

Conservative Treatment History Form (Joints)

There is significant value in conservative treatment. It is also important to document and for your provider to know your recent efforts before establishing further tests and or treatment.

The information in this form will capture conservative treatment history in the event an **intervention on your joints** needs to be requested. For other procedures, a different form might be needed.

Please print clearly. Processing may be delayed if information submitted is illegible or incomplete.

Today's Date:	Patient:	Date of Birth:
Think about why you are seeing your provider today. Have you had these symptoms for six months or more? <input type="checkbox"/> YES <input type="checkbox"/> NO
