

Genetic Tests and Laboratory Matrix

The matrix below contains all the genetic tests which Evolent “Evolent (formerly National Imaging Associates, Inc.)” * manages on behalf of Superior HealthPlan. This matrix is designed to assist in determining if a genetic test requires authorization through Evolent. Genetic tests are grouped by category and include the test name, the laboratory that performs the test, and the genetic testing unit (GTU). The GTU is a unique identifier created by Concert Genetics for each genetic test. To learn more about the GTU, please visit [Concert Genetics’ website](#).

As Evolent systems are continually updated, a new matrix will be posted to RadMD the first of every month. To find the most current CPT codes please visit [Concert Genetics’ Portal](#).

Prior authorization is not a guarantee of payment. Authorizations are based on medical necessity and are contingent upon member eligibility at the time services are rendered.

Refer to your [Texas Medicaid fee schedules](#) to determine which CPT codes are allowable for each genetic test managed by Evolent.
