Obtaining Authorizations

The ordering provider is responsible for obtaining prior authorizations for the Medical Specialty Solutions Services listed above.

It is the responsibility of the provider rendering this service to:

- Ensure that an authorization was obtained. Payment will be denied for procedures performed without a necessary authorization, and the member cannot be balance-billed for these procedures.
- Communicate to all personnel involved in outpatient scheduling that prior authorization is required for the above procedures under Wellcare of Delaware.
- If a provider office calls to schedule a member for a procedure requiring prior authorization, request the authorization number.
- If the referring provider has not obtained prior authorization when required, inform the provider of this requirement and advise him/her to obtain an authorization.
- If a member calls to schedule an appointment for a procedure that requires authorization, and does not have the authorization number, the member should be directed back to the referring provider who ordered the procedure.

- An authorization number is not a guarantee of payment. Whether the requested service is covered is subject to all of the terms and conditions of the member's benefit plan, including but not limited to, member eligibility, benefit coverage at the time of the services are provided and any pre-existing condition exclusions referenced in the member's benefit plan.
