

# National Imaging Associates, Inc. (NIA) Frequently Asked Questions (FAQ's) Magnolia Health Medicare Prior Authorization Program Physical Medicine Services

Question	Answer
General	
When does the Physical Medicine services program require a Prior Authorization for Magnolia Health?	Effective May 1, 2023, Physical Medicine services (Physical, Occupational, and Speech Therapy) will require Prior Authorization for all services provided to all Magnolia Health Medicare.
What services now require prior authorization?	Prior authorization will be required for all treatment rendered by a Physical, Occupational, or Speech Therapist for a Magnolia Health Medicare member.
Will NIA require authorizations for out of network physical medicine services for Magnolia Health?	Yes. NIA will review Out of Network (OON) authorization requests for services performed by Magnolia Health contracted and OON physical medicine providers.
Will a prior authorization be required for the initial evaluation?	The CPT codes for Physical, Occupational and Speech Therapy initial evaluations do not require an authorization for participating providers. Home Health or other providers that are utilizing codes outside of the standard billing CPT codes for evaluations will be required to obtain a prior authorization prior to rendering services.
Which Magnolia Health members will be covered under this relationship and what networks will be used?	NIA will manage Physical Medicine services for all Magnolia Health Medicare members who will be receiving these services.  NIA manages Physical Medicine services through Magnolia Health's network of providers that perform physical medicine services.
Is prior authorization necessary for Physical Medicine Services if Magnolia Health is NOT the member's primary insurance?	Yes. This program applies to members through Magnolia Health Medicare as their primary insurance or secondary insurance.

What services are included in this Physical Medicine Program?  Which services are	All outpatient Physical, Occupational, and Speech Therapy services are included in this program in the following setting locations:
excluded from the Physical Medicine Program?	Observation status, Acute Rehab Hospital Inpatient, Inpatient and Outpatient Skilled Nursing Facility settings are excluded from this program. The rendering provider should continue to follow Magnolia Health's policies and procedures for services performed in the above settings.
Why is Magnolia Health implementing a Physical Medicine utilization management program?	This physical medicine solution is designed to promote evidence based and cost-effective Physical, Occupational, and Speech Therapy services for Magnolia Health Medicare members.
Why focus on Physical, Occupational, and Speech Therapy services?	A consistent approach to applying evidence-based guidelines is necessary so Magnolia Health Medicare members can receive high quality and cost-effective physical medicine services.
How are types of therapies defined?	Rehabilitative Therapy – Is a type of treatment or service that seeks to help a member regain a skill or function that was lost as a result of being sick, hurt or disabled.
	Habilitative Therapy – Is a type of treatment or service that seeks to help members develop skills or functions that they didn't have and were incapable of developing on their own. This type of treatment tends to be common for pediatric members who haven't developed certain skills at an age-appropriate level.
	The simplest way to distinguish the difference between the two is Habilitative is treatment for skills/functions that the member never had, while Rehabilitative is treatment for skills/functions that the member had but lost.
	Neurological Rehabilitative Therapy – Is a supervised program of formal training to restore function to members who have neurodegenerative diseases, spinal cord injuries, strokes, or traumatic brain injury.

What types of providers will potentially be impacted by this Physical Medicine program?

Any independent providers, hospital outpatient, and multispecialty groups rendering Physical Therapy, Occupational Therapy, and/or Speech Therapy services will need to ensure prior authorization has been obtained. This program is effective for all services rendered on or after May 1, 2023, for all Magnolia Health Medicare membership.

#### **Prior Authorization Process**

### How will prior authorization decisions be made?

NIA will make medical necessity decisions based on the clinical information supplied by practitioners/facilities providing physical medicine services. Decisions are made as quickly as possible from submission of all requested clinical documentation. All decisions are rendered within State required timelines. Peer-to-peer telephone requests are available at any point during the prior authorization process.

Clinical determinations are rendered only by clinical peer reviewers with appropriate clinical experience and similar specialty expertise as the requesting provider.

# Who is responsible for obtaining prior authorization of the Physical Medicine services?

The physical medicine practitioner/facility is responsible for obtaining prior authorization for Physical Medicine services. A physician order may be required for a member to engage with the physical medicine practitioner, but the provider rendering the service is ultimately responsible for obtaining the authorization based on the plan of care they establish. Determination letters are sent to the member, and physical medicine practitioner.

Magnolia Health contracts generally do not allow balance billing of members. Please make every effort to ensure that prior authorization has been obtained prior to rendering a physical medicine service.

## Will CPT codes used to evaluate a member require prior authorization?

Initial Physical, Occupational and Speech Therapy evaluation codes do not require authorization. It may be appropriate to render a service that does require authorization at the time of the evaluation. After the initial visit, providers will have up to 5 business day(s) for outpatient settings, and 5 business day(s) for Home Health settings to request approval for the first visit. If requests are received timely, NIA is able to backdate the start of the authorization to cover the evaluation date of service to include any other services rendered at that time.

	Home health providers submitting claims using codes other than designated initial evaluation CPT Codes for the initial evaluation should request an authorization within the timeframe listed above, so the authorization can be backdated to cover these services.
What will providers and office staff need to do to get a Physical Medicine service authorized?	Providers are encouraged to utilize RadMD, (www.RadMD.com) to request prior authorization of Physical Medicine services. If a provider is unable to use RadMD, they may call Magnolia Health Medicare—1-844-786-7711; Magnolia Health Medicare—DSNP 1-833-260-4124.
	RadMD and the Call Center will be available beginning May 1, 2023, for prior authorization for dates of service May 1, 2023, and beyond. Any services rendered on and after May 1, 2023, will require authorization.
	Prior authorization is required for members that are currently receiving care which will continue on or after May 1, 2023.
	Authorizations obtained prior to the start of the program will reflect an effective date of May 1, 2023, and beyond.
What kind of response	NIA does leverage a clinical algorithm to assist in
time can providers expect	making real time decisions at the time of the request
for prior authorization of	based on the requestors' answers to clinically based
Physical Medicine	questions. If we cannot offer immediate approval,
requests?	generally the turnaround time for completion of these
	requests is within 2 to 3 business days upon receipt of
	sufficient clinical information. There are times when
	cases may take longer if additional information is
Who is the "Ordering"	needed.
Who is the "Ordering/ Treating Provider" and	The ordering/treating provider is the therapist who is treating the member and is performing the initial therapy

	request in RadMD. If you are not utilizing RadMD,
	please have the information available at the time you
One modeling and the	are initiating your request through the Call Center.
Can multiple providers	Yes, the authorization is linked between the members ID
render physical medicine services to members if	number and the facility's TIN. So as long as the
their name is not on the	providers work under the same TIN and are of the same discipline, they can use the same authorization to treat
authorization?	the member.
autionzation:	the member.

If the servicing provider fails to obtain prior authorization for the procedure, will the member be held responsible? This prior authorization program will not result in any additional financial responsibility for the member, assuming use of a participating provider, regardless of whether the provider obtains prior authorization for the procedure or not. The participating provider may be unable to obtain reimbursement if prior authorization is not obtained, and member responsibility will continue to be determined by plan benefits, not prior authorization.

If a procedure is not prior authorized in accordance with the program and rendered at/by a Magnolia Health participating provider, benefits will be denied, and the member will not be responsible for payment.

#### How do I obtain an authorization?

Authorizations may be obtained by the physical medicine practitioner via RadMD (preferred method) or via phone at Magnolia Health Medicare—1-844-786-7711; Magnolia Health Medicare—DSNP 1-833-260-4124. The requestor will be asked to provide general provider and member information as well as some basic questions about the member's function and treatment plan. Based on the response to these questions, a set of services may be offered immediately upon request. If we are not able to offer an immediate approval for services or the provider does not accept the authorization of services offered, additional clinical information may be required to complete the review. Clinical records may be uploaded via <a href="www.RadMD.com">www.RadMD.com</a> or faxed to 1-800-784-6864 using the coversheet provided.

### How do I send clinical information to NIA if it is required?

The most efficient way to send required clinical information is to upload your documents to RadMD (preferred method). The upload feature allows clinical information to be uploaded directly after completing an authorization request. Utilizing the upload feature expedites your request since it is automatically attached and forwarded to our clinicians for review.

If uploading is not an option for your practice, you may fax utilizing the NIA specific fax coversheet. To ensure prompt receipt of your information:

- Use the NIA fax coversheet as the first page of your clinical fax submission. \*Please do not use your own fax coversheet, since it will not contain the case specific information needed to process the case.
- Make sure the tracking number on the fax coversheet matches the tracking number for your request.

Send each case separate with its own fax coversheet.  Physical Medicine Practitioners may print the fax coversheet from www.RadMD.com or contact NIA at Magnolia Health Medicare—1-844-786-7711; Magnolia Health Medicare—DSNP 1-833-260-4124 to request a fax coversheet online or during the initial phone call.  NIA may fax this coversheet to the Physical Medicine Practitioner during authorization intake or at any time during the review process.  "Using an incorrect fax coversheet may delay a response to an authorization request.  What information should you have available when obtaining an authorization?  What information should you have available when obtaining an authorization?  Member name / DOB  Member lD  Diagnosis(es) being treated (ICD10 Code)  Requesting/Rendering Provider Type – PT, OT, ST  Date of the initial evaluation at their facility  Type of Therapy: Habilitative, Rehabilitative, Neuro Rehabilitative  Surgery date and procedure performed (if applicable)  Date the symptoms started  Planned interventions (by billable grouping category) and frequency and duration for ongoing treatment  How many body parts are being treated, and is it right or left  The result of the functional outcome tool/standardized outcome measure used for the body part evaluated. The algorithm is looking for the percentage the member is functioning with their current condition. Example: If a test rated them as having a 40% disability, then they are 60% functional  Summary of functional deficits being addressed in therapy  Member benefits, benefit limitations and number of visits remaining for the year should be confirmed through Magnolia Health Customer Service. what the initial authorization contained,	be requested as an addendum/addition to the initial authorization.
does the provider have to	authorization.
obtain a new prior authorization?	To obtain additional services, clinical records will be required. Providers may upload these records through RadMD.
	If the member needs to be seen for a new condition, or there has been a lapse in care (more than 30 days) and care is to be resumed for a condition for which there is an expired authorization, providers should submit a new initial request through RadMD.
What if I just need more time to use the services previously authorized?	A 30-day date extension on the validity period of an authorization is permitted and can be requested by utilizing the "Request Physical Validity Date Extension" option on RadMD. Date extensions are subject to any benefit limits that may restrict the length of time for a given condition/episode of care.
If a member is discharged from care and receives a new prescription or the validity period ends on the existing authorization, what process should be followed?	A new authorization will be required after the authorization expires or if a member is discharged from care.
If a member is being treated and the member now has a new diagnosis, will a separate authorization be required?	If a provider is in the middle of treatment and gets a new therapy prescription for a different body part, the treating provider will perform a new evaluation on that body part and develop goals for treatment. If the two areas are to be treated concurrently, the request would be submitted as an addendum to the existing authorization, using the same process that is used for subsequent requests. NIA will review the request and can add additional visits and the appropriate ICD 10-code(s) to the existing authorization.  If care is to discontinue on the previous area being treated and ongoing care will be solely focused on a new diagnosis. Providers should submit a new request for the new diagnosis and include the discharge summary for the previous area. A new authorization will be processed, and the previous will be discontinued.
Could the program potentially delay services and inconvenience the member?	We will make every attempt to process authorization requests timely and efficiently upon receiving a request from a provider. We recommend utilizing <a href="https://www.RadMD.com">www.RadMD.com</a> as the preferred method for submitting prior-authorization requests. If your request

	cannot be initiated through our portal, you may initiate a request by calling Magnolia Health Medicare—1-844-786-7711; Magnolia Health Medicare— DSNP 1-833-260-4124.
	In cases that cannot be immediately approved and where additional clinical information is needed, a peer-to-peer consultation with the provider may be necessary and can be initiated by calling Magnolia Health Medicare—1-844-786-7711; Magnolia Health Medicare—DSNP 1-833-260-4124.
	Requests initiated via fax require clinical validation and may take additional time to process. The fax number is 1-800-784-6864.
How are procedures that do not require prior authorization handled?	If no authorization is needed, the claims will process according to Magnolia Health's claim processing guidelines.

denial is received?	medicine services. Peer-to-peer discussions are offered
demai is received:	for any request that does not meet medical necessity guidelines. The physical medicine provider may call Magnolia Health Medicare—1-844-786-7711; Magnolia Health Medicare—DSNP 1-833-260-4124 to initiate the peer-to-peer process. These discussions provide an opportunity to discuss the case and collaborate on the appropriate services for the member based on the clinical information provided.
Who should a provider	Providers are asked to please follow the appeal
contact if they want to appeal a prior authorization decision?	instructions given on their non-authorization letter or Explanation of Benefits (EOB) notification.
RadMD Access	
What option should I	"Physical Medicine Practitioner" which will allow you
select to receive access	access to initiate authorizations.
to initiate authorizations?	Harmond as to see the first
How do I apply for RadMD access to initiate	<ul><li>User would go to our website <a href="https://www.radmd.com">www.radmd.com</a>.</li><li>Click on NEW USER.</li></ul>
authorization requests?	<ul> <li>Click of NEW OSEIX.</li> <li>Choose "Physical Medicine Practitioner" from the drop-down box</li> <li>Complete application with necessary information.</li> <li>Click on Submit</li> </ul>

How can providers check the status of an authorization request?	Once an application is submitted, the user will receive an email from our RadMD support team within a few hours after completing the application with an approved username and a temporary passcode. Please contact the RadMD Support Team at 1-800-327-0641 if you do not receive a response within 72 hours.  Providers can check on the status of an authorization by using the "View Request Status" link on RadMD's main menu.
How can I confirm what clinical information has been uploaded or faxed to NIA?	Clinical Information that has been received via upload or fax can be viewed by selecting the member on the View Request Status link from the main menu. On the bottom of the "Request Verification Detail" page, select the appropriate link for the upload or fax.
Where can providers find their case-specific communication from NIA?	Links to case-specific communication to include requests for additional information and determination letters can be found via the View Request Status link.
What will the authorization number look like?	The authorization number consists of alpha-numeric characters (i.e., 12345ABC123). In some cases, the ordering provider may instead receive a tracking number (i.e., 123456789) if the provider's authorization request is not approved at the time of initial contact. Providers will be able to use either number to track the status of their request online or through an Interactive Voice Response (IVR) telephone system.
If I did not submit the initial authorization request, how can I view the status of a case or upload clinical documentation?	The "Track an Authorization" feature will allow users who did not submit the original request to view the status of an authorization, as well as upload clinical information. This option is also available as a part of your main menu options using the "Search by Tracking Number" feature. A tracking number is required with this feature.
Paperless Notification: How can I receive notifications electronically instead of paper?	NIA defaults communications including final authorization determinations to paperless/electronic. Correspondence for each case is sent to the email of the person submitting the initial authorization request.  Users will be sent an email when determinations are made.
	<ul> <li>No PHI will be contained in the email.</li> <li>The email will contain a link that requires the user to log into RadMD to view PHI.</li> </ul>

Who can I contact if we	Providers who prefer paper communication will be given the option to opt out and receive communications via fax.  For assistance, please contact
need RadMD support?	RadMDSupport@Evolent.com or call 1-800-327-0641.  RadMD is available 24/7, except when maintenance is performed every third Thursday of the month from 9 pm
	- midnight PST.
