Coventry Health Care of West Virginia
Heart Catheterization
Utilization Review Matrix 2017

The matrix below contains all of the CPT 4 codes for which National Imaging Associates, Inc. (NIA) manages on behalf of Coventry Health Care of West Virginia. This matrix is designed to assist in the resolution of claims adjudication and claims questions related to those services authorized by Magellan Healthcare.

The “Allowable Billed Groupings” is meant to outline that if a given procedure is authorized, that any of the listed procedures codes could be submitted on a claim representing that service. This assumes that the member is eligible at the time of the service, that appropriate rebundling rules are applied, that the claim includes an appropriate diagnosis code for the CPT code and that the service is performed within the validity period.

If a family of CPT codes is not listed in this matrix, an exact match is required between the authorized CPT code and the billed CPT code. If the exact match does not occur, the charge should be adjudicated accordingly.

*Please note: Services rendered in an Emergency Room, Observation Room, Surgery Center or Hospital Inpatient setting are not managed by NIA.

<table>
<thead>
<tr>
<th>Authorized CPT Code</th>
<th>Description</th>
<th>Allowable Billed Groupings</th>
</tr>
