Prior Authorization Process Overview

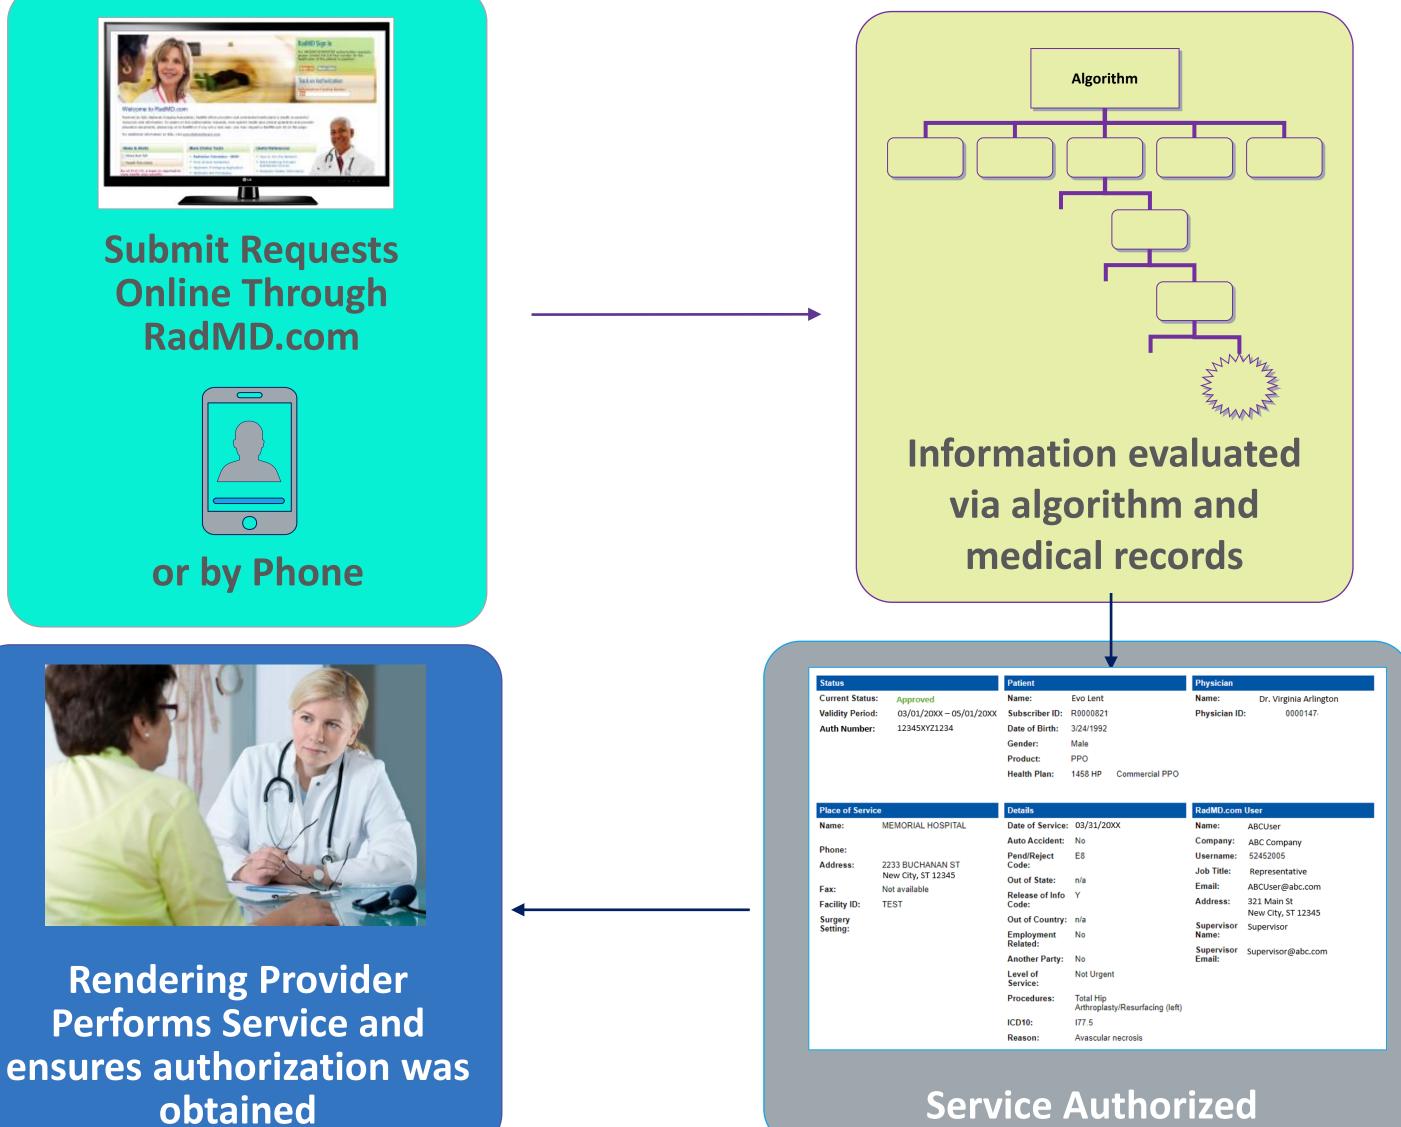

Ordering Physician is responsible for obtaining prior authorization.

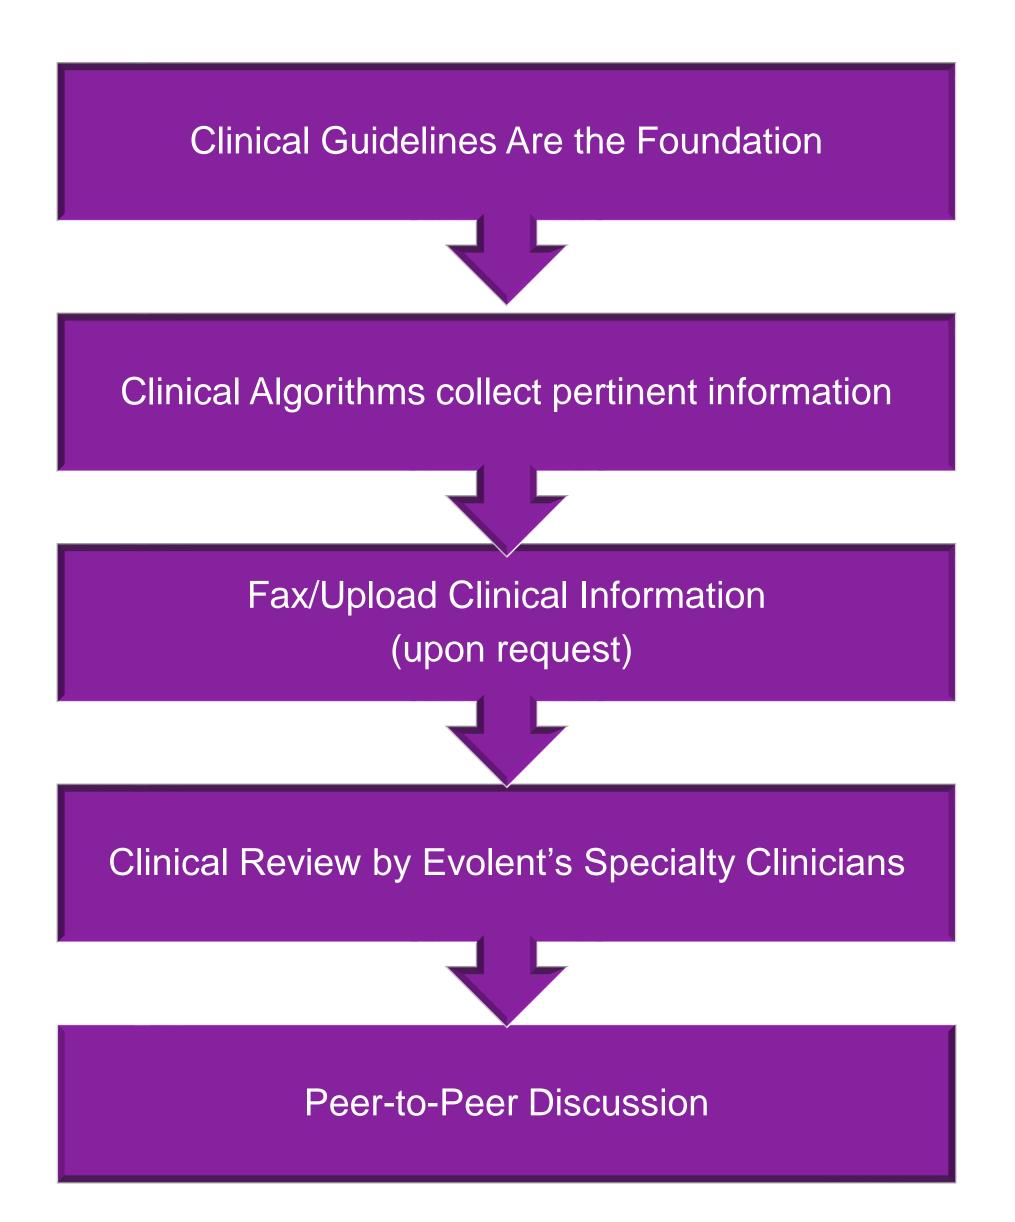

Recommendation to Rendering Providers: Do not schedule test until authorization is received

Evolent's Clinical Foundation & Review

- **Clinical guidelines** were developed by practicing specialty physicians, through literature reviews and evidenced-based research. Guidelines are reviewed and mutually approved by the Plan and **Evolent Medical Officers and clinical experts. Clinical Guidelines are available on <u>RadMD.com</u>**
- Algorithms are a branching structure that changes depending upon the answer to each question.
- The member's clinical information/medical record will be required for validation of clinical criteria before an approval can be made.
- Evolent has a specialized clinical team.
- Peer-to-peer discussions are offered for any request that does not meet medical necessity guidelines.
- Our goal ensure that members are receiving appropriate care.

Member and Clinical Information Required for Authorization

General

Includes: ordering physician information, member information, rendering provider information, requested examination, etc.

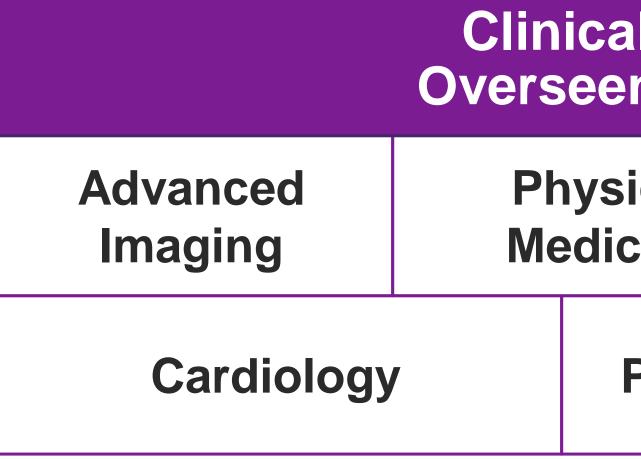

Clinical Information

- Includes clinical information that will justify examination, symptoms and their duration, physical exam findings
- Preliminary procedures already completed (e.g., x-rays, CTs, lab work, ultrasound reports, scoped procedures, referrals to specialist, specialist evaluation)
- Reason the study is being requested (e.g., further evaluation, rule out a disorder)

Refer to the Prior Authorization Checklists on RadMD for more specific information.

Clinical Specialty Team Review

Physician Review Team

Physician Panel of Board-Certified Physician Specialists with ability to meet any State licensure requirements

Physician clinical reviewers conduct peer reviews on specialty products (cardiology, radiation oncology, interventional pain management, surgery, sleep management and genetic testing)

Document Review

Evolent may request members' medical records/additional clinical information.

When requested, validation of clinical criteria within the member's medical records is required before approval can be made.

Ensures that clinical criteria that supports the requested test are clearly documented in medical records.

Helps ensure that members receive the most appropriate, effective care.

- Notifications will include an explanation of what services have been denied and the clinical rationale for the denial
- A peer-to-peer discussion can be initiated once the adverse determination has been made.
- A re-review is available with new or additional information.
- Timeframe for re-review is 10 business days from the date of denial.
- In the event of a denial, providers are asked to follow the appeal instructions provided in their denial letter.

Claims and Appeals

How Claims Should be Submitted

- Rendering/Service providers/Imaging providers should continue to send their claims directly to Arizona Complete Health
 Complete Care Plan (CCP) and Ambetter from Arizona Complete Health.
- Providers are strongly encouraged to use EDI claims submission.
- Check on claims status by logging on to the Arizona Complete Health website at <u>www.</u>

https://www.arizonacompletehealth.com

Claims Appeals Process

- In the event of a prior authorization or claims payment denial, providers may appeal the decision through Arizona Complete Health -Complete Care Plan (CCP) and Ambetter from Arizona Complete Health.
- Providers should follow the instructions on their nonauthorization letter or Explanation of Payment (EOP) notification.

Radiation Safety and Awareness

Studies suggest a significant increase in cancer in dose estimates in excess of 50 mSv

CT scans and nuclear studies are the largest contributors to increased medical radiation exposure

According to the 2019 NCRP Report, a dramatic decrease in average radiation dose per person by as much as 15 - 20% has been demonstrated due to radiation safety and technological advances.

Evolent has developed a Radiation Awareness Program designed to create member and physician awareness of radiation concerns
