

RadOnc Non-Cancerous Conditions Checklist

Evolent (NIA) has provided this checklist to help you in gathering the information needed to request a medical necessity review. Please complete this form and include any applicable clinical documentation (i.e., comparison plan, radiation therapy consultation, imaging results etc.) prior to submitting the case on www.radmd.com. As an alternative, you may also contact our Evolent (NIA) Call Center.

Non-Cancerous Conditions are processed as Other Cancers Primary

Non-Cancerous Conditions checklist used for but not limited to diagnosis of: Acoustic Neuroma, Arteriovenous malformation (AVM) of brain or spine, Benign Schwannomas, Chordomas, Craniopharyngioma, Dupuytren Contracture, Hemangioma, Heterotopic Ossification (Heterotopic Hip), Keloids, Pineal Gland, Pituitary Adenoma, Plantar Fascial Fibromatosis, Trigeminal Neuralgia.

Please note new case requests may not be started by fax.

General Information			
Patient Name:			
Date of Birth:			
Health Plan and Member ID:			
Treatment Planning Start Date (i.e., Initial Simulation):			
Treatment Start Date:			
Clinical Information			
ICD-10 Code(s):			
What is the treatment site? Each treatment site requires a separate authorization.			
What is Treatment Intent? Curative/ Palliative			
What is the treatment prescription dose for the course of treatment?			
What is the radiation therapy treatment start date?			
Does the member have distant metastases (stage VI or M1) (i.e., disease spread to bone, liver, lung, brain)?			
Will all radiation treatment be done at the same facility? YES or NO?			
History of prior radiation therapy? YES or NO? <i>If yes, provide details of prior site & total dose along with completion date:</i>			
What is the DOSE that will be used for each phase of treatment?			
Phase 1			
Phase 2			
Phase 3			
PLEASE INDICATE THE NUMBER OF FRACTIONS FOR EACH PHASE BELOW			
Phase 1	Phase 2 (Boost)	Phase 3	Treatment
			Superficial / Orthovoltage
			2D Radiation Therapy
			3D Radiation Therapy

			Electron Beam Therapy
			Intensity Modulated Radiation Therapy (IMRT)
			Proton Beam Therapy
			Stereotactic Radiosurgery & Stereotactic Radiation Therapy (SRS/SRT)
			Stereotactic Body Radiation Therapy (SBRT)
			Gamma Knife YES or NO?
			IORT Machine Name:
			LDR Brachytherapy
			HDR Brachytherapy

Plan Type: **IMRT:** **3D:**
Plan Type for SBRT/SRS/SRT and Proton Beam Therapy

Site Specific Questions for Other Cancer:
 Diagnosis:
 Original Tumor resected: Yes or No?
 Treatment Intent: Curative or Palliative
 Surgery Date (Required for Keloid and Heterotopic Ossification):

Number of ports/angles/fields
 Phase 1
 Phase 2
 Phase 3

Type of Imaging: Port Films IGRT IGRT Frequency:

Will concurrent (simultaneous) chemotherapy be administered during this course of treatment? YES or NO?

Chemotherapy name: Chemo dates:

CPT Code 77370 Special Physics
CPT Code 77470 Special Treatment
CPT Code 77331 Special Dosimetry

Additional comments or details:

Please be ready to submit any results of imaging (ultrasounds, x-rays, MRIs, PET Scans, CTs, DVH's) from the past 3 months and radiation therapy prescription plans in addition to the clinical treatment plan. This will assist in the review process. Failure to provide all relevant documentation may cause a delay.
