treatment; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Worsening plaque like lesions in central nervous system noted - impression from September 2017 MRI Brain notes continued progression of advanced multifocal white matter and new areas of enhancement - onset of vision changes/pain due to MS exacerbation - n; This study is being ordered for a neurological disorder.; 3/18/18; There has been treatment or conservative therapy.; dizziness - blurred vision - pain - photophobia; solu-medrol given for MS flare; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	9
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	23
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal laboratory test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; This study is being requested for 'none of the above'; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	nodule in patient's shoulder; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; Abnormal finding on physical examination was relevant in the diagnosis or suspicion of inflammatory lung disease; This study is being requested for known or suspected inflammatory disease such as sarcoidosis, pneumoconiosis, asbestosis, silicosis; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; An abnormal imaging (xray) finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; The patient had an abnormal imaging (xray) finding related to the suspicion of cancer in th is patient.; This is a request for a Chest CT.; This study is beign requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This reason this study is being requested is unknown.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	2

Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	<p>Patient has not been running any fever. She reported crushing like chest pain that has been happening every night at 10:00 p.m. And lasts for half- hour, accompanied with sweating, and then disappears with no positional relationship? The patient reporte; This study is being ordered for Inflammatory/ Infectious Disease.; Suspect underlying viral illness as the cause of her lymphocytosis, skin rash and elevated LFTs. &#x0D;</p> <p>We will check serology for CMV, Epstein Barr, and varicella zoster virus.&#x0D;</p> <p>Check peripheral blood flow cytometry.&#x0D;</p> <p>Check mono spot test.&#x0D;</p> <p>Check CT of ches; There has been treatment or conservative therapy.; Patient has not been running any fever. She reported crushing like chest pain that has been happening every night at 10:00 p.m. And lasts for half- hour, accompanied with sweating, and then disappears with no positional relationship? The patient reporte; She returned to her PCPs office on 5/11/18 due to lack of response to Prednisone and Atarax and has lab redone and was as follows: WBC 5.0, HGB 13.9, HCT 41.8, platelet count 58, Neutrophils 21.1, Lymphocytes 67.1. ANC 1.1; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	<p>smoking over 40 years, COPD; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; It is unknown if the patient has a 30 pack per year history of smoking.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT</p>	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	<p>Unexplained weight loss describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT</p>	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	<p>unknown; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT</p>	1
Internal Medicine	Disapproval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	<p>; This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for Known Vascular Disease.; This is a Follow-up to a previous angiogram or MR angiogram.; There are no new signs or symptoms indicative of a dissecting aortic aneurysm.; It is not known whether there are signs or symptoms indicative of a progressive vascular stenosis.; Yes, this is a request for a Chest CT Angiography.</p>	1
Internal Medicine	Disapproval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)	Radiology Services Denied Not Medically Necessary	<p>FOLLOWUP/RESTAGING; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Internal Medicine	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	<p>She also states that she is still having neck and back pain, as well as numbness in her L arm all the way down to her fingers. &#x0D;</p> <p>right foot pain hurts to walk &#x0D;</p> <p>Neck pain Hurts to move her neck much &#x0D;</p> <p>Lots of pain in her shoulders And tension in her nec; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.</p>	1

Internal Medicine	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Had 2 weeks of PT and could not continue per pain	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; The patient has history of spinal injection. Patient has hx of neck pain for the past 2 years and continue to worsen. C/o burning pain when turning neck.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; unknown	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Unknown; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		unknown; This study is being ordered for a neurological disorder.; 4/20/2018; There has been treatment or conservative therapy.; drop foot, lower extremity weakness, only using a walker or wheel chair; home health physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2/27/2018; There has been treatment or conservative therapy.; Pain shoots down left arm and left leg. Walking makes pain worse.; Therapy. OTC pain relievers; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2/28/18; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; Injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 1/24/2017; There has been treatment or conservative therapy.; right leg and knee pain. shooting pain down arm; medication and physical threapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		; This study is being ordered for a neurological disorder.; 5/24/2017; There has been treatment or conservative therapy.; Myelopathy, low back pain, left leg pain, rectal pain, bowel and bladder incontinence; physical therapy, muscle relaxers, nsaid, history of surgery to the lumbar spine; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		; This study is being ordered for trauma or injury.; 2001; There has been treatment or conservative therapy.; pain with range of motion and hypoesthesia in C5,C6,C7,C8, T1 and T2 distribution. Pain in left arm and numbness. Nausea and vomiting due to pain and immobility.; Chiropractor visits for the past 17 years; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		; This study is being ordered for trauma or injury.; 4/4/2018; There has been treatment or conservative therapy.; Back pain; xrays, pain medications, muscle relaxers; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Abnormal xray, thoracic spine, bone destruction; This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; Positive for back pain and joint swelling.   Musculoskeletal: He exhibits tenderness.  Thoracic back: He exhibits decreased range of motion, tenderness, pain and spasm. He exhibits no bony tenderness.   ABNORMAL X-RAY OF T-SPINE; There is recent evidence of a thoracic spine fracture.	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	BACK PAIN; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	determine if there spinal abn due to sx; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has been treatment or conservative therapy.; abn gait; chronic pain in hip/lumbar region; leg weakness; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	It is not known if the patient has any neurological deficits.; This is a request for a thoracic spine MRI; The study is being ordered due to trauma or acute injury within 72 hours.; : Pain, weakness, tingling, irregular gait	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	mid back pain , medication ls not helping , shooting back pain and tingling; This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	numbness on left side.; This study is being ordered for a neurological disorder.; 04/10/2018; There has been treatment or conservative therapy.; pain....headaches...vision disturbances....nausea...unsteady gate....vertigo.; medication..; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Presents with Ongoing back issues for 9 yrs after pregnancy . Worsened after 3rd child 4 yrs ago .Has significant scoliosis ,Prior MRI in 2015 done , Has multiple P. T sessions , last one 4 months ago with pool therapy done ,Pain worse over the last 6 mon; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Pt has tried ESDI's x 3 & 6 weeks of PT with no improvement. She is actually getting worse with pain in BL hips. The pain is severely affecting all ADL's at this point.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of recent fracture on previous imaging studies.	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; Unknown.; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to trauma or acute injury within 72 hours.; <Enter Additional Clinical Information>; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does not have any neurological deficits.; The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for a thoracic spine MRI.; The patient has had 3 or fewer thoracic spine MRIs.; There has not been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does not have any neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to trauma or acute injury within 72 hours.; abnormal xray	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; There is evidence of tumor or metastasis on a bone scan or x-ray.; The study is being ordered due to suspected tumor with or without metastasis.	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is work up to see a specialist.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 08/22/2014; There has not been any treatment or conservative therapy.; Low back pain, X-Ray shows curve in thoracic and low back spine.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		Unknown; This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1

General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		UNKNOWN; This study is being ordered for a neurological disorder.; CERVICAL- 09/27/2016, THORACIC- 11/10/2017; There has been treatment or conservative therapy.; TWISTED NECK, RADIATING PAIN FROM NECK INTO THE BACK, RIGHT SIDED PAIN, HISTORY OF STENOSIS ON CERVICAL; PHYSICAL THERAPY, STERIODS, PAIN MEDICATIONS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	chronic back pain even after surgery; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 09/2016; There has been treatment or conservative therapy.; unknown; pain medicine's over the counter and prescription. he also is to see neurosurgery and pain management in the near future; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; DEC 2017; There has not been any treatment or conservative therapy.; SHOULDER NECK AND BACK PAIN; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	<unknown; This is a request for cervical spine MRI; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; patient has numbness and tingling from right to the right hand; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Michelle is a 49 yo F with hx of B12 deficiency, fibromyalgia, cervical disc herniation, and Lupus who presents to clinic for establishment of PCP/Second opinion. She reports that in April 2017 she was at work and started to feel bad; she worked at a doct; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		Unknown; This study is being ordered for trauma or injury.; 6/4/2018; There has been treatment or conservative therapy.; Severe Pain, numbness and tingling going down both legs, hard to walk and move around.; Physical therapy, pain medication, muscle relaxers; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		UNKNOWN; This study is being ordered for trauma or injury.; APPX 03/15/2018; There has been treatment or conservative therapy.; BACK PAIN, MYALGIAS, ICE, MEDICATIONS, SITTING IN JACUZZI, NSAIDS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; radiculopathy l/lower extremity; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; weakness in the legs; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; It is not known if the patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; patient fell and is complaining of neck pain	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; <Enter Additional Clinical Information>	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; PARATHESIA IN BILATERAL HANDS	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	There are no documented clinical findings of immune system suppression.; This is a request for a thoracic spine MRI.; The patient is not experiencing back pain associated with abdominal pain.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis, Follow up to or Pre-operative evaluation, or Neurological deficits."; Has failed , heat, cold, chiropractor care, work only paid for one PT visit. he has done xrays done at an urgent care facility describes that an approximately 500 pound piece of equipment was dropped on his right shoulder in jan at work	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	There are no documented clinical findings of immune system suppression.; This is a request for a thoracic spine MRI.; The patient is not experiencing back pain associated with abdominal pain.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis, Follow up to or Pre-operative evaluation, or Neurological deficits."; patient complains of mid back pain and a creaking sound when she moves.	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Looking for herniated disc; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2/27/18; There has not been any treatment or conservative therapy.; Back and neck pain, pain that radiates down legs.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is not experiencing sensory abnormalities such as numbness or tingling.; <Enter Additional Clinical Information>; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/15/18; There has been treatment or conservative therapy.; pain; medicine; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Worsening plaque like lesions in central nervous system noted - impression from September 2017 MRI Brain notes continued progression of advanced multifocal white matter and new areas of enhancement - onset of vision changes/pain due to MS exacerbation - n; This study is being ordered for a neurological disorder.; 3/18/18; There has been treatment or conservative therapy.; dizziness - blurred vision - pain - photophobia; solu-medrol given for MS flare; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		<p>. She c/o back pain x 2 months. No known injury. She does remember tweak her back doing a particular exercise. Hx of back surgery 3 years ago. Location of pain is in the same area, bilateral lower lumbar region. Has some radiation down her right leg at ti; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above</p>	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		<p>; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.</p>	3
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		<p>; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.</p>	2
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		<p>; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Document exam findingr paresthesia (left lower extremity)Positive for back pain (chronic) and limb pain (left leg pain); The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.</p>	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	<p>&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The study requested is a Lumbar Spine MRI.; None of the above; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.</p>	1

Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; gait: slowed; range of motion: decreased ROM with back flexion, extension, and lateral flexion; pain with back flexion, extension, and lateral flexion; lumbar is not tender to palpation. surgical scar is noted at lumbar spine; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormality in Lumbar sacral xray.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/09/2017; There has been treatment or conservative therapy.; Unable to move around due to left hip, pain in low back and left lower extremity.; pain medications, muscles relaxers, and rest; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	BACK W/R HIP AND THIGH PAIN;NO WEAKNESS OR NUMBNESS. EVALUATION FOR HERNIATED DISC OR OTHER CAUSES OF PAIN. PAIN STARTED 5/10/2018 RIGHT SIDED BACK PAIN RADICULOPATHY PAIN MEDS GIVEN 5/15/2018-TYLENOL-CODEINE; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	initial staging; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Low back pain with left sciatica. NSAIDs for this also. With abnormal XRay I do think we need MRI to assess if she needs injection therapy.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Patient has numbness/tingling down into ulnar side of left hand. It is constant, but worse with recurrent activity. She also has numbness lateral left side of her left leg from knee down. This will be after she has to stand or walk for long periods of tim; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has been treated with pain medications and physical therapy. She is a new patient to us.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1

Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	pt has had Physical therapy and medications with no relief; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/15/2016; There has been treatment or conservative therapy.; pt has back and hip pain with swelling. She has leg numbness and weakness; she has been taking steroids and Celebrex with no relief; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	R/O bulging disc or fracture; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 03/19/2018; There has been treatment or conservative therapy.; back pain; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/15/18; There has been treatment or conservative therapy.; pain; medicine; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Weakness and radiculopathy down both legs. Falling d/t weakness. Degenerative disease of lumbar spine.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	WILL JUST UPLOAD NOTES; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	xrays were done in clinic. no report yet; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; DTRs decreased RLE at knee and ankle  positive straight leg raise on right; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	2
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1

General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; It is not known was medications were used in treatment.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; didn't help 4 weeks	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; Worsened, no signs of getting better.; Pain Medicine	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/24/2018; There has been treatment or conservative therapy.; Low back pain radiating to buttocks and lateral thighs. Cervical spine pain radiates into upper extremities.; Medications (Gabapentin/Baclofen) 04/24/2018 Physical Therapy 04/24; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	None; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 09/2017; There has been treatment or conservative therapy.; Pt known osteoporosis; Injections , pain management; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	FOLLOWUP/RESTAGING; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	Initial Staging; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; Mobic Skelixin Inhaler Albuterol; The patient received medication other than joint injections(s) or oral analgesics.	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	patient has had increase in pain over last week with muscle tenderness and swelling; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; < Enter answer here - or Type In Unknown If No Info Given. >;	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; has back should right Malaga.worsening pain in the past few months . shoulder impeachment	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; There are no documented findings of crepitus.; There are no documented findings of swelling.; The ordering physician is not an orthopedist.; ; It is not known if the patient is experiencing joint locking or instability.; It is not known if the patient has a documented limited range of motion on physical examination.; It is not known if there is documented findings of severe pain on motion.	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; < Enter answer here - or Type In Unknown If No Info Given. >;	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has not had recent plain films of the shoulder.; decreased strength in right shoulder; pain along medial aspect of knee..	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has not been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1

Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has not been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2008; There has been treatment or conservative therapy.; Knee Pain, radiculopathy; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Patient with left sided numbness/weakness left side, with pain in left ankle since accident. Pain in the upper and lower abdomen. ER xrays/CT showed normal after the MVA, but patient still with symptoms; This study is being ordered for trauma or injury.; 3/22/2018 was the date of the MVA - symptoms appeared after that; There has been treatment or conservative therapy.; Patient reports pain and numbness in left ankle, along with pain in the upper and lower abdomen.He reported having a stroke at age 18 with left sided numbness, but this had totally resolved - since the MVA, the numbness has returned.; xrays and CT's done in ER were negative, but patient still with symptoms - pain medications have been prescribed; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; This study is not being ordered by an operating surgeon for pre-operative planning.	1

Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	TRIPLE STUDY MEANS AUTOMATIC REVIEW, WILL JUST UPLOAD NOTES; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; TRIPLE STUDY MEANS AUTOMATIC REVIEW, WILL JUST UPLOAD NOTES; It is not known if there has been any treatment or conservative therapy.; TRIPLE STUDY MEANS AUTOMATIC REVIEW, WILL JUST UPLOAD NOTES; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormality in Lumbar sacral xray.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/09/2017; There has been treatment or conservative therapy.; Unable to move around due to left hip, pain in low back and left lower extremity.; pain medications, muscles relaxers, and rest; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	pt has had Physical therapy and medications with no relief; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/15/2016; There has been treatment or conservative therapy.; pt has back and hip pain with swelling. She has leg numbness and weakness; she has been taking steroids and Celebrex with no relief; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	TRIPLE STUDY MEANS AUTOMATIC REVIEW, WILL JUST UPLOAD NOTES; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; TRIPLE STUDY MEANS AUTOMATIC REVIEW, WILL JUST UPLOAD NOTES; It is not known if there has been any treatment or conservative therapy.; TRIPLE STUDY MEANS AUTOMATIC REVIEW, WILL JUST UPLOAD NOTES; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; It is unknown if there are abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; This study is being ordered for another reason besides Crohn's disease, Abscess, Ulcerative Colitis, Acute Non-ulcerative Colitis, Diverticulitis, or Inflammatory bowel disease.; There are no findings that confirm hepatitis C.; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	ABD PAIN; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Elevated liver enzymes; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	follow-up for on a mass seen on lung screen ct; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	none; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the hematuria is not known.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for bilirubin.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	pain in her left lower quadrant.It kind of radiates into the left flank a bit but not all the way around in the back. Remarkable for left lower quadrant tenderness, pretty sharp tenderness. There is even some suggestion of rebound tenderness to the left ; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	<p>Patient has not been running any fever. She reported crushing like chest pain that has been happening every night at 10:00 p.m. And lasts for half- hour, accompanied with sweating, and then disappears with no positional relationship? The patient reporte; This study is being ordered for Inflammatory/ Infectious Disease.; Suspect underlying viral illness as the cause of her lymphocytosis, skin rash and elevated LFTs. &#x0D;</p> <p>We will check serology for CMV, Epstein Barr, and varicella zoster virus.&#x0D;</p> <p>Check peripheral blood flow cytometry.&#x0D;</p> <p>Check mono spot test.&#x0D;</p> <p>Check CT of ches; There has been treatment or conservative therapy.; Patient has not been running any fever. She reported crushing like chest pain that has been happening every night at 10:00 p.m. And lasts for half- hour, accompanied with sweating, and then disappears with no positional relationship? The patient reporte; She returned to her PCPs office on 5/11/18 due to lack of response to Prednisone and Atarax and has lab redone and was as follows: WBC 5.0, HGB 13.9, HCT 41.8, platelet count 58, Neutrophils 21.1, Lymphocytes 67.1. ANC 1.1; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	<p>patient reports having LLQ abdominal pain along with fresh blood in the stool twice in the last two days. patient is not constipated; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT</p>	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	<p>Patient with left sided numbness/weakness left side, with pain in left ankle since accident. Pain in the upper and lower abdomen. ER xrays/CT showed normal after the MVA, but patient still with symptoms; This study is being ordered for trauma or injury.; 3/22/2018 was the date of the MVA - syptoms appeared after that; There has been treatment or conservative therapy.; Patient reports pain and numbness in left ankle, along with pain in the upper and lower abdomen.He reported having a stroke at age 18 with left sided numbness, but this had totally resolved - since the MVA, the numbness has returned.; xrays and CT's done in ER were negative, but patient still with symptoms - pain medications have been prescribed; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	<p>She said that she is having a lot of stomach issues pain and nausea.Pain is sharp to dull aching. Intermittent.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT</p>	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	<p>This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than billirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT</p>	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	<p>This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT</p>	1

Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	4
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is organ enlargement.; There is not ultrasound or plain film evidence of an abdominal organ enlargement.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	11
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	7
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	6
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed gall stones.; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has not had an abdominal ultrasound, CT, or MR study."; PT HAS HISTORY OF HISTOPLASMOSIS, HAS HAD TO HAVE PARTIAL LUNG REMOVED FOR THIS PROBLEM. WE ARE TRYING TO R/O HISTOPLASMOSIS AND OTHER POSSIBLE PROBLEMS	1
Internal Medicine	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; < Enter answer here - or Type In Unknown If No Info Given. >;	1
Internal Medicine	Disapproval	75571 Computed tomography, heart, without contrast material, with quantitative evaluation of coronary calcium	Radiology Services Denied Not Medically Necessary	Patient has uncontrolled hyperlipidemia.; This is a request for a CT scan for evaluation of coronary calcification.	1
Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Borderline EKG; This study is being ordered as a pre-operative evaluation.; The patient has not had a recent stress echocardiogram.; The patient has not had a stress echocardiogram within the past eight weeks.; It is not known whether this evaluation is prior to major surgery involving general anesthesia.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Hx of PSVT, palpitation, dyspnea; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1
Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	new patient to establish.complains with pressure in her chest on and off x 2 months, diabetic and a current smoker; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has 3 or more cardiac risk factors; The study is requested for congestive heart failure.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 30 to 39	1
Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	pt has a cardiac murmur on exam and has shortness of breath with exertion; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Recent EKG shows multiple ventricular premature complexes. Recent echo shows left ventricular hypertrophy and diastolic dysfunction. Patient has diabetes, palpitations, hypertension, hyperlipidemia and family history of early onset heart disease.; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Suspicious chest pain with shortness of breathe, rapid heart beats, dyspnea worse with exertion, tobacco use and family history of heart disease.; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; It is not known if the patient has had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Unknown; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; There are no documented clinical findings of hypertension.; The patient is not diabetic.; The patient has not had a recent non-nuclear stress test.; "Patient is not clinically obese, nor has an emphysematous chest configuration."; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; The patient is male.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Disapproval	78813 Positron emission tomography (PET) imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Lung Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Heart Failure; There has NOT been a change in clinical status since the last echocardiogram.; This is NOT for the initial evaluation of heart failure.	1

Internal Medicine	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	pt has transient cerebral ischemia which needs further evaluation to determine if was cardiac related; This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; The reason for ordering this study is unknown.	1
Internal Medicine	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; The reason for ordering this study is unknown.	1
Interventional Radiologists	Approval	70450 Computed tomography, head or brain; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Interventional Radiologists	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Interventional Radiologists	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Optic nerve compression could be suggestive of an aneurysm.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/11/2018; There has been treatment or conservative therapy.; headaches; Elavil 25 mg, Fioricet 50-325-40 mg, gabapentin 100mg; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Interventional Radiologists	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	1
Interventional Radiologists	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered as a pre-op or post op evaluation.; The requested study is for pre-operative evaluation.; The study is requested by a surgeon, specialist or PCP on behalf of a specialist who has seen the patient.; Yes this is a request for a Diagnostic CT	1
Interventional Radiologists	Disapproval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Optic nerve compression could be suggestive of an aneurysm.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/11/2018; There has been treatment or conservative therapy.; headaches; Elavil 25 mg, Fioricet 50-325-40 mg, gabapentin 100mg; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Interventional Radiologists	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Nephrology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset AND the patient failed a course of antibiotic treatment; Yes this is a request for a Diagnostic CT	1
Nephrology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		will fax clinical; This study is being ordered for a neurological disorder.; unknown; There has not been any treatment or conservative therapy.; will fax clinical; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Nephrology	Approval	72192 Computed tomography, pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered due to organ enlargement.; There is ultrasound or plain film evidence of a pelvic organ enlargement.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Nephrology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Nephrology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Nephrology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Nephrology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for organ enlargement.; There is an ultrasound or plain film evidence of an abdominal organ enlargement.; < Enter answer here - or Type In Unknown If No Info Given. >;	1
Nephrology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; < Enter answer here - or Type In Unknown If No Info Given. >;	2

Nephrology	Approval	74185 Magnetic resonance angiography, abdomen, with or without contrast material(s)		This is a request for a MR Angiogram of the abdomen.	1
Nephrology	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Transplant work up; This study is being ordered as a pre-operative evaluation.; The patient has not had a recent stress echocardiogram.; The patient has not had a stress echocardiogram within the past eight weeks.; This evaluation is not prior to major surgery involving general anesthesia.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or aneurysm.; This study is being ordered for a previous stroke or aneurysm.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		49 year old female presents with long standing right neck pain and extremity numbness. Had recent MRI brain which showed 2 cm left midline subfrontal region T1 hyper, T2 - iso - intense lesion without surrounding edema. Mild rim enhancement. Differential; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		HEAD TRAUMA, S/P FALL 4/10/18, NOW COMPLAINING OF HEADACHE; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, one sided arm or leg weakness, the inability to speak, or vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		Patient had a ventricular shunt placement and is coming in for her post operative appointment.; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		Pt coming for follow-up after recent hospitalization for over drainage of shunt for hydrocephalus and chronic subdural hematoma; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has a congenital abnormality.; The patient has undergone treatment for a congenital abnormality (such as hydrocephalus or craniosynostosis).; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1

Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material	Pt with history of shunted obstructive hydrocephalus and subdural hematoma coming for evaluation of hematoma; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; Evaluation of known or suspected brain bleeding (hemorrhage, hematoma, subdural) best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	2
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; It is unknown if the patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
Neurological Surgery	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/21/2018; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	This is a request for an Orbit MRI.; There is a history of orbit or face trauma or injury.	2
Neurological Surgery	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; ; There has not been any treatment or conservative therapy.; memory loss; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	6.3 mm chiari malformation present on previous MRI further diagnostic studies required for further diagnosing.; This study is being ordered for a neurological disorder.; 1 year; There has been treatment or conservative therapy.; Headaches, bilateral hand numbness, decreased coordination, vision changes; Medications, relaxation; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		2/4 left compared to 4/4 on right for quadricep extension and flexion.; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Left quadricep weakness and loss of left ankle reflex and patient with known L4-5 herniated disc. She is seeing pain management for right-sided symptoms but pain on left is new.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		abnormal CT; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Accidental fall landed on her feet pain started after that .; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Acute Low Back Pain, Muscle Spasms Lower Back with pain and numbness radiating down the right buttocks with electrical shock; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Acute Low Back Pain, Muscle Spasms Lower Back with pain and numbness radiating down the right buttocks with electrical shock pain and leg giving out on him, Document exam findings; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		ADDITIONAL AND MORE EXTENSIVE IMAGING IS NEEDED TO PROPERLY TREAT PATIENT.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3 YEARS PRIOR; There has been treatment or conservative therapy.; PAIN, LIMITED MOBILITY, LIMITED RANGE OF MOTION, DECREASED QUALITY OF LIFE; MEDICATION AND PHYSICAL THERAPY; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		BACK PAIN; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Compression fractures L1 & L2, radiculopathy. Neurologist wants updated MRI; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		ddd l spine; back pain; left arm and leg numb; started after standing up out of a chair; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ddd l spine; back pain; left arm and leg numb; started after standing up out of a chair; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Neurological Surgery	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is an immediate family history of aneurysm.; This is a request for a Brain MRA.	2
Neurological Surgery	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Neurological Surgery	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient has a known aneurysm.; This is a request for a Brain MRA.	2
Neurological Surgery	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; "There is a sudden onset of one-sided weakness, speech impairment, vision defects or severe dizziness."; This is a request for a Neck MR Angiography.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material			1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested due to trauma or injury.; There are not new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; The trauma or injury to the head occurred more than 1 week ago.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	3

General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Exam: tenderness noted over right sacral region, negative straight-leg raise bilaterally , normal reflexes and strength bilateral lower extremities; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		failed conservative treatment; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Location: lumbar  Quality: sharp Severity: moderate (5-7) Duration: started: (worsened about 2 months ago); chronic  Context: prior back problems  Aggravating Factors: movement/positioning  Associated Symptoms: no fever; no tingling; no incontinence; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		family history includes Arthritis-osteo in her father. has a past medical history of Headache; History of mononucleosis (2002); Hyperlipidemia; Inflammatory arthritis; and Polycystic ovary syndrome. She has the following chronic problems: 1. Lumbar radi; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		here for continued sciatic pain down left leg can't move or get up, meds not helping.  here to f/u on her left side low back pain. pt states it has not improved. pt c/o decrease ROM. pt is unable to lay on left side, has difficulty getting up and down. ; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		herniated disc; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; b-lateral leg weakness;; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Left lower back pain X 1 week now unable to walk in wheel chair, lifted her 4 year old and experienced a sudden sharp lancinating pain in low back, the 10 days ago was jumping on trampoline and now pain is severe cannot walk, Tender to palpation left low; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		NO; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Chronic neck and back pain for over 1 year. Pt has been taking hydrocodone and seeing a chiropractor for months without relief; There has been treatment or conservative therapy.; Neck and back pain radiating into bilateral hips; Hydrocodone and chiropractor care; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; CHIARITYPE 1 MALFORMATION AND SMALL SYRINX; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		1. Chiari malformation - 8 years s/p SOD for chiari malformation. Sudden onset weakness and numbness to left leg 4 days ago, which started when she walked into dance class. Physical exam demonstrated resolution of weakness at this time. She does experienc; This study is being ordered for Congenital Anomaly.; December 2010.; There has been treatment or conservative therapy.; Emily is here to discuss recent change in symptoms. 8 years s/p SOD for chiari malformation. She reports sudden onset weakness and numbness to left leg 4 days ago, which started when she walked into dance class. She was unable to "pick up left leg" and fe; Chiari sx - Dec 2010; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		45 year old female with history of headaches for years that are suboccipital and exacerbated by Valsalva. Reports blurry double vision at times as well as rumbling in ears, word finding difficulty, swallowing difficulties, neck pain, decreased ROM of neck; This study is being ordered for Congenital Anomaly.; Patient reports years of headaches.; There has been treatment or conservative therapy.; Frequency Constantly  Severity: Average pain level over the last week 6/10  Location: Neck  Quality: Shooting  Timing: Cannot identify  Context/Mechanism: Cannot identify  Aggravating Factors: sitting; coughing/sneezing; looking up; looking down; ne; Medications listed in clinicals.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		49 year old female presents with long standing right neck pain and extremity numbness. Had recent MRI brain which showed 2 cm left midline subfrontal region T1 hyper, T2 - iso - intense lesion without surrounding edema. Mild rim enhancement. Diffierential; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		55 year old female with chronic neck pain, history of migraines, seizure disorder and recent progressive strain related SO headaches as well as visual issues, tinnitus, dysautonomia, dysphagia, stiff joints , ataxia, myelopathy especially on right and MRI ; This study is being ordered for Congenital Anomaly.; Patient states years.; There has been treatment or conservative therapy.; Headaches, neck pain, numbness, seizures, inability to speak and confusion.; Kepra, Mobic, Gabapentin, Robaxin, Paxil. Topamax.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		numbness on left side.; This study is being ordered for a neurological disorder.; 04/10/2018; There has been treatment or conservative therapy.; pain....headaches...vision disturbances....nausea...unsteady gate....vertigo.; medication.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		numbness, tingling, shooting pain.; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Patient has weakness in lower extremities.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		pain and numbness down left leg,  pt has left sciatic neuropathy; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; back pain with left posterior hip pain radiating down left leg; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Pain radiates to right anterior thigh. Minimal exertion causes pain to flare up for three days.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Patient first noticed the severity of the discomfort while lifting a suitcase into the car. The x-ray's were inconclusive about the severity of the damage to his spine. Further work up is warranted to determine the proper course of treatment. Please consi; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Approximately April 23, 2018; There has been treatment or conservative therapy.; Patient has decreased and painful range of motion. He is unable to lay flat for an extended period of time due to the discomfort warranting him to sleep in a recliner. He rates his pain as 10/10. The pain is causing difficulty with walking now.; Patient has completed steroids and two muscle relaxants. He has also completed home exercises recommended by Dr. Beville.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Patient had an Abnormal X-ray , patient may have an L5 Fracture; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Patient has been in pain 6 months. Done PT 8 weeks and failed.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Patient has been off balance and unsteady during ambulation for quite some time. We initially started a workup but he never followed through with the laboratory and follow-up exams. Fractured his patella which is repaired by Dr. cooper. Patient seems t; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Positive for sensory change, focal weakness and weakness. Negative for headaches.Positive for malaise/fatigue. Negative for fever Normal range of motion. He exhibits deformity.  Atrophy of the lateral aspect of the lower leg, hypo-thenar atrophy bilate; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Patient has had prior back trauma in the 1980s. He is having worsening, sharp, cramping, stabbing pain in his low back. He is also having difficulty urinating.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1

General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Patient is showing new neurological deficits along with bilateral weakness of the lower extremities. Decrease in sensation to pin prick. Gait is wide based. Patient needs to be evaluated for myelopathy and multiple sclerosis to explain the above.; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; Sensory is decreased to pin prick from the tibial tuberosity distally; patient has decreased strength in the quads bilaterally and in hamstrings with leg flexion and extension against resistance. absent ankle reflex bilaterally. Gait is wide based. Needs	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		f/u mri done to check for 9 mo for progression cerebral meningioma; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		none; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patient with prior Chiari surgery and righ VP shunt which was at 2.0 presents with recurrent headaches / visual issues exacerbated by being up. Shunt at 0.5 today. replaced to 1.5. Will reeval . in two weeks. Need new staudies, last 2 years ago.Neuro - in; This study is being ordered for Congenital Anomaly.; 10/25/16; There has been treatment or conservative therapy.; Pleasant female with history of Chiari decompression as well as LP and VP shunts who has essentially had recurrent full blown symptomatology including Valsalva and bending forward headaches, tinnitus, visual issues, swallowing issues, palpoitqations , d; Failed Chiari surgery. Will get cine flow and T/L/S to ;look for syrinx/ tethered cord. EDS workup as well as dysautonomia eval. Follow up after to see if there is anything we can do to help; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		post op 04/28/2018 work up for sx to make nothing else is going one; This study is being ordered for trauma or injury.; 10/01/2017; There has been treatment or conservative therapy.; increased back pain and seizures; upper/lower back pain; surgery; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Preoperative planning for tremors; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for Parkinson's disease.; This study is being ordered for new neurological symptoms.; The neurologic symptoms include worsening Parkinson's symptoms.	1

Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		s/p SOD reexploration and occ to C4 fusion. Doing well. Wound well healed. Some episodes of N/V. Shunt was at 0.5. Returned to 1.5 . Will revisit in 6 weeks and possibly go to soft collar. Xrays shows stable postop fusion.; This study is being ordered for Congenital Anomaly.; 10/10/17; There has been treatment or conservative therapy.; 37 year old female had SOD 2015 complicate by CF leak and multiple shunts. Now with recurent worsening issues including valsalva headaches, blurry vision tinnitus, swallowing issues, orrrdination and balance issues as well as episodes od dizziness and nea; Craniectomy, suboccipital; exploration/decompression, cranial nerves - 04/30/2018; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Patient was seen at our emergency department on 17th of June. Her should diagnosis having back pain secondary to an L1 compression fracture secondary to fall. Her fall was from a standing height. No other abnormalities were noted on CT scan of the lumb; This study is being ordered for trauma or injury.; 6/17/2018; There has been treatment or conservative therapy.; L1 compression fracture secondary to fall. excruciating back pain that is worsening. patient can not stand up straight without being in a lot of pain. Pain in her lower back and pelvic regions; over-the-counter Aleve and only up to 600 mg of ibuprofen; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		patient will follow up with provider after MRI is done.; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Generalized weakness on left side, patient has to compensate to the right, due to inability to feel left leg due to numbness and tingling on left side.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Presents with Ongoing back issues for 9 yrs after pregnancy . Worsened after 3rd child 4 yrs ago .Has significant scoliosis ,Prior MRI in 2015 done , Has multiple P. T sessions , last one 4 months ago with pool therapy done ,Pain worse over the last 6 mon; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		pt had infeds; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Pt has completed 4 wks of Physical therapy , but per pcp continue remaining 2 weeks of PT. however she has not shown much improvement and she does not tolerate gabapentin due to side effects. Proceed to MRI lumbar spine w/o contrast; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.;	1

General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Pt has hx of scoliosis and suffers with severe pain.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Pt. had an NCS showed changes consistent w/mild radiculopathy-check how nerves are being affected.; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		T/L and MRI cine. Will f/u after. Chari I , needs completion studies, Monitor vs SOD as he has improved with lifestyle modification (stopped jogging); This study is being ordered for Congenital Anomaly.; Duration: 1 years; There has been treatment or conservative therapy.; 44 year old male with issues for years including SO headaches tinnitus, vision, speech, swallowing issues as well as brain fog/ gait issues, extremity issues. Recent MRI shows Chiari I with crowding. Prior studies back to 2005 show similar Chiari but not ; Alleviating Factors: heat; rest  Associated Symptoms: weakness Previous Spine Physical Therapy: did not help; jan 2017; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This is a 40 F that p/w 6 months of RLE pain and 2 months of leg numbness. She has also had 3 weeks of right sided chest and arm numbness. Her vision has progressively been worse this year requiring glasses. She has some hyperreflexia and decreased sensation; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	2
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing dizziness.	3
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; The patient does not have a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection.; The doctor does not note on exam that the patient has delirium or acute altered mental status.; The patient does have a Brain CT showing abscess, brain infection, meningitis or encephalitis.; This is NOT a Medicare member.	1

Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.	2
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		radiating pain down lower extremitys; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; It is not known if there is x-ray evidence of a lumbar recent fracture.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		she has had back surgery on L4-5, S1 and had abnormal exam 1 month ago and did not improve with steroids; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; decreased strength right lower leg with extension but equal with flexion, weak right toe raise compared to left; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		She is requesting pain management. Apparently she has missed several days of work due to the pain and feels like with pain management she would be able to work. She is the only provider for her children. She admits the pain is getting to the point where i; This study is being ordered for a neurological disorder.; 03/30/2018; There has been treatment or conservative therapy.; numbness and tingling down into her her legs and some numbness in her feet, numbness and tingling in left shoulder and into her fingertips. negative x-ray of her back. She has been to PT without improvement; medication and 4 weeks of physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		tenderness to L-spine; The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for None of the above	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; the patient was treated with a facet joint injection.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is x-ray evidence of a recent lumbar fracture.	2
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	21

General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has completed 6 weeks or more of Chiropractic care.	2
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for Neurologic deficits	2
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Pre-Operative Evaluation; No, the last Lumbar spine MRI was not performed within the past two weeks.; Surgery is scheduled within the next 4 weeks.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; The patient has Neurological abnormalities; This procedure is being requested for Trauma or recent injury	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Neurologic deficits	7
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Pre-operative evaluation; The patient has not had a Lumbar Spine MRI performed within the past 2 weeks.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal nerve study involving the lumbar spine	5
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has completed Treatment with a facet joint or epidural injection in the past 6 weeks	12
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; There is evidence of tumor or metastasis on a bone scan or x-ray.; Suspected Tumor with or without Metastasis	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is x-ray evidence of a recent lumbar fracture.	1

General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Went to ER in Texas, however x-rays were not done. Continuous right foot and leg numbness; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Will fax.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Weakness in LLE; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		x-rays done, showing loss of disc height especially in the l5s1.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has been treatment or conservative therapy.; mid and lower back pain; epidural steroid injection - made pt break out on back, physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	72192 Computed tomography, pelvis; without contrast material		; The patient is not undergoing active treatment for cancer.; This study is being ordered for known tumor, cancer, mass, or rule-out metastasis.; "The ordering physician is NOT an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This study is not being ordered for initial staging.; The patient is presenting new signs (e.g. lab findings or imaging) or symptoms.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	72192 Computed tomography, pelvis; without contrast material		; This study is being ordered due to known or suspected infection.; "The ordering physician is a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	72192 Computed tomography, pelvis; without contrast material		; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	72192 Computed tomography, pelvis; without contrast material		Chronic pain after CSX with complication after surgery 3 years ago; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	72192 Computed tomography, pelvis; without contrast material		Complex multiseptated left adnexal mass presumable neoplasm. CT for further evaluation has been recommended per pelvic ultrasound report.; This study is being ordered because of a suspicious mass/ tumor.; "The patient has had a pelvic ultrasound, barium, CT, or MR study."; This is a request for a Pelvis CT.; There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	72192 Computed tomography, pelvis; without contrast material		Fractured Coccyx; This study is being ordered as a follow-up to trauma.; There is NO laboratory or physical evidence of a pelvic bleed.; There are no physical or abnormal blood work consistent with peritonitis or pelvic abscess.; There is physical or radiological evidence of a pelvic fracture.; "The ordering physician is not a gastroenterologist, urologist, gynecologist, or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	72192 Computed tomography, pelvis; without contrast material		MASS OF LEFT OVARY, ABNORMAL PELVIC ULTRASOUND; This study is being ordered because of a suspicious mass/ tumor.; "The patient has had a pelvic ultrasound, barium, CT, or MR study."; This is a request for a Pelvis CT.; There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	72192 Computed tomography, pelvis; without contrast material		Peritectoral abscess on exam needing to know if it is tracked; This study is being ordered due to known or suspected infection.; "The ordering physician is NOT a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; "There are NO active, clinical findings or endoscopic findings of Crohn's disease, ulcerative colitis, or diverticulitis."; "There are no radiographical or ultrasound findings consistent with abnormal fluid collection, pelvic abscess, pelvic inflammation or ascites."; "There are no physical findings or abnormal blood work consistent with peritonitis, pelvic inflammatory disease, or appendicitis."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	72192 Computed tomography, pelvis; without contrast material		pt was treated for UTI Pyelonephritis and on the CT she had in the ER it showed a mass that needed evaluated.; The patient has painful hematuria.; The patient has not had an IVP.; This study is being ordered due to hematuria.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	72192 Computed tomography, pelvis; without contrast material		Unknown; This study is being ordered due to known or suspected infection.; "The ordering physician is NOT a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; "There are physical findings or abnormal blood work consistent with peritonitis, pelvic inflammatory disease, or appendicitis."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	72192 Computed tomography, pelvis; without contrast material		Unknown; This study is being ordered for known tumor, cancer, mass, or rule-out metastasis.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This study is being ordered for initial staging.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	72192 Computed tomography, pelvis; without contrast material		US was unable to give definitive answer for patient ongoing/chronic bilateral inguinal and groin pain.; This study is being ordered due to known or suspected infection.; "The ordering physician is NOT a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; "There are physical findings or abnormal blood work consistent with peritonitis, pelvic inflammatory disease, or appendicitis."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	<p>&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for trauma or injury.; 01/01/2016; There has been treatment or conservative therapy.; Left lumbar area pain</p> <p>Left gluteal pain Left Sacral Iliac pain Activity Change Gait Problems Decreased range of motion; OTC Nsaids, Tylenol Injections in back Oral Steroids Muscle Relaxers</p> <p>PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
General/Family Practice	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	<p>Bladder: The bladder is somewhat poorly visualized due to bowel gas&#x0D; and the patient's body habitus. The bladder is partially distended.&#x0D; Ureteral jets are not appreciated.&#x0D; IMPRESSION:&#x0D;</p> <p>1. The kidneys are normal in size bilaterally.&#x0D;</p> <p>2. A 1.3 x 1.3 x 1.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; END OF MARCH 2018- EARLY APRIL 2018; There has been treatment or conservative therapy.; Abdominal: Soft. Bowel sounds are normal. He exhibits no abdominal bruit and no mass. There is no splenomegaly or hepatomegaly. There is no tenderness. There is no guarding and no CVA tenderness. &#x0D;</p> <p>THIS IS A FOLLOW UP TO PREVIOUS ULTRASOUND RENAL/PLADDER; Exam: US RENAL AND BLADDERReason For Exam: Proteinuria; IMPRESSION:&#x0D;</p> <p>1. The kidneys are normal in size bilaterally.&#x0D;</p> <p>2. A 1.3 x 1.3 x 1.1 cm hypoechoic cyst is appreciated in the medial&#x0D; aspect of the mid to lower pole of the left kidney.&#x0D;</p> <p>3. Retrospectiv; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
General/Family Practice	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	<p>chrons disease; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.</p>	1
General/Family Practice	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	<p>Diagnosis procedure; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; no info given; There has not been any treatment or conservative therapy.; Pain in right hip&#x0D; numbness and tingling down leg&#x0D; worsening; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

General/Family Practice	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		Patient presents with greater than 2 years of left pelvic/groin pain. Has done PT and failed, had US and CT of area which were unremarkable. Patient still has constant left femoral canal area pain.; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
General/Family Practice	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		pelvic pain; PMS hematuria;; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
General/Family Practice	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for evaluation of the pelvis prior to surgery or laparoscopy.	2
General/Family Practice	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for pelvic trauma or injury.	5
General/Family Practice	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of pelvic inflammatory disease or abscess.	4
General/Family Practice	Approval	73200 Computed tomography, upper extremity; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 03/10/2018; There has not been any treatment or conservative therapy.; Neck pain, XRAY shows post surgical changes; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	73200 Computed tomography, upper extremity; without contrast material		This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is a history of upper extremity joint or long bone trauma or injury.; Yes this is a request for a Diagnostic CT	7
General/Family Practice	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Inflammatory/ Infectious Disease.; 03/25/2018; There has been treatment or conservative therapy.; pain and swelling, nausea, vomiting, cellulitis, positive for color change with redness, erythema, with decreased range of motion, tenderness; Antibiotics; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		PATIENT HAS RESTRICTED RANGE OF MOTION, HE HAS WEAKNESS AND TINGLING, HIS PAIN IS PROGRESSIVELY WORSE.SWELLING IN HIS ARM AND HANDS.; This study is being ordered for a neurological disorder.; 2/2018; There has been treatment or conservative therapy.; WEAKNESS, TINGLING OF RIGHT ARM, LOSS OF GRIP IN RIGHT HAND, SWELLING OF RIGHT HAND AND ARM; HEAT, ICE, REST, HOME EXERCISES, PAIN MEDICINE, NSAIDS, BRACING; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is no suspicion of upper extremity bone or soft tissue infection.; The ordering physician is not an orthopedist.; There is a history of upper extremity trauma or injury.	16

General/Family Practice	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is suspicion of upper extremity neoplasm or tumor or metastasis.	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; The requested study is a Shoulder MRI.; The pain is from a recent injury.; It is not know if surgery or arthroscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Inflammatory/ Infectious Disease.; 03/25/2018; There has been treatment or conservative therapy.; pain and swelling, nausea, vomiting, cellulitis, positive for color change with redness, erythema, with decreased range of motion, tenderness; Antibiotics; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	77
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is a pituitary tumor or pituitary adenoma.; There are not physical findings or laboratory values indicating abnormal pituitary hormone levels.; There has been a previous Brain MRI completed.; The brain MRI was abnormal.; This is NOT a Medicare member.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.	17
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; It is not known if a biopsy has been completed to determine tumor tissue type.; There are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for a tumor.	15

Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has not been any treatment or conservative therapy.; headache slurred vision and speech rgt arm pain weakness unexplained weight gain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; unknown; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 05/01/2018; There has been treatment or conservative therapy.; elbow and shoulder pain, decreased mobility, localized swelling, generalized weakness, aggravated by movement; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		LROM; failed meds; The requested study is a Shoulder MRI.; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		Musculoskeletal: Positive for joint swelling and neck pain. Negative for back pain.  Left shoulder: She exhibits crepitus, pain, spasm and decreased strength. She exhibits normal range of motion, no tenderness, no bony tenderness, no swelling, no eff; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1

General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		none; The requested study is a Shoulder MRI.; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		Patient fell off a porch and struck shoulder on concrete. Went to ER, xray was normal. Still having increased pain and is worse with movement.; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; It is not known if there is a suspicion of fracture not adequately determined by x-ray.; The request is for shoulder pain.; It is not known if there is a suspicion of tendon, ligament, rotator cuff injury, or labral tear.	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		patient had positive drop arm test, positive pour can test. unable to lift arm above 10 degrees - unable to do exercises.; The requested study is a Shoulder MRI.; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		PATIENT HAS RESTRICTED RANGE OF MOTION, HE HAS WEAKNESS AND TINGLING, HIS PAIN IS PROGRESSIVELY WORSE. SWELLING IN HIS ARM AND HANDS.; This study is being ordered for a neurological disorder.; 2/2018; There has been treatment or conservative therapy.; WEAKNESS, TINGLING OF RIGHT ARM, LOSS OF GRIP IN RIGHT HAND, SWELLING OF RIGHT HAND AND ARM; HEAT, ICE, REST, HOME EXERCISES, PAIN MEDICINE, NSAIDS, BRACING; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		; This study is being ordered for a neurological disorder.; Surgery was on 06/07/2018; There has been treatment or conservative therapy.; Radiculopathy and weakness; Surgery and PT before surgery.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		CT of his cervical spine preoperatively to be sure he is fused at the 5-6 level. If so, then I would like to just do Zero-P at all 3 levels. Otherwise, we might have to take the other one out in which case it is probably just as good to go on and do a p; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to pre-operative evaluation.; There is no known condition of tumor, infection, or neurological deficits.; There is a reason why the patient cannot have a Cervical Spine MRI.	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		HAS HAD RECENT MRI ON 3/5/18.  THIS IS FOR EVAL OF THE HARDWARE, SHE HAD PREVIOUS SPINAL SURGERIES DONE.  SHE HAD A VISIT ON 3/28/18. I DO NOT HAVE THAT VISIT OUT OF DICTATION YET.   PAIN IN NECK BACK AND SHOULDERS, DOWN ARMS AND HANDS TO FINGERS, HAS N; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1

Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		It is not known if there are documented findings of immune system suppression.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; None of the options listed is the reason for the study.; There is a reason why the patient cannot have a Cervical Spine MRI.; The patient is experiencing cervical neck pain not improving despite treatment.	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		Mr. Hickman is a 48 yo gentleman who presents today with complaints of left arm and shoulder pain. He reports he has "2 herniated disks, bulging into my nerve canal causing pain with numbness in my left arm." This pain has been present for approximately; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		The patient does not have any neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to chronic neck pain or suspected degenerative disease.; There has been a supervised trial of conservative management for at least 6 weeks.; There is a reason why the patient cannot have a Cervical Spine MRI.	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		The patients x-rays were reviewed. She does have degenerative findings throughout her cervical and lumbar spine.back pain that radiates to the bilateral hips. The right is worse than the left. Occasionally her pain will go into her right buttock and down ; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		Seen in ER, tendonitis, pain, swelling and limited ROM disturbs sleep; The pain is described as chronic; The member has not failed a 4 week course of conservative management in the past 3 months.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation.";	2
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; < Enter answer here - or Type In Unknown If No Info Given. >	5
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Acute Shoulder pain post MVA History / Dx:Worsening left shoulder pain after MVA on 3/9/2018. He does have Mild degenerative changes on xray but unable to visualize the rotator cuff,Mild degenerative changes on xray	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; impingement syndrome of rt. shoulder and pain in rt. shoulder,	1

General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Mrs. Larry presents back with L shoulder pain that seems to have progressed over the last 6-8 months. The pain is generally located throughout the shoulder. Patient describes pain and reduced ROM. She gives a hx of shoulder surgery to that same shoulder x	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Persistent left shoulder pain despite mgmt with NSAIDs, prednisone and home exercises. Now with decreased ROM and decreased strength. Significant tenderness, anterior palpation.	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; previous injury to the right shoulder 1 month ago for which she went to the walk-in clinic presents today with worsening pain in the right shoulder. Over the weekend he was swimming at the lake and tried to get into a boat from the water when he heard a	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to follow-up surgery or fracture within the last 6 months.; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist."; There is a reason why the patient cannot have a Cervical Spine MRI.	5
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to known or suspected multiple sclerosis (MS) infection or abscess.; There is a reason why the patient cannot have a Cervical Spine MRI.; Osteomyelitis	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to pre-operative evaluation.; The patient is experiencing or presenting symptoms of lower extremity motor weakness documented on physical exam.; There is a known condition of neurological deficits.; There is a reason why the patient cannot have a Cervical Spine MRI.	2
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		This study is to be part of a Myelogram.; This is a request for a Cervical Spine CT	13
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		To evaluate fusion/failed fusion.; This study is being ordered for a neurological disorder.; 2016; There has been treatment or conservative therapy.; Neck pain, arm pain/numbness; Physical therapy, NSAIDs, medication for 3 months; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine CT.; The study is being ordered due to chronic back pain or suspected degenerative disease.; There is a reason why the patient cannot undergo a thoracic spine MRI.; The patient is experiencing or presenting abnormal gait.; Yes this is a request for a Diagnostic CT	1

Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		This is a request for a thoracic spine CT.; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist."; The study is being ordered due to follow-up to surgery or fracture within the last 6 months.; There is a reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	3
Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		xrays show progressive kyphosis. Obtained as ESR, CRP and CBC for further evaluation.; This study is being ordered for Inflammatory/ Infectious Disease.; 2/5/2018; There has been treatment or conservative therapy.; low back pain and bilateral flank pain, left worse then right. Worsening pain.; physical therapy, IV antibiotics, surgery; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material		; This study is being ordered for a neurological disorder.; February 2018; There has been treatment or conservative therapy.; bil leg spasms; pain medication, referral for surgical weightloss; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material		Melinda presents today with new imaging with complaints of 10/10 head and low back pain. She was last seen in our clinic by Laura Flowers approximately a year ago. The visit note is as follows:  Melinda is a 53 y.o. female who presents the clinic for hos; This study is being ordered for a neurological disorder.; 03/29/2017; There has been treatment or conservative therapy.; Melinda presents today with new imaging with complaints of 10/10 head and low back pain. She was last seen in our clinic by Laura Flowers approximately a year ago. The visit note is as follows:  Melinda is a 53 y.o. female who presents the clinic for hos; bracing, TSLO, flexeril; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material		Post-op evaluation; patient was given antibiotics; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Surgery 03/31/2018; There has been treatment or conservative therapy.; Surgical site painful; still wearing brace; myalgia and back pain; Surgery; PT and OT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material		The patients x-rays were reviewed. She does have degenerative findings throughout her cervical and lumbar spine.back pain that radiates to the bilateral hips. The right is worse than the left. Occasionally her pain will go into her right buttock and down ; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is a preoperative or recent post-operative evaluation.; Yes this is a request for a Diagnostic CT	25
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is to be part of a myelogram or discogram.; Yes this is a request for a Diagnostic CT	8
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	18
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material		unknown; This study is being ordered for a neurological disorder.; 02/2018; There has been treatment or conservative therapy.; low back pain radiating to left leg; surgery, pain management, PT, antibiotics; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material		xrays show progressive kyphosis. Obtained as ESR, CRP and CBC for further evaluation.; This study is being ordered for Inflammatory/ Infectious Disease.; 2/5/2018; There has been treatment or conservative therapy.; low back pain and bilateral flank pain, left worse then right. Worsening pain.; physical therapy, IV antibiotics, surgery; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 3 weeks ago; There has been treatment or conservative therapy.; patient has weakness and pain radiating down to her legs through her feet; Home exercises, also ice bags with heat; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 4/2015; There has been treatment or conservative therapy.; mbr has headache, dizziness; A Shunt and Diamox and medication for pain verapamil and shunt monitoring; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; January 2018; There has been treatment or conservative therapy.; numbness and pain in arms which has transitioned to weakness in her right arm. unbalanced and weakness in legs. Low back and leg pain.; Pt has had pain meds, PT, and also been put in splint for arm; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/30/2018; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; < Describe treatment / conservative therapy here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; She recalls having numbness in her hands when she had her neck surgery (Anterior cervical discectomy and instrumented fusion C4-5, C5-6 and C6-7) on 12/30/15 by Dr. McDaniels.She has tried heat (hot bath) and ice, narcotic pain pills, at home exercises wi; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; right leg weakness; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; SYRINGOMYELIA; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This study is being ordered for trauma or injury.; ; There has been treatment or conservative therapy.; LOW BACK PAIN TENDERNESS AND DECREASED ROM VERTEBRAL BODY PAIN DECREASED PINPRICK AND LIGHT TOUCH, DECREASED OVER LEFT L5 DERMATONE; SHE IS TAKING NORCO ROUTINELY AT 7.5 MG BUT WAS SEEN IN THE ER FOR CURRENT PROBLEM AND GIVEN 10 MG NORCOS AND WAS ADMINISTERED 3 INJECTIONS THAT SHE CAN NOT NAME.  REST, ICE/HEAT, AND MILD STRETCHING; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	55 year old female with chronic neck pain, history of migraines, seizure disorder and recent progressive strain related SO headaches as well as visual issues, tinnitus, dysautonomia, dysphagia, stiff joints , ataxia, myelopathy especially on right and MRI ; This study is being ordered for Congenital Anomaly.; Patient states years.; There has been treatment or conservative therapy.; Headaches, neck pain, numbness, seizures, inability to speak and confusion.; Keppra, Mobic, Gabapentin, Robaxin, Paxil. Topamax.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Chairi I, lumbar DDD, DJD with scoliosis. Plan for baseline cine flow eval , MRI head and will refer for PT for core strengthening/ home exercise program. May benefit from injections at some point if back symptoms worsen. Would not recommend intervention f; This study is being ordered for Congenital Anomaly.; 6/6/17; There has been treatment or conservative therapy.; Duration: 10 years  Frequency Frequently  Severity: Average pain level over the last week 4/10  Location: Low back Both; Mid-back Both  Quality: Dull; Aching; Burning  Timing: Gradual onset  Context/Mechanism: Cannot identify  Aggravating Factors: ; Alleviating Factors: sitting; heat; rest; massage; anti-inflammatory medication; physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Clinicals to be uploaded.; This study is being ordered for Congenital Anomaly.; 2008; There has been treatment or conservative therapy.; Clinicals to be uploaded.; Clinicals to be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	decreased motor skills; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; bilateral arm weakness; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	MRI is needed for surgical planning.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.; deep tendon reflexes are a 1-2 throughout	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Neck/RUE pain with paresthesias right hand  Chronic LBP with radiation down RLE  Saddle paresthesias  Prev SCS with pain at battery site.pain that extends to all 5 digits. Weakness with grip right hand. Difficulty with writing. Occasional hand tremors.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	patient is in wheelchair due to symptoms; This study is being ordered for trauma or injury.; 04/02/2018; There has not been any treatment or conservative therapy.; limited range of motion, pain,.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	REQUESTING APPROVAL FOR A LUMBAR MRI DUE TO INCREASING PAIN AFTER INJECTIONS AND PHYSICAL THERAPY FOR PRESURGICAL REVIEW. REQUESTING APPROVAL FOR A CERVICAL MRI FOR INCREASING PAIN AFTER CERVICAL FUSION.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	S/P SOD and ACDF. Doing OK. Some frontal headaches recently as well as visual issues. MRI head with flow is stable however. Has persistent CRPS so will start Lamictal and get Optho referral for ? papilledema. MRI Spine with next visit for persistent myelo; This study is being ordered for Congenital Anomaly.; 12/23/16; There has been treatment or conservative therapy.; 49 year old female presents to clinic with history of neck pain as well as suboccipital headaches for years (had 4 wheeler wrecks in mid 2000s). Reports headcahes are exacerbatedby Valsalva. She has also had tinnitus, facial numbness and transient weakn; Craniectomy, suboccipital; exploration/decompression, cranial nerves Anterior cervical discectomy, with fusion and plating - 09/25/2017 Anterior cervical discectomy, with fusion and plating - 09/25/2017 Craniectomy, suboccipital; exploration/decompress; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	s/p SOD reexploration and occ to C4 fusion. Doing well. Wound well healed. Some episodes of N/V. Shunt was at 0.5. Returned to 1.5 . Will revisit in 6 weeks and possibly go to soft collar. Xrays shows stable postop fusion.; This study is being ordered for Congenital Anomaly.; 10/10/17; There has been treatment or conservative therapy.; 37 year old female had SOD 2015 complicate by CF leak and multiple shunts. Now with recurent worsening issues including valsalva headaches, blurry vision tinnitus, swallowing issues, orrrdination and balance issues as well as episodes od dizziness and nea; Craniectomy, suboccipital; exploration/decompression, cranial nerves - 04/30/2018; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	5

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical Therapy.	2
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient is presenting new symptoms.; This study is being ordered for follow-up.; This is a request for cervical spine MRI; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; Known Tumor with or without metastasis	3
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.	2
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	4
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	63
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Follow-up to Surgery or Fracture within the last 6 months; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	2
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; Sensory exam of the left side demonstrates C6 sensory impairment and C7 sensory impairment. stable C5 through C7 anterior cervical fusion with degenerative changes noted proximal to hardware. Patient appears to have congenitally small canal on x-rays.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	25

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Yes, this patient had a recent course of supervised physical Therapy.	3
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.;	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Neck pain with radic.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Trauma or recent injury; Yes, the patient have new or changing neurological signs or symptoms.; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This study is being ordered for staging.; This is a request for cervical spine MRI; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; Known Tumor with or without metastasis	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		To evaluate fusion/failed fusion.; This study is being ordered for a neurological disorder.; 2016; There has been treatment or conservative therapy.; Neck pain, arm pain/numbness; Physical therapy, NSAIDS, medication for 3 months; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has not been any treatment or conservative therapy.; headache slurred vision and speech rgt arm pain weakness unexplained weight gain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 8/1/2016; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; physical and medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 02/01/2016; There has been treatment or conservative therapy.; pain up and down spine including neck area, numbness in legs and feet with standing/walking, aching burning stabbing; injections, medications, chiropracter; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	17
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		1. Lumbar radiculopathy - MRI findings reveal moderate LSS at L4-L5. Clinically presents with thoracic myelopathy. Will need a thoracic MRI for further evaluation. Pt may benefit from a series of three ESI's in the right L4-L5 region for right L5 radicu; This is a request for a thoracic spine MRI; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Patient reports lower back pain but reports no joint pain, no muscle pain, no muscle cramps, no neck pain, and no middle back pain. She reports weakness and numbness/tingling.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>45 year old female with history of headaches for years that are suboccipital and exacerbated by Valsalva. Reports blurry double vision at times as well as rumbling in ears, word finding difficulty, swallowing difficulties, neck pain, decreased ROM of neck; This study is being ordered for Congenital Anomaly.; Patient reports years of headaches.; There has been treatment or conservative therapy.; Frequency Constantly &#x0D;</p> <p>Severity: Average pain level over the last week 6/10 &#x0D;</p> <p>Location: Neck &#x0D;</p> <p>Quality: Shooting &#x0D;</p> <p>Timing: Cannot identify &#x0D;</p> <p>Context/Mechanism: Cannot identify &#x0D;</p> <p>Aggravating Factors: sitting; coughing/sneezing; looking up; looking down; ne; Medications listed in clinicals.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>ere for f/u p PT, states she cannot tell any difference with PT. Doesn't think its helping any. In the last month she has lost some sensation on her head, like if she is blow drying her hair she can't tell if its too hot. No specific pattern or spot for t; This is a request for a thoracic spine MRI.; None of the above; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; It is not known if the physician has directed conservative treatment for the past 6 weeks.</p>	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>It is not known if the patient has any neurological deficits.; The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for a thoracic spine MRI.; There has not been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.;</p>	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>patient is in wheelchair due to symptoms; This study is being ordered for trauma or injury.; 04/02/2018; There has not been any treatment or conservative therapy.; limited range of motion, pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>Patient with prior Chiari surgery and righ VP shunt which was at 2.0 presents with recurrent headaches / visual issues exacerbated by being up. Shunt at 0.5 today. replaced to 1.5. Will reeval . in two weeks. Need new staudies, last 2 years ago.Neuro - in; This study is being ordered for Congenital Anomaly.; 10/25/16; There has been treatment or conservative therapy.; Pleasant female with history of Chiari decompression as well as LP and VP shunts who has essentially had recurrent full blown symptomatology including Valsalva and bending forward headaches, tinnitus, visual issues, swallowing issues, palpoitqations , d; Failed Chiari surgery. Will get cine flow and T/L/S to ;look for syrinx/ tethered cord. EDS workup as well as dysautonomia eval. Follow up after to see if there is anything we can do to help; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		Post-OP evaluation; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has been treatment or conservative therapy.; Left side back pain, with numbness, and tingling, Post-Op evaluation; PT, and medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		Pre-surgical evaluation.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		Pt with primary brain tumor and possible leptomeningeal metastasis coming for follow up after chemotherapy; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		S/P SOD and ACDF. Doing OK. Some frontal headaches recently as well as visual issues. MRI head with flow is stable however. Has persistent CRPS so will start Lamictal and get Optho referral for ? papilledema. MRI Spine with nect visit for persistent myelo; This study is being ordered for Congenital Anomaly.; 12/23/16; There has been treatment or conservative therapy.; 49 year old female presents to clinic with history of neck pain as well as suboccipital headaches for years (had 4 wheeler wrecks in mid 2000s). Reports headcahes are exacerbatedby Valsalva. She has also had tinnitus, facial numbness and transwient weakn; Craniectomy, suboccipital; exploration/decompression, cranial nerves Anterior cervical discectomy, with fusion and plating - 09/25/2017 Anterior cervical discectomy, with fusion and plating - 09/25/2017 Craniectomy, suboccipital; exploration/decompress; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		T/L and MRI cine. Will f/u after. Chari I , needs completion studies, Moniter vs SOD as he has improved with lifestyle modification (stopped jogging); This study is being ordered for Congenital Anomaly.; Duration: 1 years; There has been treatment or conservative therapy.; 44 year old male with issues for years including SO headaches tinnitus, vision, speech, swallowing issues as well as brain fog/ gait issues, extremity issues. Recent MRI shows Chiari I with crowding. Prior studies back to 2005 show similar Chiari but not ; Alleviating Factors: heat; rest  Associated Symptoms: weakness Previous Spine Physical Therapy: did not help; jan 2017; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of asymmetric reflexes.	1

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Follow-up to Surgery or Fracture within the last 6 months; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to Neurological deficits.; The patient is experiencing sensory abnormalities such as numbness or tingling.; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; There is laboratory or x-ray evidence of osteomyelitis.; Known or Suspected Infection or abscess	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; This is a request for a thoracic spine MRI.; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; The study is being ordered due to known tumor with or without metastasis.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This study is being ordered for staging.; This is a request for a thoracic spine MRI.; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; The study is being ordered due to known tumor with or without metastasis.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	2

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/20/12; There has been treatment or conservative therapy.; vomiting, nausea, pain; surgery on eye; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 8/1/2016; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; physical and medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	11
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; back pain; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; numbness; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for a neurological disorder.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for trauma or injury.; ; There has been treatment or conservative therapy.; LOW BACK PAIN TENDERNESS AND DECREASED ROM VERTEBRAL BODY PAIN DECREASED PINPRICK AND LIGHT TOUCH, DECREASED OVER LEFT L5 DERMATONE; SHE IS TAKING NORCO ROUTINELY AT 7.5 MG BUT WAS SEEN IN THE ER FOR CURRENT PROBLEM AND GIVEN 10 MG NORCOS AND WAS ADMINISTERED 3 INJECTIONS THAT SHE CAN NOT NAME.  REST, ICE/HEAT, AND MILD STRETCHING; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		45 year old female with history of headaches for years that are suboccipital and exacerbated by Valsalva. Reports blurry double vision at times as well as rumbling in ears, word finding difficulty, swallowing difficulties, neck pain, decreased ROM of neck; This study is being ordered for Congenital Anomaly.; Patient reports years of headaches.; There has been treatment or conservative therapy.; Frequency Constantly  Severity: Average pain level over the last week 6/10  Location: Neck  Quality: Shooting  Timing: Cannot identify  Context/Mechanism: Cannot identify  Aggravating Factors: sitting; coughing/sneezing; looking up; looking down; ne; Medications listed in clinicals.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Along the posteromedial aspect of the right occipital cortex adjacent to the calvarium is an area of decreased attenuation most consistent with an arachnoid cyst. The arachnoid cyst measures 1.7cm&#x0D;</p> <p>AP x 1.5cm transverse.; This study is being ordered for a neurological disorder.; 4/24/18; There has been treatment or conservative therapy.; Bilateral burning, aching, throbbing, and shooting pain in lower back that is radiating to both legs. Weakness, numbness, and tingling in both feet and legs.&#x0D;</p> <p>&#x0D;</p> <p>He is also having severe headaches. It is the worst headache of his life. Patient had a CT Sca; OTC PAIN RELIEVERS AND ANTI-INFLAMMATORY MEDICATIONS. &#x0D;</p> <p>ALSO ORAL STEROIDS AND STEROID INJECTIONS.&#x0D;</p> <p>HOME EXERCISES, ICE, HEAT, AND REST; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Chairi I, lumbar DDD, DJD with scoliosis. Plan for baseline cine flow eval , MRI head and will refer for PT for core strengthening/ home exercise program. May benefit from injections at some point if back symptoms worsen. Would not recommend intervention f; This study is being ordered for Congenital Anomaly.; 6/6/17; There has been treatment or conservative therapy.; Duration: 10 years &#x0D;</p> <p>Frequency Frequently &#x0D;</p> <p>Severity: Average pain level over the last week 4/10 &#x0D;</p> <p>Location: Low back Both; Mid-back Both &#x0D;</p> <p>Quality: Dull; Aching; Burning &#x0D;</p> <p>Timing: Gradual onset &#x0D;</p> <p>Context/Mechanism: Cannot identify &#x0D;</p> <p>Aggravating Factors: ; Alleviating Factors: sitting; heat; rest; massage; anti-inflammatory medication; physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>FOR BETTER EVALUATION DUE TO THE INCREASING PAIN. EVALUATION FOR SURGERY OR INJECTIONS.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 07/01/2017; There has been treatment or conservative therapy.; INCREASING NECK AND LOW BACK PAIN. PATIENT IS HAVING BILATERAL HIP PAIN. SHE IS HAVING INCREASING BILATERAL ARM PAIN THAT HAS JUST STARTED GETTING WORSE.; PATIENT HAS COMPLETED SEVERAL COURSES OF PHSYICAL THERAPY AND HAS HAD INJECTIONS AND IS ON MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Looking at this due to tethered spinal chord. Dr wants to see sagittal and axel T1 sequence images. These were not viewed on prior Lumbar spine MRI.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/2013; There has been treatment or conservative therapy.; Low back pain that radiates to bilat lower extremities with urinary frequency and urge incontinence. Looking at this due to tethered spinal chord.; Medications and HEP; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Low Back with radiculopathy into the bilateral lower extremities.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Medication did not work, had surgery and now back to pain; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Neck/RUE pain with paresthesias right hand  Chronic LBP with radiation down RLE  Saddle paresthesias  Prev SCS with pain at battery site.pain that extends to all 5 digits. Weakness with grip right hand. Difficulty with writing. Occasional hand tremors.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		none; This study is being ordered for Congenital Anomaly.; 6/5/18; There has not been any treatment or conservative therapy.; Unknown symptoms. Pt is 3 months.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Patient was seen with 5-10 years of low back pain radiating to her legs with N/T especially in her feet on 02/23/2018. She had tried PT and medications without relief. We tried to obtain an MRI prior to the appointment on 02/23 for better evaluation. Thi; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did not include exercise, prescription medication and follow-up office visits.	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Post-OP evaluation; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has been treatment or conservative therapy.; Left side back pain, with numbness, and tingling, Post-Op evaluation; PT, and medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Pre-surgical evaluation.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Pt with primary brain tumor and possible leptomeningeal metastasis coming for follow up after chemotherapy; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		See attached clinicals; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; The patient has been doing at home exercises that her PCP has showed her to do. Also she has been taking Ibuprofen and Cymbalta since 09/15/17. The physician is requiring the MRI Lumbar Spine as the patient is scheduled to start lumbar epidural steroid i; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	2
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; the patient was treated with a facet joint injection.	2
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with an Epidural.	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	8
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Pt had a football injury and had surgery and PT. Pt arm came out of socket.	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; unknown	2
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.;	2
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; < Enter answer here - or Type In Unknown If No Info Given. >	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; ABNORMAL PHYSICAL EXAM	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; The patient has a documented limited range of motion on physical examination.; There is no documented findings of severe pain on motion.	2
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; There is documented findings of severe pain on motion.	149
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; < Enter answer here - or Type In Unknown If No Info Given. >	3
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; . Here for follow-up appointment with reports left shoulder pain. Felt immediate pain while lifting weight using weight machine. Does not recall swelling, redness, or bruising. Would flare up and worsen from time to time with certain movements or activit	1

General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; 1. Adjacent segment degenerative disc disease, C4-5, with bilateral foraminal stenosis, with bilateral shoulder and upper arm radiculopathy, worse on the left. 2. Degenerative disc disease, C3-4 and C6-7. 3. Left shoulder pain and stiffness. 4. Sta	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Suspect rotator cuff tear/injury	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has had recent plain films of the shoulder.; The plain films were normal.; It is not known if the patient is experiencing joint locking or instability.; The patient has a documented limited range of motion on physical examination.	2
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has had recent plain films of the shoulder.; The plain films were normal.; The patient is experiencing joint locking or instability.	16
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has had recent plain films of the shoulder.; The plain films were normal.; The patient is NOT experiencing joint locking or instability.; The patient has a documented limited range of motion on physical examination.	5
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has not had recent plain films of the shoulder.; < Enter answer here - or Type In Unknown If No Info Given. >	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has not had recent plain films of the shoulder.; Concerned about AC separation.	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has not had recent plain films of the shoulder.; pop in arm bruised and swelling	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has not had recent plain films of the shoulder.; unable to left arm more then 30 degree	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.; 6wk f/u s/p injection - rck lt shldr - impingement syndrome, AC joint arthrosis Jobe: positive Neer: positive Hawkins: positive MRI left shoulder for impingement syndrome with likely rotator cuff tear	1

General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for suspicious mass/tumor/metastasis.; There are physical findings (palpable mass) of a suspicious mass or known primary site of cancer.; The patient has not had a recent bone scan.; The patient has had recent plain films of the shoulder.; The plain films were normal.; The patient has not had a recent CT of the shoulder.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Follow-up to Surgery or Fracture within the last 6 months; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	5
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for Follow-up to surgery or fracture within the last 6 months; The patient been seen by or the ordering physician is a neuro-specialist, orthopedist, or oncologist.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; None of the above; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Follow-up to surgery or fracture within the last 6 months; The patient been seen by or the ordering physician is a neuro-specialist, orthopedist, or oncologist.	3
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	144
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; There is evidence of tumor or metastasis on a bone scan or x-ray.; Suspected Tumor with or without Metastasis	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Unknown; This study is being ordered for a neurological disorder.; 10/27/2016; There has been treatment or conservative therapy.; Recent fall, neck and back pain, diminished reflexes, poor ROM due to pain, easy bruising, arm and leg weakness, neurological deficits.; Surgery, injections, medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	WONT LET ME TYPE; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; We saw her in the hospital 6/4/18 for subarachnoid hemorrhage that was preopntine with now 2 CTAs that dont show any aneurysm or vascular malformations. I have advised her from the standpoint of that, I am satisfied, however, she is having a tremendous a; There has been treatment or conservative therapy.; WONT LET ME TYPE; ORAL ANALGESIA FOR SUSPECTED SUBARA; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72159 Magnetic resonance angiography, spinal canal and contents, with or without contrast material(s)	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	bilateral hip pain.; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Neurological Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for suspicion of pelvic inflammatory disease or abscess.	1
Neurological Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	2
Neurological Surgery	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	The request is for an upper extremity non-joint MRI.; This is a preoperative or recent postoperative evaluation.	1
Neurological Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; There is documented findings of severe pain on motion.	9
Neurological Surgery	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has a documented limitation of their range of motion.	6

Neurological Surgery	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Neurological Surgery	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Neurological Surgery	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has a documented limitation of their range of motion.	3
Neurological Surgery	Approval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing		This is a request for CT Angiography of the Abdomen and Pelvis.	2
Neurological Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	2
Neurological Surgery	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a chronic headache, longer than one month; Headache best describes the reason that I have requested this test.	2
Neurological Surgery	Disapproval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the brain.	1

Neurological Surgery	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	4
Neurological Surgery	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; ; There has not been any treatment or conservative therapy.; memory loss; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for Parkinson's disease.; This study is being ordered for new neurological symptoms.; The neurologic symptoms include worsening Parkinson's symptoms.	1
Neurological Surgery	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	1
Neurological Surgery	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	1
Neurological Surgery	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2014; There has been treatment or conservative therapy.; low back pain, tingling, numbness; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; jan 2016; There has been treatment or conservative therapy.; PROGRESSIVE LOWER EXTREMITY CLAUDICATION, HEAVINESS IN BILATERAL LEGS, UNABLE TO LIFT LEGS, INABILITY TO WALK; heat, ice, NSAIDs, MUSCLE RELAXERS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	Neck pain to his right arm with N/T and weakness in his right shoulder. He has abduction limitation in his shoulder and some mild proximal arm weakness. No hyperreflexia in upper extremities. His MRI shows areas of central stenosis. We will get a CT scan ; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1

Neurological Surgery	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	ruling out a lesion & evaluating her scoliosis to determine surgical interventions; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; BACK PAIN BEGAN 12 YEARS AGO. SHE HAS HAD PHYSICAL THERAPY, EPIDURAL STEROID INJECTIONS & NSAID USE WITH MINIMAL TO NO RELIEF.; There has been treatment or conservative therapy.; CERVICAL PAIN THAT RADIATES UP BEHIND BOTH EARS INTO HER HEAD AND DOWN BETWEEN HER SHOULDERS. THIS PAIN CAUSES HEADACHES ON A DAILY BASIS. THE EPICENTER OF HER PAIN IS ABOUT T5. SHE HAS SOME DISARTICULATION OF HER RIBS AT THE COSTOVERTEBRAL JOINTS AT T2 A; PATIENT HAS HAD PHYSICAL THERAPY, 2 EPIDURAL STEROID INJECTIONS, AND NSAID USE WITH MINIMAL TO NO RELIEF.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2014; There has been treatment or conservative therapy.; low back pain, tingling, numbness; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4YRS AGO; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; PT , NARCO , PERCS, TRAMADOL; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary		1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2014; There has been treatment or conservative therapy.; CHRONIC PAIN; 2014 CERVICAL FUSION DONE, INJECTIONS SINCE SURGERY, PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; neck pain; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; numbness buer; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	none; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; pain radiating from shoulder to right arm with tingling to fingers. weakness is 3 out of 5; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	patient has tried conservative measures, Physical Therapy, from January - March - 24 visits.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; right leg weakness; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	possible pseudoarthrosis ,not complete bone growth thru cage thru c56 level; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; weakness in arms and hand with numbness, reflex diminished; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	RADICULOPATHY, DISC HERNIATION; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/9/17; There has been treatment or conservative therapy.; BACK PAIN, INTO HIP AND LEG; SURGERY, MEDICATION.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	3
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	2

Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Yes, this patient had a recent course of supervised physical Therapy.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; CT shows muscular spasm in neck	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.;	2
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/10/2017; There has been treatment or conservative therapy.; Low back and mid back pain. Neck pain and left arm pain radiating into the fingers. Bilateral leg pain left leg more affected than the right.; patient has had all medications, flexural, hydrocodone. physical therapy activity modification but continues to worsen.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary		1
Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	There are no documented clinical findings of immune system suppression.; This is a request for a thoracic spine MRI.; The patient is not experiencing back pain associated with abdominal pain.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis, Follow up to or Pre-operative evaluation, or Neurological deficits.";	1
Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; SYRINGOMYELIA; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does not have any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.	1
Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; Here for f/u, waking up in numbness in her hands and legs. PCP is trying to get new lumbar spine MRI. Doesn't want to go back to Dr. Moon. Has done something to her shoulder blade area pain in that area and around the back.  Having tingling in hands and ; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1

Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary		1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; lower back, and legs; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	3
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; back pain; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	5
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 11/2018; There has been treatment or conservative therapy.; RIGHT SIDED LOW BACK PAIN, RIGHT HIP PAIN WORSE WITH STANDING AND WALKING. RIGHT POSTERIOR THIGH BUTTOCK HIP PAIN RADIATING TO THE FOOT, NUMBNESS & BURNING IN THE FOOT & CALF.POSTIVE FABER SIGN, SYMPTOMS HAVE GOTTEN WORSE SINCE LAST IMAGING; PHYSICAL THERAPY FOR 2 MONTHS, EPIDURAL STEROID INJECTION, NSAIDS, GABAPENTIN; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 3-1-2017; There has been treatment or conservative therapy.; PATIENT IS HAVING BILATERAL ARM AND LEG PAIN, NUMBNESS, AND WEAKNESS THAT IS SEEMING TO INCREASE; PATIENT HAS UNDERGONE MULTIPLE INJECTIONS AND PHYSICAL THERAPY, ALL WITH NO RELIEF; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT IS HAVING INCREASING LOW BACK AND LEG PAIN AND NECK PAIN AND NOW INCREASING ARM PAIN.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/23/2017; There has been treatment or conservative therapy.; PATIENT IS HAVING INCREASING LOW BACK PAIN WITH PAIN IN BILATERAL LEGS, WITH RIGHT LEG NUMBNESS AND WEAKNESS. PATIENT IS HAVING INCREASING NECK PAIN WITH BILATERAL ARM PAIN.; PATIENT HAS DONE PHYSICAL THERAPY AND CHIROPRACTIC THERAPY FOR MANY YEARS.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Ready to consider surgery. Last MRI was done over a year ago.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	REVIEW FOR CONTINUED BACK PAIN AND LEG PAIN - NO RELIEF MEDS; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; It is not know if the patient has seen the doctor more then once for these symptoms.	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	1
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	4
Neurological Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	This 28 year old female complains of mid to low back pain that radiates around her rib cage bilaterally. She complains of numbness and tingling in her right leg with a dull ache. She also has noticed weakness in her right leg. She states the pain began af; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; This 28 year old female complains of mid to low back pain that radiates around her rib cage bilaterally. She complains of numbness and tingling in her right leg with a dull ache. She also has noticed weakness in her right leg. She states the pain began af; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	44-year-old gentleman with a 8-10 month history of left groin pain worse with activity and better with rest but when he lies down at night it takes a while for it to go away he also has a patch lateral and above lateral thigh above his left knee with burn; This is a request for a Pelvis MRI.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; An abnormality was found in something other than the bladder, uterus or ovary.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1

Neurological Surgery	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; ; The patient received oral analgesics.	1
Neurological Surgery	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	bilateral shoulder pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Neurological Surgery	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	LROM in shoulder, grip strength limited.; This study is being ordered for a neurological disorder.; 05/16/2017; There has been treatment or conservative therapy.; LROM, neck pain radiates to LUE, also to LLE, which becomes numb and burning.; ESI, meds, ice, heat, activity modification, chiropractic.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 11/2018; There has been treatment or conservative therapy.; RIGHT SIDED LOW BACK PAIN, RIGHT HIP PAIN WORSE WITH STANDING AND WALKING. RIGHT POSTERIOR THIGH BUTTOCK HIP PAIN RADIATING TO THE FOOT, NUMBNESS & BURNING IN THE FOOT & CALF. POSTIVE FABER SIGN, SYMPTOMS HAVE GOTTEN WORSE SINCE LAST IMAGING; PHYSICAL THERAPY FOR 2 MONTHS, EPIDURAL STEROID INJECTION, NSAIDS, GABAPENTIN; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Neurology	Approval	70450 Computed tomography, head or brain; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Approval	70450 Computed tomography, head or brain; without contrast material		; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
Neurology	Approval	70450 Computed tomography, head or brain; without contrast material		The Pt had complete loss vision after stroke. vision is increasing. Pt has blurred vision. evaluate symptoms after stroke.; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or aneurysm.; This study is being ordered for a previous stroke or aneurysm.	1
Neurology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Known or suspected TIA (stroke) with documented new or changing neurologic signs and or symptoms best describes the reason that I have requested this test.; This is NOT a Medicare member.	2
Neurology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; New onset of seizures or newly identified change in seizure activity or pattern best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1

Neurology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has the inability to speak.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
Neurology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material		"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is not suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; "There is a history of serious head or skull, trauma or injury.ostct"	2
Neurology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material		"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is not suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; "There is not a history of serious head or skull, trauma or injury.ostct"; "There is not suspicion of neoplasm, or metastasis.ostct"; This is not a preoperative or recent postoperative evaluation.; "There is not suspicion of acoustic neuroma, pituitary or other tumor. ostct"	2
Neurology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is suspicion of neoplasm, tumor or metastasis.fct"; Yes this is a request for a Diagnostic CT	1
Neurology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; TIA; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		had a sudden loss of vision in the right periphery, around a month ago he had sudden onset of fogginess, dizziness, inability to move body and confusion which lasted for less than 30 minutes. He was told he had a TIA; This study is being ordered for a neurological disorder.; JANUARY 2017; It is not known if there has been any treatment or conservative therapy.; right visual loss, around a month ago he had sudden onset of fogginess, dizziness, inability to move body and confusion which lasted for less than 30 minutes. He was told he had a TIA; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Known stroke, daily headaches; This study is being ordered for Vascular Disease.; 05/30/2018; There has been treatment or conservative therapy.; Known stroke, daily headaches.; Aspirin; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		none; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/1/18; There has been treatment or conservative therapy.; Pt has dizziness, visual field deficits, migraines, facial and extremity numbness. Severe HA. L sided facial drooping; PCP has tried using medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		unknown; This study is being ordered for a neurological disorder.; 01/02/2018; There has been treatment or conservative therapy.; difficulty walking, memory loss, headaches, lack of adequate sleep and numbness, muscle weakness; Had some outpatient rehab, medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the brain.	13
Neurology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 02/01/2018; There has been treatment or conservative therapy.; BLURRED SPEECH; MEDS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/17; There has not been any treatment or conservative therapy.; stoke, blurred vision, weakness, pain in neck and head; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	15
Neurology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Neurology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; TIA; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for a neurological disorder.; December 2017; There has been treatment or conservative therapy.; This is a 6 month f/u to evaluate.; 4 Vessel Arteriogram, Physical Therapy and Neurologist visits; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		further stroke work-up; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; dysarthria, numbness left face, arm and leg; testing on an inpatient basis started on 81mg ASA; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		The pt has a hx of TIA 11 years ago and now states he is having the same s/s of past TIA. Mri and CTA is needed to assess TIA; This study is being ordered for a neurological disorder.; 53-year-old white male with history of polycythemia vera comes here for evaluation and treatment of. His neurological symptoms. He is unaccompanied. 11 years ago he had a TIA. His left arm went numb and he had difficulty speaking. At that time he was dia; There has been treatment or conservative therapy.; left arm goes numb, curls up. Sometimes the numbness is also in the right upper extremity.He has numbness in the fingers. Also complains of difficulty with balance. Cognitive decline. history of polycythemia vera; He is taking aspirin 81 mg per day. He is taking hydroxyurea every day; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Unknown; This study is being ordered for a neurological disorder.; 12/2017 -; There has been treatment or conservative therapy.; dysarthria, dysphagia; MRI brain and ASA; stroke rehab for speech and gait; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		vision lose , weakness in body movement; This study is being ordered for a neurological disorder.; 09/2017; There has not been any treatment or conservative therapy.; vision lose , weakness of body movement; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the Neck.	4
Neurology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		It is unknown if there is a suspicion of an infection or abscess.; It is unknown if this examination is being requested to evaluate lymphadenopathy or mass.; There is a suspicion of a bone infection (osteomyelitis).; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; since a teen.; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/23/2018; There has not been any treatment or conservative therapy.; WORST HA OF LIFE/FACIAL WEAKNESS/FACIAL NUMBNESS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		Family history of cerebral aneurysm. Her father passed away from this.; This study is being ordered for a neurological disorder.; 08/14/2014; There has not been any treatment or conservative therapy.; blurred and double vision, tremors, headaches, malaise, dizziness, numbness and tingling, memory loss, shortness of breath, joint pain and neck pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		Medical Decision Making I have reviewed records brought with her today.  Labs 5/2/2018: Hemoglobin A1c 5%, TSH normal at 0.87, free T4 normal at 0.8, I see vitamin B12 and ferritin mentioned but no result for this MRI brain with and without contrast 5/; There is NOT a family history of a brain aneurysm in the parent, brother, sister or child of the patient.; This is a request for a Brain and Neck MRA combination.; There has NOT been a recent (less than 2 week) neck or carotid artery ultrasound.	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		none; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 7/1/17; There has been treatment or conservative therapy.; Patient complains of numbness in hands and lower back; Steroid injections, PT, and back brace; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study is being ordered for known/suspected joint infection.; The plain films were not normal.	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has completed 6 weeks or more of Chiropractic care.; Naproxen, Celebrex; The patient received medication other than joint injections(s) or oral analgesics.	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	19
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient received joint injection(s).	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.	9

General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has not been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	3
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There has has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There has has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.	2
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1

General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		unable to perform an empty can test; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
General/Family Practice	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		Will FAX clinical . Post operative issue with spine. pt has tenderness in shoulder. Positive impingement.; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Approval	73700 Computed tomography, lower extremity; without contrast material		Evaluate fracture; This study is being ordered for trauma or injury.; 04/03/2018; There has been treatment or conservative therapy.; low back pain radiating to leg; medications, injection; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		See attached clinicals; This study is being ordered for Vascular Disease.; See attached clinicals. Numbness and tingling of the face for about 3 months. Started suddenly right before a business meeting. States mostly on the left side but does occasionally happen on the right. Does feel on ear and lips.; There has been treatment or conservative therapy.; Numbness and tingling of the face for about 3 months. Started suddenly right before a business meeting. States mostly on the left side but does occasionally happen on the right. Does feel on ear and lips.; Inderal 20mg prn; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has been a stroke or TIA within the past 2 weeks.; This is a request for a Brain MRA.	2
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	4
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has been a stroke or TIA within the past 2 weeks.; This is a request for a Brain MRA.	7
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	3
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		This is a request for a head and neck MR Angiogram.; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; "There is a sudden onset of one-sided weakness, speech impairment, vision defects or severe dizziness."; This patient had an abnormal ultrasound of the neck.	1

Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		Unknown; This study is being ordered for a neurological disorder.; 03/01/2018; It is not known if there has been any treatment or conservative therapy.; dizziness, confusion, fatigue, slurred speech, right sided weakness, balance is off and a right foot drop has been noticed.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		WILL UPLOAD NOTES; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
General/Family Practice	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a foot CT.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; Yes this is a request for a Diagnostic CT	5
General/Family Practice	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a foot CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient does not have a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass adjacent to or near the hip.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient does not have a documented limitation of their range of motion.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for an ankle CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	73700 Computed tomography, lower extremity; without contrast material		This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is suspicion of lower extremity bone or joint infection.; This is a request for a Knee CT; Yes this is a request for a Diagnostic CT	2

General/Family Practice	Approval	73700 Computed tomography, lower extremity; without contrast material		This is not a preoperative or recent postoperative evaluation.; There is suspicion of a lower extremity neoplasm, tumor or metastasis.; This is a request for a Knee CT; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	73700 Computed tomography, lower extremity; without contrast material		This is not a preoperative or recent postoperative evaluation.; There is suspicion of a lower extremity neoplasm, tumor or metastasis.; This is a request for a Leg CT.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		"There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; Pt fell face first and her feet extended straight behind her.; This is a request for a bilateral ankle MRI.	2
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; It is not known if the ordering physician is an orthopedist.; Suspected meniscus, tendon, or ligament injury; It is not known if there is a known trauma involving the knee.; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.; It is not known if the member experience a painful popping, snapping, or giving away of the knee.	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; It is not known if the ordering physician is an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,supsected tumor or Aseptic Necrosis; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The results of the plain films is not known.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Pain greater than 3 days; No, patient has not completed and failed a course of conservative treatment.; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 6/12/2018; There has been treatment or conservative therapy.; Headache and blurred vision and knee pain; Medications and steroid injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; It is not known if there is a known trauma involving the knee.; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; There is conservative treatment other than physical Therapy, physician directed course of non-steroidal medications, Immobilization or Physical directed exercise.; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
Neurology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		Medical Decision Making#x0D; I have reviewed records brought with her today. #x0D; Labs 5/2/2018: Hemoglobin A1c 5%, TSH normal at 0.87, free T4 normal at 0.8, I see vitamin B12 and ferritin mentioned but no result for this#x0D; MRI brain with and without contrast 5; There is NOT a family history of a brain aneurysm in the parent, brother, sister or child of the patient.; This is a request for a Brain and Neck MRA combination.; There has NOT been a recent (less than 2 week) neck or carotid artery ultrasound.	1
Neurology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		The patient has had a recent MRI or CT for these symptoms.; This is a request for a Neck MR Angiography.	4
Neurology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		This is a request for a head and neck MR Angiogram.; There is an immediate family history of aneurysm.	1
Neurology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		This is a request for a head and neck MR Angiogram.; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; "There is a sudden onset of one-sided weakness, speech impairment, vision defects or severe dizziness."	2
Neurology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		This is a request for a head and neck MR Angiogram.; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; "There is a sudden onset of one-sided weakness, speech impairment, vision defects or severe dizziness."; This patient had an abnormal ultrasound of the neck.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for seizures.; It is unknown if there has there been a change in seizure pattern or a new seizure.; This is not a new patient.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; This is the pt's 1st visit to this dr & was referred to them by a different dr.; It is not known if there has been any treatment or conservative therapy.; The pt has tremor, numbness in her arms & hands, headaches, abnormal deep tendon reflexes.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		; This is a request for a Knee MRI.; The study is requested for knee pain.; The pain is from a recent injury.; There is a suspicion of a meniscus, tendon, or ligament injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; There is not a suspicion of fracture not adequately determined by x-ray.; The study is requested for ankle pain.; It is not known if there is a suspicion of tendon or ligament injury.	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		arthralgias/joint pain; knee pain; This is a request for a Knee MRI.; The study is requested for knee pain.; The pain is from an old injury.; It is not known if the member has failed a 4 week course of conservative management in the past 3 months.	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		Musculoskeletal: Right knee tender around kneecap with crepitus on movement there is no obvious laxity of motion is within normal limits.; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Pain greater than 3 days; It is not known if patient has completed and failed a course of conservative treatment.	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		Patient had an injury back in 2016 and her foot has started hurting again. She is wanting to get her foot re-evaluated.; This study is being ordered for trauma or injury.; AUGUST 2016; There has been treatment or conservative therapy.; CONSTANT SEVERE, SHARP PAIN WITH USE.; REST, HEAT, ICE, HOME EXERCISES, PAIN MEDICINE, BRACING, NSAIDS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		Quality: states that she has a chronic illness that the prior TN MD dx'd her with, Chondromalacia of the right knee. States that it flares up from now and then, has been in pain x 3 weeks now; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; It is not known if there is a known trauma involving the knee.; Pain greater than 3 days; It is not known if the member experience a painful popping, snapping, or giving away of the knee.	1

General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.	6
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; It is not known if there is a new and sudden onset of a headache less than 1 week not improved by medications.; It is not known if there is a family history (parent, sibling, or child) of stroke, aneurysm, or AVM (arteriovenous malformation)	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	8
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; A metabolic work up was done including urinalysis, electrolytes and complete blood count with results completed.; The lab results were normal.; The patient is experiencing loss of smell.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	3

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested due to trauma or injury.; There are not new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; The trauma or injury to the head occurred more than 1 week ago.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has Bell's Palsy.; It is unknown why this study is being ordered.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for Multiple Sclerosis.; This study is NOT being ordered as a 12 month annual follow up.; This is a routine follow up.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for a neurological disorder.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for a neurological disorder.; 2017; It is not known if there has been any treatment or conservative therapy.; MULTIPLE SCLEROSIS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for a neurological disorder.; Enter date of initial onset heremigraines and cervical radiculopathy - or Type In Unknown If No Info Given; It is not known if there has been any treatment or conservative therapy.; Describe primary symptoms heremigraines, neck pain cervical radiculopathy - or Type In Unknown If No Info Given; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for a neurological disorder.; HEADACHE; There has been treatment or conservative therapy.; HEADACHE; CONTINUE PROTONIX AS ORDERED; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for a neurological disorder.; July 2017; There has been treatment or conservative therapy.; memory loss, word finding difficulties; Cerebral interventional studies, aspirin, counseling; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	26 y.o. female with twitching, cramping, muscle contractions that started 1.5 years ago when she was pregnant. They are intermittent, were less frequent, but now happen daily, multiple times a day; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	57-year-old lady with diagnosis of multiple sclerosis and stroke. We need to do a complete workup. She needs MRI of the brain with and without contrast, MRI of the cervical spine with and without contrast and MRA of the head and neck.; This study is being ordered for a neurological disorder.; Patient was diagnosed in 1990 with Multiple Sclerosis.; There has been treatment or conservative therapy.; patient has multiple sclerosis and previous stroke. L sided weakness.; patient has been on a disease modifying medication in the past.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	DOUBLE STUDY MEANS AUTOMATIC REVIEW, WILL JUST UPLOAD NOTES; This study is being ordered for a neurological disorder.; DOUBLE STUDY MEANS AUTOMATIC REVIEW, WILL JUST UPLOAD NOTES; There has been treatment or conservative therapy.; DOUBLE STUDY MEANS AUTOMATIC REVIEW, WILL JUST UPLOAD NOTES; DOUBLE STUDY MEANS AUTOMATIC REVIEW, WILL JUST UPLOAD NOTES; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	double study means automatic review-will just upload notes.; This study is being ordered for a neurological disorder.; 3 WEEKS AGO; There has not been any treatment or conservative therapy.; double study means automatic review-will just upload notes.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Epilepsy; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Eric L Bell is 54 y.o.-years-old and is coming to the neurology clinic today as a new patient for a chief complaint of possible ALS. He had pitting dependent edema in both legs, left moreso than the right.Strength testing was notable for severe weakness ; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	H/A; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	had a sudden loss of vision in the right periphery, around a month ago he had sudden onset of fogginess, dizziness, inability to move body and confusion which lasted for less than 30 minutes. He was told he had a TIA; This study is being ordered for a neurological disorder.; JANUARY 2017; It is not known if there has been any treatment or conservative therapy.; right visual loss, around a month ago he had sudden onset of fogginess, dizziness, inability to move body and confusion which lasted for less than 30 minutes. He was told he had a TIA; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	headaches; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	history of epilepsy.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; It is not known if there has been a previous Brain MRI completed.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	In summary, John E Funke is a 58 y.o. year old male who presents to the Neurology clinic at the request of Dr.Bumpas for evaluation of balance problems, falls, and tremors. Neurological examination as documented above and significant for diffuse weakness;; This study is being ordered for a neurological disorder.; He reports onset of symptoms was approximately one year ago when he noticed he was unable to walk long distances or hike like he typically does. He also noted a fairly sudden onset of weakness mostly involving his right side. He feels over the course of t; There has been treatment or conservative therapy.; Weakness Hyperreflexia Spastic gait Fasciculations; He uses his cane when he is walking in public or long distances, but is not using any assistive devices at home. He does report chronic neck pain and tells me he is having "issues" with his neck telling me that a "vertebrae misalignments" at times. He was; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	loss of consciousness; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient is experiencing dizziness.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	lower limb spasms,; This study is being ordered for a neurological disorder.; 1/15/2018; There has been treatment or conservative therapy.; pain, cramping, restlessness in legs, burring of bottom of feet; home exercise, medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	memory loss; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	MIGRAINE HEADACHE. SEVERE MIGRAINE HEADACHES WITH SEVERE THROBBING COMPONENT WHICH ARE BECOMING INCREASINGLY SEVERE AS OF LATE. ASSOCIATED WITH IRRITABILITY TO BRIGHT LIGHTS AND LOUD NOISES. SOMETIMES ASSOCIATED WITH CONFUSION. HEADACHE PAIN IS TYPICALLY ; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Mr. Robert E Perkins is a 57 y.o. male. Syncopal Dizziness spells have been present for year(s), and are now getting better. Frequency is daily. Type of syncopal spells are described as instability of gait, not vertigo. He has got an "ill feeling". Spe; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient is experiencing dizziness.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	MRI of brain & cervical spine requested to check on demyelinating plaque volume; This study is being ordered for a neurological disorder.; 2012, patient diagnosed with Multiple Sclerosis; There has been treatment or conservative therapy.; imbalance and numbness left side with left ocular pain; Rebif Tecfidera; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	MRI of brain and cervical spine to evaluate for any new lesions and cause of numbness; This study is being ordered for a neurological disorder.; April, 2017; There has been treatment or conservative therapy.; Numbness LUE; Patient treated with Tecfidera. MRI and EMG/NCV testing 2017; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>MRIs requested to check for any new lesions in the cervical spine to be compared to the one done two years ago - checking for new lesions;</p> <p>Yearly check on the brain with MRI - patient taking Aubagio; This study is being ordered for a neurological disorder.; 2005 the patient was diagnosed with Multiple Sclerosis; There has been treatment or conservative therapy.; describes Lhermitte's sign on occasion and occasionally feels that she will lose her balance; Patient has been on Avonex with Naltrexone; Amantadine and Tecfidera in the past and is currently taking Aubagio and Baclofen; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>Ms. Allison M Hoover is a 38 y.o. female with bilateral papilledema, a lot of headaches, and a concern for Pseudotumor Cerebri. We can do a spinal tap, high volume, and recommend weight loss as well She states that she is having issues with her vision. ; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/05/18; There has been treatment or conservative therapy.; Headaches have been present for year(s), and are now getting worse. Frequency is constantly. Location of the headache is frontal region, temporal region, parietal region, occipital region on the Bilateral sides. Quality of the pain is pounding, sharp, d; Ms. Allison M Hoover is a 38 y.o. female. Headaches have been present for year(s), and are now getting worse. Frequency is constantly. Location of the headache is frontal region, temporal region, parietal region, occipital region on the Bilateral sides.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>Ms. Brown returns to the clinic today for follow up on pain and weakness. Over the last few weeks she has been having worsening cramps and spasms in her interscapular region, her bilateral wrists, and at the posterior aspect of her neck. With this she has; This study is being ordered for a neurological disorder.; 01/17/2017; There has been treatment or conservative therapy.; Ms. Brown returns to the clinic today for follow up on pain and weakness. Over the last few weeks she has been having worsening cramps and spasms in her interscapular region, her bilateral wrists, and at the posterior aspect of her neck. With this she has; s. Brown returns to the clinic today for follow up on pain and weakness. Over the last few weeks she has been having worsening cramps and spasms in her interscapular region, her bilateral wrists, and at the posterior aspect of her neck. With this she has ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>Ms. Haynes returns to the clinic today for evaluation of headaches and dizziness. She has been having migraines since 2009 after she had her daughter. Her headaches are frequently located on the right of her head, unilaterally. This has been becoming wors; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.</p>	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Ms. Heather M Jackson is a 42 y.o. female with MS by review of prior and current MRI brain scans, and confirmed by the spinal tap. She may be having an exacerbation or the medication dose may be low. Will raise Copaxone dose.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for Multiple Sclerosis.; The patient has new symptoms.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	MS; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/2009; There has been treatment or conservative therapy.; Unknown; medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	no info given; This study is being ordered for a neurological disorder.; 02/21/2017; There has been treatment or conservative therapy.; frequent episodic migraine; physical therapy, medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	none; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/1/18; There has been treatment or conservative therapy.; Pt has dizziness, visual field deficits, migraines, facial and extremity numbness. Severe HA. L sided facial drooping; PCP has tried using medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	none; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 7/1/17; There has been treatment or conservative therapy.; Patient complains of numbness in hands and lower back; Steroid injections, PT, and back brace; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Patient has a pre existing headache disorder that was relieved with prednisone and is now experiencing new headaches that are different with wegner's granulomatosis.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is a new and sudden onset of a headache less than 1 week not improved by medications.; The headache is not described as a "thunderclap" or the worst headache of the patient's life.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Patient headaches are getting worse and more often in the last several months. Medication is not giving her any relief.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patient is referred here for evaluation of headache. She said that she started having history of headache when she was a teenager. Her headache has been getting worse. Her headache involves both sides of head; which's throbbing headache, associated with; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patient stated she was in a car accident in Dec and is having issues with being dizzy, earaches, PTSD, black outs while driving, insomnia, and headaches; Headache, dizziness. Post-concussion syndrome - Neurological examination is non-focal. Her symptoms a; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Requested due to trauma or injury.; There are not new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; The trauma or injury to the head ocured more than 1 week ago.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patient with gait and balance problems and neuropathy. R/O CNS cause; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Poor balance, slow walking, abnormal gait; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Previous TRE malformation.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Progressive memory loss.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		pt had an abnormal neurological exam and dr khaleel is wanting to rule out multiple sclerosis; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Relapsing remitting MS; This study is being ordered for a neurological disorder.; 10/17/2017; There has been treatment or conservative therapy.; Patient had a recent MS flare up consisting of increased numbness and tingling in both of her feet, much worse on the left. She had a new complaint of headache which began 5 days ago. She said the pain is a throbbing pulsating pain behind her temples a; on Aubagio; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	right basal ganglia intraparenchymal hemorrhage. He reports that yesterday he was working on a truck with a relative when he suddenly started staggering and felt as though he is given a pass out. He then developed slurring of his speech and left-sided wea; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Ruling out nerve conduction and numbness in lower extremity; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient is experiencing fatigue or malaise.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	seizure protocol, epilepsy surgery patient; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has been a previous Brain MRI completed.; The brain MRI was normal.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	seizures are getting worse; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has been a previous Brain MRI completed.; The results of the previous brain MRI are unknown.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	She has new onset headaches. She only rarely had headaches in the past. HA is normally frontally located and causes a throbbing pain. Reports a slight HA at all times with severe pain 3-4 times per week. Nausea and occasionally vomiting is associated. ; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; It is unknown if there recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is not a new and sudden onset of a headache less than 1 week not improved by medications.; It is not known if there is a family history (parent, sibling, or child) of stroke, aneurysm, or AVM (arteriovenous malformation)	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	She reports onset of headaches for most of her life, but has been occurring near daily for the past 10 years. She describes a pounding sensation throughout her head which is more prominent on the right side involving her right eye and ear. She gets lighth; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	she still gets the decreased peripheral vision. She described the pain as a pressure that she gets a sharp pain in the medial corner of her eye. She has nausea as well as photophobia and phonophobia.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has vision changes.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	syncope; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.	2
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; The patient does not have a documented limitation of their range of motion.	1

General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.	7
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient has a documented limitation of their range of motion.	2
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; The study is being ordered for known fracture.; The study is being ordered to evaluate a possible non union fracture.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		THE MRI W/O CONTRAST WAS ABNORMAL FINDINGS W LESION NOTED... DR BONDA WANTS THE WITH CONTRAST TO FURTHER EVAL OF LESION; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		The symptoms began 2 months ago and generally lasts 2 Months. The symptoms are reported as being moderate. The location is right lateral leg and foot. Aggravating factors include walking. Relieving factors include nothing. Associated symptoms include head; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	139
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has one sided arm or leg weakness.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	5

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	48
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing vertigo	4
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	2
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested due to trauma or injury.; There are new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	3
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; The patient has a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection.; This is NOT a Medicare member.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; It is not known if the patient has undergone treatment for multiple sclerosis.; There are intermittent or new neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.	3
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has been a previous Brain MRI completed.; The brain MRI was abnormal.	11
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has not been a previous Brain MRI completed.	96
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.	36
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.	7

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; It is not known if a biopsy has been completed to determine tumor tissue type.; There are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.	3
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	5
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for Multiple Sclerosis.; This study is being ordered as a 12 month annual follow up.; This is a routine follow up.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for seizures.; There has been a change in seizure pattern or a new seizure.	25
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for seizures.; There has NOT been a change in seizure pattern or a new seizure.; This is a new patient.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		to examine the area of the head and neck and nerve involvement; This study is being ordered for a neurological disorder.; 3 years ago; It is not known if there has been any treatment or conservative therapy.; shock-like pain, gnawing and stabbing pain to the right mid cheek; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		unknown  see attached; This study is being ordered for a neurological disorder.; 04/18/2018; It is not known if there has been any treatment or conservative therapy.; tremors on both hands, tense muscles, coarse tremors of UE and LE to a point where she cannot ambulate much anymore.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	unknown; This study is being ordered for a neurological disorder.; 12/07/2017; There has been treatment or conservative therapy.; facial pains, deep ear pain, nausea and vomiting, tachycardia, numbness of UE bilaterally, neck discomfort.; Physical therapy and speech therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	UNKNOWN; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/25/2018; There has been treatment or conservative therapy.; SEVERE MIGRAINE HEADACHES. PRESENTS WITH SEVERE HEADACHES WITH THROBBING COMPONENT WHICH ARE BECOMING INCREASINGLY SEVERE AS OF LATE. SOMETIMES ASSOCIATED WITH IRRITABILITY TO BRIGHT LIGHTS AND LOUD NOISES. ASSOCIATED WITH CONFUSION AND NAUSEA WITH HEADAC; MEDICATION THERAPY WITHOUT IMPROVEMENT.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	VISION LOSS, HEADACHE, VERTIGO, FATIGUE, DIZZINESS.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	vision loss; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Neurology	Approval	71250 Computed tomography, thorax; without contrast material	; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; TIA; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	71250 Computed tomography, thorax; without contrast material	1. 3 cm x 3 cm rounded focus of masslike density within the right lung, either within the right upper lobe or superior segment of the right lower lobe. This is highly suspicious for a lung mass and malignancy is possible. A rounded focus of pneumonia high; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Neurology	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)	: 1. f/u  Right handed woman with intermittent left hand numbness. History of left-sided breast cancer, status post mastectomy and chemotherapy. History of carpal tunnel surgery on the right. Lately having some spasms of the right index finger, wh; This study is NOT being ordered for a Work-up for Suspicious Mass, Known Tumor, Known or Suspected Inflammatory Disease, etc...; This is a request for a chest MRI.	1

Neurology	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)		numbness, neck pain,neck pain, numbness in hands, 1. f/u  Man with several months of neck pain with numbness radiating down the right arm to digits 4 and 5. Also sometimes gets his thumbs stuck towards his palm. MRI C-spine 7/17/17 shows a few disc; This study is being ordered for a work-up of a suspicious mass.; There is no radiographic or physical evidence of a lung or chest mass.; This is a request for a chest MRI.	1
Neurology	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)		This study is being ordered for a work-up of a suspicious mass.; There is radiographic or physical evidence of a lung or chest mass.; This is a request for a chest MRI.	1
Neurology	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)		This study is being ordered for inflammatory disease.; The ordering physician is not a surgeon or pulmonologist.; There is radiologic evidence of non-resolving pneumonia after at least 4 weeks of treatment.; This is a request for a chest MRI.	1
Neurology	Approval	72125 Computed tomography, cervical spine; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Approval	72125 Computed tomography, cervical spine; without contrast material		The patient does not have any neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to chronic neck pain or suspected degenerative disease.; There has been a supervised trial of conservative management for at least 6 weeks.; There is a reason why the patient cannot have a Cervical Spine MRI.	1
Neurology	Approval	72128 Computed tomography, thoracic spine; without contrast material		fracture; This is a request for a thoracic spine CT.; There is no reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	1
Neurology	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is a preoperative or recent post-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Neurology	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is experiencing symptoms of radiculopathy for six weeks or more.; Yes this is a request for a Diagnostic CT	3
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material			3

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 08/2017; There has been treatment or conservative therapy.; Back pain, tingling in legs, pain in legs; Medications, HEP; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 2015; There has been treatment or conservative therapy.; mbr has pain in back and numbness going to left leg and arm and right leg and buttocks and weakness decrease in pin prick that goes up both side of the legs; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2016; There has not been any treatment or conservative therapy.; dizziness, numbness, tingling, loss of vision; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.; Document Sensation:  intact b/l to light touch, pinprick, proprioception, vibration and temp  Reflexes:  BR Bic Tri Pat Ach Plantar Clonus Right 2+ 2+ 2+ 2+ 2+ flexion absent Left 2+ 2+ 2+ 2+ 2+ flexi	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This study is being ordered for a neurological disorder.; 01/15/2018; There has been treatment or conservative therapy.; with upper and lower extremity weakness spasticity and hyperreflexia and was found to have cervical stenosis with some myelomalacia. The left with residual spasticity as well as weakness predominantly in his lower extremities.; He's taking the baclofen 10 mg at night as well as the gabapentin just 100 mg at night; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This study is being ordered for a neurological disorder.; 6/7/2018; There has not been any treatment or conservative therapy.; Numbness and tingling sensation of skin; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	39-year-old with a 9 year history of symptoms off and on certainly suspicious for MS although she's had significant workup and including MRI brain with repeat which does not show any demyelinating lesions we have discussed that this is a very small focus ; This study is being ordered for a neurological disorder.; 05/01/2009; There has not been any treatment or conservative therapy.; weakness, numbness, dizziness, and frequent or severe headaches.   muscle aches and weakness, arthralgias/joint pain and back pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	disc protrusion at C5-6 with cord compression and surrounding edema; This is a request for cervical spine MRI; There is no laboratory or x-ray evidence of osteomyelitis.; Known or Suspected Multiple Sclerosis, Infection or abscess; There is not laboratory or x-ray evidence of meningitis.; There is not laboratory or x-ray evidence of a paraspinal abscess.; There is not laboratory or x-ray evidence of an infected disc, septic arthritis, or "discitis".	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.; It is not known if the patient had six weeks of Chiropractic care related to this episode.;	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; It is not known if this patient had a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.;	2
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	MRI of the cervical spine to investigate for any cord disease or impingement. MRI of the brain to investigate for evidence of ventriculomegaly; This study is being ordered for a neurological disorder.; 05/01/2017; There has been treatment or conservative therapy.; swelling of lower extremities, gait difficulties; trace movement left lower extremity & right lower extremity; reduced DTRs, Diminished vibration; Gabapentin; Baclofen; Valium; Hydrocodone; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		<p>MRIs requested to check for any new lesions in the cervical spine to be compared to the one done two years ago - checking for new lesions;</p> <p>Yearly check on the brain with MRI - patient taking Aubagio; This study is being ordered for a neurological disorder.; 2005 the patient was diagnosed with Multiple Sclerosis; There has been treatment or conservative therapy.; describes Lhermitte's sign on occasion and occasionally feels that she will lose her balance; Patient has been on Avonex with Naltrexone; Amantadine and Tecfidera in the past and is currently taking Aubagio and Baclofen; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		<p>MS; This is a request for cervical spine MRI; There is no laboratory or x-ray evidence of osteomyelitis.; Known or Suspected Multiple Sclerosis, Infection or abscess; There is not laboratory or x-ray evidence of meningitis.; There is not laboratory or x-ray evidence of a paraspinal abscess.; There is not laboratory or x-ray evidence of an infected disc, septic arthritis, or "discitis".</p>	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		<p>no info given; This study is being ordered for a neurological disorder.; 02/21/2017; There has been treatment or conservative therapy.; frequent episodic migraine; physical therapy, medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		<p>Progressive weakness: Given his history and exam (and to a lesser extent, his family history), motor neuron disease is of definite consideration for this patient although other causes for his weakness such as a cervical myelopathy or another central caus; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Strength testing was notable for severe weakness throughout the left hand (0-1/5) and moderate weakness of the left arm (1/5 wrist extension, 2/5 wrist flexion, 4-/5 elbow flexion/extension, 4/5 shoulder abduction). He had mild weakness of the right hand; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.</p>	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		<p>The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical Therapy.</p>	3
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		<p>This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.</p>	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		<p>This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?</p>	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; It is not known if there is laboratory evidence of osteomyelitis.; Known or Suspected Multiple Sclerosis, Infection or abscess; There is laboratory or x-ray evidence of meningitis.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Known or Suspected Multiple Sclerosis, Infection or abscess; <Enter Additional Clinical Information>; Yes, the patient have new or changing neurological signs or symptoms.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.; yes, there are documented clinical findings of Multiple sclerosis.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Known or Suspected Multiple Sclerosis, Infection or abscess; ; Yes, the patient have new or changing neurological signs or symptoms.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.; yes, there are documented clinical findings of Multiple sclerosis.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Known or Suspected Multiple Sclerosis, Infection or abscess; G35 Multiple sclerosis,02/07/2018 COPAXONE, 05/11/2016 CITALOPRAM HBR, 04/06/2016 ,MRI BRAIN 12/06/2016 Impression: 1. Prominent T2 hyperintensities with associated black holes are seen in the periventricular and subcortical regions bilaterally-these ar; No, the patient does not have new or changing neurological signs or symptoms.; yes, there are documented clinical findings of Multiple sclerosis.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Known or Suspected Multiple Sclerosis, Infection or abscess; States about a month ago had visual blurring in both eyes, associated with pain in both eyes, lasting a couple of weeks, but only at night and not in the day. She did not see an optometrist or ophthalmologist for this. We never got the baseline MRIs from; Yes, the patient have new or changing neurological signs or symptoms.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.; yes, there are documented clinical findings of Multiple sclerosis.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Known or Suspected Multiple Sclerosis, Infection or abscess; Yes, the patient have new or changing neurological signs or symptoms.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; Yes, the patient is experiencing or presenting new symptoms of Bowel or bladder dysfunction.; yes, there are documented clinical findings of Multiple sclerosis.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Known or Suspected Multiple Sclerosis, Infection or abscess; Yes, the patient have new or changing neurological signs or symptoms.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; Yes, the patient is demonstrating unilateral muscle wasting.; yes, there are documented clinical findings of Multiple sclerosis.	2

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Known or Suspected Multiple Sclerosis, Infection or abscess; Yes, the patient have new or changing neurological signs or symptoms.; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.; yes, there are documented clinical findings of Multiple sclerosis.	32
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.	5
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Neurological deficits; This 36 year old male presents with right leg pain. Mr. Horne is a 36 year old man who comes to the clinic today for evaluation of right leg pain. For a couple of years he has had ongoing right leg pain that is mostly located in his foot. His foot has a ; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Yes, this patient had a recent course of supervised physical Therapy.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There is laboratory or x-ray evidence of osteomyelitis.; Known or Suspected Multiple Sclerosis, Infection or abscess	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There is laboratory or x-ray evidence of osteomyelitis.; Known or Suspected Multiple Sclerosis, Infection or abscess; It is not known if there are documented clinical findings of Multiple sclerosis.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There is no laboratory or x-ray evidence of osteomyelitis.; Known or Suspected Multiple Sclerosis, Infection or abscess; ; It is not known if there are documented clinical findings of Multiple sclerosis.; No, there is not a laboratory or x-ray evidence of Meningitis.; No, there is not a laboratory or x-ray evidence of an infected disc, septic arthritis or "discitis".; No, there is no laboratory or x-ray evidence of a paraspinal abscess.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Unknown; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Burning and tingling sensations; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	weakness, fasciculations; This study is being ordered for Vascular Disease.; 12/17/2017; There has been treatment or conservative therapy.; body numbness; pt exercise; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material			1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		There are no documented clinical findings of immune system suppression.; This is a request for a thoracic spine MRI.; The patient is not experiencing back pain associated with abdominal pain.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis, Follow up to or Pre-operative evaluation, or Neurological deficits."; Neurosarcoidosis (D86.89). Stable. Continue weaning Mazzone as per Dr. Moseley's plan. Lets go ahead and check a repeat MRI T-spine now and see how those cord lesions are doing. As long as things look good, we will follow-up in 6 months.	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		; This study is being ordered for a neurological disorder.; 01/15/2018; There has been treatment or conservative therapy.; with upper and lower extremity weakness spasticity and hyperreflexia and was found to have cervical stenosis with some myelomalacia. The left with residual spasticity as well as weakness predominantly in his lower extremities.; He's taking the baclofen 10 mg at night as well as the gabapentin just 100 mg at night; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		39-year-old with a 9 year history of symptoms off and on certainly suspicious for MS although she's had significant workup and including MRI brain with repeat which does not show any demyelinating lesions we have discussed that this is a very small focus ; This study is being ordered for a neurological disorder.; 05/01/2009; There has not been any treatment or conservative therapy.; weakness, numbness, dizziness, and frequent or severe headaches.   muscle aches and weakness, arthralgias/joint pain and back pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		It is not known if the patient has any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		MS; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/2009; There has been treatment or conservative therapy.; Unknown; medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	paresthesia, numbness, squeezing in mod section,squeezing in mid section, rule out MS, Illness: 1. f/u  Woman with a couple of years of various symptoms including neck pain with radiation to the left arm, numbness in the left hand and in both feet as ; This is a request for a thoracic spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; paresthesia, numbness, squeezing in mod section,paresthesia, numbness, squeezing in mod section,squeezing in mid section, rule out MS, History of Present Illness: 1. f/u  Woman with a couple of years of various symptoms including neck pain with radiat; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of abnormal gait.	3
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is not experiencing sensory abnormalities such as numbness or tingling.; ; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; <Enter Additional Clinical Information>; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; ; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	2
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; Ms. Janet D Fitch is a 56 y.o. female, seen by Dr Kannout who ws "mortified", with pain and weakness that prevent her from lifting her feet (worse in the proximal LEs). The same problems have now affected the UEs. She can barely lift her hands ... She is; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; Transverse Myelitis 52 y/o woman sent to me for second opinion on multiple sclerosis. She had a clinical event in her teenage years of right sided facial numbness and had second event in 2015 with thoracic myelitis. No unique CSF OCBs. Today we discussed; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1

Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to Neurological deficits.; The patient is experiencing sensory abnormalities such as numbness or tingling.; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	2
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 08/2017; There has been treatment or conservative therapy.; Back pain, tingling in legs, pain in legs; Medications, HEP; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; since a teen.; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; back pain; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; Sensation:  intact b/l to light touch, pinprick, proprioception, vibration and temp  Reflexes:  BR Bic Tri Pat Ach Plantar Clonus Right 2+ 2+ 2+ 2+ 2+ flexion absent Left 2+ 2+ 2+ 2+ 2+ flexion abs	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; LEG WEAKNESS; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		constant leg pain, both legs, does not think it is from her back.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Counseled on narcotics, take only when absolutely necessary and for severe pain. Always read for side effects even on medications you have take before.  Bed rest is NOT necessary. As you have seen movement helps and laying in bed has only made the pai; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Ms. Rose Bailey is now a 26 year-old right handed Caucasian female who has been to me for evaluation and management of severe pain in her Rt arm/hand with burning sensation, tingling, numbness that has started in 2007. She failed her initial UDS being pos; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Ms. Rose Bailey is now a 26 year-old right handed Caucasian female who has been to me for evaluation and management of severe pain in her Rt arm/hand with burning sensation, tingling, numbness that has started in 2007. She failed her initial UDS being pos; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		None; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		numbness, itching, burning, back pain, 1. Numbness  Onset was 10 years ago. Pertinent negatives include bladder incontinence and bowel dysfunction. Additional information: Started with small spot left anterior thigh, gradually larger to entire thigh(x; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		She is having more fatigue, and some muscle spasms.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Ms. Heather M Jackson is a 42 y.o. female with MS by review of prior and current MRI brain scans, and confirmed by the spinal tap. She may be having an exacerbation or the medication dose may be low. Will raise Copaxone dose.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is x-ray evidence of a recent lumbar fracture.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	2
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	18
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	4
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	34
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/17/18; There has not been any treatment or conservative therapy.; Numbness from lower abdomen down, lower back pain radiating to right leg.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Will fax; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Weakness in BLE; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Approval	72159 Magnetic resonance angiography, spinal canal and contents, with or without contrast material(s)		This is a request for a spinal canal/contents MR Angiography.	1
Neurology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Neurology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of joint or bone infection.	2
Neurology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	1

Neurology	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is no suspicion of upper extremity bone or soft tissue infection.; The ordering physician is not an orthopedist.; There is not a history of upper extremity trauma or injury.	1
Neurology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		; This study is being ordered for a neurological disorder.; Pt has a long hx of her chronic pain and over the yrs has had work up and testing and intervention that have helped.Had 3 rounds of TPI since last summer.The pt continues to have neck and even shoulder pain which does affect her ADLs.; It is not known if there has been any treatment or conservative therapy.; Pt has a long hx of her chronic pain and over the yrs has had work up and testing and intervention that have helped.Had 3 rounds of TPI since last summer.The pt continues to have neck and even shoulder pain which does affect her ADLs.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Neurology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Instability	1
Neurology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physician directed course of non-steroidal anti-inflammatory medications	1
Neurology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.	2
Neurology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.	1
Neurology	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; The member has failed a 4 week course of conservative management in the past 3 months.; The hip pain is due to an old injury.; The request is for hip pain.	1

Neurology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Neurology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The hematuria is due to Renal Calculi/kidney/ ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Neurology	Approval	77078 Computed tomography, bone mineral density study, 1 or more sites, axial skeleton (eg, hips, pelvis, spine)		This is a request for a Bone Density Study.; This patient has not had a bone mineral density study within the past 23 months.; This is a bone density study in a patient with clinical risk of osteoporosis or osteopenia.	1
Neurology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Detail Type Description Assessment Nonintractable epilepsy without status epilepticus, unspecified epilepsy type (G40.909). Provider Plan Doing well, but asks about getting off of Keppra. Previous EEGs were normal. He can't recall any brain imaging; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; This study is being ordered for new onset of seizures or newly identified change in seizure activity or pattern.	1
Neurology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	evaluation of headaches and memory loss. He reports onset of headaches and memory loss after what he describes as a stroke in 2016. He describes the episode in June 2016 where he was driving in his work vehicle when he became nauseated and started trembli; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
Neurology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	2
Neurology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	2
Neurology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; No, the patient did not have a recent ultrasound of the knee.; The patient has not had recent plain films of the knee.; There are physical findings (palpable mass) of a suspicious mass or known primary site of cancer.; The patient has not had a recent bone scan.; <Additional Clinical Information>; Suspicious Mass or Suspected Tumor/ Metastasis	1

General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Locking	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Swelling greater than 3 days	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Suspected meniscus, tendon, or ligament injury	34
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,supsected tumor or Aseptic Necrosis; Swelling greater than 3 days	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Locking	7
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Swelling greater than 3 days	27
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; It is not known if there is a known trauma involving the knee.; Instability; Yes, the member experience a painful popping, snapping, or giving away of the knee.	3

General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; It is not known if there is a known trauma involving the knee.; Swelling greater than 3 days; No, the member do not experience a painful popping, snapping, or giving away of the knee.	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Instability; No, the member do not experience a painful popping, snapping, or giving away of the knee.	2
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Instability; Yes, the member experience a painful popping, snapping, or giving away of the knee.	27
Neurology	Disapproval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Disapproval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	In summary, Leslee S Krause is a 51 y.o. year old female who presents to the Neurology clinic at the request of Dr.Sanson for evaluation of headaches. She has a long-standing history of migraine headaches, but has also been recently diagnosed with Wegener; This study is being ordered for Vascular Disease.; Ms.Krause is a 51 year old female who presents to the Neurology clinic at the request of Dr.Sanson for evaluation of headaches. She reports onset of headaches in her early 20s which have varied in severity over the years. She tells me that several years a; There has been treatment or conservative therapy.; She has a long-standing history of migraine headaches, but has also been recently diagnosed with Wegener's vasculitis. Her neurological examination is started minute above and nonfocal. Headaches are similar to her chronic migraines although they are wors; In February 2017 she had a particularly severe headache and was then seen by Dr. Brady, a local neurologist, who started her on Topamax which was slowly increased to her current dose of 200 mg 3 times daily. However, since the new diagnosis of Wegener's, ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Disapproval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	<p>Patient with new and worsening headaches with lupus concerning for possible vasculitis.&#x0D;&#x0D;</p> <p>Set up for CT head without contrast and CTA head with contrast.; This study is being ordered for a neurological disorder.; about 2 years ago &#x0D;&#x0D;</p> <p>Ms. Harris is a 26 year old woman who comes to the clinic today for evaluation of headaches. She has been having headaches for several years but over time this has started to become worse. She will now have about 2-3 headaches per we; There has been treatment or conservative therapy.; new and worsening headaches with lupus concerning for possible vasculitis; Ms. Harris is a 26 year old woman who comes to the clinic today for evaluation of headaches. She has been having headaches for several years but over time this has started to become worse. She will now have about 2-3 headaches per week. With her more seve; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Disapproval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the brain.	1
Neurology	Disapproval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	<p>; This study is being ordered for a neurological disorder.; 07/06/2016; There has been treatment or conservative therapy.; chills, malaise/fatigue, blurred vision with migraines, shortness of breath and wheezing, abdominal pain, joint pain, dizziness, tingling and headaches. Bruises/bleeds easily; She stopped Elavil, as it didn't help. Topamax the same 1.CTA head/neck w/wo&#x0D;&#x0D;</p> <p>2.Off Elavil&#x0D;&#x0D;</p> <p>3.Off Imitrex&#x0D;&#x0D;</p> <p>4.Try Propranolol&#x0D;&#x0D;</p> <p>5.Off Topamax; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Neurology	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 09/2017 - Headache, neck pain, low back pain numbness; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Neurology	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has been a stroke or TIA within the past 2 weeks.; This is a request for a Brain MRA.	1
Neurology	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	15
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 4/15/18; There has been treatment or conservative therapy.; Headaches, ear pain, Photo Phobia, diplopia; Medication,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Limited range of motion; No, the member do not experience a painful popping, snapping, or giving away of the knee.	3
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Limited range of motion; Yes, the member experience a painful popping, snapping, or giving away of the knee.	9

General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Locking; Yes, the member experience a painful popping, snapping, or giving away of the knee.	7
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Swelling greater than 3 days; No, the member do not experience a painful popping, snapping, or giving away of the knee.	7
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Instability	62
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Limited range of motion	23
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,supsected tumor or Aseptic Necrosis; Limited range of motion	6
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,supsected tumor or Aseptic Necrosis; Swelling greater than 3 days	12
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were normal.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	14

General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were normal.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Pain greater than 3 days; It is not known if the member experience a painful popping, snapping, or giving away of the knee.	2
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were normal.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Pain greater than 3 days; No, the member do not experience a painful popping, snapping, or giving away of the knee.	3
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; 57 y/o male with pain swelling to Rt knee, large superior tibial mass, difficult ambulation, mass has been increasing in size; Suspicious Mass or Suspected Tumor/ Metastasis	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; See Previous notes; Suspicious Mass or Suspected Tumor/ Metastasis	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	11
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; It is not known if there is a known trauma involving the knee.; Pain greater than 3 days; It is not known if the member experience a painful popping, snapping, or giving away of the knee.	2
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The results of the plain films is not known.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physician directed course of non-steroidal anti-inflammatory medications	1

General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The results of the plain films is not known.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physician directed exercise program	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The results of the plain films is not known.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; It is not known if there is a known trauma involving the knee.; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Immobilization; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Immobilization	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; It is not known if there is a known trauma involving the knee.; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Immobilization; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physician directed course of non-steroidal anti-inflammatory medications	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The plain films were not normal.; WILL FAX IN; Known or Suspected Joint Infection	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Non-acute Chronic Pain; Swelling greater than 3 days; Swelling greater than 3 days	1

General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; Yes, there is a known trauma involving the knee.; Instability; Swelling greater than 3 days	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; This study is being ordered prior to arthroscopic surgery.; The ordering physician is not an orthopedist.; Pre-operative Evaluation; Instability	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; This study is being ordered prior to arthroscopic surgery.; The ordering physician is not an orthopedist.; Pre-operative Evaluation; Swelling greater than 3 days	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is taking antibiotics.; This is a study for a fracture which does not show healing (non-union fracture).	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."	7
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	2
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.; The patient is taking antibiotics.	4

General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	2
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a suspected tarsal coalition.	6
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has been treated with and failed a course of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.	2
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; There is a suspicion of fracture not adequately determined by x-ray.; The study is requested for ankle pain.; It is not known if there is a suspicion of tendon or ligament injury.	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		unknown.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; more than a month ago per pt; There has been treatment or conservative therapy.; It foot and It ankle pain; anti-inflammatory/ibuprofen with no relief; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		will fax clinical; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/29/2018; There has not been any treatment or conservative therapy.; will fax clinical; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		Wore different shoes last week and now has a rash on inside of left ankle with swelling and some burning and pain x 1 week Over the past 2 days has spread to his right inner ankle.  No injury.; This is a request for an Ankle MRI.; Surgery or arthrscopy is not scheduled in the next 4 weeks.; There is not a suspicion of fracture not adequately determined by x-ray.; The study is requested for ankle pain.; Tendon or ligament injuryis not suspected.	1
General/Family Practice	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material			1
General/Family Practice	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10/21/2016; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; Pain medication, rest; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 05/11/2018; There has not been any treatment or conservative therapy.; tingling, pain in right hip radiates to the pelvis; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		; This is a requests for a hip MRI.; The member has not failed a 4 week course of conservative management in the past 3 months.; The hip pain is chronic.; The request is for hip pain.	1
General/Family Practice	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient has a documented limitation of their range of motion.	1
General/Family Practice	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.	7

General/Family Practice	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	1
General/Family Practice	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is receiving long-term steriod therapy (Prednisone or Cortisone).	3
General/Family Practice	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	1
General/Family Practice	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient has a documented limitation of their range of motion.	4
General/Family Practice	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has a documented limitation of their range of motion.	4
General/Family Practice	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	2

General/Family Practice	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has a documented limitation of their range of motion.	6
General/Family Practice	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
General/Family Practice	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient does not have a sudden severe, chronic or recurring or a thunderclap headache.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has vision changes.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	53-year-old gentleman with what sounds to be a mild paroxysmal positional vertigo. I gave him an instruction sheet for the right Epley maneuver. If this is unsuccessful he will call us and we will send for physical therapy for vestibular training. We w; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has vertigo.; It is unknown why this study is being ordered.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	CHIEF COMPLAINT IS MEMORY LOSS WITH COGNITIVE DIFFICULTY. HISTORY OF DIFFICULTY WITH SHORT TERM RECALL FOR RECENT EVENTS, PROGRESSING OVER THE PAST YEAR'S TIME, COUPLED WITH INCREASINGLY SEVERE COGNITIVE DIFFICULTY WITH THE RECALL FOR NAMES OF THOSE CLOSE; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; It is unknown why this study is being ordered.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	complains of recurrent dizziness, lasting 10-14 seconds, not clearly lightheaded which began after she fainted and hit her head last fall. complains of a history of seizuresthat began in her 20's, in which she is exposed to flashing lights wil lose cons; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1

Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	evaluation of headaches and memory loss. He reports onset of headaches and memory loss after what he describes as a stroke in 2016. He describes the episode in June 2016 where he was driving in his work vehicle when he became nauseated and started trembli; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	He has had migraines since he was 15 yo. At his 30s, his HAs went away, instead, he had just episodes of numbness on the left side, either the left face, left arm or the left leg considered as auras, about once a couple of years. Recently he got much more; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	memory loss, weakness in legs; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
General/Family Practice	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is receiving long-term steriod therapy (Prednisone or Cortisone).; The patient has a documented limitation of their range of motion.	2
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; It is not known if this is a request for initial staging of a known tumor other than prostate.; It is not known if there are new signs or symptoms including hematuria, presenting with known cancer or tumor.; It is unknown if this patient has prostate cancer with a PSA (prostate-specific antigen) greater than 10.; It is not known if this is a request for follow up to a known tumor or abdominal cancer.; It is not known if there is a palpable or observed abdominal mass.; No,there is not an abdominal and pelvic or retroperitoneal mass that has been confirmed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; It is unknown if there are abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; This study is being ordered for another reason besides Crohn's disease, Abscess, Ulcerative Colitis, Acute Non-ulcerative Colitis, Diverticulitis, or Inflammatory bowel disease.; There are no findings that confirm hepatitis C.; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Abdomen CT.; This study is being ordered for organ enlargement.; It is not known if there is evidence of organ enlargement on ultrasound, plain film, or IVP.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Abdomen CT.; This study is being ordered for organ enlargement.; Which organ is enlarged? Spleen; The patient had an Ultrasound.; It is unknown if the Ultrasound results were equivocal.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; April 2018; There has been treatment or conservative therapy.; swelling, mass; ultrasound; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		; This is a request for an Abdomen CT.; This study is being ordered for organ enlargement.; It is not known if there is evidence of organ enlargement on ultrasound, plain film, or IVP.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		; This study is being ordered for trauma or injury.; 04/28/2018; There has not been any treatment or conservative therapy.; 2 rib fractures, localized edema and ecchymosis. New onset abdominal bruit not present on previous exam; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		2 cm left adrenal mass noted on ct on 10/29/17. patient is having more pain in same area. suspicious for tumor growing. would like to confirm that.; This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; This is not a request for initial staging of a known tumor other than prostate.; This patient does NOT have known prostate cancer with a PSA (prostate-specific antigen) greater than 10.; No, this is not a request for follow up to a known tumor or abdominal cancer.; Yes, there is a palpable or observed abdominal mass.; Yes, there has been a recent abdominal CT scan.; Yes, this is a repeat of a CT of the abdomen within 6 weeks.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		abdominal pain ultrasound shows lesions in right and left lobe of liver; This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; This is not a request for initial staging of a known tumor other than prostate.; There are no new signs or symptoms including hematuria, presenting with known cancer or tumor.; This patient does NOT have known prostate cancer with a PSA (prostate-specific antigen) greater than 10.; No, this is not a request for follow up to a known tumor or abdominal cancer.; No, there is a palpable or observed abdominal mass.; No, there is not an abdominal and pelvic or retroperitoneal mass that has been confirmed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		Abdominal pain w/ possible hernia.; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		Abdominal Pain; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	3

General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		Abnormal lab results High renin level; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Ms. Harris is a 26 year old woman who comes to the clinic today for evaluation of headaches. She has been having headaches for several years but over time this has started to become worse. She will now have about 2-3 headaches per week. With her more severe; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2016; There has been treatment or conservative therapy.; HEADACHE; Ms. Harris is a 26 year old woman who comes to the clinic today for evaluation of headaches. She has been having headaches for several years but over time this has started to become worse. She will now have about 2-3 headaches per week. With her more severe; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Pt has been having increased dizziness as well as headaches.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	pt reported left facial numbness and left leg numbness with fatigue.; This study is being ordered for a neurological disorder.; 8/9/2017; There has been treatment or conservative therapy.; Extreme fatigue, high blood pressure, feet swelling previous mri showed a FLAIR hyperintense lesion in the right anterior periventricular frontal lobe and a FLAIR hyperintense lesion in the left posterior periventricular frontal lobe.; metoprolol , tribenzor; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing dizziness.	1

General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material	Chronic abdominal pain worsening. Patient has had a negative abd ultrasound and neg egd. Abdominal pain for 3 years comes and goes usually but now getting worse, no associated with periods.; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material	Elevated LFT's and liver function studies; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material	LIVER LESION; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; It is not known if there is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; The patient does not have new symptoms including hematuria, new lab results or other imaging studies including ultrasound, doppler or x-ray (plain film) findings, suspicion of an adrenal mass or suspicion of a renal mass.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material	Mass was found on an MRI patient had done for workers comp.; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; It is not known if there is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; There is suspicion of an adrenal mass (pheochromocytoma).; The suspicion of an adrenal mass was suggested by some type of imaging other than an Ultrasound.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material	mbr has pain and nausea and blotting for 4 weeks; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material	pain; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material	Patient has abdominal pain and has a gallbladder ultrasound that showed a lesion on pancreatic head and a CT in indicated.; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material	<p>Patient has abdominal wall hernia; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone, &#x0D;</p> <p>Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement, &#x0D;</p> <p>Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT</p>	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material	<p>patient has ongoing pain for bout 3mos.; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is no suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; There are no new symptoms including hematuria.; There are no new lab results or other imaging studies including ultrasound, Doppler or plain films findings.; It is not known if there is a suspicion of an adrenal mass.; This is not a request to confirm a suspicious renal mass suggested by physical exam, lab studies, IVP or ultrasound.; Yes this is a request for a Diagnostic CT</p>	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material	<p>Patient here for left upper abdominal pain, kept her up all night, now not hurting as bad, pain has been ongoing for past year but last night more severe, bloating gas, nausea, sharp and dull pains; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone, &#x0D;</p> <p>Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement, &#x0D;</p> <p>Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT</p>	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material	<p>Patient presented with 7 days of periumilical pain and tenderness, which is aggravated by coughing. On examination, patient has a lump above the naval.; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone, &#x0D;</p> <p>Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement, &#x0D;</p> <p>Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT</p>	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material	<p>Patient was in a motor vehicle accident, and upon inspection at the ER where patient was taken, there was a CT of chest and pelvis and a 2.7 left adrenal nodule was found. and a adrenal protocol ct with and with out contrast was recommended.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.</p>	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material	<p>pt has a chief complaint of anterior abdominal wall pain that is been going on for approximately one month she states that she feels a mass which enlarges in size on occasion over the left upper part of the anterior abdominal wall.&#x0D;</p> <p>Abdomen: Inspection an; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone, &#x0D;</p> <p>Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement, &#x0D;</p> <p>Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT</p>	1

Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; The patient has undergone treatment for multiple sclerosis.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	UNKNOWN; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/21/2017- FIRST VISIT FOR SAME ISSUES; There has been treatment or conservative therapy.; THROBBING HEADACHES. RADIATING NECK PAIN INTO BILATERAL SHOULDERS. HEADACHES ARE DESCRIBED TO HAVE SPORADIC VISUAL AURA IN THE PERIPHERAL FIELDS OF VISION PRIOR TO INCEPTION. IRRITABILITY TO BRIGHT LIGHTS AND LOUD NOISES ASSOCIATED WITH HEADACHES, AS WELL; PATIENT HAS BEEN ON MEDICATION THERAPY WITHOUT IMPROVEMENT. DR DOES NOT FEEL PHYSICAL THERAPY WOULD BE SAFE FOR PATIENT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	mass shown on mri .; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Neurology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Increasing neck pain with pain numbness right upper extremity abnormal emg/ncv; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material	Pt having sever Nausea w remote history of Roux en Y Gastric Bypass. Need to rule out obstruction/destruction of bypass graft; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material	R/o fatty liver; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material	r/o insulinoma; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material	soft, BS present, no guarding or rigidity, bulging to the left side of mid abdomen. tender to palpation in that area. CT needed to further eval bulge.; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; It is not known if this is a request for initial staging of a known tumor other than prostate.; This patient does NOT have known prostate cancer with a PSA (prostate-specific antigen) greater than 10.; No, this is not a request for follow up to a known tumor or abdominal cancer.; Yes, there is a palpable or observed abdominal mass.; No, there has not been a recent abdominal CT scan.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; This is not a request for initial staging of a known tumor other than prostate.; This patient does NOT have known prostate cancer with a PSA (prostate-specific antigen) greater than 10.; No, this is not a request for follow up to a known tumor or abdominal cancer.; Yes, there is a palpable or observed abdominal mass.; No, there has not been a recent abdominal CT scan.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for a kidney/ureteral stone.; It is not known if there is a strong suspicion of kidney or ureteral stones.; This patient is experiencing hematuria.; Yes this is a request for a Diagnostic CT	1

Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; Enter date of initial onset heremigraines and cervical radiculopathy - or Type In Unknown If No Info Given; It is not known if there has been any treatment or conservative therapy.; Describe primary symptoms heremigraines, neck pain cervical radiculopathy - or Type In Unknown If No Info Given; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	none; This study is being ordered for a neurological disorder.; 00/0000; There has been treatment or conservative therapy.; weakness, numbness, neuritis, degenerative disease of nervous system.; 1. medication, 2. injections, 3. physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	2
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; 36-year-old white male with history of Bell's palsy, hypertension comes here for evaluation and treatment of dizziness. Also his recent MRI brain was abnormal which showed "Signal alteration in right cerebral hemisphere ". He is unaccompanied. Her on one; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	3
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	UNKNOWN; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/03/2018; There has been treatment or conservative therapy.; PATIENT PRESENTS WITH WORSENING GAIT DYSFUNCTION, INCREASING LEVEL OF CERVICAL AND THORACIC SPINE PAIN AND WORSENING OF INCONTINENCE OF URINE. WORSENING, RADIATING PAIN WITH SPASMS NOTATED.; HAS UNDERGONE INJECTIONS AND MEDICATION TREATMENT WHICH HAVE FAILED.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Spasms/pain in thoracic back area/low back area:likely from underlying thoracic/lumbar spine degenerative disc diseases respectively. Low back spasms resolved. Currently, having spasms in thoracic back which could be from T8-9 disc bulge he has. Tizanidin; This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1
Neurology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; Mr. Disney J Loyd is a 26 y.o. male who does a lot of lifting at his work, now with L shoulder pain, bilateral worsening paresthesias and weakness, and same in the LEs. Sounds like the shoulder injury may be the more severe/acute problem, while heavy lif; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Neurology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; Mr. Rex Rustand is a 36 y.o. male with cervical myelopathy by history and clinical exam with cramping in the LEs, as well as weakness in the legs, to the point that he can barely walk. We need imaging of his spine ASAP; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Neurology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; The patient is experiencing or presenting symptoms of asymmetric reflexes.	1
Neurology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; None of the above; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; back pain; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; None of the above; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1

Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 09/2017 - Headache, neck pain, low back pain numbness; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	43 year old female patient with h/o small fiber neuropathy presented for above concerns.  She is worsening with symptoms since 2 months.  Pain is sharp / knife like sensation that shoot from low back / hip area on right side and radiates up to knee.  S; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	He also has some underlying problems with persistent right leg pain in his calf and anterior thigh that it's been going on for several years. It was there before he had his L3-4 surgery done by Dr. Queeney in 2013 and is still there. I told him that our b; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	na; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	SEE ATTACHED; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	3

Neurology	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Assessment/ Plan 53 year old man with left forearm pain and mild weakness of wrist/finger extension. EMG findings are consistent with a posterior interosseous nerve injury but are mild. Region of pain is at or near the arcade of Frohse.  Plan: For: (G; This study is being ordered for trauma or injury.; 2/2017; There has been treatment or conservative therapy.; extremity weakness on exam left arm pain  53 year old man with left forearm pain and mild weakness of wrist/finger extension. EMG findings are consistent with a posterior interosseous nerve injury but are mild. Region of pain is at or near the arcade of ; Mr. Henry is a 53 year old man who comes to the clinic today for evaluation of left arm pain. In February of 2017 he was involved in an MVA with an 18-wheeler where the driver's side back tire was struck causing his vehicle to spin and then flip before la; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Neurology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Neurology	Disapproval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the abdominal arteries.	1
OB/Gynecology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/25/2018; There has not been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	prolactin level at 27.2 elevated...; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	2
OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is a pituitary tumor or pituitary adenoma.; There are physical findings or laboratory values indicating abnormal pituitary hormone levels.; This is NOT a Medicare member.	1
OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for a tumor.	1
OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/16/2018; There has been treatment or conservative therapy.; hormonal pregnancy level is starting to rise; injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Approval	71250 Computed tomography, thorax; without contrast material	Endometrial Biopsy performed on 03/07 shows malignant neoplasm, compatible with metastatic malignant melanoma. The biopsy shows abundant tumor cells with plasmacytoid morphology. Necrosis and brisk mitotic activity are seen.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; The patient is not undergoing active treatment for cancer.; This study is being ordered for known tumor, cancer, mass, or rule-out metastasis.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This study is not being ordered for initial staging.; The patient is presenting new signs (e.g. lab findings or imaging) or symptoms.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered because of a suspicious mass/ tumor.; "The patient has NOT had a pelvic ultrasound, barium, CT, or MR study."; This is a request for a Pelvis CT.; There are NO documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT	1

OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material	54-year-old female presents for annual exam she has history of TAHBSO complains of 2 weeks of generalized pelvic discomfort physical exam HEENT pupils equal round reactive to light accommodation extraocular movements are intact neck is supple euthyroid wi; This study is being ordered due to organ enlargement.; There is ultrasound or plain film evidence of a pelvic organ enlargement.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material	R/O brain or ovarian tumor; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; August 2017; There has been treatment or conservative therapy.; LLQ pain, dizziness, nausea, vomiting, early onset puberty, headache; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material	suspicious mass found on palpation; This study is being ordered because of a suspicious mass/ tumor.; "The patient has had a pelvic ultrasound, barium, CT, or MR study."; This is a request for a Pelvis CT.; There are NO documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material	The patient is a(n) 49 year old Caucasian/White female who returns for a unscheduled post-operative visit after undergoing TLH BSO davinci with cystoscopy on 05/22/2018. The pathology was negative for malignancy.  The patient complains of the following s; This study is being ordered due to known or suspected infection.; "The ordering physician is a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2016; There has been treatment or conservative therapy.; BACK & HIP PAIN, GROIN PAIN; NSAIDS, PT, ULTRASOUND; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	cyst; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Endometrial Biopsy performed on 03/07 shows malignant neoplasm, compatible with metastatic malignant melanoma. The biopsy shows abundant tumor cells with plasmacytoid morphology. Necrosis and brisk mitotic activity are seen.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	having excessive menstration and wants mri to better discern the anatomy; This is a request for a Pelvis MRI.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; An abnormality was found in the uterus.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	9

OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		Will fax clinical information; This is a request for a Pelvis MRI.; The study is being ordered for something other than suspicion of tumor, mass, neoplasm, metastatic disease, PID, abscess, Evaluation of the pelvis prior to surgery or laparoscopy, Suspicion of joint or bone infect	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		will send fax; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material			2
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		The patient is a 32 year old Caucasian/White female, G2 P0002, whose LMP is 03/27/2018, who presents with a history of pelvic pain.  The patient had a diagnostic laparoscopy with removal of her right ovary a few months ago and states that her pain has re; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	3
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	4
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	4
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1

OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	2
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	2
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		TVUS 61118 reveals uterus 10 x 5 x 6 cm. nml sized ovaries.; This study is being ordered for Congenital Anomaly.; ; There has been treatment or conservative therapy.; ABNORMAL UTERINE, EXCESSIVE AND FREQUENT MENSTRUATION , PELVIC AND PERINEAL PAIN AND ABDOMINAL PAIN; 27 y/o with suspected endometriosis, dysmenorrhea. menorrhagia, failed conservative treatment. TVUS 61118 reveals uterus 10 x 5 x 6 cm. nml sized ovaries. She has a prior BTL.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		patient has uterine fibroids with recurrent miscarriages; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon.";	1
OB/Gynecology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Ct was Feb/2018 to determine a specific diagnosis	1
OB/Gynecology	Approval	74185 Magnetic resonance angiography, abdomen, with or without contrast material(s)		This is a request for a MR Angiogram of the abdomen.	1

OB/Gynecology	Approval	74712 Magnetic resonance (eg, proton) imaging, fetal, including placental and maternal pelvic imaging when performed; single or first gestation		This a request for a Fetal MRI; An ultrasound of the mother been completed.; Congenital anomalies of the spine has been identified or remains uncertain after an ultrasound.	1
OB/Gynecology	Approval	74712 Magnetic resonance (eg, proton) imaging, fetal, including placental and maternal pelvic imaging when performed; single or first gestation		This a request for a Fetal MRI; An ultrasound of the mother been completed.; Congenital or vascular anomalies of the brain or skull has been identified or remains uncertain after an ultrasound.	1
OB/Gynecology	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the abdominal arteries.	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral			1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		; This is a request for Breast MRI; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	10
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		; This is a request for Breast MRI; This study is being ordered for known breast lesions.; There are NOT benign lesions in the breast associated with an increased cancer risk.	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		Family history of breast cancer; This is a request for Breast MRI; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		PATIENT HAS HISTORY OF LEFT BREAST BIOPSY (UNSURE OF DATE). RESULT WAS BENIGN. PATIENT HAD ULTRASOUND GUIDED BIOPSY 5/21/18. RESULT WAS BENIGN, INCREASED FIBROSIS. WITH HER LIFETIME RISK OF 40% BREAST MRI IS RECOMMENDED.; This is a request for Breast MRI; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1

OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		PT HAS HX OF ATYPICAL DUCTAL HYPERPLASIA IN HER LT BREAST WHICH IS CONSIDERED A HIGH RISK PATHOLOGY. PT HAD A BILATERAL BREAST MRI 11/18/17 THAT SHOWED AN AREA OF ABNORMAL ENHANCEMENT IN LT BREAST ONLY VISUALIZED ON MRI. 6 MONTH FOLLOW UP MRI WAS RECOMMEN; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		Pt is having left bloody nipple discharge with negative mammogram and ultrasound. Pt also has family history of breast cancer in mother, maternal aunt and maternal grandmother with bilateral breast cancer. Pt has not had genetic testing and has not had a ; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		PT'S MOTHER HAD BREAST CANCER AT AGE 36 AND AGAIN AT AGE 41. PT'S PATERNAL GRANDMOTHER HAD BREAST CANCER AT 62. PT HAS A CALCULATED LIFETIME RISK OF 33.8%; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered as a screening examination following genetic testing for breast cancer.; The patient has a lifetime risk score of greater than 20.	4
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; Yes, this is an individual who has known breast cancer in the contralateral (other) breast.	1
OB/Gynecology	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/25/2018; There has not been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	CERVICAL CANCER; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	3
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient does not have a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; It is unknown if the patient has Crohn's Disease, Ulcerative Colitis or Diverticulitis.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The results of the ultrasound are unknown.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	2
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	WILL JUST UPLOAD NOTES; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	76497 Unlisted computed tomography procedure (eg, diagnostic, interventional)	Radiology Services Denied Not Medically Necessary	Requesting a CT Scan with cystography. Cannot find code in your list.; Requestor has decided to proceed with the unlisted code.	1

OB/Gynecology	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Obstetrics & Gynecology	Disapproval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Pt is experiencing continuous LLQ pain. U/S shows R ovarian mass of mixed density, possible hemorrhagic cyst. Measuring 3.8 x 3.4x 2.5 cm; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Occupational Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has not been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	2
Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology	1
Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		restaging; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		There are 2 exams are being ordered.; There are 2 exams are being ordered.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology; The ordering MDs specialty is Oncology; The ordering MDs specialty is Oncology	1
Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	1
Oncology	Approval	71250 Computed tomography, thorax; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology	8
Oncology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology	1

Oncology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology	1
Oncology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		restaging; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Oncology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology	1
Oncology	Approval	74150 Computed tomography, abdomen; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology	2
Oncology	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; Yes, this is a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT	2
Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; It is unknown if the patient has been diagnosed with small cell or non small cell lung cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Oncology	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	1

Ophthalmology	Approval	70450 Computed tomography, head or brain; without contrast material		patient had an MRI brain/orbit on Sunday, June 3rd, 2018. The scan showed enhancing frontal lesion which is indeterminate. Further evaluation with CT head was recommended. pt. has bilateral optic atrophy and bilateral color vision loss. we are ordering th; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
Ophthalmology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Ophthalmology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1
Ophthalmology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; November 2015; It is not known if there has been any treatment or conservative therapy.; On may 3rd 2018 in our office for appointment-pt stated that ever since his open heart surgery-heart valve replacement due to thoracic aortic aneurysm- on 11/19/2015 he has had episodes of auras and bright light after image. It lasts 5 to 10 minutes and; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/10/18; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/24/18; It is not known if there has been any treatment or conservative therapy.; optic neuritis; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/12/18; There has not been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; It is not known if there has been any treatment or conservative therapy.; eye is turning outward; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		; It is unknown if there is a suspicion of an infection or abscess.; It is unknown if this examination is being requested to evaluate lymphadenopathy or mass.; There is not a suspicion of a bone infection (osteomyelitis).; It is unknown if there is a suspicion of an orbit or face neoplasm, tumor, or metastasis.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/16/2018; There has not been any treatment or conservative therapy.; Double vision. Blurry vision. Has to turn head to see clearly.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		dry eyes; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Feb 2018; There has not been any treatment or conservative therapy.; vision decrease in both eyes, changes in perifrrial vision,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		evaluate extra ocular muscle movement; There is not a suspicion of an infection or abscess.; This examination is NOT being requested to evaluate lymphadenopathy or mass.; There is not a suspicion of a bone infection (osteomyelitis).; There is NOT a suspicion of an orbit or face neoplasm, tumor, or metastasis.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		malformation of Eye; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		r/o bilateral optic atrophy; There is not a suspicion of an infection or abscess.; This examination is NOT being requested to evaluate lymphadenopathy or mass.; There is not a suspicion of a bone infection (osteomyelitis).; There is NOT a suspicion of an orbit or face neoplasm, tumor, or metastasis.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1

Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		There is not a suspicion of an infection or abscess.; This examination is being requested to evaluate lymphadenopathy or mass.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		This is a request for an Orbit MRI.; There is a history of orbit or face trauma or injury.	1
Ophthalmology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Ophthalmology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		; This study is being ordered for trauma or injury.; two months ago; There has not been any treatment or conservative therapy.; severe open angled glaucoma right eye associated with increased episcleral pressure. history of head trauma right sided carotid cavernous fistula.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		MRI in 2015, Transient visual loss, constant headache for the last three months everyday, nausea and vomiting; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Ophthalmology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		nerve pain right eye and forehead, pt. stated during exam that last Dec. of 2017 he felt like a pressure was pulling and pushing on his right side; he has pain on his right side of head; the episodes last a few seconds to a full hour. He has ringing in hi; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Ophthalmology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	2
Ophthalmology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		unknown; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		weight gain, but started Diamox and has being trying to lose weight; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; She said at the age of 15 she had severe headaches and had several spinal taps with elevated opening pressures. She is currently having headaches and optic nerve swelling. recurrence of IIH.; It is not known if there has been any treatment or conservative therapy.; severe headaches, she does have pulsatile tinnitus but no transient visual loss. elevated pressures for past lumbar punctures, persistent papilledema; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient is experiencing dizziness.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 08/04/2017; There has not been any treatment or conservative therapy.; Vertical stigma, head bobbing.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10/23/2017; There has not been any treatment or conservative therapy.; blur vision headache; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/26/18; There has been treatment or conservative therapy.; migraine headaches, diplopia, eyes crossing; glasses; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/10/18; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/24/18; It is not known if there has been any treatment or conservative therapy.; optic neuritis; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for a neurological disorder.; March 26, 2018-diagnosis of left cranial nerve six palsy on exam.; There has not been any treatment or conservative therapy.; patient only sees peripheral in left eye. Her left eye pulls and hurts, especially when she is trying to sleep. She has had four eye surgeries to straighten her vision as well as increase her vision clarity in the left eye. She has a history of left optic; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; vision loss on and off since 2010; It is not known if there has been any treatment or conservative therapy.; pt. states that she wakes up and her vision is gone. it comes and goes and lasts for up to 30 minutes. She had an MRI in 2011 and that was negative. need a repeat MRI. Blurred vision. She was seen in our office on April 16th 2018. She has Ehlers-Danlos Sy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for trauma or injury.; two months ago; There has not been any treatment or conservative therapy.; severe open angled glaucoma right eye associated with increased episcleral pressure. history of head trauma right sided carotid cavernous fistula.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		H47.10; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		High blood pressure; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		increased intracranial hypertension, has headaches daily-usually in the morning.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		malformation of Eye; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		patients sight is getting dramatically worse all of the sudden need to r/o brain tumor or other pathology that may be causing sudden loss of sight; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Pt suffers with double vision for 4x months. Accompanied with pains and tremors.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	4
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	8
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for a tumor.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		unknown; This study is being ordered for a neurological disorder.; 04/27/2018; There has not been any treatment or conservative therapy.; dizziness, double vision, bell palsy,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a kidney/ureteral stone.; There is a known or a strong suspicion of kidney or ureteral stones.; Yes this is a request for a Diagnostic CT	6
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; It is not known if there is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; It is not known if there are new symptoms including hematuria.; It is not known if there are new lab results or other imaging studies including ultrasound, Doppler or plain films findings.; It is not known if there is a suspicion of an adrenal mass.; This is a request to confirm a suspicious renal mass suggested by physical exam, lab studies, IVP or ultrasound.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; It is not known if there is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; There are new symptoms including hematuria.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is no suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; It is not known if there are new symptoms including hematuria.; There are no new lab results or other imaging studies including ultrasound, Doppler or plain films findings.; It is not known if there is a suspicion of an adrenal mass.; This is a request to confirm a suspicious renal mass suggested by physical exam, lab studies, IVP or ultrasound.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is no suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; There are no new symptoms including hematuria.; There are new lab results or other imaging studies including ultrasound, Doppler or plain films findings.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is no suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; There are no new symptoms including hematuria.; There are no new lab results or other imaging studies including ultrasound, Doppler or plain films findings.; There is not a suspicion of an adrenal mass.; This is a request to confirm a suspicious renal mass suggested by physical exam, lab studies, IVP or ultrasound.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are known or endoscopic findings of Diverticulitis.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are known or endoscopic findings of Ulcerative Colitis.; Yes this is a request for a Diagnostic CT	1
Ophthalmology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	1
Ophthalmology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2009 first leak repair; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; Diamox - medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	visual symptoms. floaters. flashing lights; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/12/18; There has been treatment or conservative therapy.; intractable headaches; medication and an injection for headaches; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Disapproval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 03/21/2018; There has not been any treatment or conservative therapy.; Hit with baseball bat; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is no suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is not a suspicion of an infection or abscess.; This is not being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	1
Ophthalmology	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	3
Ophthalmology	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3 weeks ago; There has not been any treatment or conservative therapy.; Vision loss in R eye and headaches; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	pt dx w/papilledema; dis edema in both eyes; pulsatile tinnitus; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; It is not known if there has been any treatment or conservative therapy.; blurred vision; ha;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	sudden onset of extreme pain with blurred vision and aura's; This study is being ordered for a metastatic disease.; There are 2 exams being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/16/2018; There has not been any treatment or conservative therapy.; Double vision. Blurry vision. Has to turn head to see clearly.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient complains of double vision for 1 month has had a CT scan that could not rule out problems. Doctor indicated MRI needs to be ordered; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Ophthalmology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	pt dx w/papilledema; dis edema in both eyes; pulsatile tinnitus; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; It is not known if there has been any treatment or conservative therapy.; blurred vision; ha;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	sudden onset of extreme pain with blurred vision and aura's; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are NO abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; There are known or endoscopic findings of Diverticulitis.; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc...; There are clinical findings or indications of Lymphadenopathy.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		UMBLLICAL CORD HERNIA; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc...; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		Unknown; This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are NO abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; This study is being ordered for another reason besides Crohn's disease, Abscess, Ulcerative Colitis, Acute Non-ulcerative Colitis, Diverticulitis, or Inflammatory bowel disease.; There are no findings that confirm hepatitis C.; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		unknown; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Approval	74150 Computed tomography, abdomen; without contrast material		went to er with ruq pain gallbladder us normal still having pain hx of myloangioma; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the abdomen.	9
Orthopedics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
Orthopedics	Approval	71250 Computed tomography, thorax; without contrast material		; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	4
Orthopedics	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)		This study is being ordered for pre-operative evaluation.; The ordering physician is an oncologist, surgeon, pulmonologist, or cardiologist.; This is a request for a chest MRI.	1

Orthopedics	Approval	72125 Computed tomography, cervical spine; without contrast material			1
Orthopedics	Approval	72125 Computed tomography, cervical spine; without contrast material		; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	2
Orthopedics	Approval	72125 Computed tomography, cervical spine; without contrast material		Cervical Radiculopathy, along with This is a very pleasant 64-year-old woman that has been evaluated by Alicia Bell in this clinic. She has been identified as having a C6-7 problem and underwent cervical epidural injections with minimal relief with the f; This study is being ordered for a neurological disorder.; 03/012018; There has been treatment or conservative therapy.; This is a very pleasant 64-year-old woman that has been evaluated by Alicia Bell in this clinic. She has been identified as having a C6-7 problem and underwent cervical epidural injections with minimal relief with the first and little relief with the sec; This is a very pleasant 64-year-old woman that has been evaluated by Alicia Bell in this clinic. She has been identified as having a C6-7 problem and underwent cervical epidural injections with minimal relief with the first and little relief with the sec; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72125 Computed tomography, cervical spine; without contrast material		Ginger apparently had an MRI scan 2 months ago but I do not have the scans nor the report. I would recommend that she pick these up from Dr. Krishnan's office. In the meantime I think she needs a CAT scan to evaluate her prior surgery and make sure she ; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
Orthopedics	Approval	72125 Computed tomography, cervical spine; without contrast material		It is not known if the patient has any neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to chronic neck pain or suspected degenerative disease.; There has been a supervised trial of conservative management for at least 6 weeks.; The patient is experiencing sensory abnormalities such as numbness or tingling.; There is a reason why the patient cannot have a Cervical Spine MRI.	4
Orthopedics	Approval	72125 Computed tomography, cervical spine; without contrast material		The patient does have neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to chronic neck pain or suspected degenerative disease.; There has been a supervised trial of conservative management for at least 6 weeks.; The patient is experiencing sensory abnormalities such as numbness or tingling.; There is a reason why the patient cannot have a Cervical Spine MRI.; This study is being ordered for another reason besides Abnormal gait, Lower extremity weakness, Asymmetric reflexes, Documented evidence of Multiple Sclerosis,  Bowel or bladder dysfunction, Evidence of new foot drop, etc...	1
Orthopedics	Approval	72125 Computed tomography, cervical spine; without contrast material		This study is to be part of a Myelogram.; This is a request for a Cervical Spine CT	5
Orthopedics	Approval	72131 Computed tomography, lumbar spine; without contrast material			1
Orthopedics	Approval	72131 Computed tomography, lumbar spine; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2

Orthopedics	Approval	72131 Computed tomography, lumbar spine; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; February 2016; There has not been any treatment or conservative therapy.; 45-year-old male who is a known IV drug user who is treated and Fort Smith in February 2016 for L5-S1 discitis with Ivana biotics only. He was in bed for 8 weeks before able to mobilize due to debilitating pain. He has been clean other than nicotine sin; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72131 Computed tomography, lumbar spine; without contrast material		58-year-old female status post anterior posterior reconstructive surgery for kyphoscoliosis. Over the last 1.5 years he developed progressive bilateral buttock and leg pain to the knee. Occasionally goes below the knee but mostly stays above the knee.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Orthopedics	Approval	72131 Computed tomography, lumbar spine; without contrast material		Had a previous lumbar spine surgery; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; April 6, 2018; There has been treatment or conservative therapy.; Severe back pain; Medications (inflammatory medications); One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72131 Computed tomography, lumbar spine; without contrast material		I spent around one hour with Ms. Smith today. I discussed with them that surgical reconstruction of the patient's spinal deformity is an extremely large surgery. The patient understands that this is a high risk surgery. I discussed the risk of the surgery; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10 years; There has been treatment or conservative therapy.; Over the last 10 years she has had progressive moderate to severe right-sided thoracolumbar pain with minimal radiation down the leg. She occasionally has pain down the right leg most all the pain is in the right thoracolumbar area. She can only walk sh; physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72131 Computed tomography, lumbar spine; without contrast material		Persistent pain; This study is being ordered for Congenital Anomaly.; 02/15/18; There has been treatment or conservative therapy.; back pain. occasional numbness; Medication (anti-inflammatory, Physical Therapy,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is not experiencing symptoms of radiculopathy for six weeks or more.; There is no neurologic symptoms of bowel or urinary bladder dysfunction.; There is no suspicion of lumbar spine infection.; There is no suspicion of lumbar spine neoplasm or tumor or metastasis.; Yes this is a request for a Diagnostic CT	4
Orthopedics	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	17
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 04/2017; There has not been any treatment or conservative therapy.; LEFT ARM WEAKNESS, LEFT LEG WEAKNESS, BLADDER INCONTINENCE, ANTALGIC GAIT ON LEFT SIDE.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 1/23/2017; There has been treatment or conservative therapy.; Low back pain, Neck pain, Upper extremity pain, lower extremity pain, tingling,; Medications, PT, Heat and Ice, HEP,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; 55 yo female with acute onset of left arm pain, numbness/tingling and weakness. Upon further questioning, she endorses some mild similar symptoms in the lower legs as well. She reports being bitten by a rat 4 months ago and did not seek treatment. She is ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1. Multilevel degenerative disc disease, significant C5-6 with bilateral foraminal stenosis severe on the right, radiating right shoulder, arm pain, numbness, tingling&#x0D;</p> <p>2. Mild to moderate left foraminal narrowing, C3-4, C4-5 and C6-7&#x0D;</p> <p>3. Right C7 radi; There has been treatment or conservative therapy.; This is a pleasant 57-year-old female who presents follow-up left transforaminal L5-S1 epidural steroid injection for disc protrusion performed 4/24/18.&#x0D;</p> <p>&#x0D;</p> <p>She has history of degenerative disc disease, central protrusion at L5-S1. She has had several inj; Injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; This is a 24-year-old woman who was diagnosed with idiopathic scoliosis as an adolescent and treated in a brace. She never required surgery in the brace was effective in containing the curve magnitude to a nonoperative magnitude. She says that she was i; There has not been any treatment or conservative therapy.; This is a 24-year-old woman who was diagnosed with idiopathic scoliosis as an adolescent and treated in a brace. She never required surgery in the brace was effective in containing the curve magnitude to a nonoperative magnitude. She says that she was i; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>1. Neck pain - Plain films C-spine AP/lateral/odontoid 4/2/2018 imported into OA - on my review, there is straightening and reversal of typical cervical lordosis, with asymmetric degenerative changes for the patient's age in the C5-6 and, to a greater ext; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; tenderness to palpation of the paracervicals. Soft Tissue Palpation on the Left: no tenderness of the paracervicals*, the upper trapezius*, the levator scapulae*, or the rhomboid* and no palpable trigger points*. Active Range of Motion: restricted to cerv; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.</p>	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>c4-5 disc narrowing on xray; balance and coordination issues; dense parathesias lue; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.; positive hoffman; hyper reflexic brachioradialic & biceps</p>	1

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Cervical Radiculopathy, along with This is a very pleasant 64-year-old woman that has been evaluated by Alicia Bell in this clinic. She has been identified as having a C6-7 problem and underwent cervical epidural injections with minimal relief with the f; This study is being ordered for a neurological disorder.; 03/012018; There has been treatment or conservative therapy.; This is a very pleasant 64-year-old woman that has been evaluated by Alicia Bell in this clinic. She has been identified as having a C6-7 problem and underwent cervical epidural injections with minimal relief with the first and little relief with the sec; This is a very pleasant 64-year-old woman that has been evaluated by Alicia Bell in this clinic. She has been identified as having a C6-7 problem and underwent cervical epidural injections with minimal relief with the first and little relief with the sec; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Cervicalgia; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; anti inflammatory meds	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.; April 19, 2018   Devon R. Ballard, M.D. Sherwood, AR  Fax: 501-833-1720  RE:Annettea Denis, #26301 DOB: 11/09/1957  Dear Dr. Ballard:  It was a pleasure to see your patient, Annettea Denis, in the office today. My office notes are as foll	1

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	none; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/15/2018; There has been treatment or conservative therapy.; Severe. Persistent pain in the neck and R shoulder with radiculopathy. Weakness and numbness in the neck and R shoulder.; Pt. has failed 6 weeks of conservative therapy including, Physical Therapy, medication, lifestyle modification; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Numbness in both hands and feeling of weakness; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Spinal stenosis of the cervical region with nerve root impingement. Surgical intervention planned; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/28/2017; There has been treatment or conservative therapy.; Severe neck and L shoulder pain with radiculopathy, weakness and numbness; Exercises, Physical Therapy, medication, Joint Injections and lifestyle modification; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.	2
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	9
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical Therapy.	3
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has completed 6 weeks or more of Chiropractic care.	1

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	13
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Pre-Operative Evaluation; No, the last Cervical spine MRI was not performed within the past two weeks.	5
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	13
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	19
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; <Enter Additional Clinical Information>	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Cervicalgia Chronic left radiculopathy likely C8 on recent EMG/NCV  Mild median neuropathy at the right wrist and mild radial neuropathy at the right wrist on recent EMG/NCV status post right carpal tunnel release by Dr. Norton 5/16/18	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Trauma or recent injury; Yes, the patient have new or changing neurological signs or symptoms.; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	2
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		unknown; This study is being ordered for Congenital Anomaly.; 5-21-12; There has been treatment or conservative therapy.; Pain in her lower back, chronic low back pain, spine bifida, spondylolthesis; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/2016; There has been treatment or conservative therapy.; Pain in neck/right shoulder with numbness and tingling in fingers, weakness in R arm; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	UNKNOWN; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2006; There has been treatment or conservative therapy.; NECK PAIN RADIATING INTO SHOULDERS, LOW BACK PAIN, LEG PAIN RADIATING INTO ANKLES AND FEET; HOME EXERCISE, PHYSICAL THERAPY, MEDICATIONS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 8/2017; There has been treatment or conservative therapy.; pain with daily activity, bumpy deformity on the spine and that is rapidly progressing and the magnitude of the curvature is rapidly progressing.; Bracing, Home exercise , anti-inflammatories and Vit D.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10 YEARS AGO; There has been treatment or conservative therapy.; SEVERE BACK PAIN, NECK PAIN; MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 05/07/2018; There has been treatment or conservative therapy.; cervical and lumbar pain.....radiating symptom on legs; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2

Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/15/2017; There has been treatment or conservative therapy.; Lumbar and Thoracic Spine pain&#x0D;</p> <p>Tenderness on Palpation&#x0D;</p> <p>Radiating pain; Lumbar Injection 06/2017 and 04/2018&#x0D;</p> <p>&#x0D;</p> <p>Gabapentin (since at least 2017)&#x0D;</p> <p>&#x0D;</p> <p>Tramadol/Tylenol alternating 02/19/2018. &#x0D;</p> <p>&#x0D;</p> <p>Walker 06/19/2017&#x0D;</p> <p>&#x0D;</p> <p>Bracing 02/19/2018; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 08/12/2015; It is not known if there has been any treatment or conservative therapy.; scoliosis; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/10/18; There has been treatment or conservative therapy.; Lumbar and thoracic pain with bilateral weakness in legs with bladder weakness and retention.; nonsteridol anti-inflammatory medications, lifestyle modification, spinal excersises.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; SCOLIOSIS; It is not known if there has been any treatment or conservative therapy.; UPPER BACK PAIN WHICH IS INTERMITTENT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		<p>I am very concerned that over the last months she is developing positional neurologic changes including paralysis from the waist down. She is having some uncontrolled bladder as well as. It is reasonable given the progression of the deformity that she c; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/22/18; It is not known if there has been any treatment or conservative therapy.; 62-year-old female with history of kyphoscoliosis. &#x0D;</p> <p>&#x0D;</p> <p>She continues to have severe back pain that radiates down the left buttock and leg. The patient over the last month has developed numbness and weakness from the waist down with inability to we are le; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		<p>It is not known if the patient has any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.</p>	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		<p>None; This study is being ordered for trauma or injury.; 5-6years ago; There has been treatment or conservative therapy.; Numbness, tingling, weakness, pain, headaches; Chiropractor and medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		<p>The patient does not have any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.</p>	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		<p>unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 8/2017; There has been treatment or conservative therapy.; pain with daily activity, bumpy deformity on the spine and that is rapidly progressing and the magnitude of the curvature is rapidly progressing.; Bracing, Home exercise , anti-inflammatories and Vit D.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material			4
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		<p>&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 04/2017; There has not been any treatment or conservative therapy.; LEFT ARM WEAKNESS, LEFT LEG WEAKNESS, BLADDER INCONTINENCE, ANTALGIC GAIT ON LEFT SIDE;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 1/23/2017; There has been treatment or conservative therapy.; Low back pain, Neck pain, Upper extremity pain, lower extremity pain, tingling.; Medications, PT, Heat and Ice, HEP.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	2
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Anterior Tibials; Weakness right; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; He cannot get from a sitting position to a lying position. He has to sit . He has to have his hip flexed. Internal and external rotation of the hip is nonpainful. Extension of the knee causes muscle spasms and pain even in the sitting position. He s	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material			10
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/15/2017; There has been treatment or conservative therapy.; Lumbar and Thoracic Spine pain Tenderness on Palpation Radiating pain; Lumbar Injection 06/2017 and 04/2018  Gabapentin (since at least 2017)  Tramadol/Tylenol alternating 02/19/2018.   Walker 06/19/2017  Bracing 02/19/2018; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/22/2017; There has been treatment or conservative therapy.; Back pain, numbness, tingling.; Chiropractor, Medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2 years; There has not been any treatment or conservative therapy.; Mr. Hearn is a 72-year-old man with a history of left-sided neck pain for several years. This has been a pain that is intermittent with certain activity such as moving his head to the left. His pain is always been 1 specific spot left side of his neck ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/10/18; There has been treatment or conservative therapy.; Lumbar and thoracic pain with bilateral weakness in legs with bladder weakness and retention.; nonsteridol anti-inflammatory medications, lifestyle modification, spinal excersises,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; SCOLIOSIS; It is not known if there has been any treatment or conservative therapy.; UPPER BACK PAIN WHICH IS INTERMITTENT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This study is being ordered for trauma or injury.; 06/09/2018; There has been treatment or conservative therapy.; There is burning and stinging sensation in his inner thighs. Feels a pulling sensation in groin area. pain is worse when standing; pain medication, NSAIDS, muscle relaxer; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	47 year old female presents with right flank pain, possible kidney stone. Patient has history of 5 kidney stones with stents and lithotripsy.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	abdominal pain, nausea; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	acute blood loss; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	blood in urine, left cba severe pain; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	48-year-old female status post a fall in 2015. Since that time she has had progressive back pain that radiates down the right buttock and leg. The pain is burning and sharp. Rest does help. Pain worsens with bending and lifting. She has had physica; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	AP and lateral x-ray of the entire spine ordered, obtained, and interpreted today reveals mild lumbar curvature in the upper lumbar spine. Degenerative changes. Mild disc space narrowing L3-4 and L5-S1. There is also disc space narrowing C4-5.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	diminished sensation to L2-S1. she appears to have weakness and numbness throughout the left side; This study is being ordered for trauma or injury.; 6/5/18; There has been treatment or conservative therapy.; Neck and lower back pain with left arm and leg weakness and numbness; Left arm sling; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	I am very concerned that over the last months she is developing positional neurologic changes including paralysis from the waist down. She is having some uncontrolled bladder as well as. It is reasonable given the progression of the deformity that she c; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/22/18; It is not known if there has been any treatment or conservative therapy.; 62-year-old female with history of kyphoscoliosis.   She continues to have severe back pain that radiates down the left buttock and leg. The patient over the last month has developed numbness and weakness from the waist down with inability to we are le; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Inspection: no induration, ecchymosis, or swelling and scoliosis and asymmetry. Bony Palpation of the Lumbar Spine: pain to palpation intire t and l spine. Bony Palpation of the Right Hip: no tenderness of the iliac crest, the ASIS, the PSIS, the pubic tu; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Coordination: heel-to-shin normal. Babinski Reflex Right: plantar reflex absent. Babinski Reflex Left: plantar reflex absent. Special Tests: Valsalva's test negative. Ankle Reflex Right: hyperactive (3). Ankle Reflex Left: normal (2). Knee Reflex Right: h; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	blood in urine...neck pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Enter answer here hx of kidney stones, pain is progressing severely day by day; left hemidiaphragm is not working as well as the right one.; This study is being ordered for Inflammatory/ Infectious Disease.; has been of and on for a few months, but 04/01/2018 intensified greatly; There has been treatment or conservative therapy.; sharp pains on breathing inspiration and on bending over, pain originally left posterior rib/back now is more lateral and anterior rib/flank and steady with increase in pain with inspiration and bending over.; he has history of kidney stones; received medications for hurt back in October 2017; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	INFECTION; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	left flank pain.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Location: LLQ; RLQ; periumbilical  Quality: cramping; feels like hunger pains  Duration: constant; started: (1 week ago 05/10/2018)  Onset/Timing: worse Context: food (gives temporary relief)  Modifying Factors: nothing gives relief; eating; drinking; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	patient has acute abd pain with hematuria and elevated white blood cell count; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	patient has colitis, menorrhagia, dysmenorrhea; This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; It is not known if the patient has a fever and elevated white blood cell count or abnormal amylase/lipase.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient has Ulcerative Colitis.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Patient has had urinalysis, urine culture, KUB xray, abdominal film.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Patient has history of Hodgkin's Disease treated with radiation therapy, thyroid dysfunction/nodules, renal nodule and multiple pulmonary nodules.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has not been any treatment or conservative therapy.; Chronic Renal Failure, asymptomatic renal nodule, peripheral edema; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Patient having Post-Operative abdominal Pain; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Patient reports abdominal pain, flank pain, low back pain, chills, fever, constipation, nausea, straining, hesitancy, empties poorly, urgency, frequency, dysuria, and nocturia 2 times a night. She reports continuous and symptoms worse during the day. She ; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Patient was seen at other walk in clinic on 04/15/18 and recommended to have CT if abdominal pain is not resolved. On exam the patient has a positive heel tap and pain at McBurney's point.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Patient with prolonged abdominal, epigastric pain with palpable mass. Now with nausea and vomiting. Ultrasound noted no abnormalities and recommended CT for further workup.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		low back pain with increased radiculopathy and weakness on exam following lumbar laminectomy, and failed physical therapy. Has failed conservative treatment of NSAIDs, surgery, injections and physical therapy.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; low back pain with increased radiculopathy and weakness on exam following lumbar laminectomy, and failed physical therapy. Has failed conservative treatment of NSAIDs, surgery, injections and physical therapy.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		none; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/18/18; There has not been any treatment or conservative therapy.; Pain in groin w/ motion. Positive leg raise.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		None; This study is being ordered for trauma or injury.; 5-6years ago; There has been treatment or conservative therapy.; Numbness, tingling, weakness, pain, headaches; Chiropractor and medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		PATIENT FELL ON 4.22 AND SUSTAINED AN INJURY. XR SHOW AN OLDER COMPRESSION FX, PT HAS A BRACE AND USES NSAIDS. NO RELIEVING FACTORS.; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>patient in severe pain in the thoracic lumbar region. &#x0D;</p> <p>xrays are abnormal but non diagnostic .&#x0D;</p> <p>suspected t 10 compression fracture. Radiologist recommended an MRI for further evaluation.; This study is being ordered for a neurological disorder.; 6 months ago. getting no relief with Physical therapy for over 8 weeks, NSAIDS for 6 months and home exercise program and change in activity level and other conservative treatment.; There has been treatment or conservative therapy.; Pain in the thoracic lumbar region that has been going on for 6 months steadily increasing with in the past month.&#x0D;</p> <p>No conservative treatment helps it. &#x0D;</p> <p>symptoms consistent with a t10 compression fracture.; All conservative treatment has failed:&#x0D;</p> <p>NSAIDS like Ibuprofen for 6 months&#x0D;</p> <p>Physical therapy for over 8 weeks&#x0D;</p> <p>Home exercises for over 8 weeks, &#x0D;</p> <p>oral steroids , muscle relaxers like Flexiril for over 8 weeks&#x0D;</p> <p>&#x0D;</p> <p>&#x0D;</p> <p>xrays taken 6/7/2018 of the lumbar and th; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>Problem # 5: Ventral hernia (ICD-553.20) (ICD10-K43.9)&#x0D;</p> <p>Patient has easily reducible 4 cm x 3 cm ventral hernia. This area is slightly tender to palpation. Discussed options of surgical evaluation for closure and risks versus benefits of this. Also di; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT</p>	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>Pt came to the clinic with a 5-6 week hx of abdominal and pelvic pain. States her ABD is "full", having abouts of nausea with no diarrhea . Pt is underweight at 111#, being 5"4.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT</p>	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>pt had abnormal ct in feb and radiologist recommended recheck in 3 months.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.</p>	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>PT HAS ALCOHOLIC PANCREATITIS AND WENT TO ST MARYS ER TO HAVE THE FIRST CT DONE, PT NEEDS A SECOND REPEAT CT DONE BECAUSE OF CYSTIC ABNORMALTY.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT</p>	1

General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		pt has been having upper abdominal pain, has history of abscess. had normal US. needs CT to assess. pt also needs CT chest for f/u breast cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Pt has had constipation for 3+ weeks. Severe bloating and worsening abdominal pain. Pt now has vomiting and abdominal xray is suspicious for blockage; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Pt is having abd pain & diarrhea. We are looking for diverticulitis; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Pt. c/o gradually worsening left upper quadrant pain for the last few days which is radiating down to the left groin, the pain seems worse with urination at least seems to be related to urination. His aching pain is severe causing the sensation of nausea; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		R/o Cancer. Pt lost 25 lbs in the last month.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		R/O:PERIUMBILICAL LYMPHINITIS ULTRASOUND DONE :04/25/2018 RESULTS: AT THE REQUEST OF:RONNIE D LEE, MD PATIENT NAME:LETASHA D BREESE DOB:08/11/1990 AGE/SEX:27/Female DATE OF SERVICE:04/25/2018 PATIENT ID#:1192644  PROCEDURE(S): US ABD COMPLETE; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Refer to diagnosis codes; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		RULE OUT KIDNEY STONE; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	ruling out hernia and diverticulitis; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	RUQ pain crampy in nature, abdominal distention noted.pt is moderate to heavy alcohol drinker daily. pt triglycerides 1259. Patient is at severe risk for pancreatitis.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	severe pain in left lower abdomen, severe pelvic pain and hurts worse when walks, did labs, and pregnancy test, ABN urine finds; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Pt is a 58 years old RHD Male with Low back and left leg pain. Pt presents today and reports Dr. Crabtree did surgery on his c/spine on 2/14/18, and his neck pain is now essentially gone. He is now complaining of instability when walking. Pt reports he ha; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The patient is a right handed 49 year old female seen today for the low back. Pain is severe with a rating of 9/10. She describes the symptoms as sharp. The symptoms are constant. Since the onset, she reports the problem is getting worse. The symptoms ar; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	6
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; the patient was treated with a facet joint injection.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is x-ray evidence of a recent lumbar fracture.	2
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with an Epidural.	3

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has completed 6 weeks or more of Chiropractic care.	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		She has a history of renal stones that required surgery in November and has Nephrostomy tube. She has complications of blood loss from surgery and had to get blood transfusion. Now c/o urinary frequency and hesitancy and flank pain.   Burning abdominal ; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		STOMACH PAIN /NAUSEA/VOMITING/RIGHT SIDE PAIN RADIATING TO BACK H/O PANCREATITIS; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		The Pt has new onset right floank pain. Copious blood in urine. Rule out kidney stone.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the hematuria is not known.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; Yes this is a request for a Diagnostic CT	8
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; It is not known if the urinalysis results were normal or abnormal.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for bilirubin.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	2

General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for acute pain.; There has not been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; It is unknown if there has been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; Infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease; Yes, the patient has been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; It is not known if this is the first visit for this complaint.; It is unknown if there has been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient does not have a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient does not have Crohn's Disease, Ulcerative Colitis or Diverticulitis.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	9
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is organ enlargement.; There is ultrasound or plain film evidence of an abdominal organ enlargement.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed within the past 10 months.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; It is unknown if the patient has completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	15
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Follow-up to surgery or fracture within the last 6 months; The patient been seen by or the ordering physician is a neuro-specialist, orthopedist, or oncologist.	2
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	140

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	41
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has completed Treatment with a facet joint or epidural injection in the past 6 weeks	2
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		unknown; This study is being ordered for Congenital Anomaly.; 5-21-12; There has been treatment or conservative therapy.; Pain in her lower back, chronic low back pain, spine bifida, spondylolthesis; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72192 Computed tomography, pelvis; without contrast material		; This study is being ordered as a follow-up to trauma.; "The ordering physician is a gastroenterologist, urologist, gynecologist, or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	3
Orthopedics	Approval	72192 Computed tomography, pelvis; without contrast material		History of L1 and L2 compression factors with 50 % loss. Developed toxic pain from a recent fall.; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		Pt states she has a long history of hip pain, 5-10 years. She has tried and failed formal PT, CSIs, ice, heat, PO NSAIDs, Rx pain meds and rest. She had an allergic reaction to prior CSI so repeat steroids are not a good option. Pt states her hip is sensit; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for evaluation of the pelvis prior to surgery or laparoscopy.	2
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for pelvic trauma or injury.	11
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of joint or bone infection.	4
Orthopedics	Approval	73200 Computed tomography, upper extremity; without contrast material		This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	19
Orthopedics	Approval	73200 Computed tomography, upper extremity; without contrast material		This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is not suspicion of upper extremity bone or joint infection.; The ordering physician is an orthopedist or rheumatologist.; Yes this is a request for a Diagnostic CT	5

Orthopedics	Approval	73200 Computed tomography, upper extremity; without contrast material		This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is not a preoperative or recent postoperative evaluation.; There is suspicion of upper extremity neoplasm or tumor or metastasis.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		complications after surgery;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/2018; There has been treatment or conservative therapy.; Severe pain; swelling; tingling and numbness; OT twice per wk; given home therapy and was mobilized; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is suspicion of upper extremity bone or soft tissue infection.	4
Orthopedics	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is suspicion of upper extremity neoplasm or tumor or metastasis.	5
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)			12
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; none; There has been treatment or conservative therapy.; possible tear; injection and physical more 6 months ago; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 2/5/2018; There has been treatment or conservative therapy.; Chronic pain, instability, effusion, limited range of motion, popping and clicking; NSAIDS, brace, home exercise, PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		; The pain is from a recent injury.; It is not know if surgery or arthroscopy is scheduled in the next 4 weeks.; There is a suspicion of tendon or ligament injury.; This is a request for an elbow MRI; The study is requested for evaluation of elbow pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; The patient received oral analgesics.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	3
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		; This study is being ordered for trauma or injury.; 06/30/1997; There has been treatment or conservative therapy.; PAIN CHRONIC PAIN; Physical therapy  bracing surgery NSAIDS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		5.6.18 pt was cooking and cut her lt wrist. she has pain and numbness in wrist and need to eval tendons for damage; The pain is from a recent injury.; It is not know if surgery or arthroscopy is scheduled in the next 4 weeks.; There is a suspicion of tendon or ligament injury.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		Approximately two weeks ago she fell out of the bed and injured her right shoulder. History of right shoulder rotator cuff tear repair on 6/30/2017. There has been no change in the symptoms with ice, heat, rest and Tylenol. On examination, Severe rotator ; The requested study is a Shoulder MRI.; The pain is from a recent injury.; It is not know if surgery or arthroscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		Examination shows very painful with impingement provocative positions and cross body adduction. Xray shows degenerative changes at the AC joing with mild glenohumeral joint degenerative changes.; The requested study is a Shoulder MRI.; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		Follow up after surgery. Limited range of motion, increase in swelling and pain.; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		had surgery in January, discomfort with limited motion, recd a shot in February unable to lift overhead.; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	No injury, pain is worse at night, positive supra spinatus, and impingement manuevers, weakness with testing, xray shows rotator cuff tear, anti-inflammatories failed, and injection steroid into joint also failed for treatment.; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	none; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; ice, heat, ns aids, muscle relaxers, rest, elevation, for 5 weeks; The patient received oral analgesics.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	none; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/15/2018; There has been treatment or conservative therapy.; Severe. Persistant pain in the neck and R shoulder with radiculopathy. Weakness and numbness in the neck and R shoulder.; Pt. has failed 6 weeks of conservative therapy including, Physical Therapy, medication, lifestyle modification; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Pain after significant trauma; The pain is from a recent injury.; Surgery or arthrscopy is not scheduled in the next 4 weeks.; There is a suspicion of tendon or ligament injury.; This request is for a wrist MRI.; This study is requested for evalutation of wrist pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Pain with range of motion of the shoulder. Positive Hawkins sign. Positive impingement sign.; The requested study is a Shoulder MRI.; The pain is from a recent injury.; It is not know if surgery or arthrscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Patient has had this pain for more than a year, and has tried conservative treatment for his pain. It's not helping. The ordering physician is an orthopedist who want to get these scans as a pre-operative measure.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/27/2018; There has been treatment or conservative therapy.; Radiating pain, numbness and tingling in his arms, hands, and fingers. Clicking in the acromioclavicular joint when moving his shoulders.; injections, NSAIDs, ice, heat, physical therapy, rest; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	pre op eval ordered by orthopedist. abnormal shoulder exam and xray.; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		pt has shoulder pain x 1 year, + Hawkins, + neer, painful ROM, catching of joint, r/o cuff tear; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; home based PT and strengthening exercises, nsaids, rest since seeing his pcp in January.; The patient received oral analgesics.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		Pt has tenderness in acromion, external rotation at 30. extension 40, active and passive abduction 90, muscle strength 4/5, impingement is pos. drop arm pos, can not elevate hand or arm to touch head, rotator cuff weakness; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; started 2 months ago in April 2018, has not improved; flexeril, ibuprophen, tylenol; The patient received medication other than joint injections(s) or oral analgesics.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		pt went to er with shoulder pain and was referred to our office. orthopaedic physician has planned a joint replacement. but mri is needed to see if pt has rotator cuff tear which will tell him if a routine total joint or reverse total joint replacement ; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; It is unknown if the patient had an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; There are abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; Infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; There are NO abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; This study is being ordered for another reason besides Crohn's disease, Abscess, Ulcerative Colitis, Acute Non-ulcerative Colitis, Diverticulitis, or Inflammatory bowel disease.; There are no findings that confirm hepatitis C.; Infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; ; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; There is a known or a strong suspicion of kidney or ureteral stones.; Kidney/Ureteral stone; Yes this is a request for a Diagnostic CT	6
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Suspicious Mass or Tumor; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	87
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient had an endoscopy.; The endoscopy was normal.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		RIGHT SHOULDER INJURY AND CERVICAL SPINE RADICULOPATHY. ALL CONSERVATIVE MEASURES HAVE FAILED.; This study is being ordered for trauma or injury.; APRIL 23, 2018; There has been treatment or conservative therapy.; FELT A POP IN LATERAL ASPECT OF RIGHT SHOULDER WHEN LIFTING A BOARD OVERHEAD. IMMEDIATE PAIN AND WEEKNESS AND HAS BEEN HAVING IT EVER SINCE. ALSO HAVING NUMBNESS FROM CERVICAL SPINE THAT GOES DOWN INTO HIS HANDS, THIS WAKES HIM UP FROM SLEEP. RIGHT SHOUL; CONSERVATIVE THERAPY FOR ABOUT 4 WEEKS. REST ICE CHANGE IN ACTIVITY LEVEL, ORAL STEROIDS, FLEXIRIL,HOME PHYSICAL THERAPY PROGRAM. XRAYS ARE NORMAL.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		Right shoulder pain and limited range of motion. He injured his shoulder eight years ago. He has been taking medications with no relief. He has pain in the superior aspect. He states he has popping and grinding in the shoulder. Exam is positive for imping; The requested study is a Shoulder MRI.; The pain is from an old injury.; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; The patient received oral analgesics.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		same answer as I typed in at the last screen. shoulder pain for several mths, dec rom, posterior instability, + neer sign, + draw test, positive labral shear, + jerk test. probable labral tear, shoulder arthrogram requested to check labrum; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; The patient received oral analgesics.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		SINCE PATIENT DOES NOT KNOW WHAT HAPPENED DURING THE ALTERCATION THE DR WANTS AN MRI TO RULE OUT A TEAR; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; HAS HAD CHANGE IN ACTIVITY AND HOME EXERCISES, WITH NO PAIN RELIEF.; The patient received oral analgesics.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		Spinal stenosis of the cervical region with nerve root impingement. Surgical intervention planned; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/28/2017; There has been treatment or conservative therapy.; Severe neck and L shoulder pain with radiculopathy, weakness and numbness; Exercises, Physical Therapy, medication, Joint Injections and lifestyle modification; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		swelling above right clavicle; checking for possible mass; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/01/2017; There has been treatment or conservative therapy.; pain, discomfort reaching behind, swelling, stiffness; Physical Therapy, NSAID'S, HEP; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		SYMPTOMS: PAIN, CREPITUS, DECREASED MOBILITY, JOINT INSTABILITY, JOINT LOCKING, LOINT TENDERNESS, POPPING, WEAKNESS. PAIN STARTED 2 WEEKS AGO. TRIED REST, ICE, CSI BUT PAIN IS GETTING WORSE. XRAY- NEGATIVE. + OBRIEN'S. + HAWKIN'S. + NEER'S.; The requested study is a Shoulder MRI.; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The member has a recent injury.; There is a suspicion of fracture not adequately determined by x-ray.; It is not known if there is a suspicion of tendon or ligament injury.; This request is for a wrist MRI.; The reason for the study is not for evaluation of wrist pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The pain is from a recent injury.; There is a suspicion of fracture not adequately determined by x-ray.; Tendon or ligament injury is not suspected.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.	2

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; < Enter answer here - or Type In Unknown If No Info Given. >	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; 2 years status post left shoulder arthroscopy with labral repair and biceps tenodesis. Today she complains of a painful knot underneath the incision and is likely a suture scar from the deltoid closure. However she also complains of left shoulder and join	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; checking for fracture.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Pain and inflammation	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	9
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	7
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed a pelvic mass.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	9
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	53
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	10
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; It is unknown if a contrast/barium x-ray has been completed.; The patient had an endoscopy.; The endoscopy was normal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	13
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	36
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has not been a physical exam.; The patient had an lipase lab test.; The results of the lab test were abnormal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were abnormal.; Yes this is a request for a Diagnostic CT	22
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were abnormal.; Yes this is a request for a Diagnostic CT	11
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		unexplained weight loss; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	unknown.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10/03/2017; There has not been any treatment or conservative therapy.; thrombocytopenia unintentional 27lb weight loss in 2 monhts; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/15; There has not been any treatment or conservative therapy.; Urgency of urination, sob, ABD pain and distention; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	urinary urgency/frequency, left lower abdominal pain, left flank pain, dysuria.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	< Enter answer here - or Type In Unknown If No Info Given. >; This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A liver abnormality was found on a previous CT, MRI or Ultrasound.; It is unknown if there is suspicion of metastasis.	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has been treatment or conservative therapy.; anemia; physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	; This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A liver abnormality was found on a previous CT, MRI or Ultrasound.; It is unknown if there is suspicion of metastasis.	2

General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	<p>Bladder: The bladder is somewhat poorly visualized due to bowel gas and the patient's body habitus. The bladder is partially distended. Ureteral jets are not appreciated.</p> <p>IMPRESSION:</p> <ol style="list-style-type: none"> The kidneys are normal in size bilaterally. A 1.3 x 1.3 x 1.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; END OF MARCH 2018- EARLY APRIL 2018; There has been treatment or conservative therapy.; Abdominal: Soft. Bowel sounds are normal. He exhibits no abdominal bruit and no mass. There is no splenomegaly or hepatomegaly. There is no tenderness. There is no guarding and no CVA tenderness. <p>THIS IS A FOLLOW UP TO PREVIOUS ULTRASOUND RENAL/PLADDER; Exam: US RENAL AND BLADDER Reason For Exam: Proteinuria; IMPRESSION:</p> <ol style="list-style-type: none"> The kidneys are normal in size bilaterally. A 1.3 x 1.3 x 1.1 cm hypochoic cyst is appreciated in the medial aspect of the mid to lower pole of the left kidney. Retrospectiv; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology 	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	<p>none; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	<p>This request is for an Abdomen MRI.; This study is being ordered for follow-up trauma.; The ordering physician is not a gastroenterologist or surgeon.; There are no laboratory or physical evidence of an intra-abdominal bleed.; There are no physical findings or abnormal blood work consistent with peritonitis or abdominal abscess.; Patient had a nodule removed from his kidney, follow-up MRI to assess if all the problems have been resolved.</p>	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	<p>This request is for an Abdomen MRI.; This study is being ordered for known or suspected infection.; "The ordering physician is a gastroenterologist, urologist, or infectious disease specialist.";</p>	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	<p>This request is for an Abdomen MRI.; This study is being ordered for known or suspected infection.; "The ordering physician is a gastroenterologist, urologist, or infectious disease specialist."; &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;</p>	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	<p>This request is for an Abdomen MRI.; This study is being ordered for known or suspected infection.; "The ordering physician is not a gastroenterologist, urologist, or infectious disease specialist."; "There are physical findings or abnormal blood work consistent with peritonitis, pancreatitis, or appendicitis."; THE PT IS IMMUNE COMPROMISED. PT HAS BEEN SICK FOR SOME TIME. THE PT HAS CHRONIC LOW MAGNESIUM AND POTASSIUM LEVELS</p>	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	<p>This request is for an Abdomen MRI.; This study is being ordered for known or suspected infection.; There are physical findings or abnormal blood work consistent with pancreatitis.; A lipase abnormality was noted.</p>	1

General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; The patient is not presenting new symptoms.; The patient has had 3 or fewer follow-up abdomen MRIs.; This study is being ordered for follow-up.; The patient is not undergoing active treatment for cancer.; "The ordering physician is not an oncologist, urologist, gastroenterologist, or surgeon."; this if the first abd mri; look for nodule changes; 2016 ct showed 10 mm lesion r hepatic lobe	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.; "The ordering physician is not an oncologist, urologist, gastroenterologist, or surgeon."; Patient had CT scan on 5/8/18 and it showed a renal mass 4.5cm and it was recommended that we follow up with an MRI of Abdomen	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; < Enter answer here - or Type In Unknown If No Info Given. >	5
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Abdominal pain. CT show 2.0 x 2.0 cystic mass in pancreas. Radiologist recommends MRI of abdomen for further evaluation. Focal ectasia and borderline aneurysmal dilatation of the infrarenal abdominal aorta measuring 3.0 cm	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; ABNORMAL ABDOMINAL ULTRASOUND. LIVER NODULE	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; CT showed lesion on pancreas	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Liver mass noted in the CT Abdomen/pelvis	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; None	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; patient has nausea & vomiting. His CT scan showed a cystic mass measuring 2.8 x 5.3 cm in size. It measures near water density. There are edematous changes subcutaneous tissues of the mons pubis. Inguinal lymph nodes are identified bilaterally, t	1

General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; patient having right flank pain and back pain - renal cyst picked up on ct of abdomen/pelvis - renal ultrasound showed possible mass in left kidney	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; PATIENT WITH ABDOMINAL PAIN FOR FEW MONTHS, #30 WEIGHT LOSS, ABNORMAL CT ABDOMEN SHOWING 11MM LOW-ATTENUATION NODULE IN THE POSTERIOR RIGHT HEPATIC SEGMENT. PLEASE CONSIDER FURTHER CHARACTERIZATION WITH LIVER PROTOCOL CT OR MRI	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Stacy had CT of the abd/pelvis W contrast on 04/25/18. Pt's impression was a 10mm lesion within the right lobe of the liver.	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; unknown	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; US NON-DIAGNOSTIC	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; WITHIN THE RIGHT LOBE THE LIVER IS, THERE IS A WEDGE-SHAPED AREA OF DECREASED DENSITY ON THE PRECONTRAST IMAGES, THIS DEMONSTRATES DIFFUSE, HOMOGENEOUS ARTERIAL ENHANCEMENT AND BECOMES ISODENSE WITH THE LIVER ON THE DELAYED PHASE OF THE EXAM. THERE IS MAY	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Mass found on CT. Recommended MRI for further eval of mass	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Patient is due for 6 month follow-up MRI for enhancing liver mass seen on previous MRI done on January 05/2018. Mass in right lobe enhances following contrast.	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A abnormality was found on the pancreas during a previous CT, MRI or Ultrasound.	1

General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A liver abnormality was found on a previous CT, MRI or Ultrasound.; There is suspicion of metastasis.	5
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; < Enter answer here - or Type In Unknown If No Info Given. >	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; her bilirubin was elevated and liver function test as well. she has had malaise and fatigue..	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; liver Mass	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; US abdomen shows liver lesion, recommended MRI to further eval.	1
General/Family Practice	Approval	74185 Magnetic resonance angiography, abdomen, with or without contrast material(s)		This is a request for a MR Angiogram of the abdomen.	1
General/Family Practice	Approval	74263 Computed tomographic (CT) colonography, screening, including image postprocessing			1
General/Family Practice	Approval	75571 Computed tomography, heart, without contrast material, with quantitative evaluation of coronary calcium		His 10yr risk of ASCVD is right at 4.9%. Red Yeast Rice recommended. Send for Coronary CT to further eval for ASCVD. Family history of coronary artery disease (Z82.49).; This is a request for a CT scan for evaluation of coronary calcification.	1
General/Family Practice	Approval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)		The patient has three or more of the following conditions: age over 50, diabetes, history of hypertension, history of LDL cholesterol above 130, history of HDL cholesterol below 35, obesity (BMI above 35), and/or active history of smoking.; This request is for a Coronary CT Angiography study.; No, patient did not have a Nuclear Cardiology study within the past six months.; This study is being ordered for suspected Coronary Artery Disease (CAD) and symptomatic?; No, patient does not have new onset congestive heart failure.; Pt here today to review MRI and carotid dopplers. Continues to have L sided facial twitches and burning sensation that come and go. MRI looked okay, but carotid showed possible.; Yes, there is Chronic Chest Pain.	1

General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		; This is a request for Breast MRI.; This study is being ordered for known breast lesions.; There are NOT benign lesions in the breast associated with an increased cancer risk.	4
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		Breast Lump in female.; This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; It is not known if this patient have axillary node adenocarcinoma.	1
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		na; This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; It is not known if this is an individual who has known breast cancer in the contralateral (other) breast.	1
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		Pt has known family history of breast cancer in mother, known ovarian cancer in family (unknown). She has a lifetime risk of 22.5%, BRCA 1 is .16% and BRCA2 is .33%. Prior biopsy done in 2017, MRI of Breast requested as follow-up in 6 months.; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; It is unknown if there is a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		Skin changes over both breasts, lifetime risk assessment greater than 20%; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; No, this patient does not have axillary node adenocarcinoma.; No, there are no anatomic factors (deformity or extreme density) that make a simple mammogram impossible.; It is unknown if there are benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		They did a diagnostic mammogram because the mass was too deep to be seen by the diagnostic mammogram.; This is a request for Breast MRI.; This study is being ordered for known breast lesions.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; It is not known if this patient have axillary node adenocarcinoma.; It is unknown if there are benign lesions in the breast associated with an increased cancer risk.	1
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; No, this patient does not have axillary node adenocarcinoma.; Yes, there are anatomic factors (deformity or extreme density) that make a simple mammogram impossible.; It is unknown if there are benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; Yes, this is a confirmed breast cancer.; Yes, the results of this MRI (size and shape of tumor) affect the patient's further management.	4

General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		< Enter answer here - or Type In Unknown If No Info Given. >; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	2
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has 3 or more cardiac risk factors; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 20 to 29	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/13/2018; There has been treatment or conservative therapy.; shortness of breath, chest pain; Ekg; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		; The study is being ordered for suspected CAD.; It is unknown if the patient has symptoms of atypical chest pain (angina) or shortness of breath.; The patient has not had a recent non-nuclear stress test.; It is not known if the patient had a recent abnormal EKG consistent with CAD.; The patient has not had a recent stress echocardiogram.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	2
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Chest pain (R07.9); # Type II diabetes mellitus well controlled (E11.9); # Hyperlipidemia (E78.5); # Hypertension (I10); The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		chest pain w/sob, fatigue, exertional dyspnea. Worse w/activity. also has hypertension; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Chest pain with EKG changes. However, recently diagnosed with DVT and began anticoagulation 2 days ago. History of GI bleed x 2 of unknown etiology which required PRBC. Last episode was 3 years ago.; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		history of dvt; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Patient has ovarian cancer. High blood pressure; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Patient is experiencing chest pain/ pressure that feels as if someone is sitting on her chest associated with shortness of breath. She also reports recent interval increased swelling in her ankles. Patient also notes that her blood pressure has been eleva; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1

General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Patient is having chest pain worrisome for angina. He has a history of Hypertension & atrial fib of unknown onset. CHADS Vasc 2 Score 1.; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Pt has a negative history for CAD. The patient does not smoke. The pt gets regular exercise. The pt was exercised using the Modified Bruce Protocol.  Resting heart rate 58, resting blood pressure 122/100. Resting EKG normal. The pt was exercised for 14 ; The study is being ordered for suspected CAD.; The patient is not presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.; The results of the previous nuclear cardiology study were not normal.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Summary  The left ventricle is normal in size.  The Ejection Fraction estimate is 60-65 % .  The left ventricular wall motion is normal.  A variety of Doppler measurements indicate normal left ventricular  diastolic function.  The aortic valve; The patient has had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The patient is diabetic.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1

General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have diabetes.; This is a Medicare member.	2
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are documented clinical findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	17
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; There are documented clinical findings of hypertension.; The patient has not had a recent non-nuclear stress test.; "Patient is not clinically obese, nor has an emphysematous chest configuration."; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	2
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; There are no documented clinical findings of hypertension.; The patient is not diabetic.; The patient has not had a recent non-nuclear stress test.; "Patient is not clinically obese, nor has an emphysematous chest configuration."; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; The patient is female.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	2

General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has 3 or more cardiac risk factors; The study is requested for congestive heart failure.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 40 or greater	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; The member does not have known or suspected coronary artery disease	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This study is being ordered as a pre-operative evaluation.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; The patient has not had a recent stress echocardiogram.; The patient has suspected CAD.; This patient is clinically obese or has an emphysematous chest configuration.; The patient has not had a stress echocardiogram within the past eight weeks.; This evaluation is prior to major surgery involving general anesthesia.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This study is being ordered as a pre-operative evaluation.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; There are documented clinical findings of hypertension.; The patient has not had a recent non-nuclear stress test.; The patient has not had a recent stress echocardiogram.; The patient has suspected CAD.; "Patient is not clinically obese, nor has an emphysematous chest configuration."; The patient has not had a stress echocardiogram within the past eight weeks.; This evaluation is prior to major surgery involving general anesthesia.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Unable to get good views of the apex with stress echo on 06/13/18. Nuclear stress test needed for further evaluation.; The patient has had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Unable to perform the stress test; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		unknown; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on an imaging study.; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
General/Family Practice	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

General/Family Practice	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; A nodule of less than 4 centimeters has been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; The solitary pulmonary nodule was identified on an imaging study in the last 30 days.; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
General/Family Practice	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
General/Family Practice	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Melanoma.; This is for evaluation of regional lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
General/Family Practice	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
General/Family Practice	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Brain Cancer/Tumor or Mass.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; The reason for ordering this study is unknown.	3
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; The patient has shortness of breath; Shortness of breath is not related to any of the listed indications.	2

General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This request is NOT for initial evaluation of a murmur.; This is NOT a request for follow up of a known murmur.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; The patient has abnormal heart sounds	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; There has been a change in clinical status since the last echocardiogram.; This request is for initial evaluation of a murmur.; It is unknown if the murmur is grade III (3) or greater.; It is unknown if there is clinical symptoms supporting a suspicion of structural heart disease.; This is a request for follow up of a known murmur.	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; There has been a change in clinical status since the last echocardiogram.; This request is NOT for initial evaluation of a murmur.; This is a request for follow up of a known murmur.	2
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Valves.; The patient has suspected prolapsed mitral valve.	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Valves.; This is an evaluation of new or changing symptoms of valve disease.	2
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Valves.; This is an initial evaluation of suspected valve disease.	8
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Congenital Heart Defect.; This is for evaluation of change of clinical status.	2

General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Heart Failure; There has been a change in clinical status since the last echocardiogram.; This is NOT for the initial evaluation of heart failure.	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient has a history of hypertensive heart disease.; There is a change in the patient's cardiac symptoms.	3
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Pulmonary Hypertension.	9
General/Family Practice	Approval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;		This is a request for a Stress Echocardiogram.; The patient had cardiac testing including Stress Echocardiogram, Nuclear Cardiology (SPECT/MPI), Coronary CT angiography (CCTA) or Cardiac Catheterization in the last 2 years.; The patient is experiencing new or changing cardiac symptoms.; The member has known or suspected coronary artery disease.	1
General/Family Practice	Approval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;		This is a request for a Stress Echocardiogram.; The patient has NOT had cardiac testing including Stress Echocardiogram, Nuclear Cardiology (SPECT/MPI), Coronary CT angiography (CCTA) or Cardiac Catheterization in the last 2 years.; The member has known or suspected coronary artery disease.	9
General/Family Practice	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; It is unknown if the patient is presenting with pulmonary signs or symptoms of lung cancer or if there are other diagnostic test suggestive of lung cancer.; The patient quit smoking less than 15 years ago.	1
General/Family Practice	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	56
General/Family Practice	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		53 yo male noted to have chronic right upper quadrant pain. He has an elevated alk phos liver isoenzymes. Please evaluate. He has had a thorough w/u without an identifiable cause. Could he have a bile duct obstruction causing his pain?; This is a request for MRCP.; There is no reason why the patient cannot have an ERCP.	1
General/Family Practice	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		Gastrointestinal: Positive for abdominal pain, anorexia, diarrhea, flatus, nausea and vomiting. Abdominal: Soft. Bowel sounds are normal. There is tenderness in the left lower quadrant. There is no rebound. NEEDING STUDY PRIOR TO APPT WITH SPECIALIST; This is a request for MRCP.; There is no reason why the patient cannot have an ERCP.	1
General/Family Practice	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		patient has liver and pancreatic mass; This is a request for MRCP.; There is a reason why the patient cannot have an ERCP.; The patient has not undergone an unsuccessful ERCP.; The patient does not have an altered biliary tract anatomy that precludes ERCP.; The patient does not require evaluation for a congenital defect of the pancreatic or biliary tract.; The MRCP will not be used to identify a pancreatic or biliary system obstruction that cannot be opened by ERCP.; "The patient is not an infant or young child, and not an adult who is debilitated or uncooperative in such a manner that ERCP is unsafe or cannot be performed."; "The patient has neither a documented allergy to iodine-based contrast materials, or a general history of allergic responses."; The patient does not have acute pancreatitis.	1
General/Family Practice	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		This is a request for MRCP.; There is a reason why the patient cannot have an ERCP.; The patient has not undergone an unsuccessful ERCP.; The patient does not have an altered biliary tract anatomy that precludes ERCP.; The patient does not require evaluation for a congenital defect of the pancreatic or biliary tract.; The MRCP will be used to identify a pancreatic or biliary system obstruction that cannot be opened by ERCP.	1
General/Family Practice	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		This is a request for MRCP.; There is a reason why the patient cannot have an ERCP.; The patient has not undergone an unsuccessful ERCP.; The patient has an altered biliary tract anatomy that precludes ERCP.	2
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/20/2018; There has not been any treatment or conservative therapy.; PAIN; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	<none; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1

General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; 6/7/2018; There has been treatment or conservative therapy.; New onset headache,  Neck pain  Neck Swelling  feels like someone is choking her; patient has taking pain medication for both , and inflamitory medication , with no improvement; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Patient has had pain in shoulder for several years has had a couple injuries over the past couple of years. Patient has pain with overhead activity and has pain at night. Patient has some muscle atrophy on left side compared to other side anteriorly and p	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; R/O rotator cuff tear.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; recurrent shoulder laxity; dislocation of L shoulder; possible structural damage	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Right shoulder pain. Pain is aching, piercing and sharp. Lifting and twisting make it worse. Positive Kim and jerk test. Scapular dyskinesis is noted	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; patient has had a CT which was inconclusive an a NRI has been requested to better evaluate the supraclavicular mass.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is an orthopedist.	385
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Patient complains of severe right shoulder pain after a fall one week ago. Failed treatment with Immobilization, rest, acetaminophen and NSAIDs	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Pt is a 36 years old RHD Female with RIGHT shoulder pain for 1 year. No specific injury to onset this pain noted. No pain at night. No associated numbness and tingling. No previous surgeries or problems with this shoulder. The pain is described as dull,	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Both conditions have been ongoing for over 2 years with no relief from any prescribed or OTC meds thus far.; This study is being ordered for Inflammatory/ Infectious Disease.; January 1, 2016; There has been treatment or conservative therapy.; Migraine Headaches - right sided headache pain, light and sound sensitivity, nausea Chronic Sinusitis - maxillary pain/tenderness, sinus congestion/drainage; Chronic Sinusitis - fluticasone nasal spray and OTC antihistamines Migraine Headaches - Fioricet, Tylenol #3 and Topamax.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	c/o a constant numbness with occasional tingling feeling on his scalp on the right side of his head x 3 weeks.about size of 5 x 5 cm circle. Reports it feels like when you hand goes to sleep that same feeling is on his scalp on the right side, about the s; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Enter answer here - or Type In UnPatient to be evaluated for headache. Onset was one month ago. The pain is diffuse with no specific location. The pain radiates to the posterior neck and left and right eye. She has had headaches prior to this, but the; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Memory Loss Reported by patient. Severity: moderate  Duration: started 10 days ago  Onset/Timing: abrupt onset  Context: no history of trauma; seizure; as a child  Associated Symptoms: agitation/restlessness; forgot where his rent is paid at, things; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1

General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	None; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	pain in the neck; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Patient continues to have acute amnesia.; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Patient continues to have recurrent headaches that start in her occipital area mostly on the left side. She has to take the headache medication to 3 times a week. She has noticed increased watering in her eyes with mild blurring whenever the headaches h; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	patient had a abnormal ct previously but never followed up with anyone; This study is being ordered for trauma or injury.; 01/01/2018; There has been treatment or conservative therapy.; severe headache, right knee pain with decrease range of motion; anti-inflammatory , steroids, pain meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has anxiety. Is having delusions, sleep disturbances and social withdrawal issues. Needs CT scan for further evaluation; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has daily headaches, this is getting worse, this has been ongoing for the past several years. She is also having vision disturbances; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	patient is having a worsening of symptoms with no relief from conventional measures; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	patient with chronic tension type non intractable headaches.feeling of pressure and lightheadedness when headache first starts. Headaches are worsening. patient c/o dizziness and Diplopia for the last 2 weeks. Headache is bitemporal. Once headache starts ; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Pt is a 50 years old RHD Female with RIGHT shoulder pain for 3 years. Pt complains of pain at night. No associated numbness and tingling. No previous surgeries or problems with this shoulder. The pain is described as a sharp, achy pain that is intermitte	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; SYMPTOMS:PAIN, TINGLING IN ARM, DECREASED MOBILITY, JOINT INSTABILY, JOINT TENDERNESS, WEAKNESS, DIFFICULTY SLEEPING. PHYSICAL EXAM: DECREASED STRENGTH.+ HAWKINS, + NEER'S, STRENGTH TEST -ABNORMAL. LIMITED ROM.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; using it makes it worse	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has had recent plain films of the shoulder.; The plain films were normal.; It is not known if the patient is experiencing joint locking or instability.; The patient has a documented limited range of motion on physical examination.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has had recent plain films of the shoulder.; The plain films were normal.; The patient is NOT experiencing joint locking or instability.; The patient has a documented limited range of motion on physical examination.	5
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has had recent plain films of the shoulder.; The plain films were not normal.	5
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for post-operative evaluation.; The ordering physician is an orthopedist.	12
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for post-operative evaluation.; The ordering physician is not an orthopedist.; There are no documented physical or laboratory findings of a joint infection.; It is not known if there is documented findings of delayed healing.; It is not known if there are physical or plain film findings of prosthetic device dislocation.; < Enter answer here - or Type In Unknown If No Info Given. >	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; "This study is not being ordered prior to a planned or scheduled open surgery (joint replacement, etc.).";	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; "This study is not being ordered prior to a planned or scheduled open surgery (joint replacement, etc.)."; Patient has a Rt shoulder injury. He has continued pain after NSAIDS and therapy. He notes that the pain is getting worse and the decreased ROM. He is getting worse and now can not sleep or get comfortable. Dr. Kelly suspects a rotator cuff tear since	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; "This study is not being ordered prior to a planned or scheduled open surgery (joint replacement, etc.)."; Right shoulder recurrent pain likely rotator cuff tendinitis/bursitis.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.; Dr Ball needs to evaluate the extent of rotator cuff tear to determine if it needs repair open or closed	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.;	26
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; < Enter answer here - or Type In Unknown If No Info Given. >	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; He would like to have an MRI scan done to confirm my suggested diagnosis and I think shoulder arthroscopy with subacromial decompression is in his future. He would like to do an MRI on his right shoulder	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; If mri shows labral tear, pt is willing to undergo arthroscopic surgery.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; MRI ARTHROGRAM	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; none	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; Patient has failed NSAIDS and a steroid injection. She is still having pain in her shoulder. She can not reach over her head without pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; The patient returns for follow-up. Mobic has been helpful but he still having some pain with activities and especially any heavy use of his shoulder. At this point, I think it is reasonable to proceed with an MR arthrogram to evaluate his labrum and rot	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; The right shoulder has a positive empty can, positive impingement test, positive O'Brien, negative sulcus, positive Speed. Forward flexion to 120 degrees and abduction 100 degrees. Neurologic Exam: She has 5/5 muscle strength in all myotomes and 2+/4 r	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; There is no deformity to the shoulder. No erythema or ecchymosis. Mildly TTP over the anterolateral shoulder. Active range of motion restricted in FF and abduction due to discomfort. Reduced internal rotation. Passive range of motion notes pain and crepit	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; unknown	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is not being ordered prior to arthroscopic surgery.; "This study is not being ordered prior to a planned or scheduled open surgery (joint replacement, etc.)."; < Enter answer here - or Type In Unknown If No Info Given. >	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	59
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient received joint injection(s).	8
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is from a known mass.; The diagnosis of Mass, Tumor, or Cancer has been established.; The study is requested for staging.; The request is for shoulder pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is from an old injury.; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient received joint injection(s).	2
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Pt came in with dizzy spells headache and light headed that started 1-4 weeks ago.; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Pt is being woken up by the headache at night and is waking up in the morning with the headache.; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The headache is not described as a "thunderclap" or the worst headache of the patient's life.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	PT IS DISORIENTED, SYNCOPE, DIZZY, INCREASED BLOOD PRESSURE, COUGH FOR 2 MONTHS.; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	52
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Known or suspected TIA (stroke) with documented new or changing neurologic signs and or symptoms best describes the reason that I have requested this test.; This is NOT a Medicare member.	9

General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; New onset of seizures or newly identified change in seizure activity or pattern best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	2
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	10
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; 'None of the above' describes the headache's character.; Headache best describes the reason that I have requested this test.	2
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The headache's character is unknown.; Headache best describes the reason that I have requested this test.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a history of cancer.; Headache best describes the reason that I have requested this test.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a suspected brain tumor.; Known or suspected tumor best describes the reason that I have requested this test.; There are documented neurologic findings suggesting a primary brain tumor.; This is NOT a Medicare member.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a suspected tumor outside the brain.; Known or suspected tumor best describes the reason that I have requested this test.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	2
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	UNABLE TO SLEEP WELL DUE TO HEADACHES WITHIN LAST FEW MONTHS. BACK PAIN AS WELL. LASTS ALL DAY ALL OVER HEAD - HEADACHES. NO SENSITIVITY TO LIGHT OR SOUND. TYLENOL AND IBUPROFEN BUT REOCCURRING HEADACHES; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; It is not known if there has been any treatment or conservative therapy.; Unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Vision changes; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1

General/Family Practice	Disapproval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 12/16/18; There has been treatment or conservative therapy.; pain; PT, Medications.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	Both conditions have been ongoing for over 2 years with no relief from any prescribed or OTC meds thus far.; This study is being ordered for Inflammatory/ Infectious Disease.; January 1, 2016; There has been treatment or conservative therapy.; Migraine Headaches - right sided headache pain, light and sound sensitivity, nausea Chronic Sinusitis - maxillary pain/tenderness, sinus congestion/drainage; Chronic Sinusitis - fluticasone nasal spray and OTC antihistamines Migraine Headaches - Fioricet, Tylenol #3 and Topamax.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has chronic sinusitis and HAs; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been less than 14 days since onset; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is immune-compromised.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset; Yes this is a request for a Diagnostic CT	2

General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	18
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	12
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is not being ordered for trauma, tumor, sinusitis, osteomyelitis, pre operative or a post operative evaluation.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; It is not known if there has been any treatment or conservative therapy.; Unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for neck soft tissue CT.; The study is being ordered for something other than Trauma or other injury, Neck lump/mass, Known tumor or metastasis in the neck, suspicious infection/abcess or a pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Patient reports pain in her right shoulder. She reports that for almost a year she'll have shooting pain in her right arm. She reports that her hand will go numb. She reports she cannot feel it when this happens. She denies pain in her neck. She reports t; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Patient reports pain in her right shoulder. She reports that for almost a year she'll have shooting pain in her right arm. She reports that her hand will go numb. She reports she cannot feel it when this happens. She denies pain in her neck. She reports t; It is not known if there has been any treatment or conservative therapy.; Patient reports pain in her right shoulder. She reports that for almost a year she'll have shooting pain in her right arm. She reports that her hand will go numb. She reports she cannot feel it when this happens. She denies pain in her neck. She reports t; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Patient reports pain in her right shoulder. She reports that for almost a year she'll have shooting pain in her right arm. She reports that her hand will go numb. She reports she cannot feel it when this happens. She denies pain in her neck. She reports t; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Patient reports pain in her right shoulder. She reports that for almost a year she'll have shooting pain in her right arm. She reports that her hand will go numb. She reports she cannot feel it when this happens. She denies pain in her neck. She reports t; It is not known if there has been any treatment or conservative therapy.; Patient reports pain in her right shoulder. She reports that for almost a year she'll have shooting pain in her right arm. She reports that her hand will go numb. She reports she cannot feel it when this happens. She denies pain in her neck. She reports t; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the Neck.	2
General/Family Practice	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Inflammatory/ Infectious Disease.; 6/4/18; There has been treatment or conservative therapy.; SWOLLEN TONSILS, HEADACHES; < Describe treatment / conservative therapy here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	3
General/Family Practice	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	blurry vision depression gait instability; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/07/2018; There has not been any treatment or conservative therapy.; Context: noticed a change in vision  Location: bilateral (eyes); left is worse then right  Quality: worsening vision: progressing rapidly  Onset/Timing: first episode  Modifying factors: blurred vision with glasses; difficulty reading Associated Symp; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	cervical and thoracic radiculopathy cervical/upper back pain with numbness down right arm; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Difference in strength in arm the left arm is weaker than right.; "This is a request for orbit,face, or neck soft tissue MRI.239.8"; The reason for the study is not for trauma, infection,cancer, mass, tumor, pre or post-operative evaluation	1

General/Family Practice	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Neck pain radiating into shoulder and arm, not relieved by steroids or PT; "This is a request for orbit, face, or neck soft tissue MRI.239.8"; The reason for the study is not for trauma, infection, cancer, mass, tumor, pre or post-operative evaluation	1
General/Family Practice	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	no info given; This study is being ordered for a neurological disorder.; 6/19/18; There has not been any treatment or conservative therapy.; head ache and visual disturbance; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Patient having ongoing neck pain with neurologic deficit. Cervical Xray did not provide clinical answer. Also chronic low back pain with radiculopathy. Patient has had previous lumbar surgery.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	PT HAVING ABNORMAL VISION LOSS, Jinne is here for eye vision problem. She saw HER EYE DOCTOR and said her eyes are healthy. Pt sees vertical line around the image, it does not go away. It is very disturbing. Denies eye pain, no eye discharge. She has numb; There is not a suspicion of an infection or abscess.; This examination is NOT being requested to evaluate lymphadenopathy or mass.; There is not a suspicion of a bone infection (osteomyelitis).; It is unknown if there is a suspicion of an orbit or face neoplasm, tumor, or metastasis.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1
General/Family Practice	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	SHE HAS HD MRI OF BRAIN W/O CONTRAST IN THE PAST; This study is being ordered for a neurological disorder.; Enter date of initial onset here 11-04-2015 - or Type In Unknown If No Info Given; There has been treatment or conservative therapy.; COGNITIVE DISORDER, DAILY HEADACHES, TONGUE NUMBNESS, MEMORY CHANGES AND PROBLEM WITH WORDS; SHE IS TAKING ISOMETHEPTENE-DICHLORAL-APAP CAPSULES AND EXCEDRIN MIGRAINE CYCLOBENZAPRINE, ESCITALOPRAM, AND ASPIRIN; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 4/28/2018; It is not known if there has been any treatment or conservative therapy.; The pt has change in vision, weakness on left side affecting fine motor skills.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70547 Magnetic resonance angiography, neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; "There is not a sudden onset of one-sided weakness, speech impairment, vision defects or severe dizziness."; This is a request for a Neck MR Angiography.; The patient has not had an abnormal ultrasound of the neck.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a sudden and severe headache.; The patient has NOT had a recent onset (within the last 3 months) of neurologic symptoms.	1

General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient is experiencing fatigue or malaise.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; It is unknown why this study is being ordered.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Inflammatory/ Infectious Disease.; 6/4/18; There has been treatment or conservative therapy.; SWOLLEN TONSILS, HEADACHES; < Describe treatment / conservative therapy here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has not been any treatment or conservative therapy.; HEADACHE, CERVICAL DISC DISORDER WITH BACK PAIN; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	***Herniated disc, cervical  Imaging: MRI : C-spine without Contrast  Referral To: Reason:HERNIATED CERVICAL DISC NEEDS MRI C-SPINE WITHOUT CONTRAST  ***Demyelinating changes in brain  Imaging: MRI : Brain without C; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	5
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	2
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient is experiencing vertigo	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	25 yr old female pt w/ chronic headaches; nausea and blurred vision; left-sided. light sensitive; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Headache Reported by patient. Location: facial; unilateral right  Quality: similar to previous headaches; throbbing Severity: severe  Duration: intermittent; occur about once a week  Onset/Timing: abrupt onset  Context: not related to trauma  Aggr; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; It is unknown if there recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is a new and sudden onset of a headache less than 1 week not improved by medications.; The headache is not described as a "thunderclap" or the worst headache of the patient's life.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	headaches cause sick to stomach, having these for off and on for several years; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has dizziness.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1

General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient has had headaches daily for about 4 months with some vision changes; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient has low testosterone. Work up all negative with normal FSH,LH,PROLACTIN, TSH,T3,T4,TRANSFERRIN. With his age and low testosterone, will need MRI brain to complete work up and also to rule out any pituitary lesions which could be causing his low T.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient with persistent headaches that are not getting better.continues to have recurrent headaches that start in her occipital area mostly on the left side. She has to take the headache medication to 3 times a week. She has noticed increased watering i; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Pt came in complaining of migraines.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	pt had previous CVA, pt fell lost consciousness.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; It is not known if there are recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.; It is not known if there a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	PT has personal history of cerebral aneurysm x2.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are not recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	pt is having dizziness as well as migraine headaches.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Pt reports she has been very forgetful lately. She states she had an abnormal brain MRI a few yrs ago.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient is experiencing fatigue or malaise.	1

General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	R51 New onset headache History / Dx:G44.82 Headache associated with sexual activity,sudden onset of headache with intercourse,sudden onset of headache with intercourse,new onset HA; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is not a new and sudden onset of a headache less than 1 week not improved by medications.; There is not a family history (parent, sibling, or child) of stroke, aneurysm, or AVM (arteriovenous malformation)	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	see DX codes; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; It is not known if there has been any treatment or conservative therapy.; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	She continues to have daily headaches. She previously was on Fioricet and found this was beneficial. As we have discussed in the past, she is aware that this has significant potentiation for rebound headaches and is not a desirable medication for treatment; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	She had been having headaches and she has taken sumatriptan and it helped, but it returned. She had to come in 5/28/2018; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	SHE HAS HD MRI OF BRAIN W/O CONTRAST IN THE PAST; This study is being ordered for a neurological disorder.; Enter date of initial onset here 11-04-2015 - or Type In Unknown If No Info Given; There has been treatment or conservative therapy.; COGNITIVE DISORDER, DAILY HEADACHES, TONGUE NUMBNESS, MEMORY CHANGES AND PROBLEM WITH WORDS; SHE IS TAKING ISOMETHEPTENE-DICHLORAL-APAP CAPSULES AND EXCEDRIN MIGRAINE CYCLOBENZAPRINE, ESCITALOPRAM, AND ASPIRIN; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	syncope fatigue dyspnea; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	The patient has been seen three times in three months for migraine symptoms.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	4

General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	to see if pt has brain hemorrhage or fluid; This study is being ordered for trauma or injury.; Hip - unsure, years ago Head - Jan 2017; There has been treatment or conservative therapy.; Hip - chronic pain radiates down to knee Head - dizzy, blurred vision, can not speak at times; Hip - Nerve Block; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a neurological disorder.; unknown; There has been treatment or conservative therapy.; Numbness and tingling, leg weakness, burning sensation,; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/8/2018; There has been treatment or conservative therapy.; chest pain shortness of breath, headache, EKG showed low heart rate; admitted to hospital given medications.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; This study being ordered for suspected aseptic necrosis.; The ordering physician is an orthopedist or infectious disease specialist.; The patient has had recent plain films of the shoulder.; The plain films were normal.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.	14
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	3
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has been treatment or conservative therapy.; abnormal weight loss, depression; medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abdominal pain previous lung mass; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	46
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal laboratory test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	4
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	3
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.	5
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Associated symptoms include cough, wheezing and vomiting. Pertinent negatives include no headaches, no rhinorrhea, no sore throat, no sputum production, no chest pain, no syncope, no abdominal pain and no leg swelling. The problem's precipitants include e; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; An abnormal finding on physical examination led to the suspicion of infection.; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; An abnormal imaging (xray) finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; An abnormal lab finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; 'None of the above' are related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; 'None of the above' were relevant in the diagnosis or suspicion of inflammatory lung disease; This study is being requested for known or suspected inflammatory disease such as sarcoidosis, pneumoconiosis, asbestosis, silicosis; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; 'None of the above' were relevant in the diagnosis or suspicion of vascular disease; This is a request for a Chest CT.; This study is being requested for known or suspected blood vessel (vascular) disease; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; The patient had an abnormal lab finding related to the suspicion of cancer in this patient.; This is a request for a Chest CT.; This study is beign requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient quit smoking in the past 15 years.; The patient has signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	3
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient does not have a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has not experienced pain for greater than six weeks.; The patient has not been treated with anti-inflammatory medication in conjunction with this complaint.; The patient has not been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		Traumatic dislocation to right shoulder. Range of motion exercises with continued weakness to external rotation and complete inability to hold arm in abduction. Positive drop arm test.; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		unknown; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/2016; There has been treatment or conservative therapy.; Pain in neck/right shoulder with numbness and tingling in fingers, weakness in R arm; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	Arthritis both knees. Short stature. Status post bilateral hip replacements; End-stage arthritis both knees. Tripartite patellas. Proxy now the gauge in for bilateral knee replacements; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/8/2017; It is not known if there has been any treatment or conservative therapy.; PAINFUL RANGE OF MOTION BOTH KNEES, TRIPARTITE PATELLAS, TENDER MEDIAL JOINT LINE BILATERALLY END STAGE ARTHRITIS.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	follow up to surgery; This study is being ordered for trauma or injury.; 03/19/2018; There has been treatment or conservative therapy.; follow up to surgery; surgery; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a preoperative or recent postoperative evaluation.; This is a request for a Knee CT; Yes this is a request for a Diagnostic CT	52
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a foot CT.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a foot CT.; The patient has not used a cane or crutches for greater than four weeks.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	2

Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a hip CT.; This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; There is not a suspected infection of the hip.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass adjacent to or near the hip.; There is not a mass adjacent to or near the hip.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; There is not a suspicion of AVN.; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not used a cane or crutches for greater than four weeks.; The patient does not have a documented limitation of their range of motion.; The patient does not have a documented limitation of their range of motion.; The patient has not been treated with anti-inflammatory medication in conjunction with this complaint.; The patient has not been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.; This study is not being ordered by an operating surgeon for pre-operative planning.; Yes this is a request for a Diagnostic CT ; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient had an abnormal plain film study of the hip other than arthritis.; The patient does not have a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; The patient has been treated with and failed a course of supervised physical therapy.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; The patient does not have a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1

Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a Lower Extremity CT.; This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is suspicion of lower extremity bone or joint infection.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for an ankle CT.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; Yes this is a request for a Diagnostic CT	17
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for an ankle CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is no suspicion of lower extremity bone or joint infection.; There is a history of lower extremity joint or long bone trauma or injury.; This is a request for a Knee CT; Yes this is a request for a Diagnostic CT	2
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material		walking sensation. Pre-op eval for total knee. arthritis in knee; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/23/18; There has been treatment or conservative therapy.; knee pain; advil and Aleve. home therapy, cane; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		"There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.; This is a request for bilateral foot MRI.;	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		&It; Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Knee MRI.; Suspected Aseptic Necrosis; No, the patient had no recent plain films or bone scan of the knee.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		; This is a request for an Ankle MRI.; It is not know if surgery or arthroscopy is scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/23/2014; There has been treatment or conservative therapy.; She says she only got about 60% relief from the injections done about a week ago. She wanted to get new standing x-rays and discuss options. As she did mention that on only is she having pain but she is having popping and catching sensations in both knee; steroid injections home exercises NSAID's Analgesics; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		bunion, soft tissue swelling.; This is a request for a foot MRI.; A plain x-ray of the area been done.; The study is being ordered forfoot pain.; The study is being ordered for known or suspected septic arthritis or osteomyelitis.; The results of the plain film x-ray were abnormal.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		History of Present Illness: James Xavier Waner is a 12 y.o. year old male patient. He has a history of Larsen syndrome, he has been seen by multiple medical specialist for this. He has seen a pediatric orthopedist in regards to his elbows and his knees a; This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The results of the plain films is not known.; The ordering physician is an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.; It is not known if patient has completed and failed a course of conservative treatment.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		Left ankle is examined, residual edema remains diffusely around the ankle, nonpitting, there is no instability anterior drawer testing, full range of motion noted, still mild tenderness to palpation over the medial and lateral malleolus; This is a request for an Ankle MRI.; It is not know if surgery or arthroscopy is scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		left knee pain with medial joint line tenderness and positive MC Murray test. Failed conservative treatment of HEP and NSAIDS and bracing.; This is a request for a Knee MRI.; The study is requested for knee pain.; The pain is from a recent injury.; There is a suspicion of a meniscus, tendon, or ligament injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		Patient is having to walk on his foot now and still has an open area on the dorsum, which we will keep covered with a Band-Aid and schedule him for an MRI of the right ankle. We are recommending elastic support stocking from Snell's. Return after the MRI.; This is a request for an Ankle MRI.; It is not know if surgery or arthroscopy is scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		Pt suffers with bi-lateral knee pain and failed PT and pain injection.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		READ PREVIOUS NOTES; This is a request for an Ankle MRI.; It is not know if surgery or arthroscopy is scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		Right FHL tendinitis Right subtalar joint arthritis; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; There is not a suspicion of fracture not adequately determined by x-ray.; The study is requested for ankle pain.; It is not known if there is a suspicion of tendon or ligament injury.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.	21
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	4
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.	5
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	2

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; Surgery or other intervention is planned in the next 4 weeks.; The study is being ordered for infection.; There are physical exam findings, laboratory results, other imaging including bone scan or plain film confirming infection, inflammation and or aseptic necrosis.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; The study is being ordered for suspected fracture.; They had 2 normal xrays at least 3 weeks apart that did not show a fracture.; The patient has been treated with a protective boot for at least 4 weeks.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; The study is being ordered for foot pain.; The study is being ordered for chronic pain.; The patient has had foot pain for over 4 weeks.; The patient has been treated with a protective boot for at least 6 weeks.	3
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; ; Suspected Aseptic Necrosis; Yes, the patient had recent plain films or bone scan of the knee.; Yes, the plain films/scans are normal.; Yes, the ordering physician is an orthopedist or a pediatrician.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; No, the patient did not have a recent ultrasound of the knee.; The patient had recent plain films of the knee.; There are physical findings (palpable mass) of a suspicious mass or known primary site of cancer.; The patient has not had a recent bone scan.; The plain films were normal.; Plan: MRI scan of the right knee will be ordered to evaluate the intra-articular surfaces and ligamentous structures but in particular to evaluate the progressive soft tissue swelling and mass of the right knee joint. Subsequent follow-up is scheduled w; Suspicious Mass or Suspected Tumor/ Metastasis	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; No, the patient did not have a recent ultrasound of the knee.; The patient had recent plain films of the knee.; There are physical findings (palpable mass) of a suspicious mass or known primary site of cancer.; The patient has not had a recent bone scan.; The plain films were normal.; Right knee has a palpable mass medial aspect of the knee, somewhat firm. Does not appear to be mobile.; Suspicious Mass or Suspected Tumor/ Metastasis	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an oncologist or orthopedist.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; Known Tumor	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Post-operative Evaluation	14
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; It is not known if there is a known trauma involving the knee.; Instability; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were normal.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	34
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were normal.; This study is being ordered prior to arthroscopic surgery.; The ordering physician is an orthopedist.; Pre-operative Evaluation; Pain greater than 3 days	4
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	13
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; The ordering physician is an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; Pain greater than 3 days	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The results of the plain films is not known.; The ordering physician is an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physician directed exercise program	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physician directed course of non-steroidal anti-inflammatory medications	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The plain films were not normal.; Knee x-ray report: Knee: Side: Right. Views: AP, Lateral. AP/ PA Findings: Standing AP - Medial Narrowing: mild-moderate, Standing Flexion PA - Medial Narrowing: mild-moderate, Standing AP - Lateral Narrowing: mild-moderate, and Standing Flexion PA - L; Known or Suspected Joint Infection	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The study is requested for knee pain.; The pain is described as chronic; The member has failed a 4 week course of conservative management in the past 3 months.	5
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; This is a request for a Knee MRI.; This is a request for a Knee MRI.; The ordering physician is an orthopedist.; The ordering physician is an orthopedist.; The ordering physician is an orthopedist.; Suspected meniscus, tendon, or ligament injury; Suspected meniscus, tendon, or ligament injury; Suspected meniscus, tendon, or ligament injury	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; This study is being ordered prior to arthroscopic surgery.; The ordering physician is an orthopedist.; Pre-operative Evaluation; Instability	4
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; This study is being ordered prior to arthroscopic surgery.; The ordering physician is an orthopedist.; Pre-operative Evaluation; Limited range of motion	8
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; This study is being ordered prior to arthroscopic surgery.; The ordering physician is an orthopedist.; Pre-operative Evaluation; Swelling greater than 3 days	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI; This study is not being ordered prior to arthroscopic surgery.; "This study is being ordered prior to a planned or scheduled open surgery (joint replacement, etc.)."; The ordering physician is an orthopedist.; Pre-operative Evaluation; Limited range of motion	6
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI; This study is not being ordered prior to arthroscopic surgery.; "This study is not being ordered prior to a planned or scheduled open surgery (joint replacement, etc.)."; The ordering physician is an orthopedist.; Pre-operative Evaluation; Instability	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is a pre-operative study for planned surgery.	4
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	14
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.	50
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a suspected tarsal coalition.	4

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	2
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; This study is being requested for 'none of the above'.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	chronic cough and chest pain; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is 54 years old or younger.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	COPD, presistant cough; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	FOR COPD; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	No, the patient was NOT seen by a specialist because of the traumatic injury.; 'None of the above' describes the reason for this request.; Abnormal imaging (xray) finding was noted on evaluation after the injury.; This is a request for a Chest CT.; This study is beign requested for chest injury or trauma within the past 2 weeks.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	No, the patient was NOT seen by a specialist because of the traumatic injury.; 'None of the above' describes the reason for this request.; 'None of the above' were noted on evaluation after the injury.; This is a request for a Chest CT.; This study is beign requested for chest injury or trauma within the past 2 weeks.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	nodule on xray; unusual weight loss; long history tobacco use; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; An abnormal finding on physical examination led to the suspicion of infection.; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; Another abnormality led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; 'None of the above' led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; 'None of the above' were related to the suspicion of cancer in this patient.; This is a request for a Chest CT.; This study is being requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; The patient had an abnormal finding on physical exam related to the suspicion of cancer.; This is a request for a Chest CT.; This study is being requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; The patient had an abnormal lab finding related to the suspicion of cancer in this patient.; This is a request for a Chest CT.; This study is being requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is 54 years old or younger.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient has signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient quit smoking in the past 15 years.; The patient has signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient does not have a documented limitation of their range of motion.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	4
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient had an abnormal plain film study of the ankle other than arthritis.; There is not a suspected tarsal coalition.; The patient does not have a documented limitation of their range of motion.	7
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; This study is being ordered by the operating surgeon for pre-operative planning.	4
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This reason this study is being requested is unknown.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	5
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This study is being requested for 'none of the above'; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	5

General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Patient also has sternal pain, and had x-ray done. Radiologist recommended CT scan of the chest for further evaluation. With her smoking history, I would like to do CT scan not only for sternal pain, but also to rule out any lung cancer as a screening tes; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Patient had an abnormal xray, this exam was suggested for further evaluation.; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; It is not known if there is radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; It is unknown if there is radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has presented with chest pain that has been going on and off for several years. Pain is now increasing, and having left arm pain also.; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Patient is having chest pain, unspecified and abdominal pain, unspecified; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Patient needs a Ct of chest for chest pain and a CT of abdomen and pelvis for unexplained weight loss and generalized abdominal pain.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT PRESENTS TO CLINIC WITH COUGH, WHEEZING AND RIGHT SIDED CHEST PAIN WITH DEEP BREATHING. PATIENT IS A 37 YEAR 1 PACK PER DAY SMOKER.; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Positive for chronic cough.; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	R/O CA; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	R/O cancer; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Thorax (Chest) CT.; Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Unexplained weight loss describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	7
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	unexplained weight loss; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/15; There has not been any treatment or conservative therapy.; Urgency of urination, sob, ABD pain and distention; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	This patient was in a car accident and we are trying to rule out internal bleeding.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)	Radiology Services Denied Not Medically Necessary	MVA 2/21/18 PT WENT TO DOCTOR ON 5/25/18 WITH BACK PAIN, WAS SEEN WEEK BEFORE IN ER FOR PNEUMOTHORAX. PT SEEN 5/30/18 FOR ER FOLLOW UP. PT SEEN 6/8/18 FOR BACK PAIN.; This study is NOT being ordered for a Work-up for Suspicious Mass, Known Tumor, Known or Suspected Inflammatory Disease, etc...; This is a request for a chest MRI.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient has a documented limitation of their range of motion.; This study is being ordered by the operating surgeon for pre-operative planning.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient had an abnormal plain film study of the ankle other than arthritis.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		unknown; This is a request for an Ankle MRI; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material			2
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		Antwan is a 35-year-old black male that for the last 2 months has had left hip pain. Blood pressure 143/82 (refer to PCP). Physical examination reveals fairly good flexion and external rotation, but he does have pain that goes below the knee. He has had s; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/27/18; It is not known if there has been any treatment or conservative therapy.; Left hip pain and back pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)	Radiology Services Denied Not Medically Necessary	see DX codes; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; It is not known if there has been any treatment or conservative therapy.; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for trauma or injury.; 04/26/2018; There has been treatment or conservative therapy.; Pain; decreased movement; tenderness; decreased abduction; Medications (anti-inflammatory; steroid pack; injection); One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary		1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	3
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	6
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	bilateral upper extremity pain; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	Cervical back: He exhibits decreased range of motion and tenderness Musculoskeletal: Positive for arthralgias, joint swelling, myalgias and neck pain.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	cervical pain that began after weight lifting that radiates to the left shoulder and arm, no improvement after 9 weeks of conservative treatment.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		Evaluate chronic right hip pain.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		MRI ARTHROGRAM BILATERAL HIPS, R/O LABRAL TEAR; This study is being ordered for Congenital Anomaly.; 09/11/2012; There has been treatment or conservative therapy.; left congenital hip location - worsening pain. hips are popping out of place and worsening. difficulty now performing ADLs. swelling, grinding, popping, stiffness, weakness, and pain at night.; NSAIDS (motrin & toradol), NORCO, home treatment; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		none; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/18/18; There has not been any treatment or conservative therapy.; Pain in groin w/ motion. Positive leg raise.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; The member has failed a 4 week course of conservative management in the past 3 months.; The hip pain is chronic.; The request is for hip pain.	7
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient has a documented limitation of their range of motion.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.	7
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	Enter answer here - or Type In Unknown If No Info Given PATIENT HAS NECK PAIN AND NECK STIFFNESS. The symptoms are aggravated by twisting and position. Stiffness is present all day. He has tried heat for the symptoms. The treatment provided no relie; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1

General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	He reports that the headaches are in the front and back of his head more so on the right vs the left. He states that he does often have neck discomfort at the same time. He denies auras, floaters, nausea, and vomiting with the headaches. States that he do; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; He reports that the headaches are in the front and back of his head more so on the right vs the left. He states that he does often have neck discomfort at the same time. He denies auras, floaters, nausea, and vomiting with the headaches. States that he do; There has been treatment or conservative therapy.; Headache, Neck discomfort; He has been taking the mobic daily.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	Headache states from upper neck and radiates to top of the head with insomnia, "feels like my nerve is on fire", short term memory loss.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	I reviewed the x-rays of her cervical spine which show prior fusion at C5 7. There is degenerative changes most significant at the adjacent levels particularly C4-5. I reviewed the report of her MRI did not have the images to review. This shows right-s; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	ongoing pain for 1 week; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	patient has had previous back surgery with hardware placement; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/10/18; There has been treatment or conservative therapy.; back and neck pain; physical therapy, aleve, ibuprofen, medrol dose pack; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT IS A CHILD AND PARENTS WOULD RATHER HER HAVE A CT; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	scoliosis on x-ray with a 22 degree curve; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does not have any neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to chronic neck pain or suspected degenerative disease.; There has been a supervised trial of conservative management for at least 6 weeks.; There is a reason why the patient cannot have a Cervical Spine MRI.	1

General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	The patient is unable to get mri due to metal plates in her face and lower extremities; This study is being ordered for trauma or injury.; 03/01/2013; There has been treatment or conservative therapy.; The primary symptoms are reoccurring neck and back pain that keeps her up at night and unable to work due to pain but cannot get in mri due to metal plate in her face and lower extremities; The patient has had physical therapy. And is no is currently on pain medication.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	This study is to be part of a Myelogram.; This is a request for a Cervical Spine CT	1
General/Family Practice	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a thoracic spine MRI.; Caller does not know whether there is a reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 2wks ago - 04/12/2018; There has not been any treatment or conservative therapy.; Sharp stabbing pain in middle of back; stiff posture; hurts to breath; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic pain radiating across shoulders. Medication is not helping.; This is a request for a thoracic spine CT.; There is no reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	scoliosis on x-ray with a 22 degree curve; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	She is still having significant pain in her shoulder and would like to evaluate her abnormal thoracic spine curvature; This is a request for a thoracic spine CT.; There is no reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary		1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is receiving long-term steroid therapy (Prednisone or Cortisone).	3
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient does not have a documented limitation of their range of motion.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.; The patient is receiving long-term steroid therapy (Prednisone or Cortisone).	1

Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient has a documented limitation of their range of motion.	1
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 4/18/2018; There has been treatment or conservative therapy.; back pain; steroids; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	patient has had previous back surgery with hardware placement; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/10/18; There has been treatment or conservative therapy.; back and neck pain; physical therapy, aleve, ibuprofen, medrol dose pack; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	scoliosis on x-ray with a 22 degree curve; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is not experiencing symptoms of radiculopathy for six weeks or more.; There is no neurologic symptoms of bowel or urinary bladder dysfunction.; There is no suspicion of lumbar spine infection.; There is no suspicion of lumbar spine neoplasm or tumor or metastasis.; Yes this is a request for a Diagnostic CT	6
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary		2
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; The patient has a documented limitation of their range of motion.	3
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1

Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; The patient does not have a documented limitation of their range of motion.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is receiving long-term steriod therapy (Prednisone or Cortisone).; The patient has a documented limitation of their range of motion.	2
Orthopedics	Approval	76498 Unlisted magnetic resonance procedure (eg, diagnostic, interventional)		; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if there is x-ray evidence of a recent cervical spine fracture.; PATIENT WORKS IN RETIREMENT CENTER AND DOES A LOT OF LIFTING AND HER ARM GIVE OUT.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; BOTH ARMS, NUMBNESS & TINGLING, LOSS OF STRENGTH; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; hand weakness; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; muscle spasms pain , weakness ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; It is not known was medications were used in treatment.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
Orthopedics	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; May 5th 2017; There has been treatment or conservative therapy.; Severe low back pain in the gluteal area and legs. Pain is radiated to the legs. Pain is described as ache, sharp and throbbing. symptoms are aggravated by ascending stairs, bending, descending stairs, lifting, walking and night pain. Symptoms include; Patient has had 6 weeks of conservative care without any results.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
Orthopedics	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	I had a long visit with Mr. Cobb his wife about his image findings and his pain. I believe he symptomatic from the disc herniation at T11-12. The rest of the spine looks pristine. He seems to have pain pretty much right where his disc herniation is. H; This is a request for a thoracic spine CT.; There is no reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/13/2018; There has been treatment or conservative therapy.; ; pain management; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; May 5th 2017; There has been treatment or conservative therapy.; Severe low back pain in the gluteal area and legs. Pain is radiated to the legs. Pain is described as ache, sharp and throbbing. symptoms are aggravated by ascending stairs, bending, descending stairs, lifting, walking and night pain. Symptoms include; Patient has had 6 weeks of conservative care without any results.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is a preoperative or recent post-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	X-rays reveal solid fusion L2 to the sacrum his initial surgeries at L2-3 for discitis and he has some segmental kyphosis here. I reviewed his prior full-length films were has rather flat lumbar spine. Also compared his films currently to his films that; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/17/17; There has not been any treatment or conservative therapy.; Mr. Smith returns and has chronic rather low back pain now. Its a bit worse on the right side. He really does not describe specific radiculopathy although he feels numbness in his legs and he feels like he is had recent falls and is losing function of h; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.;	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Moderate tenderness to palpation over spinous processes and right paraspinal muscles of C3-4, C4-5 and C7-T1. Limited flexion, extension, lateral bend and rotation. Pain is worst with extension and rotation to the right. Positive Spurling's on right. Unab; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/23/17; There has been treatment or conservative therapy.; Neck and back pain with radiculopathy. Decreased mobility, numbness and weakness in the lower extremities. Symptoms include bowel and bladder dysfunction, erectile dysfunction, problems climbing stairs, bending, walking and pain at night.; Nonsteroidal anti-inflammatory medication, lifestyle modification, spinal exercises and rest for over 6 weeks; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Carpal Tunnel. Pre-OP.; This is a request for cervical spine MRI; None of the above; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Cervical spine pain with extremity numbness in the right thumb. Paraspinal muscle spasm.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has been treatment or conservative therapy.; headache, numbness, tingling on lower extremity, blurred vision. BP is slightly elevated.; NSAIDS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 2 years; There has been treatment or conservative therapy.; mbr has eye movement and left side neck pain right foot dragging; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Inflammatory/ Infectious Disease.; over 1 year; There has been treatment or conservative therapy.; Back pain; Medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has not been any treatment or conservative therapy.; HEADACHE, CERVICAL DISC DISORDER WITH BACK PAIN; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Left sided cervical radiculopathy, no improvement with physical therapy; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Trouble grasping, paresthesias down the left arm, no improvement with physical therapy, pain and spasms up the trapezius and altered sensation along the dorsum of the hand; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	MEMBER HAVING NECK PAIN RADIATES DOWN TO RIGHT ELBOW; SHARP IN NATURE; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/01/2018; There has been treatment or conservative therapy.; CERVICAL STENOSIS (R/O) VS ROTATOR CUFF TEAR; MEDS PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	MRI of Shoulder was negative and she continues to have pain and weakness down her arm; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Neck pain arm pain and weakness.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; patient has bene try stretching, neck exercises nsaid for 8 weeks she is worse. Need an MRI of cervical spine to evaluate her for Surgery; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	RIGHT SHOULDER INJURY AND CERVICAL SPINE RADICULOPATHY. ALL CONSERVATIVE MEASURES HAVE FAILED.; This study is being ordered for trauma or injury.; APRIL 23, 2018; There has been treatment or conservative therapy.; FELT A POP IN LATERAL ASPECT OF RIGHT SHOULDER WHEN LIFTING A BOARD OVERHEAD. IMMEDIATE PAIN AND WEEKNESS AND HAS BEEN HAVING IT EVER SINCE. ALSO HAVING NUMBNESS FROM CERVICAL SPINE THAT GOES DOWN INTO HIS HANDS, THIS WAKES HIM UP FROM SLEEP. RIGHT SHOUL; CONSERVATIVE THERAPY FOR ABOUT 4 WEEKS. REST ICE CHANGE IN ACTIVITY LEVEL, ORAL STEROIDS, FLEXIRIL,HOME PHYSICAL THERAPY PROGRAM. XRAYS ARE NORMAL.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/7/2018; There has been treatment or conservative therapy.; Muscle spasm, Sleep issues, Neck and back pain; HEP, Medications.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 5/18/2018; There has not been any treatment or conservative therapy.; headache vision issues and tendonitis and neck pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; November 2017; There has been treatment or conservative therapy.; pain; pt and medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	***Herniated disc, cervical  Imaging: MRI : C-spine without Contrast  Referral To: Reason:HERNIATED CERVICAL DISC NEEDS MRI C-SPINE WITHOUT CONTRAST  ***Demyelinating changes in brain  Imaging: MRI : Brain without C; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.;	2
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.;; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	There are no documented clinical findings of immune system suppression.; This is a request for a thoracic spine MRI.; The patient is experiencing back pain associated with abdominal pain.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis, Follow up to or Pre-operative evaluation, or Neurological deficits."	1
Orthopedics	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/23/17; There has been treatment or conservative therapy.; Neck and back pain with radiculopathy. Decreased mobility, numbness and weakness in the lower extremities. Symptoms include bowel and bladder dysfunction, erectile dysfunction, problems climbing stairs, bending, walking and pain at night.; Nonsteroidal anti-inflammatory medication, lifestyle modification, spinal exercises and rest for over 6 weeks; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has any neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; Caller does not know whether the patient is experiencing sensory abnormalities such as numbness or tingling.; He still having lower thoracic spine pain and chest pain in the lower segments. He has finished his therapy feels that the heat gives him temporary relief but nothing permanent relief his symptoms.	1
Orthopedics	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has any neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; Caller does not know whether the patient is experiencing sensory abnormalities such as numbness or tingling.; post C4-6 fusion for headaches pain so severe that it takes her breath awAP, lateral cervical spine series demonstrate a well fused construct. There is a little bit of mild degenerative disk disease at C6-7 which predated her fusion, but no high-grade n	1
Orthopedics	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Hard for the pt to raise her leg.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; Describe primary symptoms here - or Type In Unknown If No Info Giv en PAIN IN CERVICAL, THORACIC & LUMBAR SPINE RADIATING TO LEFT HIP THEN DOWN TO FOOT WITH TOE INVOLVEMENT; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 08/10/2017; There has been treatment or conservative therapy.; Low Back and Cervical spine pain. Radiating pain from the low back into both buttocks and lateral thighs. She describes episodes of intermittent sharp pain radiating into both upper extremities and lower extremities.; Baclofen/Mobic/Gabapentin - 08/10/2017 Physical Therapy 08/10/2017; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; She was seen at CRMC ER on 5/6/17 and she was prescribed naproxen. She followed up with her primary care physician who prescribed her Lortab. She has found no relief with neither. she returns to our clinic one year later with worsening symptoms.	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/12/18; It is not known if there has been any treatment or conservative therapy.; she started to have severe low left hip pain that involves the lateral aspect of the hip and worsens with any movement of the hip. She had been doing some weeding recently. Pain does not travel down her leg. It is not at the midline; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Bi Lat hip Pain with left worse than right numbness and tingling. she has also tried NSAIDS with no relief. The discomfort is in the lateral and proximal hip and buttock.; The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for None of the above	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Discussed x-rays. Degenerative changes most pronounced L3-4 with slight retrolisthesis. Recommend physical therapy, lumbar evaluate and treat to include core strengthening and stabilization 2-3 times a week x 5-6 weeks. Encouraged physical activity; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Michael A Dodd complains of bilateral hip pain. Onset of the symptoms was several years ago. Inciting event: none. The patient reports the hip pain is worse with weight bearing, is aggravated by walking, is worse after period of inactivity and radiates to; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; Straight leg raise positive bilaterally but worse on the left. Slightly diminished lower extremity sensation.	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 04/22/2018; There has been treatment or conservative therapy.; Neck pain, cervical spine fracture.; Brace, medications, will see a specialists.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	cervical and thoracic tenderness and neck stiffness, limited range of motion, tenderness to palpitation of lumbar sacral spine, tenderness and pain to feet with ambulation; This study is being ordered for a neurological disorder.; 1/30/2018; There has been treatment or conservative therapy.; pain radiating down leg, neck pain, and lower back pain that radiates; anti inflammatory and pain medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	chronic back pain, treated with injections, shoulder pain, numbness; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	chronic pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	DDD; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	HAS NOT IMPROVED WITH MEDICATION TREATMENT OR OTHER CONSERVATIVE THERAPY; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5 YEARS AGO; There has been treatment or conservative therapy.; WORSENING CHRONIC RECURRENT BACK PAIN, RADICULOPATHY TO THE RIGHT LOWER LEG, NECK PAIN, DECREASED RANGE OF MOTION; X-RAYS, PHYSICAL THERAPY, CHIROPRACTIC; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	HERNIATED DISCS NEEDS MRI C SPINE AND LUMBOSACRAL SPINE; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Hip joint pain on the left, hip joint stiffness causing difficulty crossing the legs, causing difficulty with the sitting position, the hip suddenly 'locked up' on the left, the hip catches during movement on the left, and deep pain in the greater trochan; This study is being ordered for a neurological disorder.; Unknown; There has been treatment or conservative therapy.; Hip joint pain on the left, hip joint stiffness causing difficulty crossing the legs, causing difficulty with the sitting position, the hip suddenly 'locked up' on the left, the hip catches during movement on the left, and deep pain in the greater trochan; previous NSAIDS before bleeding ulcer became active, also previously on Neurontin 300 mg QID, Flexaril 10 mg TID PRN, Physical therapy until DVT in LLE, currently on Lyrica 100 mg TID, and Oxycodone 10 mg QID, Zanaflex 4 mg Q 6 hours PRN, Votaren 1% gel ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; It is not known if this patient had a recent course of supervised physical Therapy.; It is not known if the patient had six weeks of Chiropractic care related to this episode.; RADIOLOGY REVIEW: Three views in the office completed today of the cervical spine. On the lateral view, she has degenerative changes, mild at 4-5 and 5-6 with an anterior spur between 6 and 7. Excellent x-ray. On AP view, no scoliosis. Open-mouth view	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.; It is not known if the patient had six weeks of Chiropractic care related to this episode.; Enter Additional Clinical Having some pain that is worsening over the past several months. He is having more shooting/stabbing pains with movement of his neck. He has not had an MRI in a while.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.; xrays have shown changes , still in pain	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Ms. Meredith presents with classic migraine. Ms. Meredith was diagnosed with migraine headaches several years ago. The current headache began approximately two weeks ago. Associated symptoms include nausea. The pain improves with Phenergan. Patient t; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	n/a; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/2018; There has been treatment or conservative therapy.; patient having headaches causing Dizziness and having numbness run down her legs; physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient had a gill laminectomy and posterior fusion at L4-5 for lytic spondylolisthesis in 2009. X-ray done at office visit shows instrumented fusion at L4-5 with grade II spondylolisthesis. Ct scan done at the emergency room on March 19th shows that th; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient has done physical therapy in past...chronic upper extremity numbness and tingling....neck and bilateral shoulder pain..has prior history of surgical surgery.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient was involved in a scooter accident that was so severe that she required a splenectomy and a left nephrectomy .; The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; The patient has none of the above.; This procedure is being requested for Trauma or recent injury	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has been on low dose steroid, x-rays shows evidence of DDD with loss of disc space heights; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	X-Ray: AP and lateral lumbar views performed in clinic today demonstrate levoscoliosis of the lumbar spine was reviewed degenerative disc disease throughout the distal thoracic and lumbar spine. This appears to be worse at L1-L2 L2-L3 with anterior oste; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; Lumbar Exam  Appearance: Well developed, well nourished. Alert and oriented x 3. In no acute distress. Deformity: no gibbous or rib hump deformity  Palpation: Tenderness throughout the lumbar spine, first proximal Skin: intact  Soft tissue tri	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	X-rays reveal pedicle instrumentation L5-S1 I think her fusion is stable disc height above this as well maintained. She does have some mild degenerative changes status post extensive lumbar laminectomy and fusion L5-S1 chronic low back pain; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2010; There has not been any treatment or conservative therapy.; Now she has some chronic ongoing pain. She was morbidly obese in the past and had a gastric bypass surgery which allowed her to lose over 200 pounds. She does have an ongoing pannus that may be contributing to her chronic low back pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Neck pain with radiculopathy to left shoulder and arm. X-ray with degenerative changes and disc height loss; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Loss of grip strength in left hand; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	none; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; both shoulders and arms; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	none; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Numbness and tingling in left arm; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	None; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	none; This study is being ordered for Inflammatory/ Infectious Disease.; 04/11/2018; There has been treatment or conservative therapy.; Joint and muscle pain.; Medication- anti inflammatory; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	patient had a x-ray of c-spine that shows severe disc narrowing and moderate stenosis and spurring. Patient also has chronic back pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	patient has back pain, neck pain and paresthesia; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has neck pain.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has seen ortho in the past for degeneration of cervical intervertebral disc. Pain is worse at this time. Needs MRI to re-evaluate and determine proper treatment; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	patient needs MRI of C Spine to evaluate cause of bilateral upper extremity pain as well as evaluate extent of damage from past trauma during adolescence; This is a request for cervical spine MRI; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Patient states all up and down the back and neck is achy when laying down and standing. Lower part of the back is worse with overall pain but the neck is what messes with most daily life activities.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/15/2018; There has been treatment or conservative therapy.; Patient has arthritis issues in both cervical and lumbar spine. Patient also has neck and lower back pain.; Patient has been taking Meloxicam, Flexeril, Cyclobenzaprine Hydrochloride, gabapentin, and Norco. Using a heat pad. Patient has been going to Physical Therapy.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Patient with history of chronic neck pain now with progressive increasing pain and numbness in bilateral upper extremities. Minimal improvement with conservative measures and worsening with increased activity. Patient with decreased ROM.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	patient's symptoms are worsening.; This study is being ordered for a neurological disorder.; 3/12/2018; It is not known if there has been any treatment or conservative therapy.; leg numbness, neck stiffness and decreased range of motion, headaches; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Patient's X Ray was abnormal; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; Hydrocodone-acetaminophen, Mobic,Gabapentin	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Plain films show reduced lordosis of C-spine, degenerative change at C5-6 and C6-7 levels with narrow spaces and osteophytes.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; It is not know if the patient has seen the doctor more then once for these symptoms.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Positive for back pain and neck pain. Cervical back: She exhibits decreased range of motion, tenderness, swelling and pain.  Thoracic back: She exhibits decreased range of motion, tenderness, swelling and pain.  Lumbar back: She exhibits decreased rang; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Right trapezius muscle is swollen. Limited range of motion in right arm.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if there is x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	4
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has completed 6 weeks or more of Chiropractic care.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; ; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	2
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; PATIENT IS HAVING STABBING, THROBBING, AND BURNING SEVERE NECK PAIN WITH TINGLING IN BOTH ARMS. IT IS ALSO RADIATING TO HER BACK. IT IS AFFECTING HER WORK, SLEEP, ADLs; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; patient is in a lot of pain, see previous information. Neck has limited range of motion, tender to palpation along right posterior aspect of neck extending into trapezius muscle.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; None of the above; ; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	2
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; <Enter Additional Clinical Information>	9
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; fx c5-c6	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Neck pain on the right side, in the trapezius, increased by head movement. Relieved by immobilizing the head. Neck pain did not begin suddenly.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; She states she fell on the shoulder after a dog knocked her down. She states there was no pain at that time. Her pain has progressively worsened and this prompted her to seek emergent care Sunday. She was given a steroid joint injection. She states she has	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; unknown	2
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; abnormal x-ray	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Continued neck pain with numbness to Left upper extremity with no improvement from trigger injection	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Pt is complaining of posterior neck pain, musculoskeletal-type neck pain. She has seen a chiropractor in the past and it does help. she does have a fair amount of just muscle tightening and muscle spasm in the posterior neck with a little bit of decreased	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Significant DDD of the neck with elevated hemidiaphragm.	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	X-rays reveal solid fusion L2 to the sacrum his initial surgeries at L2-3 for discitis and he has some segmental kyphosis here. I reviewed his prior full-length films were has rather flat lumbar spine. Also compared his films currently to his films that; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/17/17; There has not been any treatment or conservative therapy.; Mr. Smith returns and has chronic rather low back pain now. Its a bit worse on the right side. He really does not describe specific radiculopathy although he feels numbness in his legs and he feels like he is had recent falls and is losing function of h; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s) followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; There is not a suspicion of fracture not adequately determined by x-ray.; The request is for shoulder pain.; There is not a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is the only way we are going to be able to see if there is any neurological damage for years of strain and pain.; This study is being ordered for a neurological disorder.; 2016; There has been treatment or conservative therapy.; Weakness in neck and lower back. limited range of motion.; Pain medication therapy as well as physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	TO RULE OUT DISC DEFORMATIES AND SPINAL STENOSIS; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.; patient has decrease, range of motion and posterior muscle type radiating right extremity	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more than once for these symptoms.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Loss of gripping strength; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	UNKNOWN; This study is being ordered for a neurological disorder.; CERVICAL- 09/27/2016, THORACIC- 11/10/2017; There has been treatment or conservative therapy.; TWISTED NECK, RADIATING PAIN FROM NECK INTO THE BACK, RIGHT SIDED PAIN, HISTORY OF STENOSIS ON CERVICAL; PHYSICAL THERAPY, STERIODS, PAIN MEDICATIONS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a neurological disorder.; unknown; There has been treatment or conservative therapy.; Numbness and tingling, leg weakness, burning sensation,; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/22/2018; There has been treatment or conservative therapy.; chronic pain; some numbness; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; The requested study is a Shoulder MRI.; The pain is from an old injury.; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1

Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	MEMBER HAVING NECK PAIN RADIATES DOWN TO RIGHT ELBOW; SHARP IN NATURE; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/01/2018; There has been treatment or conservative therapy.; CERVICAL STENOSIS (R/O) VS ROTATOR CUFF TEAR; MEDS PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Pt is a 51 years old RHD Male with RIGHT shoulder pain for several years. No specific injury is noted. Pt complains of pain at night. Some occasional numbness and tingling. Pt points anteriorly as the area that is most painful. No previous surgeries or p; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; Anti- Inflammatories; The patient received medication other than joint injections(s) or oral analgesics.	1
Orthopedics	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	Bi Lat ankle pain an CT scan on both ankles syndesmosis simultaneously to evaluate the degree of separation and determine whether or not to consider stabilization; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Orthopedics	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	Evaluate chronic right hip pain.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Orthopedics	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass adjacent to or near the hip.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient does not have a documented limitation of their range of motion.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	"There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.; This is a request for bilateral foot MRI.; Patient has bunions of both feet.	2

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for trauma or injury.; 3/2/2018; There has been treatment or conservative therapy.; knee pain popping in cervical spine; medications/xrays; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	unsuccessful results with medication and therapy; This study is being ordered for trauma or injury.; unknown; There has been treatment or conservative therapy.; Back pain unrelieved with medication and physical therapy; Physical therapy, Nsaids. muscle relaxers; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	When patient turns her head the right her right arm goes numb. she is a painter and has to stop painting to wait to get feeling back into her hand. has a crunching, cracking/popping in neck when she moves it.; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; getting numbness into had and having to stop things such as painting to wait for her feeling to come back in her hands; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Will FAX; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	X-Ray revealed sponylosis, provider would like further evaluation to determine the severity in order to establish an accurate plan of treatment for the patient.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	There are no documented clinical findings of immune system suppression.; This is a request for a thoracic spine MRI.; The patient is not experiencing back pain associated with abdominal pain.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis, Follow up to or Pre-operative evaluation, or Neurological deficits."; &It;Enter Additional Clinical Information>	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2

Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/23/18; There has been treatment or conservative therapy.; Pain and sensation of giving way; Medication, PT and chiropractic treatment; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Kellie is a 41-year-old female that is working on her disability (for bipolar disorder), has pain in the left ankle, is under the care of Dr. White for 3 years, has an os trigonum but apparently had some subtalar arthritis documented at one point in time.; This is a request for an Ankle MRI.; Surgery or arthrscopy is not scheduled in the next 4 weeks.; There is not a suspicion of fracture not adequately determined by x-ray.; The study is requested for ankle pain.; It is not known if there is a suspicion of tendon or ligament injury.	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Pain management and rest; This is a request for a foot MRI.; The study is being ordered for suspected fracture.; They had 2 normal xrays at least 3 weeks apart that did not show a fracture.; The patient has not been treated with crutches, protective bootm walking cast or immobilization for at least 4 weeks.	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Pt suffers bi-lateral joint pain in the knees.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Rule out osteochondritis; This study is being ordered for Inflammatory/ Infectious Disease.; 01/01/2018; It is not known if there has been any treatment or conservative therapy.; Diffuse tenderness about ankle and foot; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	she has ongoing and worsening pain to both knees and they were aggravated even more by the fall on 4.27.18. need to eval damage before further treatment options are considered.; This study is being ordered for trauma or injury.; initially was a year ago, but pt fell again 4.27.18; There has been treatment or conservative therapy.; as stated in an earlier question; right- medial joint line tenderness, painful ROM left- lateral joint line tenderness, painful ROM, effusion; she was treated w nsoids and analgesics for about 6 mths; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	There are no documented clinical findings of immune system suppression.; This is a request for a thoracic spine MRI.; The patient is not experiencing back pain associated with abdominal pain.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis, Follow up to or Pre-operative evaluation, or Neurological deficits."; Radiculopathy, thoracic region	1

General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 6/21/2018; There has been treatment or conservative therapy.; Neck pain, right shoulder pain, numbness and tingling; Physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Inflammatory/ Infectious Disease.; over 1 year; There has been treatment or conservative therapy.; Back pain; Medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10/4/2017; There has been treatment or conservative therapy.; low back pain, radiating to each side; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/25/18; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; don't know; There has been treatment or conservative therapy.; pain, numbness, limb pain; pain meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	5
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 09/252017 - Possibly 3 months prior; There has been treatment or conservative therapy.; Chronic neck and pain. Headaches with vision disturbances. Numbness in legs.; 2 rounds of physical therapy. Medication treatment.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2 yrs; There has not been any treatment or conservative therapy.; sharp shooting stabbing pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Limited range of motion	1

Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Suspected meniscus, tendon, or ligament injury	10
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.	2
Orthopedics	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	Antwan is a 35-year-old black male that for the last 2 months has had left hip pain. Blood pressure 143/82 (refer to PCP). Physical examination reveals fairly good flexion and external rotation, but he does have pain that goes below the knee. He has had s; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3/27/18; It is not known if there has been any treatment or conservative therapy.; Left hip pain and back pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	none; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/18/18; There has not been any treatment or conservative therapy.; Pain in motion and positive straight leg raise.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	fax information; This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; The study is requested for post-op evaluation.; The study is not requested as a first follow up study for a suspected or known post-op complication.; This study is not being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 03/07/2014; There has been treatment or conservative therapy.; Mid to low back pain with radiculopathy to bilateral lower extremities; sent for X-Ray. Pt has been given anti inflammatories and does stretching exercises; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 2013; There has been treatment or conservative therapy.; back pain. Upper thoracic and cervical back pain. Numbness and tingling in both upper ext, but L is greater than R. He has also noticed some weakness in both arms, R.L. bulging disc on MRI in 2014; physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	After two weeks of Heat and meds pt is still having pain. f/u was done by phone pt states still having same issues; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/19/2018; There has been treatment or conservative therapy.; Back Pain Midline and lower back and left and right lower back Moderate in severity and worsening; Tylenol w/ Codine, Robaxin and Prednisone; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	chronic middle and low back pain, takes hydrocodone for the pain. DDD with bulging disk l-spine in past; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Degenerative changes with possible plate compression deformities.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; January 2018; There has been treatment or conservative therapy.; Lumbar radiculopathy; Medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Hip joint pain on the left, hip joint stiffness causing difficulty crossing the legs, causing difficulty with the sitting position, the hip suddenly 'locked up' on the left, the hip catches during movement on the left, and deep pain in the greater trochan; This study is being ordered for a neurological disorder.; Unknown; There has been treatment or conservative therapy.; Hip joint pain on the left, hip joint stiffness causing difficulty crossing the legs, causing difficulty with the sitting position, the hip suddenly 'locked up' on the left, the hip catches during movement on the left, and deep pain in the greater trochan; previous NSAIDS before bleeding ulcer became active, also previously on Neurontin 300 mg QID, Flexaril 10 mg TID PRN, Physical therapy until DVT in LLE, currently on Lyrica 100 mg TID, and Oxycodone 10 mg QID, Zanaflex 4 mg Q 6 hours PRN, Votaren 1% gel ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has any neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; Caller does not know whether the patient is experiencing sensory abnormalities such as numbness or tingling.; XR, THORACIC SPINE 2 view ,mild scoliosis ,presevered vertebral hight and disc spaces XR, CERVICAL SPINE 2 view ,lack of normal curvature of spine with preserved vertebral height and disc spaces 2. Backache - ultram prn,nsadis and muscle relaxant , pro	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	no feeling in legs, falling; This study is being ordered for trauma or injury.; unknown; There has been treatment or conservative therapy.; weakness, numbness, tingling; spine injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	patient has decreased ROM and is in chronic pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has had a recent fall; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	<p>Patient is having low back pain, and pain in his upper back. Patient states Social Security sent him to Prescott for an evaluation. The physician there said he was able to work. He states he is not able to work due to the pain.&#x0D;</p> <p>&#x0D;</p> <p>Current Medication:Taki; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	<p>Patient needs these MRI's to evaluate her back pain and the progression of her Scoliosis.; This study is being ordered for Congenital Anomaly.; Patient has had Scoliosis since childhood. Not exactly sure the date. Close to 15 years ago.; There has been treatment or conservative therapy.; Severe thoracic and lumbar back pain.; Patient has wore a brace and taken&#x0D;</p> <p>methocarbamol 500 mg.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	<p>This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT</p>	1
Osteopath	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		<p>The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; There is documented findings of severe pain on motion.</p>	1
Osteopath	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences			1
Osteopath	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	<p>new onset of left upper quadrant pain.; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone, &#x0D;</p> <p>Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement, &#x0D;</p> <p>Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT</p>	1
Other	Approval	70450 Computed tomography, head or brain; without contrast material		<p>Follow-up while patient is on active chemo treatment.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Other	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	1
Other	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Other	Approval	71250 Computed tomography, thorax; without contrast material		; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Other	Approval	71250 Computed tomography, thorax; without contrast material		checking disease status on treatment; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Approval	71250 Computed tomography, thorax; without contrast material		Follow-up while patient is on active chemo treatment.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Patient was seen at our emergency department on 17th of June. Her should diagnosis having back pain secondary to an L1 compression fracture secondary to fall. Her fall was from a standing height. No other abnormalities were noted on CT scan of the lumb; This study is being ordered for trauma or injury.; 6/17/2018; There has been treatment or conservative therapy.; L1 compression fracture secondary to fall. exruciating back pain that is worsening. patient can not stand up straight without being in a lot of pain. Pain in her lower back and pelvic regions; over-the-counter Aleve and only up to 600 mg of ibuprofen; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Positive for back pain and neck pain. Cervical back: She exhibits decreased range of motion, tenderness, swelling and pain.  Thoracic back: She exhibits decreased range of motion, tenderness, swelling and pain.  Lumbar back: She exhibits decreased rang; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Pt had slip and fall 2 yrs ago. Pt has been seeing another doctor, Pt had MRI Last year and needs new imaging for Neurosurgeon appointment.; This study is being ordered for trauma or injury.; 2 years, slip and fall some where around May 2016; There has been treatment or conservative therapy.; Lower back pain with radiculopathy, Neck and shoulder pain, Neuropathy. Weakness in both legs;; Pain medication, spine injection.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	tenderness base of skull; This study is being ordered for trauma or injury.; 8/20/2015; There has been treatment or conservative therapy.; Neck and back pain, Headache, Trauma head and neck 2015.; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for a thoracic spine MRI.; There has not been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.; &Enter Additional Clinical Information&; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; ; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	2
