

Ambetter from PA Health & Wellness Musculoskeletal Care Management (MSK) Program Quick Reference Guide for Physicians/Surgeons

Effective: March 1, 2024

Ambetter from PA Health & Wellness is committed to continuous improvement of quality services for our members. With that in mind, Ambetter from PA Health & Wellness has entered into an expanded partnership with Evolent (formerly National Imaging Associates, Inc.) to implement a Musculoskeletal Care Management (MSK) Program. This program includes prior authorization for non-emergent MSK procedures: inpatient and outpatient hip, knee, shoulder, lumbar and cervical spine surgeries. This decision is consistent with industry-wide efforts to ensure clinically appropriate quality of care and to manage the increasing utilization of these services.

The following types of services are included in the MSK program for all Ambetter from PA Health & Wellness Exchange members. Providers may begin contacting Evolent on March 1, 2024, to obtain prior authorization for procedures scheduled on or after March 1, 2024.

- Inpatient and outpatient hip surgeries
- Inpatient and outpatient knee surgeries
- Inpatient and outpatient shoulder surgeries
- Inpatient and outpatient lumbar and cervical spine surgeries

Prior Authorization Implementation

As a provider of MSK services that require prior authorization, it is essential that you develop a process to ensure that the appropriate authorization number(s) has been obtained.

It is the responsibility of the ordering physician/surgeon and rendering facility to ensure that prior authorization was obtained, when necessary. Payment will be denied for procedures performed without a prior authorization, including the MSK surgery hospital admission, and the member cannot be balance-billed for such procedures.
