Musculoskeletal Care Management (MSK) Program
Hip, Knee, Shoulder & Spine Surgeries
Frequently Asked Questions (FAQ's)
For Meridian Medicaid Plan (Meridian)
Meridian Medicare-Medicaid Plan (MMP)
Ordering Physicians/Surgeons

Ordering Filysicians/Surgeons	
Question	Answer
GENERAL	
	The Musculoskeletal Care Management program is designed to improve quality and manage the utilization of non-emergent surgeries, occurring in outpatient and inpatient settings.
	<ul> <li>Musculoskeletal surgeries are a leading cost of health care spending trends.</li> <li>Variations in member care exist across all areas of surgery (care prior to surgery, type of surgery, surgical techniques and tools, and post-op care)</li> <li>Diagnostic imaging advancements have increased diagnoses and surgical intervention aligning with these diagnoses rather than member symptoms.</li> <li>Medical device companies marketing directly to consumers.</li> <li>Surgeries are occurring too soon leading to the need for additional or revision surgeries.</li> </ul>
	The following procedures require prior authorization through NIA:
	Outpatient Interventional Spine Pain Management Procedures: (Effective 7/1/2021 Meridian Medicaid)
	Outpatient Interventional Spine Pain Management Services: A separate prior authorization number is required for each procedure ordered. A series of injections will not be approved.
	<ul><li>Spinal Epidural Injections</li><li>Paravertebral Facet Joint Injections or Blocks</li></ul>

<sup>\*</sup> Effective 1/20/2023, National Imaging Associates, Inc. is now a subsidiary of Evolent Health. Evolent Health and its affiliates and subsidiaries collectively referred to as "Evolent."

<sup>1—</sup> Meridian Illinois Health Plan – MSK – Hip, Knee, Shoulder and Spine Surgeries

- Paravertebral Facet Joint Denervation (Radiofrequency (RF) Neurolysis)
- Sacroiliac Joint Injections
- Sympathetic Nerve Blocks
- Spinal Cord Stimulator (Effective 2/1/2024 for all lines of business)

## **Outpatient and Inpatient Hip Surgery Services:\***

- Revision/Conversion Hip Arthroplasty
- Total Hip Arthroplasty/Resurfacing
- Femoroacetabular Impingement (FAI) Hip Surgery (includes CAM/pincer & labral repair)
- Hip Surgery Other (includes synovectomy, loose body removal, debridement, diagnostic hip arthroscopy, and extra-articular arthroscopy)

## Outpatient and Inpatient Knee Surgery Services: \*

- Revision Knee Arthroplasty
- Total Knee Arthroplasty (TKA)
- Partial-Unicompartmental Knee Arthroplasty (UKA)
- Knee Manipulation under Anesthesia (MUA)
- Knee Ligament Reconstruction/Repair
- Knee Meniscectomy/Meniscal Repair/Meniscal Transplant
- Knee Surgery Other (includes synovectomy, loose body removal, diagnostic knee arthroscopy, debridement with or without chondroplasty, lateral release/patellar realignment, articular cartilage restoration)

# Outpatient and Inpatient Shoulder Surgery Services: \*

- Revision Shoulder Arthroplasty
- Total/Reverse Arthroplasty or Resurfacing
- Partial Shoulder Arthroplasty/Hemiarthroplasty
- Shoulder Rotator Cuff Repair
- Shoulder Labral Repair
- Frozen Shoulder Repair/Adhesive Capsulitis
- Shoulder Surgery Other (includes debridement, manipulation, decompression, tenotomy, tenodesis, synovectomy, claviculectomy, diagnostic shoulder arthroscopy)

### **Outpatient and Inpatient Spine Surgery Services:**

	<ul> <li>Lumbar Microdiscectomy</li> <li>Lumbar Decompression (Laminotomy, Laminectomy, Facetectomy &amp; Foraminotomy)</li> <li>Lumbar Spine Fusion (Arthrodesis) With or Without Decompression – Single &amp; Multiple Levels</li> <li>Cervical Anterior Decompression with Fusion –Single &amp; Multiple Levels</li> <li>Lumbar Artificial Disc Replacement</li> <li>Cervical Posterior Decompression with Fusion –Single &amp; Multiple Levels</li> <li>Cervical Posterior Decompression (without fusion)</li> <li>Cervical Artificial Disc Replacement – Single &amp; Two Levels</li> <li>Cervical Anterior Decompression (without fusion)</li> <li>Sacroiliac Joint Fusion</li> </ul> *Surgeon must request surgery authorization for each joint, even if bilateral joint surgery is to be performed on the same date.
	NIA does not manage prior authorization for emergency MSK surgery cases that are admitted through the emergency room or for MSK surgery procedures outside of those procedures listed.
Why did Meridian Health Plan select NIA to manage its MSK program for hip, knee, shoulder, and spine surgeries?	NIA was selected to partner with us because of its clinically driven program designed to effectively manage quality and member safety, while ensuring appropriate utilization of resources for Meridian Health Plan membership.
Which Meridian Health Plan members will be covered under this relationship and what networks will be used?	NIA will manage non-emergent outpatient and inpatient hip, knee, shoulder, and spine surgeries for Meridian Medicaid and Meridian Medicare-Medicaid MMP Health Plans effective February 1, 2024, through Meridian Health Plan's contractual relationships.
IMPLEMENTATION What is the implementation date for this MSK program for hip, knee, shoulder, and spine surgeries? PRIOR AUTHORIZATIO	Implementation is February 1, 2024.
When is prior authorization required?	Prior authorization is required through NIA for inpatient and outpatient non-emergent emergent hip, knee, shoulder, and spine surgeries listed.

	Facility admissions do not require a separate prior authorization.  However, the facility should ensure that an NIA prior authorization has been obtained prior to scheduling the surgery.
Is a prior authorization required for members who already have a musculoskeletal surgery scheduled?	Yes. Any non-emergent hip, knee, shoulder, and spine surgery performed on or after, February 1, 2024, requires a prior authorization through NIA.
Who can order a musculoskeletal surgery?	Musculoskeletal surgeries requiring medical necessity review are expected to be ordered by one of the following specialties:  Orthopedic Surgeons  Neurosurgeons
Are pain management procedures included in this program?	Yes. All non-emergent outpatient Interventional Pain Management (IPM). Procedures are required to have a prior authorization through NIA. Please refer to IPM Frequently Asked Questions.
Who will be reviewing the surgery requests and medical information provided?  Does the NIA's prior authorization process change the requirements for	As a part of the NIA clinical review process, actively practicing, orthopedic surgeon specialists (hip, knee, and shoulder) or neurosurgeons (spine) will conduct the medical necessity reviews and determinations of musculoskeletal surgery cases.  NIA's medical necessity review and determination is for the authorization of the surgeon's professional services and type of surgery being performed.
facility-related prior authorization?	
How does the ordering physician obtain a prior authorization from NIA?	Providers will be able to request prior authorization via the NIA website <a href="www.RadMD.com">www.RadMD.com</a> (preferred method) to obtain prior authorization for MSK procedures. RadMD is available 24 hours a day, 7 days a week. For Providers that are unable to submit authorizations using RadMD, our Call Center is available at Medicare-Medicaid (MMP) 1-866-642-9704 and Medicaid 1-866-214-2493 for prior authorizations, Monday-Friday, 7:00 a.m. to 7:00 p.m. (CST).
What information will NIA require in order to receive prior authorization?	To expedite the process, please have the following information ready before logging on to the website or calling the NIA call center at Medicare-Medicaid (MMP) 1-866-642-9704 and Medicaid 1-866-214-2493 for prior authorization of non-emergent inpatient and outpatient hip, knee, shoulder, and spine surgeries:  (*denotes required information)  Name and office phone number of ordering physician*  Member name and ID number*

- Requested surgery type\*
- CPT Codes
- Name of facility where the surgery will be performed\*
- Anticipated date of surgery\*
- Details justifying the surgical procedure\*:
  - Clinical Diagnosis\*
  - Date of onset of back pain or symptoms /Length of time member has had episode of pain\*
  - Physician exam findings (including findings applicable to the requested services)
  - Diagnostic imaging results
  - Non-operative treatment modalities completed, date, duration of pain relief, and results (e.g., physical therapy, epidural injections, chiropractic or osteopathic manipulation, hot pads, massage, ice packs and medication)

Please be prepared to provide the following information, if requested:

- Clinical notes outlining type and onset of symptoms.
- Length of time with pain/symptoms
- Non-operative care modalities to treat pain and amount of pain relief.
- Physical exam findings
- Diagnostic Imaging results
- Specialist reports/evaluation

Does the ordering physician need a separate request for all spine procedures being performed during the same surgery on the same date of service?

No. NIA will provide a list of surgery categories to choose from and the Meridian Health Plan surgeon <u>must</u> select the most complex and invasive surgery being performed as the primary surgery.

#### **Example: Lumbar Fusion**

 If the Meridian Health Plan surgeon is planning a single level Lumbar Spine Fusion with decompression, the surgeon will select the single level fusion procedure. The surgeon does not need to request a separate authorization for the decompression procedure being performed as part of the Lumbar Fusion Surgery. This is included in the Lumbar Fusion request.

#### **Example: Laminectomy**

 If the Meridian Health Plan surgeon is planning a Laminectomy with a Microdiscectomy, the surgeon will select the Lumbar decompression procedure. The surgeon does not

	need to request a separate authorization for the Microdiscectomy procedure.
	If the Meridian Health Plan surgeon is only performing a Microdiscectomy (CPT 63030 or 63035), the surgeon should select the Microdiscectomy only procedure.
Will the ordering physician need to enter each CPT procedure code being performed for a hip, knee, shoulder, or spine surgery?	No. NIA will provide a list of surgery categories to choose from and the ordering physician must select the primary surgery (most invasive) being performed. There will be a summary of which CPT codes fall under each procedure category.
Are instrumentation (medical device), bone grafts, and bone marrow aspiration included as part of the spine or joint fusion authorizations?	Yes. The instrumentation (medical device), bone grafts, and bone marrow aspiration procedures commonly performed in conjunction with musculoskeletal surgeries are included in the authorization; however, the amount of instrumentation must align with the procedure authorized.
What kind of response time can an ordering physician expect for prior authorization?	<ul> <li>Having the following information available prior to calling NIA at Medicare-Medicaid (MMP) 1-866-642-9704 and Medicaid 1-866-214-2493 or online through <a href="www.RadMD.com">www.RadMD.com</a> will create the most efficient turnaround time of a medically necessity decision.</li> <li>Clinical Diagnosis</li> <li>Date of onset of back pain or symptoms /Length of time member has had episode of pain.</li> <li>Physician exam findings (including findings applicable to the requested services)</li> <li>Pain/Member Symptoms</li> <li>Diagnostic imaging results</li> <li>Non-operative treatment modalities completed, date, duration of pain relief, and results (e.g., physical therapy, epidural injections, chiropractic or osteopathic manipulation, hot pads, massage, ice packs and medication)</li> </ul>
What will the NIA	Generally, within 2 business days after receipt of request with full clinical documentation, a determination will be made. In certain cases, the review process can take longer if additional clinical information is required to make a determination.  The NIA authorization number will consist of alpha-numeric
authorization number look like?	characters. In some cases, the ordering surgeon may instead receive an NIA tracking number (not the same as an authorization number) if the surgeon's authorization request is not approved at the time of initial contact. Ordering physicians

	will be able to use either number to track the status of their
	request online or through an Interactive Voice Response (IVR)

	7
	Re-open is not allowed for Medicare.  NIA has a specialized clinical team focused on MSK. Peer-to-peer discussions are offered for any request that does not meet medical necessity guidelines. The MSK provider may call Medicare-Medicaid (MMP) 1-866-642-9704 and Medicaid 1-866-214-2493. to initiate the peer-to-peer process. These discussions provide an opportunity to discuss the case and collaborate on the appropriate services for the member based on the clinical information provided.
RADMD ACCESS	
If I currently have RadMD access, will I need to apply for additional access to initiate authorizations for MSK procedures?	If the user already has access to RadMD, RadMD will allow you to submit an authorization for any procedures managed by NIA.
What option should I select to receive access to initiate authorizations?	Selecting "Physician's office that orders procedures" will allow you access to initiate authorizations for MSK procedures.
How do I apply for RadMD access to initiate authorization requests if I don't have access?	<ul> <li>User would go to our website www.radmd.com.</li> <li>Click on NEW USER.</li> <li>Choose "Physician's office that orders procedures" from the drop-down box.</li> <li>Complete application with necessary information.</li> <li>Click on Submit</li> </ul> Once an application is submitted, the user will receive an email
	from our RadMD support team within a few hours after completing the application with an approved username and a temporary passcode. Please contact the RadMD Support Team at 1-800-327-0641 if you do not receive a response within 72 hours.
What is rendering provider access?	Rendering provider access allows users the ability to view all approved authorizations for their office or facility. If an office is interested in signing up for rendering access, you will need to designate an administrator.  • User would go to our website <a href="www.RadMD.com">www.RadMD.com</a> • Select "Facility/Office where procedures are performed" • Complete application • Click on Submit
	Examples of a rendering facility that only need to view approved authorizations:

	<ul> <li>Hospital facility</li> <li>Billing department</li> <li>Offsite location</li> <li>Another user in location who is not interested in initiating authorizations</li> </ul>
Which link on RadMD will I select to initiate an authorization request for MSK procedures?	Clicking the "Request Spine Surgery or Orthopedic Surgery" link will allow the user to submit a request for an MSK procedure.
How can providers check the status of an authorization request?	Providers can check on the status of an authorization by using the "View Request Status" link on RadMD's main menu.
How can I confirm what clinical information has been uploaded or faxed to NIA?	Clinical Information that has been received via upload or fax can be viewed by selecting the member on the View Request Status link from the main menu. On the bottom of the "Request Verification Detail" page, select the appropriate link for the upload or fax.
Where can providers find their case-specific communication from NIA?	Links to case-specific communication to include requests for additional information and determination letters can be found via the View Request Status link.
If I did not submit the initial authorization request, how can I view the status of a case or upload clinical documentation?	The "Track an Authorization" feature will allow users who did not submit the original request to view the status of an authorization, as well as upload clinical information. This option is also available as a part of your main menu options using the "Search by Tracking Number" feature. A tracking number is required with this feature.
Paperless Notification: How can I receive notifications electronically instead of paper?	NIA defaults communications including final authorization determinations to paperless/electronic. Correspondence for each case is sent to the email of the person submitting the initial authorization request.  Users will be sent an email when determinations are made.
	<ul> <li>No PHI will be contained in the email.</li> <li>The email will contain a link that requires the user to log into RadMD to view PHI.</li> </ul>
CONTACT INFORMATION	Providers who prefer paper communication will be given the option to opt out and receive communications via fax.

Who can I contact if we need RadMD support?	For assistance, please contact <a href="mailto:RadMDSupport@Evolent.com">RadMDSupport@Evolent.com</a> or call 1-800-327-0641.
	RadMD is available 24/7, except when maintenance is performed every third Thursday of the month from 9 pm – midnight PST.
Who can a surgeon contact at NIA for	Ordering Providers can contact Leta Genasci, Sr. Provider Relations Manager, at 1-314-387-5518 or
more information?	Igenasci@evolent.com.
