NIA processes more than 300,000 requests each month!
Clinical Decision Making and Algorithms

• Guidelines are reviewed and mutually approved by Centene Corporation and Health Plan and NIA Chief Medical Officers.

• NIA algorithms and medical necessity reviews collect key clinical information to ensure that Ambetter from Magnolia Health Plan members are receiving appropriate care prior to more invasive procedures being performed. Our goal – ensure that Ambetter from Magnolia Health Plan members are receiving the appropriate level of care.

• Clinical Guidelines available on www.RadMD.com
Patient and Clinical Information Required for Authorization

GENERAL
Includes things like ordering physician information, Member information, rendering provider information, requested examination, etc.

CLINICAL INFORMATION
• Includes clinical information that will justify examination, symptoms and their duration, physical exam findings
• Preliminary procedures already completed (e.g., x-rays, CTs, lab work, ultrasound reports, scoped procedures, referrals to specialist, specialist evaluation)
• Reason the study is being requested (e.g., further evaluation, rule out a disorder)

Refer to the Prior Authorization Checklists on RadMD for more specific information.

**Physician Review Team**

- Physician Panel of Board-Certified Physician Specialists with ability to meet any State licensure requirements
- Specialty Physician panels for peer reviews on specialty products (cardiac, OB ultrasound, radiation oncology, pain management, sleep management)
Document Review

- NIA may request patient’s medical records/additional clinical information
- When requested, validation of clinical criteria within the patient’s medical records is required before an approval can be made
- Ensures that clinical criteria that supports the requested test are clearly documented in medical records
- Helps ensure that patients receive the most appropriate, effective care
NIA to Ordering Provider: Request for Additional Clinical Information

A fax is sent to the provider detailing what clinical information that is needed, along with a Fax Coversheet.

We stress the need to provide the clinical information as quickly as possible so we can make a determination.

Determination timeframe begins after receipt of clinical information.

Failure to receive requested clinical information may result in non-certification.
Submitting Additional Clinical Information/Medical Records to NIA

Two ways to submit clinical information to NIA
– Via Fax
– Via RadMD Upload
Use the Fax Coversheet (when faxing clinical information to NIA)
Additional copies of Fax Coversheets can also be printed from RadMD or requested via the Call Center @ 1-877-687-1187

Be sure to use the NIA Fax Coversheet for all transmissions of clinical information!
Prior Authorization Process

1. Intake level

- Requests are evaluated using our clinical algorithm
- Requests may:
  1. Approve
  2. Require additional clinical review
  3. Pend for clinical validation of medical records

2. Initial Clinical Review

- Nurses will review request and may:
  1. Approve
  2. Send to NIA physician for additional clinical review

3. Physician Clinical Review

- Physicians may:

Radiation Safety and Awareness

Studies suggest a significant increase in cancer in dose estimates in excess of 50 mSv
U.S. population exposed to nearly six times more radiation from medical devices than in 1980
CT scans and nuclear studies are the largest contributors to increased medical radiation exposure

NIA has developed Radiation Awareness Tools and Safety Programs designed to create patient and physician awareness of radiation concerns.
Radiation Awareness Program

- Identification of High Exposure Members
- Point of Service Provider Notification and Opportunities for Provider Education
- Promote Member Awareness and Education
