Fractions: _____

IMRT ONLY:

Which technique will be used? ☐ Linac Multi-Angle ☐ Compensator-Based ☐ Helical ☐ Arc Therapy ☐ Other

Note: IMRT treatment requests may be reviewed for medical necessity by a radiation oncologist. Clinical rationale for performing IMRT is required and should include a comparison 3D-CRT plan, tissue constraints and target goals of the plan and evidence of inverse planning. Field in field or forward planning is not considered IMRT.
