- Program start date: October 1, 2023.
- Begin obtaining authorizations from NIA on October 1, 2023, via RadMD or Call Center for services rendered on or after October 1, 2023.

## Procedures & Settings Included

### Procedures:

- Outpatient, interventional spine pain management services (IPM)
- Inpatient and outpatient hip, knee, shoulder, lumbar and cervical spine surgeries

### Settings:

- Surgery Center
- In Office Provider
- Hospital

## Membership Included

- Medicaid
- Exchange

## Network

NIA will manage non-emergent select services for Health Plan memberships effective October 1, 2023, through Health Plan's contractual relationships.

# NIA's IPM Solution

# NIA's Lumbar and Cervical Spine Surgery

## Targeted Lumbar and Cervical Spine Surgery Procedures Performed in an Inpatient and Outpatient Facility

- Lumbar Microdiscectomy
- Lumbar Decompression (Laminotomy, Laminectomy, Facetomy & Foraminotomy)
- Lumbar Spine Fusion (Arthrodesis) With or Without Decompression – Single & Multiple Levels
- Cervical Anterior Decompression with Fusion –Single & Multiple Levels
- Cervical Posterior Decompression with Fusion –Single & Multiple Levels
- Cervical Posterior Decompression (without fusion)
- Cervical Artificial Disc Replacement – Single & Two Levels
- Cervical Anterior Decompression (without fusion)
- Lumbar Artificial Disc – Single & Two Levels
- Sacroiliac Joint Fusion

## Excluded from the Program Surgeries Performed in the following Settings:

- Emergency Surgery – admitted via the Emergency Room

Please note that CPT Codes 22800-22819 used for reconstructive spinal deformity surgery do not require NIA/Louisiana Healthcare Connections prior authorization. NIA will monitor the use of these CPT codes, but prior authorization is not currently required.

# NIA's Hip, Knee and Shoulder Surgery Performed in an Inpatient and Outpatient Facility

## Targeted Hip Surgery

- Revision/Conversion Hip Arthroplasty
- Total Hip Arthroplasty/Resurfacing
- Femoroacetabular Impingement (FAI) Hip Surgery (includes CAM/pincher & labral repair)
- Hip Surgery – Other (includes synovectomy, loose body removal, debridement, diagnostic hip arthroscopy, and extra-articular arthroscopy knee)

## Targeted Knee Surgery

- Revision Knee Arthroplasty
- Total Knee Arthroplasty (TKA)
- Partial-Unicompartmental Knee Arthroplasty (UKA)
- Knee Manipulation under Anesthesia (MUA)
- Knee Ligament Reconstruction/Repair
- Knee Meniscectomy/Meniscal Repair/Meniscal Transplant
- Knee Surgery – Other (includes synovectomy, loose body removal, diagnostic knee arthroscopy, debridement with or without chondroplasty, lateral release/patellar realignment, articular cartilage restoration)

## Targeted Shoulder Surgery

- Revision Shoulder Arthroplasty
- Total/Reverse Shoulder Arthroplasty or Resurfacing
- Partial Shoulder Arthroplasty/Hemiarthroplasty
- Shoulder Rotator Cuff Repair
- Shoulder Labral Repair
- Frozen Shoulder Repair/Adhesive Capsulitis
- Shoulder Surgery – Other (includes debridement, manipulation, decompression, tenotomy, tenodesis, synovectomy, claviclectomy, diagnostic shoulder arthroscopy)

## Excluded from the Program Hip, Knee and Shoulder Surgeries Performed in the following Settings:

# NIA's Clinical Foundation & Review

- **Clinical guidelines** were developed by practicing specialty physicians, through literature reviews and evidenced-based research. Guidelines are reviewed and mutually approved by the Plan and NIA Medical Officers and clinical experts. **Clinical Guidelines are available on [RadMD.com](http://RadMD.com)**
- Algorithms are a branching structure that changes depending upon the answer to each question.
- The member's clinical information/medical record will be required for validation of clinical criteria before an approval can be made.
- NIA has a specialized clinical team focused on MSK.
- Peer-to-peer discussions are offered for any request that does not meet medical necessity guidelines.
- **Our goal – ensure that members are receiving appropriate care.**

# Information for Authorization for IPM Injections

## Special Information

- Every IPM procedure performed requires a prior authorization; NIA does not pre-approve a series of epidural injections.
- Bi-lateral IPM injections performed on the same date of service do not require a separate authorization. An authorization will cover bi-lateral as well as multiple levels on the same date of service. (Please refer to guidelines for potential restrictions)
- Add on codes do not require separate authorization and are to be used in conjunction with approved primary code for the service rendered.

# IPM Clinical Checklist Reminders

## IPM Documentation:

### **Conservative Treatment**

- Frequently, specifics of active conservative treatment/non-operative treatment are not present in office notes. Details such as duration and frequency should be provided in order to ensure 6 weeks has been attempted within the past 6 months. Official physical therapy records do not need to be obtained but the provider should supply a summary of these details. Physical therapy is not the only means of active conservative treatment acceptable; physician directed home exercise programs as well as chiropractic care are among other examples of appropriate treatments.

### **Visual Analog Scale (VAS) Score and/or Functional Disability**

- A VAS score is an acceptable method to relay intensity of pain. However, a description of functional disability is also accepted as a means for measuring pain (ie - noting that the member is no longer able to perform work duties, daily care, etc).

### **Follow Up To Prior Pain Management Procedures**

- For repeat treatments, follow up is required in regard to what procedure was completed, how much and for how long relief was obtained, active participation in ongoing conservative treatment, and to what level the pain has returned. A follow up office visit is not required; documentation of telephone encounters with the member are acceptable to satisfy this requirement.

# Sample Pain Rating Scales

Visual analogue scale (VAS)

Numerical rating scale (NRS)

Faces rating scale (FRS)

# Information for Authorization for Surgery Procedures

## Special Information

- Most surgeries will require only one authorization request. NIA will provide a list of surgery categories to choose from. The surgeon's office must select the most complex and invasive surgery being performed as the **primary** surgery.
  - Example 1: A lumbar fusion authorization includes decompression, instrumentation, etc.
  - Example 2: A knee ligament reconstruction includes meniscectomy, debridement, etc.
- Bilateral hip or knee surgeries require authorization for both the left **and** right side. These requests can be entered at the same time and will be reviewed concurrently. ACDF and posterior cervical fusion require authorization for each procedure. These requests can be entered at the same time and will be reviewed concurrently.
- Inpatient admissions will continue to be subject to concurrent review by the Health Plan.
- Date of Service is required.
- Prior authorization (if necessary) for the facility or hospital admission must be obtained separately from the Health Plan and only initiated after the surgery/procedure has met NIA medical necessity criteria.

# Surgery Clinical Checklist Reminders

## Surgery Documentation:

-  Details regarding the member's symptoms and their onset/duration
-  Physical exam findings
-  Conservative treatment modalities with dates and duration (e.g., physical therapy, home exercise plan, injections, medications, activity modification)
-  Diagnostic imaging results
-  Ordering physician's surgical plan (including a discussion about the potential risks and benefits of the procedure) (BMI, smoking history, mental status for some surgeries)

# Clinical Specialty Team: Focused on IPM and MSK

## IPM Reviews

Initial clinical review performed by specially trained IPM nurses

Clinical review team will proactively reach out for additional clinical information

Anesthesiologists and pain management specialists conduct clinical reviews and peer-to-peer discussions on IPM requests

## MSK Surgery Reviews

Initial clinical review performed by specialty trained surgery nurses

Surgery concierge team will proactively reach out for additional clinical information

Orthopedic surgeons or neurosurgeons conduct clinical reviews and peer-to-peer discussions on surgery requests

# MSK Clinical Review Process

Generally, the turnaround time for completion of these requests is within two business days upon receipt of sufficient clinical information.

# NIA Urgent/Expedited MSK Authorization Process

## Urgent/Expedited MSK Authorization Process

- If an urgent clinical situation exists (outside of a hospital emergency room) during business hours, please call NIA immediately.
- The NIA website <https://www.RadMD.com> cannot be used for medically urgent or expedited prior authorization requests during business hours. Those requests must be processed by calling the NIA call center: 1-866-326-6301(Medicaid) or 1-800-424-9231 (Ambetter).
- Turnaround time is within 1 Business day not to exceed 72 Calendar Hours.

# Notification of Determination

## Authorization Notification

- Validity Period - Authorizations are valid for:
  - IPM**
    - 30 days (Medicaid) or 90 days (Ambetter) from date of request.
  - Surgical**
    - Inpatient 30 days (Medicaid) or 90 days (Ambetter) from date of request.
    - Outpatient- SDC/Ambulatory 30 days (Medicaid) or 90 days (Ambetter) from date of request.
- The date of service that is selected at the time of the prior authorization request, will be used to determine the validity period. If the date of service changes, please contact NIA to update.

## Denial Notification

- Notifications will include an explanation of what services have been denied and the clinical rationale for the denial
- A peer-to-peer discussion can be initiated once the adverse determination has been made.
- A re-review/reconsideration may be available with new or additional information.
- Timeframe for Medicaid re-review is 10 calendar days from the date of denial. Time frame for Ambetter from Louisiana Healthcare Connections reconsideration is 5 business days.
- In the event of a denial, providers are asked to follow the instructions provided in their denial letter.

# IPM Points

Injections in all regions of spine are managed

Date of Service is required for all requests

Each IPM procedure must be prior authorized

No series of epidural injections

Specialty Nurses and Physicians will review IPM requests

# MSK Surgery Points – Lumbar/Cervical Spine Surgery

Inpatient and outpatient non-emergent surgeries

Spine Surgery is focused on lumbar and/or cervical spine surgeries

For spinal surgeries, only one authorization request per surgery. For example, a Lumbar fusion authorization includes decompression, instrumentation, etc.

CPT Codes 22800-22819 used for reconstructive spinal deformity surgery and the associated instrumentation do not require prior authorization. NIA will monitor the use of these CPT codes.

# MSK Surgery Points – Hip, Knee and Shoulder Surgery

Bilateral hip or knee surgeries require authorization for both the left **and** right side. These requests can be entered at the same time and will be reviewed concurrently. ACDF and posterior cervical fusion require authorization for each procedure. These requests can be entered at the same time and will be reviewed concurrently.

Surgeries addressing the following are not included in the musculoskeletal management program: trauma, amputation, fracture, active infection, pediatric conditions, congenital malformation, dysplasia (hip), palsy/plegia, osteochondritis dissecans (knee), osteotomy (knee), tumor, cyst, cancer, arthrodesis, girdle resection (hip), denervation (hip), joint dislocation, hemiarthroplasty (hip), hardware removal, & foreign body

# MSK Surgery Points – For all Surgeries

Specialized Orthopedic Surgeons or Neurosurgeons will review surgery requests. Inpatient admissions will continue to be subject to concurrent review by Louisiana Healthcare Connections.

Health Plan prior authorization requirements for the facility or hospital admission must be obtained separately and only initiated after the surgery has met NIA's medical necessity criteria.

Outpatient authorizations are valid for 30 days (Medicaid) and 90 days (Ambetter) from the date of request.

Below that, it states "24/7 online access for imaging facilities and health plans to NIA's RadMD Web site." There are two buttons: "Sign In" in orange and "New User" in grey. Below this is a section titled "Track an Authorization" in blue text. It features a text input field labeled "Authorization Tracking Number" and a "Go" button in orange. The entire interface is set against a light green and orange background with a reflection effect below.

# Registering on RadMD.com To Initiate Authorizations

Everyone in your organization is required to have their own separate username and password due to HIPAA regulations.

## STEPS:

1. Click the “New User” button on the right side of the home page.
2. Select “Physician’s office that orders procedures”
3. Fill out the application and click the “Submit” button.
  - You must include your e-mail address in order for our Webmaster to respond to you with your NIA-approved username and password.

Offices that will be both ordering and rendering should request ordering provider access, this will allow your office to request authorizations on RadMD and see the status of those authorization requests.

## IMPORTANT

- Everyone in your organization is required to have their own separate username and password due to HIPAA regulations.
- Designate an “Administrator” for the facility who manages the access for the entire facility.

## STEPS:

- Click the “New User” button on the right side of the home page.
- Select “Facility/office where procedures are performed”
- Fill out the application and click the “Submit” button.
  - You must include your e-mail address in order for our Webmaster to respond to you with your NIA-approved username and password.
- New users will be granted immediate access

**NOTE:** On subsequent visits to the site, click the “Sign In” button to proceed.

If you have multiple staff members entering authorizations and you want each person to be able to see all approved, pended and in review authorizations, they will need to register for a rendering username and password. The administrator will have the ability to approve rendering access for each employee. This will allow users to see all approved, pended and in review authorizations under your organization.

# RadMD Enhancements

NIA offers a **Shared Access** feature on our [RadMD.com](https://www.radmd.com) website. Shared Access allows ordering providers to view authorization requests initiated by other RadMD users within their practice.

The screenshot displays the RadMD.com website interface. At the top right, there are links for "Provider Resources" and "User" with a dropdown arrow. The main content area is divided into two columns. The left column, titled "Request", lists several categories: "Exam or specialty procedure (including Cardiac, Ultrasound, Sleep Assessment)", "Physical Medicine" with a sub-link "Initiate a Subsequent Request", "Radiation Treatment Plan", "Pain Management or Minimally Invasive Procedure", "Spine Surgery or Orthopedic Surgery", and "Genetic Testing". The right column, titled "Resources and Tools", lists "Shared Access", "Clinical Guidelines", and "Request access to Tax ID". Below these columns is a "Login As Username:" field with a "Login" button. At the bottom left, there is a "Request Status" section with links "Search for Request" and "View All My Requests". At the bottom right, there is a "Tracking Number:" field with a "Search" button and a link "Forgot Tracking Number?".

If practice staff is unavailable for a period of time, access can be shared with other users in the practice. They will be able to view and manage the authorization requests initiated on [RadMD.com](https://www.radmd.com), allowing them to communicate with members and facilitate treatment.
