

CareFirst BlueCross BlueShield Community Health Plan District of Columbia (CareFirst) Quick Reference Guide for Ordering Providers

Effective June 16, 2014

Revised June 1, 2020

CareFirst BlueCross BlueShield Community Health Plan District of Columbia (CareFirst) selected Magellan Healthcare¹ to implement a radiology benefit management program for outpatient advanced imaging services. This program is consistent with industry-wide efforts to both ensure clinically appropriate care and manage the increasing utilization of these services.

Magellan Healthcare manages the outpatient imaging services listed below through CareFirst existing contractual relationships.

The ordering physician is responsible for obtaining a prior authorization for advanced imaging services. It is the responsibility of the rendering facility to ensure that prior authorization was obtained. As the ordering physician of advanced diagnostic services, it is essential that you develop a process to ensure that the appropriate authorization number(s) has been obtained. Payment will be denied for procedures performed without a necessary authorization, and the enrollee cannot be balance-billed for such procedures.
