

Boost Phase 1 – Select Therapy

2-Dimension ✓ Fractions: _____

3D Conformal ✓ Number of ports/arcs/fields: _____

IMRT

IMRT Only ✓ Which technique will be used? Linac Multi-Angle Compensator-Based Helical Arc Therapy Other

Low -Dose Rate (LDR) Brachytherapy - Seed Implant

✓ Will a tumor volume and at least one critical structure be contoured for brachytherapy planning? Yes No

✓ If any portion of the patient's radiation oncology treatment will be performed in a facility or hospital other than the facility previously stated, what is the name of that facility?

High Dose Rate (HDR) Brachytherapy Fractions: _____

✓ HDR Image Guidance Technique: None CT Guidance X-ray films Ultrasound

IGRT Technique None (No IGRT, port films only) CT Guidance (Conebeam CT CPT® 77014) Stereoscopic Guidance (kV/mV w/ fiducials CPT® 77421) Ultrasound (CPT® 76950)

✓ At what frequency will the IGRT be performed? Daily 1 time per week Other _____
