

Ambetter from Peach State Health Plan Quick Reference Guide for Ordering Providers

January 1, 2014

Peach State Health Plan, a Centene Health Plan selected National Imaging Associates, Inc. (NIA) to implement a radiology benefit management program for outpatient advanced imaging services for our Ambetter health insurance plans. This program is consistent with industry-wide efforts to both ensure clinically appropriate care and manage the increasing utilization of these services. NIA manages non-emergent outpatient imaging services for Ambetter from Peach State Health Plan membership through the NIA network of Free-Standing Imaging Facilities and the Ambetter from Peach State Health Plan in-office providers and hospitals.

The ordering physician is responsible for obtaining a prior authorization for advanced imaging services. It is the responsibility of the rendering facility to ensure that prior authorization was obtained. As the ordering physician of advanced diagnostic services, it is essential that you develop a process to ensure that the appropriate authorization number(s) has been obtained. Payment will be denied for procedures performed without a necessary authorization, and the member cannot be balance-billed for such procedures.

In some cases, you may instead receive an NIA tracking number (not the same as an authorization number) if your authorization request is not approved at the time of initial contact. Whether the requested service is covered is subject to all of the terms and conditions of the member's benefit plan, including but not limited to, member eligibility, benefit coverage at the time of the services are provided and any pre-existing condition exclusions referenced in the member's benefit plan.
