

National Imaging Associates, Inc. (NIA)* Interventional Pain Management (IPM) Frequently Asked Questions (FAQ's) For Wellcare Medicare of South Carolina Providers

	ulcare of South Carollia Froviders
Question	Answer
GENERAL	
Why is Wellcare Medicare of South Carolina implementing an Interventional Pain Management (IPM) Program?	Wellcare Medicare of South Carolina is implementing this program to improve quality and manage the utilization of non-emergent, IPM procedures for Wellcare Medicare of South Carolina members.
What IPM procedures does this include?	IPM Procedures that are included in this program:
Why did Wellcare Medicare of South Carolina select NIA?	NIA was selected to partner with us because of its clinically driven program designed to effectively manage quality and member safety, while ensuring appropriate utilization of resources for Wellcare Medicare of South Carolina membership.
Which Wellcare Medicare of South Carolina members will be covered under this relationship and what networks will be used?	NIA will manage non-emergent outpatient IPM procedures for Wellcare Medicare of South Carolina members effective February 1, 2024, through Wellcare Medicare of South Carolina's contractual relationships.
PROGRAM START DATE	
What is the implementation date for this IPM Program?	The effective date of the program is February 1, 2024. Wellcare Medicare of South Carolina and NIA will be collaborating on provider related activities prior to the start date including provider training materials and provider education.

^{*}Effective 1/20/2023, National Imaging Associates, Inc. is now a subsidiary of Evolent Health. Evolent Health and its affiliates and subsidiaries collectively referred to as "Evolent."

PRIOR AUTHORIZATION	
What IPM services will require a provider to obtain a prior authorization?	The following outpatient IPM procedures require prior authorization through NIA: • Epidural Injections • Facet Joint Injections or Blocks • Facet Neurolysis • Sacroiliac Joint Injections • Spinal Cord Stimulators • Sympathetic Nerve Blocks
When is prior authorization required?	Prior authorization is required for outpatient, non- emergent IPM procedures. Ordering providers must obtain prior authorization for these procedures prior to the service being performed. Note: Only outpatient procedures are within the program scope. All IPM procedures performed in the Emergency Room or as part of inpatient or intraoperative care do not require prior authorization through NIA.
Is prior authorization required for members currently undergoing treatment?	Yes, authorization is required for dates of service on or beyond February 1, 2024, even if the member is continuing treatment.
Who do we expect to order IPM procedures?	IPM procedures requiring medical necessity review are usually ordered by one of the following specialties. • Anesthesiologists • Neurologists • Pain Specialist • Orthopedic Spine Surgeon • Neurosurgeon • Other physicians with appropriate pain procedure training and certification
Are inpatient IPM procedures included in this program?	No, Inpatient IPM procedures are not included in this program.
Are intraoperative and/or post-operative pain control IPM procedures included in this program?	No, IPM procedures performed for pain management during a larger surgical procedure are not included in this program.
How does the ordering provider obtain a prior authorization from NIA for	Providers will be able to request prior authorization via the NIA website www.RadMD.com (preferred method) to obtain prior authorization for IPM procedures. RadMD is available 24 hours a day, 7 days a week.

an outpatient IPM procedure?	For providers that are unable to submit authorizations using RadMD, our call center is available at 1-800-424-5388 for prior authorization, Monday-Friday, 8:00 a.m. to 8:00 p.m. (EST).
What information will NIA	To expedite the process, please have the following
require in order to receive	information available before logging on to the website
prior authorization?	or calling the NIA call center staff
	(*denotes required information):
	 Name and office phone number of ordering physician* Member name and ID number* Requested procedure* Name of provider office or facility where the service will be performed* Anticipated date of service* Details justifying the pain procedure*: Date of onset of pain or exacerbation Physician exam findings and member symptoms (including findings applicable to the requested services) Clinical Diagnosis Date and results of prior IPM procedures. Diagnostic imaging results, where available. Conservative treatment modalities completed, duration, and results (e.g., physical therapy, chiropractic or osteopathic manipulation, hot pads, massage, ice packs and medication)
	Please be prepared to upload to RadMD or fax the following information, if requested: Clinical notes outlining onset of pain,
	conservative care modalities, outcomes and physical exam findings Date and results of prior IPM procedures Effectiveness of prior procedures on reducing pain Diagnostic Imaging results Specialist reports/evaluation

	T=
How do I send clinical information to NIA if it is required?	The most efficient way to send required clinical information is to upload your documents to RadMD (preferred method). The upload feature allows clinical information to be uploaded directly after completing an authorization request. Utilizing the upload feature expedites your request since it is automatically attached and forwarded to our clinicians for review. If uploading is not an option for your practice, you may fax utilizing the NIA specific fax coversheet. To ensure prompt receipt of your information: • Use the NIA fax coversheet as the first page of your clinical fax submission. *Please do not use your own fax coversheet, since it will not contain the case specific information needed to process the case • Make sure the tracking number on the fax coversheet matches the tracking number for your request • Send each case separate with its own fax coversheet • IPM Providers may print the fax coversheet from www.RadMD.com . • NIA will fax this coversheet to the IPM Provider during authorization intake or at any time during the review process.
	*Using an incorrect fax coversheet may delay a

like?	provider may instead receive an NIA tracking number
	(not the same as an authorization number) if the

	provider's authorization request is not approved at the time of initial contact. Providers will be able to use either number to track the status of their request online or through an Interactive Voice Response (IVR) telephone system.
If requesting an authorization through RadMD and the request pends, what happens next?	You will receive a tracking number and will need to submit clinical documentation that supports the requested IPM procedure.
Can RadMD be used to submit an expedited authorization request?	RadMD can only be used to initiate expedited authorization requests after normal business hours. Requests that are submitted during normal business hours must be called into NIA's call center through the toll-free number at 1-800-424-5388 for processing.
How long is the prior authorization number valid?	The authorization validity period for all IPM procedures is <u>60</u> days from the date of request.
Is prior authorization necessary for IPM procedures if Wellcare Medicare of South Carolina is NOT the member's primary insurance?	No. Authorization not required if Wellcare Medicare of South Carolina is secondary to another plan.
If a provider obtains a prior authorization number does that guarantee payment?	An authorization number is not a guarantee of payment. Authorizations are based on medical necessity and are contingent upon eligibility and benefits. Benefits may be subject to limitations and/or qualifications and will be determined when the claim is received for processing.
Does NIA allow retro- authorizations?	Yes. Retrospective review of completed procedures are evaluated for medical necessity and to determine whether there was an urgent or emergent situation that prohibited the provider from obtaining prior authorization for the service and to determine whether medical necessity guidelines were met. It is important that key physicians and office staff be educated on the prior authorization requirements. Claims for IPM procedures, as outlined above, that have <u>not</u> been properly authorized will <u>not</u> be reimbursed. Physicians administering these procedures <u>should not</u> schedule or perform procedures without prior authorization.

authorization decision?	
RADMD ACCESS	
If I currently have RadMD access, will I need to apply for additional access to initiate authorizations for IPM procedures?	If the user already has access to RadMD, RadMD will allow you to submit an authorization for any procedures managed by NIA.
What option should I select to receive access to initiate authorizations?	Selecting "Physician's office that orders procedures" will allow you access to initiate authorizations for pain management procedures.
How do I apply for RadMD access to initiate authorization requests if I don't have access?	 User would go to our website www.radmd.com. Click on NEW USER. Choose "Physician's office that orders procedures" from the drop-down box Complete application with necessary information. Click on Submit Once an application is submitted, the user will receive an email from our RadMD support team within a few hours after completing the application with an approved username and a temporary passcode. Please contact the RadMD Support Team at 1-800-327-0641 if you do not receive a response within 72 hours.

What is rendering provider access?	Rendering provider access allows users the ability to view all approved authorizations for their office or facility. If an office is interested in signing up for rendering access, you will need to designate an administrator. • User would go to our website www.RadMD.com • Select "Facility/Office where procedures are performed" • Complete application • Click on Submit
	Examples of a rendering facility that only need to view approved authorizations: • Hospital facility • Billing department • Offsite location • Another user in location who is not interested in
	initiating authorizations
