Outpatient Interventional Pain Management (IPM)

The matrix below contains all of the OPT 4 codes for which National Imaging Associates Inc. (NIA) authorizes on behalf of Ambetter.

NIA issues authorizations based on the primary CPT code and its allowable billed groupings. A procedure can be billed under any one of the given CPT codes for that allowable billed grouping as long as a valid authorization number has been issued within the validity period.

***Please note: IPM services rendered in an Emergency Room, Observation Room, Inpatiently, or as a Hospital Inpatient are not managed by NIA.**

Procedure Name	Primary CPT Code	Allowable Billed Groupings
Sacroiliac Joint Injection	27098	27098, G0280
Cervical/Thoracic Interlaminar Epidural	62321	62320, 62321

- * Add-on codes (*) do not require separate authorization and are to be used in conjunction with approved primary code for the service rendered.
- * NOTE: due the repeat nature of IPM procedures, multiple authorizations may exist within the same validity period.

Special Information

- Every IPM procedure performed requires a prior authorization; NIA does not pre-approve a series of epidural injections.
- Bi-lateral IPM injections performed on the same date of service do not require a separate authorization. An authorization will cover bi-lateral as well as multiple levels on the same date of service.
- Add on codes do not require separate authorization and are to be used in conjunction with approved primary code for the service rendered.

Prior Authorization Process Overview

NIA's Clinical Foundation & Review

- **Clinical guidelines** were developed by practicing specialty physicians, through literature reviews and evidenced-based research. Guidelines are reviewed and mutually approved by the Plan and NIA Medical Officers and clinical experts. **Clinical Guidelines are available on www.RadMD.com**
- Algorithms are a branching structure that changes depending upon the answer to each question.
- The member's clinical information/medical record will be required for validation of clinical criteria before an approval can be made.
- NIA has a specialized clinical team focused on IPM.
- Peer-to-peer discussions are offered for any request that does not meet medical necessity guidelines.
- **Our goal – ensure that members are receiving appropriate care.**

IPM Clinical Checklist Reminders

IPM Documentation:

-  **Conservative Treatment**
 - Frequently, specifics of conservative treatment/non-operative treatment are not present in office notes. Details such as duration and frequency should be provided in order to ensure 6 weeks has been attempted within the past 6 months. Official physical therapy records do not need to be obtained but the provider should supply a summary of these details. Physical therapy is not the only means of conservative treatment acceptable; physician directed home exercise programs as well as chiropractic care are among other examples of appropriate treatments.

-  **Visual Analog Scale (VAS) Score and/or Functional Disability**
 - A VAS score is an acceptable method to relay intensity of pain. However, a description of functional disability is also accepted as a means for measuring pain (ie - noting that the member is no longer able to perform work duties, daily care, etc).

-  **Follow Up To Prior Pain Management Procedures**
 - For repeat treatments, follow up is required in regard to what procedure was completed, how much and for how long relief was obtained, active participation in ongoing conservative treatment, and to what level the pain has returned. A follow up office visit is not required; documentation of telephone encounters with the member are acceptable to satisfy this requirement.

Registering on RadMD.com To Initiate Authorizations

Everyone in your organization is required to have their own separate username and password due to HIPAA regulations.

STEPS:

1. Click the “New User” button on the right side of the home page.
2. Select “Physician’s office that orders procedures”
3. Fill out the application and click the “Submit” button.
 - You must include your e-mail address in order for our Webmaster to respond to you with your NIA-approved username and password.

NOTE: On subsequent visits to the site, click the “Sign In” button to proceed.

Offices that will be both ordering and rendering should request ordering provider access, this will allow your office to request authorizations on RadMD and see the status of those authorization requests.

A screenshot of the RadMD.com application form for a new account. The page title is 'RADMD.COM: APPLICATION FOR A NEW ACCOUNT'. It includes a warning: 'Please fill out this form only for yourself. Shared accounts are not allowed.' Below this is a dropdown menu for 'Which of the following best describes your company?' with the selected option being 'Physician's office that orders procedures'. There are several text input fields for 'Choose a New ID', 'Name' (First and Last), 'Phone' and 'Fax', 'Company Name' and 'Job Title', 'Email' and 'Confirm Email', and 'Address'. There is also a section for 'Your Superior' with fields for Name, Phone, and Email. A 'Submit Application' button is at the bottom.

RadMD Enhancements

NIA offers a **Shared Access** feature on our www.RadMD.com website. Shared Access allows ordering providers to view authorization requests initiated by other RadMD users within their practice.

The screenshot displays the RadMD website interface. On the left, there is a 'Request' menu with options: 'Exam or specialty procedure (including Cardiac, Ultrasound, Sleep Assessment)', 'Physical Medicine', 'Initiate a Subsequent Request', 'Radiation Treatment Plan', 'Pain Management or Minimally Invasive Procedure', and 'Spine Surgery or Orthopedic Surgery'. The middle section contains 'Resources and Tools' (Shared Access, Clinical Guidelines, Request access to Tax ID, Medicaid Disclosure Form) and 'News and Updates' (Hot Topic: Magellan Healthcare no longer managing Florida Blue Radiology, Interventional Musculoskeletal programs). On the right, a user profile dropdown is open, showing 'Username: USERNAME@GMAIL.COM', 'Main Menu', 'Call Center Phone Numbers', 'Change Password', '10 days until your password expires', 'Edit Your Personal Info', 'Hours of Operation', 'User Agreement', 'Help / FAQ', and 'Logout'. Below the dropdown is a 'Login As Username:' field with a 'Login' button. At the bottom, there is a 'Request Status' section with 'Search for Request' and 'View All My Requests' links, and a 'Tracking Number:' field with a 'Search' button and a 'Forgot Tracking Number?' link.

If practice staff is unavailable for a period of time, access can be shared with other users in the practice. They will be able to view and manage the authorization requests initiated on www.RadMD.com, allowing them to communicate with members and facilitate treatment.

Allows Users the ability to view all approved, pending and in review authorizations for facility

IMPORTANT

- Everyone in your organization is required to have their own separate username and password due to HIPAA regulations.
- Designate an “Administrator” for the facility who manages the access for the entire facility.

STEPS:

- Click the “New User” button on the right side of the home page.
- Select “Facility/office where procedures are performed”
- Fill out the application and click the “Submit” button.
 - You must include your e-mail address in order for our Webmaster to respond to you with your Magellan Healthcare-approved username and password.
- New users will be granted immediate access

NOTE: On subsequent visits to the site, click the “Sign In” button to proceed.

If you have multiple staff members entering authorizations and you want each person to be able to see all approved, pending and in review authorizations, they will need to register for a rendering username and password. The administrator will have the ability to approve rendering access for each employee. This will allow users to see all approved, pending and in review authorizations under your organization.
