

2

Program Start	
What is the implementation date for this new program?	Any therapy treatment scheduled to occur on or after December 1, 2021, will require prior authorization through NIA.
	Beginning November 29, 2021, RadMD and the NIA Call Center will be available to request authorization for services on or after December 1, 2021.
Will a prior authorization be required for the initial evaluation?	The CPT codes for PT, OT, ST initial evaluations do not require an authorization for participating providers. However, all other billed CPT codes, even if performed on the same date as the initial evaluation date, will require authorization prior to billing.
Is prior authorization necessary for outpatient therapy services if Superior is NOT the member's primary insurance?	Yes, authorization is required regardless if Superior is the primary or secondary insurer.
Which places of service are included in the program?	 Therapy services must be rendered in the following locations: Outpatient facilities Home health Skilled nursing facilities
Which places of service are excluded from the program?	 Therapy services provided in the following are excluded from the program: Hospital emergency departments Inpatient hospital or observation status settings Acute rehab hospitals The rendering provider should continue to follow Superior's policies and procedures for services performed in the above settings.
How are types of therapies defined?	 Rehabilitative Therapy – Is a type of treatment or service that seeks to help a member regain a skill or function that was lost due to being sick, hurt or disabled. Habilitative Therapy – Is a type of treatment or service that seeks to help members develop skills or functions that they did not have and were incapable of developing on their own. This type of treatment tends to be common for pediatric members who have not developed certain skills at an age-appropriate level.
	Neurological Rehabilitative Therapy – Is a supervised program of formal training to restore function to

	members who have neurodegenerative diseases, spinal cord injuries, strokes, or traumatic brain injury. <i>Note: The simplest way to distinguish the difference</i> <i>between the two is habilitative is treatment for</i> <i>skills/functions that the member never had, while</i> <i>rehabilitative is treatment for skills/functions that the</i> <i>member had but lost.</i>
	Prior Authorization Process
How will prior authorization decisions be made?	NIA will make medical necessity decisions based on the clinical information supplied by providers/facilities providing therapy services. Decisions are made as quickly as possible from submission of all requested clinical documentation. All decisions are rendered within state required timelines. Peer-to-peer telephone requests are available at any point during the prior authorization process.
	Prior authorization requests are reviewed by licensed clinicians with similar clinical expertise.
Who is responsible for obtaining prior authorization of therapy services?	The therapy services provider/facility is responsible for obtaining prior authorization for therapy services.
Will CPT codes used to evaluate a member require prior authorization?	Initial PT, OT, and ST evaluation CPT codes do not require authorization. All other billed codes, even if performed on the same date as the initial evaluation, will require authorization prior to billing. After the initial visit, providers will have up to three business days to request approval for the first visit. If requests are received within this timeframe, NIA can backdate the authorization to include other services rendered on the same day as the evaluation.
Will a prior authorization be required for re- evaluations?	No.
What will providers and office staff need to do to get therapy services authorized?	Providers are encouraged to utilize <u>www.RadMD.com</u> to request prior authorization of therapy services. If providers are unable to use the website, they may call 1- 800-642-7554.
	Beginning November 29, 2021, RadMD and the NIA Call Center will be available to request authorization for services on or after December 1, 2021. Any services

	needed an end offer Description 4, 0004
	rendered on and after December 1, 2021, will require authorization.
	Authorizations obtained prior to the start of the program will reflect an effective date of December 1, 2021, and beyond.
What is the response	A determination will be made within 3 business days.

authorization?	utilizing RadMD (preferred method) or calling 1-800-
	642-7554. The requestor will be asked to provide
	general provider and member information as well as the
	number of visits and start/end dates of care. Clinical
	documentation will also be required to complete the
	review. Clinical records may be uploaded through
	www.RadMD.com or faxed to 1-800-784-6864 using the
	NIA specific fax coversheet provided to you. If you
	need a copy of the fax coversheet, please contact NIA
	at 1-800-642-7554.
How do I send clinical	The most efficient way to send required clinical
information to NIA if it is	information is to upload your documents to RadMD
required?	(preferred method). The upload feature allows clinical
	information to be uploaded directly after completing an
	authorization request. Utilizing the upload feature
	expedites your request since it is automatically attached
	and forwarded to our clinicians for review.
	If uploading is not an option for your practice, you may
	If uploading is not an option for your practice, you may
	fax utilizing the NIA specific fax coversheet . To ensure
	prompt receipt of your information:

 Member symptoms Prior treatment received for the same condition Functional outcome/standardized test scores Baseline functional status and impairments Objective tests and measures Plan of care/treatment plan Specific functional goals Treatment interventions/modalities
*Using an incorrect fax coversheet may delay a response to an authorization request.What information should you have available when obtaining an authorization?Name, address, and TIN of the facility.• Name, address, and TIN of the facility.• Member name, ID number, and date of birth • Member name, ID number, and date of birth • Date of initial evaluation • Requested start and end dates of service • Requested number of visits • ICD-10 code(s) • Attestation of physician order • Details justifying therapy • Initial evaluation or re-evaluation findings • Past medical history

visits are needed beyond what the initial authorization contained, does the provider have to obtain a new prior authorization?	 be requested as an addendum/addition to the initial authorization. To obtain additional services, clinical records will be required. Providers may upload these records through RadMD. If the member needs to be seen for a new condition, or there has been a lapse in care (more than 30 days) and care is to be resumed for a condition for which there is
	an expired authorization, providers should submit a new initial request through RadMD.
If a member is seen by one discipline for two or more sessions in one day, does it count as one visit or more? If a member is discharged from care and receives a	Each date of service is calculated as a visit. Example: If a member is seen for group and individual physical therapy session on the same day, it will count as one visit towards the authorization. A new authorization will be required after the authorization expires or if a member is discharged from
new prescription or the validity period ends on the existing authorization, what process should be followed?	care.
What happens if a member has a new injury that requires a change to the plan of care?	A new authorization is not needed. A subsequent request to the existing authorization can be initiated on RadMD. You will be required to upload additional documentation to support the requested change in the plan of care.
What is the most efficient way to submit prior authorization requests to avoid delays in member services?	We recommend utilizing <u>www.RadMD.com</u> as the preferred method for submitting prior-authorization requests. If your request cannot be initiated through our portal, you may initiate a request by calling 1-800-642-7554.
	We will make every attempt to process authorization requests timely and efficiently upon receiving a request from a provider. In cases where additional clinical information is needed, a therapist-to-therapist consultation with NIA may be necessary.
	Requests initiated via fax require clinical validation and may take additional time to process. The fax number is 1-800-784-6864.

How are procedures that do not require prior authorization handled?	If no authorization is needed, the claims will process through Superior. Providers are encouraged to submit claims electronically using <u>Superior's Secure Provider</u> <u>Portal</u> .
	APPEALS PROCESS
Whom should providers contact if they want to appeal a prior authorization decision?	For prior authorization medical necessity appeals, please follow the instructions on your denial letter.
	RadMD Access
What option should I select to receive access to initiate authorizations?	"Physical Medicine Practitioner" which will allow you access to initiate authorizations.
How do I apply for RadMD access to initiate authorization requests?	 User would go to our website <u>www.RADmd.com</u>. Click on "New User" Choose "Physical Medicine Practitioner" from the drop-down box Complete application with necessary information Click "Submit"
	Once an application is submitted, the user will receive an email from our RadMD support team within a few hours after completing the application with an approved username and a temporary passcode. Please contact the RadMD support team at 1-800-327-0641 if you do not receive a response within 72 hours.
How can providers check the status of an authorization request?	Once logged into RadMD, providers can check on the status of an authorization by using the " View Request Status " link on RadMD's main menu.
How can I confirm what clinical information has been uploaded or faxed to NIA?	Once logged into RadMD, providers can view clinical Information that has been received via upload or fax by selecting the member from the " View Request Status " link from the main menu. On the bottom of the " Request Verification Detail " page, select the appropriate link for the upload or fax.
Where can providers find their case-specific communication from NIA?	Once logged into RadMD, providers can find links to case-specific communication to include requests for additional information and determination letters can be found via the "View Request Status link."
What will the authorization number look like?	The authorization number consists of at least 11 alpha- numeric characters (i.e., 12345ABC123). Before a determination is made, the ordering provider may instead receive a tracking number (i.e., 123456789). Providers will be able to use either number to track the status of their request online or through an Interactive Voice Response (IVR) telephone system.

If I did not submit the	On the RadMD homepage, providers can utilize the
