

RadMD Upload Feature

RadMD® Makes Things Easy...for You

Magellan Healthcare* has introduced a feature that allows clinical information to be uploaded directly on **RadMD**. Utilizing this upload feature on RadMD expedites your request, since the information is automatically attached to the case and forwarded to our clinicians for review. The following is a step-by-step guide that will help RadMD users navigate through this easy to use feature.

Upload After Completing an Auth Request

When a request is completed and additional clinical information is needed to make a determination, a RadMD user will have the opportunity to use the document upload capability. Figure 1 shows the RadMD page at the end of the request process with the Upload Clinical Document button.
