

**Peach State Health Plan
Utilization Review Matrix
Medicaid Family Planning – HMO
Effective October 1, 2022**

The matrix below contains all of the CPT 4 codes for which National Imaging Associates, Inc. (NIA) manages on behalf of the Peach State Health Plan Medicaid Family Planning Program. This matrix is designed to assist in the resolution of claims adjudication and claims questions related to those services authorized by NIA. The “Allowable Billed Groupings” is meant to outline that if a given procedure is authorized, that any one of the listed procedure codes could be submitted on a claim representing that service. This assumes that the member is eligible at the time of the service, that appropriate rebundling rules are applied, that the claim includes an appropriate diagnosis code for the CPT code and that the service is performed within the validity period.

If a family of CPT codes is not listed in this matrix, an exact match is required between the authorized CPT code and the billed CPT code. If the exact match does not occur, the charge should be adjudicated accordingly.

***Please note: Services rendered in an Emergency Room, Surgery Center, or Hospital Inpatient setting are not managed by NIA.**

Authorized CPT Code	Description	Allowable Billed Groupings
77078	CT Bone Density Studies	77078
74263	Screening CT Colonoscopy (Virtual Colonoscopy, CT Colonography)	74263, +0722T

Payment for + codes (add on codes) may depend upon the appropriateness of the application of such codes related to the approved primary code.
