California Health and Wellness Plan has selected National Imaging Associates, Inc. (NIA) to provide radiology network management services. NIA will provide utilization management services for outpatient MR, CT and PET imaging procedures rendered to California Health and Wellness Plan members.

The ordering physician is responsible for obtaining a prior authorization for advanced Imaging services. It is the responsibility of the rendering facility to ensure that prior authorization was obtained. As the ordering physician of advanced diagnostic services, it is essential that you develop a process to ensure that the appropriate authorization number(s) has been obtained. Payment will be denied for procedures performed without a necessary authorization, and the member cannot be balance-billed for such services.
