General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		patient has been complaining of right lower quadrant pain for 2 years, lower back and flank pain with hematuria for that long as well, trying to rule out kidney stone or malignancy. Had CT Chest in October 2017 with an incidental finding of noncalcified ; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; patient initially was seen 11/7/2016 with right lower abdominal pain and burning sensation. No hematuria at that time. Has since been seen in clinic 3 times since then, hematuria noted on urinalysis. Trying to rule out kidney stone or malignancy since n; There has been treatment or conservative therapy.; right lower quadrant pain, lower back pain, flank pain, hematuria. noncalcified pulmonary nodule on CT chest from October 2017.; antibiotics, heat, Tylenol, motrin; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Patient has had Nausea, vomiting & diarrhea since 8/31/18. Been on Augmentin & Flagyl. Still has not helped. 10lb weight loss & 8/31/18 had an xray & it showed minimal distention of small bowel loops, rt lower quadrant and air-fluid levels likely represen. This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		patient is having LLQ pain and has a history of diverticulitis; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Patient presents to clinic with chronic right sided abdominal pain.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		perumbilical mass approx 4 cm mass that is hard and tender below umbilicus; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Positive for nausea and vomiting. Positive for back pain. pain with range of motion in the back; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Pt c/o lower back/abdominal pain and burning with urination x 5 days. Pt presents with complaints of right flank pain starting over the weekend. Then had urinary frequency and dysuria. States she had a prescription for cipro 500mg which has helped some; This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Pt complains of epigastric pain for several months, 10 pound unexplained weight loss in the past 3 months. Currently, her BMI is 15. Ultrasound was unidiagnostic. Now she has developed nausea and vomiting. She is awaiting GI eval, but needs CT in the m; This is a request for an abdomen-pelvis CT combination; The reason for the study is none of the listed reasons; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Pt has history of kidney stones with hematuria. Pt is unable to urinate for the past few hours and has severe pain on the left flank.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Pt has persistent cough, anemia.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	pt here for f/u on right upper quadrant abd pain.She was evaluated by me 2 weeks ago for RUQ abd pain. She recently had GB u/s that was negative. Her pain is not really associated with eating foods. Pain is worse with palpation and with deep breathing.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has been completed.; The results of the contrast/barium x-ray were normal.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Pt is having abdominal pain with microscopic hematuria. PT has a history of renal stones; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Pt reports continuing to lose weight without trying. Pt reports diarrhea daily especially after eating. Pt reports abd cramping after episodes of diarrhea. Pt reports he has been having diarrhea for the past year but has been getting worse. Pt reports cou; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	R/O cancer; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	r/o small bowel obstruction; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Right lower quadrant pain since 07/16/18. Patient has been seen at least four times, had multiple UA's and a culture, all negative. Wanting to r/o Kidney stone, ovarian cysts and diverticulitis; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	RLQ pain(acute) and LLQ pain (chronic) ; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	RULE OUT KIDNEY STONES; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	severe abdomen pain and extreme nausea and vomiting; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	tenderness to palpation in RLQ and mid epigastric region. no rebound or guarding, neg murphys   CBC and CMP within normal limits however UA showing 7-10 RBCs. An H pylori test was ordered due to her epigastric pain and this was negative. Given blood in ; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the hematuria is not known.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; Yes this is a request for a Diagnostic CT	5
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for bilirubin.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for glucose.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for acute pain.; It is unknown if there has been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is infection; The patient does not have a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient does not have Crohn's Disease, Ulcerative Colitis or Diverticulitis.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has been completed.; The results of the contrast/barium x-ray were abnormal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	57
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed something other than Gall Stones, Kidney/Renal cyst, Aneurysm or a Pelvis Mass.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; It is unknown if a contrast/barium x-ray has been completed.; It is unknown if the patient have an endoscopy.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is none of the listed reasons.; It is not known if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is none of the listed reasons.; It is not known if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	14
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is organ enlargement; There is ultrasound or plain film evidence of an abdominal organ enlargement.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is pre-op or post op evaluation; The study is requested for post-op evaluation; The study is requested as a first follow up study for a suspected or known post-op complication; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is pre-op or post op evaluation; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is suspicious mass or suspected tumor or metastasis; It is not known if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; It is unknown if the patient had an abnormal abdominal Ultrasound, CT or MR study; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is suspicious mass or suspected tumor or metastasis; The patient is not presenting new symptoms.; It is not known if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed more than 10 months ago.; The patient had an abnormal abdominal Ultrasound, CT or MR study; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is suspicious mass or suspected tumor or metastasis; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is suspicious mass or suspected tumor or metastasis; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; It is unknown if the patient had an abnormal abdominal Ultrasound, CT or MR study; Yes this is a request for a Diagnostic CT	9
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is suspicious mass or suspected tumor or metastasis; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; It is unknown if the patient had an abnormal abdominal Ultrasound, CT or MR study; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; There are NO abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis; This study is being ordered for another reason besides Crohn's disease, Abscess, Ulcerative Colitis, Acute Non-ulcerative Colitis, Diverticulitis, or Inflammatory bowel disease; There are no findings that confirm hepatitis C; Infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection;; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; There is a known or a strong suspicion of kidney or ureteral stones; Kidney/Ureteral stone; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; There is no suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy; There are no new symptoms including hematuria; There are no new lab results or other imaging studies including ultrasound, Doppler or plain films findings; There is not a suspicion of an adrenal mass.; This is not a request to confirm a suspicious renal mass suggested by physical exam, lab studies, IVP or ultrasound;; Suspicious Mass or Tumor;; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; It is unknown if the patient had an Ultrasound.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The ultrasound showed something other than Gall Stones, Kidney/Renal cyst, Aneymys or a Pelvis Mass.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	9
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria; Yes this is a request for a Diagnostic CT	129
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Time for a re-evaluation for a CT and patient is having night sweats and abdominal cramping. They are afraid it spread; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		UNEXPLAINED WT LOSS; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Unknown; This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Unknown; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has been treatment or conservative therapy.; unknown; meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		unknown; This study is being ordered for trauma or injury.; 7/22/18; There has been treatment or conservative therapy.; Chest wall pain, chest tenderness, abdominal tenderness.; 7/23/18 and sent him to ER.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Very tender w/o any rebound over Mc Burneys point. Pelvic discomfort still. ??Appendicitis.; This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		VOMITING, PAIN; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		white blood cell count elevated, right upper quadrant pain and nausea, fever, ruling out appendicitis; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.	1

General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		; This study is being ordered for trauma or injury.; 09/10/2018; There has been treatment or conservative therapy.; ; start zpack  increase hydroxyzine to 50 mg q hs   refill bupropion  will send results to Dr. Machado when they are in diet modifications increase exercise avoid sugar/salt avoid sodas increase fluids RTC as needed.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		patient has a pancreatic mass that was found on ct scan that radiologist said need mri; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for known or suspected infection.; "The ordering physician is not a gastroenterologist, urologist, or infectious disease specialist.;" "There are physical findings or abnormal blood work consistent with peritonitis, pancreatitis, or appendicitis.;" CT INDICATED NEED FOR MRI DUE TO PANCREATIC DUCT DILATION	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for known or suspected infection.; "The ordering physician is not a gastroenterologist, urologist, or infectious disease specialist.;" "There are physical findings or abnormal blood work consistent with peritonitis, pancreatitis, or appendicitis.;" unknown	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; The patient is not presenting new symptoms.; The patient has had 3 or fewer follow-up abdomen MRIs.; This study is being ordered for follow-up.; The patient is not undergoing active treatment for cancer.; "The ordering physician is not an oncologist, urologist, gastroenterologist, or surgeon.;" elevated liver function test	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; The patient is presenting new symptoms.; This study is being ordered for follow-up.; The patient is not undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon.;" Radiologist recommended abdominal MRI for further evaluation hepatic lesion CT Impression: . Mild hepatic steatosis with a vague hypodense lesion in segment seven of the liver which could reflect focal fatty infiltration or an indeterminate liver mass.	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient did NOT have chemotherapy, radiation therapy or surgery in the last 3 months.; They did NOT have an Abdomen MRI in the last 10 months.	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.; "The ordering physician is not an oncologist, urologist, gastroenterologist, or surgeon.;" FINDINGS: Evaluation of the vasculature and solid viscera is limited  without IV contrast. Evaluation of the gastrointestinal tract is  limited without oral contrast. There are multiple nodules in the  included lung bases, th	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.; "The ordering physician is not an oncologist, urologist, gastroenterologist, or surgeon.;" us showed 17 mm lesion on pancreas	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for organ enlargement.; There is an ultrasound or plain film evidence of an abdominal organ enlargement.; < Enter answer here - or Type In Unknown if No Info Given. >	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;"	10
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" abnormal chest CT, right lobe liver lesion, ?hemangioma to evaluate: need pre and postcontrast MR imaging	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" CT was noted a 12mm	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" incidental finding of liver mass on CT following MVA	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" incidental scan of pancreas during a ct chest/abd/pelvis found a mass on her pancreas. this test is needed to further evaluate the mass.	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" patient has known mass/ cyst of liver and requires 6 month follow up to evaluate and follow per radiologist	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" Patient presented with abdominal pain times 2 weeks. Abdominal Ultrasound was ordered and shows a 2.5x2.1x2.2cm mass in the periphery of the right lobe of the liver.	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" Pt has already had an ultrasound and a CT scan. The ct scan showed a nodule on the adrenal gland that requires further observation, therefore an MRI is needed to see it in more detail.	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" radiology is concerned about a L ovarian mass/enlargement. Pt reports she was told this mass that was thought to be on her ovary, wasn't ovarian based on GYN US report (I don't have this) and we discussed how this mass might not show up on an ovarian US I	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" un known	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" we are looking at patients pancreas for a mass	1

General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; < Enter answer here - or Type In Unknown If No Info Given. >	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; 3.5 cm on liver	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; patient had a ct that showed a liver mass and recommended a mri abdomen.	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; It is not known if there are documented physical findings consistent with an abdominal mass or tumor.; "The patient has had an abdominal ultrasound, CT, or MR study."; < Enter answer here - or Type In Unknown If No Info Given. >	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A kidney abnormality was found on a previous CT, MRI or Ultrasound.; The patient has a tumor.	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.;	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; Per ct scan adrenal hemorrhage suspected. nausea and abdominal pain, pain in the flank.rt hip pain.LUQ tenderness (mild) Adrenal hemorrhage - left sided ,proceed with MRI for further eval.	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; unknown	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Unknown; There has been treatment or conservative therapy.; Severe pain in it leg and hip, lower back in flexed position while walking, unsteady gait, problem lifting it leg up. Pain with pelvic tilt, no edema in lower leg, decreased DTR in left leg compared to right.; Muscle relaxers; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)		The patient does not have three or more of the following conditions: age over 50, diabetes, history of hypertension, history of LDL cholesterol above 130, history of HDL cholesterol below 35, obesity (BMI above 35), and/or active history of smoking.; This request is for a Coronary CT Angiography study.; No, patient did not have a Nuclear Cardiology study within the past six months.; This study is being ordered for suspected Coronary Artery Disease (CAD) and symptomatic?; No, patient does not have new onset congestive heart failure.; ; Yes, there is Chronic Chest Pain.	1
General/Family Practice	Approval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)		This request is for a Coronary CT Angiography study.; Yes, patient had a Nuclear Cardiology study within the past six months.; 1. Moderate size defect of moderate degree involving mid to apical  anteroseptal wall that appears to be paradoxical consistent with  soft  tissue attenuation. Small size defect of mild degree involving  apical and  anterolateral apical wall t	1
General/Family Practice	Approval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)		This request is for a Coronary CT Angiography study.; Yes, patient had a Nuclear Cardiology study within the past six months.; Interpretation Summary  1. There is a fixed inferior defect consistent with prior myocardial  infarction. There is mild apical ischemia.  2. LVEF is depressed with EF of 30% at rest and 40% with stress.   Impression  1. ECG non diagnostic due	1
General/Family Practice	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing			1
General/Family Practice	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the abdominal arteries.	13
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		; This is a request for Breast MRI; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	3
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		Abnormal mammogram radiologist recommended a MRI of breast due to a mass; This is a request for Breast MRI; This study is being ordered for known breast lesions.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; No, this patient does not have axillary node adenocarcinoma.; No, there are no anatomic factors (deformity or extreme density) that make a simple mammogram impossible.; It is unknown if there are benign lesions in the breast associated with an increased cancer risk.	1

General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		Patient has hx of Breast cancer; This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; It is not known if this is an individual who has known breast cancer in the contralateral (other) breast.	1
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		Patient with bloody nipple discharge. Patient had abnormal mammogram; results following -- Coarse heterogeneous calcifications in a linear distribution within  the left nipple in this patient with left bloody nipple discharge.  Given the location wit; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		pt had an abnormal US and mammogram and has a breast mass; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		PT IS CONSIDERED HIGH RISK DUE TO PERSONAL HISTORY OF LOBULAR CARCINOMA IN SITU AND ATYPICAL LOBULAR HYPERPLASIA OF LT BREAST.; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		The patient reports a positive family history of breast cancer. She states her mother and two maternal aunts. have had breast cancer (see FMHx).   Her mother was diagnosed with breast cancer at 60 and colon cancer at 65. Maternal aunt diagnosed with; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There is a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	2
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for known breast lesions.; There are benign lesions in the breast associated with an increased cancer risk.	8
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		unknown; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
General/Family Practice	Approval	77078 Computed tomography, bone mineral density study, 1 or more sites, axial skeleton (eg, hips, pelvis, spine)		This is a request for a Bone Density Study.; This patient has not had a bone mineral density study within the past 23 months.; This is a bone density study in a patient with clinical risk of osteoporosis or osteopenia.	3
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has 3 or more cardiac risk factors; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 30 to 39	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		chest pain and pt. has torn ligament in knee; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Patient is experiencing episodes of atypical chest pain and dyspnea with exertion. Stress test results were nondiagnostic. Patient has history of hypertension and CAD.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.; The patient has had a stress echocardiogram within the past eight weeks.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		pt was scheduled for treadmill but exceeds weight limit. having worsening chest pain and shortness of breath and doe.; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; It is not known whether the patient has one or more of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Recent Sparks Van Buren ER visit secondary to shortness of breath/dizziness/increased pulse for the last 1 week. Per patient, the workup was normal including EKG and chest x-ray. She was diagnosed with a severe UTI placed on ciprofloxacin for which she ; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The patient is not presenting with symptoms of atypical chest pain and/or shortness of breath.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have diabetes.; This is NOT a Medicare member.; The patient is 65 or older.; The patient does NOT have cardiac history with known myocardial infarction and/or cardiac intervention such as cardiac surgery/angioplasty(PCI).; This is for a preoperative evaluation of a non cardiac surgery involving general anesthesia	1

General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The patient is presenting new symptoms of chest pain or increasing shortness of breath.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.; This study is being ordered for Known Coronary Artery Disease (CAD); The diagnosis was established by a previous stress echocardiogram, Myocardial Perfusion Imaging, or stress EKG; The patient has not had a stress echocardiogram within the past eight weeks.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for known CAD.; The patient is presenting new symptoms of chest pain or increasing shortness of breath.; This patient's diagnosis was established by a previous stress echocardiogram, nuclear cardiology study, or stress EKG.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	3
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is not presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had a recent non-nuclear stress test.; The patient had a recent abnormal EKG consistent with CAD.; The patient has not had a recent stress echocardiogram.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient is female.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; It is not known if there are documented findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; This patient is clinically obese or has an emphysematous chest configuration.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; It is not known if there are documented findings of hyperlipidemia.; There are documented clinical findings of hypertension.; It is not known if the patient has had a recent non-nuclear stress test.; It is not known if the patient is clinically obese or if there is an emphysematous chest configuration.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are documented clinical findings of hyperlipidemia.; It is not known if the patient has had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; This patient is clinically obese or has an emphysematous chest configuration.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	5
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; There are documented clinical findings of hypertension.; The patient has not had a recent non-nuclear stress test.; It is not known if the patient is clinically obese or if there is an emphysematous chest configuration.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; There are no documented clinical findings of hypertension.; The patient is not diabetic.; The patient had a recent non-nuclear stress test.; "Patient is not clinically obese, nor has an emphysematous chest configuration."; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient is female.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has 3 or more cardiac risk factors.; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 40 or greater	3

General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The study is requested for known or suspected valve disorders.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		unknown; The patient is not diabetic; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic; This is not the first visit for this complaint.; There has been a physical exam; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic; This is not the first visit for this complaint.; There has been a physical exam; The patient is male.; A rectal exam was performed.; The results of the exam were normal; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	75
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	7
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal; Yes this is a request for a Diagnostic CT	5
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	56
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	18
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient had an endoscopy.; The endoscopy was normal.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; A nodule of less than 4 centimeters has been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; The solitary pulmonary nodule was identified on an imaging study in the last 30 days.; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
General/Family Practice	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient is experiencing new signs or symptoms indicating a recurrence of cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
General/Family Practice	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
General/Family Practice	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient completed a course of treatment initiated within the last 8 weeks.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		; This is a request for an echocardiogram; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; It is unknown if this study is being requested for the initial evaluation of frequent or sustained atrial or ventricular cardiac arrhythmias.; The patient has an abnormal EKG	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 8/1/18 when chest pain started, swelling 8/7/18; It is not known if there has been any treatment or conservative therapy.; ecg: left atrial abnormality. having chest pain that radiates to the jaw, having swelling in lower extremities, hx of cad, stent x1, copd, htn, hyperlipidemia; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; The abnormal symptom, condition or evaluation is not known or unlisted above.	2
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; This study is being requested for the initial evaluation of frequent or sustained atrial or ventricular cardiac arrhythmias.; The patient has an abnormal EKG	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; This study is NOT being requested for the initial evaluation of frequent or sustained atrial or ventricular cardiac arrhythmias.; The patient has an abnormal EKG	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This request is for initial evaluation of a murmur.; It is unknown if the murmur is grade III (3) or greater.; There are clinical symptoms supporting a suspicion of structural heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; The patient has abnormal heart sounds	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; This request is for initial evaluation of a murmur.; It is unknown if the murmur is grade III (3) or greater.; It is unknown if there is clinical symptoms supporting a suspicion of structural heart disease.; This is NOT a request for follow up of a known murmur.	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; This request is for initial evaluation of a murmur.; It is unknown if the murmur is grade III (3) or greater.; There are clinical symptoms supporting a suspicion of structural heart disease.	4
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; This request is for initial evaluation of a murmur.; It is unknown if the murmur is grade III (3) or greater.; There are NOT clinical symptoms supporting a suspicion of structural heart disease.; This is NOT a request for follow up of a known murmur.	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; This request is for initial evaluation of a murmur.; The murmur is grade III (3) or greater.	2
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Valves.; It is unknown what type of cardiac valve conditions apply to this patient.	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Valves.; This is an initial evaluation of artificial heart valves.	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Valves.; This is NOT for prolapsed mitral valve, suspected valve disease, new or changing symptoms of valve disease, annual review of known valve disease, initial evaluation of artificial heart valves or annual re-eval of artificial heart valves.	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Congenital Heart Defect.; It is unknown if this is being ordered for initial diagnosis of congenital heart disease, Annual follow up of congenital heart disease or Evaluation of change of clinical status.	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Heart Failure; This is for the initial evaluation of heart failure.	8
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; It is unknown if the patient has a history of a recent heart attack or hypertensive heart disease.	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient does not have a history of a recent heart attack or hypertensive heart disease.	2

General/Family Practice	Approval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;		This is a request for a Stress Echocardiogram; None of the listed reasons for the study were selected; The member does not have known or suspected coronary artery disease	5
General/Family Practice	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING			1
General/Family Practice	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Low Dose CT for Lung Cancer Screening.; It is unknown if this patient has had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.	1
General/Family Practice	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	1
General/Family Practice	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		; This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; It is unknown if the patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.	1
General/Family Practice	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; It is unknown if the patient is presenting with pulmonary signs or symptoms of lung cancer or if there are other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	1
General/Family Practice	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient quit smoking less than 15 years ago.	14
General/Family Practice	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for MRCP.; There is no reason why the patient cannot have an ERCP.	1
General/Family Practice	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		; This is a request for MRCP.; There is no reason why the patient cannot have an ERCP.	1
General/Family Practice	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		Patient would have to travel to be able to get the ERCP in addition to have an extended wait time due to having to be referred to specialist, have a consult visit, and then be scheduled for study before it could be completed. An MRCP would be the most cos; This is a request for MRCP.; There is a reason why the patient cannot have an ERCP.; The patient has not undergone an unsuccessful ERCP.; The patient does not have an altered biliary tract anatomy that precludes ERCP.; The patient does not require evaluation for a congenital defect of the pancreatic or biliary tract.; It is not known if MRCP will be used to identify a pancreatic or biliary system obstruction that cannot be opened by ERCP.; "The patient is not an infant or young child, and not an adult who is debilitated or uncooperative in such a manner that ERCP is unsafe or cannot be performed."; "The patient has neither a documented allergy to iodine-based contrast materials, or a general history of allergic responses."; The patient does not have acute pancreatitis.	1
General/Family Practice	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		Per radiologist that read the ultrasound, MRCP could be performed for further evaluation. This was on the report.; This is a request for MRCP.; There is no reason why the patient cannot have an ERCP.	1
General/Family Practice	Disapproval	70336 Magnetic resonance (eg, proton) imaging, temporomandibular joint(s)	Radiology Services Denied Not Medically Necessary	This is a request for a temporomandibular joint MRI.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	3
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has not been any treatment or conservative therapy.; Radiculopathy, lumbosacral region; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Inflammatory/ Infectious Disease.; 5/1/18; There has not been any treatment or conservative therapy.; Soft tissue is swelling on left side.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The headache is not described as a "thunderclap" or the worst headache of the patient's life.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.	2
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; This study is being ordered for new onset of seizures or newly identified change in seizure activity or pattern.	1

General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 07/25/2018; There has not been any treatment or conservative therapy.; Bruising and pain to the head and jaw; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	confused, slurred speech; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring. Hx of seizures, photophobia, falling, sleep disturbances; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Lump and swelling; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	11
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	21
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; It is unknown if the patient had an Ultrasound.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient had an endoscopy.; The endoscopy was normal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were abnormal.; Yes this is a request for a Diagnostic CT	12
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were abnormal.; Yes this is a request for a Diagnostic CT	7
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Unknown; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for bilirubin.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/28/2018; There has been treatment or conservative therapy.; Pain; Pain medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		urinalysis completed// pain cramping and tender, heart burn, no fever; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Urinary tract infection getting worse high white blood count; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		WILL FAX IN; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		; This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A kidney abnormality was found on a previous CT, MRI or Ultrasound.; It is unknown if the patient has a renal cyst or tumor.	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		; This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A liver abnormality was found on a previous CT, MRI or Ultrasound.; It is unknown if there is suspicion of metastasis.	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		CT scan incidentally noted nodule on adrenal, recommended f/u with MRI for evaluation.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		PATIENT HAS A NODULE; This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient has NOT had previous abnormal imaging including a CT, MRI or Ultrasound.; This study is NOT being ordered to evaluate an undescended testicle in a male.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	None; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has been treatment or conservative therapy.; H/A, ABX; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has been passing out for no reason; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has continuing migraine that medication is not working for.; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has history of seizure disorder since birth.. previously grand mal, more recently has been more "petit mal" or "staring seizures" lasting an hour or so - patient awake - but can't move or respond during the episodes. Seen at Children's hospital a; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Patient is having pain at the base of her head and behind eyes; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1

General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Known or suspected infection best describes the reason that I have requested this test.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a chronic headache, longer than one month; Headache best describes the reason that I have requested this test.	36
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a new onset of a headache within the past month; Headache best describes the reason that I have requested this test.	20
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has the worst headache of patient's life with onset in the past 5 days; Headache best describes the reason that I have requested this test.; This is NOT a Medicare member.	14
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	2
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for a neurological disorder.; 8/8/2018; There has been treatment or conservative therapy.; lower abdominal pain, and headache; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for hematuria.; The patient has painful hematuria.; The patient has not had an IVP.;	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for known or suspected infection.; "The ordering physician is not a gastroenterologist, urologist, or infectious disease specialist.;" "There are physical findings or abnormal blood work consistent with peritonitis, pancreatitis, or appendicitis.;"	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for known or suspected infection.; "The ordering physician is not a gastroenterologist, urologist, or infectious disease specialist.;" "There are physical findings or abnormal blood work consistent with peritonitis, pancreatitis, or appendicitis.;" HPI-Establish care for recurrent pancreatitis and abdominal pain. Also has had pain and blood vessel rupture in both feet that is painful. Has also been taking gabapentin 300 mg once daily and told to titrate up. Has been treated for C. Diff with Vanco	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; The patient is not presenting new symptoms.; The patient has had 3 or fewer follow-up abdomen MRIs.; This study is being ordered for follow-up.; The patient is not undergoing active treatment for cancer.; "The ordering physician is not an oncologist, urologist, gastroenterologist, or surgeon.;" Had CT scan Done multiple lesions, Recommendation follow up	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.; "The ordering physician is not an oncologist, urologist, gastroenterologist, or surgeon.;" The liver contains a 1.2 cm heterogeneously hypo echic mass in the left hepatic lobe.	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" &t; Enter answer here - or Type In Unknown If No Info Given. &t;	4
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" 7/25/18 CT ab and pelvis impression indicate s lesion rising from posterior 2.1 x 1.5 cm, not consistent hemangiona, mild fecal retention without bowel obstruction	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" left adrenal adenoma and patient will need MRI prior and following contrast administration within phase and out of phase imaging per CT recommendation.	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" liver mass identified on ct of the chest performed on 04/02/2018 also on ultrasound	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" Mr. Abram has had a weight loss of 13+ pounds in 6 months. Also nausea and vomiting. With several visits to the e.r.	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" Patient has Hematuria and liver lesions	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" possible preop testing	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" This is a 6 month follow up MRI to evaluate stability of liver hemangioma previously noted.	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" unknown	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" History of Present Illness:&t; 1. Abdominal pain &t; Onset: 2 Years. Pain scale: 4/10. The problem has worsened. The location is right upper quadrant. The patient reports radiation to the back. Aggravating factors include food. The patient denies relieving	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" R93.2 Abnormal MRI, liver, liver lesion f/u,enhancement measures 1.1 cm. This is increased in signal on the T2 weighted images and demonstrates enhancement similar to the liver on the remainder of the images. This probably represents flash filling of a he	1
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	&t; Enter answer here - or Type In Unknown If No Info Given. &t; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is immune-compromised.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/04/2018; There has been treatment or conservative therapy.; cough, shortness of breath, wheezing; Steroids, antibiotics, inhaler; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	fever of 101.7; This study is being ordered for Inflammatory/ Infectious Disease.; 6/4/18; There has been treatment or conservative therapy.; eye pain, fever, sinus congestion, knot in front of ear, facial pain; antibiotics; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	none; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	None; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has been treatment or conservative therapy.; H/A; ABX; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	pt has mild puffiness, nasal drip; "This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is not a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	SINUS PRESSURE; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2 WEEKS AGO; There has been treatment or conservative therapy.; MIGRAINE HEADACHE; MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; It is not known if there are documented physical findings consistent with an abdominal mass or tumor.; "The patient has had an abdominal ultrasound, CT, or MR study.;"	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; It is not known if there are documented physical findings consistent with an abdominal mass or tumor.; "The patient has had an abdominal ultrasound, CT, or MR study.;" Patient had Ct scan that shows a 1cm lesion on the pancreas and they recommend MRI	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; It is not known if there are documented physical findings consistent with an abdominal mass or tumor.; "The patient has not had an abdominal ultrasound, CT, or MR study.;" < Enter answer here - or Type In Unknown If No Info Given. >;	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A liver abnormality was found on a previous CT, MRI or Ultrasound.; There is suspicion of metastasis.	3
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; < Enter answer here - or Type In Unknown If No Info Given. >;	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; Dilated common bile duct up 1.2 cm. MRCP is recommended to evaluate distal CBD obstruction.	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; Nausea, vomiting; please check for iron overload.	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; Patient had a CT abdomen and pelvis done and showed patient had Hemangioma and radiologist recommended having further imaging such as an MRI abdomen	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; Patient has had pain in left side of back and abdomen for more than 5 months. CT is normal.	1
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for a known or suspected tumor.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for follow-up to trauma.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Inflammatory/ Infectious Disease.; 5/1/18; There has not been any treatment or conservative therapy.; Soft tissue is swelling on left side.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The neck mass is larger than 1 cm.; A fine needle aspirate was NOT done.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; rule out valve stenosis.	1
General/Family Practice	Approval	74185 Magnetic resonance angiography, abdomen, with or without contrast material(s)		This is a request for a MR Angiogram of the abdomen.	1
General/Family Practice	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Vascular Disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Abnormal last ABI, Brachial Artery pressure, needs CTA.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/20/2018; There has been treatment or conservative therapy.; Edema in her leg.; Medication (HCT 2.5MG). Previous ADI suggesting to have this study done.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; No, this patient does not have axillary node adenocarcinoma.; No, there are no anatomic factors (deformity or extreme density) that make a simple mammogram impossible.; It is unknown if there are benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		abnormal mammogram and ultrasound, radiologist recommends MRI; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		CLINICAL INFORMATION HAS BEEN UPLOADED.; This is a request for Breast MRI.; This study is being ordered for known breast lesions.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; No, this patient does not have axillary node adenocarcinoma.; No, there are no anatomic factors (deformity or extreme density) that make a simple mammogram impossible.; It is unknown if there are benign lesions in the breast associated with an increased cancer risk.	2
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		Mammogram, CT and ultrasound all abnormal; This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; No, this patient does not have axillary node adenocarcinoma.; No, there are no anatomic factors (deformity or extreme density) that make a simple mammogram impossible.	1
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		PATIENT HAS A HIGH LIFETIME RISK OF 33.7%; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		PATIENT HAS DENSE BREAST AND HAS CALCIFICATION'S BILATERALLY.; This is a request for Breast MRI.; This study is being ordered for known breast lesions.; There are NOT benign lesions in the breast associated with an increased cancer risk.	1
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; No, this patient does not have axillary node adenocarcinoma.; Yes, there are anatomic factors (deformity or extreme density) that make a simple mammogram impossible.; It is unknown if there are benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; Yes, this is a confirmed breast cancer.; Yes, the results of this MRI (size and shape of tumor) affect the patient's further management.	2
General/Family Practice	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		unknown; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed), single study, at rest or stress (exercise or pharmacologic)		< Enter answer here - or Type In Unknown If No Info Given. >; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; It is unknown if there is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; It is unknown if there is a suspicion of an infection or abscess.; This is not being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is no suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is not a suspicion of an infection or abscess.; This is not being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Disapproval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	; This study is being ordered for Vascular Disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	see ophthalmology notes she has some retina hemorrhages, but she didn't get her mri's due to claustrophobia, she still has some visual disturbances in the left eye with like something is twirling around. , they have not worsen, she is following with dr. ly; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 03/01/2018; There has been treatment or conservative therapy.; Routine Exam/ DM Exam- about 4 months ago (3/01/18) pt. experienced a purple and magenta blob in center vision OS and anything with a straight line seemed bent in. This was 3 days after pt. started Carvedilol. She has poorly controlled hypertension with p; steroid eye drops; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for Vascular Disease.; 8/30/2018; There has not been any treatment or conservative therapy.; weakness, visual disturbance; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the brain.	4
General/Family Practice	Disapproval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 6/2018; There has been treatment or conservative therapy.; Confusion, bilateral weakness; Holter Monitor placed on meds for stroke prevention.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; Medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Atypical chest pain. Pt unable to perform treadmill stress test due to having a walking boot while awaiting ankle surgery.; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; There are no documented clinical findings of hypertension.; The patient is not diabetic.; The patient has not had a recent non-nuclear stress test.; "Patient is not clinically obese, nor has an emphysematous chest configuration.;" The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; The patient is male.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Comments:attempted to call pt. no answer. echo revealed strong heart muscle without significant valvular disease. holter monitor revealed sinus rhythm. Noted 15,000 pvc's. Recommend nuclear stress for further evaluation. Will add Metoprolol 25mg po bid. ; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.; The patient does not have known diabetes	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Shortness of breath , Congestive Heart Failure, CAD Pt has diabetes; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has not had other testing done to evaluate new or changing symptoms.; The study is requested for congestive heart failure.; There are new or changing cardiac symptoms including atypical chest pain (angina) and/or shortness of breath.; There is known coronary artery disease, history of heart attack (MI), coronary bypass surgery, coronary angioplasty or stent.; The member has known or suspected coronary artery disease.; The BMI is 30 to 39	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Shortness of breath and chest pain with exertion; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has 3 or more cardiac risk factors; The study is requested for congestive heart failure.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 30 to 39	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Shortness of breath when walking, known murmur.; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Stress test was nondiagnostic. Patient is experiencing episodes of chest pain associated with dyspnea near syncope. Abnormal EKG. Hypertension.; The patient has had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The patient couldn't finish the stress echo because of shortness of breath.; The patient has had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The patient is diabetic.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient is less than 45 years old.	2
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The patient is presenting new symptoms of chest pain or increasing shortness of breath.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.; This study is being ordered for Suspected Coronary Artery Disease (CAD); The patient has not had a stress echocardiogram within the past eight weeks.	5
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The patient does not have diabetes.; This is a Medicare member.	1
General/Family Practice	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Chronic pain; "This is a request for orbit, face, or neck soft tissue MRI.239.8"; The reason for the study is not for trauma, infection, cancer, mass, tumor, pre or post-operative evaluation	1
General/Family Practice	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 10/22/2015; There has not been any treatment or conservative therapy.; chronic fatigue and nausea , thyroid issues, CVA.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	3
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	5
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; It is unknown if the patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/19/18; There has been treatment or conservative therapy.; DIZZINESS, VISION PROBLEM; MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; It is not known if there are documented findings of hyperlipidemia.; It is not known if there are documented clinical findings of hypertension.; The patient is not diabetic.; The patient has not had a recent non-nuclear stress test.; "Patient is not clinically obese, nor has an emphysematous chest configuration."; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion imaging (Nuclear Cardiology Study); It is not known if the patient has a physical limitation to exercise.; The patient is female.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are documented clinical findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; It is not known if the patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are documented clinical findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	11
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; There are no documented clinical findings of hypertension.; The patient is not diabetic.; The patient has not had a recent non-nuclear stress test.; *Patient is not clinically obese, nor has an emphysematous chest configuration.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; The patient is female.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has diabetes.; This is a Medicare member.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	3
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient does not have dizziness, one sided arm or leg weakness, the inability to speak, or vision changes.; The patient does not have HIV or cancer.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient is experiencing dizziness.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; Pt was seen at UAMS on 9/6 by DR. Kahn Pt was dx with Parkinson's Disease. Further testing is required by Dr. Kahn b the pt is wanting to do the testing in Hot Springs. We have a message from UAMS. I called them at 11:45am and left a message for a return ; It is not known if there has been any treatment or conservative therapy.; Neck Pain Reported by patient. Location: left  Quality: stabbing; aching; deep; worsening Duration: date of onset; 1 years  Timing: chronic; constant  Context: cannot identify Aggravating Factors: sleeping on it wrong  Neurological Complaints:; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; unknown; There has been treatment or conservative therapy.; pain in head, daily headaches, hx of seizures   pain in lower back radiates down legs. tenderness and limited ROM; NSAIDS, muscle relaxers, pain medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	BLURRED VISION; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has dizziness.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Dizziness and giddiness - symptoms have been present for over 6 months. This is likely a vestibular cause for symptoms however we'll get an MRI to rule out other causes.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient is experiencing dizziness. giddiness dizziness; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Has been having some numbness, and tingling on left side of face, having trouble with vision changes and some pressure behind left eye with vision loss along with left sided hearing problems. also said that he cannot smell out of his left nostril; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has hearing loss.; The patient did not have an audiogram.; It is unknown why this study is being ordered.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	headache migraines worse meds not helping family history of brain cancer; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	headache is essentially a band around the entire head, throbbing; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has dizziness.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1

General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Male pt w very enlarged breast w pain, abnormal prolactin level, needing MRI to look at pituitary glands to r/o pituitary mass; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The study is requested for congestive heart failure.; The member does not have known or suspected coronary artery disease	3
General/Family Practice	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on an imaging study.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Lymphoma or Myeloma.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
General/Family Practice	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made); This study is being requested for Breast Cancer.; This is NOT for an evaluation of axillary lymph nodes.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
General/Family Practice	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Lung Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
General/Family Practice	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Melanoma.; This is for evaluation of regional lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
General/Family Practice	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; A nodule of less than 4 centimeters has been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; The solitary pulmonary nodule was identified on an imaging study in the last 30 days.; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
General/Family Practice	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on an imaging study.; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
General/Family Practice	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made); This study is being requested for Breast Cancer.; This is for evaluation of axillary lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Migraine headache: Patient is still having headaches even on amitriptyline, and patient doesn't want to take it any more. Patient is supposed to get MRI, but it hasn't been approved yet. No syncope or presyncope issues. No issues with the medication. Pati; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	New onset dizziness and loss of smell. Patient has tried over the counter nasal sprays without relief.; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; A metabolic work up was done including urinalysis, electrolytes and complete blood count with results completed.; The lab results were normal.; The patient is experiencing loss of smell.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	none; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	ongoing right sided ha for over 2mos into occipital area; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Passed out several times; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The results of the lab tests are unknown.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient complaining of sudden severe headaches; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a sudden and severe headache.; The patient has NOT had a recent onset (within the last 3 months) of neurologic symptoms.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient dizzy getting worse, she has appointment for ENT in July. Stated she has melinze but not helping Patient reports nausea and vomiting but reports no abdominal pain, no constipation, and no diarrhea; associated with car sickness. She reports dizzi; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient is experiencing dizziness.	1
General/Family Practice	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient is experiencing new signs or symptoms indicating a recurrence of cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

General/Family Practice	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		< Enter answer here - or Type in Unknown If No Info Given. >; This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; The patient has a history of hypertensive heart disease.; It is unknown if there is a change in the patient's cardiac symptoms.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; The patient has high blood pressure	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		; This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; The patient has shortness of breath; Shortness of breath is not related to any of the listed indications.	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		(Chest pain); This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This study is NOT being requested for the initial evaluation of frequent or sustained atrial or ventricular cardiac arrhythmias.; The patient has an abnormal EKG	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; The reason for ordering this study is unknown.	5
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT EXPERIENCING CHRONIC TINNITUS & VERTIGO. ENT DX PATIENT W BONE SPUR IN R EAR. PCP ORDERING MRI FOR FURTHER EVAL.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient is experiencing vertigo	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient has had two Levi admissions in the last month. Diagnosis was schizophrenia. She states she feels better on the new medications and is sleeping. Her family member feels like the medication is too much and states she was diagnosed with dementia.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient is experiencing memory loss that is getting worse.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The results of the lab tests are unknown.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient is experiencing memory loss. He has had head concussions in past. He has been having dizzy spells off and on since June 2018.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; It is unknown why this study is being ordered.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient is suffering from chronic debilitating headaches that is diminishing her quality of life. ADLs are being compromised.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient is taking medication; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient went to Springhill Baptist ER on 6/21/2018 for dizziness, weakness and syncope. States that for two days she had been weak and dropping things. Felt lightheaded and had fallen several times. Had labs done (CBC, CMP, Cardiac Enzymes-normal). UA; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has vertigo.; It is unknown why this study is being ordered.	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; It is unknown if there been a change in clinical status since the last echocardiogram.; It is unknown if this is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; It is unknown if this request is for initial evaluation of a murmur.; It is unknown if this is a request for follow up of a known murmur.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; The patient has abnormal heart sounds	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; There has been a change in clinical status since the last echocardiogram.; It is unknown if this is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is an initial evaluation of suspected valve disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; The patient has shortness of breath; Known or suspected valve disease.	2

General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; The patient has shortness of breath; Shortness of breath is not related to any of the listed indications.	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; There has been a change in clinical status since the last echocardiogram.; This request is NOT for initial evaluation of a murmur.; This is a request for follow up of a known murmur.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient with confusion and memory loss for 2-3 months. No known injury; This request is for a Brain MRI. The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	persistent migraine; to evaluate; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Posterior headaches, persistent dizziness increased with positional change post bacterial meningitis with recurrent infection. Need to rule out abscess, hydrocephalus, subdural effusion.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Pt has a history of migraines; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	She complains of daily headaches. Her mother has a history of meningioma.  Pt. complains of insomnia. Melatonin is not effective.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	The patient has unexplained unsteadiness with an elevated sed rate. With her symptoms she is very suspicious for MS. Brain MRI for further work-up required.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; The patient has not undergone treatment for multiple sclerosis.; It is not known if there are intermittent or new neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has not been a previous Brain MRI completed.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is not a new and sudden onset of a headache less than 1 week not improved by medications.; There is not a family history (parent, sibling, or child) of stroke, aneurysm, or AVM (arteriovenous malformation)	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for trauma or injury; 09/17/18; There has not been any treatment or conservative therapy.; depression, irritability, outbursts of anger, social withdrawal, crying, sad and fatigue; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDS specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	will fax in; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax, without contrast material	Radiology Services Denied Not Medically Necessary	"There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is radiologic evidence of a lung abscess or empyema.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax, without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is 54 years old or younger.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax, without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/19/18; There has been treatment or conservative therapy.; DIZZINESS, VISION PROBLEM; MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDS specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax, without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/18/2018; There has not been any treatment or conservative therapy.; lung nodule; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDS specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax, without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 7/27/18; There has been treatment or conservative therapy.; pain, constipation, lung nodule; medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDS specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	; It is not known if there is radiologic evidence of asbestosis.; "The caller doesn't know if there is radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; It is not known if there is radiologic evidence of a lung abscess or empyema.; It is not known if there is radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for Congenital Anomaly.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has not been any treatment or conservative therapy.; Shortness of breath, dysphagia, smoker, LUL diminished, 4 cm bony tumor on occiput; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary		1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; There has NOT been a change in clinical status since the last echocardiogram.; This request is for initial evaluation of a murmur.; The murmur is NOT grade III (3) or greater.; It is unknown if there is clinical symptoms supporting a suspicion of structural heart disease.; This is a request for follow up of a known murmur.	1
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Valves.; This is an evaluation of new or changing symptoms of valve disease.	3
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Valves.; This is an initial evaluation of suspected valve disease.	2
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Congenital Heart Defect.; This is for evaluation of change of clinical status.	2
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient has a history of hypertensive heart disease.; There is a change in the patient's cardiac symptoms.	2
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Pulmonary Hypertension.	12
General/Family Practice	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		Unknown; This study is being ordered for a neurological disorder.; 01/2018; There has not been any treatment or conservative therapy.; Syncope; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;		The patient is not presenting with symptoms of atypical chest pain and/or shortness of breath.; There are documented clinical findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; This is a request for a Stress Echocardiogram.; This patient has not had a Nuclear Cardiac study within the past 8 weeks.; This study is being ordered for suspected coronary artery disease.	1
General/Family Practice	Approval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;		The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; This is a request for a Stress Echocardiogram.; This patient has not had a Nuclear Cardiac study within the past 8 weeks.; This study is being ordered for suspected coronary artery disease.; This patient is clinically obese or has an emphysematous chest configuration.	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	A Chest/Thorax CT is being ordered.; This study is being ordered for known tumor.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal finding on examination of the chest, chest wall and/or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	37
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; Abnormal imaging (xray) finding was relevant in the diagnosis or suspicion of inflammatory lung disease; This study is being requested for known or suspected inflammatory disease such as sarcoidosis, pneumoconiosis, asbestosis, silicosis; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; Another abnormality led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema); Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request; Finding of cancer elsewhere is related to the suspicion of cancer in this patient; This is a request for a Chest CT.; This study is being requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request; The patient had an abnormal imaging (xray) finding related to the suspicion of cancer in this patient; This is a request for a Chest CT.; This study is being requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient has signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request; This reason this study is being requested is unknown.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request; This study is being requested for an unresolved cough; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	COPD, DYSPNEA, BACK ACHE, ABNORMAL CHEST XRAY, COUGH; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for none of the above.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Coughing so hard that she is having convulsions. Been to the ER several times; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is 54 years old or younger.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Differential includes pleural effusions/decreased diffusion capacity, COPD, cardiogenic issues, versus other. At rest on room air without oxygen, spO2 96%. While ambulating on room air, spO2 86%. Ambulating on 2L oxygen via NC, patient's oxygen level cam; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	has COPD, and screening for lung cancer; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Hx of lupus. Pain has been going since 02-7. Pt has been seen over 4 times for this issue.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/06/2018; There has been treatment or conservative therapy.; Pt has right upper quadrant pain and right sided chest pain. Hx of Lupus; Pt. had NSAIDs and steroids; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	No, the patient was NOT seen by a specialist because of the traumatic injury; Chest pain describes the reason for this request.; 'None of the above' were noted on evaluation after the injury.; This is a request for a Chest CT.; This study is being requested for chest injury or trauma within the past 2 weeks.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; It is unknown what led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema); Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This study is being requested for an unresolved cough; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	9
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Patient came in today complaining about Pleurisy.. chest pain. she complains cant sleep at night... and also of abdominal pain chronic from scale from 1-10 she stated a 8.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT COMPLAINS OF THORACIC AND LUMBAR SPINE PAIN AFTER FALL.; This study is being ordered for trauma or injury.; PATIENT PRESENTS TO CLINIC WITH LOW BACK AND THORACIC PAIN AFTER FALL.; There has been treatment or conservative therapy.; VERRY TENDER OVER THORACIC AND LUMBAR SPINE.; PATIENT GIVEN TORADOL AND DEPOMEDROL INJECTION WITH HOME EXERCISES WITH NO RELIEF.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	patient has had blood and urine tests and was told it is not her gallbladder. Patient has had a history of cyst on common bile duct; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/02/18; There has been treatment or conservative therapy.; Acute pain when walking. Function is inhibited by the pain.; Heating pad use; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has had severe chest and abdominal pain for less than 24 hours. She came into the office to day for an examination. She is very tender to the touch in both her abdomen and chest. She has a cough in office, decreased breathe sounds were noted.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has severe COPD. She is an active tobacco abuser and has been counseled on the benefits in quitting. She has a new symptom, she is now coughing up blood. Her physical examinations are always abnormal. She has abnormal breathe sounds and changes in; It is not known if there is radiologic evidence of asbestosis.; "The caller doesn't know if there is radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; It is not known if there is radiologic evidence of a lung abscess or empyema.; It is not known if there is radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; It is unknown if there is radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	PT HAVING LEFT SIDED CHEST AND RIB PAIN X 4MONTHS WITH RESPIRATION. STATES PAIN IS GETTING WORSE.; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	some gerd, chest pain and pressure; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 9/7/18; There has not been any treatment or conservative therapy.; chest pain, pressure in the chest; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; A Chest/Thorax CT is being ordered; This study is being ordered for screening of lung cancer; The patient is between 55 and 80 years old; This patient is NOT a smoker nor do they have a history of smoking; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary		1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease. < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 07/04/2018; There has not been any treatment or conservative therapy.; Pain in lower back and neck, numbness and tingling to left foot; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; August 28, 2018; There has been treatment or conservative therapy.; Cant move right shoulder, Right arm and hand numbness; First Care on Wednesday - St Bernards Emergency Room on Thursday.  He has been to chiropractor; twice a day x 5 days. taking pain medications for 3 days.  also norflex muscle relaxer; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;		This is a request for a Stress Echocardiogram; None of the listed reasons for the study were selected; It is not known if the member has known or suspected coronary artery disease.	3
General/Family Practice	Approval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;		This is a request for a Stress Echocardiogram; The patient has NOT had cardiac testing including Stress Echocardiogram, Nuclear Cardiology (SPECT/MPI), Coronary CT angiography (CCTA) or Cardiac Catheterization in the last 2 years; The member has known or suspected coronary artery disease.	5
General/Family Practice	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		; This request is for a Low Dose CT for Lung Cancer Screening; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months; The patient is between 55 and 80 years old; This patient is a smoker or has a history of smoking; It is unknown if the patient has a 30 pack per year history of smoking; It is unknown if the patient is presenting with pulmonary signs or symptoms of lung cancer or if there are other diagnostic test suggestive of lung cancer.	1
General/Family Practice	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		annual lung screening and PT is a smoker; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	1
General/Family Practice	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months; The patient is between 55 and 80 years old; This patient is a smoker or has a history of smoking; The patient has a 30 pack per year history of smoking; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	58
General/Family Practice	Approval	58037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		David is a 54 yo WM who presents to the clinic with c/o RUQ pain. States he has had pain since GB removed but in the past 2 months he has developed sharp, stabbing pain in RUQ that occurs daily. He denies nvd, constipation, cp,sob, chills. He does have; This is a request for MRCP.; There is a reason why the patient cannot have an ERCP.; The patient has not undergone an unsuccessful ERCP.; The patient does not have an altered biliary tract anatomy that precludes ERCP.; The patient does not require evaluation for a congenital defect of the pancreatic or biliary tract.; It is not known if MRCP will be used to identify a pancreatic or biliary system obstruction that cannot be opened by ERCP.; "The patient is not an infant or young child, and not an adult who is debilitated or uncooperative in such a manner that ERCP is unsafe or cannot be performed."; "The patient has neither a documented allergy to iodine-based contrast materials, or a general history of allergic responses."; The patient does not have acute pancreatitis.	1
General/Family Practice	Approval	58037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		This is a request for MRCP.; There is a reason why the patient cannot have an ERCP.; The patient has not undergone an unsuccessful ERCP.; The patient does not have an altered biliary tract anatomy that precludes ERCP.; The patient does not require evaluation for a congenital defect of the pancreatic or biliary tract.; The MRCP will be used to identify a pancreatic or biliary system obstruction that cannot be opened by ERCP.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	Arthritis Progressive pain limited movement; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	having ongoing neck discomfort; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	Neck: Neck: pain with motion and muscle rigidity and trachea midline and no masses.    has cervical bridge noted in neck; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	patient has neck pain; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	Patient states she has severe neck pain with radiation down to shoulders and arms; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	patient was in a mva; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	pt has a lot of pain in neck and spasms; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	1

General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has increased neck pain after PT; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	PX, NUMBNESS AND TINGLING IN EXTREMITIES; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	see attached; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 07/19/2018; There has been treatment or conservative therapy.; pain in neck radiating to right arm; Tramadol, Steroid injection (Dexamethasone), exercise therapy.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to chronic neck pain or suspected degenerative disease.; There has been a supervised trial of conservative management for at least 6 weeks.; The patient is experiencing sensory abnormalities such as numbness or tingling.; There is a reason why the patient cannot have a Cervical Spine MRI.; This study is being ordered for another reason besides Abnormal gait, Lower extremity weakness, Asymmetric reflexes, Documented evidence of Multiple Sclerosis,  Bowel or bladder dysfunction, Evidence of new foot drop, etc.  Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for trauma or injury.; 8/4/18 MVA; There has been treatment or conservative therapy.;  Describe primary symptoms here - or Type In Unknown If No Info Given  Steroid Injection; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	Patent is needing to see Neurosurgery for severe back pain.; This is a request for a thoracic spine CT.; There is no reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	Reported by patient. Location: lumbar; pain radiating to the legs (right more than left)  Quality: sharp Severity: worsening; severe (8-10); interference with sleep; interference with work Duration: chronic pain but has worsened in the past 3 days  0; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This is a request for a thoracic spine CT.; Caller does not know whether there is a reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; back pain-6/2018; There has been treatment or conservative therapy.; back pain, middle of the back is numb and tingling radiates to the shoulder blades, nicotine dependence, shortness of breath, vehicle accident 6/2018; oral medication, home therapy exercises; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	mild tenderness to palpation L3-L5. Mild Tenderness to palpation of C5-C7. Mildly tender to palpation of bilateral posterior neck and upper back (over trapezius muscle bilaterally); One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT COMPLAINS OF THORACIC AND LUMBAR SPINE PAIN AFTER FALL.; This study is being ordered for trauma or injury.; PATIENT PRESENTS TO CLINIC WITH LOW BACK AND THORACIC PAIN AFTER FALL.; There has been treatment or conservative therapy.; VERRY TENDER OVER THORACI AND LUMBAR SPINE.; PATIENT GIVEN TORADOL AND DEPOMEDROL INJECTION WITH HOME EXERCISES WITH NO RELIEF.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		This is a request for MRCP.; There is a reason why the patient cannot have an ERCP.; The patient has not undergone an unsuccessful ERCP.; The patient has an altered biliary tract anatomy that precludes ERCP.	1
General/Family Practice	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		This is a request for MRCP.; There is a reason why the patient cannot have an ERCP.; The patient has undergone unsuccessful ERCP and requires further evaluation.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	2
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/1/18; There has been treatment or conservative therapy.; pt has headaches , with pressure behind the eyes and didn't have any relief; The pt is on medicine , using verapamil 120 mg; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has not been any treatment or conservative therapy.; pain, and pressure in the neck and head area; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for trauma or injury.; 06/20/2018; There has been treatment or conservative therapy.; falling, medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has not been any treatment or conservative therapy.; Shortness of breath, dysphagia, smoker, LUL diminished, 4 cm bony tumor on occiput; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	attention right side; This study is being ordered for inflammatory/ infectious Disease.; 2 wks ago; There has been treatment or conservative therapy.; right side of face swollen cheeks; antibiotics and cream (steroid); One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Auditory hallucinations; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1

General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	c/o frequent headaches,  taking excedrine migraine daily  patient reports he had headaches when he was younger; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	frequent, severe headaches.  , more often on the rt side of head, monitor bp, proceed with ct and try maxalt R51: Headache; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	GENERAL APPEARANCE: Normally developed individual, appearing stated age, in no acute distress. HEAD: normocephalic, atraumatic, no scalp lesions.  SKIN: warm and dry, good turgor, no rashes, multiple scars to right arm, multiple areas of ecchymosis and abr; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Headache; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Migraine headaches, family history of brain aneurysm; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Migraines lasting 3 days without medication relief.; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has symptoms that are caused by no known event. Patient has constant dizziness (spinning), leading to nausea, and vision changes, and also headaches. Movement of anykind makes the dizziness worse.; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	patient was in a mva; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	Reported by patient.  Location: lumbar; pain radiating to the legs (right more than left)  Quality: sharp Severity: worsening; severe (8-10); interference with sleep; interference with work Duration: chronic pain but has worsened in the past 3 days  O; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is a preoperative or recent post-operative evaluation.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is experiencing symptoms of radiculopathy for six weeks or more.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a neurological disorder.; 05/17/2018; There has been treatment or conservative therapy.; memory loss, vertigo, ataxia, low back pain, lower extremity weakness; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Left arm weakness and soreness. Patient has high blood pressure and stated her arm feels heavy. Doing therapy with no improvement.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy.; The patient has been treated with medication.; The patient was treated with oral analgesics.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for a neurological disorder.;  Enter date of initial onset here - or Type In Unknown If No Info Given  There has not been any treatment or conservative therapy.; Radiculopathy, lumbosacral region; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for a neurological disorder.; 20 years but has been getting worse; There has been treatment or conservative therapy.; Low back pain; Pain management, back injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for a neurological disorder.; unknown; There has been treatment or conservative therapy.; pain radiates down neck, rib cage, lower back; PT / meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/10/18; There has been treatment or conservative therapy.;  Describe primary symptoms here - or Type In Unknown If No Info Given   Describe treatment / conservative therapy here - or Type In Unknown If No Info Given  One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 07/03/2018; There has been treatment or conservative therapy.; Chronic pain; Medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10-2017; There has not been any treatment or conservative therapy.; chronic back pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/24/2016; There has been treatment or conservative therapy.; Pain; Medications and HEP; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has not been any treatment or conservative therapy.; Left upper extremity pain, spasms in the biceps, pain in the right interior chest region and also has spasms. Describes the pain as a burning sensation. Has intermediate posterior neck pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 7/16/2018; There has not been any treatment or conservative therapy.; Neck pain and upper back pain with sensation also headaches.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	4
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.; left arm	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; difficulty with grasping objects.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	patient having severe dizziness, vertigo, headache ,arthritis of the neck; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	patient presents with 2 month history of headache with visual changes and 30 pound weight loss. There is concern for metastatic disease; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	PT C/O HAVING L SIDED HEADACHES FOR LAST 8-9 MONTHS UNRELIEVED BY PAIN MEDICATIONS.; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has numbness and tingling over half of face.; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; The patient is able to have a Brain MRI for evaluation of these symptoms.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Pt is having right eye pain; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	right lower quadrant pain, Patient describes pain as sharp, rating it at 7/10. Patient reports area is tender to palpation, Patient denies fever, vomiting, nausea, Onset of symptoms x 1 day, Patient has concerns of appendicitis.   pt having increase hea; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	55
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Known or suspected TIA (stroke) with documented new or changing neurologic signs and or symptoms best describes the reason that I have requested this test.; This is NOT a Medicare member.	4
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	11
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; 'None of the above' describes the headache's character.; Headache best describes the reason that I have requested this test.	3
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	3
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; 05/26/2017; There has been treatment or conservative therapy.; Numbness; tingling; LBP; PT and meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; Pt was seen at UAMS on 9/6 by DR. Kahn Pt was dx with Parkinson's Disease. Further testing is required by Dr. Kahn b the pt is wanting to do the testing in Hot Springs. We have a message from UAMS. I called them at 11:45am and left a message for a return ; It is not known if there has been any treatment or conservative therapy.; Neck Pain Reported by patient. Location: left  Quality: stabbing; aching; deep; worsening  Duration: date of onset; 1 years  Timing: chronic; constant  Context: cannot identify  Aggravating factors: sleeping on it wrong  Neurological Complaints: ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 07/19/2018; There has been treatment or conservative therapy.; mass grown in size over past 2 months in the right clavicle painful; u/s MRI of soft tissue neck; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2016; There has been treatment or conservative therapy.; Back pain; Mobic in 2016, Gabapentin 2018; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; chronic, over 6 years; There has been treatment or conservative therapy.; Limited ROM and motor difficulty; NSAIDs and Pain medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.	2
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The headache's character is unknown.; Headache best describes the reason that I have requested this test.	3
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a headache, elevated sedimentation rate and or the patient is over 55 years old; Headache best describes the reason that I have requested this test.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a suspected brain tumor.; Known or suspected tumor best describes the reason that I have requested this test.; There are documented neurologic findings suggesting a primary brain tumor.; This is NOT a Medicare member.	2
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a suspected tumor outside the brain.; Known or suspected tumor best describes the reason that I have requested this test.	2
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; It is not known if the headache is described as a "thunderclap" or the worst headache of the patient's life.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a neurological disorder.; 05/17/2018; There has been treatment or conservative therapy.; memory loss, vertigo, ataxia, low back pain, lower extremity weakness; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 03/2017; There has not been any treatment or conservative therapy.; Chronic pain and discomfort, gland swollen and mass found on U/S; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; ; It is not known if there has been any treatment or conservative therapy.; Neck and Shoulder pain with arm weakness. History of Domestic, physical abuse.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 05/10/2018; There has been treatment or conservative therapy.; decreased and painful rom; physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	1. diabetes  Pt. is here for follow-up of chronic medical problems.  Pt. denies any side effects from medications; pharmacy reports he is sporadic in getting his prescriptions. Pt. is compliant with diabetic diet.  Blood sugars have been unknown. P; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; 1. diabetes  Pt. is here for follow-up of chronic medical problems.  Pt. denies any side effects from medications; pharmacy reports he is sporadic in getting his prescriptions. Pt. is compliant with diabetic diet.  Blood sugars have been unknown. P; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	bypass; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; It is not known if there has been any treatment or conservative therapy.; bypass; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Can not lay R side, numbness in lower scalp and neck; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Cervical Spine spasms, decreased extension, and reduced ROM and normal flexion and no tenderness; paraesthesia to right index finger.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Worsening in severity 10 out of 10, bilateral temporal area, blurred vision, nausea, wakes patient from sleep, medications not helping.; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.  Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/1/18; There has been treatment or conservative therapy.; pt has headaches , with pressure behind the eyes and didn't have any relief; The pt is on medicine , using verapamil 120 mg, One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	attention right side; This study is being ordered for inflammatory/ infectious Disease.; 2 wks ago; There has been treatment or conservative therapy.; right side of face swollen cheeks; antibiotics and cream (steroid); One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	chronic sinusitis - recurrent; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	PT with ongoing c/o facial pain lt sided, Minimal improvement with Neurontin,NSAIDs; "This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is not a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is immune-compromised.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immunocompromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset AND the patient failed a course of antibiotic treatment; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immunocompromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Degenerative disc and Fibromyalgia.; This study is being ordered for trauma or injury.; 7/24/2018; There has been treatment or conservative therapy.; Low back and neck pain. Ambulatory problems; Pain meds and anti-inflammatory meds.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.; It is not known if the patient had six weeks of Chiropractic care related to this episode.;	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.; It is not known if the patient had six weeks of Chiropractic care related to this episode.; Unknown	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.;	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.;	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	MRI needed to see neurosurgeon; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 07/02/2018; There has been treatment or conservative therapy.; Chronic neck and back pain; Physical Therapy, Medication, Injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	MRI's needed for evaluation and next steps - pain management/ESI; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; September 2017; There has been treatment or conservative therapy.;; Mobic, Flexeril, PT without much relief; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Musculoskeletal System: Cervical Spine reduced ROM and tenderness on palpation.   Lumbar Spine: Inspection no skin abnormalities or visible deformity. Soft Tissue Palpation on the Left: tenderness of the paraspinal region at L. Soft Tissue Palpation on ; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	n/a; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown.; There has been treatment or conservative therapy.; Chronic Neck and back pain.; Meds.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	n/a; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; will fax; It is not known if there has been any treatment or conservative therapy.; n/a; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	neck and lower back pain; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; It is not known if there has been any treatment or conservative therapy.; neck and lower back pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	neck pain, degenerative changes, peripheral neuropathy, back pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has a history of a spinal fusion c5-c6.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Patient is having increased pain, decreased range of motion, and numbness and weakness in her arms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has had Lumbar spine injections & amp; will use MRI CS & amp; TS for evals for injections.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has been treatment or conservative therapy.; Chronic neck pain, CS Degenerative Disc Disease with CS Failed back syndrome. Patient has CS radiculopathy w spinal stenosis. Patient has insomnia due to neck and back pain. Has used Tens Unit, hot/cold packs, PT, & amp; home exercises w no relief.; Patient prescribed pain meds & amp; had PT.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Patient notes radiating numbness in left arm; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Patient presents for a complaint of neck pain that started yesterday. He was at work and bent down and reports both arms went numb and the neck started hurting bad. The arms are back to normal except for when he bends his head down. The pain is severe o; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has tried and failed with conservative therapy of NSAID and physical therapy.; This study is being ordered for trauma or injury.; 05/02/2018; There has been treatment or conservative therapy.; chronic thoracic, lumbar and cervical pain with muscle spasms, not relieved by muscle relaxers or NSAIDs.; provider directed physical therapy and NSAID therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering Mds specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Pt is having increased neck, back, right arm/leg pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immunocompromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been less than 14 days since onset; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immunocompromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	12
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immunocompromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	11
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is not being ordered for trauma, tumor, sinusitis, osteomyelitis, pre operative or a post operative evaluation.; Yes this is a request for a Diagnostic CT Unknown; "This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is not a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type in Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has not been any treatment or conservative therapy.; pain, and pressure in the neck and head area; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering Mds specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	Patient feels like she has a lump in her throat , it gets worse in the night , short of breathe, it has been going on for 2 weeks.; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is NOT a palpable neck mass or lump.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	These symptoms have been persistent for the last 2 months.; This study is being ordered for Inflammatory/ Infectious Disease.; 06/05/2018; There has been treatment or conservative therapy.; Swollen lymph nodes, headaches, and fatigue; Doxycycline Hyclate 100 mg tablets  Hydrocodone-Acetaminophen 5-325 mg tablets  Prednisone 20 mg tablets Toradol 10 mg tablets  Bactrim DS 800-160 mg tablets; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering Mds specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	PT presents with c/o continuing pain in her neck. She also reports a "crawling" feeling in her neck, numbness and tingling down her arms, left greater than right, and weakness when gripping her hands.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Physical Examination: Wt: 245.4 lb Ht/Ln: 64 in BMI: 42.1 BP: 140/82 Pulse: 79 RR: 16 Temp: 98.1F Sat: 94 TENDER PARASPINOUS MUSCLES IN CERVICAL AREA. DECREASED RANGE OF MOTION TO FLEXION AND ROTATION DUE TO PAIN. MOTOR IS 5/5 PROXIMALLY AND DIS; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	ruptured disk in neck; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has been treatment or conservative therapy.; patient has chronic neck and back pain and has ruptured disk in neck; pt has been on pain medications, NSAIDS and has been told to alter her activities; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering Mds specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Stroke; This study is being ordered for a neurological disorder.; 10/20/2017; There has been treatment or conservative therapy.; Neck pain left arm paralysis back pain sciatica. Unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering Mds specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	symptoms getting worst; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; It is not known if this patient had a recent course of supervised physical Therapy.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.; PT COMPLAINS OF NECK PAIN SINCE JANUARY, HAS DAILY PAIN THE PAIN HAS BECOME MORE SEVERE RECENTLY. UNABLE TO DO DAILY CHORES BECAUSE OF THE NECK PAIN. RECENTLY STARTING SHOOTING PAIN INTO HIS LEFT JAW AND SHOULDER. THERE HAS BEEN NO TRAUMA.	1
General/Family Practice	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	WILL FAX ADDL CLINICAL; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The size of the neck mass is unknown.; The neck mass has NOT been examined twice at least 30 days apart.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 6/2018; There has been treatment or conservative therapy.; Confusion, bilateral weakness; Holter Monitor placed on meds for stroke prevention.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Head CT ordered but not yet performed.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/18/2018; It is not known if there has been any treatment or conservative therapy.; Dizziness; light headed; headache; blurred vision; high bp; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	; This study is being ordered for Vascular Disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Head CT ordered but not yet performed.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/18/2018; It is not known if there has been any treatment or conservative therapy.; Dizziness; light headed; headache; blurred vision; high bp; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the Neck.	3
General/Family Practice	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	There is not a suspicion of an infection or abscess.; This examination is being requested to evaluate lymphadenopathy or mass.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1
General/Family Practice	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5 days ago; There has been treatment or conservative therapy.; Vertigo, head movements, blurred vision in right eye, loss of vision; Medication, over the counter; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical therapy.; It is not known if the patient had six weeks of Chiropractic care related to this episode.;	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient is in today to establish with me for primary care. I have seen him a couple of times for neck pain. The pain is stable but still present. He reports occasional numbness and tingling of bilateral hands. The pain is exacerbated by turning the he; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.;	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	3
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; < Enter Additional Clinical Information>; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	2
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; Back Pain Reported by patient. Location: cervical; pain radiating to the buttocks Quality: sharp; stiffness Severity: worsening Duration: chronic; several years  Aggravating Factors: movement/positioning; twisting; flexing back; extending back; lying; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
General/Family Practice	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	previous ct was normal; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
General/Family Practice	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a neurological disorder.; No exact date given.; It is not known if there has been any treatment or conservative therapy.; Daily HA, syncope, Hyponatremia, SVT, Fatigue; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; A metabolic work up was done including urinalysis, electrolytes and complete blood count with results completed.; The lab results were normal.; The patient is experiencing loss of smell.	1

				< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary		
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has a loss of smell.; It is unknown why this study is being ordered.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has fatigue or malaise; It is unknown why this study is being ordered.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; Neck Pain (muscle spasms and stiffness, w/ radiculopathy down spine)  This is a chronic (8 months ago) problem. The current episode started more than 1 week ago. The problem occurs constantly. Progression since onset: waxing and waning. The pain is asso; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; The patient has previously had surgery about a year ago. She is having new symptoms of pain and numbness into the right arm. Patient describes the sensation as an "icy hot" sensation; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	3
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; None of the above; <Enter Additional Clinical Information>; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; None of the above; neck and right shoulder pain. Upper arms and shoulder showed abnormalities, palpation of the arms revealed abnormalities; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; <Enter Additional Clinical Information>	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.;	4
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Patient also has neck pain issues, and had x-ray done, which showed arthritis. Patient will be referred to physical therapy, and MRI of the cervical spine ORDERED FOR EVALUATION.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Patient has been having severe neck and back pain and is needing this done to find out what is causing this issue.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Patient has neck pain, spondylosis and osteophytes.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; She was last seen back in January and had injection done a couple weeks after I last saw her. She doesn't feel that her pain is responding to the injections any longer. She does have an increase in her stress level at home, and there are some difficulties	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.;	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Degenerative changes on X-Ray. C5 & C6 moderate degenerative disease.	2
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Degenerative changes on X-Ray. C5 & C6 moderate degenerative disease.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 10/22/2015; There has not been any treatment or conservative therapy.; chronic fatigue and nausea , thyroid issues, CVA.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2 years; There has been treatment or conservative therapy.; right side sharp pain in head-pressure behind right eye.; medication,headaches are getting progressively worse; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2015; There has been treatment or conservative therapy.; HEADACHE, WEAKNESS.; INJECTIONS, MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	2
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	5
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The results of the lab tests are unknown.; The patient is experiencing dizziness.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Doctor wants to make sure neck is Stable before PT	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Musculoskeletal System: Cervical Spine normal flexion and extension and spasms, reduced ROM, and tenderness on palpation.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; PATIENT'S PAIN IS GETTING WORSE.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Trauma or recent injury; Persistent R neck pain w numbness of R lateral arm pain radiated to right upper arm; Yes, the patient have new or changing neurological signs or symptoms.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This is a request for cervical spine MRI; There is no evidence of tumor or metastasis on a bone scan or x-ray.; Suspected Tumor with or without Metastasis	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/22/2018; There has been treatment or conservative therapy.; Pain in shoulder and neck; NSAIDs and analgesics.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Upon obtaining plain films of his cervical and thoracic spine here today he has multilevel degenerative changes with osteophyte formation that would cause the symptoms he is having; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; He is here primarily with a complaint of intermittent numbness in his left arm; The patient does not have new signs or symptoms of bladder or bowel dysfunction; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	2
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient is experiencing dizziness.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; It is not known if the patient has a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection); It is not known if the doctor notes on exam that the patient has delirium or acute altered mental status.; The patient does not have a Brain CT showing abscess, brain infection, meningitis or encephalitis.; This is NOT a Medicare member.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; It is unknown why this study is being ordered.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; 04/05/2018; There has not been any treatment or conservative therapy.; Patient with muscle twitching in LE bilat, bilat hands and feet; patient with numbness in bilat hands, feel lips, left side of torso; uncontrollable shaking of UE bilat; patient reports severe burning between shoulder blades; weakness in LE bilat; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Will Fax the clinicals in bc it is the Rendering Provider; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary		1

General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	There are no documented clinical findings of immune system suppression.; This is a request for a thoracic spine MRI.; The patient is not experiencing back pain associated with abdominal pain.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis, Follow up to or Pre-operative evaluation, or Neurological deficits.; C/o LBP and thoracic pain for the past 2 weeks.  Has had this issue in past.  Last MRI was in 2013 showed bulging disc.  Also c/o leg pain to thighs bilaterally for the past 3 months.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; pain not Improved. 6 mos	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for a neurological disorder.; 5/21/2018; There has been treatment or conservative therapy.; The pt has back pain w/weakness, tingling in legs, scoliosis, numbness, Meloxicam.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for a neurological disorder.; unknown; There has been treatment or conservative therapy.; pain radiates down neck, rib cage, lower back; PT / meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/10/18; There has been treatment or conservative therapy.;  Describe primary symptoms here - or Type In Unknown If No Info Given   Describe treatment / conservative therapy here - or Type In Unknown If No Info Given   One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Chronic daily headaches.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Chronic HA; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Dizziness and giddiness; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are not recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Further evaluation of the new onset headache is required.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is a new and sudden onset of a headache less than 1 week not improved by medications.; It is not known if the headache is described as a "thunderclap" or the worst headache of the patient's life.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	he headache is located in the left temporal area. The pain radiates to the left neck. The patient describes the pain as throbbing (hurts when adding pressure). Onset was gradual 1 month(s) ago. dizziness and nausea." L OM RED BUDGING; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	L sided headache for almost 2 weeks,seems goes from occipital area to frontal area,almost constant gets worse ,then little better,woke up with HA tonight,no face twitching now.No any trauma; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has dizziness.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Memory issues have been ongoing for several months and seems to be getting worse, patient is having problems processing things now and describes as moderate.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	patient continues to have ongoing headaches. T1 weighted showed; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient has tried prescription rx, darkroom and rest without relief.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	patient is having headaches; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT NEEDS FURTHER EVALUATION; This study is being ordered for a neurological disorder.; 2 WKS AGO; There has been treatment or conservative therapy.; LUMBAR AND CERVICAL PAIN WITH RADICULOPATHY AND LEG WEAKNESS. WORSENING HEADACHE OVER 2 WKS WITH VISION CHANGES; TREATMENT FOR BACK PAIN HAS BEEN PHYSICAL THERAPY, NSAIDS, PAIN MEDS. TREATMENT FOR THE HEADACHE HAS BEEN TYLENOL, IBU, EYES CHECKED.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient stated that she has had 3 episodes w/in the past 2 months of where everything would get dark and she would black out. She stated that she fell in March and hit her head; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; It is unknown if there recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is not a new and sudden onset of a headache less than 1 week not improved by medications.; It is not known if there is a family history (parent, sibling, or child) of stroke, aneurysm, or AVM (arteriovenous malformation)	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient states this is has been a sudden severe onset of mental disorientation. He completely forgets everything, confused about who people are and what he is doing. Pt states he becomes very light headed as well as very weak.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has dizziness.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient was hospitalized for 1 sided weakness, dizziness, headache, gait imbalance-07/20/2018; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient was seen on 09/05/2018 with c/o "shaking habit in my head." Patient states "my head has been twitching since May 2018." Patient currently plays sports, previous sports-related head trauma.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested due to trauma or injury.; There are not new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; The trauma or injury to the head occurred more than 1 week ago.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient with altered mental status and cognitive impairment with memory loss and extreme fatigue. He has had multiple labs drawn with no abnormalities revealed.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient is experiencing fatigue or malaise.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient with sudden onset significant decline in cognitive function and also sudden onset change in personality and mood. Concern for cerebrovascular attack or other frontal lobe pathology.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are not recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.; It is not known if there a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	persistent, recurrent headache. wakes everyday with headache. was being treated for migraines. meds no longer effective; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has not been any treatment or conservative therapy.; back pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has not been any treatment or conservative therapy.; Left upper extremity pain, spasms in the biceps, pain in the right interior chest region and also has spasms. Describes the pain as a burning sensation. Has intermediate posterior neck pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; < Describe treatment / conservative therapy here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 04/21/2017; There has not been any treatment or conservative therapy.; Curviges in spine, numbness and tingling of legs, chronic back pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2016; There has been treatment or conservative therapy.; Back pain; Mobic in 2016, Gabapentin in 2018; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 7 months ago; There has been treatment or conservative therapy.; Neck pain Back pain; Physical Therapy Medicine; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	by pass; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; It is not known if there has been any treatment or conservative therapy.; bypass; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Decreased ROM in thoracic and cervical area spasms; This study is being ordered for trauma or injury.; 05/11/2018; There has been treatment or conservative therapy.; Leg pain tingling numbness back and neck pain; PT x 6 weeks Rx medication NSAIDs anti inflammatory meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	disc displacement or protrusions; This study is being ordered for a neurological disorder.; 03/2018; There has been treatment or conservative therapy.; mid back pain and numbness, left thigh pain, cramping; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	he can't sleep and stop his daily activities; This study is being ordered for trauma or injury.; 2000; There has been treatment or conservative therapy.; Pt. is having back pain in the lumbar area; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	history of thoracic pain and lumbar disc disease.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has any neurological deficits; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; Caller does not know whether the patient is experiencing sensory abnormalities such as numbness or tingling.; Pt is somewhat less manic and is sleeping better but he's still not sleeping well and he still feels like he can't slow down.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	R/o tumor or stroke; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	seen in er for migraine 7/16/18; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Seen in Mena ER, BP 182/114; they do him he needed an MRI; admits to history of bipolar and anger issues. States has all the symptoms of post concussive syndrome.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested due to trauma or injury.; There are not new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; The trauma or injury to the head occurred more than 1 week ago.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	She is having dizziness, depression, mood swings, saying wrong words, headaches, laps in memory, sleeping a lot x 2 weeks.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	She states that she has noticed a lump in the back of her head that swells up when she has a migraine. She noticed this about 4-5 months ago. When she does not have a headache, she states that she cannot feel the lump. She complains of pain to the touch o; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Skin Lesion Reported by patient. Location: scalp  Quality: no pain  Severity: mild  Duration: started 2 week(s) ago  Onset/Timing: abrupt  Context: no known trigger  Alleviating Factors: no alleviating factors  Aggravating Factors: no aggravating.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has any neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to trauma or acute injury within 72 hours.; Thoracic back/chest pain for 1 month. Meloxicam not helping. Arthritic changes noted on thoracic back xray, possible nerve involvement? Need MRI to determine.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if there are documented findings of immune system suppression.; This is a request for a thoracic spine MRI.; It is not known if the patient is experiencing back pain associated with abdominal pain.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis, Follow up to or Pre-operative evaluation, or Neurological deficits.; unknown	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	mid back pain He has had this over the last year This is getting much worse He has tried otc meds and home stretch an pt but no relief xray shows osteoarthritis; This is a request for a thoracic spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	na; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	numbness and tingling in hands and feet; This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	pain in thoracic spine. acute pain due to trauma; This is a request for a thoracic spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT FELL DOWN STAIRS; This study is being ordered for trauma or injury.; 06/25/2018; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; X-RAYS TO LUMBAR, THORACIC AND PELVIC BONE; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has tried and failed with conservative therapy of NSAID and physical therapy.; This study is being ordered for trauma or injury.; 05/02/2018; There has been treatment or conservative therapy.; chronic thoracic, lumbar and cervical pain with muscle spasms, not relieved by muscle relaxers or NSAIDs.; provider directed physical therapy and NSAID therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	3
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient had a thunderclap headache or worst headache of the patient's life (within the last 3 months).	2

General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a neurological disorder.; No exact date given.; It is not known if there has been any treatment or conservative therapy.; Daily HA, syncope, Hyponatremia, SVT, Fatigue; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	weakness, intermittent drooling, elevated D Dimer, worsening headaches; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	work up has been done but results are not back at this time.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient is experiencing fatigue or malaise.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	pt is having increasing back pain. pt has tried physical and conservative therapy with no improvement.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	sacral pain; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Lumbar-1/16/2011; There has been treatment or conservative therapy.; lumbar pain and spasms, thoracic arthritis, thoracic pain, numbness into his right leg and hip, radiculopathy; surgery on lumbar spine, pain medications, physical therapy, 6 injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; <Enter Additional Clinical Information>; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	3
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; Caller does not know whether the patient is experiencing sensory abnormalities such as numbness or tingling.; attached clinicals; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; chronic pain and abnormal xray. The patient is allergic to Nsaids.; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; Patient to be evaluated for upper back pain. Reason for visit: Pain. The discomfort is most prominent in the upper thoracic spine. The pain does not radiate. She characterizes it as intermittent, severe, burning, and stabbing. She states that the cur; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of abnormal gait.	2
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is not experiencing sensory abnormalities such as numbness or tingling.; ; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is not experiencing sensory abnormalities such as numbness or tingling.; Discuss the ongoing pain that pt has been having in her thoracic spine - pt has pinpoint pain mid thoracic radiating to pts shoulders; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to trauma or acute injury within 72 hours.; <Enter Additional Clinical Information>; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does not have any neurological deficits.; It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for a thoracic spine MRI.; It is not known if there has been a supervised trial of conservative management for at least six weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; patient has thoracic spine pain	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does not have any neurological deficits.; The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for a thoracic spine MRI.; There has not been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.;	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does not have any neurological deficits.; The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for a thoracic spine MRI.; There has not been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; Abn xray R/O compression deformity	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does not have any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.6	7
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; Patient has been having weakness were he is unable to work. Problems with constipation. Not sweating and some nausea.; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1

General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a neurological disorder.; 4/16/2018; There has been treatment or conservative therapy.; radiculopathy in the lower extremity; medication, pain management specialist, pain medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; It is not known if there has been any treatment or conservative therapy.; X-rays came back abnormal. Osteo arthritis in hips and thoracic spine; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for trauma or injury.; 04/10/2018; There has been treatment or conservative therapy.; unknown; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; It is not known if there is x-ray evidence of a lumbar recent fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	2
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	3
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days.;" They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection.;" It is not known if there is radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; It is unknown if there is radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; August 28, 2018; There has been treatment or conservative therapy.; Cant move right shoulder , Right arm and hand numbness; First Care on Wednesday - St Bernards Emergency Room on Thursday.  He has been to chiropractor,twice a day x 5 days. taking pain medications for 3 days.  also norflex muscle relaxer; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	42 year old black female presents today with itching to arms and legs. She states it has been ongoing for about 3 years. She denies any new changes in soaps, lotions or detergents. She has switched to fragrance free products and does not put perfume on her b; This study is being ordered for Inflammatory/ Infectious Disease.; 01/01/2015; There has been treatment or conservative therapy.; 42 year old black female presents today with itching to arms and legs. She states it has been ongoing for about 3 years. She denies any new changes in soaps, lotions or detergents. She has switched to fragrance free products and does not put perfume on her b; 42 year old black female presents today with itching to arms and legs. She states it has been ongoing for about 3 years. She denies any new changes in soaps, lotions or detergents. She has switched to fragrance free products and does not put perfume on her b; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	48
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal laboratory test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	B/I renal cysts. We will reorder CT to evaluate for change; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	biopsy was done on 03/29/2018; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is between 55 and 80 years old.; This patient is NOT a smoker nor do they have a history of smoking.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; An abnormal finding on physical examination led to the suspicion of infection.; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; An abnormal imaging (xray) finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; An abnormal lab finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is 54 years old or younger.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; This study is being requested for 'none of the above'.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain of uncertain etiology; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; patient states symptoms began after breast augmentation; There has not been any treatment or conservative therapy.; chest pain, abdominal pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Numbness in Legs, Weakness in leg, Stiffness. Radiculopathy, Pain with Hip Rotation or extension.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; It is not known if there is x-ray evidence of a lumbar recent fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy.; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; unsuccessful	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for None of the above	8
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; <Document exam findings>	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; None of the above; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; None of the above; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; decreased reflex in the left leg	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Constitutional: Constitutional: no fever, night sweats, or significant weight gain and weight loss (30 lbs). Eyes: Eyes: no irritation, dry eyes, vision change, or eye disease/injury. ENMT: Ears: no difficulty hearing. Cardiovascular: Cardiovascu; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	continued cough hemoptysis COPD; A Chest/Thorax CT is being ordered.; The patient did NOT have a Chest x-ray in the past 2 weeks.; The study is being ordered for none of the above.; This study is being ordered for hemoptysis.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	LUNG CANCER SCREENING WITH THE LOW-DOSE CT. PT IS TRYING TO QUIT SMOKING AND WOULD LIKE TO THIS TEST; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	MD concerned of chest pain radiating to scapula; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	no improvement s/p treatment; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; It is not known if there is radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; Abnormal mass in the chest, chest wall, or lung is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is being requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; An abnormal finding on physical examination led to the suspicion of infection.; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema); Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; Another abnormality led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; 'None of the above' led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is 54 years old or younger.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	6
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient has signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This reason this study is being requested is unknown.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	5
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This study is being requested for 'none of the above'.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	patient has abnormal weight loss, history of smoking, abdominal pain, vomiting/nausea, ultrasound showing gallbladder polyps.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; patient was seen on 9/5/2018 with complaint of abnormal weight loss. Has noticed a weight loss of 13 pounds in one year, hasn't tried to lose weight. Is a smoker. Gallbladder polyps were seen on abdominal ultrasound in January of 2018 - patient complain; There has been treatment or conservative therapy.; abnormal weight loss, personal history of nicotine dependence, abdominal pain, vomiting, abnormal ultrasound of gallbladder showing polyps.; patient was sent to gastroenterologist for gallbladder polyps, unable to perform surgery d/t not able to get down throat. Ultrasound of thyroid that was performed on 8/31/2018 showed goiter. has been sent to ENT, awaiting office visit to see what he reco; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	patient is experiencing SOB and wheezing despite conservative therapy. patient has had neg. chest x-ray and PFT; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	patient was in a mva; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for None of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	27
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; It is unknown if the patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection; This procedure is being requested for None of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 11/15/2017; There has been treatment or conservative therapy.; weakness, back pain, muscle spasm;, pt. seen specialist, medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 9/14/18; There has been treatment or conservative therapy.; LOW BACK PAIN, NUMBNESS AND TINGLING, LEG PAIN; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; unknown; There has been treatment or conservative therapy.; pain radiates down neck, rib cage, lower back; PT / meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/10/2017; There has been treatment or conservative therapy.; Hip pain; Medication.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Post-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Tanya K Horn is a female with a known vulvar mass. She first noticed the mass on her labia majora 1.5 years ago. She states the mass has progressively gotten bigger over time with discharge so she sleeaked medical attention. PET CT 7/29/2016 showed a 2.3x2; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	These symptoms have been persistent for the last 2 months.; This study is being ordered for Inflammatory/ Infectious Disease.; 06/05/2018; There has been treatment or conservative therapy.; Swollen lymph nodes, headaches, and fatigue; Doxycycline Hyclate 100 mg tablets  Hydrocodone-Acetaminophen 5-325 mg tablets  Prednisone 20 mg tablets Toradol 10 mg tablets  Bactrim DS 800-160 mg tablets; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Thorax (Chest) CT.; Abnormal finding on examination of the chest, chest wall and/or lungs describes the reason for this request.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Thorax (Chest) CT.; Chest pain describes the reason for this request.; This study is being requested for 'none of the above'; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Unexplained weight loss describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 06/20/2018; There has been treatment or conservative therapy.; falling; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 8/4/18 MVA; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; Steroid Injection; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	2
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	mild tenderness to palpation L3-L5. Mild Tenderness to palpation of C5-C7. Mildly tender to palpation of bilateral posterior neck and upper back (over trapezius muscle bilaterally); One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	pain in neck and numbness; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	patient has not improved with conservative treatment; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/11/18; There has been treatment or conservative therapy.; neck and back pain; patient has completed 6 weeks of physical therapy, has also tried meloxicam and tramadol; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	prior abnormal xray; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1

General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	Reported by patient. Location: lumbar; pain radiating to the legs (right more than left)  Quality: sharp Severity: worsening; severe (8-10); interference with sleep; interference with work Duration: chronic pain but has worsened in the past 3 days  O; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	This study is to be part of a Myelogram.; This is a request for a Cervical Spine CT  This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; back pain-6/2018; There has been treatment or conservative therapy.; back pain, middle of the back is numb and tingling radiates to the shoulder blades, nicotine dependence, shortness of breath, vehicle accident 6/2018; oral medication, home therapy exercises; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/22/18; There has been treatment or conservative therapy.; NECK PAIN, LOWER EXTREMITY PAIN, NUMBNESS, MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 7/11/2018; There has been treatment or conservative therapy.; back pain, neck pain, bilateral hand, injection and meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 8 weeks ago; It is not known if there has been any treatment or conservative therapy.; left sided joint pain involving left shoulder left hip and left knee; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Cervical- 06/27/2013. Lumbar- 04/28/2016.; There has been treatment or conservative therapy.; Radiculopathy, pain shooting down leg and arm, arm weakness, and increased pain in the neck.; Physical therapy and medications.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for trauma or injury.; 04/21/2017; There has not been any treatment or conservative therapy.; Curviges in spine, numbness and tingling of legs, chronic back pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This is a request for a thoracic spine CT.; Caller does not know whether there is a reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2015; It is not known if there has been any treatment or conservative therapy.; 52-year-old gentleman presents to the clinic today with a chronic history of low back problems. He is status post multiple back surgeries. He is fused from L2-S1, with instrumentation at L2-3. His first surgery was in 2007, and his last one was in 2015; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	CTA obtained on 3/20/2018 revealed a right lower lobe pulmonary embolus with cardiomegaly and mild pulmonary edema and trace left pleural effusion. There were bilateral lower lobe punctate peripheral nodular opacities that were considered to be possibly.; This is a request for a thoracic spine CT.; There is no reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	patient has not improved with conservative treatment; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/11/18; There has been treatment or conservative therapy.; neck and back pain; patient has completed 6 weeks of physical therapy, has also tried meloxicam and tramadol; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	SCATICA; This study is being ordered for a neurological disorder.; UNKNOWN; There has been treatment or conservative therapy.; WORSENING BACK PAIN; MEDICATIONS, COUNSELING; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	Upon PE cervical spine has decreased flexion and extension, reduced ROM, and tenderness on palpation. Thoracic Spine spasms and tenderness on palpation, large bulge noted T1-T3. Tender point on paracervical region, upper/medial scapular border and mid-tra; This is a request for a thoracic spine CT.; Caller does not know whether there is a reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 07/04/2018; There has not been any treatment or conservative therapy.; Pain in lower back and neck, numbness and tingling to left foot; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	. With regard to the low back pain, the discomfort is most prominent in the lower lumbar spine. This radiates to the right posterior thigh. He characterizes it as sharp. The event which precipitated this pain was lifting heavy equipment. This occurred.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; With regard to the low back pain, the discomfort is most prominent in the lower lumbar spine. This radiates to the right posterior thigh. He characterizes it as sharp. The event which precipitated this pain was lifting heavy equipment. This occurred at.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	7

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	2
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; pain radiating to the buttocks weak limbs; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; PATIENT HAS TINGLING WITH NUMBNESS.  PATIENT EXPERIENCING WEAKNESS WITH DECREASED RANGE OF MOTION  PAIN GREATER THAN 6 WEEKS; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; It is not known if there is x-ray evidence of a lumbar recent fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; 05/26/2017; There has been treatment or conservative therapy.; Numbness; tingling; LBP; PT and meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; unknown; There has been treatment or conservative therapy.; pain in head, daily headaches, hx of seizures   pain in lower back radiates down legs. tenderness and limited ROM; NSAIDs, muscle relaxers, pain medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for Congenital Anomaly.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/08/2018; There has been treatment or conservative therapy.; Neck pain  Right arm/hand stays numb all the time, left arm too but not as bad  Patient reports continued numbness in the left lower extremity and foot. Continue weakness left lower extremity. She reports continued moderate to severe, dull lower back; Diclofenac Sodium - 06/08 Physical therapy 07/27/18; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	patient has not improved with conservative treatment; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 05/11/18; There has been treatment or conservative therapy.; neck and back pain; patient has completed 6 weeks of physical therapy, has also tried meloxicam and tramadol; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	Positive for nausea and vomiting. Positive for back pain. pain with range of motion in the back; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	PX, NUMBNESS AND TINGLING IN EXTREMITIES; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	SCIATICA; This study is being ordered for a neurological disorder.; UNKNOW; There has been treatment or conservative therapy.; WORSENING BACK PAIN; MEDICATIONS, COUNSELING; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is not experiencing symptoms of radiculopathy for six weeks or more.; There is no neurologic symptoms of bowel or urinary bladder dysfunction.; There is no suspicion of lumbar spine infection.; There is no suspicion of lumbar spine neoplasm or tumor or metastasis.; Yes this is a request for a Diagnostic CT	5
General/Family Practice	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary		1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type in Unknown If No Info Given.  One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type in Unknown If No Info Given.  This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 07/28/2017; There has been treatment or conservative therapy.; Back pain Pain radiating to legs worse on the right Pain on movement  Back stiffness; Lyrica since 03/29/18 Hydrocodone since 04/17/18 Epidural Inj. date unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10+ years; There has been treatment or conservative therapy.; stiffness in upper back   gradual recurrence of low back pain and increasing midback pain.; Prednisone Physical Therapy - 08/22; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 7 months ago; There has been treatment or conservative therapy.; Neck pain Back pain; Physical Therapy Medicine; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; APPROXIMATELY OVER FIVE YEARS; NO MRIS OBTAINED BY PREVIOUS PROVIDER; There has been treatment or conservative therapy.; NECK AND BACK PAIN WITH SCIATICA; PHYSICAL THERAPY, PRESCRIPTION MEDICATIONS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6 years ago due to MVA; There has been treatment or conservative therapy.; flank pain worse with movement; Takes Excedrin every 6 hrs; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	abnormal xray previous ULTRA degenerative changes; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/4/18; There has been treatment or conservative therapy.; pain numbness and tingling; PT meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	ASSESSMENT M54.2: Cervicalgia, This patient has chronic low back and neck pain with reported history of herniated discs. Due to the history and severity of the patient's pain, I advised the patient to stay active, avoid bed rest as much as possible an; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 09/02/2018; There has been treatment or conservative therapy.; Intensity: 8/10 on pain scale, Quality: throbbing, aching.; NSAIDS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	back and neck pain. both feet stay numb. back pain goes into right hip and right leg; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	back pain x 2 years periodically and getting worse. has tried otc medications and chiropractor w/o relief neck pain x 1 month radiates down arms past mri shows disc dessication at l5-s1; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Back Pain Reported by patient.  Location: lumbar; pain radiating to the buttocks; pain radiating to the legs Quality: sharp (burning and stabbing.)  Severity: moderate (5-7); interference with sleep Duration: chronic  Alleviating Factors: Patient sta; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	back pain, neck; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	bilateral hip pain; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	bypass; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; It is not known if there has been any treatment or conservative therapy.; bypass; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic low back and neck pain x several months. Worse with increased activity. Abnormal C-Spine X-ray, degenerative changes at c6/c7.  Patient has tried NSAIDS with little effectiveness. Patient currently taking hydrocodone-acetaminophen 10-325 with eff; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	4
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Document exam findings; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; neck and left arm; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; weakness in the neck; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; List meds here	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; office visit 8/17/2018 with follow up on 9/24/2018 helped a little but symptoms are still present chronic lower back pain. abnormal x ray; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; low back ttp, decrease rom, paramuscle tightness noted indings	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Colitis, did CT of abdomen and pelvis, low back pain that's causing urinary incontinence; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Degenerative disc and Fibromyalgia.; This study is being ordered for trauma or injury.; 7/24/2018; There has been treatment or conservative therapy.; Low back and neck pain. Ambulatory problems; Pain meds and anti-inflammatory meds.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Enter answer here - or Type In Unknown If No Info Given  Lumbar spine xray show close to 1/2 inch difference l leg length and scoliosis; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	HAS HAD TWO SURGERIES ON HIS LUMBAR SPINE, BUT HIS BACK PAIN IS GETTING WORSE.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	he can't sleepand it's stop his daily activities; This study is being ordered for trauma or injury.; 2000; There has been treatment or conservative therapy.; Pt. is having back pain in the lumbar area; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Her spine is decreased range of motion with flexion and rotation. Radiation to both legs - no loss of bowel or bladder function. Been taking Robaxin for spasm; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more than once for these symptoms.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	hip pain Pt says that with work,walking its hard for him to function with pain Pt says that pain can get so intolerable that he has to stop and rest   personal hx of prostate cancer weight loss; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Neurological: Positive for weakness and numbness.Musculoskeletal: Positive for arthralgias, back pain, extremity weakness, gait problem and myalgias Musculoskeletal:  SLR negative Reflex Scores: Patellar reflexes are 2+ on the right side and 2+ on ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	history of thoracic pain and lumbar disc disease.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Injured themselves cleaning the swimming pool, fell off of the swimming pool ladder. Fell Onto lower extremity.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Left lower quadrant abdominal pain that radiates all the way around his abdomen on both sides in the L1 dermatome region. Ins denied an abd/pelvis CT to evaluate; The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for None of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Limited and slow ambulation with tenderness (centralized lumbosacral pain with ambulation that radiates to bilateral anterior thighs and groin); pt reports intermittent spasms of neck and lumbar spine; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	limited range of motion due to pain and muscle spasms of the lower lumbar spine, there is moderate tenderness over the SJ joints bilaterally, there are no focal point tender areas. L5 point tenderness in which light tapping causes shooting pains in the do; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Low Back pain after injury on the job. Does not want to file WC.  Left leg & Left arm numbness.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	low back pain radiating to legs. numbness and tingling in feet Lumbar Spine: Soft Tissue Palpation on the Left: tenderness of the paraspinal region at L 5, the ilioLumbar region, the gluteus maximus, and the sciatic notch. Soft Tissue Palpation on the Ri; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	lumbago with radiculopathy.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 5/21/2018; There has been treatment or conservative therapy.; The pt has back pain w/weakness, tingling in legs, scoliosis, numbness.; Meloxicam.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; low back pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 03/01/2018; There has been treatment or conservative therapy.; Muscle ache, intermittent swelling, shoulder pain, moderate and severe, numbness, weakness, pain radiates from left shoulder to left lower arm.; Nsaid, activity modification, over the counter care.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2 years; There has been treatment or conservative therapy.; right side sharp pain in head-pressure behind right eye.; medication.headaches are getting progressively worse; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	MRI of the lumbar spine to see if there is anything that could be causing his pain that may be surgically repaired previously he was told that surgery would be warranted but he did not want to proceed with surgery as a surgeon told him that it may cause p; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	MRI that was done a year and half ago was abnormal. patient is having worsening symptoms.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Back pain that goes all through back, usually right leg throbs with pain into hips, Right leg goes weak and numb. standing makes this worse. cannot lie on side can only lie flat on back. had MRI on lower back about a year and half ago, but this pain is di; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	MRI's needed for evaluation and next steps - pain management/ESI; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; September 2017; There has been treatment or conservative therapy.; ; Mobic, Flexeril, PT without much relief; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	n/a; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	n/a; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown.; There has been treatment or conservative therapy.; Chronic Neck and back pain.; Meds.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	na; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	na; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	neck pain, degenerative changes, peripheral neuropathy, back pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	none; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	none; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	numbness and tingling down both legs.xrays normal recommend follow up for disk narrowing at lumbar sacral junction; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Numbness in both feet; The study requested is a Lumbar Spine MRI.; None of the above; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Unknown; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	ONGOING LEG PAIN.PAIN TO POSTERIOR ASPECT OF THE THIGH DOWN TO THE KNEES. SOME WEAKNESS IN THE EXTREMITY NOW FINDING IT DIFFICULT TO WALK. HAS COME CLOSE TO FOLLOWING.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pain lasting more than 4 months with no improvement with conservative treatment; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Patient was seen in March for low back pain. Was given predinisona and cyclobenzaprine. F/u 4/10/18 w/no improvement. referred to physical therapy. Returned to clinic 8/1/18. Did not complete PT and still no improvement. has weakness, pain radiating t; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	pain travels down right leg to the knee, worse with movement. physical findings showed abnormalities; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2015; There has been treatment or conservative therapy.; HEADACHE, WEAKNESS.; INJECTIONS, MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/22/18; There has been treatment or conservative therapy.; NECK PAIN, LOWER EXTREMITY PAIN, NUMBNESS; MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 7/11/2018; There has been treatment or conservative therapy.; back pain, neck pain, bilateral hand; Injection and meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 8 weeks ago, It is not known if there has been any treatment or conservative therapy.; left sided joint pain involving left shoulder left hip and left knee; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 7/26/2018; There has been treatment or conservative therapy.; Weakness in his left hand, history of a fracture and left arm numbness; Medications and seen a orthopedic specialist; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	paraspinous tenderness with palpation. Pain present with flexion and extension.Gait is slow and cautious.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Reports increased low back pain for the past two weeks. States that she has been doing alot more bending and lifting at work during this time. Back pain is worse with standing and flexing, relieved with rest and reclining. Notes intermittent numbness in f. The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient felt a pop and has had excruciating pain down his rt leg that is not getting better.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient had an MRI Lumbar Spine on 12/26/2016 that showed Multilvel mic spondylotic disc protrusions with bilateral foraminal protrusions abutment of the thecal sac and abutment of the exiting nerve roots. L4-5 demonstrates marrow edema involving the in; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient had bicycle accident on 6-26-18. Felt like something pulled and has had continuous pain since. Pain medications have not been effective.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient has a hx of a compression of back. also has intractable back pain. pain medication is not working for this pain.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has been complaining of chronic back pain for a couple of months now.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; PATIENT HAD PROBLEMS DOING A STRAIGHT LEG RAISE.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient has degenerative disc disease; This study is being ordered for a neurological disorder.; 01/25/2018; There has been treatment or conservative therapy.; low back pain - radiation neck pain; therapy and pain medication has been given  Norco 10-325 MG Oral Tablet Take 1 tab by mouth TID x 30 days #90 (; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Trauma or recent injury; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; 04/05/2018; There has not been any treatment or conservative therapy.; Patient with muscle twitching in LE bilat, bilat hands and feet; patient with numbness in bilat hands, feel lips, left side of torso; uncontrollable shaking of UE bilat; patient reports severe burning between shoulder blades; weakness in LE bilat; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; PATIENT HAS CHRONIC LOW BACK PAIN; RADICULOPATHY; HEADACHES; CERVICALGIA WORSENING BACK PAIN WITH SITTING; There has been treatment or conservative therapy.; PATIENT HAS CHRONIC LOW BACK PAIN; RADICULOPATHY; HEADACHES; CERVICALGIA; PATIENT HAS COMPLETED PHYSICAL THERAPY AND CURRENTLY GETTING MESSAGES; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/02/2018; There has been treatment or conservative therapy.; Pain in neck and shoulder; Medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	chronic L2 fracture with increasing pain, failed therapy; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic low back and neck pain x several months. Worse with increased activity. Abnormal C-Spine X-ray, degenerative changes at c6/c7. Patient has tried NSAIDs with little effectiveness. Patient currently taking hydrocodone-acetaminophen 10-325 with effe; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	CHRONIC NECK PAIN WORSENING. X-RAYS CERVICAL SPINE SHOWED DEGENERATIVE CHANGES THROUGH OUT C SPINE; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.; LIMITED RANGE OF MOTION & WEAKNESS	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Decreased ROM in thoracic and cervical area spasms; This study is being ordered for trauma or injury.; 05/11/2018; There has been treatment or conservative therapy.; Leg pain tingling numbness back and neck pain; PT x 6 weeks Rx medication NSAIDS anti inflammatory meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has had x-rays that were negative. Pain started in March and has been treated w/medications without relief; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has not slept in 2 weeks, steroid dose pack with no help, Pt right has been going numb, no feeling but not a foot drop.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	pt went to ER 8/26/18 was placed on chlorzoxazone and tramadol. started seeing Chiropractor 8/27/18 and has seen them 3 times with no relief.No xray done./u visit 9/18/18 BACK PAIN, STARTED ON THE 21ST OF LAST MONTH. WENT TO ER ON 8/26 AND GOT PAIN MED A; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Radiculopathy, lumbar region; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Unknown; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Reflex Abnormality - numbness in left leg; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Straight leg raising test, left leg was positive; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	sacral pain; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Lumbar-1/16/2011; There has been treatment or conservative therapy.; lumbar pain and spasms, thoracic arthritis, thoracic pain, numbness into his right leg and hip, radiculopathy; surgery on lumbar spine, pain medications, physical therapy, 6 injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Saw her rheumatologist at Poplar Bluff earlier today, was given a shot for her lupus. She is having pain, lower back, going down her (R) leg and (R) hip. Her rheumatologist wants her to have 3 things done, MRI Scan Lumbar Spine, MRI Scan (R) hip and a Bon; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	See clinical; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5-10 years ago (see clinical); It is not known if there has been any treatment or conservative therapy.; Bilateral Hip Pain, Chronic Low Back Pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	tender to touch to sj joint; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; tingling weakness numbness bilateral extremities	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	tenderness (bilateral lumbar tenderness, pain with ambulation and weight bearing); slow to rise from sitting position.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	stroke; This study is being ordered for a neurological disorder.; 10/20/2017; There has been treatment or conservative therapy.; Neck pain left arm paralysis back pain sciatica; Unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	tenderness; lower right back/leg tenderness in range of motion.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	THE PATIENT HAS LEFT HIP PAIN AND BACK PAIN THAT HAS GRADUALLY BECOME WORSE OVER THE PAST 6 WEEKS. THE PAIN RADIATES DOWN HIS LEFT LEG TO THE KNEE.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	degenerative disease; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Follow up from car accident- Pt was restrained driver of MVA that was rear-ended at unknown speed. Greater than 65mph per pt. Pt did not go to ER for evaluation. Accident happened in AZ. Pt c/o constant headaches since the accident and states he has been; This is a request for cervical spine MRI; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.; reduced ROM. Cervical Spine decreased flexion and extension and spasms, reduced ROM, and tenderness on palpation. Lumbar / Lumbosacral Spine spasms and reduced ROM and normal lordosis and no tenderness.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	He exhibits tenderness. Positive for arthralgias, neck pain and neck stiffness.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	History of abusive relationships.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has been treatment or conservative therapy.; Neck pain with limited range of motion and pain that radiates down her shoulder and down her arms. Pt has paresthesia in arms and hands. Loss of strength in knee resulting in buckling and falls.; NSAIDs.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.; Patient presents for follow-up; reports continued neck pain. Patient had an abnormal MRI in 2017 that indicated significant changes. A referral was placed at that time to NeuroSurgery; however an updated MRI was required. MRI was denied at that time. Pati	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Location: cervical; thoracic; pain radiating to the buttocks; pain radiating to the legs; Quality: sharp; tingling; stiffness; Severity: worsening; Duration: chronic (intermittent); Onset/Timing: recurrent episode; Context: overuse; prior back problems.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Muscle spasms, when she is having spasms her head leans to the right; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Decreased grip on the right, weakness in right arm; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	na; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	neck and back pain with neuropathy.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	NERVE ROOT DISORDER; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if there is x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	none; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	ongoing chronic pain since age 16 years after MVA, recent MVA has triggered recurrence of pain- we have attempted conservative management of NSAIDs, muscle relaxers and PT intervention- PT was ineffective and s/s were worsening- therapist recommended; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	patient has back and neck pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	patient has degenerative disc disease; This study is being ordered for a neurological disorder.; 01/25/2018; There has been treatment or conservative therapy.; low back pain - radiation; neck pain; therapy and pain medication has been given; Norco 10-325 MG Oral Tablet Take 1 tab by mouth TID x 30 days #90 (One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; Follow-up to Surgery or Fracture within the last 6 months; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Neurologic deficits	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	3
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	6
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	THIS IS THE CASE OF A 30 Y/O BLK FEMALE WITH LONG STANDING HISTORY OF LOW BACK PAIN AND CONFESSED TO HAVE BEEN INVOLVE IN MULTIPLE MOTOR VEHICLE ACCIDENT OVER THE PASS SEVERAL YEARS[X-RAY OF THE CERVICAL AND LUMBAR SPINE ARE NEGATIVE] NOW WITH LUMBAR RADIC; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; decrease range motion, range of motion is limited to moderate pain, severe ddd,lumbar tenderness lumbar sacral; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	UNKNOWN; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; pain with range of motion in: the back; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; The study requested is a Lumbar Spine MRI; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	3
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has extensive arthritis in the whole spine and has seen dr. calhoun and he referred him to dr.olaya, pain managemnt. dr.olaya wanted to do shots and he did not wanted to do shots. Patient wants to get pain medications for when necessary use. Patie; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Patient having neck pain and a cervical spine xray was performed. Impression is as follows: Impression: 1. there is no acute fracture but there is prominent degenerative change in the cervical spine. 2 this degenerative change/stenosis can be better del; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT IS HAVING CHRONIC LOWER BACKPAIN X SEVERAL YEARS THAT IS INCREASING WITH TIME. PATIENT HAS TRIED NSAIDS, CONTROLLED MEDICATIONS WITH NO EFFECTIVENESS. Patient also has chronic neck pain x years with symptoms worsening.; This study is being ordered for a neurological disorder.; 08/11/2017; There has been treatment or conservative therapy.; lower back pain with radiation; He has been given hydrocodone for pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	PT had CT done 9/11/18 C spine impression: Degenerative spondylosis is present as described most pronounced in C6-7 CT T spine. Sever Multilevel DDD w/ Broad-based posterior disc herniation at T 5-6 and T7-8 Resulting in at least moderate multilevel cana; This study is being ordered for a neurological disorder.; Pain started appr. 1 month ago.; There has been treatment or conservative therapy.; Back pain radiating into legs,arms and around abdomen.fingers go numb; pt was give Diazepam and Tylenol 3 at ER visit on 9/11/18; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	see previous; This study is being ordered for a neurological disorder.; 01/09/2017; There has been treatment or conservative therapy.; neck pain Stiffness Smelling things that are not there; Muscle Relaxants Pain Medication Oral Analgesics Exercise; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Tenderness in the right trapezius muscle at the neck and top of shoulder. Painful range of motion of the right shoulder. Tenderness at the subacromial space posteriorly, hurts to twist and to turn neck and to lift right arm, states does not work and has; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; hurts to twist and to turn neck and to lift right arm, states does not work and has not been lifting that she is aware of, states pain is sharp and not going away, states pain is a 10 and is not going away; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; The study requested is a Lumbar Spine MRI.; None of the above; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; Robaxin, Torodol, Vanalex, Lorcet	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; The study requested is a Lumbar Spine MRI.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Patient keeps falling; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a neurological disorder.; 4/16/2018; There has been treatment or conservative therapy.; radiculopathy in the lower extremity; medication, pain management specialist, pain medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/04/2018; There has not been any treatment or conservative therapy.; Discomfort, numbness and tingling to the right upper thigh to groin, relieved with position change.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for trauma or injury.; 06/27/2018; There has been treatment or conservative therapy.; Pain, limited range of motion; Medication-physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Weakness in extremity; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/08; There has been treatment or conservative therapy.; numbness in the left lower extremity and foot. Continue weakness left lower extremity. She reports continued moderate to severe, dull lower back pain. Pain is increased with activity and weight-bearing, and decreased with rest.; Diclofenac Sodium 75 MG tablet - Started on 06/08; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Weakness in left leg; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	will attach clinicals; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	will fax clinical; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Will fax in; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Will Fax the clinicals in bc it is the Rendering Provider; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	With regard to the neck pain, the location of discomfort is posterior. It radiates to the left shoulder. Initial onset was several years ago. Associated symptoms include headache and neck stiffness. Has tried medications nsaid and muscle relaxers and; This study is being ordered for a neurological disorder.; 08/24/2018; There has been treatment or conservative therapy.; With regard to the neck pain, the location of discomfort is posterior. It radiates to the left shoulder. Initial onset was several years ago. Associated symptoms include headache and neck stiffness. Has tried medications nsaid and muscle relaxers and; over the counter pain meds cold/heat packs; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Worsening back pain radiating to LLE after treatment with NSAIDs and Steroids.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	X-ray of lumbar and thoracic spine showed no abnormalities.; This study is being ordered for trauma or injury.; 2005; There has been treatment or conservative therapy.; Sharp, constant pain in his back that is worse when moving. Pain improves with laying down and resting. Rates pain at 7/10 most of the time. Patient is hunched over at work and pain affects daily life.; He was evaluated following the injury and was going to PT and a chiropractor. He tried this for several months, and he did not feel that this was very helpful, so he stopped going. He was on a muscle relaxer, but he has not taken this recently. He did not; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered due to known or suspected infection.; "The ordering physician is NOT a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient.;" ; "There are active, clinical findings or endoscopic findings of Crohn's disease, ulcerative colitis, or diverticulitis.;" "There are no physical findings or abnormal blood work consistent with peritonitis, pelvic inflammatory disease, or appendicitis.;" This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	patient has lateral femoral cutaneous syndrome; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Questionable bony lesion versus less likely an inguinal hernial projected over left groin on abdominal xray. Additional pelvic CT images requested.; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	<Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	<Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Pelvis MRI.; The study is being ordered for joint pain or suspicion of joint or bone infection.; The study is being ordered for something other than arthritis, slipped femoral capital epiphysis, bilateral hip avascular necrosis, osteomyelitis or tall bone pain or injury.	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	<Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 11/15/2017; There has been treatment or conservative therapy.; weakness, back pain, muscle spasm.; pt, seen specialist, medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology <Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/8/2018; There has not been any treatment or conservative therapy.; liver lesion, lower abdominal pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	hyperlipidemia; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; u/k; There has been treatment or conservative therapy.; back pain.; medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	4
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; It is not known if this patient had a recent course of supervised physical Therapy.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical Therapy.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.; <Enter Additional Clinical Information>	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.; unknown	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is x-ray evidence of a recent cervical spine fracture.	1

General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; It is not known if there is evidence or tumor or metastasis on bone scan or x-ray.; Suspected Tumor with or without Metastasis;	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; Extremity Pain/Injury Reported by patient. Location: right arm  Quality: sharp Severity: worsening Duration: present for 1-6 months (2-3 months ago)  Timing: intermittent; pain at night  Context: overuse; She sits at a computer at work all day.  A; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; Left shoulder is painful with numbing of left arm that extends into fingers; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; None of the above.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; None of the above; patient has numbness and tingling.sensation of skin...; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	PATIENT FELL DOWN STAIRS; This study is being ordered for trauma or injury.; 06/25/2018; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type in Unknown If No Info Given >; X-RAYS TO LUMBAR,THORACIC AND PELVIC BONE; One of the studies being ordered is NOT A Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	PATIENT IS HAVING SEVERE PAINS IN BOTH HIPS, AND HER PAIN IS GROWING WORSE.; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	She has increasing difficulty walking due to hip and pelvic pain.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/04/2018; There has not been any treatment or conservative therapy.; Discomfort, numbness and tingling to the right upper thigh to groin, relieved with position change.; One of the studies being ordered is NOT A Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73200 Computed tomography, upper extremity; without contrast material	Radiology Services Denied Not Medically Necessary	see attached; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 07/19/2018; There has been treatment or conservative therapy.; pain in neck radiating to right arm; Tramadol, Steroid injection (Dexamethasone), exercise therapy; One of the studies being ordered is NOT A Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73206 Computed tomographic angiography, upper extremity, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the upper extremity.	1
General/Family Practice	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	left hand pain and weakness due to lifting dryer, pt felt popping and heard popping during trauma   right arm/elbow pain with radiculopathy--abnormal x-ray r/o bicep tear; This study is being ordered for trauma or injury.; There has been treatment or conservative therapy.; right arm/elbow pain left hand pain; NSAIDS, ice therapy; One of the studies being ordered is NOT A Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is no suspicion of upper extremity bone or soft tissue infection.; The ordering physician is not an orthopedist.; There is not a history of upper extremity trauma or injury.	2
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	2
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.;	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; <Enter Additional Clinical Information>	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Headache Reported by patient. Location: band around head  Severity: moderate  Associated Symptoms: no nausea; no vomiting; no fever; no constipation; no diarrhea; no nasal congestion/discharge; no sensitivity to light; tearing/watery eyes; no confusio	1

General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; The patient has been complaining of the symptoms for 5 months. The pain radiates into her right shoulder and arm. Needing further imaging to determine cause.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Trauma or recent injury.; No, the patient does not have new or changing neurological signs or symptoms.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Trauma or recent injury; neck and shoulder pain due to fall and pain was elicited with scapular motion; It is not known if the patient have new or changing neurological signs or symptoms.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Trauma or recent injury; Neurologic: numbness, tingling, dizziness, frequent or severe headaches, and loss of balance or falls.limited ROM due to pain and stiffness Neck pain worse and continued - fall in march , not better -neck surgery dec 2009 - fusion from c4 to c6 , repeat ; Yes, the patient have new or changing neurological signs or symptoms.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Trauma or recent injury; unknown; Yes, the patient have new or changing neurological signs or symptoms.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	to see if further surgery is needed; This study is being ordered for trauma or injury.; august 26 2016; There has been treatment or conservative therapy.; chronic right shoulder pain radiating to cervical spine; physical therapy , and controlled medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for a neurological disorder.; 06/15/2017; There has been treatment or conservative therapy.; Neck pain radiating down left shoulder, unable to turn neck or lift arm.; Anti anti-inflammatory medication, had steroid injections, trigger point injections, muscle relaxers.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	2
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; The requested study is a Shoulder MRI.; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.	1

General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; It is not known if there has been any treatment or conservative therapy.; Neck and Shoulder pain with arm weakness. History of Domestic, physical abuse.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Advised Range of motion exercises to prevent frozen shoulder. Advised Rest/Ice/Elevation/Compression on 04/20/2018; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; Diclofenac Sodium 50 MG tablet, three times a day, 30 days, 2 refills    Mobic 15 MG tablet, once a day, 30 days, 2 refills  07/13/2018; The patient received medication other than joint injections(s) or oral analgesics.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	HAD RIGHT ROTATOR CUFF IN 2003; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; FAIR / UNKNOWN; It is not known what type of medication the patient received.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	left hand pain and weakness due to lifting dryer , pt felt popping and heard popping during trauma   right arm/elbow pain with radiulopathy- abnormal x-ray r/o bicep tear; This study is being ordered for trauma or injury.; There has been treatment or conservative therapy.; right arm/elbow pain left hand pain; NSAIDS, ice therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Multiple visits with no release. Tried steroid injections that did not work.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 07/24/2018; There has been treatment or conservative therapy.; patient is having neck and right shoulder pain. he is unable to lift right arm due to pain. he feels like it is weaker. pain is continuously getting worse.; Patient has did physical therapy on both shoulder and neck. patient has tried indomethacin(NSAID) without relief.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for trauma or injury.; 06/27/2018; There has been treatment or conservative therapy.; Pain, limited range of motion; Medication-physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for trauma or injury.; 6/15/2018; There has been treatment or conservative therapy.; rib pain, neck pain, back pain , numbness in hands and legs; pain medications, anti inflammatory, brace with a pillow while coughing or sitting, overnight stay at Baptist hospital when the trauma happened; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for trauma or injury.; 9/11/18; There has been treatment or conservative therapy.; excruciating pain in the right shoulder and neck; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Weakness in extremity; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/08; There has been treatment or conservative therapy.; numbness in the left lower extremity and foot. Continue weakness left lower extremity. She reports continued moderate to severe, dull lower back pain. Pain is increased with activity and weight-bearing, and decreased with rest.; Diclofenac Sodium 75 MG tablet - Started on 06/08; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	will fax clinical; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	no range of motion, pain.; The requested study is a Shoulder MRI.; The pain is from an old injury.; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	patient has been dealing with this for more than a year. Further imaging is needed since xrays were nondiagnostic; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; This is a chronic problem. The current episode started more than 1 year ago; There has been treatment or conservative therapy.;; This is a chronic problem. The current episode started more than 1 year ago. The problem occurs constantly. The problem has been waxing and waning. Associated symptoms include arthralgias and myalgias. Pertinent negatives include no joint swelling, numbne; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	patient has possible muscle tear; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	r/o cancer vs. ganglion cyst; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	r/o rotator cuff tear; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	right shoulder pain pain radiating to fingers stiffness in shoulder abnormal movement in shoulder; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.; The patient received oral analgesics.	1

General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	ROM; can not lift arm and has to help with other arm for rom  Associated Symptoms: weakness; radiation down arm (and up neck); decreased rom    abnormal muscle strength (LUE). Joints, Bones, and Muscles: limited ROM (minimal rom and decreased stenght; The requested study is a Shoulder MRI; The pain is described as chronic; The request is for shoulder pain.; It is not known if the physician has directed conservative treatment for the past 6 weeks. With regard to the neck pain, the location of discomfort is posterior. It radiates to the left shoulder. Initial onset was several years ago. Associated symptoms include headache and neck stiffness. Has tried medications nsaid and muscle relaxers and; This study is being ordered for a neurological disorder.; 08/24/2018; There has been treatment or conservative therapy.; With regard to the neck pain, the location of discomfort is posterior. It radiates to the left shoulder. Initial onset was several years ago. Associated symptoms include headache and neck stiffness. Has tried medications nsaid and muscle relaxers and; over the counter pain meds cold/heat packs; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	X-ray of lumbar and thoracic spine showed no abnormalities.; This study is being ordered for trauma or injury.; 2005; There has been treatment or conservative therapy.; Sharp, constant pain in his back that is worse when moving. Pain improves with laying down and resting. Rates pain at 7/10 most of the time. Patient is hunched over at work and pain affects daily life.; He was evaluated following the injury and was going to PT and a chiropractor. He tried this for several months, and he did not feel that this was very helpful, so he stopped going. He was on a muscle relaxer, but he has not taken this recently. He did not; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/10/2017; There has been treatment or conservative therapy.; Hip pain; Medication.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury; 6/7/18; There has not been any treatment or conservative therapy.; pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury; 7/16/2018; There has not been any treatment or conservative therapy.; Neck pain and upper back pain with sensation also headaches.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation.; trying to r/o possible impingement. Limited range of motion.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation.; Unknown	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.;	2
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; Mild limitation, in the range of motion on abduction.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; Right shoulder pain for three months, therapy on 09/06/2018, on medication. A form of arthritis due to the pain.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.;	3
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.;	3
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; NECK/THYROID: DEGENERATIVE OSTEOARTHRITIC changes which include loss of the normal lordotic curvature of the neck, bilateral muscle spasms and tenderness to palpation, and limited range of motion in extension, flexion and rotation though most pronounced l	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.;	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	4
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for a thoracic spine MRI.; Trauma or recent injury; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.;	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for Inflammatory/ Infectious Disease.; Chronic back pain began in pt's early adulthood, first visit discussing this is 7/24/18; There has been treatment or conservative therapy.; Spasm of back muscles, nonspecific pain; Muscle relaxers, NSAIDs; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 07/28/2017; There has been treatment or conservative therapy.; Back pain Pain radiating to legs worse on the right Pain on movement  Back stiffness; Lyrica since 03/29/18 Hydrocodone since 04/17/18 Epidural Inj. date unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10+ years; There has been treatment or conservative therapy.; stiffness in upper back  gradual recurrence of low back pain and increasing midback pain.; Prednisone Physical Therapy - 08/22; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 6 years ago due to MVA; There has been treatment or conservative therapy.; flank pain worse with movement; Takes Excedrin every 6 hrs; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.;	2
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.;	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	WANTING TO RULE OUT ROTATOR CUFF INJURY	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.;	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	weakness in l shoulder.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1

General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has not been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/22/2018; There has been treatment or conservative therapy.; Pain in shoulder and neck; NSAIDs and analgesics.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	He exhibits tenderness. Positive for arthralgias, neck pain and neck stiffness.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI. It is not known if the patient has any neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; Caller does not know whether the patient is experiencing sensory abnormalities such as numbness or tingling.; 2-4 month history of muscle spasms. This occurs along her back and sides just below the bra line. The pain radiates underneath her breasts. Movement seems to trigger this. She denies any injury to cause this. Pain is equal bilaterally. She will have these	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has any neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is not experiencing sensory abnormalities such as numbness or tingling.; Chronic worsening pain	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has any neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is not experiencing sensory abnormalities such as numbness or tingling.; INCREASED BACK AND RIB PAIN THAT IS SHARP IN NATURE THAT IS WORSENING, INTERFERENCE WITH SLEEP, CONSTANT PAIN, PT STATES SHE FELL FROM A SWING, HURTS TO BEND OVER OR TWISTING, HAS SOB DUE TO PAIN. CXR SHOWS NO REASON FOR THE PAIN. TAKING CYCLOBENZAPRINE AN	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has any neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is not experiencing sensory abnormalities such as numbness or tingling.; Patient had a spinal tap in November. Her symptoms have continued to worsen since then. Her back pain improves when supine.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has any neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to trauma or acute injury within 72 hours.; Pain in thoracic spine	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Location: cervical; thoracic; pain radiating to the buttocks; pain radiating to the legs Quality: sharp; tingling; stiffness Severity: worsening Duration: chronic (intermittent)  Onset/Timing: recurrent episode  Context: overuse; prior back problems.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	MRI's needed for evaluation and next steps - pain management/ESI; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; September 2017; There has been treatment or conservative therapy.; Mobic, Flexeril, PT without much relief; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 6/18/18; There has not been any treatment or conservative therapy.; pain swelling; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is a suspected infection of the hip.; The patient has not been treated with and failed a course of supervised physical therapy.; There is a mass adjacent to or near the hip.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has a documented limitation of their range of motion.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; The patient has not been treated with and failed a course of supervised physical therapy.; There is a mass adjacent to or near the hip.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has a documented limitation of their range of motion.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is no suspicion of lower extremity bone or joint infection.; There is not a history of lower extremity joint or long bone trauma or injury.; This is a request for a Knee CT. Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	"There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle.;" There is not a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.; BOTH ANKLES ARE GIVING OUT, PATIENT SPRAIN BOTH ANKLES; This is a request for a bilateral ankle MRI.	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type in Unknown If No Info Given.  This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; It is not known if the ordering physician is an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Pain radiates from back to front; This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1

General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has had Lumbar spine injections & will use MRI CS & TS for evals for injections.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has been treatment or conservative therapy.; Chronic neck pain, CS Degenerative Disc Disease with CS Failed back syndrome. Patient has CS radiculopathy w spinal stenosis. Patient has insomnia due to neck and back pain. Has used Tens Unit, hot/cold packs, PT, & home exercises w no relief.; Patient prescribed pain meds & had PT.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	patient was referred to pain management. reports to PCP that pain is progressively getting worse, with no relief. Would like to rule out any fracture, or stenosis.; This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	PT had CT done 9/11/18 C spine impression: Degenerative spondylosis is present as described most pronounced in C6-7 CT T spine. Sever Multilevel DDD w/ Broad-based posterior disc herniation at T 5-6 and T7-8 Resulting in at least moderate multilevel cana; This study is being ordered for a neurological disorder.; Pain started appr. 1 month ago.; There has been treatment or conservative therapy.; Back pain radiating into legs,arms and around abdomen.fingers go numb; pt was give Diazepam and Tylenol 3 at ER visit on 9/11/18; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Stroke; This study is being ordered for a neurological disorder.; 10/20/2017; There has been treatment or conservative therapy.; Neck pain left arm paralysis back pain sciatica; Unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	symptoms getting worst; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; Patient has increasing weakness and radiating pain in right lower extremity. Has been through treatment of physical therapy with no improvement and worsening pain to area. Recent Cervical spine MRI showing Uncontroversial osteophytes within the spine and ; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to trauma or acute injury within 72 hours.; ; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does not have any neurological deficits.; This is a request for a thoracic spine MRI.; There has not been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; She has been having left leg pain in the hip and radiates into the thigh. The pain has been present for the past 2 weeks. She called and we ordered an US of the left and ruled out DVT 8/17/18. She continues to have the pain which is sharp and aching with	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does not have any neurological deficits.; The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for a thoracic spine MRI.; There has not been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; Thoracic spine X-ray and bone density study performed; recommended further imaging with thoracic spine mri	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; Chronic back pain from mid back down, with abnormal gait and parathesia; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to Neurological deficits.; The patient is experiencing sensory abnormalities such as numbness or tingling.; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Pain greater than 3 days	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Knee MRI.; No, the patient did not have a recent ultrasound of the knee.; The patient has not had recent plain films of the knee.; It is not known if there are physical findings of a palpable mass or a known primary site of cancer.; The patient has not had a recent bone scan.; Suspicious Mass or Suspected Tumor/ Metastasis	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2016; There has been treatment or conservative therapy.; chronic keen pain; drug treatment, and conservative therapy in home; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 5/31/18; There has not been any treatment or conservative therapy.; knee pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	2

General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Dr. Charles Mills Clinical Electromyography . Recommended the patient have MRI to evaluate for Myelopathy.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has been treatment or conservative therapy.; persistent pain, Acute pain; Patient had 6 weeks of PT and the patient had Nerve Conduction study; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	He is unable to do therapy due to intense pain and swelling. Xray was taken by another provider/facility on 6/29/18.; This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The results of the plain films is not known.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Pain greater than 3 days; No, patient has not completed and failed a course of conservative treatment.; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Joint disease; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &t; Enter date of initial onset here - or Type In Unknown If No Info Given &t; ; It is not known if there has been any treatment or conservative therapy.; &t; Describe primary symptoms here - or Type In Unknown If No Info Given &t; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Knee brace one week and Tylenol for pain.; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; There is no conservative treatment of Physical Therapy, physician directed course of non-steroidal medications, Immobilization or Physical directed exercise.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Mild edema; This is a request for a Knee MRI.; Suspected Aseptic Necrosis; Yes, the patient had recent plain films or bone scan of the knee.; No, the plain films/scans are not normal.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	na; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; The ordering physician is not an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Patient has been experiencing sharp pain in the left ankle while walking, standing, or applying pressure.; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury. Patient would like to have an MRI of the left knee for evaluation of pain after injury to knee. Patient is concerned for a ligament injury but reports having a high pain tolerance so is not currently in pain; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.; No, patient has not completed and failed a course of conservative treatment.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Positive for knee pain and swelling , positive for low back pain Stacey R Sisco is a 41 y.o. female who presents today to discuss lab work . Abnormal labs include vitamin D low at 18; ESR 38: WBC 11; Ca+10.1. She is complaining of chronic knee pain; This is a request for a Knee MRI.; Suspected Aseptic Necrosis; Yes, the patient had recent plain films or bone scan of the knee.; No, the plain films/scans are not normal.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	PT HAS HAD ANLKE PAIN FOR 2 WEEKS, STARTED BECOMING INTOLERABLE AFTER STARTING BACK TO GYM A MONTH AGO, PAIN IS THROBBING WITH WALK OR JOG AROUND NEIGHBORHOOD. X-RAY IS NORMAL; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Pt presents to clinic with c/o right knee pain, that is getting worse; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; No, patient has not completed and failed a course of conservative treatment.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	severe bilateral knee pain numbness in feet muscle cramps in legs; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	The patient reports ongoing knee pain that has not improved after 3 injections by a sports medicine doctor. Patient describes it as a constant burning pain; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; It is not known if there is a known trauma involving the knee.; Pain greater than 3 days; No, the member do not experience a painful popping, snapping, or giving away of the knee.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Suspected meniscus, tendon, or ligament injury	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Swelling greater than 3 days	1

General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a lower extremity MRI; There is a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a neurological disorder.; unknown; There has not been any treatment or conservative therapy.; chronic lower back pain; neuro deficit 1 leg; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for trauma or injury.; 6/15/2018; There has been treatment or conservative therapy.; rib pain, neck pain, back pain , numbness in hands and legs; pain medications, anti inflammatory, brace with a pillow while coughing or sitting, overnight stay at Baptist hospital when the trauma happened; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	X-ray of lumbar and thoracic spine showed no abnormalities.; This study is being ordered for trauma or injury.; 2005; There has been treatment or conservative therapy.; Sharp, constant pain in his back that is worse when moving. Pain improves with laying down and resting. Rates pain at 7/10 most of the time. Patient is hunched over at work and pain affects daily life.; He was evaluated following the injury and was going to PT and a chiropractor. He tried this for several months, and he did not feel that this was very helpful, so he stopped going. He was on a muscle relaxer, but he has not taken this recently. He did not.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type in Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type in Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	2
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type in Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; bil legs; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a lower extremity MRI; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	unknown; This is a request for a Knee MRI; It is not known if patient had recent plain films of the knee.; It is not known if the ordering physician is an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; There is no symptom of locking,instability, Swelling,Redness,Limited range of motion or pain.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for Inflammatory/ Infectious Disease.; 01/04/2017; There has been treatment or conservative therapy.; chronic radiating pain, sciatica on the right side; injections, physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type in Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3 months ago; There has been treatment or conservative therapy.; pain after walking 2miles, xray shows spurring; anti-inflammatory; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type in Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; SEVERAL YEARS AGO; There has been treatment or conservative therapy.; DECREASED RANGE OF MOTION, PAIN, MEDICATION, PHYSICAL THERAPY; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a requests for a hip MRI; It is not known if the member has failed a 4 week course of conservative management in the past 3 months.; The hip pain is chronic.; The request is for hip pain.	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; right knee and hip pain; It is not known if there has been any treatment or conservative therapy.; pain in right knee/hip x 1 week. pain is relieved by ice and ibuprofen MUSCULOSKELETAL: normal gait; tone and strength: 5/5 strength in all major muscle groups; range of motion: decreased ROM of right knee flexion; pain with ROM of right knee; Popping.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	Patient is having lower lumbar back pain that is causing right hip pain as well.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	patient presents with antalgic gait. he has a history of avascular necrosis in left hip which resulted in total hip replacement. TTP bilateral sacroiliac joints and lumbar spine. patient has tried and failed nsaid - diclofenac, norco - pain medication. Xr; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	pt has hip dysplasia that is progressing with age. pain is not affecting him at work; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	Saw her rheumatologist at Poplar Bluff earlier today, was given a shot for her lupus. She is having pain, lower back, going down her (R) leg and (R) hip. Her rheumatologist wants her to have 3 things done, MRI Scan Lumbar Spine, MRI Scan (R) hip and a Bon; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	She has increasing difficulty walking due to hip and pelvic pain.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	suspicion of Avascular Necrosis; This is a requests for a hip MRI.; The hip pain is not due to a recent injury, old injury, Chronic Hip Pain or a Mass.; The request is for hip pain.	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone); The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	5
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Document exam findings; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; legs giving out; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; RIGHT LOWER EXTREMITY WEAKNESS; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; to the right side along with pain and swelling; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Unable to stand up or walk.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Upper extremity weakness; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; It is not known if the patient has seen the doctor more then once for these symptoms.	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone); The patient had an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; It is not known if there has been any treatment or conservative therapy.; X-rays came back abnormal. Osteo arthritis in hips and thoracic spine; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for trauma or injury; unknown; There has been treatment or conservative therapy.; pain; medication, physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73725 Magnetic resonance angiography, lower extremity, with or without contrast material(s)	Radiology Services Denied Not Medically Necessary	PT c/o R ankle pain X2 weeks. Denies injury. Pt was previously seen and treated with steroid without relief. Pts X-rays were negative. Swelling noted upon exam.; This is a request for a ankle MRA (lower extremity joint MRA)	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 7/27/18; There has been treatment or conservative therapy.; pain, constipation, lung nodule; medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are NO abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; This study is being ordered for another reason besides Crohn's disease, Abscess, Ulcerative Colitis, Acute Non-ulcerative Colitis, Diverticulitis, or Inflammatory bowel disease.; There are no findings that confirm hepatitis C.; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for Congenital Anomaly.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	continued unexplained abdominal pain, loss of appetite, and weight loss.; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Hx of Lupus. Pain has been going since 02-7. Pt has been seen over 4 times for this issue.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/06/2018; There has been treatment or conservative therapy.; Pt has right upper quadrant pain and right sided chest pain. Hx of Lupus; Pt. had NSAIDs and steroids; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology none; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	patient has had blood and urine tests and was told it is not her gallbladder. Patient has had a history of cyst on common bile duct; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/02/18, There has been treatment or conservative therapy.; Acute pain when walking, function is inhibited by the pain.; Heating pad use; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy.; The patient has been treated with medication.; It is not known what medications were used in treatment.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; exercise, taking meds	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy.; The patient has been treated with medication.; other medications as listed.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.; List meds here	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy.; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; Treatment been going on for 6 months and symptoms are worsening; over the counter drugs	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy.; The patient has been treated with medication.; The patient was treated with oral analgesics.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; Exercise or pain meds have not helped	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has had severe chest and abdominal pain for less than 24 hours. She came into the office today for an examination. She is very tender to the touch in both her abdomen and chest. She has a cough in office, decreased breathe sounds were noted.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	previous colostomy that was reversed, sharp pain, tender abdomen, this started 2 weeks ago, shortness of breath, decreased appetite.; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT.	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Pt is having sudden onset severe left side pain; This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are NO abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; This study is being ordered for another reason besides Crohn's disease, Abscess, Ulcerative Colitis, Acute Non-ulcerative Colitis, Diverticulitis, or Inflammatory bowel disease.; There are no findings that confirm hepatitis C.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	right side pain, complain of persistent pain in right upper quadrant, lower right rib cage localized pain in a 8-10 cm area horizontal, affected by movement and by pressure; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	-SHARP STABBING UPPER ABDOMINAL PAIN GOING ON FOR 2 WEEKS.  -RAISING ARM AGGRAVATES RIGHT SIDE OF ABDOMEN.  -BILE DUCT OBSTRUCTION.; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	some gerd, chest pain and pressure; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 9/7/18; There has not been any treatment or conservative therapy.; chest pain, pressure in the chest; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; 6 weeks low weight barring	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has not been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; home treatment documentation	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 09/10/2018; There has been treatment or conservative therapy.; for the lower back, numbness down the left lower extremity and pain; for the shoulder, it is right upper extremity weakness with extension; Epidural injections, Steroids; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 20 years but has been getting worse; There has been treatment or conservative therapy.; Low back pain; Pain management, back injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an Abdomen CT.; This study is being ordered for a vascular disease.; The requested studies are being ordered for known or suspected blood clot, thrombosis, or stenosis and are being ordered by a surgeon or by the attending physician on behalf of a surgeon.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	UNKNOWN; This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; It is unknown if there are abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; This study is being ordered for another reason besides Crohn's disease, Abscess, Ulcerative Colitis, Acute Non-ulcerative Colitis, Diverticulitis, or Inflammatory bowel disease.; It is not known if there are findings that confirm hepatitis C.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This is a request for an Abdomen CT.; This study is being ordered for organ enlargement.; Which organ is enlarged? Other; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	This is a request for CT Angiography of the Abdomen and Pelvis.	3
General/Family Practice	Disapproval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the abdomen.	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	3 lab test performed were very low; pt. is reporting rt. upper quad. tenderness, worse when pt. eat or drink. need to determine next course of action x-ray was done; This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Complaining of nausea, bloating, back pain, recent colonoscopy (normal); This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Continuous LLQ pain; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	has a cc of abdominal pain x 1 months. she has a stabbing abdominal pain on the right flank that is on and off. episodes last a few minutes, not food related RLQ tenderness and RUQ tenderness; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease. ; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; low back pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease. ; 07/03/2018; There has been treatment or conservative therapy.; Chronic pain; Medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease. ; 10-2017; There has not been any treatment or conservative therapy.; chronic back pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease. ; 2004; There has been treatment or conservative therapy.; pain; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease. ; 3 months ago; There has been treatment or conservative therapy.; pain after walking 2miles, xray shows spurring; anti-inflammatory; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease. ; SEVERAL YEARS AGO; There has been treatment or conservative therapy.; DECREASED RANGE OF MOTION, PAIN; MEDICATION, PHYSICAL THERAPY.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Have performed an x-ray.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Here for abdominal pain that has been epigastric and LUQ x 2 months. Feels like something is pushing on her abdominal wall on standing up. Has lost 7 lbs since 5/1. Pain has moved more over to her LUQ and radiating down her left side of abdomen. Feels; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Hip Pain; This study is being ordered for trauma or injury.; Unknown; There has not been any treatment or conservative therapy.; Hip Pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	incidental finding of a 2 cm lower abdomen lesion which has been stable as compared with a CT that she had previously. The radiologist is recommending a CT of abdomen with and without contrast every 6 months for the next 2 years to check for stability; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	patient having severe RLQ pain and hurts to walk ...diarrhea has left but pain is more intense; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	3
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient came in today complaining about Pleurisy... chest pain. she complains cant sleep at night... and also of abdominal pain chronic from scale from 1-10 she stated a 8... One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient exhibit's epigastric pain, diarrhea, flatus, nausea, weightloss, increased bowels, tenderness. History of renal calculi and stones; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient had a previous abdomen and pelvis CT which showed abnormalities in the liver. and needed a follow up. Has a history of breast cancer .; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; < Describe treatment / conservative therapy here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 6/7/18; There has not been any treatment or conservative therapy.; pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	2
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	patient has abnormal weight loss, history of smoking, abdominal pain, vomiting/nausea, ultrasound showing gallbladder polyps; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; patient was seen on 9/5/2018 with complaint of abnormal weight loss. Has noticed a weight loss of 13 pounds in one year, hasn't tried to lose weight. Is a smoker. Gallbladder polyps were seen on abdominal ultrasound in January of 2018 - patient complain; There has been treatment or conservative therapy.; abnormal weight loss, personal history of nicotine dependence, abdominal pain, vomiting, abnormal ultrasound of gallbladder showing polyps.; patient was sent to gastroenterologist for gallbladder polyps, unable to perform surgery d/t not able to get down throat. Ultrasound of thyroid that was performed on 8/31/2018 showed goiter. has been sent to ENT, awaiting office visit to see what he reco; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT HAS SEVERE ABDOMEN PAIN; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Pt had a Renal US done and showed bilateral kidney lesions. Sending pt to an Urologist, but they are requesting an abdomen and pelvis CT to get a closer look.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; NORCO MOBIC FENTANYL	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; It is not known if the The home treatment included exercise, prescription medication and follow-up office visits.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	14
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	She does notes that she has been having quite a bit of abdominal issues with a "bulge" and is concerned about the possibility of a hernia. She had an open cholecystectomy several years ago and reports "such pressure" just above the scar. abdominal pain a; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Tanya K Horn is a female with a known vulvar mass. She first noticed the mass on her labia majora 1.5 years ago. She states the mass has progressively gotten bigger over time with discharge so she sought medical attention. PET CT 7/29/2016 showed a 2.3x2; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology The Pt has been seen three time for pelvic and abdominal pain. Pt als rebound tenderness, discharge, PAP abromal nonsuffcient. another pap in 3 months. Pt has nausea nd vomiting low grade fever x 2 weeks.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	These symptoms have been persistent for the last 2 months.; This study is being ordered for Inflammatory/ Infectious Disease.; 06/05/2018; There has been treatment or conservative therapy.; Swollen lymph nodes, headaches, and fatigue; Doxycycline Hyclate 100 mg tablets  Hydrocodone-Acetaminophen 5-325 mg tablets  Prednisone 20 mg tablets Toradol 10 mg tablets  Bactrim DS 800-160 mg tablets; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain. The study is not requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does not have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; PATIENT HAS CHRONIC LOW BACK PAIN; RADICULOPATHY; HEADACHES; CERVICALGIA WORSENING BACK PAIN WITH SITTING; There has been treatment or conservative therapy.; PATIENT HAS CHRONIC LOW BACK PAIN; RADICULOPATHY; HEADACHES; CERVICALGIA; PATIENT HAS COMPLETED PHYSICAL THERAPY AND CURRENTLY GETTING MASSAGES; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for Inflammatory/ Infectious Disease.; Chronic back pain began in pt's early adulthood, first visit discussing this is 7/24/18; There has been treatment or conservative therapy.; Spasm of back muscles, nonspecific pain; Muscle relaxers, NSAIDs; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/21/2017; There has been treatment or conservative therapy.; Back pain swelling in knee and pain; Physical Therapy Medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; chronic, over 6 years; There has been treatment or conservative therapy.; Limited ROM and motor difficulty; NSAIDs and Pain medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; N/A; It is not known if there has been any treatment or conservative therapy.; Mr. Parker is a 52-year-old man with a history of multiple prior surgeries with Dr. Thomas. He had what he describes a herniated disc at L5-S1 which originally he underwent a decompression of microdisc which she did fine with. However he redeveloped left; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; July 23, 2018; There has not been any treatment or conservative therapy.; back, abd and neck pain since the accident. Had CTs done in A2 and reports show no traumatic findings. Pt c/o numbness to bilateral sides neck and left leg. Has nerve conduction appt pending. Pt states numbness has increased. Cervical Spine decreased lle; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	7 weeks of physical therapy, no improvement; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness, lower extremity of weakness; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	abnormal xray  3 mm anterolisthesis of L5 on S1 will question of pars  interarticularis defects.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	abnormal xray; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; stretches, alternate pain meds with heat and ice compressive for 4 to 6 weeks; hydrocodone, Norco 10-325, meloxicam, tramadol	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	arthritis and back pain; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	back pain (acute) and limb pain (bilateral leg pain) .  Positive for paresthesia (bilateral lower extremity) , gait: slowed; pain with range of motion in: the back; The study requested is a Lumbar Spine MRI; The patient has acute or chronic back pain; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Back Pain Reported by patient. Location: lumbar; pain radiating to the legs Quality: sharp Severity: moderate (5-7) Duration: acute  Context: overuse  Alleviating Factors: rest  Aggravating Factors: movement/positioning; twisting  Associated Symp; The study requested is a Lumbar Spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; It is not known if the urinalysis was positive for bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for bilirubin.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for ketones.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	bulging disc, spinal stenosis; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; January 2018; There has not been any treatment or conservative therapy.; Pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	bulging l4-l5 mri performed 7 years ago; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; weakness to left foot; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	C/o spasms, tenderness in joints; The study requested is a Lumbar Spine MRI; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	chronic back pain, radiculopathy lumbosacral region, scoliosis.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	chronic L2 fracture with increasing pain, failed therapy; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic LBP noted. Reason for visit: Pain. The discomfort is most prominent in the lower lumbar spine. He characterizes it as intermittent, severe, sharp, and shooting. This is a chronic, but intermittent problem with an acute exacerbation. He states; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic low back pain not relieved by physical therapy and medication. New onset of left leg radiculitis.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Weakness left leg due to pain radiating down left leg.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic low back; Has had back pain for about 7 years. No injury. Has had MRI's in the past. Showed degenerative changes and severe canal stenosis. Radiates down bilateral legs. No leg weakness. Denies saddle paresthesias or loss of bowel/bladder control; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; It is unknown if there has been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The hematuria is due to Renal Calculi/kidney/ ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is follow up trauma.; There is not laboratory or physical evidence of an intra-abdominal bleed.; There is not physical or abnormal blood work consistent with peritonitis or abdominal abscess.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Clinical Indication: LBP w/ radicular pain down both legs. SLR + bilaterally; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy.; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; Lumbar Spine: Inspection no kyphosis, scoliosis, skin abnormalities, or visible deformity and normal hair pattern. Soft Tissue Palpation on the Left: tenderness of the paraspinal region at L (L1-L5), the iliolumbar region, the gluteus maximus, the gluteus disc displacement or protrusions; This study is being ordered for a neurological disorder.; 03/2018; There has been treatment or conservative therapy.; mid back pain and numbness, left thigh pain, cramping, medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	FAX; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Had Surgery; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Has had occasional lower back pain in the past but fell about 2-3 months ago and has had acute lower back pain with lower extremity pain worse on the right. Has been taking daily NSAID for over 3 months and having worsening pain with difficulty standing; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	He has had increase pain as he had surgery last year He has had pain down rt leg He has had increasing pain even with home pt as well as otc meds and pain meds. Having arthralgias/joint pain and back pain.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Hip Pain; This study is being ordered for trauma or injury.; Unknown; There has not been any treatment or conservative therapy.; Hip Pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	hx of herniated discs. chronic back pain. worsening. last MRI was in 2016. needs current one to be referred to specialist for further treatment.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Joint disease; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.;  Enter date of initial onset here - or Type In Unknown If No Info Given  It is not known if there has been any treatment or conservative therapy.;  Describe primary symptoms here - or Type In Unknown If No Info Given  One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Location: lumbar; pain radiating to the buttocks (to (R) hip area)  Quality: dull Duration: chronic  Onset/Timing: recurrent episode  Context: overuse  Aggravating Factors: movement/positioning; flexing back  Associated Symptoms: no weak limbs; no n; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Location: lumbar; pain radiating to the buttocks; pain radiating to the legs Quality: sharp Severity: worsening Duration: chronic; acute attack  Onset/Timing: 26 hours ago  Context: overuse  Alleviating Factors: nothing- can't take aleve or ibuprof; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Location: pain radiating to the legs; pain radiates to the left hamstrings  Quality: sharp Severity: same  Duration: acute  Onset/Timing: symptoms have been present for 3 months  Aggravating Factors: movement/positioning; plantar flexion of left foot; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Low back pain shoots into Buttock BACK PAIN FOR 2 DAYS, TAKING SKELAXIN, NO RELIEF. SHE HAS DONE MASSAGE AND INVERSION TABLE. back pain has been acute and has been occurring in a persistent pattern for 2 days. The course has been increasing. The back pa; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Member reports weakness; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	MRI needed to see neurosurgeon; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 07/02/2018; There has been treatment or conservative therapy.; Chronic neck and back pain; Physical Therapy, Medication, Injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	MUSCULOSKELETAL: Examination of his lower back reveals The area of question to be in his right SI joint. Straight leg testing is positive on the right today and negative on the left.  J1100 INJ DEXETHOSONE SODIUM PHOSPHATE 1 MG  96372 THER/PROPH/DIAG INJ.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	MVA with air bags deployed 3 years ago; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	n/a; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; will fax; It is not known if there has been any treatment or conservative therapy.; n/a; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	neck and back pain with neuropathy.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	neck and lower back pain; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; It is not known if there has been any treatment or conservative therapy.; neck and lower back pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Neurological Deficits, Intermediate numbness in leg On physical examination, decrease sensation of left lateral of lower leg. Limited range of motion on lumbar spine. Has completed more than 6 weeks of physical therapy, with no improvements.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	No clinical information; The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for None of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	none; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; muscle spasm, sharp pain; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	none; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Not a candidate for surgery or injections. Pain in back is getting worse need MRI to start pain management.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	P has pain, Pt fell getting out of tub in late July, had injection, and pain medications.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	pain radiating to the buttocks; pain radiating to the legs; pain radiating to the foot; pain radiating to the ankle; right side  worsening; severe (8-10); interference with sleep weak limbs; numbness of the legs/feet; tingling; burning sensation down e; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Patient has weakness in both arms and both legs.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	pain; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Palpitations and ROM; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 7-9-2018; There has not been any treatment or conservative therapy.; Right hip and groining pain. Low back pain and HX of DVT.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient came in with significant back pain and has a history of this.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; The reason for the study is none of the listed reasons; It is not known if this study is being requested for abdominal and/or pelvic pain; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; The reason for the study is none of the listed reasons; This study is not being requested for abdominal and/or pelvic pain; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	12
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; The reason for the study is pre-op or post op evaluation; This study is not being requested for abdominal and/or pelvic pain; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; The reason for the study is suspicious mass or suspected tumor or metastasis; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; The reason for the study is suspicious mass or suspected tumor or metastasis; This study is not being requested for abdominal and/or pelvic pain; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient had a CT scan in the emergency room suggesting HNP L2-3. Radiologist recommended MRI to confirm diagnosis; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient has back and neck pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient has been doing 4 weeks of medication, pain; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has been experiencing lower back pain, radiating down the right side for 18 months. Started after child birth; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient has episodes of pain that "brings him to his knees". The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has extensive arthritis in the whole spine and has seen dr. calhoun and he referred him to dr.olaya, pain managemnt. dr.olaya wanted to do shots and he did not wanted to do shots. Patient wants to get pain medications for when necessary use. Patie; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT HAS ORTHOPEDIC DISORDERS OF THE SPINE CERVICAL/LUMBAR SPINE. PATIENT HAS HAD NEUROLOGICAL SURGERY NECK X2. ALSO HAS HAD A CERVICAL FUSION; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; CHRONIC PAIN RADIATING DOWN INTO BILATERAL LOWER EXTREMITIES. THIS CHRONIC PAIN IS CAUSING SLOW UNSTEADY GAIT WITH MODERATE LIMP; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has worsening back pain; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT IS HAVING CHRONIC LOWER BACKPAIN X SEVERAL YEARS THAT IS INCREASING WITH TIME. PATIENT HAS TRIED NSAIDS, CONTROLLED MEDICATIONS WITH NO EFFECTIVENESS. Patient also has chronic neck pain x years with symptoms worsening.; This study is being ordered for a neurological disorder.; 08/11/2017; There has been treatment or conservative therapy.; lower back pain with radiation; He has been given hydrocodone for pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient is having increasing pain that now radiates to lower extremities. patient has been taking pain medications and had done physical therapy for this condition with out improvement. patient is unable to work for long periods of time and pain is impeded; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient is having lower lumbar back pain that is causing right hip pain as well.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient is having significant pains in both legs, aches are worse in her thighs and somewhat down to her feet. Occasionally a pinprick sensation, worse at rest.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient is in severe pain in lumbar region with numbness in legs with certain movement.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient lifted an airplane blade and hurt back, he is having radiculopathy right side. he had CT in the ER and radiologist recommended MRI.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Per MD he wants a MRI to rule out a herniated disk or any nerve root problems.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more than once for these symptoms.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Per PCP pt has failed conservative management. MRI is mandatory to determine if a neurosurgery consult is needed for this patient.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.; 1. Prednisone 10mg (48) -therapy pack, as directed for 12 days, started 6/14/2018  2. Gabapentin 600mg - one BID for nerve pain, started 4/11/2018  3. Tramadol 50mg - 1-2 QID/PRN pain, started 6/14/2018	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	physical therapy and chiropractic care.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more than once for these symptoms.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Positive for back pain (chronic, since 2008);, The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PT c/o chronic back pain, pt has c/o of back pain since started coming to our clinic 2016; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt fell 8 weeks ago and has been taking medicine w /no improvement.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	pt had back surgery 10/2017; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PT had CT done 9/11/18 C spine impression: Degenerative spondylosis is present as described most pronounced in C6-7 CT T spine Sever Multilevel DDD w/ Broad-based posterior disc herniation at T 5-6 and T7-8 Resulting in at least moderate multilevel cana; This study is being ordered for a neurological disorder.; Pain started appr. 1 month ago; There has been treatment or conservative therapy.; Back pain radiating into legs,arms and around abdomen.fingers go numb; pt was give Diazepam and Tylenol 3 at ER visit on 9/11/18; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has chronic LBP and right lumbar radiculopathy. Abnormal lumbar xray reveals multilevel lumbar DJD with significant near bone on bone arthritis at L1-2 and L3-4. He also appears to have anterior osteophyte fusion at L1-2 and L3-4.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	pt has failed anti-inflammatory treatment and has had an xray. needs appt with neurosurgeon which requires an MRI; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; pt has failed anti-inflammatory treatment and has had an xray. needs appt with neurosurgeon which requires an MRI; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt involved in MVA 5 years ago. difficulty moving and twisting. XR unremarkable. Pt has pain in legs and feet. Pt is showing signs of weakness and tingling. Dr. Noted that pt is having tenderness in lumbar.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt is having increased neck, back, right arm/leg pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	pt is having increasing back pain. pt has tried physical and conservative therapy with no improvement.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt presented with sudden onset back pain on 08/29/2018. Treated with steroid and muscle relaxer without relief; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt suffers with back pain.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt suffers with chronic back pain.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Radiculopathy; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; back weakness; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Reports problems with his stomach for few years, ran out of medications a couple of days ago. Just got his Ambetter so thought he would be seen. Also would like something for his back, states has bad disks. Has been through the whole process, had MRI in ; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	ruptured disk in neck; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has been treatment or conservative therapy.; patient has chronic neck and back pain and has ruptured disk in neck; pt has been on pain medications, NSAIDs and has been told to alter her activities; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	severe pain that radiated into left leg; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	stiffness, pain while walking, twisting and worsening; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	tenderness and spasm in lower back , recent xray which showed defect at L5; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	7
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	THIS IS THE CASE OF A 33 YO BLK FEMALE WITH HISTORY OF A SPRAIN AND STRAIN OF THE LOW BACK AND WITH CHRONIC LUMBAGO AND SCIATICA FOR MORE THAN ONE YEAR [NOT RESPONSIVE TO PHYSICAL EXERCISE , NOT RESPONSIVE TO MUSCLE RELAXER AND ANALGESIA]; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	tried PT, Chiro, meds without relief; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unk; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; It is not known if there is x-ray evidence of a lumbar recent fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	2

General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	UNKNOWN; The study requested is a Lumbar Spine MRI; Follow-up to Surgery or Fracture within the last 6 months; The physician has not directed conservative treatment for the past 6 weeks; There has been a recurrence of symptoms following surgery; It is not known when the surgery was done; The patient been not been seen by or is not the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; The study requested is a Lumbar Spine MRI; It is unknown if the patient has acute or chronic back pain; This procedure is being requested for None of the above	6
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; The study requested is a Lumbar Spine MRI; The patient has acute or chronic back pain.; The patient has none of the above	5
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a neurological disorder.; unknown; There has not been any treatment or conservative therapy.; chronic lower back pain; neuro deficit l leg; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for Inflammatory/ Infectious Disease.; 01/04/2017; There has been treatment or conservative therapy.; chronic radiating pain, sciatica on the right side; injections, physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for trauma or injury.; 04/10/2018; There has been treatment or conservative therapy.; unknown; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for trauma or injury.; 6/15/2018; There has been treatment or conservative therapy.; rb pain, neck pain, back pain, numbness in hands and legs; pain medications, anti inflammatory, brace with a pillow while coughing or sitting, overnight stay at Baptist hospital when the trauma happened; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Want to send to neuro surgeon but Dr wants MRI first; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	weakness, intermittent drooling, elevated D Dimer, worsening headaches; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Will FAX; The study requested is a Lumbar Spine MRI.; None of the above; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
General/Family Practice	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	worsening chronic back pain; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; weakness in legs; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture. CT Abd/pelvis of kidneys with and without contrast multiphasic due to recommendation of the radiologist due to a 8 mm nodul in the left kidney that needs further investigation due to pt stillhaving abd/pelvic pain and hematuria IMC; The patient has painful hematuria; The patient has not had an IVP.; This study is being ordered due to hematuria.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Looking for Nonunion Pelvic FX; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Palpitations and ROM; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 7-9-2018; There has not been any treatment or conservative therapy.; Right hip and groining pain. Low back pain and HX of DVT.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	41
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	6
General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	abnormal xray previous ULTRA degenerative changes; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/4/18; There has been treatment or conservative therapy.; pain numbness and tingling; PT meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	low back pain and hip pain, family history of MS and family history of ankylosing spondylitis patient also feels dizzy and feels weak in his legs low back pain is described as aching, stiffness and occasionally sharp pains that radiate down his legs; This is a request for a Pelvis MRI; The request is not for any of the listed indications.	1
General/Family Practice	Disapproval	73200 Computed tomography, upper extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT; There is not a history of upper extremity joint or long bone trauma or injury; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is not suspicion of upper extremity bone or joint infection.; The ordering physician is not an orthopedist or rheumatologist.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 07/19/2018; There has been treatment or conservative therapy.; mass grown in size over past 2 months in the right clavicle painful; u/s MRI of soft tissue neck; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDS specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	patient has possible muscle tear; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary		1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type in Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type in Unknown If No Info Given. >; The requested study is a Shoulder MRI; The pain is from a recent injury; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	2
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type in Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 09/10/2018; There has been treatment or conservative therapy.; for the lower back, numbness down the left lower extremity and pain; for the shoulder, it is right upper extremity weakness with extension; Epidural injections, Steroids; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDS specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type in Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 03/01/2018; There has been treatment or conservative therapy.; Muscle ache, intermittent swelling, shoulder pain, moderate and severe, numbness, weakness, pain radiates from left shoulder to left lower arm.; Nsalds, activity modification, over the counter care.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDS specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type in Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 7/26/2018; There has been treatment or conservative therapy.; Weakness in his left hand, history of a fracture and left arm numbness; Medications and seen a orthopedic specialist; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDS specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; The requested study is a Shoulder MRI; The pain is from an old injury.; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; The patient received oral analgesics.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/02/2018; There has been treatment or conservative therapy.; Pain in neck and shoulder; Medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDS specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 05/10/2018; There has been treatment or conservative therapy.; decreased and painful rom; physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDS specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 8/26/18; There has been treatment or conservative therapy.; Decreased ROM in both left elbow and knee with inability to bear weight on he left knee.; Pt was xrayed with no abnormalities found. She was then put on conservative therapy of Meloxicam and Tramadol and given at home exercises to complete...patient has been unable to perform at home exercises and current medication treatment is not controlling; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDS specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Has severe weakness cant use area. Pop in ac region.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Hepatitis C. Pain in shoulder not improving with limited range of motion.; The requested study is a Shoulder MRI.; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	mild wedging shown on x ray, PT, injections; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	None; This study is being ordered for trauma or injury.; 09/05/2018; There has been treatment or conservative therapy.; Pain in elbow and shoulder limited ROM swelling; Home exercise arm sling rx medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDS specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	pain in lower back going down his leg to foot, numbing and tingling, L shoulder pain; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; worsening shoulder pain with tingling radiating down arm and leg. 6 weeks; hydrocodone, ibuprofen, tylenol; The patient received medication other than joint injections(s) or oral analgesics.	1

General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Pain Increases with external rotation, abduction, and lifting. The pain is anterior and radiates to the elbow. The pain is constant, sharp, and aching.; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Patient has chronic right shoulder pain. Pt has tried nsaid, prescribed medications, ice/heat with no effect.; The requested study is a Shoulder MRI.; The pain is described as chronic.; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy.; The patient has been treated with medication.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; ice/heat with no effect; naproxen 500 mg  gabapentin 100 mg tramadol 50 mg; The patient received medication other than joint injections(s) or oral analgesics.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Surgical intervention possible; The requested study is a Shoulder MRI.; The pain is from an old injury.; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy.; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; HEP with anti-inflammatory and asprin; Anti-inflammatory and OTC; The patient received medication other than joint injections(s) or oral analgesics.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation.".; & Enter answer here - or Type In Unknown If No Info Given. &	5
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation.".; acute shoulder injury 6 weeks ago, unresponsive to OTC NSAIDs and chiropractor, nml x-ray of shoulder in office.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation.".; LIMITED RANGE OF MOTION IN LEFT EXTREMITY DUE TO PAIN	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation.".; pain left shoulder	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation.".; problems with left shoulder, limiting his activity .	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation.".; She reports having R shoulder pain, which has been present for 2 years following a fall injury while at the lake. She reports falling off the bumper of a pickup truck and tried to catch herself with her right arm/shoulder on the tailgate. She has had pers	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation.".; Shoulder injury: He fe1l on the left shoulder 3 month ago.On examination he has pain with abduction, he has limited motion of his upper extremity from a cervical spinal cord injury. Patient does have pain with abduction, weakness with abduction which is	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; & Enter answer here - or Type In Unknown If No Info Given. &	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; patient has a suspected rotator cuff tear	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; Unknown	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; There is documented findings of severe pain on motion.	2
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Patient is here for R shoulder pain; pt reports certain movements it causes a sharp pain. Patient reports about 2 weeks ago he fell on it, after that he was carrying a sack of feed in his l shoulder and pulled his weight with his R shoulder. Pt is unsure	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Positive for arthralgias (R SHOULDER	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	35
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	10
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for a neurological disorder.; 8/8/2018; There has been treatment or conservative therapy.; lower abdominal pain, and headache; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Shoulder pain caused from a injury	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	2
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for trauma or injury.; 8/16/18; There has been treatment or conservative therapy.; severe headaches, laceration on the forehead, muscle spasms, blood shoot eyes and dizzy, broken legs, arm crushed; medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	upper abd pain after eating ultrasound gallbladder upper GI CT all normal; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Will fax.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; It is not known if the patient had and abdominal ultrasound, CT or MR study.; < Enter answer here - or Type In Unknown If No Info Given. >	1
General/Family Practice	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.;	1
General/Family Practice	Disapproval	75571 Computed tomography, heart, without contrast material, with quantitative evaluation of coronary calcium	Radiology Services Denied Not Medically Necessary	; This is a request for a CT scan for evaluation of coronary calcification.	2
General/Family Practice	Disapproval	75571 Computed tomography, heart, without contrast material, with quantitative evaluation of coronary calcium	Radiology Services Denied Not Medically Necessary	Abnormal Labs Type 2 diabetes mellitus without complication, with long-term current use of insulin  Essential hypertension; This is a request for a CT scan for evaluation of coronary calcification.	1
General/Family Practice	Disapproval	75571 Computed tomography, heart, without contrast material, with quantitative evaluation of coronary calcium	Radiology Services Denied Not Medically Necessary	has elevated cholesterol, triglycerides; This is a request for a CT scan for evaluation of coronary calcification.	1
General/Family Practice	Disapproval	75571 Computed tomography, heart, without contrast material, with quantitative evaluation of coronary calcium	Radiology Services Denied Not Medically Necessary	Routine adult health maintenance.; This is a request for a CT scan for evaluation of coronary calcification.	1
General/Family Practice	Disapproval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)	Radiology Services Denied Not Medically Necessary	This request is for a Coronary CT Angiography study.; It is not known if patient did not have a Nuclear Cardiology study within the past six months.;	1

General/Family Practice	Disapproval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)	Radiology Services Denied Not Medically Necessary	This request is for a Coronary CT Angiography study.; No, patient did not have a Nuclear Cardiology study within the past six months.; None of the above.;	1
General/Family Practice	Disapproval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)	Radiology Services Denied Not Medically Necessary	This request is for a Coronary CT Angiography study.; No, patient did not have a Nuclear Cardiology study within the past six months.; None of the above.; Pt recently had arterial Doppler performed a week ago that indicated pt had possible inflow disease to bilateral both lower legs with right above the knee also, radiologist requested a CTA of abd/pelvis be performed for futher testing	1
General/Family Practice	Disapproval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the abdominal arteries.	5
General/Family Practice	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	; This is a request for Breast MRI; This study is being ordered for known breast lesions; There are NOT benign lesions in the breast associated with an increased cancer risk.	1
General/Family Practice	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	This is a request for Breast MRI; This study is being ordered as a screening examination for known family history of breast cancer.; There is a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
General/Family Practice	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	Unknown; This is a request for Breast MRI; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; It is not known if the patient is diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; It is not known if there are documented findings of hyperlipidemia.; There are no documented clinical findings of hypertension.; The patient is not diabetic.; The patient has not had a recent non-nuclear stress test.; "Patient is not clinically obese, nor has an emphysematous chest configuration."; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The patient has a physical limitation to exercise.; The patient is male.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has not been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has not been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	to see if further surgery is needed; This study is being ordered for trauma or injury.; august 26 2016; There has been treatment or conservative therapy.; chronic right shoulder pain radiating to cervical spine; physical therapy, and controlled medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Unknown; The requested study is a Shoulder MRI; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; Worsening pain & ongoing treatment; The patient received oral analgesics.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	unknown; The requested study is a Shoulder MRI; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Unknown; The requested study is a Shoulder MRI.; The study is not requested for any of the standard indications for Knee MRI; It is not known if the study is requested for shoulder pain.	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for a neurological disorder.; 06/15/2017; There has been treatment or conservative therapy.; Neck pain radiating down left shoulder, unable to turn neck or lift arm.; Anti anti-inflammatory medication, had steroid injections, trigger point injections, muscle relaxers.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 07/24/2018; There has been treatment or conservative therapy.; patient is having neck and right shoulder pain. he is unable to lift right arm due to pain. he feels like it is weaker. pain is continuously getting worse.; Patient has did physical therapy on both shoulder and neck. patient has tried indomethacin(NSAID) without relief.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for trauma or injury.; 9/11/18; There has been treatment or conservative therapy.; excruciating pain in the right shoulder and neck; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73225 Magnetic resonance angiography, upper extremity, with or without contrast material(s)	Radiology Services Denied Not Medically Necessary	left shoulder liberal tear; Is this a request for one of the following? MR Angiogram Upper Extremity	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The patient has 3 or more cardiac risk factors; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 20 to 29	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.; This study is being ordered for None of the above; The patient has not had a stress echocardiogram within the past eight weeks.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	7/1/18 patient went to ER for shortness of breath chest tightness, elevated blood pressure, negative findings; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	abnormal; The patient has had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	chest pains getting worse blood pressure getting higher more frequent; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient is less than 45 years old.	1

General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	chest pains getting worse occurs with activity and at rest hx of palpitations diabetic high bp; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.; This study is being ordered for None of the above; The patient has not had a stress echocardiogram within the past eight weeks.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	ER today, shortness of breath, chest pain and pressure radiating to left arm and pressure of head and neck. PT is a smoker. EKG was negative; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Mr Tweedy is a 26 yr old male who presents for return visit. History of VF arrest in 2011. Cardiac cath in 2011 revealed normal coronaries. S/P ICD placement. Underwent laser extraction due to infective endocarditis. S/P MDT ICD in 2013. Echo 6/30/17 reve; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Patient had an episode of substernal chest pain associated with shortness of breath. Increased fatigue and dyspnea on exertion. Family history of heart disease. Smoker.; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Patient has htn, chest pain and shortness of breath. He is a life long smoker, 1PPD. Family history of heart disease; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	WILL FAX IN; This is a request for a Lower Extremity CT.; This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is no suspicion of lower extremity bone or joint infection.; There is not a history of lower extremity joint or long bone trauma or injury.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	73706 Computed tomographic angiography, lower extremity, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	been in hospital for days; This study is being ordered for Vascular Disease.; 7/31/2018; There has been treatment or conservative therapy.; pain; hospitalized; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary		1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Pain greater than 3 days; No, patient has not completed and failed a course of conservative treatment.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Inflammatory/ Infectious Disease.; 05/29/2018; There has been treatment or conservative therapy.; swelling x 8 weeks, cellulitis, adema; Antibiotics, ultrasound, xray; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 07/11/2018; There has not been any treatment or conservative therapy.; PAIN; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	3

General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Patient reports radiates to the left arm but reports chest. He reports heaviness. He reports very limiting but reports moderate. He reports exertional and at rest. He reports exertional dyspnea and decrease in exercise capacity. He reports lasts minutes ; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The patient has 3 or more cardiac risk factors; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 20 to 29	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	pt w 3+ mos of episodes of pressure in chest w/o radiation, but assoc w fatigue, dyspnea, diaphoresis, nausea, palpitations, and near syncope. episodes can last up to 30 min. pt is adopted w/o family hx. no hx of nicotine. pt not exercising routinely. vss; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Recheck of High blood pressure. The symptoms have been associated with dyspnea, family history of hypertension, headache, palpitations and weakness (AND NUMBNESS IN HANDS EVERY MORNING),STILL EXPERIENCING FAST HEART RATE, FEELS FATIGUED AND WORE OUT, FEEL; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Shortness of breath and chest pain with exertion, edema bilateral lower extremities, 35 year history of smoking, CAD in mother.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The patient has 3 or more cardiac risk factors; The study is requested for congestive heart failure.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 20 to 29	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The study is requested for congestive heart failure.; The member does not have known or suspected coronary artery disease	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The study is requested for known or suspected cardiac septal defect.	2
General/Family Practice	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a diagnostic/lab test.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Lymphoma or Myeloma.; A lab test other than an SPEP suggests thier need for ordering this study.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
General/Family Practice	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color	Radiology Services Denied Not Medically Necessary	This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; The reason for ordering this study is unknown.	1
General/Family Practice	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color	Radiology Services Denied Not Medically Necessary	This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; There has NOT been a change in clinical status since the last echocardiogram.; This request is for initial evaluation of a murmur.; It is unknown if the murmur is grade III (3) or greater.; It is unknown if there is clinical symptoms supporting a suspicion of structural heart disease.; This is a request for follow up of a known murmur.	1
General/Family Practice	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color	Radiology Services Denied Not Medically Necessary	This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; This request is for initial evaluation of a murmur.; It is unknown if the murmur is grade III (3) or greater.; There are NOT clinical symptoms supporting a suspicion of structural heart disease.; This is NOT a request for follow up of a known murmur.	2
General/Family Practice	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color	Radiology Services Denied Not Medically Necessary	This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Valves.; This is NOT for prolapsed mitral valve, suspected valve disease, new or changing symptoms of valve disease, annual review of known valve disease, initial evaluation of artificial heart valves or annual re-eval of artificial heart valves.	1

General/Family Practice	Disapproval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;	Radiology Services Denied Not Medically Necessary	This is a request for a Stress Echocardiogram; None of the listed reasons for the study were selected; The member does not have known or suspected coronary artery disease	1
General/Family Practice	Disapproval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; It is not known if there has been any treatment or conservative therapy.; X-rays came back abnormal. Osteo arthritis in hips and thoracic spine; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This is a request for a Knee MRI; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; No, patient has not completed and failed a course of conservative treatment.	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This study is being ordered for Congenital Anomaly.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/21/2017; There has been treatment or conservative therapy.; Back pain swelling in knee and pain; Physical Therapy Medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; right knee and hip pain; It is not known if there has been any treatment or conservative therapy.; pain in right knee/hip x 1 week. pain is relieved by ice and ibuprofen; MUSCULOSKELETAL: normal gait; tone and strength: 5/5 strength in all major muscle groups; range of motion: decreased ROM of right knee flexion; pain with ROM of right knee; Popping; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 8/26/18; There has been treatment or conservative therapy.; Decreased ROM in both left elbow and knee with inability to bear weight on the left knee.; Pt was xrayed with no abnormalities found. She was then put on conservative therapy of Meloxicam and Tramadol and given at home exercises to complete....patient has been unable to perform at home exercises and current medication treatment is not controlling; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	c/o continued pain to left foot/ankle area. Patient has had xrays and lab work all showing normal. Patient states she continues to take her medications with some effectiveness noted. Patient states it has become almost unbearable to walk on. Patient report; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
General/Family Practice	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	1
General/Family Practice	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	Patient Smokes 20 Cigarettes Daily, Has Been Smoking For At Least 25 Years, She Gets Short Of Breath With Certain Activities.; This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is 54 years old or younger.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; Patients who are NOT between the ages of 55 and 81 years of age do not meet the criteria for lung cancer screening.	1
General/Family Practice	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	Pt has a cough and prev 30 pack per yr smoker; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	1
General/Family Practice	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	Unknown; This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; It is unknown if the patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.	1
General/Family Practice	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; back pain-6/2018; There has been treatment or conservative therapy.; back pain, middle of the back is numb and tingling radiates to the shoulder blades, nicotine dependence, shortness of breath, vehicle accident 6/2018; oral medication, home therapy exercises; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for MRCP.; There is a reason why the patient cannot have an ERCP.; The patient has not undergone an unsuccessful ERCP.; The patient does not have an altered biliary tract anatomy that precludes ERCP.; The patient does not require evaluation for a congenital defect of the pancreatic or biliary tract.; It is not known if MRCP will be used to identify a pancreatic or biliary system obstruction that cannot be opened by ERCP.; It is not known if patient is an infant or young child, and not an adult who is debilitated or uncooperative in such a manner that ERCP is unsafe or cannot be performed.; "The patient has neither a documented allergy to iodine-based contrast materials, or a general history of allergic responses."; It is not known if patient has acute pancreatitis.	1

				< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for MRCP.; There is a reason why the patient cannot have an ERCP.; The patient has not undergone an unsuccessful ERCP.; The patient does not have an altered biliary tract anatomy that precludes ERCP.; The patient does not require evaluation for a congenital defect of the pancreatic or biliary tract.; It is not known if MRCP will be used to identify a pancreatic or biliary system obstruction that cannot be opened by ERCP.; It is not known if patient is an infant or young child, and not an adult who is debilitated or uncooperative in such a manner that ERCP is unsafe or cannot be performed.; "The patient has neither a documented allergy to iodine-based contrast materials, or a general history of allergic responses.;" The patient does not have acute pancreatitis.	1
General/Family Practice	Disapproval	58037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)	Radiology Services Denied Not Medically Necessary		
Geriatrics	Approval	70450 Computed tomography, head or brain; without contrast material		The Patient is waking with ptosis of the right eye and having some memory issues. she no longer drives. she also is having the problem that she cannot get words out. Moms side of the family does have a history of strokes also; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
Geriatrics	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		This study is requested to evaluate suspected pulmonary embolus.; Yes, this is a request for a Chest CT Angiography.	2
Geriatrics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical therapy.	1
Geriatrics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	2
Geriatrics	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; This is a request for initial staging of a known tumor other than prostate.; No, this is not a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT	1
Geriatrics	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; Yes, the patient has been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1
Geriatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		abnormal weight loss; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	History of abusive relationships.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has been treatment or conservative therapy.; Neck pain with limited range of motion and pain that radiates down her shoulder and down her arms. Pt has paresthesia in arms and hands. Loss of strength in knee resulting in buckling and falls.; NSAIDs.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Joint &#amp; Soft Tissue Pain&#xOD; Reported by patient. &#xOD; Location: left (knee, elbow and shoulder); joint pain &#xOD; Quality: aching; burning; throbbing; sharp; deep; trend is not changing &#xOD; Timing: constant &#xOD; Severity: moderate (to severe) &#xOD; Duration: 7 months &#xOD; Cont; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	none; This study is being ordered for trauma or injury.; 8/27/18; There has been treatment or conservative therapy.; knee pain, positive drawer signs, unstable when ambulating; xray, knee brace, hydrocodone; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	on pain medication, no improving; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; There is no conservative treatment of Physical Therapy, physician directed course of non-steroidal medications, immobilization or Physical directed exercise.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	patients pain has increased and is having instability on bilateral knees; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	tendon or ligament injury; This is a request for an Ankle MRI.; It is not known if surgery or arthroscopy is scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot.;" There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	2
Geriatrics	Approval	60297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	2
Geriatrics	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal laboratory test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Geriatrics	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; 'None of the above' were relevant in the diagnosis or suspicion of inflammatory lung disease; This study is being requested for known or suspected inflammatory disease such as sarcoidosis, pneumoconiosis, asbestosis, silicosis; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1

Geriatrics	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Gynecologic Oncology	Approval	71250 Computed tomography, thorax; without contrast material			1
Gynecologic Oncology	Approval	71250 Computed tomography, thorax; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Gynecologic Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Gynecologic Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; The study is requested for post-op evaluation.; The study is not requested as a first follow up study for a suspected or known post-op complication.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Gynecologic Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Gynecologic Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Gynecologic Oncology	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Gynecologic Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body			2
Gynecologic Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material		3. Re-staging scans and BD yearly next due 06/18. Last 6/2017.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material		CT scan head, chest, abdomen, pelvis and bone scan for restaging at CCC; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material		Malignant neoplasm of lower lobe, right bronchus or lung; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material		Malignant neoplasm of upper lobe, right bronchus or lung; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material		Patient has oral chemo restaging.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material		RE-STAGING BREAST CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material		RE-STAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material		RE-STAGING; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material		Schedule restaging scans q 6 months. Last 2/23/18; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material		Schedule re-staging scans yearly. Last 6/2017.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Instability	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Limited range of motion	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physical Therapy	2

General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a Knee MRI; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physician directed course of non-steroidal anti-inflammatory medications	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a lower extremity MRI; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	10
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a lower extremity MRI; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
General/Family Practice	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	unknown; This is a request for a foot MRI.; A plain x-ray of the area been done.; The study is being ordered for foot pain.; The study is being ordered for known or suspected septic arthritis or osteomyelitis.; The results of the plain film x-ray were normal.; The patient has NOT had any abnormal lab studies.	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2004; There has been treatment or conservative therapy.; pain; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	5
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	See clinical; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5-10 years ago (see clinical); It is not known if there has been any treatment or conservative therapy.; Bilateral Hip Pain, Chronic Low Back Pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient has a documented limitation of their range of motion.	5
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
General/Family Practice	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	UNKNOWN; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; UNKNOWN; It is not known if there has been any treatment or conservative therapy.; Pain in hips, arthritis; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Abdomen CT.; This study is being ordered for a kidney/ureteral stone.; This patient is not experiencing hematuria.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; It is unknown if there are abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; This study is being ordered for another reason besides Crohn's disease, Abscess, Ulcerative Colitis, Acute Non-ulcerative Colitis, Diverticulitis, or Inflammatory bowel disease.; There are no findings that confirm hepatitis C.; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	abnormal liver test; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain of uncertain etiology; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; patient states symptoms began after breast augmentation; There has not been any treatment or conservative therapy.; chest pain, abdominal pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Liver - Abnormal Ultrasound; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Lower abdominal pain going on for six months, throbbing pain that radiates into the testicles; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has a history of hysterectomy due to endometriosis that spread into abdomen causing several bowel resections. Patient is having several abdomen and flank pain. Patient has tried PT thinking it was back pain and OTC medications with no relief. Pati; This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; This is not a request for initial staging of a known tumor other than prostate.; There are no new signs or symptoms including hematuria, presenting with known cancer or tumor.; This patient does NOT have known prostate cancer with a PSA (prostate-specific antigen) greater than 10.; No, this is not a request for follow up to a known tumor or abdominal cancer.; No, there is a palpable or observed abdominal mass.; No, there is not an abdominal and pelvic or retroperitoneal mass that has been confirmed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Patient presented with abdominal pain. Patient has a knot above navel that looks to be an umbilical hernia.; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	patient presenting with right upper quadrant tenderness; This is a request for an Abdomen CT.; This study is being ordered for organ enlargement.; Which organ is enlarged? Liver; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Patient with fall about 6 weeks ago. Still having posterior distal rib pain and flank pain.; This is a request for an Abdomen CT.; This study is being ordered for trauma.; This request is not for follow up to abdominal and/or pelvic trauma ordered by a specialist or PCP on behalf of a specialist who has seen the patient.; There is no recent trauma with physical findings or abnormal blood work indicating either peritonitis or abscess.; There are no physical findings or lab results indicating an intra-abdominal bleed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has a hard spot in the stomach; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is no suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; There are no new symptoms including hematuria.; There are no new lab results or other imaging studies including ultrasound, Doppler or plain films findings.; There is not a suspicion of an adrenal mass.; This is not a request to confirm a suspicious renal mass suggested by physical exam, lab studies, IVP or ultrasound.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Pt needs to be referred to Springhill radiology department for a CT scan due to right lower quadrant pain and tenderness. This is urgent. R10.31; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Pt passing blood and has gastroparesis. Additional diagnosis code: K92.1.; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	upper right quadrant pain; This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are NO abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; This study is being ordered for another reason besides Crohn's disease, Abscess, Ulcerative Colitis, Acute Non-ulcerative Colitis, Diverticulitis, or Inflammatory bowel disease.; There are no findings that confirm hepatitis C.; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Will FAX; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	been in hospital for days; This study is being ordered for Vascular Disease.; 7/31/2018; There has been treatment or conservative therapy.; pain; hospitalized; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for bilirubin.; The study is being ordered for acute pain.; There has not been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	5
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	10 day late on period and not pregnant; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	42 year old black female presents today with itching to arms and legs. She states it has been ongoing for about 3 years. She denies any new changes in soaps, lotions or detergents. She has switched to fragrance free products and does put perfume on her b; This study is being ordered for inflammatory/ Infectious Disease.; 01/01/2015; There has been treatment or conservative therapy.; 42 year old black female presents today with itching to arms and legs. She states it has been ongoing for about 3 years. She denies any new changes in soaps, lotions or detergents. She has switched to fragrance free products and does put perfume on her b; 42 year old black female presents today with itching to arms and legs. She states it has been ongoing for about 3 years. She denies any new changes in soaps, lotions or detergents. She has switched to fragrance free products and does put perfume on her b; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	abdominal pain (more discomfort in the epigastric region); excess gas; diarrhea; heartburn; belching.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	abdominal pain; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Concerning abdominal pain, unspecified, this is located primarily in the left upper quadrant. It began years ago. He characterizes it as aching. Aggravating factors include meals and movement in general. Pertinent surgical history includes prior abdo; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Constitutional: Constitutional: no fever, night sweats, or significant weight gain and weight loss (30 lbs).  Eyes: Eyes: no irritation, dry eyes, vision change, or eye disease/injury.  ENMT: Ears: no difficulty hearing.  Cardiovascular: Cardiovascu; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	fever; frequency; dysuria; urine odor pH  6.00 abnormal; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	frequent UTI Hematuria; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	pt had an abdominal xray in office and showed kidney stones, needing a ct of abd/pelvis to check on the stones; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	r/o unknown; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	right lower quadrant pain, Patient describes pain as sharp, rating it at 7/10. Patient reports area is tender to palpation, Patient denies fever, vomiting, nausea, Onset of symptoms x 1 day, Patient has concerns of appendicitis.   pt having increase hea; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RUQ Abdominal pain with vomiting.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	She has bloating to the abdomen and severe pain.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for glucose.; The study is being ordered for acute pain.; There has not been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	3
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	4
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	3
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; This study is being ordered for evaluation of known tumor.	1
Hematologist/Oncologist	Approval	70486 Computed tomography, maxillofacial area; without contrast material		"This request is for face, jaw, mandible CT.239.8"; "There is a history of serious facial bone or skull, trauma or injury.fct"; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	70486 Computed tomography, maxillofacial area; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		⁢ Enter answer here - or Type in Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		3. Re-staging CT's q 6 months. Last 1/5/18.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		Restaging with continued complaints of dizziness and headaches.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		RESTAGING; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	3
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		RE-STAGING; There are 5 or more exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	16
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	58
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	18
Hematologist/Oncologist	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		"This is a request for orbit,face, or neck soft tissue MRI.239.8"; The study is ordered for suspicion of neoplasm, tumor or metastasis	3
Hematologist/Oncologist	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		RESTAGING; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		Squamous cell carcinoma of left true vocal cord (glottic larynx), T1; "This is a request for orbit,face, or neck soft tissue MRI.239.8"; The reason for the study is not for trauma, infection,cancer, mass, tumor, pre or post-operative evaluation	1
Hematologist/Oncologist	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	2
Hematologist/Oncologist	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		There is not a suspicion of an infection or abscess.; This examination is being requested to evaluate lymphadenopathy or mass.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1
Hematologist/Oncologist	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		This is a request for a Face MRI.; There is a history of orbit or face trauma or injury.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		⁢ Enter answer here - or Type in Unknown If No Info Given. >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	5
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1

Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	3
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; It is not known if a biopsy has been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has vertigo.; It is unknown why this study is being ordered.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		CONFUSION FOR 6 WEEKS PROGRESSIVELY WORSENING FOR 2 WEEKS  BLURRY VISION FOR 1 MONTH; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; It is unknown why this study is being ordered.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		CT scan chest, abdomen, pelvis and bone scan and MRI brain for restaging and response to therapy; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		He completed 4 cycles of cisplatin and etoposide and concurrent radiation on 9/1/2018.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		history of cancer, restaging, ongoing chemotherapy; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Malignant neoplasm of upper lobe, right bronchus or lung; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		RESPONSE TO TREATMENT; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		RESTAGING; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	3
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		RE-STAGING; There are 5 or more exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Return for Imaging: CT CAP, BS and MRI brain to evaluate response to therapy; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Return for imaging: MRI brain and CT chest, abdomen, pelvis and bone scan next available to evaluate headaches, malaise and restaging.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	22

General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; A urinalysis has not been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	31
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Return for imaging:Schedule MRI Brain, CT chest, abdomen and pelvis and bone scan @ Saline for initial staging of disease; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; The patient has fatigue or malaise; It is unknown why this study is being ordered.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	16
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	12
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	6
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	5
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient does not have dizziness, one sided arm or leg weakness, the inability to speak, or vision changes.; The patient has known cancer.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	2
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient is experiencing fatigue or malaise.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has been a previous Brain MRI completed.; The brain MRI was abnormal.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		unknown; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type in Unknown If No Info Given. >; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	9
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		. Schedule re-staging scans q 6 months. Last CCC 12/11/17.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		2. Schedule re-staging PET/CT as indicated. Last on 1/23/18.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		3. Schedule re- staging CT's and BS q 6 months. Last 1/8/19.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		3. Schedule re-staging CTs for in 4 weeks on 6/19/18. Last 4/6/18.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		8. Follow up CTs at BMC as indicated to evaluate for recurrent disease. Last MRI abdomen 2/18; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	21
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal laboratory test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1

Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		CA 19-9 has risen. Needs repeat CT HCAP this week prior to visit on Monday 7/16. Tell our radiologists scans need to be compared to BMC films (CT with contrast and MRI) 5/2018.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; An abnormal finding on physical examination led to the suspicion of infection.; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema); Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		COLON CANCER; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		CT chest abdomen pelvis and if there is some suggestion of locally advanced disease then I would revisit this and possibly give her dose dense AC followed by Taxol.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		CT scans neck, chest, abdomen, pelvis for re-staging CLL prior to return visit.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		desmold fibromatosis.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		endometrial cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		evaluate for progression of metastatic melanoma; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		EVALUATION; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		He will have a CT C/A/P and bone scan prior to his next exam to evaluate treatment response of his RCC.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		INITIAL STAGE BREAST CANCER; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		INITIAL STAGING; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		leukemia; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; It is unknown if there has been a physical exam.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is organ enlargement.; There is not ultrasound or plain film evidence of an abdominal organ enlargement.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	5
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	24
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		liposarcoma; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Malignant melanoma of right upper limb, including shoulder; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Malignant neoplasm of lower lobe, right bronchus or lung; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Malignant neoplasm of upper lobe, right bronchus or lung; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		melanoma; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Multiple nodules of lung; "There is evidence of a lung, mediastinal or chest mass noted within the last 30 days.;" They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		na; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		newly diagnosed breast cancer, scans for initial staging workup.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Abnormal mass in the chest, chest wall, or lung is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is being requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Finding of cancer elsewhere is related to the suspicion of cancer in this patient.; This is a request for a Chest CT.; This study is being requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	2

Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Initial staging prior to treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is being requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	3
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Known tumor and new symptoms involving the chest, chest wall, lung or pelvis is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is being requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	12
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound results are unknown.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	4
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; It is unknown if a contrast/barium x-ray has been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	10
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	24
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Restaging during ongoing treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is being requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	12
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Other nonspecific abnormal finding of lung field; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is between 55 and 80 years old.; This patient is NOT a smoker nor do they have a history of smoking.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Patient has oral chemo restaging.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Personal history of malignant neoplasm of oth prt uterus.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Pt has colon cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Pt suffers with colon and prostate cancer restaging after therapy.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		pt with B Cell Lymphoma. Has received chemotherapy. Restaging cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		pt with known history of breast cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		restage testicular cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		restaging and response to therapy.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Re-staging CT's and BS at BMC q 6 months. Last BMC on 1/19/18.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		restaging post chemotherapy. Previous scan showed: Few reactive lymph nodes are seen in bilateral axillae.; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		RESTAGING SCANS.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		RESTAGING SCANS.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	3
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	5
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	2
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	8
General/Family Practice	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	work up for severe Hypertension; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not known if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1

General/Family Practice	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/8/2018; There has not been any treatment or conservative therapy.; liver lesion, lower abdominal pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has not had an abdominal ultrasound, CT, or MR study."; < Enter answer here - or Type In Unknown If No Info Given. >	2
General/Family Practice	Disapproval	75571 Computed tomography, heart, without contrast material, with quantitative evaluation of coronary calcium	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a CT scan for evaluation of coronary calcification.	2
General/Family Practice	Disapproval	75571 Computed tomography, heart, without contrast material, with quantitative evaluation of coronary calcium	Radiology Services Denied Not Medically Necessary	Cardiac Chest pain and Hypokalemia; This is a request for a CT scan for evaluation of coronary calcification.	1
General/Family Practice	Disapproval	75571 Computed tomography, heart, without contrast material, with quantitative evaluation of coronary calcium	Radiology Services Denied Not Medically Necessary	Essential hypertension abnormal lab  Chol too high for diabetic check for plaque buildup  long-term current use of insulin; This is a request for a CT scan for evaluation of coronary calcification.	1
General/Family Practice	Disapproval	76380 Computed tomography, limited or localized follow-up study	Radiology Services Denied Not Medically Necessary	Left lower quadrant pain on going for 1 month. US abdomen came back with diagnosis of Hepatic steatosis. The pain was intermittent and occurred mostly with walking. The pain has progressed to the point now it occurs more frequently, is somewhat more inte; Limited or Follow up other than Sinus CT; Pelvis	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The patient has 3 or more cardiac risk factors; The study is requested for congestive heart failure.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is less than 20	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	; The study is being ordered for suspected CAD.; The patient is not presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had a recent non-nuclear stress test.; The patient had a recent abnormal EKG consistent with CAD.; The patient has not had a recent stress echocardiogram.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The patient is male.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.; This study is being ordered for None of the above; The patient has not had a stress echocardiogram within the past eight weeks.	2

General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 8/1/18 when chest pain started, swelling 8/7/18; It is not known if there has been any treatment or conservative therapy.; ecg: left atrial abnormality, having chest pain that radiates to the jaw, having swelling in lower extremities, hx of cad, stent x1, copd, htn, hyperlipidemia; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Chest pain and palpitations, shortness of breath; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study);. This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	chest pain radiating to jaw and neck, occurs at rest. EKG was abnormal showing. Has a strong family history of heart disease.; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study);. This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	CHEST PAIN; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study);. The patient has 3 or more cardiac risk factors; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 30 to 39	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	chest pains are getting worse; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study);. The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	ER visit from 7-3. pt was seen at NW-b and treated for chest pain...PT IS DIABETIC. HYPERTENSION HX ASTHMA,Sarcoidosis, pulmonary.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study);. The patient has 3 or more cardiac risk factors; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 30 to 39	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	left sided sharp chest pain, family history of CAD, Current smoker; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study);. This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	pain that radiates into the left arm and extreme dizziness, EKG was abnormal; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study);. The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Patient has Cigarette dependence; History of hepatitis C; Gastroesophageal reflux disease with esophagitis; Dyslipidemia; Chronic right shoulder pain; Chronic right-sided low back pain with right-sided sciatica; Barrett's esophagus without dysplasia; Snor; The study is being ordered for suspected CAD.; The patient is not presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had a recent non-nuclear stress test.; The patient has not had a recent abnormal EKG consistent with CAD.; The patient has not had a recent stress echocardiogram.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study);. This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Patient is having chest pain that eases with medication.; It is not known if the patient has had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study);. This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Patient presents for ER follow up after a syncopal episode on 7/19. He was evaluated in the ER that day. He was found to have orthostasis at the ER. I have reviewed their records. He was given a liter or fluids and has felt fine since that time. He has no; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Pt has complaints of chest pain with normal ekg in office. history of hypertensive disorder, hyperlipidemia and obesity. Family history of heart problems.; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient is less than 45 years old.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Tachycardia Abnormal EKG; Essential hypertension; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The patient has 3 or more cardiac risk factors; The study is requested for congestive heart failure.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 30 to 39	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		RESTAGING.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Return for imaging: CT CAP, BS and MRI brain to evaluate response to therapy; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Return for imaging:Schedule MRI Brain, CT chest, abdomen and pelvis and bone scan @ Saline for initial staging of disease; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Schedule CT CAP and bone scan @ Bradley County Medical Center for restaging of disease; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Schedule re-staging scans yearly. Last 6/2017.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		She will have an MRI brain and CT C/A/P prior to her next exam to continue to monitor her lung cancer with brain metastasis.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		SOLITARY PULMONARY NODULE; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		STAGING MELANOMA; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	140
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		There is radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		unknown; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		will fax in clinicals; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		worsening adenopathy.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	7
Hematologist/Oncologist	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	10
Hematologist/Oncologist	Approval	72125 Computed tomography, cervical spine; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	72131 Computed tomography, lumbar spine; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is not experiencing symptoms of radiculopathy for six weeks or more.; There is no neurologic symptoms of bowel or urinary bladder dysfunction.; There is no suspicion of lumbar spine infection.; There is suspicion of lumbar spine neoplasm, tumor or metastasis.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		⁢ Enter answer here - or Type in Unknown If No Info Given. >; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		RESTAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		There are no documented clinical findings of immune system suppression.; This is a request for a thoracic spine MRI.; The patient is not experiencing back pain associated with abdominal pain.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis. Follow up to or Pre-operative evaluation, or Neurological deficits.; ⁢Enter Additional Clinical Information>	1

Hematologist/Oncologist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does not have any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.	2
Hematologist/Oncologist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	6
Hematologist/Oncologist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	25
Hematologist/Oncologist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; There is evidence of tumor or metastasis on a bone scan or x-ray.; Suspected Tumor with or without Metastasis	1
Hematologist/Oncologist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; There is evidence of tumor or metastasis on a bone scan or x-ray.; The study is being ordered due to suspected tumor with or without metastasis.	1
Hematologist/Oncologist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material			1
Hematologist/Oncologist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Hematologist/Oncologist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Brain tumor; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Known or suspected tumor with or without metastasis	1
Hematologist/Oncologist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	1
Hematologist/Oncologist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	1
Hematologist/Oncologist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	1
Hematologist/Oncologist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient is presenting new symptoms.; This study is being ordered for follow-up.; Known Tumor with or without metastasis; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	1
Hematologist/Oncologist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; This study is being ordered for staging.; Known Tumor with or without metastasis; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; The member does not have known or suspected coronary artery disease	7
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The study is requested for congestive heart failure.; It is not known if the member has known or suspected coronary artery disease.	1
General/Family Practice	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The study is requested for evaluation of the heart prior to non cardiac surgery.	1
General/Family Practice	Disapproval	78813 Positron emission tomography (PET) imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
General/Family Practice	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; Medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

General/Family Practice	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; The patient does not have a history of a recent heart attack or hypertensive heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; The patient has high blood pressure	1
General/Family Practice	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; This request is for initial evaluation of a murmur.; It is unknown if the murmur is grade III (3) or greater.; It is unknown if there is clinical symptoms supporting a suspicion of structural heart disease.; This is NOT a request for follow up of a known murmur.	1
General/Family Practice	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; It is unknown if the patient has a history of a recent heart attack or hypertensive heart disease.	1
General/Family Practice	Disapproval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;	Radiology Services Denied Not Medically Necessary	; This is a request for a Stress Echocardiogram.; This patient has not had a Nuclear Cardiac study within the past 8 weeks.; This study is not being ordered for: CAD, post MI evaluation, or as a pre/post operative evaluation.	1
General/Family Practice	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	; This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; It is unknown if the patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.	3
General/Family Practice	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	LUNG CANCER SCREENING WITH THE LOW-DOSE CT. PT IS TRYING TO QUIT SMOKING AND WOULD LIKE TO THIS TEST; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
General/Family Practice	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	1
General/Family Practice	Disapproval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)	Radiology Services Denied Not Medically Necessary	&It; Enter answer here - or Type In Unknown If No Info Given. >; This is a request for MRCP.; There is no reason why the patient cannot have an ERCP.	1
General/Family Practice	Disapproval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)	Radiology Services Denied Not Medically Necessary	DR. MCDONALD IS REQUESTING MRCP FOR CHRONIC POSTPRANDIAL RUQ PAIN AND PT HAD ULTRASOUND IN MARCH SHOWING GALLSTONES; This is a request for MRCP.; There is no reason why the patient cannot have an ERCP.	1
Geriatrics	Approval	70450 Computed tomography, head or brain; without contrast material		; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient does not have dizziness, one sided arm or leg weakness, the inability to speak, or vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
Geriatrics	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; It is unknown if the patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
Geriatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing dizziness.	1
Hematologist/Oncologist	Approval	72192 Computed tomography, pelvis; without contrast material		; This study is being ordered for known tumor, cancer, mass, or rule-out metastasis.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This study is being ordered for initial staging.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	72192 Computed tomography, pelvis; without contrast material		INCREASE PAIN, HIP AND PELVIC PAIN, ELEVATED PSA  04/25/18 WAS 193 06-25-18 WAS 486 PAIN MED NOT HELPING.; The patient is not undergoing active treatment for cancer.; This study is being ordered for known tumor, cancer, mass, or rule-out metastasis.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This study is not being ordered for initial staging.; The patient is presenting new signs (e.g. lab findings or imaging) or symptoms.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)			1
Hematologist/Oncologist	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	12
Hematologist/Oncologist	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	18
Hematologist/Oncologist	Approval	73200 Computed tomography, upper extremity, without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	3
Hematologist/Oncologist	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is suspicion of upper extremity neoplasm or tumor or metastasis.	1
Hematologist/Oncologist	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	9
Hematologist/Oncologist	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	11

Hematologist/Oncologist	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		Right shoulder pain. We will make arrangements for ultrasound of right shoulder and MRI. Patient to make follow-up appointment with Dr. Mackey in 1 week.; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; There is not a suspicion of fracture not adequately determined by x-ray.; The request is for shoulder pain.; There is not a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Hematologist/Oncologist	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a Lower Extremity CT.; This is not a preoperative or recent postoperative evaluation.; There is suspicion of a lower extremity neoplasm, tumor or metastasis.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an oncologist or orthopedist.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; Known Tumor	1
Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Suspected meniscus, tendon, or ligament injury	1
Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Swelling greater than 3 days	1
Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		VILLONODULAR SYNOVITIS LEFT KNEE; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.; No, patient has not completed and failed a course of conservative treatment.	1
Hematologist/Oncologist	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	2
Hematologist/Oncologist	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; The member has failed a 4 week course of conservative management in the past 3 months.; The hip pain is chronic.; The request is for hip pain.	1
Hematologist/Oncologist	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip.;" There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Hematologist/Oncologist	Approval	74150 Computed tomography, abdomen; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Approval	74150 Computed tomography, abdomen; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Abdomen CT.; This study is being ordered for organ enlargement.; Which organ is enlarged? Spleen; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74150 Computed tomography, abdomen; without contrast material		PANCREATIC MASS WITH ABD PAIN AND 70 POUND WEIGHT LOSS.; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74150 Computed tomography, abdomen; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	7
Hematologist/Oncologist	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; This is not a request for initial staging of a known tumor other than prostate.; There are new signs or symptoms including hematuria, presenting with known cancer or tumor.; This patient does NOT have known prostate cancer with a PSA (prostate-specific antigen) greater than 10.; No, this is not a request for follow up to a known tumor or abdominal cancer.; No, there is a palpable or observed abdominal mass.; No,there is not an abdominal and pelvic or retroperitoneal mass that has been confirmed.; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is no suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; There are no new symptoms including hematuria.; There are new lab results or other imaging studies including ultrasound, Doppler or plain films findings.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	3
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		2. Re-staging CT C/A/P and BS in 6 months. Scan results same day.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		3. Re-staging scans and BD yearly next due 06/18. Last 6/2017.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		3. Re-staging scans yearly with BD. Last CARTI 6/17.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		7/26 RTC rescheduled to 8/2 . Pet was denied. CT ncap bone scan scheduled just prior to RTC Per Dr Harrington.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		accessing the Stability of sarcoidosis.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		BASELINE; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		COLON CANCER; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		CT scan chest, abdomen, pelvis for restaging and response to therapy; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		CT scan head, chest, abdomen, pelvis and bone scan for restaging at CCC; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		CT scans neck, chest, abdomen, pelvis for re-staging CLL prior to return visit.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		desmoid fibromatosis.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		evaluate for progression of metastatic melanoma; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Has been going on for over a year, is having severe pain; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		INITIAL STAGE BREAST CANCER; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		INITIAL STAGING; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		leukemia; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		liposarcoma; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Lung ca; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Geriatrics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.	1
Geriatrics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	1
Geriatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		critical value K 2.8  Presents to clinic with complaints of epigastric pain, diarrhea, constipation, yellow stools, eye swelling and leg cramps; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Geriatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is follow up trauma.; There is laboratory or physical evidence of an intra-abdominal bleed.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Geriatrics	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 2 months ago; There has not been any treatment or conservative therapy.; memory issues, neck and head pain, sharp pain last for a minute; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Geriatrics	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 2 months ago; There has not been any treatment or conservative therapy.; memory issues, neck and head pain, sharp pain last for a minute; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Gynecologic Oncology	Approval	70450 Computed tomography, head or brain; without contrast material			1
Gynecologic Oncology	Approval	70490 Computed tomography, soft tissue neck, without contrast material			1
Gynecologic Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem), without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Gynecologic Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem), without contrast material		; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Gynecologic Oncology	Approval	71250 Computed tomography, thorax, without contrast material		Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Gynecologic Oncology	Approval	72125 Computed tomography, cervical spine; without contrast material			1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Malignant melanoma of right upper limb, including shoulder; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Malignant neoplasm of lower lobe, right bronchus or lung; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Malignant neoplasm of upper lobe, right bronchus or lung; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	melanoma; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	newly diagnosed breast cancer, scans for initial staging workup.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Patient has oral chemo restaging.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Personal history of malignant neoplasm of oth prt uterus.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	pt with B Cell Lymphoma. Has received chemotherapy. Restaging cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	pt with known history of breast cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	RESTAGE BLADDER CANCER AFTER COMPLETION OF A CHEMOTHERAPY CYCLE TO DETERMINE NEED FOR FURTHER TREATMENT.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	restage testicular cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	restaging and response to therapy; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	RESTAGING BREAST CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Restaging CT chest, abdomen, and pelvis for non-small cell lung cancer to see if current treatment is effective or needs to be changed.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Restaging CT scan for lung cancer to determine if current treatment should be continued or changed.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Restaging CT scan for patient's colon cancer. To determine the status of patient's cancer and if current treatment is adequate or needs to be changed.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Restaging CT scan to determine if current treatment is adequate, or if it needs to be changed in order to properly treat patient's colon cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Restaging of Pancreas CA; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Restaging scan for patient with non-Hodgkin's lymphoma who is experiencing some swelling in right thigh region.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	RESTAGING SCANS; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	RESTAGING.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	RE-STAGING; There are 5 or more exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Return for imaging: MRI brain and CT chest, abdomen, pelvis and bone scan next available to evaluate headaches, malaise and restaging.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Schedule re-staging scans yearly. Last 6/2017.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	she had an MRI of the abdomen performed on 6/18/18 Mercy Hospital demonstrated any evidence of a centrally enhancing mass with washout in segment 4A of the liver thought to represent a hepatic adenoma. An aggressive liver lesion was not excluded. Short.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	She will have a CT C/A/P prior to her next exam to evaluate treatment response for pancreatic cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	STAGING MELANOMA; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Gynecologic Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	endocervix, biopsy at 5'clock position: Invasive squamous cell carcinoma, moderately well differentiated. the invasive squamous cell carcinoma invades through the full thickness of the biopsy(depth of invasion at least 4mm); One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Gynecologic Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material				4
Gynecologic Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material			; This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; It is not known if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Gynecologic Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material			This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is being ordered for staging.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is female.; Yes this is a request for a Diagnostic CT	1
Gynecologic Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material			This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Gynecologic Oncology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral			; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Gynecologic Oncology	Approval	78813 Positron emission tomography (PET) imaging; whole body			endocervix, biopsy at 5'clock position: Invasive squamous cell carcinoma, moderately well differentiated. the invasive squamous cell carcinoma invades through the full thickness of the biopsy(depth of invasion at least 4mm); One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Gynecologic Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body			This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Gynecologic Oncology	Disapproval	78813 Positron emission tomography (PET) imaging; whole body	Radiology Services Denied Not Medically Necessary		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material			. Schedule re-staging scans q 6 months. Last CCC 12/11/17.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material			; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material			2. Schedule re-staging PET/CT as indicated. Last on 1/23/18.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material			3. Re-staging scans yearly with BD. Last CARTI 6/17.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material			3. Schedule re- staging CT's and BS q 6 months. Last 1/8/19.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material			CA 19-9 has risen. Needs repeat CT HCAP this week prior to visit on Monday 7/16. Tell our radiologists scans need to be compared to BMC films (CT with contrast and MRI) 5/2018.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material			Pt suffers with colon and prostate cancer restaging after therapy; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material			RESTAGING   Malignant neoplasm of upper-outer quadrant of right female breast; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material			RESTAGING SCANS DURING ONGOING TREATMENT TO ACCESS RESPONSE TO TREATMENT; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material			RESTAGING; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	16
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material			STAGING MELANOMA; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material			There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	46
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material			This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material			This is a request for a brain/head CT.; Post-operative evaluation best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material			This is a request for a brain/head CT.; The patient has a suspected brain tumor.; Known or suspected tumor best describes the reason that I have requested this test.; There are NO documented neurologic findings suggesting a primary brain tumor.	1
Hematologist/Oncologist	Approval	70450 Computed tomography, head or brain; without contrast material			This is a request for a brain/head CT.; The patient has a suspected tumor outside the brain.; Known or suspected tumor best describes the reason that I have requested this test.	1
Hematologist/Oncologist	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material			There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70486 Computed tomography, maxillofacial area, without contrast material			This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is immunocompromised.; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Approval	70486 Computed tomography, maxillofacial area, without contrast material			This is a request for a Sinus CT.; This study is not being ordered for trauma, tumor, sinusitis, osteomyelitis, pre operative or a post operative evaluation.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material				1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material			&t; Enter answer here - or Type in Unknown if No Info Given. &t; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material			7/26 RTC rescheduled to 8/2 . Pet was denied. CT ncap bone scan scheduled just prior to RTC Per Dr Harrington.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		BASELINE; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		CT N/C (to continue to monitor him secondary to his history of head and neck cancer), and exam.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		CT scans neck, chest, abdomen, pelvis for re-staging CLL prior to return visit.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		pt with B Cell Lymphoma. Has received chemotherapy. Restaging cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		RESPONSE TO THERAPY; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		Restaging CT for cutaneous melanoma.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		Return for imaging: CT n/c w/ contrast at CCC; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		Return for Imaging: Schedule CT N, CAP at CARTI for restaging this month; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; The study is being ordered for Follow Up.; The patient has a known tumor or metastasis in the neck.; The patient completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; The study is being ordered for Follow Up.; The patient has a known tumor or metastasis in the neck.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; There are new or changig symptoms in the neck.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; The study is being ordered for Follow Up.; The patient has a known tumor or metastasis in the neck.; They have not had a previous Neck CT in the last 10 months.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; There are NO new or changing symptoms in the neck.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; The study is being ordered for recent trauma or other injury.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	9
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material			1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient does not have a sudden severe, chronic or recurring or a thunderclap headache.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The results of the lab tests are unknown.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		A comprehensive 14 system review was negative except for: Hematologic/lymphatic: positive for diffuse lymphadenopathy; pain in left mandible.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; It is not known if a biopsy has been completed to determine tumor tissue type.; It is not known if there are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; It is not known if there is a new and sudden onset of headache (less than 1 week) not improved by pain medications.; It is not known if the tumor is a pituitary tumor or pituitary adenoma.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Brain tumor; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		going to be starting chemo therapy, staging; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Lung ca; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Malignant neoplasm of lower lobe, right bronchus or lung; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		melanoma; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		MRI Brain to evaluate left temporal headaches - STAT.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; It is unknown if there recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is a new and sudden onset of a headache less than 1 week not improved by medications.; It is not known if the headache is described as a "thunderclap" or the worst headache of the patient's life.	1

Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patient called the office complaining of severe ongoing headaches.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Primary R91.8 Other nonspecific abnormal finding of lung field; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The headache is not described as a "thunderclap" or the worst headache of the patient's life.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is a new and sudden onset of headache (less than 1 week) not improved by pain medications.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		RESTAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		RE-STAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		She will have an MRI brain and CT C/A/P prior to her next exam to continue to monitor her lung cancer with brain metastasis.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	4
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing dizziness.	2
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	52
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.	2
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for a tumor.	11
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		unk; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; It is not known if a biopsy has been completed to determine tumor tissue type.; It is not known if there are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; It is not known if there is a new and sudden onset of headache (less than 1 week) not improved by pain medications.; It is not known if the tumor is a pituitary tumor or pituitary adenoma.	1
Hematologist/Oncologist	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		UNKNOWN; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; It is not known if a biopsy has been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		"There is evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They did not have a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	3
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	3
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	5
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		2. Re-staging CT C/A/P and BS in 6 months. Scan results same day.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		3. Re-staging CT's q 6 months. Last 1/5/18.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		3. Re-staging scans and BD yearly next due 06/18. Last 6/2017.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		3. Re-staging scans yearly with BD. Last CARTI 6/17.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		5. Schedule re-staging scans week of 7/9/18 then q 3 months. Last 4/13/18 at CCC. Had MRI CCC 6/12/18.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		7/26 RTC rescheduled to 8/2 . Pet was denied. CT ncap bone scan scheduled just prior to RTC Per Dr Harrington.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		A Chest/Thorax CT is being ordered.; This study is being ordered for known tumor.; Yes this is a request for a Diagnostic CT	25
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	24

Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		accessing the Stability of sarcoidosis.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Assess for progression of disease, colon cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; Initial staging prior to treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is being requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; The patient had an abnormal imaging (xray) finding related to the suspicion of cancer in th is patient.; This is a request for a Chest CT.; This study is being requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		COLON CANCER.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Coughing up blood (hemoptysis) describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		CT C/A/P prior to his next exam to evaluate his RCC.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		CT N/C (to continue to monitor him secondary to his history of head and neck cancer), and exam.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		CT scan chest, abdomen, pelvis and bone scan and MRI brain for restaging and response to therapy; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		CT scan chest, abdomen, pelvis for restaging and response to therapy; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		CT scan head, chest, abdomen, pelvis and bone scan for restaging at CCC; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Current smoker, cessation strongly encouraged again 7/30/18. Will obtain non-contrast CT Chest 7/2018 given unintentional weight loss, cough and smoker.; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; It is unknown if the patient had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Follow to chemotherapy, check response.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Left chest wall discomfort, some phlegm, left shoulder discomfort, fatigue; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Lung ca; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Malignant neoplasm of lower lobe, right bronchus or lung; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Metastasis Melanoma. 7/7/18 CT. Restaging; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		neuroendocrine tumor.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Surveillance of a known cancer following treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is being requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	10
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; The patient had an abnormal imaging (xray) finding related to the suspicion of cancer in th is patient.; This is a request for a Chest CT.; This study is being requested for suspected cancer or tumor; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This reason this study is being requested is unknown.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	3
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This study is being requested for a congenital abnormality; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This study is being requested for 'none of the above'; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This study is being requested for suspicion of pulmonary embolism (PE); This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		PAIN; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Patient newly diagnosed with colon cancer. Chest CT for initial staging for metastasis and/or secondary cancer.; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		pet scan done 5/9/2018; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Post-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	5
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Pre-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Pt has rising tumor markers; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		RESPONSE TO THERAPY; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		RESPONSE TO TREATMENT; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		RESTAGE BLADDER CANCER AFTER COMPLETION OF A CHEMOTHERAPY CYCLE TO DETERMINE NEED FOR FURTHER TREATMENT.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		RESTAGING BREAST CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDS specialty is Hematologist/Oncologist	1

Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Restaging CT chest, abdomen, and pelvis for non-small cell lung cancer to see if current treatment is effective or needs to be changed.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Restaging CT scan for lung cancer to determine if current treatment should be continued or changed.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Restaging CT scan for patient's colon cancer. To determine the status of patient's cancer and if current treatment is adequate or needs to be changed.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Restaging CT scan to determine if current treatment is adequate, or if it needs to be changed in order to properly treat patient's colon cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		restaging for metastatic staging; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Restaging of Pancreas CA; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Restaging scan for patient with non-Hodgkin's lymphoma who is experiencing some swelling in right thigh region.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		RESTAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		RE-STAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Restaging with continued complaints of dizziness and headaches.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		RESTAGING; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	33
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		RE-STAGING; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	2
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		RE-STAGING; There are 5 or more exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Return for imaging: CT n/c w/ contrast at CCC; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Return for imaging: MRI brain and CT chest, abdomen, pelvis and bone scan next available to evaluate headaches, malaise and restaging.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Return for imaging: Schedule CT N, CAP at CARTI for restaging this month; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		staging, ovarian; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Surveillance of rectal cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	362
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is being ordered for staging.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is female.; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	28
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not known if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	5
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is organ enlargement.; There is ultrasound or plain film evidence of an abdominal organ enlargement.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	3
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed more than 10 months ago.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; It is unknown if the patient had an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	3
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	3

Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; It is unknown if a contrast/barium x-ray has been completed.; The patient had an endoscopy.; The endoscopy was abnormal.; The patient is 50 years or older.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	4
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		unknown; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		We will recheck CT scans of the chest, abdomen, and pelvis prior to this exam to continue to monitor the status of her disease and response to treatment.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		will fax in clinically; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		metastatic adenocarcinoma of the colon: stage iv sigmoid colon resected with disease known in the liver. he is 10 yrs out from original surgery and dx. pt due for his 3month follow up scan.; This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is NOT presenting new signs or symptoms.; The patient did NOT have chemotherapy, radiation therapy or surgery in the last 3 months.; They had an Abdomen MRI in the last 10 months.	1
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		Splenomegaly, H/o portal vein thrombosis. worsening abdomen pain; This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.	1
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	4
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for known or suspected vascular disease.; The ordering physician is not a surgeon.; It is not known if there are plain film or ultrasound evidence of vascular abnormality.; The patient is hypertensive and unresponsive to drug therapy.; EVALUATE PORTAL VEIN THROMBOSIS	1
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; It is not known if the patient is presenting new symptoms.; The patient has had 3 or fewer follow-up abdomen MRIs.; This study is being ordered for follow-up.; It is not known if the patient is undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon.;" EVALUATION	1
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon.;" Patient has colon cancer metastatic to liver and has been receiving oral Xeloda. Needs follow up MRI for liver metastasis.	1
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;"	2
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" We arranged for a CT PET scan which was performed on June 29, 2018. There was no obvious evidence of distant metastatic disease. There is left sphenoid sinusitis, there is a mild thickened nodular appearance of left adrenal gland, not grossly masslike,	1
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; Ms. Morgan is a very pleasant 59 year old female who presents to the clinic today for continued evaluation and management of her retroperitoneal fibrosis	1
Hematologist/Oncologist	Approval	75557 Cardiac magnetic resonance imaging for morphology and function without contrast material;		This is a request for a heart or cardiac MRI	2
Hematologist/Oncologist	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
Hematologist/Oncologist	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered as a screening examination following genetic testing for breast cancer.; The patient has a lifetime risk score of greater than 20.	5
Hematologist/Oncologist	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There is a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	2
Hematologist/Oncologist	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; Yes, this is a confirmed breast cancer.; Yes, the results of this MRI (size and shape of tumor) affect the patient's further management.	7
Hematologist/Oncologist	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; Yes, this is an individual who has known breast cancer in the contralateral (other) breast.	7
Hematologist/Oncologist	Approval	77078 Computed tomography, bone mineral density study, 1 or more sites, axial skeleton (eg, hips, pelvis, spine)		This is a request for a Bone Density Study.; This patient has not had a bone mineral density study within the past 23 months.; This is a bone density study in a patient with clinical risk of osteoporosis or osteopenia.	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	3

Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	3
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is a change in cardiac signs or symptoms (shortness of breath, etc.);"; The last MUGA scan was performed more than 3 months ago.;	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is a change in cardiac signs or symptoms (shortness of breath, etc.);"; The patient has not had a previous MUGA scan.; pt with multiple myeloma, s/p high dose chemo with stem cell collection. needs muga prior to stem cell transplant	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is not a change in cardiac signs or symptoms (shortness of breath, etc.);"; The patient will be undergoing more chemotherapy.; The last MUGA scan was performed more than 3 months ago.;	10
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is not a change in cardiac signs or symptoms (shortness of breath, etc.);"; The patient will be undergoing more chemotherapy.; The last MUGA scan was performed more than 3 months ago.; This patient presented with palpating a lesion near one of the leads of a Holter monitor which was placed on her chest. This lead to a mammogram and an ultrasound. She had an ultrasound-guided biopsy of a right retroareolar breast nodule which identify	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is not a change in cardiac signs or symptoms (shortness of breath, etc.);"; The patient will be undergoing more chemotherapy.; The patient has not had a previous MUGA scan.;	2
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; The last MUGA scan was performed within the last 3 months.;	2
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; The last MUGA scan was performed within the last 3 months.; She is currently on Herceptin and Perjeta every 3 weeks.	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has not been initiated or completed.; Chemotherapy is planned.; chemo starts 7/12/2018	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Suspected Cardiomyopathy/ Myocarditis.; The patient has not recently been diagnosed with and/or treated for congestive heart failure.; The patient is presenting new cardiac signs or symptoms.; The patient has not had a recent MI.; There are no documented clinical findings consistent with a valve disease.; There are no documented clinical findings consistent with hypertension.; There are no documented clinical findings consistent with a cardiac congenital abnormality.; She had a MUGA SCAN, 3-16-2018, ejection fraction of 82 %	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		history of cancer, restaging, ongoing chemotherapy; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	2
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; 2 PET Scans have already been performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Lymphoma or Myeloma; This Pet Scan is being requested for Subsequent Treatment Strategy (Restaging and Monitoring response to treatment); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being requested for Lung Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being requested for Melanoma.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Colo-rectal Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a more than 1 of the following; diagnostic test, imaging sstudy, or biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Colo-rectal Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a more than 1 of the following; diagnostic test, imaging study, or biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Lymphoma or Myeloma.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; This is for evaluation of axillary lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; This is NOT for an evaluation of axillary lymph nodes.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lung Cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Soft Tissue Sarcoma, Pancreatic or Testicular Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient is experiencing new signs or symptoms indicating a recurrence of cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	6
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The patient is experiencing new signs, symptoms indicating a recurrence of cancer or a rising CEA.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; The patient does NOT have Thyroid or Brain cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient is experiencing new signs or symptoms indicating a recurrence of cancer.; The patient does NOT have Thyroid or Brain cancer.; 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; The patient does NOT have Thyroid or Brain cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient is experiencing new signs or symptoms indicating a recurrence of cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material	Return to imaging: CT C/A/P w contrast at CCC prior to next appointment; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material	RISE IN CEA; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material	Schedule restaging scans q 6 months. Last 2/23/18; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material	Secondary malignant neoplasm of liver and intrahepatic bile duct Secondary malignant neoplasm of unspecified lung; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material	she had an MRI of the abdomen performed on 6/18/18 Mercy Hospital demonstrated any evidence of a centrally enhancing mass with washout in segment 4A of the liver thought to represent a hepatic adenoma. An aggressive liver lesion was not excluded. Short; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material	She will have a CT C/A/P prior to her next exam to evaluate treatment response for pancreatic cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		staging, ovarian; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		Surveillance of rectal cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	393
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		They are anticipating she start Remicade soon. Since she is having increased abdominal pain, and her last scan was in December. She will have a CT C/A/P soon for further evaluation.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71250 Computed tomography, thorax; without contrast material		We will recheck CT scans of the chest, abdomen, and pelvis prior to this exam to continue to monitor the status of her disease and response to treatment.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		; It is not known whether this study is requested to evaluate suspected pulmonary embolus.; This study is being ordered for another reason besides Known or Suspected Congenital Abnormality, Known or suspected Vascular Disease.; Yes, this is a request for a Chest CT Angiography.	1
Hematologist/Oncologist	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Ovarian or Esophageal Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		& Enter answer here - or Type In Unknown If No Info Given. &; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		going to be starting chemo therapy, staging; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		Lung ca; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		Malignant neoplasm of lower third of esophagus   Encounter for screening for malignant neoplasm of prostate; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		Mr. Williams has a history of metastatic prostate cancer to bone diagnosed 10/07/2014. He was started on someta and lupron which he got once, according to patient and due to financial reasons he could not afford to take Lupron. PSA on 3/15/2017 was 2974 c; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		RE-STAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		RE-STAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	3
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		RE-STAGING; There are 5 or more exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being requested for Colo-rectal Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being requested for Lung Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being requested for Lymphoma or Myeloma.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Colo-rectal Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Lymphoma or Myeloma.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Ovarian or Esophageal Cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a diagnostic/lab test.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Colo-rectal Cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a more than 1 of the following; diagnostic test, imaging sstudy, or biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Lymphoma or Myeloma.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a more than 1 of the following; diagnostic test, imaging sstudy, or biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Lymphoma or Myeloma.; More than 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on an imaging study.; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on an imaging study.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Soft Tissue Sarcoma, Pancreatic or Testicular Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for Breast Cancer; This request is for the initial diagnosis and/or initial staging of axillary lymph nodes; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Other, not listed above; This Pet Scan is being requested for None of the above; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This is a PET Scan with Dotatate (Gallium GA 68-Dotatate)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient is experiencing new signs or symptoms indicating a recurrence of cancer.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient is experiencing new signs or symptoms indicating a recurrence of cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient is experiencing new signs or symptoms indicating a recurrence of cancer.; More than 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient is experiencing new signs or symptoms indicating a recurrence of cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Ovarian or Esophageal Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Ovarian or Esophageal Cancer.; The patient is experiencing new signs or symptoms indicating a recurrence of cancer.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Ovarian or Esophageal Cancer.; The patient is experiencing new signs or symptoms indicating a recurrence of cancer.; 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Ovarian or Esophageal Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Head/Neck Cancer.; The patient has Brain cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Melanoma.; This is for evaluation of regional lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Melanoma.; This is NOT for evaluation of regional lymph nodes.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being requested for Head/Neck Cancer.; It is unknown if the patient has Thyroid or Brain cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This would be the first PET Scan performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Other, not listed above; This Pet Scan is being requested for Other solid tumor(s); This Pet Scan is being requested for Initial Treatment Strategy (Diagnosis and/or Staging); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; The reason for ordering this study is unknown.	1

Hematologist/Oncologist	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; The abnormal symptom, condition or evaluation is not known or unlisted above.	1
Hematologist/Oncologist	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of Pericardial Disease.; This is for the initial evaluation of a pericardial disease.	1
Hematologist/Oncologist	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient has a history of hypertensive heart disease.; There is a change in the patient's cardiac symptoms.	1
Hematologist/Oncologist	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Pulmonary Hypertension.	1
Hematologist/Oncologist	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient quit smoking less than 15 years ago.	2
Hematologist/Oncologist	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type in Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	3. Schedule re-staging CTs for in 4 weeks on 6/19/18. Last 4/6/18.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	RE-STAGING; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Hematologist/Oncologist	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a suspected brain tumor.; Known or suspected tumor best describes the reason that I have requested this test.; There are documented neurologic findings suggesting a primary brain tumor.; This is NOT a Medicare member.	1
Hematologist/Oncologist	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	abnormal lung screen; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	PT IS HAVING HOARSENESS AND INCREASED MUCUS PRODUCTION, WORRISOME FOR A POSSIBLE MALIGNANCY. PT DOES HAVE A LONG STANDING HISTORY OF SMOKING; This is a request for neck soft tissue CT.; The study is being ordered for something other than Trauma or other injury, Neck lump/mass, Known tumor or metastasis in the neck, suspicious infection/abscess or a pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	RE-STAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	3
Hematologist/Oncologist	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	RE-STAGING; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the Neck.	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type in Unknown If No Info Given. >; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	BASELINE; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; It is unknown if anything else was relevant in the diagnosis or suspicion of vascular disease; This is a request for a Chest CT.; This study is being requested for known or suspected blood vessel (vascular) disease; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Encntr for follow-up exam after trmt for malignant neoplasm; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	evaluate treatment response; colon cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Malignant neoplasm of lower third of esophagus   Encounter for screening for malignant neoplasm of prostate; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; Known tumor and new symptoms involving the chest, chest wall, lung or pelvis is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; Restaging during ongoing treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	3
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; Surveillance of a known cancer following treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	8
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	pancreatic mass with liver lesions.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Patient referred to us by Dr. Fakouri for dermatomyositis and to r/o malignancy/neoplasm. History of psoriasis and rash. He has tried ointments and creams with no relief. Will order CTs c/a/p prior to visit if approved by insurance to r/o underlying malig; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	RE-STAGING; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	RE-STAGING; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	She will have a CT C/A/P soon to evaluate her weight loss, DVT and rule out occult malignancy.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	6
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Unexplained weight loss describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1
Hematologist/Oncologist	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	evaluate treatment response; colon cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	INITIAL STAGING CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	new RUQ pain; breast cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient referred to us by Dr. Fakouri for dermatomyositis and to r/o malignancy/neoplasm. History of psoriasis and rash. He has tried ointments and creams with no relief. Will order CTs c/a/p prior to visit if approved by insurance to r/o underlying malignancy.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RE-STAGING SCANS DURING ONGOING TREATMENT TO ACCESS RESPONSE TO TREATMENT; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RE-STAGING.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RE-STAGING; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RE-STAGING; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	2
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	6
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	9
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed within the past 10 months.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is vascular disease.; There is not a known or suspicion of an abdominal aortic aneurysm.; There is not an abnormal abdominal/pelvic ultrasound.; It is not known if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is vascular disease.; There is not a known or suspicion of an abdominal aortic aneurysm.; There is not an abnormal abdominal/pelvic ultrasound.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	3

Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	78813 Positron emission tomography (PET) imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78813 Positron emission tomography (PET) imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient is experiencing new signs or symptoms indicating a recurrence of cancer.; 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	Enctnr for follow-up exam after trtmt for malignant neoplasm; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	RESTAGING BREAST CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	STAGING MELANOMA; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; It is unknown if this is for an evaluation of axillary lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Colo-rectal Cancer.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Melanoma.; This is for evaluation of regional lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Ovarian or Esophageal Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs, symptoms or a rising CEA.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Hematologist/Oncologist	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	Low dose lung screening for current smoker with 30 pack year history.; This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is 54 years old or younger.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; Patients who are NOT between the ages of 55 and 81 years of age do not meet the criteria for lung cancer screening.	1
Hospital	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type in Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
Industrial Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	1
Infectious Diseases	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a history of HIV or immunocompromised status.; Headache best describes the reason that I have requested this test.	1
Infectious Diseases	Approval	70486 Computed tomography, maxillofacial area; without contrast material		"This request is for face, jaw, mandible CT.239.8"; "There is a history of serious facial bone or skull, trauma or injury.fct"; Yes this is a request for a Diagnostic CT	1
Infectious Diseases	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Infectious Diseases	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a foot CT.; The patient has not used a cane or crutches for greater than four weeks.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Infectious Diseases	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	1
Infectious Diseases	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.	1
Infectious Diseases	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for known CAD.; The patient is presenting new symptoms of chest pain or increasing shortness of breath.; This patient had a previous cardiac surgery or angioplasty.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Infectious Diseases	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 7 months ago; There has been treatment or conservative therapy.; fever; antibiotics; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Infectious Diseases	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Post-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Infectious Diseases	Disapproval	73200 Computed tomography, upper extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is not suspicion of upper extremity bone or joint infection.; The ordering physician is not an orthopedist or rheumatologist.; Yes this is a request for a Diagnostic CT	1
Infectious Diseases	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Fever of unknown origin with shortness of breath, chest pain and nausea since May 2018 without any relief of conservative therapy.; This study is being ordered for Inflammatory/ Infectious Disease.; 5/10/2018; There has been treatment or conservative therapy.; Fever of unknown origin with shortness of breath, chest pain and nausea.; antibiotics times 3 courses, tylenol.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Infusion Therapy	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type in Unknown If No Info Given. >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient does not have a sudden severe, chronic or recurring or a thunderclap headache.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material			2
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		MEMORY ISSUES; HX OF CONFUSION; His family says has been an issue for months but markedly worse las few weeks. He also complains of dizzy when stands. He has fallen maybe 6 times without syncope. Hit head at least two times. His memory of recent and old ; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Known or suspected TIA (stroke) with documented new or changing neurologic signs and or symptoms best describes the reason that I have requested this test.; This is NOT a Medicare member.	9
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a chronic headache, longer than one month; Headache best describes the reason that I have requested this test.	2
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a new onset of a headache within the past month; Headache best describes the reason that I have requested this test.	2
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; There is headache not improved by pain medications.; "There are recent neurological symptoms or deficits such as one-sided weakness, vision defects, speech impairments or sudden onset of severe dizziness."; This study is being requested for a headache.	1

Internal Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material		"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is suspicion of neoplasm, tumor or metastasis.fct"; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is immune-compromised.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material		; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	3
Internal Medicine	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; The study is being ordered for recent trauma or other injury.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for a neurological disorder.; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for a neurological disorder.; 8/1/18; There has been treatment or conservative therapy.; speech difficulty, focal numbness and focal weakness. Associated symptoms: episode Lt facial droop, Lt arm and leg numbness and weakness on 11/5/17, lasted approx 2 hours. Recurrent episode 8/1/18.; Current treatment includes aspirin, antihypertensives and statins. Past evaluation has included carotid ultrasonography and head MRI; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the brain.	2
Internal Medicine	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for a neurological disorder.; 08/27/208; It is not known if there has been any treatment or conservative therapy.; Recurring episodes dizziness, usu not feeling like going to pass out, esp hits if looks upward, resolves quickly, some nausea.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the Neck.	2
Internal Medicine	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		"This is a request for orbit,face, or neck soft tissue MRI.239.8"; The study is ordered for trauma or injury of the orbit, face or neck soft tissue	1
Internal Medicine	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		This is a request for a sinus MRI; This study is not being ordered in conjunction with a head or brain CT or MRI.; "There is evidence of tumor from a physical exam, plain sinus film, or previous CT or MRI study."	1
Internal Medicine	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		This is a request for an Orbit MRI.; There is a history of orbit or face trauma or injury.	1
Internal Medicine	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; pulmonary AVM and liver AVM; It is not known if there has been any treatment or conservative therapy.; light headedness, slurred speech; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient has a known aneurysm.; This is a request for a Brain MRA.	1
Internal Medicine	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		The patient has not had a recent MRI or CT for these symptoms.; There has been a stroke or TIA within the past 2 weeks.; This is a request for a Neck MR Angiography.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem), without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem), without contrast material		; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	2
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem), without contrast material		family history o rRheumatoid arthritis; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem), without contrast material		Fatigue generalized H/A weakness; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1

Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		fell went to hospital found cellulitis on back ,acute encephalopathy,had surgery two days later for enision of cellitius; This study is being ordered for trauma or injury.; 05/05/2018; There has been treatment or conservative therapy.; weakness of lower extremity unsteady gait; treated for conservative therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		history of TIA to see if changed with recent event occasional imbalance, no strength/sensation changes; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are not recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		loss balance on both sides, nausea, head is heavy and could not walk straight; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient does not have a sudden severe, chronic or recurring or a thunderclap headache.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		most likely due to chemotherapy but she is having severe pain with history of stage 3 cancer therefore i will order MRI of the brain and cervical to rule out any spinal stenosis or malignancy; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Need the MRIs to evaluate for demyelinating processes.  Also, a pulmonary nodule was found on chest x-ray which needs further evaluation.; This study is being ordered for a neurological disorder.; Approximately July 2017; There has not been any treatment or conservative therapy.; Ms. Richards states that for about a month now the right side of her face has been drooping. This has been intermittent and mild. She denies issues chewing, swallowing, or closing her eye. It has seemed to improve over the last 2 weeks. She describes fe; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patien is having a decline in his cognitive, specifically language, grandfather has a history of brain tumors, ongoing for a few years.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patien with chronic migraine - throbbing pain, unilateral in the left frontal area. Associated symptoms: dizziness, facial pain, light sensitivity, nausea and stiff neck. Meds are not helping; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		pt has been having confusion; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Hematologist/Oncologist	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		This study is requested to evaluate suspected pulmonary embolus.; Yes, this is a request for a Chest CT Angiography.	24
Hematologist/Oncologist	Approval	72125 Computed tomography, cervical spine; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	2
Hematologist/Oncologist	Approval	72128 Computed tomography, thoracic spine; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	72128 Computed tomography, thoracic spine; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	72128 Computed tomography, thoracic spine; without contrast material		This study is being ordered for staging.; This is a request for a thoracic spine CT.; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.;" The study is being ordered due to known tumor with or without metastasis.; There is a reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	72131 Computed tomography, lumbar spine; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is experiencing symptoms of radiculopathy for six weeks or more.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	3
Hematologist/Oncologist	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical, without contrast material			1
Hematologist/Oncologist	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical, without contrast material		Brain tumor; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical, without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	5
Hematologist/Oncologist	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical, without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	25
Hematologist/Oncologist	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical, without contrast material		This study is being ordered for staging.; This is a request for cervical spine MRI.; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.;" Known Tumor with or without metastasis	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		pt has been having trouble with her speech. It seems that she cant find the right words to say. Now she says that she has started having tingling and pressure in her head; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1

Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Pt has visual field defect.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has vision changes.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This is a request for an Internal Auditory Canal MRI; There is not a suspected Acoustic Neuroma or tumor of the inner or middle ear.; There is not a suspected cholesteatoma of the ear.; The patient has not had a recent brain CT or MRI within the last 90 days.; There are neurologic symptoms or deficits such as one-sided weakness, speech impairments, vision defects or sudden onset of severe dizziness.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing dizziness.	2
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	5
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	30
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	11
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has one sided arm or leg weakness.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	2
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient is experiencing fatigue or malaise.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing vertigo	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	2
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient is experiencing dizziness.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested due to trauma or injury.; There are new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	6
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has not been a previous Brain MRI completed.	2
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; There has been a recent assessment of the patient's visual acuity.; This study is being ordered for stroke or TIA (transient ischemic attack).	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for seizures.; There has been a change in seizure pattern or a new seizure.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Unknown; This study is being ordered for a neurological disorder.; April 1, 2018; There has been treatment or conservative therapy.; Patient's primary symptoms are bi-lateral leg pain and leg weakness; and cannot walk for long distances; hip pain radiating down into muscles in legs; significant leg pain; bi-lateral feet pain; neuropathy flaring; severe toe and foot pain...Periora numb; Patient has been given pain medication such as Lyrica; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		"The ordering physician IS a surgeon, pulmonologist or PCP ordering on behalf of a specialist who has seen the patient.;" A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		"There is evidence of a lung, mediastinal or chest mass noted within the last 30 days.;" They did not have a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	3
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		&t; Enter answer here - or Type in Unknown If No Info Given. &t; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		A Chest/Thorax CT is being ordered.; This study is being ordered for suspected pulmonary Embolus.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	13
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	30
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Abnormal laboratory test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request; 'None of the above' were related to the suspicion of cancer in this patient.; This is a request for a Chest CT.; This study is being requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; This study is being requested for suspicion of pulmonary embolism (PE); This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Coughing up blood (hemoptysis) describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	4
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Member diagnosed with colo rectal cancer in 5/2013. Member to be followed with CT of chest , abdomen and pelvis as Standard of Care per NCCN guidelines; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Need the MRIs to evaluate for demyelinating processes.  Also, a pulmonary nodule was found on chest x-ray which needs further evaluation.; This study is being ordered for a neurological disorder.; Approximately July 2017; There has not been any treatment or conservative therapy.; Ms. Richards states that for about a month now the right side of her face has been drooping. This has been intermittent and mild. She denies issues chewing, swallowing, or closing her eye. It has seemed to improve over the last 2 weeks. She describes fe.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; An abnormal finding on physical examination led to the suspicion of infection.; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This study is being requested for an unresolved cough; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This study is being requested for 'none of the above'.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	3
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		none.; "There is evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Patient has a medical history of hypertension, hyperlipidemia, obesity, abnormal pap smear, and iron deficiency. Previous colonoscopy showed hyperplastic polyp and external hemorrhoids. Has ongoing issues with heartburn and dysphagia to solids and occasio.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material			1
Hematologist/Oncologist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		Brain tumor; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does not have any neurological deficits.; It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for a thoracic spine MRI.; It is not known if there has been a supervised trial of conservative management for at least six weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.;	1
Hematologist/Oncologist	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; There is no evidence of tumor or metastasis on a bone scan or x-ray.; The study is being ordered due to suspected tumor with or without metastasis.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; This is a request for a thoracic spine MRI.; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; The study is being ordered due to known tumor with or without metastasis.	1
Hematologist/Oncologist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Pt suffers with scoliosis.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	10
Hematologist/Oncologist	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	27
Hematologist/Oncologist	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		Rectal Protocol; This is a request for a Pelvis MRI.; The study is being ordered for something other than suspicion of tumor, mass, neoplasm, metastatic disease, PID, abscess, Evaluation of the pelvis prior to surgery or laparoscopy, Suspicion of joint or bone infect	1
Hematologist/Oncologist	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	13
Hematologist/Oncologist	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; Patient complain of intermittent headaches with no other neurological problems. Will monitor and if persistent than may consider MRI.Patient stated pain level: 10 unbearable pain. Pain Description: A pain that surges, beats, or pounds to right shoulder a	1
Hematologist/Oncologist	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; There is documented findings of severe pain on motion.	3
Hematologist/Oncologist	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	2
Hematologist/Oncologist	Approval	73700 Computed tomography, lower extremity; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	3
Hematologist/Oncologist	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a Lower Extremity CT.; This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is no suspicion of lower extremity bone or joint infection.; There is a history of lower extremity joint or long bone trauma or injury.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for an ankle CT.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1

Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		liposarcoma; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	3
Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	2
Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1
Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."	1
Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.; The patient is taking antibiotics.	1
Hematologist/Oncologist	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.	1
Hematologist/Oncologist	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		Pt suffers with scoliosis.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Hematologist/Oncologist	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has a documented limitation of their range of motion.	1
Hematologist/Oncologist	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient has a documented limitation of their range of motion.	1
Hematologist/Oncologist	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has a documented limitation of their range of motion.	1
Hematologist/Oncologist	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is receiving long-term steroid therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; The patient does not have a documented limitation of their range of motion.	1
Internal Medicine	Approval	71250 Computed tomography, thorax, without contrast material		PATIENT HAS FINISHED CHEMOTHERAPY AND HAD STEM CELL TRANSPLANT- NEEDING SCANS EVERY 6MONTHS FOR FOLLOW UP FOR CHECKING FOR RECURRENCE.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71250 Computed tomography, thorax, without contrast material		Patient has Stage IV Adenocarcinoma of both lungs. PET scan on 6/21/18 showed a developing right perihilar lesion with hypermetabolic right infrahilar adenopathy as well as hypermetabolic activity in the left lower lobe in the original area of the maligna; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71250 Computed tomography, thorax, without contrast material		Post-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	71250 Computed tomography, thorax, without contrast material		Pt w/ recent admission for compartment syndrome. CTA showed PAD, AAA 3.4cm and lung nodule 0.5cm.; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is 81 years old or older.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax, without contrast material		There is radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		patient also has very large left inguinal hernia extending into the left scrotum, dr hoping to get a better look at the S1 and strongly suggesting surgery; This study is being ordered for Vascular Disease.; May 2014; There has been treatment or conservative therapy.; patient has had a couple of strokes the past several years - latest one was last year where he also had a seizure. Finding in the ER was an aortic aneurism and patient was supposed to have a repeat CT 6 months later but did not; anti-seizure medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71555 Magnetic resonance angiography, chest (excluding myocardium), with or without contrast material(s)		aneurysm; This is a request for an MR Angiogram of the chest or thorax	1
Internal Medicine	Approval	72125 Computed tomography, cervical spine; without contrast material		The patient does have neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to chronic neck pain or suspected degenerative disease.; There is a reason why the patient cannot have a Cervical Spine MRI.; The patient is experiencing or presenting symptoms of Lower extremity weakness.	1
Hematologist/Oncologist	Approval	74150 Computed tomography, abdomen; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74150 Computed tomography, abdomen; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	9
Hematologist/Oncologist	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; Yes, this is a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; It is not known if there is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; There are no new symptoms including hematuria.; There are new lab results or other imaging studies including ultrasound, Doppler or plain films findings.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a vascular disease.; The requested studies are being ordered for known or suspected blood clot, thrombosis, or stenosis and are being ordered by a surgeon or by the attending physician on behalf of a surgeon.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; Yes, the patient has been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for organ enlargement.; There is evidence of organ enlargement on ultrasound, plain film, or IVP.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material			9
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	3
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		. Schedule re-staging scans q 6 months. Last CCC 12/11/17.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is being ordered for follow-up.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is female.; The last Abdomen/Pelvis CT was performed within the past 10 months.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		2. Schedule re-staging PET/CT as indicated. Last on 1/23/18.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		3. Re-staging CT's q 6 months. Last 1/5/18.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		3. Schedule re- staging CT's and BS q 6 months. Last 1/8/19.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		3. Schedule re-staging CTs for in 4 weeks on 6/19/18. Last 4/6/18.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		5. Schedule re-staging scans week of 7/9/18 then q 3 months. Last 4/13/18 at CCC. Had MRI CCC 6/12/18.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		8. Follow up CTs at BMC as indicated to evaluate for recurrent disease. Last MRI abdomen 2/18; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Assess for progression of disease, colon cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		CA 19-9 has risen. Needs repeat CT HCAP this week prior to visit on Monday 7/16. Tell our radiologists scans need to be compared to BMC films (CT with contrast and MRI) 5/2018.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		COLON CANCER.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		COLON CANCER; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	72125 Computed tomography, cervical spine; without contrast material		This study is to be part of a Myelogram.; This is a request for a Cervical Spine CT	1
Internal Medicine	Approval	72125 Computed tomography, cervical spine; without contrast material		Unknown; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI. &t; Enter answer here - or Type In Unknown If No Info Given. &t; This study is being ordered for a neurological disorder.; 2016; There has been treatment or conservative therapy.; radiculopathy; medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72131 Computed tomography, lumbar spine; without contrast material			1
Internal Medicine	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	6
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material			2
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		&t; Enter answer here - or Type In Unknown If No Info Given. &t; This study is being ordered for a neurological disorder.; 08/01/2016; There has not been any treatment or conservative therapy.; spinal stenosis, upper back pain, neuropathy of left upper extremity; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		&t; Enter answer here - or Type In Unknown If No Info Given. &t; This study is being ordered for trauma or injury.; 5/2018; There has been treatment or conservative therapy.; increased headaches; Chiropractor; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		&t; Enter answer here - or Type In Unknown If No Info Given. &t; This study is being ordered for trauma or injury.; 9/10/18; There has not been any treatment or conservative therapy.; decrease range of motion, ongoing neck pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	3
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		CT C/A/P prior to his next exam to evaluate his RCC.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		CT chest abdomen pelvis and if there is some suggestion of locally advanced disease then I would revisit this and possibly give her dose dense AC followed by Taxol.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		CT scan chest, abdomen, pelvis and bone scan and MRI brain for restaging and response to therapy; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		endometrial cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		EVALUATION; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Follow to chemotherapy, check response.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		follow-up with history of CLL, breast CA, hypertension, depression, chronic back pain, IBS, s/p right nephrectomy for kidney cancer.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		He will have a CT C/A/P and bone scan prior to his next exam to evaluate treatment response of his RCC.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Left chest wall discomfort, some phlegm, left shoulder discomfort, fatigue; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Malignant neoplasm of lower lobe, right bronchus or lung.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Metastasis Melanoma. 7/7/18 CT. Restaging; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		na; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		neuroendocrine tumor.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		PAIN; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; Yes, there is evidence of recent development of unilateral muscle wasting.	1

Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	2
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Yes, this patient had a recent course of supervised physical Therapy.	2
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Trauma or recent injury; Yes, the patient have new or changing neurological signs or symptoms.; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	2
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/13/2018; There has been treatment or conservative therapy.; Neck pain, shoulder pain, low back pain, pelvic tenderness, decreased hand grip strength, radiculopathy; Nsalds, home exercise, physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		na; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of asymmetric reflexes.	2
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	3
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does not have any neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to trauma or acute injury within 72 hours.; CT Scan results noted fractures at T4, T5, T6, T8, and T9, also L1, L2, L3 and L4. Radiologist suggested correlation with MRI	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; Ms Bates presents today with complaint of pain in her mid back and low back. She has a history of a car accident in 2016 resulting in L3 burst fracture. She was transferred at that time to the care of Dr. Taboosha at UAMS. Dr Taboosha is no longer prac; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; It is not known was medications were used in treatment.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; JUNE 2018; There has been treatment or conservative therapy.; LOW BACK AND HIP PAIN; PHYSICAL THERAPY, MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; This study is being ordered for a neurological disorder.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Abnormal nerve conduction studies, nerve entrapment, numbness of leg. The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for None of the above	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		grade 1 anterolisthesis of L5 on S1, seen on Xray,IMPRESSON:  1. Likely bilateral pars defects at L5 with grade 1 anterolisthesis of L5 on S1. This can be confirmed with MRI.Low back pain radiating to left foot.of Present illness: 1. back, lower  Ons; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Present illness: 1. back, lower  Onset: 2 days ago. It occurs occasionally (26-50%day) and is better. Location: left low back. Pain level is 4. The pain radiates to the The pain is aching, dull and tightness. The pain is aggravated by sitting. T; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		MRI LUMBAR WO CONTRAST; Future -pt wants referral to Dr. Arthur-NEUROSURGERY; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.	1

Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		MRI of her back if her pain persists at her next visit.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		numbness in both legs, tingling in low back, decreased range of motion, straight leg raise; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; bilateral lower extremity weakness; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Pt has colon cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Pt has rising tumor markers; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Pt suffers with colon and prostate cancer restaging after therapy; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		RESPONSE TO TREATMENT; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Restaging CT for cutaneous melanoma.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Re-staging CT's and BS at BMC q 6 months. Last BMC on 1/19/18.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		restaging for metastatic staging; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		RESTAGING SCANS.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		RESTAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		RE-STAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		RESTAGING; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	32
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		RE-STAGING; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Return for Imaging: CT CAP, BS and MRI brain to evaluate response to therapy; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Return for Imaging: Schedule CT N, CAP at CARTI for restaging this month; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Return for imaging:Schedule MRI Brain, CT chest, abdomen and pelvis and bone scan @ Saline for initial staging of disease; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Return to imaging: CT C/A/P w contrast at CCC prior to next appointment; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		RISE IN CEA; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Schedule CT CAP and bone scan @ Bradley County Medical Center for restaging of disease; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Schedule restaging scans q 6 months. Last 2/23/18; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Secondary malignant neoplasm of liver and intrahepatic bile duct   Secondary malignant neoplasm of unspecified lung; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		She will have an MRI brain and CT C/A/P prior to her next exam to continue to monitor her lung cancer with brain metastasis.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	125
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		They are anticipating she start Remicade soon. Since she is having increased abdominal pain, and her last scan was in December. She will have a CT C/A/P soon for further evaluation.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1

Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is known tumor; This study is being ordered for follow-up; This study is not being requested for abdominal and/or pelvic pain; The study is not requested for hematuria; The patient is female; The patient completed a course of chemotherapy or radiation therapy within the past 90 days; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is pre-op or post op evaluation; This study is not being requested for abdominal and/or pelvic pain; The study is not requested for hematuria; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is suspicious mass or suspected tumor or metastasis; The patient is presenting new symptoms; It is not known if this study is being requested for abdominal and/or pelvic pain; The study is not requested for hematuria; The patient had an abnormal abdominal Ultrasound, CT or MR study; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is suspicious mass or suspected tumor or metastasis; The patient is presenting new symptoms; This study is not being requested for abdominal and/or pelvic pain; The study is not requested for hematuria; The patient had an abnormal abdominal Ultrasound, CT or MR study; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is vascular disease; There is not a known or suspicion of an abdominal aortic aneurysm; There is an abnormal abdominal/pelvic ultrasound; This study is not being requested for abdominal and/or pelvic pain; The study is not requested for hematuria; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain; It is not known if the pain is acute or chronic; This is not the first visit for this complaint; There has been a physical exam; The patient is male; It is not known if a rectal exam was performed; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain; The study is being ordered for acute pain; There has been a physical exam; The patient is female; A pelvic exam was NOT performed; Yes this is a request for a Diagnostic CT	3
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain; The study is being ordered for acute pain; There has been a physical exam; The patient is female; A pelvic exam was performed; The results of the exam were abnormal; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain; The study is being ordered for acute pain; There has been a physical exam; The patient is male; A rectal exam was not performed; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain; The study is being ordered for chronic pain; This is not the first visit for this complaint; There has been a physical exam; The patient is female; A pelvic exam was NOT performed; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain; The study is being ordered for chronic pain; This is not the first visit for this complaint; There has been a physical exam; The patient is female; A pelvic exam was performed; The results of the exam were abnormal; Yes this is a request for a Diagnostic CT	4
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain; The study is being ordered for chronic pain; This is not the first visit for this complaint; There has been a physical exam; The patient is male; A rectal exam was not performed; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain; The study is being ordered for chronic pain; This is the first visit for this complaint; The patient had an lipase lab test; The results of the lab test were abnormal; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Unknown; This is a request for an abdomen-pelvis CT combination; The reason for the study is none of the listed reasons; This study is not being requested for abdominal and/or pelvic pain; The study is not requested for hematuria; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		worsening adenopathy; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)			1
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		; This request is for an Abdomen MRI; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.	1
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		Findings suggest mild cirrhosis . This request is for an Abdomen MRI; This study is being ordered for organ enlargement; The patient had previous abnormal imaging including a CT, MRI or Ultrasound; A liver abnormality was found on a previous CT, MRI or Ultrasound; There is NO suspicion of metastasis.	1
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		Per 7/23/18 Abdomen/Pelvis CT patient has a 7 cm liver mass causing obstructive change to the left biliary tree. Per 7/25/18 CT guided biopsy result, liver mass adenocarcinoma consistent with cholangiocarcinoma; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		There are 3 exams are being ordered; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is Hematologist/Oncologist	3
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for Known Tumor; It is not known if the patient is presenting new symptoms; The patient has had 4 or more follow-up abdomen MRIs; The last abdomen MRI was performed within the last 6 months; This study is being ordered for follow-up; It is not known if the patient is undergoing active treatment for cancer; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; Schedule follow up MRI abdomen in 4 months for further evaluation of liver lesion post RFA. Ordered 3/15/18	1
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for Known Tumor; This study is being ordered for follow-up; The patient is undergoing active treatment for cancer; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."	3
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for Known Tumor; This study is being ordered for follow-up; The patient is undergoing active treatment for cancer; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; &t; Enter answer here - or Type In Unknown If No Info Given. &t;	1
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for Known Tumor; This study is being ordered for follow-up; The patient is undergoing active treatment for cancer; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; Metastatic carcinoid to liver. No evidence of progressive disease. He is tolerating the Sandostatin LAR 20 mg IM every 4 weeks. We will continue with every 2 month visit for now, returns we will check a MRI of the abdomen as well as an octreotide scan	1
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for suspicious mass or suspected tumor/ metastasis; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; ABNORMAL SCANS	1

Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" weight loss and pain	1
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;"	2
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A abnormality was found on the pancreas during a previous CT, MRI or Ultrasound.	1
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A kidney abnormality was found on a previous CT, MRI or Ultrasound.; The patient has a tumor.	1
Hematologist/Oncologist	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.;	4
Hematologist/Oncologist	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		; This is a request for Breast MRI; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; It is not known if this patient have axillary node adenocarcinoma.	1
Hematologist/Oncologist	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		CLINICAL INFORMATION IS BEING UPLOADED. PT HAS PERSONAL HISTORY OF BREAST CANCER TREATED WITH BILATERAL MASTECTOMIES AND RECONSTRUCTION AND NOW HAS INDETERMINATE PALPABLE MASS ON MAMMO AND ULTRASOUND. PT ALSO HAS HISTORY OF MELANOMA. This is a request for Breast MRI; This study is being ordered for known breast lesions.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; No, this patient does not have axillary node adenocarcinoma.; No, there are no anatomic factors (deformity or extreme density) that make a simple mammogram impossible.; It is unknown if there are benign lesions in the breast associated with an increased cancer risk.	1
Hematologist/Oncologist	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
Hematologist/Oncologist	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for known breast lesions.; There are benign lesions in the breast associated with an increased cancer risk.	1
Hematologist/Oncologist	Approval	77084 Magnetic resonance (eg, proton) imaging, bone marrow blood supply		ߝ Enter answer here - or Type In Unknown If No Info Given. ߝ One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	77084 Magnetic resonance (eg, proton) imaging, bone marrow blood supply		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	19
Hematologist/Oncologist	Approval	77084 Magnetic resonance (eg, proton) imaging, bone marrow blood supply		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	8
Hematologist/Oncologist	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)			1
Hematologist/Oncologist	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for a post myocardial infarction evaluation.; The patient is presenting new symptoms of chest pain or increasing shortness of breath.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The patient has not had a nuclear cardiology study since having an MI.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing			1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; Chemotherapy has been initiated or completed.; The last MUGA scan was performed within the last 3 months.; The last MUGA scan was performed within the last 3 months.; ߝ Enter answer here - or Type In Unknown If No Info Given. ߝ part of clinical trial and taking study drug, had an adverse event and got a abd/pel ct approved, wants to make sure chemo is not effecting stomach	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is a change in cardiac signs or symptoms (shortness of breath, etc.)."; The last MUGA scan was performed more than 3 months ago.; ߝ Enter answer here - or Type In Unknown If No Info Given. ߝ	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; "There is not a change in cardiac signs or symptoms (shortness of breath, etc.)."; It is not known if the patient will be undergoing more chemotherapy.; The last MUGA scan was performed more than 3 months ago.;	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; It is not known if there is a change in cardiac signs or symptoms.; It is not known if the patient will be undergoing more chemotherapy.; The last MUGA scan was performed more than 3 months ago.; ߝ Enter answer here - or Type In Unknown If No Info Given. ߝ	1

Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan; This study is being ordered for Chemotherapy; Chemotherapy has been initiated or completed.; The last MUGA scan was performed within the last 3 months; Left ventricular function was 52% resulted from MUGA performed 6/13/2018	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan; This study is being ordered for Chemotherapy; Chemotherapy has not been initiated or completed.; Chemotherapy is not planned.; < Enter answer here - or Type In Unknown If No Info Given. >	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has not been initiated or completed., (Chemotherapy is planned.);	10
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has not been initiated or completed.; Chemotherapy is planned.; Enter answer here - or Type In Unknown If No Info Given. ASSESS EF PRIOR TO CARDIOTOXIC CHEMO	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has not been initiated or completed.; Chemotherapy is planned.; Newly diagnosed breast cancer. Needing baseline evaluation prior to starting chemo	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has not been initiated or completed.; Chemotherapy is planned.; Patient is to start Adriamycin/Cytosoxan on 9/11/2018	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has not been initiated or completed.; Chemotherapy is planned.; Problem 1. T4b, N0, stage IIIb hormone positive, HER-2 negative left-sided retroareolar grade 1 invasive ductal cell carcinoma of the breast. I had a detailed discussion with the patient and her sister here in the office reviewing her diagnosis manageme	1
Hematologist/Oncologist	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is NOT being ordered for Chemotherapy, Known Cardiomyopathy/ Myocarditis, Suspected Cardiomyopathy/ Myocarditis, or Congestive Heart Failure.; checking for something in her left breast	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	5
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		Per 7/23/18 Abdomen/Pelvis CT patient has a 7 cm liver mass causing obstructive change to the left biliary tree. Per 7/25/18 CT guided biopsy result, liver mass adenocarcinoma consistent with cholangiocarcinoma.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Other, not listed above; This Pet Scan is being requested for None of the above; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Colo-rectal Cancer.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Colo-rectal Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lymphoma or Myeloma.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Ovarian or Esophageal Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4

Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Shannon D Burkhart, a 48 y.o. male presents with a Chief Complaint of Back Pain (RLQ Back pain x 1.5 week ago. Went to ER x 1 week ago, go "lighter" but is still hurting) and Elbow Pain (x 2 week) all his work is physical he was in OK when he went to ER.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	7
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Neurologic deficits	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal nerve study involving the lumbar spine	4
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has completed Treatment with a facet joint or epidural injection in the past 6 weeks	2
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	43
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		unknown; The study requested is a Lumbar Spine MRI.; None of the above; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Unknown; This study is being ordered for a neurological disorder.; April 1, 2018; There has been treatment or conservative therapy.; Patient's primary symptoms are bi-lateral leg pain and leg weakness; and cannot walk for long distances; hip pain radiating down into muscles in legs; significant leg pain; bi-lateral feet pain; neuropathy flaring; severe toe and foot pain...Periora numb; Patient has been given pain medication such as Lyrica; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/13/2018; There has been treatment or conservative therapy.; Neck pain, shoulder pain, low back pain, pelvic tenderness, decreased hand grip strength, radiculopathy; Nsalds, home exercise, physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72192 Computed tomography, pelvis; without contrast material		X ray reveals pelvic fracture after a fall/trauma - physician needs to determine age of fracture and healing status; This study is being ordered as a follow-up to trauma.; There is NO laboratory or physical evidence of a pelvic bleed.; There are no physical or abnormal blood work consistent with peritonitis or pelvic abscess.; There is physical or radiological evidence of a pelvic fracture.; "The ordering physician is not a gastroenterologist, urologist, gynecologist, or surgeon or PCP ordering on behalf of a specialist who has seen the patient.;" This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Vascular Disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has not been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		pt has pain in his left hip it is radiating to his leg; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Internal Medicine	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of joint or bone infection.	1
Internal Medicine	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	2
Internal Medicine	Approval	73200 Computed tomography, upper extremity; without contrast material		This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is not suspicion of upper extremity bone or joint infection.; The ordering physician is not an orthopedist or rheumatologist.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is suspicion of upper extremity bone or soft tissue infection.	1

Internal Medicine	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is suspicion of upper extremity neoplasm or tumor or metastasis.	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)			1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury; 1 month ago; There has been treatment or conservative therapy.; acute pain in the shoulder (right) from a rotator cuff injury; x-ray and pain injection; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; More than 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient is experiencing new signs or symptoms indicating a recurrence of cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient is experiencing new signs or symptoms indicating a recurrence of cancer.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	6
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	6
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; More than 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient is experiencing new signs or symptoms indicating a recurrence of cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Ovarian or Esophageal Cancer.; The patient is experiencing new signs or symptoms indicating a recurrence of cancer.; More than 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Lung Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This would be the first PET Scan performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Lymphoma or Myeloma; This Pet Scan is being requested for Initial Treatment Strategy (Diagnosis and/or Staging); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body			2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2

Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 9/10/18; There has not been any treatment or conservative therapy.; decrease range of motion, ongoing neck pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; There is documented findings of severe pain on motion.	21
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; It is not known if the patient has had recent plain films of the shoulder.; na	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient received joint injection(s).	2
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; This study is being ordered for Known Tumor.; The ordering physician is not an oncologist or orthopedist.; This study is being ordered for staging.	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.	2
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.	1
Internal Medicine	Approval	73700 Computed tomography, lower extremity; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is no suspicion of lower extremity bone or joint infection.; There is not a history of lower extremity joint or long bone trauma or injury.; This is a request for a Knee CT; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a Lower Extremity CT.; This is not a preoperative or recent postoperative evaluation.; There is suspicion of a lower extremity neoplasm, tumor or metastasis.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		evaluate treatment response; colon cancer.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		INITIAL STAGING CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		Malignant neoplasm of lower lobe, right bronchus or lung; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		new RUQ pain; breast cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		RESTAGING   Malignant neoplasm of upper-outer quadrant of right female breast; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		RE-STAGING HEAD AND NECK CARCINOMA; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		RESTAGING SCANS DURING ONGOING TREATMENT TO ACCESS RESPONSE TO TREATMENT; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		RESTAGING.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		RESTAGING; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		RE-STAGING; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	2

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	14
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	19
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences			1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		fell approx 2 wks ago, landed on knees - went to ER, yesterday twisted & now is having problems walking - left knee worse than right knee - knees have been warm to touch - was given steroids in ER, taking Aleve for pain & that is not really helping her, This is a request for a Knee MRI.; The study is requested for knee pain.; The pain is from a recent injury.; There is a suspicion of a meniscus, tendon, or ligament injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot.;" There is a suspected tarsal coalition.	2
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot.;" There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot.;" There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Limited range of motion	2
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Limited range of motion	5
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Swelling greater than 3 days	5
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; 1 PET Scans has already been performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for Breast Cancer; This request is NOT for the initial diagnosis and/or initial staging of axillary lymph nodes; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; 1 PET Scans has already been performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Colo-rectal Cancer; This Pet Scan is being requested for Subsequent Treatment Strategy (Restaging and Monitoring response to treatment); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; 2 PET Scans have already been performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Lymphoma or Myeloma; This Pet Scan is being requested for Subsequent Treatment Strategy (Restaging and Monitoring response to treatment); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; A nodule of less than 4 centimeters has been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; The solitary pulmonary nodule was identified on an imaging study in the last 30 days.; This study is being requested for Lung Cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; A nodule of less than 4 centimeters has been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; The solitary pulmonary nodule was identified on an imaging study in the last 30 days.; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	8

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; A nodule of less than 4 centimeters has been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; The solitary pulmonary nodule was NOT identified on an imaging study in the last 30 days.; This study is being requested for Lung Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being requested for Breast Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a more than 1 of the following; diagnostic test, imaging study, or biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for another solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a more than 1 of the following; diagnostic test, imaging study, or biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Lymphoma or Myeloma.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a more than 1 of the following; diagnostic test, imaging study, or biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Soft Tissue Sarcoma, Pancreatic or Testicular Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for another solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; It is unknown if this is for an evaluation of axillary lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were normal.; The ordering physician is not an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; Pain greater than 3 days	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; XRAY LEFT KNEE SHOWED minimal thickening of the cortex in the supracondylar portion of the distal femur along the distal endosteal margin of the distal femur. In the proximal tibia, there is a mixed cartilaginous and lucent process, most compatible with ; Suspicious Mass or Suspected Tumor/ Metastasis	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physical Therapy	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The study is requested for knee pain.; The pain is described as chronic; The member has failed a 4 week course of conservative management in the past 3 months.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture); This is not a pre-operative study for planned surgery.	2
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture); This is a pre-operative study for planned surgery.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture); This is not a pre-operative study for planned surgery.	2

Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle.;" There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle.;" There is a suspected tarsal coalition.	1
Internal Medicine	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip.;" There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has a documented limitation of their range of motion.	1
Internal Medicine	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip.;" There is a suspicion of AVN.; The patient is receiving long-term steroid therapy (Prednisone or Cortisone).	1
Internal Medicine	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip.;" There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; The patient has a documented limitation of their range of motion.	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		aortic aneurysm, Ultrasound 8/13; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		Caller is by passing questions and faxing in clinical.; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; This is for evaluation of axillary lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	5
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; This is NOT for an evaluation of axillary lymph nodes.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; This is NOT for an evaluation of axillary lymph nodes.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Colo-rectal Cancer.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Colo-rectal Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	6
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lung Cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lung Cancer.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		Caller will fax clinical.; This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; No, this is not a request for follow up to a known tumor or abdominal cancer.; This study being ordered for a palpable, observed or imaged abdominal mass.; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		none; This is a request for an Abdomen CT.; This study is being ordered for trauma.; This request is not for follow up to abdominal and/or pelvic trauma ordered by a specialist or PCP on behalf of a specialist who has seen the patient.; There is no recent trauma with physical findings or abnormal blood work indicating either peritonitis or abscess.; There are no physical findings or lab results indicating an intra-abdominal bleed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is no suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; There are no new symptoms including hematuria.; There are no new lab results or other imaging studies including ultrasound, Doppler or plain films findings.; There is not a suspicion of an adrenal mass.; This is a request to confirm a suspicious renal mass suggested by physical exam, lab studies, IVP or ultrasound.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	5
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are clinical findings or indications of unexplained weight loss of greater than 10% body weight in 1 month; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		unknown; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material			2
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lung Cancer.; More than 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	9
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lymphoma or Myeloma.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lymphoma or Myeloma.; 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lymphoma or Myeloma.; More than 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Melanoma.; This is for evaluation of regional lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Melanoma.; This is NOT for evaluation of regional lymph nodes.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Ovarian or Esophageal Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Member diagnosed with colo rectal cancer in 5/2013. Member to be followed with CT of chest , abdomen and pelvis as Standard of Care per NCCN guidelines; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		None; This study is being ordered for a neurological disorder.; 4 weeks ago; There has been treatment or conservative therapy.; Hx of AAA Severe neck pain SOB COPD; Rx medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		PATIENT HAS FINISHED CHEMOTHERAPY AND HAD STEM CELL TRANSPLANT- NEEDING SCANS EVERY 6MONTHS FOR FOLLOW UP FOR CHECKING FOR RECURRENCE.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Patient has Stage IV Adenocarcinoma of both lungs. PET scan on 6/21/18 showed a developing right perihilar lesion with hypermetabolic right infrahilar adenopathy as well as hypermetabolic activity in the left lower lobe in the original area of the malignancy; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Patient is s/p 4th cycle of chemotherapy.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	PT WITH STAGE IA GIST OF THE ILEUM. PT DUE FOR 3MONTH FOLLOW UP SCANS.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	PT WITH STAGE IIB SIGMOID COLON CA. PT FINISHED CHEMO. PT DUE FOR FIRST SCAN AFTER COMPLETING CHEMO.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	STAGE III LEFT BREAST CA: PT HAD AC-T. PT HAD BILATEAL MASTECTOMY ON 6/25/18 WITH MINIMAL TO NO TREATMENT RESPONSE AND TWO OF THREE LYMPH NODES POSITIVE. DR WANTING CT TO RULE OUT METASTATIC DISEASE GIVEN THAT SHE HAD NO RESPONSE TO HER INITIAL CHEMO.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Surveillance; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for bilirubin.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	7
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Brain Cancer/Tumor or Mass.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	6

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	11
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The patient is experiencing new signs, symptoms indicating a reoccurrence of cancer or a rising CEA.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The patient is experiencing new signs, symptoms indicating a reoccurrence of cancer or a rising CEA.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; The patient does NOT have Thyroid or Brain cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; The patient does NOT have Thyroid or Brain cancer.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; The patient does NOT have Thyroid or Brain cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; The patient does NOT have Thyroid or Brain cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; It is unknown if the patient has been diagnosed with small cell or non small cell lung cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	6
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	5
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with small cell lung cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	4
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	3

Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has not been a physical exam.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has not been a physical exam.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	5
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; It is not known if this is the first visit for this complaint.; It is unknown if there has been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The hematuria is due to Renal Calculi/kidney/ ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is infection.; The patient does not have a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient has Diverticulitis.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	6
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has been completed.; The results of the contrast/barium x-ray were normal.; The patient had an endoscopy.; The endoscopy was normal.; Yes this is a request for a Diagnostic CT	5
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		UNKNOWN; This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" adrenal nodule	1
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" Patient was seen in office for COPD and a left upper lobe lung mass. A CT scan of the chest was ordered on patient. This study showed a right adrenal lesion, and suggested a follow-up with MRI of abdomen including in phase and out of phase imaging.	1
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has not had an abdominal ultrasound, CT, or MR study.;"	1
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A abnormality was found on the pancreas during a previous CT, MRI or Ultrasound.	1
Internal Medicine	Approval	7557 Cardiac magnetic resonance imaging for morphology and function without contrast material;		This is a request for a heart or cardiac MRI	2
Internal Medicine	Approval	75571 Computed tomography, heart, without contrast material, with quantitative evaluation of coronary calcium		This test is for surgical clearance; This is a request for a CT scan for evaluation of coronary calcification.	1
Internal Medicine	Approval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)			1

Internal Medicine	Approval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)		There is "Acute Chest Pain" or Angina.; This request is for a Coronary CT Angiography study.; No, patient did not have a Nuclear Cardiology study within the past six months.; This study is being ordered for suspected Coronary Artery Disease (CAD) and symptomatic.; No, patient does not have new onset congestive heart failure.; 1. Syncope episodes and chest discomfort: The patient has occasional chest discomfort. Her stress test showed upslping ST changes. The patient has a history of syncope. Would like to rule out coronary anomalies as underlying cause. We will get a co; No, there is no Chronic Chest Pain.	1
Internal Medicine	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing			1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; It is unknown if the patient completed a course of treatment initiated in the last 8 weeks or are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	6
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	16
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	5
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; More than 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; It is unknown how many PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Ovarian or Esophageal Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; There is existing evidence of metastasis or other tumor in the body.; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Lung Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; Yes, this is a confirmed breast cancer.; Yes, the results of this MRI (size and shape of tumor) affect the patient's further management.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)			1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		< Enter answer here - or Type In Unknown If No Info Given. >; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has not had other testing done to evaluate new or changing symptoms.; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; There are new or changing cardiac symptoms including atypical chest pain (angina) and/or shortness of breath.; There is known coronary artery disease, history of heart attack (MI), coronary bypass surgery, coronary angioplasty or stent.; The member has known or suspected coronary artery disease.; The BMI is 20 to 29	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.; It is not known if the patient has had a stress echocardiogram within the past eight weeks.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Ms Faucette is a very pleasant 47yo AA lady with significant history of HTN, OSA with CPAP, DJD/chronic back pain, followed by Dr. Hardin, presented for evaluation of chest discomfort and palpitations. No medication changes were made on last visit. Since ; The patient has had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The left ventricle is normal in size.  The Ejection Fraction estimate is 60-65 % .  The left ventricular wall motion is normal.  A variety of Doppler measurements indicate normal left ventricular  diastolic function.  The aortic valve is normal.; The patient has had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for known CAD.; The patient is presenting new symptoms of chest pain or increasing shortness of breath.; This patient had a previous myocardial infarction.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	2
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are documented clinical findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; It is not known if the patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; There are documented clinical findings of hypertension.; The patient has not had a recent non-nuclear stress test.; *Patient is not clinically obese, nor has an emphysematous chest configuration.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study);. The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study);. The study is requested for known or suspected cardiac septal defect.	1
Internal Medicine	Approval	78472 Cardiac blood pool imaging, gated equilibrium; planar, single study at rest or stress (exercise and/or pharmacologic), wall motion study plus ejection fraction, with or without additional quantitative processing		This is a request for a MUGA scan.; This study is being ordered for Chemotherapy.; Chemotherapy has been initiated or completed.; The last MUGA scan was performed within the last 3 months.; PT WAS TAKING PERTUXUMAB AND TRASTUZUMAB AND LVEF BECAME 36% AND TREATMENT WAS HELD. MUGA SCAN ON 8/9/18 SHOWED LVEF 52%. PT STARTED BY ON TRANSTUZUMAB ON 8/9/18. DR WANTING MUGA SCAN TO ASSESS LVEF AFTER STARTING BACK ON TRANSTUZUMAB.	1
Internal Medicine	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This would be the first PET Scan performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Head/Neck Cancer; This Pet Scan is being requested for Initial Treatment Strategy (Diagnosis and/or Staging); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This would be the first PET Scan performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Lung Cancer; This Pet Scan is being requested for Initial Treatment Strategy (Diagnosis and/or Staging); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		prior to cardio chemo; This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; The reason for ordering this study is unknown.	1
Hematologist/Oncologist	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient does not have a history of a recent heart attack or hypertensive heart disease.	1
Hematologist/Oncologist	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient has a history of a recent myocardial infarction (heart attack).	1
Hematologist/Oncologist	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	5
Hematologist/Oncologist	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	8. Follow up CTs at BMC as indicated to evaluate for recurrent disease. Last MRI abdomen 2/18; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Re-staging CT's and BS at BMC q 6 months. Last BMC on 1/19/18.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for a known or suspected tumor.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being requested for Breast Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; It is unknown how many PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient is experiencing new signs or symptoms indicating a recurrence of cancer.; 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		shortness of breath, hemodynamically, labs show wbc 11, hdb 12.9, bun/cr 34/1.6; This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason, This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; The patient has shortness of breath; Shortness of breath is not related to any of the listed indications.	1
Hematologist/Oncologist	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The neck mass is 1 cm or smaller.; The neck mass has been examined twice at least 30 days apart.; The lump did not get smaller.; It is unknown if a fine needle aspirate was done.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	INITIAL STAGING CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	RE-STAGING.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	RE-STAGING; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for none of the above.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal finding on examination of the chest, chest wall and/or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	6
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	6
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal laboratory test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	abnormal lung screen; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; An abnormal imaging (xray) finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; An abnormal lab finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; 'None of the above' were related to the suspicion of cancer in this patient.; This is a request for a Chest CT.; This study is being requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; Restaging during ongoing treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is being requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; This study is being requested for an unresolved cough; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	INITIAL STAGING CANCER; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	new RUQ pain; breast cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; Finding of cancer elsewhere is related to the suspicion of cancer in this patient.; This is a request for a Chest CT.; This study is being requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Regarding her 40-50 pound weight loss over the last 6-7 months and poor appetite, I will order a CT C/A/P for further evaluation.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	RE-STAGING   Malignant neoplasm of upper-outer quadrant of right female breast; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	RE-STAGING SCANS DURING ONGOING TREATMENT TO ACCESS RESPONSE TO TREATMENT; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1

Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	RE-STAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	RE-STAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	3
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	RE-STAGING; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	9
Hematologist/Oncologist	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip.".; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Hematologist/Oncologist	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	will fax in clinicals; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	cancer; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Malignant neoplasm of lower third of esophagus   Encounter for screening for malignant neoplasm of prostate; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Regarding her 40-50 pound weight loss over the last 6-7 months and poor appetite, I will order a CT C/A/P for further evaluation.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RE-STAGING   Malignant neoplasm of upper-outer quadrant of right female breast; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RE-STAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RE-STAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	3
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	She will have a CT C/A/P soon to evaluate her weight loss, DVT and rule out occult malignancy.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain; It is not known if the urinalysis results were normal or abnormal.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain; The results of the urinalysis were abnormal.; The urinalysis was positive for glucose.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain; The results of the urinalysis were normal.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain; The results of the urinalysis were normal.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not know if this study is being requested for abdominal and/or pelvic pain; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Hematologist/Oncologist	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	2
Hematologist/Oncologist	Disapproval	77084 Magnetic resonance (eg, proton) imaging, bone marrow blood supply	Radiology Services Denied Not Medically Necessary	; This is a request for an MRI Bone Marrow.	1

Hematologist/Oncologist	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The study is requested for evaluation of the heart prior to non cardiac surgery.	1
Hematologist/Oncologist	Disapproval	78813 Positron emission tomography (PET) imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made); This study is being requested for Colo-rectal Cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	Malignant neoplasm of upper lobe, right bronchus or lung; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	pancreatic mass with liver lesions.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	RE-STAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	RE-STAGING SCANS; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	RE-STAGING; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Hematologist/Oncologist	2
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being requested for Lymphoma or Myeloma.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made); This study is being requested for Lymphoma or Myeloma.; It is unknown how many PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made); This study is being requested for Ovarian or Esophageal Cancer.; More than 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with small cell lung cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2

Hematologist/Oncologist	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Hospital	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study);. The patient has diabetes.; This is a Medicare member.	1
Hospital	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study);. The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; The member does not have known or suspected coronary artery disease	1
Hospital	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of Pericardial Disease.; There has NOT been a change in clinical status since the last echocardiogram.; This is NOT for the initial evaluation of a pericardial disease.	1
Infectious Diseases	Approval	71250 Computed tomography, thorax; without contrast material		Chest pain describes the reason for this request.; An abnormal finding on physical examination led to the suspicion of infection.; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema);. Yes this is a request for a Diagnostic CT	1
Infectious Diseases	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; An abnormal lab finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema);. Yes this is a request for a Diagnostic CT	1
Infectious Diseases	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This study is being requested for an unresolved cough; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Infectious Diseases	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; "The caller indicated that there is not x-ray or laboratory evidence of: Osteomyelitis, Meningitis, Septic Arthritis or discitis, or a paraspinal abscess."; The study is being ordered due to known or suspected infection or abscess.;	1
Infectious Diseases	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for an ankle CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Infectious Diseases	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture);. This is a pre-operative study for planned surgery.	1
Infectious Diseases	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Fever of unknown origin with shortness of breath, chest pain and nausea since May 2018 without any relief of conservative therapy.; This study is being ordered for Inflammatory/ Infectious Disease.; 5/10/2018; There has been treatment or conservative therapy.; Fever of unknown origin with shortness of breath, chest pain and nausea.; antibiotics times 3 courses, tylenol.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Infectious Diseases	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; An abnormal lab finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema);. Yes this is a request for a Diagnostic CT ; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 7 months ago; There has been treatment or conservative therapy.; fever; antibiotics; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Infectious Diseases	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary		1
Infusion Therapy	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Limited range of motion	1
Internal Medicine	Approval	70336 Magnetic resonance (eg, proton) imaging, temporomandibular joint(s)		This is a request for a temporomandibular joint MRI.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		< Enter answer here - or Type in Unknown if No Info Given. >; This is a request for a brain/head CT.; It is unknown if the study is being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		confusion, impaired coordination/balance, memory loss and visual changes blurry vision Depression like symptoms: anhedonia, depressed mood, difficulty concentrating, fatigue, feelings of worthlessness/guilt, hopelessness, impaired memory, insomnia and ; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or aneurysm.; This study is being ordered for neurological deficits.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		Head injury mild or moderate acute, no neurological deficit; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		Pt in recent car accident.; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, one sided arm or leg weakness, the inability to speak, or vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1

Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		still has a headache fell 2 weeks ago.; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The headache is not described as a "thunderclap" or the worst headache of the patient's life.; It is unknown if the patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	6
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Known or suspected infection best describes the reason that I have requested this test.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; 'None of the above' describes the headache's character.; Headache best describes the reason that I have requested this test.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.	9
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has the worst headache of patient's life with onset in the past 5 days; Headache best describes the reason that I have requested this test.; This is NOT a Medicare member.	1
Internal Medicine	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The headache is described as a "thunderclap" or the worst headache of the patient's life.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.	1
Internal Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material		"This request is for face, jaw, mandible CT.239.8"; "There is a history of serious facial bone or skull, trauma or injury, fact"; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material		HPI: Rhinitis/Sinusitis/Conj. History of Present Illness: Chief Complaint: She has had sinus pain on the left side since April. She has been on 3 different antibiotics (Bactrim, Augmentin, and Omnicef) with no relief, plus a steroid injection. She has bc; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is immune-compromised.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70490 Computed tomography, soft tissue neck; without contrast material		Patient has a medical history of hypertension, hyperlipidemia, obesity, abnormal pap smear, and iron deficiency. Previous colonoscopy showed hyperplastic polyp and external hemorrhoids. Has ongoing issues with heartburn and dysphagia to solids and occasio; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; It is unknown if there has been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; Surgery is scheduled within the next 30 days.; The patient has a suspicious infection or abscess.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has been recent trauma or other injury to the neck.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	10
Internal Medicine	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for a neurological disorder.; 08/27/208; It is not known if there has been any treatment or conservative therapy.; Recurring episodes dizziness, usu not feeling like going to pass out, esp hits if looks upward, resolves quickly, some nausea.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for a neurological disorder.; 8/1/18; There has been treatment or conservative therapy.; speech difficulty, focal numbness and focal weakness. Associated symptoms: episode Lt facial droop, Lt arm and leg numbness and weakness on 11/5/17, lasted approx 2 hours. Recurrent episode 8/1/18.; Current treatment includes aspirin, antihypertensives and statins. Past evaluation has included carotid ultrasonography and head MRI; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is an immediate family history of aneurysm.; This is a request for a Brain MRA.	2
Internal Medicine	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has been a stroke or TIA within the past 2 weeks.; This is a request for a Brain MRA.	1
Internal Medicine	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Internal Medicine	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		This is a request for a head and neck MR Angiogram.; There is an immediate family history of aneurysm.	1
Internal Medicine	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		The patient has had a recent MRI or CT for these symptoms.; This is a request for a Neck MR Angiography.	1
Internal Medicine	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; "There is a sudden onset of one-sided weakness, speech impairment, vision defects or severe dizziness."; This is a request for a Neck MR Angiography.	1
Internal Medicine	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		This is a request for a head and neck MR Angiogram.; There is an immediate family history of aneurysm.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		 Enter answer here - or Type in Unknown if No Info Given.  This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	2
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		 Enter answer here - or Type in Unknown if No Info Given.  This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	2

Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for trauma or injury.; 5/2018; There has been treatment or conservative therapy.; increased headaches; Chiropractor; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient is experiencing vertigo	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; The patient does not have a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection.; The doctor does not note on exam that the patient has delirium or acute altered mental status.; The patient does not have a Brain CT showing abscess, brain infection, meningitis or encephalitis.; This is NOT a Medicare member.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, one sided arm or leg weakness, the inability to speak, or vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; pt has a headache; There has been treatment or conservative therapy.; severe daily headaches that are getting worse. Also dizziness; pt has taking hydrocodone for pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; pulmonary AVM and liver AVM; It is not known if there has been any treatment or conservative therapy.; light headedness, slurred speech; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Bi-temporal headaches for 3 months.; Last couple of hours,  Relieved by Vick's vapor rub to the temples. No visual complaints, nausea or vomiting. BP is stable. DM2 - HTN and SNHL noted in problem list.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a sudden and severe headache.; The patient has NOT had a recent onset (within the last 3 months) of neurologic symptoms.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		elevated prolactin level, needs mri of pituitary gland; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Follow up on 2/2015 MRI brain; patient experiencing increased headaches.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		HEADACHE, NUMBNESS; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is a new and sudden onset of a headache less than 1 week not improved by medications.; The headache is not described as a "thunderclap" or the worst headache of the patient's life.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		na; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The results of the lab tests are unknown.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patient has history of seizures, convulsions, foaming from mouth.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		pt has bells palsy with worsening symptoms. She had a brain CT on 08/08/18; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; There is not a new and sudden onset of a headache less than 1 week not improved by medications.; There is not a family history (parent, sibling, or child) of stroke, aneurysm, or AVM (arteriovenous malformation); Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The patient has Bell's Palsy.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This is a request for an Internal Auditory Canal MRI; There is a suspected Acoustic Neuroma or tumor of the inner or middle ear.	2
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has the inability to speak.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; The reason for ordering this study is unknown.	1

Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of cardiac arrhythmias; This study is being requested for the initial evaluation of frequent or sustained atrial or ventricular cardiac arrhythmias.	2
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; This request is for initial evaluation of a murmur.; The murmur is grade III (3) or greater.	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Valves.; This is an initial evaluation of suspected valve disease.	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Heart Failure; It is unknown if there been a change in clinical status since the last echocardiogram.; It is unknown if this is for the initial evaluation of heart failure.	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient has a history of hypertensive heart disease.; There is a change in the patient's cardiac symptoms.	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Pulmonary Hypertension.	7
Internal Medicine	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		Here for new patient appointment to establish care. Patient reports he was in prison for 18 months for drug related charges. Patient reports he has been seeing urology outpatient for ongoing penile issues. He has had elevated BP and swelling issues that p; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	1
Internal Medicine	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient quit smoking less than 15 years ago.	5
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	3
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing dizziness.	2
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing fatigue or malaise.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; The patient has a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection); This is NOT a Medicare member.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; The patient has not undergone treatment for multiple sclerosis.; There are intermittent or new neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.	1
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.	6
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type. Tremors F/U brain MRI R/O pituitary adenoma; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; There is not a new and sudden onset of a headache less than 1 week not improved by medications.; There is not a family history (parent, sibling, or child) of stroke, aneurysm, or AVM (arteriovenous malformation); Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The patient has Bell's Palsy.	2
Internal Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Assess response to treatment.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		blood in urine, abdominal distension, back pain, possible kidney bleed; This study is being ordered for trauma or injury.; 08/20/18; There has not been any treatment or conservative therapy.; blood in urine, unable to walk, sever pain when breathing; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Chest x-ray was done on 06/03, that was read out as emphysema with chronic pleural and parenchymal changes. Small pleural effusions versus pleural thickening. When I looked at the x-rays, there is a lot of scarring in the right chest particularly a sign; A Chest/Thorax CT is being ordered.; The patient did NOT have a Chest x-ray in the past 2 weeks.; The study is being ordered for none of the above.; This study is being ordered for hemoptysis.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		No, the patient was NOT seen by a specialist because of the traumatic injury; Chest pain describes the reason for this request.; Abnormal finding on physical examination was noted on evaluation after the injury; This is a request for a Chest CT.; This study is being requested for chest injury or trauma within the past 2 weeks.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; An abnormal imaging (xray) finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Surveillance of a known cancer following treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is being requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	3
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; The patient had an abnormal imaging (xray) finding related to the suspicion of cancer in th is patient.; This is a request for a Chest CT.; This study is being requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient does NOT have signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		'will fax notes, personal use of tobacco use and hazardous to his health, COPD; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	⁢ Enter answer here - or Type in Unknown If No Info Given. >; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic post-traumatic headache, not intractable; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	pt has started suffering from memory lapses since he had the TIA; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	She says recently she has been getting forgetful and it is going on for a few weeks. She states that she thinks something in her head and when she tries to say she forgets what she was thinking and then she recalls in few minutes. She also has been havi; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	8
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a chronic headache, longer than one month; Headache best describes the reason that I have requested this test.	4
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a headache involving the back of the head and the patient is over 55 years old; Headache best describes the reason that I have requested this test.	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; This study is being requested for suspicion of pulmonary embolism (PE); This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Pain feels like "ball" in chest underneath the lower left rib and now more constant. Sometimes when he takes a deep breath it feels worse. He has not found anything that makes it better. He does recall getting hit in chest with baseball a few years ago; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient has signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Patien is s/p 4th cycle of chemotherapy.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		pet scan done back in 4/18/2018; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; It is unknown if the patient had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		PT WITH METASTATIC RT BREAST CA. PT STARTED ON ABEMACICLUB AND LETROZOLE ON 6/12/18. DR WANTING CT TO ASSESS RESPONSE TO TX.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		PT WITH STAGE IA GIST OF THE ILEUM. PT DUE FOR 3MONTH FOLLOW UP SCANS.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		PT WITH STAGE IIB SIGMOID COLON CA. PT FINISHED CHEMO. PT DUE FOR FIRST SCAN AFTER COMPLETING CHEMO.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		STAGE III LEFT BREAST CA: PT HAD AC-T. PT HAD BILATEAL MASTECTOMY ON 6/25/18 WITH MINIMAL TO NO TREATMENT RESPONSE AND TWO OF THREE LYMPH NODES POSITIVE. DR WANTING CT TO RULE OUT METASTATIC DISEASE GIVEN THAT SHE HAD NO RESPONSE TO HER INITIAL CHEMO.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		Surveillance; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	71250 Computed tomography, thorax; without contrast material		This is a request for a Thorax (Chest) CT.; Abnormal finding on examination of the chest, chest wall and/or lungs describes the reason for this request.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing			1
Internal Medicine	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for Suspected Vascular Disease.; There are no new signs or symptoms indicative of a dissecting aortic aneurysm.; This is not an evaluation for thoracic outlet syndrome.; There are no signs or symptoms indicative of vascular insufficiency to the neck or arms.; There are no signs or symptoms indicative of Superior Vena Cava syndrome.; Yes, this is a request for a Chest CT Angiography.	1
Internal Medicine	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		CT SCAN DONE A FEW WEEKS AGO FOR KIDNEY STONES SHOWED A THORACIC AORTIA DIALIATED TO 4.4 CM AND CALLED IT AN ANEURYSM. PT HAS HYPERTENSION. This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for Known Vascular Disease.; It is not known if this is a pre-operative evaluation, post operative evaluation or follow up to a previous angiogram or MR angiogram.; Yes, this is a request for a Chest CT Angiography.	1
Internal Medicine	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		This study is requested to evaluate suspected pulmonary embolus.; Yes, this is a request for a Chest CT Angiography.	8
Internal Medicine	Approval	72125 Computed tomography, cervical spine; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 2016; There has been treatment or conservative therapy.; radiculopathy; medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72128 Computed tomography, thoracic spine; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine CT.; "The patient has not been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist."; This is a continuation or recurrence of symptoms related to a previous surgery or fracture.; The study is being ordered due to follow-up to surgery or fracture within the last 6 months.; There is a reason why the patient cannot undergo a thoracic spine MRI.; The patient has a recent fracture or abnormality seen on a previous imaging study; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is experiencing symptoms of radiculopathy for six weeks or more.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a new onset of a headache within the past month; Headache best describes the reason that I have requested this test.	6
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has the worst headache of patient's life with onset in the past 5 days; Headache best describes the reason that I have requested this test.; This is NOT a Medicare member.	1
Internal Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; There has been treatment or conservative therapy.; patient has a septal deviation to the left frontal sinus with no transillumination; patient has been using analgesics; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Internal Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immunocompromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immunocompromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; this problem started on 9/11/2018; There has not been any treatment or conservative therapy.; Patient is having back pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; There is a family history of a brain aneurysm in the parent, brother, sister or child of the patient.; This is a request for a Brain and Neck MRA combination.; There has been a recent (less than 2 week) neck or carotid artery ultrasound.; The results of the ultrasound are unknown.; The patient has NOT had an onset of neurologic symptoms within the last two weeks.; The patient has NOT been diagnosed with Coarctation of the aorta, Marfan's syndrome, Neurofibromatosis, or Moya-moya disease.	1
Internal Medicine	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Internal Medicine	Approval	72131 Computed tomography, lumbar spine; without contrast material		This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is not experiencing symptoms of radiculopathy for six weeks or more.; There is no neurologic symptoms of bowel or urinary bladder dysfunction.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms; There is weakness.; in left arm; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/5/2018; There has not been any treatment or conservative therapy.; Migraines; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Numbness and weakness in Left arm after chiropractor adjusted her neck. Decreased grip in left hand and has dropped objects such as a coffee cup with left hand.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This study is being ordered for a neurological disorder.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; pt has a headache; There has been treatment or conservative therapy.; severe daily headaches that are getting worse. Also dizziness; pt has taking hydrocodone for pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		most likely due to chemotherapy but she is having severe pain with history of stage 3 cancer therefore I will order MRI of the brain and cervical to rule out any spinal stenosis or malignancy; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	70547 Magnetic resonance angiography, neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; There is a family history of a brain aneurysm in the parent, brother, sister or child of the patient.; This is a request for a Brain and Neck MRA combination.; There has been a recent (less than 2 week) neck or carotid artery ultrasound.; The results of the ultrasound are unknown.; The patient has NOT had an onset of neurologic symptoms within the last two weeks.; The patient has NOT been diagnosed with Coarctation of the aorta, Marfan's syndrome, Neurofibromatosis, or Moya-moya disease.	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is not a new and sudden onset of a headache less than 1 week not improved by medications.; There is not a family history (parent, sibling, or child) of stroke, aneurysm, or AVM (arteriovenous malformation)	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Vascular Disease.; back pain (ongoing for a year) Headache (lasting longer than 24); There has been treatment or conservative therapy.; headache and back pain; muscle relaxer; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient is experiencing vertigo	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal finding on examination of the chest, chest wall and/or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	16
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	17
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient has signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; This study is being requested for a congenital abnormality; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; This study is being requested for 'none of the above'; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This reason this study is being requested is unknown.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has multiple kidney cysts; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for none of the above.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Post-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Unexplained weight loss describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	unknown.; There is evidence of a lung, mediastinal or chest mass noted within the last 30 days.; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	THIS IS FOR A CTA CHEST ABD/PEL W CONTRAST. FOR ABDOMINAL AORTIC ANEURYSM (AAA) WITHOUT RUPTURE.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Disapproval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)	Radiology Services Denied Not Medically Necessary	patient has pain had more than a month of pain just below her right scapula. the doctor is trying to rule out tendonitis or the cause of the pain. An MRI shoulder has already been ordered but what the doctor is looking for wont necessarily be found; This study is being ordered for inflammatory disease.; The ordering physician is not a surgeon or pulmonologist.; There is no radiologic evidence of non-resolving pneumonia.; There is no radiologic evidence of tuberculosis or fungal infection.; There is no radiologic evidence of a lung abscess.; There is no radiologic evidence of pneumoconiosis.; There is no radiologic evidence of asbestosis.; This is a request for a chest MRI.	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical therapy.	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1

Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits; yes, there is a documented evidence of extremity weakness on physical examination.	19
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	7
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits; tightness, sharp pain, tenderness, radiating pain from neck to arm, pain is unrelieved with muscle relaxers or heat or ice	1
Internal Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		unknown; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.; unknown	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 08/01/2016; There has not been any treatment or conservative therapy.; spinal stenosis, upper back pain, neuropathy of left upper extremity; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease. ; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy. ; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does not have any neurological deficits.; The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for a thoracic spine MRI.; The patient has had 3 or fewer thoracic spine MRIs.; There has not been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does not have any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.	4
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist."; The study is being ordered due to follow-up to surgery or fracture within the last 6 months.	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; The patient is experiencing or presenting symptoms of abnormal gait.	1
Internal Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness; weakness in r lower extremity; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	6
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; None of the above; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	2
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		c/o ddd l spine - moderate/stale/presen tgreater than 2mos - not resolved with pt consult; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; DECREASED KNEE JERK ON RIGHT	1
Internal Medicine	Disapproval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for a chest MRI.	1
Internal Medicine	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	Restaging; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	This study is to be part of a Myelogram.; This is a request for a Cervical Spine CT	1
Internal Medicine	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	Mr. Nuckols presents today and was thrown from a horse in April. He had multiple rib fractures, and these were diagnosed in the emergency room by plain x-rays. This pain is gradually improved but continues to be present on the left. To the left of the mid; This is a request for a thoracic spine CT.; There is no reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is experiencing symptoms of radiculopathy for six weeks or more.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has did a X ray of both neck and right shoulder and they were both negative and patient is not responding to medication that was prescribed for relief to help symptoms.; This study is being ordered for trauma or injury.; 06/08/2018; There has been treatment or conservative therapy.; Patient primary symptoms are headaches, shoulder pain, and neck pain.; Patient has been treated with Naproxen and Sumatriptan for headaches and Robaxin for muscle spasms and neck pain. Patient is still experiencing pain in shoulder and headaches that are waking patient up.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	R/O spinal stenosis/herniated disc; This study is being ordered for a neurological disorder.; 2017; There has not been any treatment or conservative therapy.; nerve and back pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Right-sided pain and stinging in patient with a previous history of lumbar disectomy indicates the need for spinal imaging to assess further.; This study is being ordered for a neurological disorder.; approximately 08/20/2013; There has been treatment or conservative therapy.; Right-sided shoulder, neck and upper back pain; Previously treated by a chiropractor; Naproxen 500mg twice daily; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	She is now getting a burning sensation on the back of her R shoulder. This gets worse when she reaches over her head. She is also getting numbness and tingling in her R arm and hand.Musculoskeletal: Positive for arthralgias and neck pain. Right shoul; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical therapy.; It is not known if the patient had six weeks of Chiropractic care related to this episode.;	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; None of the above; Patient is having some cervical radiculopathy. Also having some pain down the right arm; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of paresthesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; Patient is having pain and numbness tingling in hands bilaterally.	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Unknown	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; c/o cervical muscle and radicular pain. had MVA 5 years ago. some radiating pain. c/o lipoma on neck. bothering him quite a bit.	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Tingling in arms and legs and numbness. Back pain cannot sleep most nights. Fibromyalgia and arthralgia. And Osteo.	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for a neurological disorder.; 2015; There has been treatment or conservative therapy.;  Describe primary symptoms here - or Type In Unknown If No Info Given  Ice/Heat* Rx* OTC*.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; within last year; There has been treatment or conservative therapy.; pain; physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Current symptoms: Reports numbness Quality: Reports burning Severity: moderate Onset: 7-12 months Lower ext dermatomes involved: L4: right, L5: right, S1: right Associated Conditions Lumbar degenerative: Yes Other (sclerotic lesions in spine, believe; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	R/O spinal stenosis/herniated disc; This study is being ordered for a neurological disorder.; 2017; There has not been any treatment or conservative therapy.; nerve and back pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of recent fracture on previous imaging studies.	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is not experiencing sensory abnormalities such as numbness or tingling.; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has been treatment or conservative therapy.; mid to lower back pain.; medications, PT for 6 weeks.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; decreased range of motion	1

Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 2015; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; Ice/Heat* Rx* OTC*.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 7/17/18; There has been treatment or conservative therapy.; pain when walking, joint pain , limit range of motion.; PT and seen a chiropractor.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; within last year; There has been treatment or conservative therapy.; pain; physical therapy.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		fell went to hospital found cellulitis on back .acute encephalopathy.had surgery two days later for enision of cellulitis; This study is being ordered for trauma or injury.; 05/05/2018; There has been treatment or conservative therapy.; weakness of lower extremity .unsteady gait.; treated for conservative therapy.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Patient came in today stating that he was in a motor vehicle accident yesterday and he went to Great River Medical Center. The CT of his lumbar spine showed changes in L4 and L5 as well as right stenosis. This CT differed from his last CT on 10/8/2015. He; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Right leg weakness; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Right leg weakness, pain in right leg; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	2
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	50
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	21
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	1
Internal Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Internal Medicine	Approval	72192 Computed tomography, pelvis; without contrast material		; The patient has painful hematuria.; The patient has not had an IVP.; This study is being ordered due to hematuria.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	72192 Computed tomography, pelvis; without contrast material		Patient has had abdominal pain, heavy periods and pain; The patient is not undergoing active treatment for cancer.; This study is being ordered for known tumor, cancer, mass, or rule-out metastasis.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient.".; The patient has had 3 or fewer pelvis CTs.; This study is not being ordered for initial staging.; The patient is not presenting new signs (e.g. lab findings or imaging) or symptoms.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		flank pain and vaginal pain LMP 2017; This is a request for a Pelvis MRI.; The patient has NOT had previous abnormal imaging including a CT, MRI or Ultrasound.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
Internal Medicine	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		low back pain and coccyx pain; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Internal Medicine	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; The request is for pelvic trauma or injury.	1
Internal Medicine	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/13/2018; There has been treatment or conservative therapy.; Neck pain, shoulder pain, low back pain, pelvic tenderness, decreased hand grip strength, radiculopathy; Nsalds, home exercise, physical therapy.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	72198 Magnetic resonance angiography, pelvis, with or without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Vascular Disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has not been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		severe back pain, hand pain, numbness and swelling; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Acute back pain sciatica x 1 yr; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Current symptoms: Reports numbness Quality: Reports burning Severity: moderate Onset: 7-12 months Lower ext dermatomes involved: L4: right, L5: right, S1: right Associated Conditions Lumbar degenerative: Yes Other (sclerotic lesions in spine, believe; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	in a lot of pain, injection to the hip, stretching, exercise, no improvement; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	M54.31 Back pain with right-sided sciatica, MODERATE/SEVERE BACK PAIN WITH RIGHT SCIATICA PAIN.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	M54.5 Chronic midline low back pain without sciatica, Chronic pain, Hx of back surgery, Chronic midline low back pain without sciatica (M54.5), patient is followed by pain management for his medications he does have opioid dependence he has had back s; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Need the MRIs to evaluate for demyelinating processes.  Also, a pulmonary nodule was found on chest x-ray which needs further evaluation.; This study is being ordered for a neurological disorder.; Approximately July 2017; There has not been any treatment or conservative therapy.; Ms. Richards states that for about a month now the right side of her face has been drooping. This has been intermittent and mild. She denies issues chewing, swallowing, or closing her eye. It has seemed to improve over the last 2 weeks. She describes fe; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pain is worsening and more severe. Over 30 minutes spent in examination with patient. Pt has failed outpatient conservative therapy, unable to perform sports and patient now having difficulties with daily ADL's due to increasing pain.; This study is being ordered for trauma or injury.; 4/20/18; There has been treatment or conservative therapy.; Pain worsening - more pronounced in the left paraspinal region at the insertion of the pelvis per the outpatient physical therapy documentation; Pt has been treated for 2 months with meloxicam 7.5mg daily for 2 1/2 months - muscle relaxer at bedtime - home physical therapy exercises for 2 months - outpatient physical therapy for 1 month - symptoms worsening and progressing; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient has lower mid back pain that radiates down lower post rib margin all the way from rib 4-7, also pain on left side going up shoulder and down to groin, painful when not touched; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient is taking meds. Difficulty sitting and walking. Performed Venus Doppler. Patient seen cardiologist to see if it was vascular, test negative.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt suffers with pain over several years; suffered an injury in military.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	R/O ligament injury; due to nail puncture in foot.; This study is being ordered for trauma or injury.; 06/27/2018; There has been treatment or conservative therapy.; Pt suffers with paresthesia and pain; Pt HEP, rest, steroids and NSAIDs; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Radiating pain down to legs.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has small disc bulge resulting in mild bilateral neural foraminal compromise at L4/5 and L5/S1.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Early 2017; There has been treatment or conservative therapy.; Pt has pain in neck and in her back, hard for patient to move d/t pain.; Medication. Possible other treatments with previous physicians.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	I have recommended that she undergo MRI of the pelvis and lower extremity due to the pain in her leg itself and hip. She does have significant knee pain and pain into the proximal tibia. The nature of these symptoms is unclear. She has undergone previous ; This study is being ordered for a neurological disorder.; 02/20/2018; There has been treatment or conservative therapy.; The pain is located in the back but also in the hip and pelvic region; she has had surgery and meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences		The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is no suspicion of upper extremity bone or soft tissue infection.; The ordering physician is not an orthopedist.; There is not a history of upper extremity trauma or injury.	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation.;  Enter answer here - or Type In Unknown If No Info Given. 	2
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; POSSIBLE ROTATOR CUFF TEAR	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has had recent plain films of the shoulder.; The plain films were normal.; It is not known if the patient is experiencing joint locking or instability.; The patient has a documented limited range of motion on physical examination.	1
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has had recent plain films of the shoulder.; The plain films were not normal.	1

Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		The requested study is a Shoulder MRI; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	5
Internal Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.	1
Internal Medicine	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a preoperative or recent postoperative evaluation.; This is a request for a Knee CT; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for a Lower Extremity CT.; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	73700 Computed tomography, lower extremity; without contrast material		This is a request for an ankle CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle.;" There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	73200 Computed tomography, upper extremity, without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is not suspicion of upper extremity bone or joint infection.; The ordering physician is not an orthopedist or rheumatologist.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; The requested study is a Shoulder MRI; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Patient has had a X ray of both neck and right shoulder and they were both negative and patient is not responding to medication that was prescribed for relief to help symptoms.; This study is being ordered for trauma or injury.; 06/08/2018; There has been treatment or conservative therapy.; Patient primary symptoms are headaches, shoulder pain, and neck pain.; Patient has been treated with Naproxen and Sumatriptan for headaches and Robaxin for muscle spasms and neck pain. Patient is still experiencing pain in shoulder and headaches that are waking patient up.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Pt denies injury but states has had pain for more than 1 month.; The requested study is a Shoulder MRI; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation.;" &t; Enter answer here - or Type In Unknown if No Info Given. &t;	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; &t; Enter answer here - or Type In Unknown If No Info Given. &t;	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; abnormal exam	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; He complains of left shoulder pain. The location of the pain is deep and anterior. It does not radiate. The pain initially started one year ago. The apparent precipitating event was lifting, and the mechanism of injury was abduction, adduction, and ex	1
Internal Medicine	Approval	73700 Computed tomography, lower extremity; without contrast material		This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is no suspicion of lower extremity bone or joint infection.; There is a history of lower extremity joint or long bone trauma or injury.; This is a request for a Knee CT; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	73700 Computed tomography, lower extremity; without contrast material		This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is suspicion of lower extremity bone or joint infection.; This is a request for a Knee CT; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	73706 Computed tomographic angiography, lower extremity, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the lower extremity.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		&t; Enter answer here - or Type In Unknown If No Info Given. &t; This is a request for a Knee MRI; It is not known if patient had recent plain films of the knee.; It is not known if the ordering physician is an orthopedist.; There is no suspected meniscus.pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		&t; Enter answer here - or Type In Unknown If No Info Given. &t; This is a request for an Ankle MRI.; The study is for infection or inflammation.; There are not physical exam findings, laboratory results, other imaging including bone scan or ultrasound confirming infection, inflammation and or aseptic necrosis.; The study is requested for a reason other than ankle pain.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		R/O infection; This is a request for a foot MRI.; The study is being ordered for infection.; There are NO physical exam findings, laboratory results, other imaging including bone scan or plain film confirming infection, inflammation and or aseptic necrosis.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot.;" There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.	3
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Suspected meniscus, tendon, or ligament injury	1

Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Instability	2
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Swelling greater than 3 days	4
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury.No, there is no known trauma involving the knee.; Instability; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Instability	6
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Locking	2
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were normal.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Pain greater than 3 days	3
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physician directed course of non-steroidal anti-inflammatory medications; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.	2
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is a suspected tarsal coalition.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.	2
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has a documented limitation of their range of motion.	1
Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		This is a request for an Ankle MRI.; This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient had an abnormal plain film study of the ankle other than arthritis.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; The patient does not have a documented limitation of their range of motion.; This study is not being ordered by an operating surgeon for pre-operative planning.	1

Internal Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		Unknown; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; No, patient has not completed and failed a course of conservative treatment.	1
Internal Medicine	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has a documented limitation of their range of motion.	1
Internal Medicine	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		XR HIP 2 OR 3 VIEWS LT Subcapital fracture left femoral neck, nondisplaced. 2. Mild left hip joint osteoarthritis Moderate right hip joint osteoarthritis. No displaced fracture or acute bony abnormality identified; This study is being ordered for trauma or injury.; 06/2018; There has not been any treatment or conservative therapy.; complaints of bilateral hip discomfort and stiffness with external rotation of the hips. She denies any known injury. She states that she notices this mostly when she is doing lunges. She denies any erythema, edema, or increased warmth of the joints.she; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		blood in urine, abdominal distension, back pain, possible kidney bleed; This study is being ordered for trauma or injury.; 08/20/18; There has not been any treatment or conservative therapy.; blood in urine, unable to walk, sever pain when breathing; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		exposure to HEP A at restaurant Fever and abdominal pain; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		Nausea and abdominal pain for 1 month - recent US impression: Geographic area of relative hypoechoogenicity anterior segment right lobe may reflect area of fatty sparing although mass is not excluded. Recommend triphasic pre and postcontrast abdomen CT.; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; This is a request for initial staging of a known tumor other than prostate.; No, this is not a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; This is not a request for initial staging of a known tumor other than prostate.; This patient does NOT have known prostate cancer with a PSA (prostate-specific antigen) greater than 10.; No, this is not a request for follow up to a known tumor or abdominal cancer.; Yes, there is a palpable or observed abdominal mass.; Yes, there has been a recent abdominal CT scan.; No, this is not a repeat of a CT of the abdomen within 6 weeks.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; Yes, this is a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT	6
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; This study is being ordered for another reason besides Crohn's disease, Abscess, Ulcerative Colitis, Acute Non-ulcerative Colitis, Diverticulitis, or Inflammatory bowel disease.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are known or endoscopic findings of Diverticulitis.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; Yes, the patient has been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	6
Internal Medicine	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are clinical findings or indications of Lymphadenopathy.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing		patient also has very large left inguinal hernia extending into the left scrotum, dr hoping to get a better look at the S1 and strongly suggesting surgery; This study is being ordered for Vascular Disease.; May 2014; There has been treatment or conservative therapy.; patient has had a couple of strokes the past several years - latest one was last year where he also had a seizure. Finding in the ER was an aortic aneurism and patient was supposed to have a repeat CT 6 months later but did not; anti-seizure medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the abdomen.	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type in Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type in Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; The reason for the study is vascular disease.; There is known or suspicion of an abdominal aortic aneurysm.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type in Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		< Enter answer here - or Type in Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for glucose.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has not been a physical exam.; The patient had an lipase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed a Kidney/Renal cyst(s); Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Assess response to treatment.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Duration of Diagnosis. Reports weeks (1) Current symptoms: Reports dysuria, urinary frequency, urinary urgency, leakage without knowing, vaginal odor, other Reports flank pain, nausea and urinary incontinence and change in urine (Color, Clarity) (Yester; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		NEED ASAP PLEASE: c/o nausea & vomiting since Friday last week, can't eat, also having diarrhea-watery. taking Zofran, colonoscopy 2001, cologuard 07-04-2018 cologuard result negative. afebrile, labs not drawn yet.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Patient has a medical history of hypertension, hyperlipidemia, obesity, abnormal pap smear, and iron deficiency. Previous colonoscopy showed hyperplastic polyp and external hemorrhoids. Has ongoing issues with heartburn and dysphagia to solids and occasio; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		PT WITH METASTATIC RT BREAST CA. PT STARTED ON ABEMACICLIB AND LETROZOLE ON 6/12/18. DR WANTING CT TO ASSESS RESPONSE TO TX.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for protein.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for acute pain.; There has not been a physical exam.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient has a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not known if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	3
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed more than 10 months ago.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed within the past 10 months.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	3
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	2

Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is vascular disease.; There is known or suspicion of an abdominal aortic aneurysm.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is vascular disease.; There is not a known or suspicion of an abdominal aortic aneurysm.; There is not an abnormal abdominal/pelvic ultrasound.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT ; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	12
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	8
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	3
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed something other than Gall Stones, Kidney/Renal cyst, Aneurysm or a Pelvis Mass.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has been completed.; The results of the contrast/barium x-ray were normal.; The patient had an endoscopy.; The endoscopy was normal.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	28
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon.;" Pt is having severe abdominal and pelvic pain and flank and rebound tenderness.	1
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for organ enlargement.; There is an ultrasound or plain film evidence of an abdominal organ enlargement.; h/o iron overload. h/o portal vein thrombosis. new abd pain and elevated LFTs.Iron overload due to repeated red blood cell transfusions. Thrombocytosis after splenectomy	1
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;"	2
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" < Enter answer here - or Type In Unknown If No Info Given. >	1
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" CT recommended a MRI	1
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" US results fatty liver, likely geographic. Given mild heterogeneity of the liver echogenicity, CT or MRI hepatic mass protocol is recommended	1
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;"	1

Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" < Enter answer here - or Type In Unknown If No Info Given. >	1
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A kidney abnormality was found on a previous CT, MRI or Ultrasound.; The patient has a tumor.	1
Internal Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.;	1
Internal Medicine	Approval	74185 Magnetic resonance angiography, abdomen, with or without contrast material(s)		This is a request for a MR Angiogram of the abdomen.	3
Internal Medicine	Approval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)		This request is for a Coronary CT Angiography study.; Yes, patient had a Nuclear Cardiology study within the past six months.; Ms Faucette is a very pleasant 47yo AA lady with significant history of HTN, OSA with CPAP, DJD/chronic back pain, followed by Dr. Hardin, presented for evaluation of chest discomfort and palpitations. No medication changes were made on last visit. Since	1
Internal Medicine	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the abdominal arteries.	3
Internal Medicine	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral			1
Internal Medicine	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		; This is a request for Breast MRI; This study is being ordered as a screening examination for known family history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; No, this patient does not have axillary node adenocarcinoma.; No, there are no anatomic factors (deformity or extreme density) that make a simple mammogram impossible.; It is unknown if there are benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
Internal Medicine	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		; This is a request for Breast MRI; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
Internal Medicine	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI; This study is being ordered as a screening examination for known family history of breast cancer.; There is a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	5
Internal Medicine	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI; This study is being ordered for a suspected implant rupture.; Yes, this study is being ordered to evaluate a suspected silicone implant rupture.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.; This study is being ordered for None of the above; The patient has not had a stress echocardiogram within the past eight weeks.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		Patient is experiencing increased palpitations. History of hyperlipidemia, hypertension, morbid obesity and abnormal EKG. The study is being ordered for suspected CAD. The patient is presenting with symptoms of atypical chest pain and/or shortness of breath. The patient has not had previous cardiac surgery or angioplasty.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); The patient does not have a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; There is documented findings of severe pain on motion.	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; < Enter answer here - or Type In Unknown If No Info Given. >	2

Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
Internal Medicine	Disapproval	73706 Computed tomographic angiography, lower extremity, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the lower extremity.	2
Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This is a request for a foot MRI; The study is being ordered for foot pain.; The study is being ordered for chronic pain.; The patient has had foot pain for over 4 weeks.; The patient has been treated with anti-inflammatory medication for at least 6 weeks.	1
Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	none; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/2017; There has been treatment or conservative therapy.; pain, weakness, arthritis; physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	R/O ligament injury; due to nail puncture in foot.; This study is being ordered for trauma or injury.; 06/27/2018; There has been treatment or conservative therapy.; Pt suffers with paresthesia and pain; Pt HEP, rest, steroids and NSAIDs; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a suspected tarsal coalition.	1
Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has a documented limitation of their range of motion. < < Enter answer here - or Type In Unknown If No Info Given. > >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 7/17/18; There has been treatment or conservative therapy.; pain when walking, joint pain, limit range of motion.; PT and seen a chiropractor; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	< < Enter answer here - or Type In Unknown If No Info Given. > >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; JUNE 2018; There has been treatment or conservative therapy.; LOW BACK AND HIP PAIN; PHYSICAL THERAPY, MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Internal Medicine	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	< < Enter answer here - or Type In Unknown If No Info Given. > >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; JUNE 2018; There has been treatment or conservative therapy.; LOW BACK AND HIP PAIN; PHYSICAL THERAPY, MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a requests for a hip MRI; The member has not failed a 4 week course of conservative management in the past 3 months.; The hip pain is chronic.; The request is for hip pain. This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Internal Medicine	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is receiving long-term steroid therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Internal Medicine	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Elevated liver enzymes for greater than 1 year; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Severe abdominal pain upon eating certain foods.; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an Abdomen CT.; This study is being ordered for a kidney/ureteral stone.; There is a known or a strong suspicion of kidney or ureteral stones.; Yes this is a request for a Diagnostic CT < < Enter answer here - or Type In Unknown If No Info Given. > >; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary		1

Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; this problem started on 9/11/2018; There has not been any treatment or conservative therapy.; Patient is having back pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Inspection: normal to inspection Palpation: soft, tender Details: LLQ and RLQ Auscultation: hypoactive bowel sounds Skin  Pain is getting worse; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	PAIN IN RUQ HURTS TO LEAN OVER DEVELOPES SWEATS AND VERY NAUSEAOSEn; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI. This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for glucose.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	4
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Other; Mrs. Doyle is a 26 year old woman with a past medical history of hypothyroidism here for evaluation of abdominal pain, diarrhea, and nausea. As a child, she was diagnosed with "lazy bowels" at the children's Hospital in Houston. She had a colonoscopy ab; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; There is a known or a strong suspicion of kidney or ureteral stones.; Kidney/Ureteral stone; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	4
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	8
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	4
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen, without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; < Enter answer here - or Type In Unknown If No Info Given. >	1
Internal Medicine	Disapproval	75571 Computed tomography, heart, without contrast material, with quantitative evaluation of coronary calcium	Radiology Services Denied Not Medically Necessary	Unknown; This is a request for a CT scan for evaluation of coronary calcification.	1
Internal Medicine	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	FAMILY HX OF BREAST CANCER IN MOM; This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; No, this patient does not have axillary node adenocarcinoma.; No, there are no anatomic factors (deformity or extreme density) that make a simple mammogram impossible.	1
Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Angina pectoris, unspecified; This is a request for Myocardial Perfusion imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.; This study is being ordered for None of the above; The patient has not had a stress echocardiogram within the past eight weeks.	1

Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	pt had heart cath in 2016 with blockage and has known cad with dyspnea upon exertion.; The study is being ordered for known CAD.; The CAD diagnosis was established by something other than, a previous cardiac surgery / angioplasty, a previous MI, congestive heart failure or a previous stress echocardiogram, nuclear cardiology study or a stress EKG.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Disapproval	78813 Positron emission tomography (PET) imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Melanoma.; It is unknown if this is for evaluation of regional lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; There has NOT been a change in clinical status since the last echocardiogram.; This request is for initial evaluation of a murmur.; The murmur is NOT grade III (3) or greater.; There are NOT clinical symptoms supporting a suspicion of structural heart disease.; This is a request for follow up of a known murmur.	1
Interventional Radiologists	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for Vascular Disease.; 02/22/18; There has been treatment or conservative therapy.; follow up after the 4V that was done in Feb.; Unknown other than the 4V w/Right ICA stent; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Interventional Radiologists	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	1
Interventional Radiologists	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; Yes, this is a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT	2
Interventional Radiologists	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A liver abnormality was found on a previous CT, MRI or Ultrasound.; There is suspicion of metastasis.	2
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The patient is diabetic.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is a Medicare member.; This study is being ordered for Cardiac symptoms including chest pain (angina) and/or shortness of breath; The symptoms can be described as "Typical angina" or substernal chest pain that is worse or comes on as a result of physical exertion or emotional stress; The chest pain was NOT relieved by rest (ceasing physical exertion activity) and/or nitroglycerin	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The patient is diabetic.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	2
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The patient is presenting new symptoms of chest pain or increasing shortness of breath.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.; This study is being ordered for Suspected Coronary Artery Disease (CAD); The patient has not had a stress echocardiogram within the past eight weeks.	6
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have diabetes.; This is a Medicare member.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have diabetes.; This is NOT a Medicare member.; The patient is 65 or older.	1
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for known CAD.; The patient is presenting new symptoms of chest pain or increasing shortness of breath.; This patient has congestive heart failure.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	2

Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are documented clinical findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	8
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; This patient is clinically obese or has an emphysematous chest configuration.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	2
Internal Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.; The patient has known diabetes	1
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; This is for evaluation of axillary lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Colo-rectal Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Melanoma.; This is NOT for evaluation of regional lymph nodes.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Interventional Radiologists	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2/17/18; There has been treatment or conservative therapy.; pain; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Interventional Radiologists	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has lupus, having a flare up for 4 weeks and it's getting worse.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Nephrology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; It is not known if there has been any treatment or conservative therapy.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Nephrology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; There has not been any treatment or conservative therapy.; back pain headaches; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Nephrology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; "There is a sudden onset of one-sided weakness, speech impairment, vision defects or severe dizziness."; This is a request for a Neck MR Angiography.	1
Nephrology	Approval	71250 Computed tomography, thorax; without contrast material		unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10/12/2017; There has not been any treatment or conservative therapy.; LDH is elevated; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Nephrology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material			1
Nephrology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		None; This study is being ordered for a neurological disorder; 4 weeks ago; There has been treatment or conservative therapy.; Hx of AAA Severe neck pain SOB COPD; Rx medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; It is unknown if this study is being requested for the initial evaluation of frequent or sustained atrial or ventricular cardiac arrhythmias.; The patient has an abnormal EKG	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; This request is for initial evaluation of a murmur.; It is unknown if the murmur is grade III (3) or greater.; There are clinical symptoms supporting a suspicion of structural heart disease.	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; This request is NOT for initial evaluation of a murmur.; This is NOT a request for follow up of a known murmur.	1
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Heart Failure; This is for the initial evaluation of heart failure.	2
Internal Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This is a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient has a history of a recent myocardial infarction (heart attack).	1
Internal Medicine	Approval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;		This is a request for a Stress Echocardiogram.; None of the listed reasons for the study were selected; The member does not have known or suspected coronary artery disease	1
Nephrology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Nephrology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10/12/2017; There has not been any treatment or conservative therapy.; LDH is elevated; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Nephrology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has not been any treatment or conservative therapy.; back pain headaches; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Nephrology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; The patient is presenting new symptoms.; This study is being ordered for follow-up.; The patient is not undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon.;"	1
Nephrology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon.;"	1
Nephrology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has not had an abdominal ultrasound, CT, or MR study.;" Unknown	1
Nephrology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; It is not known if there are documented physical findings consistent with an abdominal mass or tumor.; "The patient has had an abdominal ultrasound, CT, or MR study.;" Unknown	1
Nephrology	Approval	74185 Magnetic resonance angiography, abdomen, with or without contrast material(s)		This is a request for a MR Angiogram of the abdomen.	1
Nephrology	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		test is to prepare patient for kidney transplant recent EKG showed abnormality   Normal sinus rhythm Possible Left atrial enlargement Septal infarct , age undetermined Abnormal ECG; This study is being ordered as a pre-operative evaluation.; It is unknown if the patient has symptoms of atypical chest pain (angina) or shortness of breath.; The patient has not had a recent non-nuclear stress test.; The patient had a recent abnormal EKG consistent with CAD.; The patient has not had a recent stress echocardiogram.; The patient has not had a recent stress echocardiogram.; This evaluation is prior to major surgery involving general anesthesia.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient is male.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

Nephrology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Patient is a smoker, half pack a day, low sodium. Chronic Hypotonic & hyponatremia this could be secondary to lung disease, history of asthma and CAD.; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is 54 years old or younger.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Nephrology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Nephrology	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; Hypertensive urgency	1
Nephrology	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Unable to qualify for a transplant if they don't have test done. CTA portion to make sure she can have the blood flow to maintain a new organ.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Referred 02/21/2018; There has been treatment or conservative therapy.; End stage renal disease. Hypertension. Renal hyperparathyroidism, has had an heart attack coronary artery disease. Congestive heart failure. times 4 hearts stint placed in the past.; Hemo Dialysis; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		male with a right zygomatic arch fracture. He was seen in hospital at time of accident. Fractured was minimally displaced and did not require intervention. He returns for routine follow up. Complaints of headaches, blurry vision. He was found to have an I; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		none.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/19/2018; There has been treatment or conservative therapy.; a halo and tighten her bolts and almost 2 months out so this is when they are supposed to get the follow up to see how it is progressing.; patient was discharged from the hospital to rehab; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		Pt is current smoker, complaining of bronchilitis symptoms, chest congestion, productive cough x 1 year. Cerumen infection; This request is for a Low Dose CT for Lung Cancer Screening.; It is unknown if this patient has had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.	1
Internal Medicine	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	9
Internal Medicine	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		Pt has epigastric abdominal pain radiates through back and shoulder. Gall bladder ultrasound was abnormal. Unable to tolerate food. elevated amylase and lipase; This is a request for MRCP.; There is no reason why the patient cannot have an ERCP.	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; hands for aweek...neck since; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; pain meds, prednisone, muscle relaxers.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has not been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	forgetfulness Has forgotten food on stove x 2 once forgot where she was going; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
Internal Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a recurrent problem. The current episode started more than 1 month ago. The problem occurs constantly. The problem has been waxing and waning. The pain is located in the bilateral, retro-orbital, occipital and frontal region. The pain does not rad; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		Preoperative planning for craniectomy sx scheduled for 8/2/18. The CT is needed for the plate.; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Evaluation of known or suspected brain bleeding (hemorrhage, hematoma, subdural) best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	8
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; It is unknown if the study is being requested for evaluation of a headache.; The patient has the inability to speak.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or aneurysm.; This study is being ordered for neurological deficits.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; New onset of seizures or newly identified change in seizure activity or pattern best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has a congenital abnormality.; The patient has undergone treatment for a congenital abnormality (such as hydrocephalus or craniostenosis); The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	2
Neurological Surgery	Approval	70486 Computed tomography, maxillofacial area; without contrast material		"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is suspicion of neoplasm, tumor or metastasis.fct"; Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 7/31/18; It is not known if there has been any treatment or conservative therapy.; HEASACHE; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		unknown; This study is being ordered for a neurological disorder.; 1 week ago; There has been treatment or conservative therapy.; shooting pain that radiates to left shoulder, 10/10 pain, dizziness, neck stiffness and neck pain, certain head movements bring on dizziness, spondylosis without myelopathy, cervical arthrosis, weakness and numbness, paresthasias, spasms, decrease range; neck support, NSAids, medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Patient originally had symptomatic high grade coratid stenosis, on August 20 went under elective stenting, discharged a couple of days later on eloquist and aspirin; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Last week; There has not been any treatment or conservative therapy.; Ongoing fatigue since procedure, labile blood pressure, intermittent expression fortascia starting last week; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		cebral cyste; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		This is a request for an Orbit MRI.; There is a history of orbit or face trauma or injury. < Enter answer here - or Type in Unknown If No Info Given >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type in Unknown If No Info Given >; There has been treatment or conservative therapy.; HEADAHES, TMJ, ENLARGED PUPILS; CHIROPRACTIC CARE, MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		Chiari I suspected. ? IIH/ venous thrombosis. Will get MRV and spinal completion studies to R/O syringomyelia/ tethered cord. F/U after; This study is being ordered for Congenital Anomaly.; February 2018; There has been treatment or conservative therapy.; 27 year old female who was well until 2/18 when she developed ringing in her right then left ear and SN hearing deficit acc. to ENT. Also had transient tingling in extremities, headaches.; Clinicals to be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		Home exercise done for neck; This study is being ordered for a neurological disorder.; 8/28/2017 had surgery and still having issues; There has been treatment or conservative therapy.; dizziness, vertigo, neck movement and exercise, neck stiffness; Sept 2017 surgery; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		Mildly prominent sella , superficial draining venous malformation; This study is being ordered for a neurological disorder.; 12/2013; There has been treatment or conservative therapy.; Seizures, bruising of the head, recent vision changes, vertigo; Medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is immune-compromised.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is immune-compromised.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type in Unknown If No Info Given >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type in Unknown If No Info Given >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	3
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type in Unknown If No Info Given >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type in Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type in Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type in Unknown If No Info Given >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4/5/2018; There has not been any treatment or conservative therapy.; Migraines; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	frontal temporal and posterior headache with naussa; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Neurological Surgery	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is an immediate family history of aneurysm.; This is a request for a Brain MRA.	4
Neurological Surgery	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	3
Neurological Surgery	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient has a known aneurysm.; This is a request for a Brain MRA.	1

Neurological Surgery	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 03/2018; There has been treatment or conservative therapy.; Hearing Loss, Visual Disturbance, Headaches, Neck Pain, Constipation; Medication Therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		Cervical findings do not explain numbness/tingling; This study is being ordered for a neurological disorder.; 6 months; There has been treatment or conservative therapy.; Neck pain/upper extremity pain and numbness and tingling; 3 weeks of physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		Home exercise done for neck; This study is being ordered for a neurological disorder.; 8/28/2017 had surgery and still having issues; There has been treatment or conservative therapy.; dizziness, vertigo, neck movement and exercise, neck stiffness; Sept 2017 surgery; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem), without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem), without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is not a new and sudden onset of a headache less than 1 week not improved by medications.; It is not known if there is a family history (parent, sibling, or child) of stroke, aneurysm, or AVM (arteriovenous malformation)	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; The patient had an abnormal imaging (xray) finding related to the suspicion of cancer in this patient.; This is a request for a Chest CT.; This study is being requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic cough and pleuritic chest pain. Cough is sometimes productive. Having some post-tussive emesis.; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; An abnormal finding on physical examination led to the suspicion of infection.; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema); Yes this is a request for a Diagnostic CT	2
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is 54 years old or younger.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This study is being requested for an unresolved cough; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	4
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This study is being requested for 'none of the above'; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	persistent cough, minor productive cough and has had it for a while, sleep apnea, hypertension, arrhythmia.; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Restaging; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem), without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem), without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem), without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem), without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; Is is not known if the patient has a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection.; The doctor does not note on exam that the patient has delirium or acute altered mental status.; The patient does not have a Brain CT showing abscess, brain infection, meningitis or encephalitis; This is NOT a Medicare member.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem), without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for Parkinson's disease.; This study is being ordered for new neurological symptoms.; The neurologic symptoms include vision changes.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem), without contrast material		6 month follow up; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem), without contrast material		Analgesics on physical exam; This study is being ordered for a neurological disorder.; Unknown; There has been treatment or conservative therapy.; Muscle Fasciculations; Patient has had physical therapy as well as pain management; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Chiari I . To get cine flow and spinal completions to better eval. restart Topamax low dose (25mg/day) and Toradol prn for H/A. F/U when studies done. Robaxin for muscle spasm.; This study is being ordered for Congenital Anomaly.; Patient just said years.; There has been treatment or conservative therapy.; 32 year old female with history of chronic headaches for years and diagnosed with Chiari I in past. Persistent headaches despite treatment. Alos c/o visual blurriness at times, tinnitus, So pain exacerbated by Valsalva, occasional swallow issues, fine mot; Was referred to us by Dr. Daniel Watson. Notes to be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Chiari I (1.5), dysautonomia. To get MRI head cine as well as spinal completions. Refer to Dr. Greer. Probably will need SOD. ? syrxin. Tethered cord. CCI ? Will send for flex/ ext CV junction study as well. Probably has type I EDS/ simple hypermobility.; This study is being ordered for Congenital Anomaly.; 9/18/18; There has been treatment or conservative therapy.; Clinicals to be uploaded.; Clinicals to be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Chiari I with IH. worsening Chiari symptoms. Obtain MRI cine flow as well as spinal completions and F/U after. May need SOD.; This study is being ordered for Congenital Anomaly.; September 2016; There has been treatment or conservative therapy.; Clinicals to be uploaded.; Clinicals to be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		He had acdf done 4/12/18, making sure he is healing and fusing correctly from that.  The headaches are getting more frequent and worse, vision being effected.  Radiculopathy causing stumbling and altered gait. legs, to feet numb, and burning. neck to h; This study is being ordered for a neurological disorder.; 07/30/18; There has been treatment or conservative therapy.; HEADACHES, BLURRED VISION, ALTERED GAIT, PAIN IN RIGHT ARM TO HAND, RADICULOPATHY, NUMBNESS AND TINGLING. Had a stellate ganglion block about a month ago.He said the day after that he started having a lot of numbness and tingling in his right leg and fo; MEDICATIONS, BRACE, ICE, HEAT, ALTERED LIFE STYLE, REST; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patient originally had symptomatic high grade coratid stenosis, on August 20 went under elective stenting, discharged a couple of days later on eloquist and aspirin; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Last week; There has not been any treatment or conservative therapy.; Ongoing fatigue since procedure, labile blood pressure, intermittent expression fortascia starting last week; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patient suffered a traumatic subarachnoid hemorrhage on 07/04/18. He had a recent CT of head done and the radiologist recommended a MRI for further followup on area.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested due to trauma or injury.; There are not new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; The trauma or injury to the head occurred more than 1 week ago.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Previous MRI of the brain shows a Chiari 1 malformation with crowding at the foramen magnum. A CINE flow study is needed to evaluate CSF flow at the skull base. Onset of seizures and loss of gag reflex.; This study is being ordered for Congenital Anomaly.; Onset of symptoms 1 month ago; There has been treatment or conservative therapy.; Severe headache, light intolerance,neck pain, dizziness, vertigo, seizures, weakness, loss of gag reflex; NSAIDS and pain medication attempted for headache relief. Keppra initiated for further seizure prevention.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		These were the reasons for surgical intervention. Now patient is coming in for post operative evaluation.  HEAD AND NECK: Has headaches and neck lumps. ENT: Has ringing in the ears. EYES: Blurred vision. CARDIOLOGY: Palpitations. GI: Nausea. MUSCUL; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has a congenital abnormality.; The patient has undergone treatment for a congenital abnormality (such as hydrocephalus or craniostenosis).; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; It is unknown why this study is being ordered.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	4
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Internal Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	Current symptoms: Reports numbness Quality: Reports burning Severity: moderate Onset: 7.12 months Lower ext dermatomes involved: L4: right, L5: right, S1: right Associated Conditions Lumbar degenerative: Yes Other (sclerotic lesions in spine, believe; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	3
Internal Medicine	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is a preoperative or recent post-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is not experiencing symptoms of radiculopathy for six weeks or more.; There is no neurologic symptoms of bowel or urinary bladder dysfunction.; There is no suspicion of lumbar spine infection.; There is no suspicion of lumbar spine neoplasm or tumor or metastasis.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type in Unknown If No Info Given.  This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has not been treated with medication.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.	1

Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	<Enter answer here - or Type In Unknown If No Info Given .>; This study is being ordered for a neurological disorder.; 2015; There has been treatment or conservative therapy.; <Describe primary symptoms here - or Type In Unknown If No Info Given >; Ice/Heat* Rx* OTC*; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	<Enter answer here - or Type In Unknown If No Info Given .>; This study is being ordered for a neurological disorder.; hands for aweek...neck since; There has been treatment or conservative therapy.; <Describe primary symptoms here - or Type In Unknown If No Info Given >; pain meds, prednisone, muscle relaxers.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	<Enter answer here - or Type In Unknown If No Info Given .>; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; <Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; <Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical therapy.; It is not known if the patient had six weeks of Chiropractic care related to this episode.; <Enter Additional Clinical Information>	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient is presenting new symptoms.; This study is being ordered for follow-up.; This is a request for cervical spine MRI; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.;" It is not known when the last cervical spine MRI was performed.; Known Tumor with or without metastasis; LEFT SIDED MASS ON NECK	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Need the MRIs to evaluate for demyelinating processes.  Also, a pulmonary nodule was found on chest x-ray which needs further evaluation.; This study is being ordered for a neurological disorder.; Approximately July 2017; There has not been any treatment or conservative therapy.; Ms. Richards states that for about a month now the right side of her face has been drooping. This has been intermittent and mild. She denies issues chewing, swallowing, or closing her eye. It has seemed to improve over the last 2 weeks. She describes fe; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	None; This study is being ordered for a neurological disorder.; 4 weeks ago; There has been treatment or conservative therapy.; Hx of AAA Severe neck pain SOB COPD; Rx medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has had ongoing problems with c-spine pain, muscle spasm and migraine headaches thought to be associated with the c-spine nerve root compression. She has tried physical therapy and has not had relief of her symptoms. Please allow this exam to de; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	R/O disc or nerve problem; hx of bulging discs; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; <Enter Additional Clinical Information>	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.;	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Pt here c/o neck pain and radicular pain that is getting worse as well as causing increased headaches that are worsening, cervical ROM abnormal. Lateral flexion to the left decreased and rotation to left decreased, cervical spasm Thoracic/Lumbar Spine: t	1
Internal Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Trauma or recent injury; He was given robaxin and NSAIDs; he has not had any improvement in pain; in fact, pain has worsened on the left side of neck. Pain is worse at the end of the day and he is now having headaches. He endorses some occasional right hand pinky finger numb; Yes, the patient have new or changing neurological signs or symptoms.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	<Enter answer here - or Type In Unknown If No Info Given .>; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	<Enter answer here - or Type In Unknown If No Info Given .>; This study is being ordered for a neurological disorder.; hands for aweek...neck since; There has been treatment or conservative therapy.; <Describe primary symptoms here - or Type In Unknown If No Info Given >; pain meds, prednisone, muscle relaxers.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	<Enter answer here - or Type In Unknown If No Info Given .>; This study is being ordered for Vascular Disease.; back pain (ongoing for a year) Headache (lasting longer than 24); There has been treatment or conservative therapy.; headache and back pain; muscle relaxer; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Need the MRIs to evaluate for demyelinating processes.  Also, a pulmonary nodule was found on chest x-ray which needs further evaluation.; This study is being ordered for a neurological disorder.; Approximately July 2017; There has not been any treatment or conservative therapy.; Ms. Richards states that for about a month now the right side of her face has been drooping. This has been intermittent and mild. She denies issues chewing, swallowing, or closing her eye. It has seemed to improve over the last 2 weeks. She describes fe; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Pain is worsening and more severe. Over 30 minutes spent in examination with patient. Pt has failed outpatient conservative therapy, unable to perform sports and patient now having difficulties with daily ADL's due to increasing pain.; This study is being ordered for trauma or injury.; 4/20/18; There has been treatment or conservative therapy.; Pain worsening - more pronounced in the left paraspinal region at the insertion of the pelvis per the outpatient physical therapy documentation; Pt has been treated for 2 months with meloxicam 7.5mg daily for 2 1/2 months - muscle relaxer at bedtime - home physical therapy exercises for 2 months - outpatient physical therapy for 1 month - symptoms worsening and progressing; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Right-sided pain and stinging in patient with a previous history of lumbar discectomy indicates the need for spinal imaging to assess further.; This study is being ordered for a neurological disorder.; approximately 08/20/2013; There has been treatment or conservative therapy.; Right-sided shoulder, neck and upper back pain; Previously treated by a chiropractor; Naproxen 500mg twice daily; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does not have any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.	1
Internal Medicine	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Early 2017; There has been treatment or conservative therapy.; Pt has pain in neck and in her back, hard for patient to move d/t pain.; Medication. Possible other treatments with previous physicians.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary		1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness; in the patient lower extremities; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	3
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for a neurological disorder.;  Enter date of initial onset here - or Type In Unknown If No Info Given  There has been treatment or conservative therapy.; Low back pain, pain in left hip, numbness, pain radiates down the leg, and muscle weakness; Steroid pack, and pain meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	 Enter answer here - or Type In Unknown If No Info Given.  This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.;  Enter date of initial onset here - or Type In Unknown If No Info Given  It is not known if there has been any treatment or conservative therapy.;  Describe primary symptoms here - or Type In Unknown If No Info Given  One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	2
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	60 y.o. female who is followed by both myself and Pain management as well as Rheumatology with multiple medical problems as noted below here for medical management. Chronic left hip and low back pain. Osteopenia of lumbar spine.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; Mobic 15mg Norco 10-325mg	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	acute injury worsening after nsaid steroids, cannot ambulate progressing into leg pain -concern for disc herniation = nerve impingement; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	degenerative disc disease, age related osteoporosis, has gone for pain management in the past but it was not working members want to return to pain management to see if injections will help but MRI needed first.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	lifting his mother he hurt his low back. He also has pain in the interscapular region and has some muscle spasm to palpation. after 1 month of medication for pain and swelling he continues to have pain; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Low back pain left and right; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	na; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	none; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient osteophyte vertebra unspecified & lower back pain; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has a lower back injury and has had surgery for bulging disc.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	pt. has radicular pain into her legs, tenderness to lumbar area.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt. seeing Pain Mgmt. Doctor-no relief from back pain, pt. also has facial swelling, family hx. of diabetes, morbidly obese.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Weakness in BLE; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	R/O spinal stenosis/herniated disc; This study is being ordered for a neurological disorder.; 2017; There has not been any treatment or conservative therapy.; nerve and back pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	severe back pain, hand pain, numbness and swelling; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Internal Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has been treatment or conservative therapy.; mid to lower back pain.; medications, PT for 6 weeks; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Flank pain; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3weeks; There has not been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	Pt says her sacrum and other pelvic joints hurt. Says maybe pain in the SI joints. No recent falls. Had two falls in 2016 when she landed on her bottom. Her back pain is still a problem. She has been going to school at home. She is on the computer much; This is a request for a Pelvis MRI.; The study is being ordered for pelvic trauma or injury.; This is an evaluation of the sacrum.	1
Internal Medicine	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is no suspicion of upper extremity bone or soft tissue infection.; The ordering physician is not an orthopedist.; There is not a history of upper extremity trauma or injury.	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary		1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type in Unknown If No Info Given. >; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	bypass; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; bypass; It is not known if there has been any treatment or conservative therapy.; bypass; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Pt is unable to lift or raise shoulder; The requested study is a Shoulder MRI.; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Patient has had left shoulder and anterior CP. Was given prednisone and steroid shot without response. Denies injury. No SOB, N/V or diaphoresis. arthralgias/joint pain (left shoulder). limited ROM (on internal and external rotation of left shoulder. T	1

Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; PT PRESENTS WITH SEVERE PAIN LEFT SHOULDER AFTER MOVING A REFRIGERATOR 2 WEEKS AGO. LIMITED MOBILITY ON PHYSICAL ASSESSMENT WITH SEVERE PAIN ON ABDUCTION GREATER THAN OR EQUAL TO 45 DEGREES	1
Internal Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery; unknown	1
Internal Medicine	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a hip CT; This study is not being ordered in conjunction with a pelvic CT; There is not a suspected infection of the hip; The patient has not been treated with and failed a course of supervised physical therapy; There is not a mass adjacent to or near the hip.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has a documented limitation of their range of motion.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; A YEAR AGO; There has been treatment or conservative therapy.; PAIN, INJECTIONS, MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This is a request for a Knee MRI; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; No, patient has not completed and failed a course of conservative treatment.	1
Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	I have recommended that she undergo MRI of the pelvis and lower extremity due to the pain in her leg itself and hip. She does have significant knee pain and pain into the proximal tibia. The nature of these symptoms is unclear. She has undergone previous ; This study is being ordered for a neurological disorder.; 02/20/2018; There has been treatment or conservative therapy.; The pain is located in the back but also in the hip and pelvic region; she has had surgery and meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a lower extremity MRI; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture); This is not a pre-operative study for planned surgery.	1
Internal Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	unknown; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has been treatment or conservative therapy.; Low back pain, pain in left hip, numbness, pain radiates down the leg, and muscle weakness; Steroid pack, and pain meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic Flank pain, worse when lying down and on trips. Unexplained.; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Nausea and vomiting, intractability of vomiting not specified, unspecified vomiting type Abdominal pain, unspecified abdominal location History of cholecystectomy; This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; It is unknown if there are abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; This study is being ordered for another reason besides Crohn's disease, Abscess, Ulcerative Colitis, Acute Non-ulcerative Colitis, Diverticulitis, or Inflammatory bowel disease.; It is not known if there are findings that confirm hepatitis C.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Patent LFTs are extremely elevated and patient father has history of fatty liver and lupus.; This is a request for an Abdomen CT.; This study is being ordered for organ enlargement.; It is not known if there is evidence of organ enlargement on ultrasound, plain film, or IVP.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are clinical findings or indications of Hematuria.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	PAIN IN RUQ HURTS TO LEAN OVER DEVELOPES SWEATS AND VERY NAUSEOSEn; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Internal Medicine	Disapproval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	This is a request for CT Angiography of the Abdomen and Pelvis.	2
Internal Medicine	Disapproval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the abdomen.	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Flank pain; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3 weeks; There has not been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given. >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Restaging; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for ketones.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has not been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	11
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient does not have a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; It is unknown if the patient has Crohn's Disease, Ulcerative Colitis or Diverticulitis.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; It is unknown if the patient had an Ultrasound.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; It is unknown if the patient have an endoscopy.; Yes this is a request for a Diagnostic CT	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	2
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	THIS IS FOR A CTA CHEST ABD/PEL W CONTRAST. FOR ABDOMINAL AORTICANEURYSM (AAA) WITHOUT RUPTURE.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Internal Medicine	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Vaginal Bleeding, Cervical Cancer 2007, s/p XRT; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not known if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1

Internal Medicine	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Vascular Disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has not been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI; This study is being ordered for organ enlargement.; There is no ultrasound or plain film evidence of an abdominal organ enlargement.; hemochromatosis, evaluate fatty Liver.	1
Internal Medicine	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has not had an abdominal ultrasound, CT, or MR study.;" Need renal imaging for small mass. X-Ray pain in limb right knee pain unspecified chronicity. No acute osseous or soft tissue abnormality is identified. there is an enthesophyte at the insertion site of the quadriceps tendon to the patella.	1
Internal Medicine	Disapproval	74185 Magnetic resonance angiography, abdomen, with or without contrast material(s)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for Vascular Disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has not been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)	Radiology Services Denied Not Medically Necessary	The patient does not have three or more of the following conditions: age over 50, diabetes, history of hypertension, history of LDL cholesterol above 130, history of HDL cholesterol below 35, obesity (BMI above 35), and/or active history of smoking.; This request is for a Coronary CT Angiography study.; No, patient did not have a Nuclear Cardiology study within the past six months.; This study is being ordered for suspected Coronary Artery Disease (CAD) and symptomatic?; No, patient does not have new onset congestive heart failure.; Chest pain: This has been unremitting, and the patient had several episodes of chest pain and frequent episodes of shortness of breath and palpitations as well. Given the patient's history of smoking and strong family history of CAD, I am recommending a; Yes, there is Chronic Chest Pain.	1
Internal Medicine	Disapproval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)	Radiology Services Denied Not Medically Necessary	The patient does not have three or more of the following conditions: age over 50, diabetes, history of hypertension, history of LDL cholesterol above 130, history of HDL cholesterol below 35, obesity (BMI above 35), and/or active history of smoking.; This request is for a Coronary CT Angiography study.; No, patient did not have a Nuclear Cardiology study within the past six months.; This study is being ordered for suspected Coronary Artery Disease (CAD) and symptomatic?; No, patient does not have new onset congestive heart failure.; Persistent chest pain with strong family history and history of smoking: We will get a coronary CTA to rule out underlying coronary artery disease. We will also get a gallbladder ultrasound to rule out gallstones. We will add the patient on ranitidine ; Yes, there is Chronic Chest Pain.	1
Internal Medicine	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	abnormal mammo; This is a request for Breast MRI; This study is being ordered for known breast lesions.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; No, this patient does not have axillary node adenocarcinoma.; No, there are no anatomic factors (deformity or extreme density) that make a simple mammogram impossible.; It is unknown if there are benign lesions in the breast associated with an increased cancer risk.	1
Internal Medicine	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	This is a request for Breast MRI.; This study is being ordered for known breast lesions.; There are benign lesions in the breast associated with an increased cancer risk.	1
Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; There has not been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Bradycardia: States that he has always had a low heart rate. He denies any palpitations. Denies any SOB. Does not take a BB that could lower his heart rate. Does go for 1.5 mile walk a day; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient is less than 45 years old.; The patient does not have known diabetes	1
Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	pt has a strong family history of ischemic heart disease, being the cause of death of his father; The study is being ordered for suspected CAD.; The patient is not presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had a recent non-nuclear stress test.; The patient has not had a recent abnormal EKG consistent with CAD.; The patient has not had a recent stress echocardiogram.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	pt. has hx of cardiac arrhythmia since 2008. Holter monitor confirms PVCs. pt. c/o dull ache in left chest most of the time and worsening palpitations.; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study); This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Internal Medicine	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Internal Medicine	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	abnormalities found on previous low dose ct scan back in 07/2017 now doing 12 month follow up, has hx smoking 30 pack per year and has quit less than 15 yrs ago.; This request is for a Low Dose CT for Lung Cancer Screening.; This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient quit smoking less than 15 years ago.	1
Interventional Radiologists	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for Vascular Disease.; 02/22/18; There has been treatment or conservative therapy.; follow up after the 4V that was done in Feb.; Unknown other than the 4V w/Right ICA stent; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Interventional Radiologists	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is an immediate family history of aneurysm.; This is a request for a Brain MRA.	1
Interventional Radiologists	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Interventional Radiologists	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		This is a request for a Pelvis MRI.; Surgery is planned for within 30 days.; The study is being ordered for Evaluation of the pelvis prior to surgery or laparoscopy.	1
Interventional Radiologists	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		worsening menstrual cycles. She wears two pad at a time and changes them every two hours. She was having terrible cramping pain as well until May. She underwent myomectomy in May with significant improvement in pain and some improvement in bleeding. I; This is a request for a Pelvis MRI.; The study is being ordered for something other than suspicion of tumor, mass, neoplasm, metastatic disease, PID, abscess, Evaluation of the pelvis prior to surgery or laparoscopy, Suspicion of joint or bone infect	1
Interventional Radiologists	Approval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the abdomen.	1
Interventional Radiologists	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were abnormal.; Yes this is a request for a Diagnostic CT	1
Interventional Radiologists	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the abdominal arteries.	1
Interventional Radiologists	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2/17/18; There has been treatment or conservative therapy.; pain; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Nephrology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; It is not known if there has been any treatment or conservative therapy.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Nephrology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the brain.	1
Nephrology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	2
Nephrology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; The patient does not have a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection); The doctor notes on exam that the patient has delirium or acute altered mental status.; This is NOT a Medicare member.	1
Nephrology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has not been a previous Brain MRI completed.	1
Nephrology	Approval	74150 Computed tomography, abdomen; without contrast material		cyst on kidney; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone,  Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement,  Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Nephrology	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; Yes, this is a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT	1
Nephrology	Approval	74150 Computed tomography, abdomen; without contrast material		This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT	2
Nephrology	Approval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Unable to qualify for a transplant if they don't have test done. CTA portion to make sure she can have the blood flow to maintain a new organ.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Referred 02/21/2018; There has been treatment or conservative therapy.; End stage renal disease. Hypertension. Renal hyperparathyroidism, has had an heart attack coronary artery disease. Congestive heart failure. times 4 hearts stint placed in the past.; Hemo Dialysis; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Nephrology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Nephrology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is pre-op or post op evaluation.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Nephrology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	2
Nephrology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		This is a request for an abdomen-pelvis CT combination; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Nephrology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI; This study is being ordered for suspicious mass or suspected tumor/metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.;" "The patient has had an abdominal ultrasound, CT, or MR study.;" Patient was approved in May 2018 for the MRI but was unable to make the appointment so we are needing to get it rescheduled however it is past the 90 status time so we are requesting a new auth approval. Thank you	1
Nephrology	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study);. The patient has not had other testing done to evaluate new or changing symptoms.; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; There are new or changing cardiac symptoms including atypical chest pain (anginal) and/or shortness of breath.; There is known coronary artery disease, history of heart attack (MI), coronary bypass surgery, coronary angioplasty or stent.; The member has known or suspected coronary artery disease.; The BMI is 40 or greater	1
Nephrology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a history of HIV or immunocompromised status.; Headache best describes the reason that I have requested this test.	1
Nephrology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal finding on examination of the chest, chest wall and/or lungs describes the reason for this request; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Nephrology	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Pain 6 weeks ago, loss of function with only 45degree abduction, not rehab outpatient candidate; The requested study is a Shoulder MRI.; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, one sided arm or leg weakness, the inability to speak, or vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or aneurysm.; This study is being ordered for a previous stroke or aneurysm.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		Pt had a craniotomy; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	8
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Evaluation of known or suspected subarachnoid hemorrhage best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Known or suspected blood vessel abnormality (AVM, aneurysm) with documented new or changing signs and/or symptoms best describes the reason that I have requested this test.; This is NOT a Medicare member.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Known or suspected infection best describes the reason that I have requested this test.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Known or suspected TIA (stroke) with documented new or changing neurologic signs and/or symptoms best describes the reason that I have requested this test.; This is NOT a Medicare member.	2
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.	15
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a chronic headache, longer than one month; Headache best describes the reason that I have requested this test.	5
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a known brain tumor.; Known or suspected tumor best describes the reason that I have requested this test.; There are documented neurologic findings suggesting a primary brain tumor.; This is NOT a Medicare member.	3
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; It is unknown if the patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or aneurysm.; This study is being ordered for neurological deficits.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
Neurological Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; This study is being ordered for evaluation of known tumor.	2
Neurological Surgery	Approval	70490 Computed tomography, soft tissue neck; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs speciality is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Patient originally had symptomatic high grade coratid stenosis, on August 20 went under elective stenting, discharged a couple of days later on elokuist and aspirin; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Last week; There has not been any treatment or conservative therapy.; Ongoing fatigue since procedure, labile blood pressure, intermittent expression fortascia starting last week; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs speciality is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the brain.	18
Neurological Surgery	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		unknown; This study is being ordered for a neurological disorder.; 1 week ago; There has been treatment or conservative therapy.; shooting pain that radiates to left shoulder, 10/10 pain, dizziness, neck stiffness and neck pain, certain head movements bring on dizziness, spondylosis without myelopathy, cervical arthrodosis, weakness and numbness, paresthesias, spasms, decrease range; neck support, Nsaids, medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the Neck.	3
Neurological Surgery	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		"This is a request for orbit,face, or neck soft tissue MRI.239.8"; The study is ordered for suspicion of neoplasm, tumor or metastasis	1
Neurological Surgery	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)		Cervical findings do not explain numbness/tingling; This study is being ordered for a neurological disorder.; 6 months; There has been treatment or conservative therapy.; Neck pain/upper extremity pain and numbness and tingling; 3 weeks of physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		& Enter answer here - or Type In Unknown If No Info Given. &; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		& Enter answer here - or Type In Unknown If No Info Given. &; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		& Enter answer here - or Type In Unknown If No Info Given. &; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		& Enter answer here - or Type In Unknown If No Info Given. &; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		& Enter answer here - or Type In Unknown If No Info Given. &; This study is being ordered for a neurological disorder.; 7/31/18; It is not known if there has been any treatment or conservative therapy.; HEASACHE; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		& Enter answer here - or Type In Unknown If No Info Given. &; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; & Enter date of initial onset here - or Type In Unknown If No Info Given &; It is not known if there has been any treatment or conservative therapy.; & Describe primary symptoms here - or Type In Unknown If No Info Given &; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		& Enter answer here - or Type In Unknown If No Info Given. &; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; & Enter date of initial onset here - or Type In Unknown If No Info Given &; There has been treatment or conservative therapy.; HEADAHES, TMJ, ENLARGED PUPILS, CHIROPRACTIC CARE, MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		; This study is being ordered for Congenital Anomaly.; birth; There has been treatment or conservative therapy.; headaches neck pain dizziness numbness vision chages; meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		annual surveillance of right parietal convexity meningioma. patient has metastatic breast cancer, with lesions on spine neurologist wants to make sure lesion found in her brain does not begin to get larger; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Cervical findings do not explain numbness/tingling; This study is being ordered for a neurological disorder.; 6 months; There has been treatment or conservative therapy.; Neck pain/upper extremity pain and numbness and tingling; 3 weeks of physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Constitutional: Constitutional: no significant weight gain or loss and no fever.  Cardiovascular: Cardiovascular: no chest pain.  Respiratory: Respiratory: no shortness of breath.  Gastrointestinal: Gastrointestinal: no nausea, vomiting, constipatio; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		dermatomal changes tingling on the right side of the neck arm and torso; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Enter answer here - or Type In Unknown  Mr. Lemmons is a 42yo Caucasian male who returns today for followup. He is s/p gamma knife for right occipital metastasis for malignant melanoma in Dec 2014, and then another Gamma Knife for a left frontal convexity; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The results of the lab tests are unknown.; The patient is experiencing dizziness.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Home exercise done for neck; This study is being ordered for a neurological disorder.; 8/28/2017 had surgery and still having issues; There has been treatment or conservative therapy.; dizziness, vertigo, neck movement and exercise, neck stiffness; Sept 2017 surgery; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Known to me . Mild Chiari I which is stable on MRI and T spine with slight increased syrinx axially but decreased length significantly with Diamox. Fell and hurt right hand. No obvious fracture on my review today. Neuro - intact. Will recheck MRI T spine I; This study is being ordered for Congenital Anomaly.; 8/2/16; There has been treatment or conservative therapy.; 15 year old female with at least one sister with Chiari I who was diagnosed in 2014 with Chiari I by Dr. Boop. At that time the was a suspicious area as signal intensity change in the cord as well.. She has had severe suboccipital headaches exacerbated by; Followed for chiari malformation and syrinx.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Mildly prominent sella , superficial draining venous malformation; This study is being ordered for a neurological disorder.; 12/2013; There has been treatment or conservative therapy.; Seizures, bruising of the head, recent vision changes, vertigo; Medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		patient has hydrocephalus; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; It is not known if the patient has undergone treatment for a congenital abnormality (such as hydrocephalus or craniosynostosis); There are not recent neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.; It is not known if surgery is planned within the next 4 weeks.; It is not known if an operation for shunt placement (for brain fluid drainage) is being considered or a non-metallic shunt is not functioning correctly.; The patient has a congenital abnormality.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Patient was referred back to Dr. Krishit by another neurosurgeon asking to consider whether or not her AVM needs to be investigated further.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for an aneurysm; This study is being ordered as a screening for an aneurysm or AVM (arteriovenous malformation).	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Per op movement disorder; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing dizziness.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The patient has not undergone treatment for a congenital abnormality (such as hydrocephalus or craniosynostosis); There are recent neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.; The patient has a congenital abnormality.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has been a previous Brain MRI completed.; The brain MRI was abnormal.	3
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	47
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is a pituitary tumor or pituitary adenoma.; There are physical findings or laboratory values indicating abnormal pituitary hormone levels.; This is NOT a Medicare member.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.	13
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; It is not known if a biopsy has been completed to determine tumor tissue type.; There are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.	3
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for a tumor.	13
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		To check the growth of the tumor; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		unknown; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		wanting to see if they need surgery; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; pain, from base of neck to tailbone , bowel and bladder dysfunction; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	71250 Computed tomography, thorax; without contrast material		; This study is being ordered for trauma or injury.; April 2018; There has been treatment or conservative therapy.; Pain with numbness; Hydrocodone/NSAIDS/Brace; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		It is felt that this most likely represents a benign hemangioma. However given its epidural location it may require intervention at some point. Sometimes hemangiomas will regress with therapy with aspirin and propranolol. Therefore I will go ahead and ; This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for another reason besides Known or Suspected Congenital Abnormality, Known or suspected Vascular Disease.; Yes, this is a request for a Chest CT Angiography.	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material			1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		Evaluation of cervical spine fracture; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		NECK PAIN, CERVICAL STENOSIS; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 08/27/2018; There has not been any treatment or conservative therapy.; neck pain, right hand weakness which has been progressive. She has had gait problems as well. She also has lumbar pain and complains of losing 4 inches. She continues to have problems with neck and innerscapular pain with shoulder pain and headaches.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		none.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/19/2018; There has been treatment or conservative therapy.; a halo and tighten her bolts and almost 2 months out so this is when they are supposed to get the follow up to see how it is progressing.; patient was discharged from the hospital to rehab; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		post surgery neck stiffness had surg june 11th then patient fall last week 8/14/2018 worried out pull out of screws lat c3 and c4; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		pre operative; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to follow-up surgery or fracture within the last 6 months.; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist.;" There is a reason why the patient cannot have a Cervical Spine MRI.	2
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to pre-operative evaluation.; The patient is experiencing or presenting symptoms of asymmetric reflexes.; There is a known condition of neurological deficits.; There is a reason why the patient cannot have a Cervical Spine MRI.	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		This study is to be part of a Myelogram.; This is a request for a Cervical Spine CT	20
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/1/2018; There has been treatment or conservative therapy.; Pt has a knot in the soft tissue of the neck. Pt has had neck surgery in the past, difficulty swallowing and arm pain; anti-inflammatory and steroids; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		8/3/18 S/P T12/L1 block which gave her 2 weeks of near complete relief. Pending T9/T10 selective block. Will plan on intervention for degenerative disease, herniated disc and kyphosis at T12/L1 to include DLL/ fusion and possibly at T9/T10. Needs prep CT; This study is being ordered for a neurological disorder.; Patient has had spine sx. Notes will be uploaded.; There has been treatment or conservative therapy.; Patient has had spine sx. Notes will be uploaded.; Patient has had spine sx. Notes will be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		Known to me 12 weeks s/p T/L fusion for fracture/ dislocation. Current Xrays show stable postop result with excellent alignment. He remains paraparetic though he has had some definitive improvement - he is not ambulatory. Counseled on activities and to F/; This study is being ordered for trauma or injury.; 2/28/18; There has been treatment or conservative therapy.; This is a postop visit.; Decompressive lumbar laminectomy with medial facetectomy and foraminotomy for decompression; bilateral lateral arthrodesis T10 to L1; Ulrich Pedicle Screw instrumentation; MAP3, allograft, autograft fusion.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine CT.; The study is being ordered due to chronic back pain or suspected degenerative disease.; There is a reason why the patient cannot undergo a thoracic spine MRI.; The patient is experiencing or presenting abnormal gait.; Yes this is a request for a Diagnostic CT	2
Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		The patient has some significant burning pain in his heel that I think is still residual from his residual cord impingement prior to his original thoracic surgery. He is also having some burning dysesthesia around his incision. His back is just not gettin; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/30/2017; There has been treatment or conservative therapy.; HE IS three months out from his lumbar fusion and eight months out from his thoracic fusion. He does continue to have some low back pain that wraps around into his abdomen. He is also having some bilateral knee down into his feet numbness and tingling. Th; PATIENT HAS COMPLETED PHYSICAL THERAPY, SEVERAL INJECTIONS AND HAS HAD SURGERY.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		This is a request for a thoracic spine CT.; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist.;" The study is being ordered due to follow-up to surgery or fracture within the last 6 months.; There is a reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	2
Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		unknown; This is a request for a thoracic spine CT.; Caller does not know whether there is a reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	1

Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 10/09/17; There has been treatment or conservative therapy.; back pain; BOTH; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Previous imaging showed left cerebellar developmental venous anomaly, a left temporal type 1 arachnoid cyst, and then mild subtle ectopia where the cerebellars are 3-4mm below the foramen magnum.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; It is not known if there is a new and sudden onset of a headache less than 1 week not improved by medications.; It is not known if there is a family history (parent, sibling, or child) of stroke, aneurysm, or AVM (arteriovenous malformation)	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Pt with brain tumor never resected being followed every two years with MRI. Pt has no symptoms but has a frontal brain lesion.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		see case N18081500008 - 055734989 brain CT denied -- notes** 8/17/2018 8:25:11 AM Jeffrey J Whitehouse, MD Peer-to-Peer Discussion held. Case decision discussed with and understood by ALI KRISHT. Synopsis of discussion: s/p cerebellar stroke stenosis; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; It is not known if there are recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Spina bifida with hydrocephalus.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	12
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	5
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the patient has undergone treatment for a congenital abnormality (such as hydrocephalus or craniostenosis).; There are recent neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.; The patient has a congenital abnormality.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing vertigo	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The patient has undergone treatment for a congenital abnormality (such as hydrocephalus or craniostenosis).; The patient has a congenital abnormality.	3
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested due to trauma or injury; There are new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	2
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; The patient has a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection.); This is NOT a Medicare member.	2
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has not been a previous Brain MRI completed.	2
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for an aneurysm.; This study is being ordered for neurological deficits.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for Multiple Sclerosis.; The patient has new symptoms.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for and infection or inflammation.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for seizures.; There has been a change in seizure pattern or a new seizure.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for seizures.; There has NOT been a change in seizure pattern or a new seizure.; This is a new patient.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		To evaluate for Chiari malformation.; This study is being ordered for Congenital Anomaly.; 4 months; There has been treatment or conservative therapy.; Clinicals to be uploaded.; Clinicals to be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		unknown; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Unknown; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The headache is not described as a "thunderclap" or the worst headache of the patient's life.; Requested for evaluation of tumor; It is not known if a biopsy has been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is a new and sudden onset of headache (less than 1 week) not improved by pain medications.	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		Unknown; This study is being ordered for Congenital Anomaly.; 07/19/2018; There has been treatment or conservative therapy.; Tethered spinal cord; Unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 03/2018; There has been treatment or conservative therapy.; Hearing Loss, Visual Disturbance, Headaches, Neck Pain, Constipation; Medication Therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	71250 Computed tomography, thorax; without contrast material		'None of the above' describes the reason for this request.; Finding of cancer elsewhere is related to the suspicion of cancer in this patient.; This is a request for a Chest CT.; This study is being requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)		Cont w leftsided neck pain that radiates to the left shoulder and down the left arm to the fingertips. Described as a burning and numbness down the arm to the fingertips. Failed Physical therapy; This study is NOT being ordered for a Work-up for Suspicious Mass, Known Tumor, Known or Suspected Inflammatory Disease, etc.;. This is a request for a chest MRI.	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 2015; There has been treatment or conservative therapy.; hyper reflex, and radiculopathy; physical therapy, injections, chiropractic, NSIDS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	2
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		DIFFICULTY SWALLOWING; This study is being ordered for a neurological disorder.; 06/26/2018; There has been treatment or conservative therapy.; FELL, RIGHT NECK AND SHOULDER PAIN, WAEAKNESS OF THE RIGHT ARM; ANTI-INFLAMMATORY MEDS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		mri doesn't show clear nerve roote compression; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		PAIN; This study is being ordered for trauma or injury.; 05/17/2018; There has been treatment or conservative therapy.; WEAKNESS; MUSCLE RELAXERS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		the enhancement in the vertebral bodies adjacent to her previous surgery. I think it is more just kind of artifact. We are going to get a CT scan to give us a better idea what is going on. She does seem to have possibility of an adjacent level disc bel; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		The patient does have neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to chronic neck pain or suspected degenerative disease.; There has been a supervised trial of conservative management for at least 6 weeks.; The patient is experiencing sensory abnormalities such as numbness or tingling.; There is a reason why the patient cannot have a Cervical Spine MRI.; This study is being ordered for another reason besides Abnormal gait, Lower extremity weakness, Asymmetric reflexes, Documented evidence of Multiple Sclerosis,  Bowel or bladder dysfunction, Evidence of new foot drop, etc...	1
Neurological Surgery	Approval	72125 Computed tomography, cervical spine; without contrast material		The patient does have neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to chronic neck pain or suspected degenerative disease.; There is a reason why the patient cannot have a Cervical Spine MRI.; The patient is experiencing or presenting symptoms of Abnormal gait.	1
Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		; This is a request for a thoracic spine CT.; There is no reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		PAIN; This study is being ordered for trauma or injury.; 05/17/2018; There has been treatment or conservative therapy.; WEAKNESS; MUSCLE RELAXERS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72128 Computed tomography, thoracic spine; without contrast material		This is a request for a thoracic spine CT.; The study is being ordered due to pre-operative evaluation.; There is a reason why the patient cannot undergo a thoracic spine MRI.; There is no known condition of tumor, infection, or neurological deficits.; Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material		; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material	8/3/18 S/P T12/L1 block which gave her 2 weeks of near complete relief. Pending T9/T10 selective block. Will plan on intervention for degenerative disease, herniated disc and kyphosis at T12/L1 to include DLU fusion and possibly at T9/T10. Needs prep CT; This study is being ordered for a neurological disorder.; Patient has had spine sx. Notes will be uploaded.; There has been treatment or conservative therapy.; Patient has had spine sx. Notes will be uploaded.; Patient has had spine sx. Notes will be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material	DIFFICULTY SWALLOWING; This study is being ordered for a neurological disorder.; 06/26/2018; There has been treatment or conservative therapy.; FELL, RIGHT NECK AND SHOULDER PAIN, WAEAKNESS OF THE RIGHT ARM; ANTI-INFLAMMATORY MEDS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material	Known to me 12 weeks s/p T/L fusion for fracture/ dislocation. Current XRays show stable postop result with excellent alignment . He remains paraparetic though he has had some definitive improvement - he is not ambulatory. Counseled on activities and to F/; This study is being ordered for trauma or injury.; 2/28/18; There has been treatment or conservative therapy.; This is a postop visit.; Decompressive lumbar laminectomy with medial facetectomy and foraminotomy for decompression; bilateral lateral arthrodesis T10 to L1; Ulrich Pedicle Screw instrumentation; MAP3, allograft, autograft fusion.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material	The patient has some significant burning pain in his heel that I think is still residual from his residual cord impingement prior to his original thoracic surgery. He is also having some burning dyesthesia around his incision. His back is just not gettin; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/30/2017; There has been treatment or conservative therapy.; HE IS three months out from his lumbar fusion and eight months out from his thoracic fusion. He does continue to have some low back pain that wraps around into his abdomen. He is also having some bilateral knee down into his feet numbness and tingling. Th; PATIENT HAS COMPLETED PHYSICAL THERAPY, SEVERAL INJECTIONS AND HAS HAD SURGERY.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<Enter answer here - or Type In Unknown If No Info Given >; This study is being ordered for a neurological disorder.; 2006; There has been treatment or conservative therapy.; <Describe primary symptoms here - or Type In Unknown If No Info Given >; <Describe treatment / conservative therapy here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<Enter answer here - or Type In Unknown If No Info Given >; This study is being ordered for a neurological disorder.; June 2018; There has been treatment or conservative therapy.; weakness , left lower extremity weakness and pain; astoid, epidural , muscle relaxers , gadapentin, physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	3
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.; Positive spread of Brachio-radialis reflex to finger flexors on the right. Positive spread of Brachio-radialis reflex to finger flexors on the left.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; bilateral neck pain that radiates to both shoulders with numbness to both hands. She is myelopathic with a positive bilateral Hoffmans; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This study is being ordered for Congenital Anomaly.; birth; There has been treatment or conservative therapy.; headaches neck pain dizziness numbness vision chages; meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This study is being ordered for trauma or injury.; April 2018; There has been treatment or conservative therapy.; Pain with numbness; Hydrocodone/NSAIDS/Brace; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Burning, shooting and stabbing pain.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 9/2016; There has been treatment or conservative therapy.; Chronic back and neck pain. Radicular symptoms to all extremities.; PT and epidural injections. Medication therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Chiari I suspected. ? IHH /venous thrombosis. Will get MRV and spinal completion studies to R/O syringomyelia/ tethered cord. F/U after; This study is being ordered for Congenital Anomaly.; February 2018; There has been treatment or conservative therapy.; 27 year old female who was well until 2/18 when she developed ringing in her right then left ear and SN hearing deficit acc. to ENT. Also had transient tingling in extremities, headaches.; Clinicals to be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Chiari I with IHH. worsening Chiari symptoms. Obtain MRI cine flow as well as spinal completions and F/U after. May need SOD.; This study is being ordered for Congenital Anomaly.; September 2016; There has been treatment or conservative therapy.; Clinicals to be uploaded.; Clinicals to be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.; Patient is a self referral for neck pain and headaches that began in 2011. Patient has not had any imaging of the cervical spine since 2014. Patient takes Meloxicam daily.	1

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; It is not known if this patient had a recent course of supervised physical Therapy.; It is not known if the patient had six weeks of Chiropractic care related to this episode.; Our staff spoke with Mr. Denham who would like to reschedule the cervical epidural steroid injections that were cancelled earlier this year. He underwent one CESI in February 2018 for neck pain which relieved his pain by 80% for five months. The patient r	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	none; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; 3 out of 5 bicep reflexes; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Pain is all the time and aggravated by standing, sitting, and walking. Goes down to left lower extremities down to the bottom of foot. HX of ACDF and L5s1 Fusion.; This study is being ordered for a neurological disorder.; 5/24/2018; There has been treatment or conservative therapy.; Left tingling and weakness. Neck and back pain.; Injections and insets; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Patient chose not to have surgery last year and try conservative measures. Now her pain is back more severely and her MRI is over a year old. Need to evaluate need for surgery.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Patient had mri 7/27/18 Compatible chiari 1 malformation with upper Cervical Cord syrinx; This study is being ordered for a neurological disorder.; 2015; There has been treatment or conservative therapy.; Arthralgia, Fatigue, Nausea, Neck pain and numbness, visual changes, weakness; Massage Therapy, Chiropractic exercise; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	patient is being evaluated for cervical myelomalacia; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Recurrent / new cervical radiculopathy. Needs Cspine MRI as hse has had little relief with steroids etc. F/U after.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; She is dropping things at times on left and has radiating pain to left lateral arm.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Right arm pain and weakness to involve small ring finger of the right hand. Xray was done with multiple degenerative disc disease. Had chiropractic treatment. Had medication therapy with no improvement.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Weakness 3/5; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	spinal arachnoid cyst; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.	5
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; It is not known if this patient had a recent course of supervised physical Therapy.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist.;" Follow-up to Surgery or Fracture within the last 6 months	15
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Neurological deficits; co neck pain radiating into right arm; went to Urgent Care it was so intense and was given steroid pack and pain meds which have given no relief; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Pre-Operative Evaluation; No, the last Cervical spine MRI was not performed within the past two weeks.	2
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Pre-Operative Evaluation; Surgery is scheduled within the next 4 weeks.; The last Cervical Spine MRI was not performed within the past two weeks.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Pre-Operative Evaluation; Yes, the patient have new or changing neurological signs or symptoms.; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.; Yes, the last Cervical spine MRI was performed within the past two weeks.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	15
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, the patient does not demonstrate neurological deficits.; Yes, there is a documented evidence of extremity weakness on physical examination.; Yes, this patient had a recent course of supervised physical Therapy.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This study is being ordered for staging.; This is a request for cervical spine MRI; Known Tumor with or without metastasis; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	tingling, neck pain, attempted PT but pain was to much to complete; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; numbness, decreased ROM, spasms; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if there is x-ray evidence of a recent cervical spine fracture.	1

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		To evaluate for Chiari malformation.; This study is being ordered for Congenital Anomaly.; 4 months; There has been treatment or conservative therapy.; Clinicals to be uploaded.; Clinicals to be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		UNKNOWN; This study is being ordered for Congenital Anomaly.; 06/19/2018; It is not known if there has been any treatment or conservative therapy.; CHAIRI MALFORMATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/1/2018; There has been treatment or conservative therapy.; Pt has a knot in the soft tissue of the neck. Pt has had neck surgery in the past, difficulty swallowing and arm pain; anti-inflammatory and steroids; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; It is not known if there has been any treatment or conservative therapy.; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has not been any treatment or conservative therapy.; mbr syringomyelia tethered spine cord; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		wanting to see if they need surgery; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; pain, from base of neck to tailbone , bowel and bladder dysfunction; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; June 2018; There has been treatment or conservative therapy.; weakness , left lower extremity weakness and pain; astoid , epidural , muscle relaxers , gadapentin, physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; several years; There has been treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; Home exercise , meds, steroids; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		arachnoid cyst of spine, falls. leg weakness, spine surgery; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		It is not known if the patient has any neurological deficits; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		Known to me . Mild Chiari I which is stable on MRI and T spine with slight increased syrinx axially but decreased length significantly with Diamox. Fell and hurt right hand. No obvious fracture on my review today. Neuro - intact. Will recheck MRI T spine I; This study is being ordered for Congenital Anomaly.; 8/2/16; There has been treatment or conservative therapy.; 15 year old female with at least one sister with Chiari I who was diagnosed in 2014 with Chiari I by Dr. Boop. At that time the was a suspicious area as signal intensity change in the cord as well. She has had severe suboccipital headaches exacerbated by; Followed for chiari malformation and syrinx.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		Pain is all the time and aggravated by standing, sitting, and walking. Goes down to left lower extremities down to the bottom of foot. HX of ACDV and L5s1 Fusion.; This study is being ordered for a neurological disorder.; 5/24/2018; There has been treatment or conservative therapy.; Left tingling and weakness. Neck and back pain.; injections and insets; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; numbness and weakness in legs; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of abnormal gait.	2

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does have neurological deficits; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	2
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient does not have any neurological deficits; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.	11
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		The patient is presenting new symptoms.; This study is being ordered for follow-up.; This is a request for a thoracic spine MRI.; Known Tumor with or without metastasis; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	2
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist.;" The study is being ordered due to follow-up to surgery or fracture within the last 6 months.	3
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; Pre-Operative Evaluation; Surgery is scheduled within the next 4 weeks.; No, the last Thoracic Spine MRI was not performed within the past two weeks.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; The patient is experiencing or presenting symptoms of abnormal gait.	3
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; There is evidence of tumor or metastasis on a bone scan or x-ray.; The study is being ordered due to suspected tumor with or without metastasis.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; There is no evidence of tumor or metastasis on a bone scan or x-ray.; The study is being ordered due to suspected tumor with or without metastasis.; An MRI Lumbar spine done on 9-13-18 showed an indeterminate lesion is seen in the conus medullaris. This could represent a demyelinating plaque. Neoplastic etiologies cannot be excluded. MRI of the brain, cervical and thoracic spine are recommended; wit	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		This is a request for a thoracic spine MRI.; There is no evidence of tumor or metastasis on a bone scan or x-ray.; The study is being ordered due to suspected tumor with or without metastasis.; The patient complains of right shoulder blade and mid back pain that is increased since last year. conservative treatment has been attempted. A mri and Ct of the thoracic has been done on the patient. The images from the scans do not give a good picture of	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		To evaluate for Chiari malformation.; This study is being ordered for Congenital Anomaly.; 4 months; There has been treatment or conservative therapy.; Clinicals to be uploaded.; Clinicals to be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		Unknown; This study is being ordered for Congenital Anomaly.; 07/19/2018; There has been treatment or conservative therapy.; Tethered spinal cord; Unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has not been any treatment or conservative therapy.; mbr syringomyelia tethered spine cord; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; abnormal gait; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Document exam findings; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; The study requested is a Lumbar Spine MRI.; Pre-Operative Evaluation; Surgery is not scheduled within the next 4 weeks.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 2006; There has been treatment or conservative therapy.; back and neck pain, bilateral shoulder pain, right leg pain; injections, medications, steroids; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for None of the above	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		arachnoid cyst of spine, falls. leg weakness, spine surgery; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	CHECK FOR ANY SURGICAL CHANGES TO DUE ONSET INCREASING PAIN; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 07/17/2017; There has been treatment or conservative therapy.; PATIENT IS HAVING INCREASING LOW BACK PAIN WITH BILATERAL LEG PAIN AND NECK PAIN WITH BILATERAL ARM PAIN.; PATIENT HAS HAD SEVERAL ROUNDS OF INJECTIONS WITH PHYSICAL THERAPY. PATIENT HAS HAD A LUMBAR FUSION 1 YEAR AGO AND A CERVICAL FUSION 6 MONTHS AGO.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Chiari I . To get cine flow and spinal completions to better eval. restart Topamax low dose (25mg/day) and Toradol prn for H/A. F/U when studies done. Robaxin for muscle spasm.; This study is being ordered for Congenital Anomaly.; Patient just said years.; There has been treatment or conservative therapy.; 32 year old female with history of chronic headaches for years and diagnosed with Chiari I in past. Persistent headaches despite treatment. Alos c/o visual blurriness at times, tinnitus, So pain exacerbated by Valsalva, occasional swallow issues, fine mot; Was referred to us by Dr. Daniel Watson. Notes to be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Chiari I (1.5), dysautonomia. To get MRI head cine as well as spinal completions. Refer to Dr. Greer. Probably will need SOD. ? syrxn. Tethered cord. CCI ? Will send for flex/ ext CV junction study as well. Probably has type I EDS/ simple hypermobility.; This study is being ordered for Congenital Anomaly.; 9/18/18, There has been treatment or conservative therapy.; Clinicals to be uploaded.; Clinicals to be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 2015; There has been treatment or conservative therapy.; hyper reflex, and radiculopathy; physical therapy, injections, chiropractic, NSIDS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is a preoperative or recent post-operative evaluation.; Yes this is a request for a Diagnostic CT	21
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is experiencing symptoms of radiculopathy for six weeks or more.; Yes this is a request for a Diagnostic CT	5
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is not experiencing symptoms of radiculopathy for six weeks or more.; There is no neurologic symptoms of bowel or urinary bladder dysfunction.; There is no suspicion of lumbar spine infection.; There is no suspicion of lumbar spine neoplasm or tumor or metastasis.; Yes this is a request for a Diagnostic CT	7
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is to be part of a myelogram or discogram.; Yes this is a request for a Diagnostic CT	18
Neurological Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material	This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	11
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	< Enter answer here - or Type In Unknown If No Info Given. >; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Chiari I suspected. ? IIH/ venous thrombosis. Will get MRV and spinal completion studies to R/O syringomyelia/ tethered cord. F/U after; This study is being ordered for Congenital Anomaly.; February 2018; There has been treatment or conservative therapy.; 27 year old female who was well until 2/18 when she developed ringing in her right then left ear and SN hearing deficit acc. to ENT. Also had transient tingling in extremities, headaches.; Clinicals to be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Chiari I with IIH. worsening Chiari symptoms. Obtain MRI cine flow as well as spinal completions and F/U after. May need SOD.; This study is being ordered for Congenital Anomaly.; September 2016; There has been treatment or conservative therapy.; Clinicals to be uploaded.; Clinicals to be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	chronic low back pain and mild tenderness.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Derek A Hensley is a 29 y.o. male with a past medical history of anxiety who presents with a many year history of lower back pain that acutely worsened after a 10 foot fall 3 months ago while he was at work. He landed on his back and went to the hospital; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Intervertebral disc disorders with radiculopathy, lumbar region; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Pain down legs.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; It is not known if there is x-ray evidence of a lumbar recent fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Patient had MRI 7/27/18 Compatible chiari 1 malformation with upper Cervical Cord syrinx; This study is being ordered for a neurological disorder.; 2015; There has been treatment or conservative therapy.; Arthralgia, Fatigue, Nausea, Neck pain and numbness, visual changes, weakness, Massage Therapy, Chiropractic exercise; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Patient had previous cervical 25 years ago.; This study is being ordered for a neurological disorder.; 5 years; There has been treatment or conservative therapy.; Back pain/neck pain/arm pain/numbness/tingling; Chiropractic care/acupuncture/OTC Naproxen; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		PATIENT HAD SURGERY IN MAY. SHE FELL A FEW DAYS AGO AND THIS IS A FOLLOW UP MRI FROM SURGERY AND HER FALL; The study requested is a Lumbar Spine MRI; The patient has acute or chronic back pain; The patient has none of the above	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		PATIENT IS HAVING EARLY MYELOPATHIC FINDINGS. SHE HAS right-sided low back pain that radiates into her right hip and right buttock and goes down the posterolateral aspect of her right lower extremity to her ankle. decreased strength in her leg.also has nu; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2002; There has been treatment or conservative therapy.; PATIENT IS HAVING EARLY MYELOPATHIC FINDINGS. SHE HAS right-sided low back pain that radiates into her right hip and right buttock and goes down the posterolateral aspect of her right lower extremity to her ankle. decreased strength in her leg.also has nu; PATIENT HAS HAD SEVERAL ROUNDS OF PHYSICAL THERAPY AND INJECTIONS.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Patient is in too much pain for PT. Tried daily walking but that only makes it worse. Tried Medrol DosePak no help.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Pt started having pain down his right leg, and went to his PCP where they gave him steroid injection and tablets. They then started him on Ibuprofen 800mg TID.; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more than once for these symptoms.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		PATIENT HAS SURGERY 02/09/2018 OF THE LUMBAR, AT THAT TIME INSTRUMENT L5, S1 REGION, AFTER PATIENT WAS UNRESPONSIVE TO CONSERVATIVE TREATMENT. SINCE THAT TIME PATIENT HAS CONSISTENTLY COMPLAINED OF CONSISTENT RIGHT SIDED LEG AND FOOT PAIN, IN ADDITION TO LOW; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain; The patient has none of the above	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 1/2000; There has not been any treatment or conservative therapy.; numbness in R fingers tingling weakness in R arm after sleep headache and neck pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 2006; There has been treatment or conservative therapy.; back and neck pain, bilateral shoulder pain, right leg pain; injections, medications, steroids; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; < Enter date of initial onset here - or Type In Unknown If No Info Given >; It is not known if there has been any treatment or conservative therapy.; < Describe primary symptoms here - or Type In Unknown If No Info Given >; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		< Enter answer here - or Type In Unknown If No Info Given. >; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4-26-17; It is not known if there has been any treatment or conservative therapy.; neck pain and stiffness; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; DThe patient is a 64 year old man who is currently evaluated for possible surgery of a symptomatic right inguinal hernia. During his encounter with Dr. James Walker, general surgeon, he told him he was having episodic numbness and weakness of the left arm; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; neck pain; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; CHIARI 1 MALFORMATION WITH SYRINGOMYELIA; It is not known if there has been any treatment or conservative therapy.; CHIARI 1 MALFORMAITON; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		6 month follow up; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		CHECK FOR ANY SURGICAL CHANGES TO DUE ONSET INCREASING PAIN; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 07/17/2017; There has been treatment or conservative therapy.; PATIENT IS HAVING INCREASING LOW BACK PAIN WITH BILATERAL LEG PAIN AND NECK PAIN WITH BILATERAL ARM PAIN.; PATIENT HAS HAD SEVERAL ROUNDS OF INJECTIONS WITH PHYSICAL THERAPY. PATIENT HAS HAD A LUMBAR FUSION 1 YEAR AGO AND A CERVICAL FUSION 6 MONTHS AGO.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Chiar 1 . To get cine flow and spinal completions to better eval. restart Topamax low dose (25mg/day) and Toradol prn for H/A. F/U when studies done. Robaxin for muscle spasm.; This study is being ordered for Congenital Anomaly; Patient just said years.; There has been treatment or conservative therapy.; 32 year old female with history of chronic headaches for years and diagnosed with Chiari I in past. Persistent headaches despite treatment. Alos c/o visual blurriness at times, tinnitus, So pain exacerbated by Valsalva, occasional swallow issues, fine mot; Was referred to us by Dr. Daniel Watson. Notes to be uploaded.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Cont w neck pain that radiates to bilateral shoulder area down the arms to the fingers with tingling. Pain radiates down the spine to the low back with the pain radiating.; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.; Noted to have hyper reflexes with positive Hoffman's and clonus.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Further monitoring of spinal cord syrinx is needed.; This study is being ordered for trauma or injury.; 12/19/17; There has been treatment or conservative therapy.; Neck stiffness, neck pain, pain in shoulders with radiation into both hands; Physical Therapy, Meloxicam; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		He had acdf done 4/12/18, making sure he is healing and fusing correctly from that.  The headaches are getting more frequent and worse, vision being effected.  Radiculopathy causing stumbling and altered gait. legs, to feet numb, and burning. neck to h; This study is being ordered for a neurological disorder.; 07/30/18; There has been treatment or conservative therapy.; HEADACHES, BLURRED VISION, ALTERED GAIT, PAIN IN RIGHT ARM TO HAND, RADICULOPATHY, NUMBNESS AND TINGLING. Had a stellate ganglion block about a month ago.He said the day after that he started having a lot of numbness and tingling in his right leg and fo; MEDICATIONS, BRACE, ICE, HEAT, ALTERED LIFE STYLE, REST; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Known to me. Mild Chiari I which is stable on MRI and T spine with slight increased syrinx axially but decreased length significantly with Diamox. Fell and hurt right hand. No obvious fracture on my review today. Neuro - intact. Will recheck MRI T spine i; This study is being ordered for Congenital Anomaly.; 8/2/16; There has been treatment or conservative therapy.; 15 year old female with at least one sister with Chiari I who was diagnosed in 2014 with Chiari I by Dr. Boop. At that time the was a suspicious area os signal intensity change in the cord as well.. She has had severe suboccipital headaches exacerbated by; Followed for chiari malformation and syrinx.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		NECK PAIN, CERVICAL STENOSIS; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 08/27/2018; There has not been any treatment or conservative therapy.; neck pain, right hand weakness which has been progressive. She has had gait problems as well. She also has lumbar pain and complains of losing 4 inches. She continues to have problems with neck and innerscapular pain with shoulder pain and headaches.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Patient had previous cervical 25 years ago.; This study is being ordered for a neurological disorder.; 5 years; There has been treatment or conservative therapy.; Back pain/neck pain/arm pain/numbness/tingling; Chiropractic care/acupuncture/OTC Naproxen; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		PATIENT IS HAVING EARLY MYELOPATHIC FINDINGS. SHE HAS right-sided low back pain that radiates into her right hip and right buttock and goes down the posterolateral aspect of her right lower extremity to her ankle. decreased strength in her leg.also has nu; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2002; There has been treatment or conservative therapy.; PATIENT IS HAVING EARLY MYELOPATHIC FINDINGS. SHE HAS right-sided low back pain that radiates into her right hip and right buttock and goes down the posterolateral aspect of her right lower extremity to her ankle. decreased strength in her leg.also has nu; PATIENT HAS HAD SEVERAL ROUNDS OF PHYSICAL THERAPY AND INJECTIONS.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Previous MRI of the brain shows a Chiari 1 malformation with crowding at the foramen magnum. A CINE flow study is needed to evaluate CSF flow at the skull base. Onset of seizures and loss of gag reflex.; This study is being ordered for Congenital Anomaly.; Onset of symptoms 1 month ago; There has been treatment or conservative therapy.; Severe headache, light intolerance, neck pain, dizziness, vertigo, seizures, weakness, loss of gag reflex; NSAIDS and pain medication attempted for headache relief. Keppra initiated for further seizure prevention.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Stable lumbar and cervical fusion with increased pain into left arm. Significant degenerative changes noted proximal to cervical fusion levels.; This is a request for cervical spine MRI; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; She states that during the trip she was assaulted with blows to the head/neck as well as asphyxiation. She notes posterior neck/head pain extending into the interscapular area (worse left than right) and into the Left lateral upper arm and dorsum of forea; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		STITCH T/L IN ONE CUT; thoracic disc; radiculopathy, neck pain, cervical radiulopathy; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 07/13/2018; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The MRI of her head demonstrated Chiari 1 malformation with the possible cervical syrinx.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 08/20/2018; It is not known if there has been any treatment or conservative therapy.; This is a 7 y.o. female who had several episodes of focal seizure recently. She was seen and treated by our neurologist. An MRI of her head was done which revealed incidental finding of Chiari 1 malformation. She complains of her middle back pain once; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	2
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	5
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; the patient was treated with a facet joint injection.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with an Epidural.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Pre-Operative Evaluation; No, the last Lumbar spine MRI was not performed within the past two weeks.; Surgery is scheduled within the next 4 weeks.	3
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Known or suspected tumor with or without metastasis	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Neurologic deficits	3
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	5
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	3
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical Therapy.	2
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; It is not known if this patient had a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode;	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient is not presenting new symptoms.; This study is being ordered for follow-up.; This is a request for cervical spine MRI; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; The last spine MRI was performed more than 6 months ago.; Known Tumor with or without metastasis	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	3
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; Yes, there is evidence of recent development of unilateral muscle wasting.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	43
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has completed Treatment with a facet joint or epidural injection in the past 6 weeks	2
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	67
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The treatments that have been tried are: physical therapy and it has not helped., heat and it has not helped., muscle relaxer and it has not helped. and anti-inflammatories and it has not helped.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; She continues to have Pain in her lower back and down her lateral right leg. She notes she has difficulty standing up straight and walking. Walking and putting pressure on the right leg increases her leg pain. Her leg pain also seems to be more severe at.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		unknown; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; L side low back, hip lateral thigh pain, numbness, ambulates with a cane, tingling weakness, numbness, decreased ROM; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		unknown; The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for None of the above	2
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Unknown; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Has rt leg weakness. Decreased motor strength in hip flexer.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Unknown; This study is being ordered for Congenital Anomaly; 07/19/2018; There has been treatment or conservative therapy.; Tethered spinal cord; Unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Follow-up to Surgery or Fracture within the last 6 months; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	3
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of paresthesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	2
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	23
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; None of the above; <Enter Additional Clinical Information>; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of paresthesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	4
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	3
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Yes, this patient had a recent course of supervised physical Therapy.	4
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		This is a request for cervical spine MRI; There is evidence of tumor or metastasis on a bone scan or x-ray.; Suspected Tumor with or without Metastasis	2
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has not been any treatment or conservative therapy.; mbr syringomyelia tethered spine cord; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		wanting to see if they need surgery; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; pain, from base of neck to tailbone , bowel and bladder dysfunction.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		laterally localized back pain with buttock pain. Pt is very concerned with Si joint dysfunction. pt states numbness and tingling on left side LE. No problems with ambulation. REFERRING FOR ESI VS DIAG SI BLOCK, NEED MRI FOR THEM.; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Neurological Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		<Enter answer here - or Type in Unknown If No Info Given. >; This study is being ordered for a neurological disorder.; 5 WEEKS AGO; There has been treatment or conservative therapy.; PAIN; NERVE STUDY; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.	1
Neurological Surgery	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; The member has failed a 4 week course of conservative management in the past 3 months.; The hip pain is chronic.; The request is for hip pain.	1
Neurological Surgery	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material		This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	1
