# NIA's Prior Authorization Program

Only non-emergent procedures performed in an outpatient setting require authorization with NIA.

## Procedures Requiring Authorization

- CT/CTA
- CCTA
- MRI/MRA
- PET Scan
- Myocardial Perfusion Imaging
- MUGA Scan

## Excluded from Program: Procedures Performed in the Following Settings:

- Hospital Inpatient
- Observation
- Emergency Room

# List of CPT Procedure Codes Requiring Prior Authorization

- Review Claims/Utilization Review Matrix to determine CPT codes managed by NIA
- CPT Codes and their Allowable Billable Groupings
- Located on RadMD
- Refer to Keystone First Policies for Procedures not on Claims/Utilization Review Matrix

## Keystone First Utilization Review Matrix 2019

The matrix below contains all of the CPT 4 codes for which National Imaging Associates, Inc. (NIA) manages on behalf of Keystone First. This matrix is designed to assist in the resolution of claims adjudication and claims questions related to those services authorized by NIA. The "Allowable Billed Groupings" is meant to outline that if a given procedure is authorized, that any one of the listed procedure codes could be submitted on a claim representing that service. This assumes that the member is eligible at the time of the service, that appropriate rebundling rules are applied, that the claim includes an appropriate diagnosis code for the CPT code and that the service is performed within the validity period.

If a family of CPT codes is not listed in this matrix, an exact match is required between the authorized CPT code and the billed CPT code. If the exact match does not occur, the charge should be adjudicated accordingly.

**\*Please note: Services rendered in an Emergency Room, Observation Room, Surgery Center or Hospital Inpatient setting are not managed by NIA.**

# Responsibility for Authorization

## Ordering Provider

**Responsible for obtaining prior authorization**

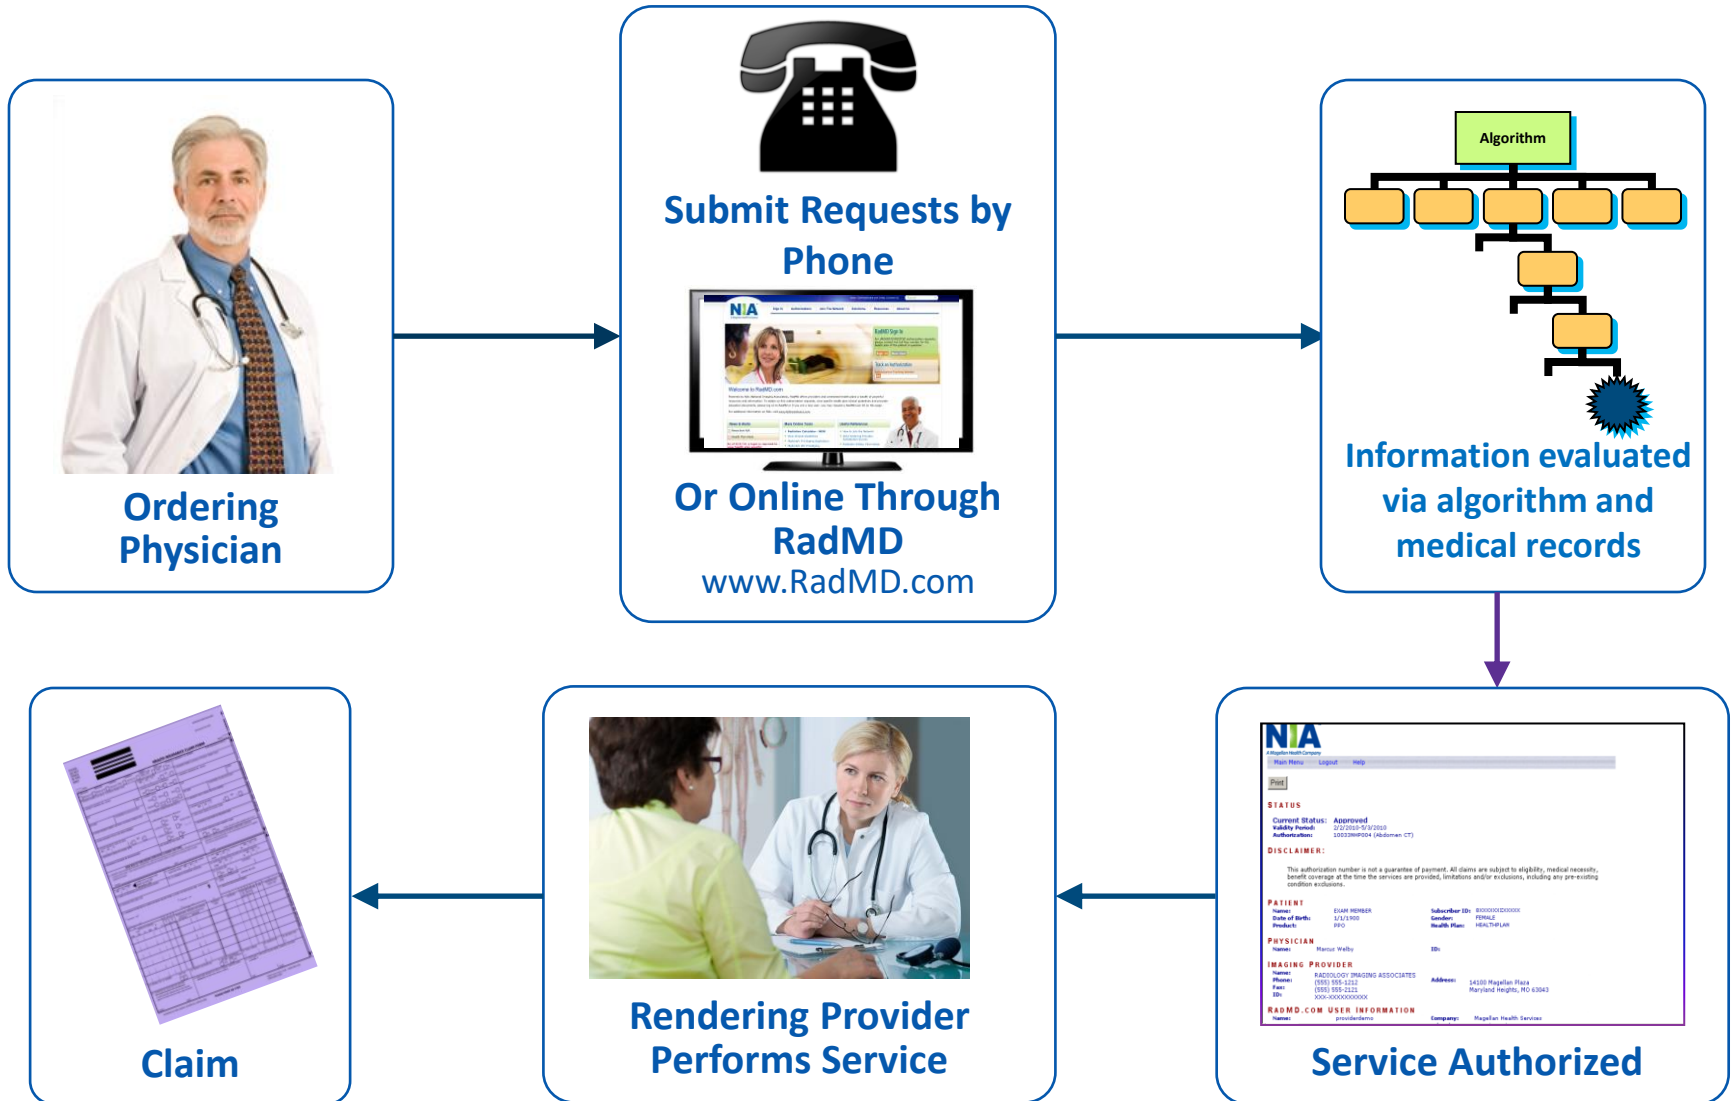

## Rendering Provider

**Ensuring that prior authorization has been obtained prior to providing service**

***Recommendation to Rendering Providers:  
Do not schedule test until authorization is received***

# Prior Authorization Process Overview

# *Clinical Decision Making and Algorithms*

- Guidelines are reviewed and mutually approved by Keystone First and NIA's Chief Medical Officers
- NIA's algorithms and medical necessity reviews collect key clinical information to ensure that Keystone First members are receiving appropriate care prior to more invasive procedures being performed. Our goal – ensure that Keystone First members are receiving the appropriate level of care.
- Clinical Guidelines available on [www.RadMD.com](http://www.RadMD.com)

# *Patient and Clinical Information Required for Authorization*

## **GENERAL**

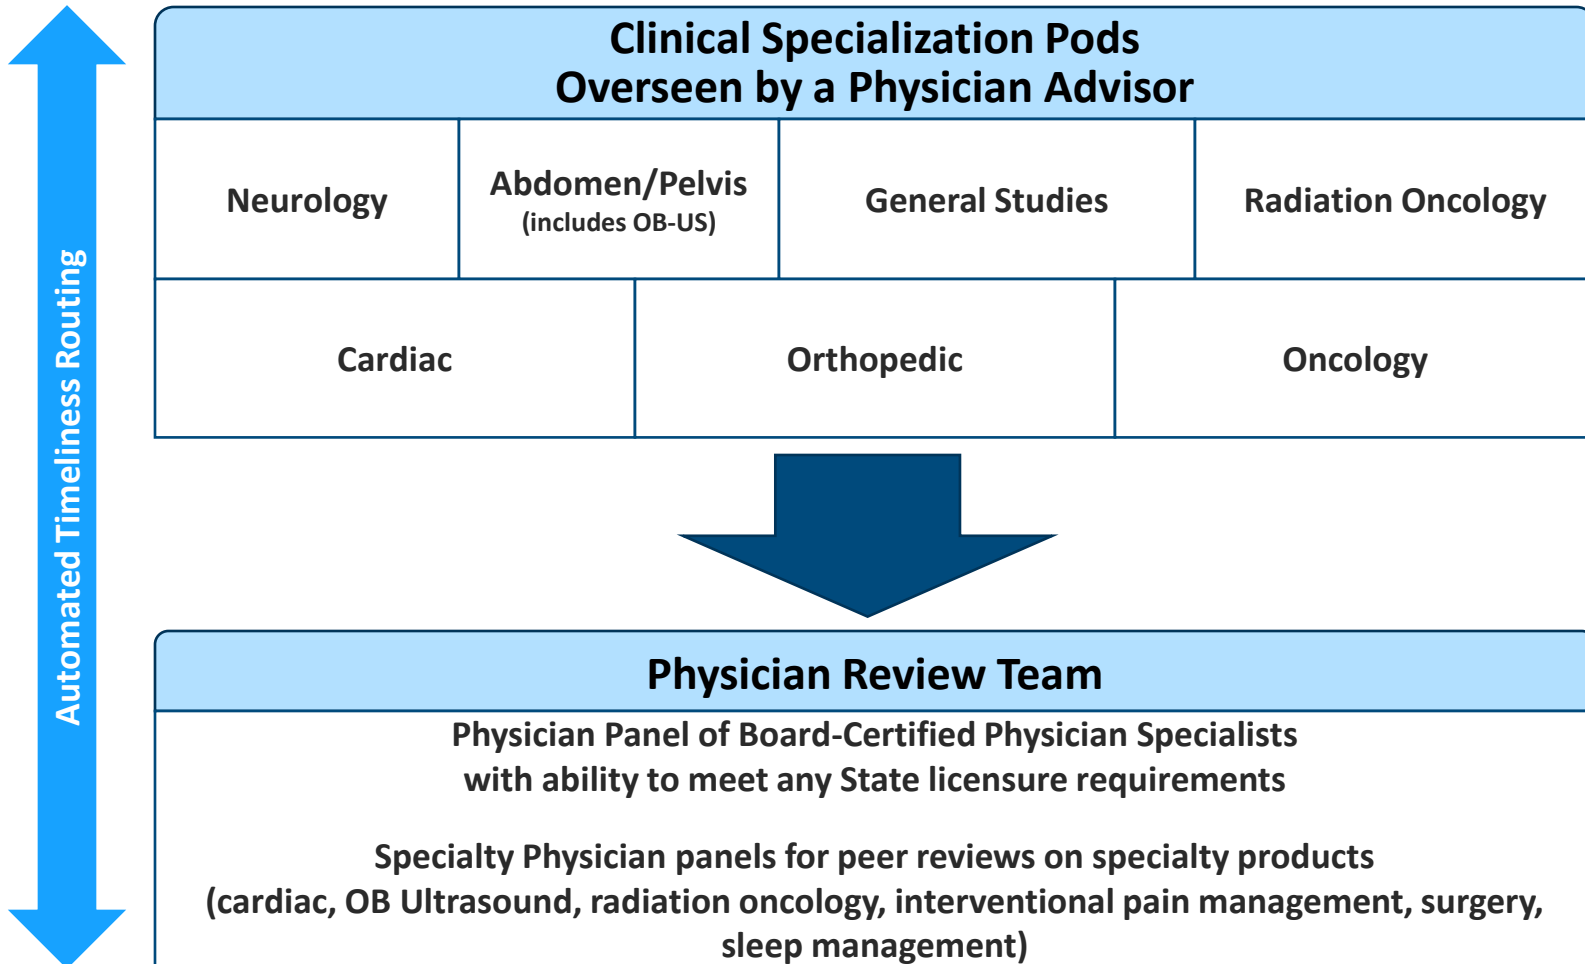

Includes things like ordering physician information, Member information, rendering provider information, requested examination, etc.

## **CLINICAL INFORMATION**

- Includes clinical information that will justify examination, symptoms and their duration, physical exam findings
- Preliminary procedures already completed (e.g., x-rays, CTs, lab work, ultrasound reports, scoped procedures, referrals to specialist, specialist evaluation)
- Reason the study is being requested (e.g., further evaluation, rule out a disorder)

**Refer to the Prior Authorization Checklists on RadMD for more specific information.**

# Clinical Specialty Team Review

# Document Review

- NIA may request patient's medical records/additional clinical information
- When requested, validation of clinical criteria within the patient's medical records is required before an approval can be made
- Ensures that clinical criteria that supports the requested test are clearly documented in medical records
- Helps ensure that patients receive the most appropriate, effective care

**Radiation  
Safety**

# *Radiation Safety and Awareness*

- Studies suggest a significant increase in cancer in dose estimates in excess of 50 mSv
- U.S. population exposed to nearly six times more radiation from medical devices than in 1980
- CT scans and nuclear studies are the largest contributors to increased medical radiation exposure

1 mSv=

4 months of  natural exposure

50 chest x-rays

NIA has developed Radiation Awareness Tools and Safety Programs designed to create patient and physician awareness of radiation concerns

The screenshot shows the 'Radiation Awareness' website. On the left is a navigation menu with links for 'RADIATION BASICS', 'RADIATION CONSIDERATIONS', 'RADIATION EFFECTS', and 'REFERENCES'. The main content area is titled 'Measuring Your Exposure' and includes a 'Try the RADIATION CALCULATOR' button. A text box says: 'Hi, my name is Jessica and I'm here to help you estimate the radiation dose from your medical tests. Enter in all necessary information below and then I can show how your results compare to other types of radiation exposure.' Below this is a form with fields for 'Gender', 'Current Age', and 'Body Part'. A table shows 'mSv', '# of Tests', and 'Total mSv' with a 'mSv Grand Total' of 0. A bar chart displays '1 mSv = 4 months of natural exposure' and '50 chest x-rays'. Buttons for 'Compare Results' and 'Start Over' are at the bottom.

The screenshot shows the 'NIA Radiation Calculator' mobile app. It features a bar chart with three bars: 'Your Estimated Medical Exposure' at 8.05, 'Average Medical Exposure for Your Age Group' at 00.25, and 'Cancer Risk' at 0.00. A text box at the bottom says: 'It's a good idea to keep a record of all imaging tests you've received and share this information with your doctor.'

# Ordering Provider: Getting Started on RadMD.com

Everyone in your organization is required to have their own separate user name and password due to HIPAA regulations.

## STEPS:

1. Click the “New User” button on the right side of the home page.
2. Select “Physicians office that orders procedures”
3. Fill out the application and click the “Submit” button.
  - You must include your e-mail address in order for our Webmaster to respond to you with your NIA-approved user name and password.

**NOTE: On subsequent visits to the site, click the “Sign In” button to proceed.**

Offices that will be both ordering and rendering should request ordering provider access, this will allow your office to request authorizations on RadMD and see the status of those authorization requests.

## IMPORTANT

- Everyone in your organization is required to have their own separate user name and password due to HIPAA regulations.
- Designate an “Administrator” for the facility who manages the access for the entire facility.

## STEPS:

1. Click the “New User” button on the right side of the home page.
2. Select “Facility/office where procedures are performed”
3. Fill out the application and click the “Submit” button.
  - You must include your e-mail address in order for our Webmaster to respond to you with your NIA-approved user name and password.

**NOTE: On subsequent visits to the site, click the “Sign In” button to proceed.**

If you have multiple staff members entering authorizations and you want each person to be able to see all approved authorizations, they will need to register for a rendering username and password. The administrator will have the ability to approve rendering access for each employee. This will allow users to see all approved authorizations under your organization.

# RadMD Enhancements

NIA offers a **Shared Access** feature on our [RadMD.com](https://www.RadMD.com) website. Shared Access allows ordering providers to view authorization requests initiated by other RadMD users within their practice.

The screenshot displays the RadMD.com website interface. At the top right, there are links for "Provider Resources" and "User" with a dropdown arrow. The main content area is divided into two columns. The left column, titled "Request", lists various medical procedures: "Exam or specialty procedure (including Cardiac, Ultrasound, Sleep Assessment)", "Physical Medicine" (with a link to "Initiate a Subsequent Request"), "Radiation Treatment Plan", "Pain Management or Minimally Invasive Procedure", "Spine Surgery or Orthopedic Surgery", and "Genetic Testing". The right column, titled "Resources and Tools", lists "Shared Access", "Clinical Guidelines", and "Request access to Tax ID". Below these columns is a "News and Updates" section. At the bottom of the page, there is a "Request Status" section with links for "Search for Request" and "View All My Requests". To the right of this section is a "Tracking Number" search field with a "Search" button and a link for "Forgot Tracking Number?". In the center of the page, there is a "Login As Username:" field with a "Login" button.

If practice staff is unavailable for a period of time, access can be shared with other users in the practice. They will be able to view and manage the authorization requests initiated on [RadMD.com](https://www.RadMD.com), allowing them to communicate with members and facilitate treatment.
