

Virginia Premier Health Plan Quick Reference Guide for Ordering Providers

November 1, 2011

Virginia Premier Health Plan selected NIA Magellan¹ to implement a radiology benefit management program for outpatient advanced imaging services. This program is consistent with industry-wide efforts to both ensure clinically appropriate care and manage the increasing utilization of these services.

NIA Magellan will manage the outpatient imaging services listed below through Virginia Premier Health Plan's existing contractual relationships.

The ordering physician is responsible for obtaining a prior authorization for advanced imaging services. It is the responsibility of the rendering facility to ensure that prior authorization was obtained. As the ordering physician of advanced diagnostic services, it is essential that you develop a process to ensure that the appropriate authorization number(s) has been obtained. Payment will be denied for procedures performed without a necessary authorization, and the member cannot be balance-billed for such procedures.

Procedures Requiring Prior Authorization Under Virginia Premier Health Plan *

- MRI/MRA
- CT/CTA
