

# Oklahoma Complete Health Musculoskeletal (MSK) Management Program

Provider Training Presented by: Andrew Dietz, DPT

**April 2024** 

# Evolent (Formerly National Imaging Associates, Inc.) Program Agenda

### Our MSK Program

- Authorization Process
  - Other Program Components
- Provider Tools and Contact Information
- RadMD Demo
- Questions and Answers

### **Evolent Specialty Solutions**

National Footprint / Experience

### **National Footprint**

- Since 1995 delivering Medical Specialty Solutions; one of the *go-to* care partners in industry.
- 88 health plans/markets partnering with Evolent for management of Medical Specialty Solutions.
- 32.79M national lives participating in an Evolent Medical Specialty Solutions Program nationally.
- Diverse populations Medicaid, Exchanges, Medicare, Commercial, FEP, Provider Entities.

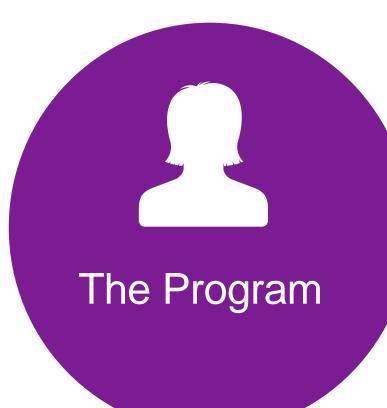

### Commercial/Medicaid/Medicare Expertise/Insights

- 42 Commercial and 56 Medicaid plans/markets with Evolent Medical Specialty Solutions in place.
- 10.66M Commercial and 20.51M
  Medicaid lives nationally in addition
  to 1.63M Medicare Advantage

# Intensive Clinical Specialization & Breadth

- Specialized Physician Teams
  - 160+ actively practicing, licensed, board-certified physicians
  - 28 specialties and sub-specialties

# MSK Prior Authorization Program

Oklahoma
 Complete Health
 will begin a prior
 authorization
 program through
 Evolent for the
 management of
 MSK Services.

- Program start date: April 1, 2024
- Begin obtaining authorizations from Evolent on April 1, 2024 for services rendered on or after April 1, 2024

- Outpatient, interventional spine pain management (IPM) services
- Inpatient and outpatient hip, knee, shoulder, lumbar and cervical spine surgeries
- Surgery Center
- In Office
- Hospital

Medicaid

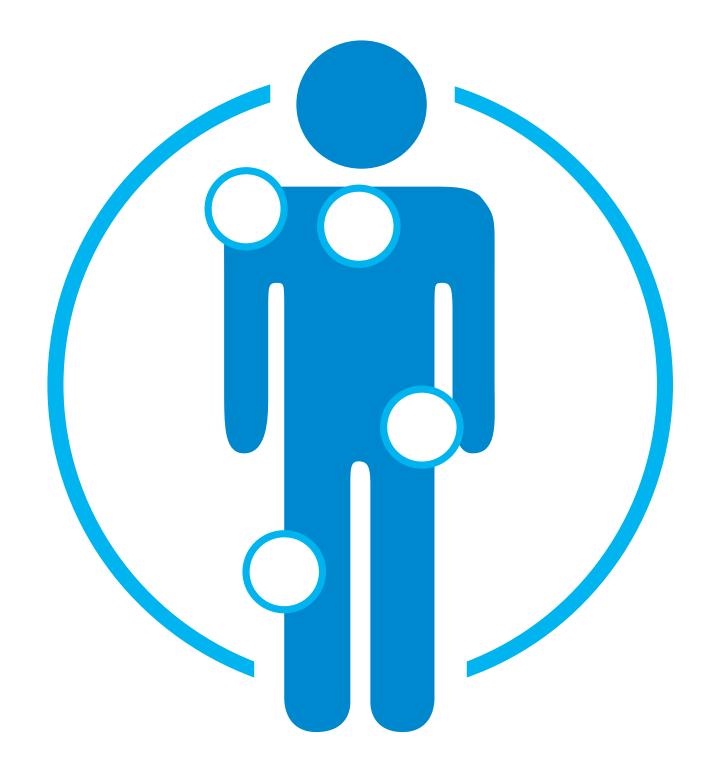

Evolent will manage services through Oklahoma Complete Health contractual relationships.

# Interventional Pain Management (IPM)

### IPM Procedures Performed Outpatient or In-Office

- Spinal Epidural Injections
- Paravertebral Facet Joint Injections or Blocks
- Paravertebral Facet Joint Denervation (Radiofrequency (RF) Neurolysis)
- Sacroiliac Joint Injections
- Sympathetic Nerve Blocks
- Spinal Cord Stimulators

### IPM Procedures Performed in these Settings are Excluded:

- Hospital Inpatient
- Observation Room
- Emergency Room/Urgent Care Facility

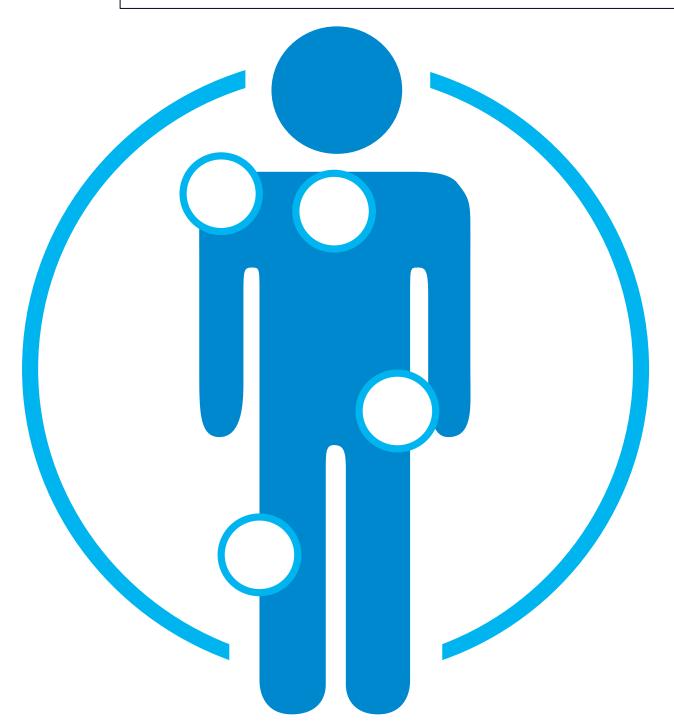

Oklahoma Complete Health network providers are the preferred providers for delivering MSK services to Oklahoma Complete Health members.

# Lumbar and Cervical Spine Surgery

### **Lumbar and Cervical Spine Surgeries Performed Inpatient and Outpatient**

- Lumbar Microdiscectomy
- Lumbar Decompression (Laminotomy, Laminectomy, Facetectomy & Foraminotomy)
- Lumbar Spine Fusion (Arthrodesis) With or Without Decompression – Single & Multiple Levels
- Cervical Anterior Decompression with Fusion –Single & Multiple Levels
- Cervical Posterior Decompression with Fusion –Single & Multiple Levels
- Cervical Posterior Decompression (without fusion)
- Cervical Artificial Disc Replacement Single & Two Levels
- Cervical Anterior Decompression (without fusion)
- Lumbar Artificial Disc Single & Two Levels
- Sacroiliac Joint Fusion

Procedures Performed on or after April 1, 2024, Require Prior Authorization. Evolent's Call Center and RadMD will open April 1, 2024.

### Surgery Performed in this Setting is Excluded:

Emergency Surgery –
 admitted via the
 Emergency Room

Reconstructive spinal deformity surgery does not require prior authorization. However, Evolent will monitor provider use of CPT codes 22800-22819.

# Hip, Knee and Shoulder Surgery

#### **Hip Surgeries Performed Inpatient and Outpatient**

- Revision/Conversion Hip Arthroplasty
- Total Hip Arthroplasty/Resurfacing
- Femoroacetabular Impingement (FAI) Hip Surgery (includes CAM/pincer & labral repair)
- Hip Surgery Other (includes synovectomy, loose body removal, debridement, diagnostic hip arthroscopy, and extraarticular arthroscopy knee)

### **Knee Surgeries Performed Inpatient and Outpatient**

- Revision Knee Arthroplasty
- Total Knee Arthroplasty (TKA)
- Partial-Unicompartmental Knee Arthroplasty (UKA)
- Knee Manipulation under Anesthesia (MUA)
- Knee Ligament Reconstruction/Repair
- Knee Meniscectomy/Meniscal Repair/Meniscal Transplant
- Knee Surgery Other (includes synovectomy, loose body removal, diagnostic knee arthroscopy, debridement with or without chondroplasty, lateral release/patellar realignment, articular cartilage restoration)

#### **Shoulder Surgeries Performed Inpatient and Outpatient**

- Revision Shoulder Arthroplasty
- Total/Reverse Shoulder Arthroplasty or Resurfacing
- Partial Shoulder Arthroplasty/Hemiarthroplasty
- Shoulder Rotator Cuff Repair
- Shoulder Labral Repair
- Frozen Shoulder Repair/Adhesive Capsulitis
- Shoulder Surgery Other (includes debridement, manipulation, decompression, tenotomy, tenodesis, synovectomy, claviculectomy, diagnostic shoulder arthroscopy)

### **Surgery Performed in this Setting is Excluded:**

 Emergency Surgery – admitted via the Emergency Room

# CPT Codes Requiring Prior Authorization (IPM)

Defer to Oklahoma Complete Health Policies for Procedures not on Claims/Utilization Review Matrix.

Utilization Review Matrix 2024 Oklahoma Complete Health

Interventional Pain Management

<del>•</del> ‡•	IPM PROCEDURES				
	Procedure Name	Primary CPT Code	Allowable Billed Groupings	Ancillary Procedures/Codes	
as	uthorization is provided at the <u>procedure</u> level. There are multiple CPT codes that can be ssociated with each procedure. These are assumed to be part of the primary request and, when ampleted in combination, do not require a separate authorization.		These codes do not require prior authorization. If the main procedure is approved, these codes are understood to be included and do not require precertification from the health plan.  *Please note: This is not an all-inclusive list of every possible ancillary code		
	Cervical/Thoracic Interlaminar Epidural	62321	62320, 62321		
	Cervical/Thoracic Transforaminal Epidural	64479	64479, +64480

### Prior Authorization Process Overview

Ordering Physician is responsible for obtaining prior authorization.
MSK provider may be both ordering and rendering

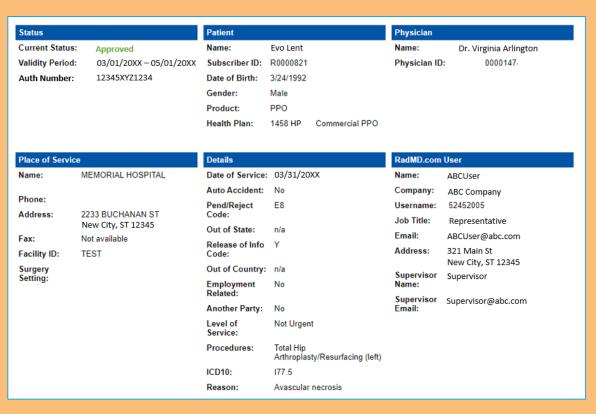

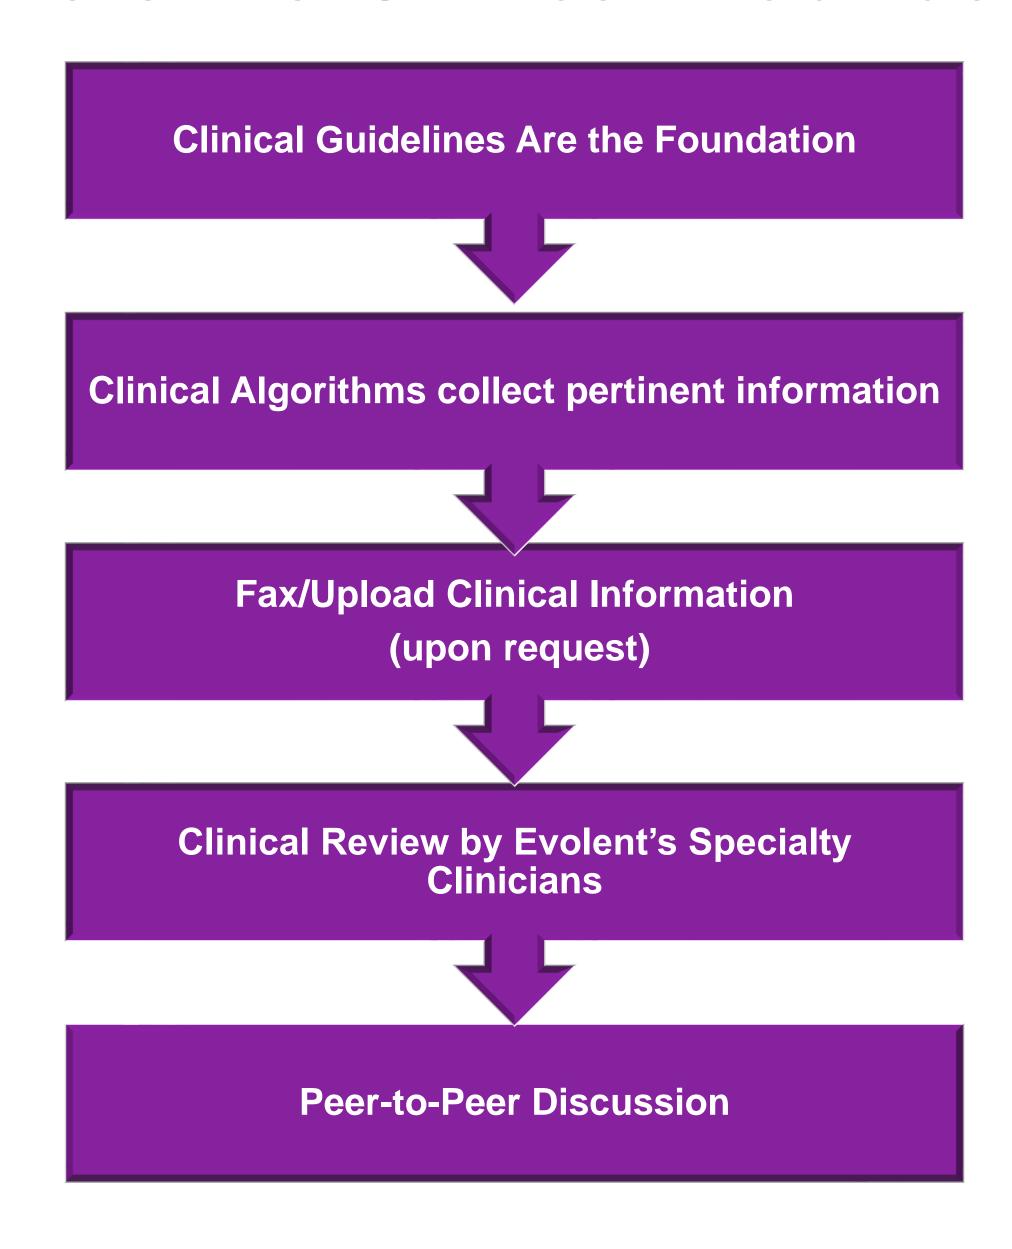

Rendering Provider verifies authorization was obtained and provides service

**Service Authorized** 

### Evolent's Clinical Foundation & Review

- Clinical guidelines were developed by practicing specialty physicians, through literature reviews and evidenced-based research. Guidelines are reviewed and mutually approved by Oklahoma Complete Health and Evolent Medical Officers and clinical experts. Clinical Guidelines are available on RadMD.com
- Algorithms are a branching structure that changes depending upon the answer to each question.
- The member's clinical information/medical record will be required for validation of clinical criteria before an approval can be made.
- Evolent has a specialized clinical team focused on MSK.
- Peer-to-peer discussions are offered for any request that does not meet medical necessity guidelines.
- Our goal ensure that members are receiving appropriate care.

### Authorization for IPM

# Special Information

- Every IPM procedure performed requires a prior authorization; Evolent will not authorize a series of epidural injections.
- Bi-lateral IPM injections performed on the same date of service do not require a separate authorization. An authorization will cover bi-lateral as well as multiple levels on the same date of service. (Please refer to clinical guidelines for potential restrictions)
- Add on codes do not require separate authorization and are to be used in conjunction with the approved primary code for the service rendered.

### IPM Clinical Checklist Reminders

### IPM Documentation:

### **Conservative Treatment**

• Frequently, specifics of active conservative treatment/non-operative treatment are not present in office notes. Details such as duration and frequency should be provided in order to ensure 6 weeks has been attempted within the past 6 months. Official physical therapy records do not need to be obtained but the provider should supply a summary of these details. Physical therapy is not the only means of active conservative treatment acceptable; physician directed home exercise programs as well as chiropractic care are among other examples of appropriate treatments.

### Visual Analog Scale (VAS) Score and/or Functional Disability

 A VAS score is an acceptable method to relay intensity of pain. However, a description of functional disability is also accepted as a means for measuring pain (ie - noting that the member is no longer able to perform work duties, daily care, etc).

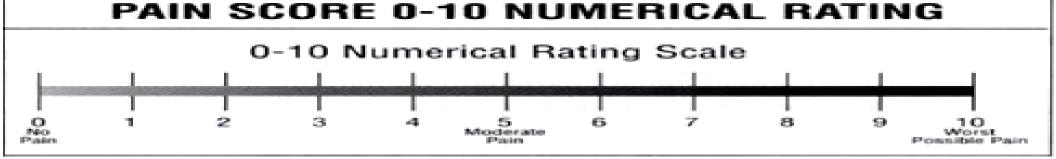

### Follow Up To Prior Pain Management Procedures

• For repeat treatments, follow up is required in regard to what procedure was completed, how much and for how long relief was obtained, active participation in ongoing conservative treatment, and to what level the pain has returned. A follow up office visit is not required; documentation of telephone encounters with the member are acceptable to satisfy this requirement.

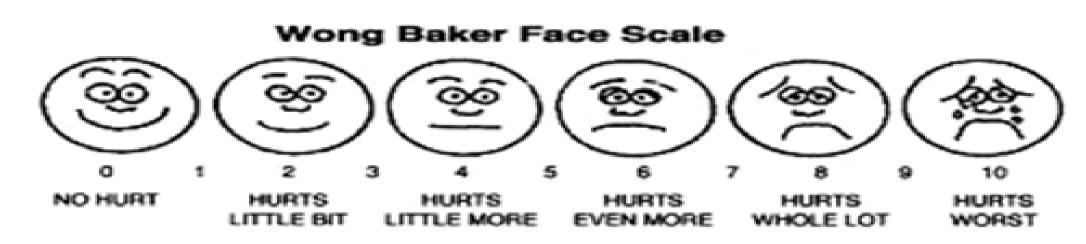

### Visual Analogue Scale (VAS) and Faces Rating Scale (FRS)

Faces rating scale (FRS)

# Authorization for Surgery

# Special Information

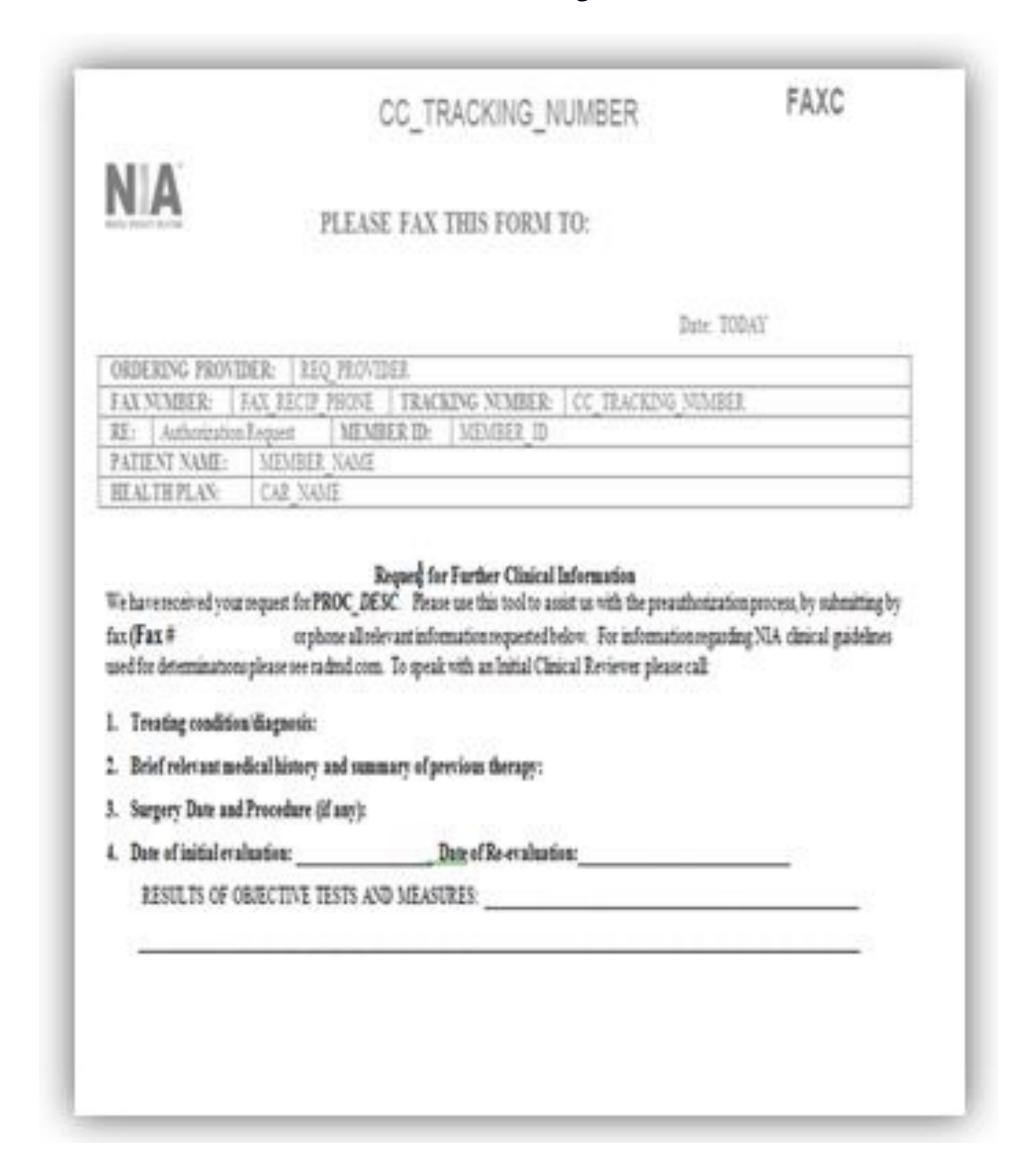

- Most surgeries require only one authorization request. Evolent provides a list of surgery categories to choose from and the surgeon's office must select the most complex and invasive surgery being performed as the **primary** surgery.
  - Example 1: A lumbar fusion authorization includes decompression, instrumentation, etc.
  - Example 2: A knee ligament reconstruction includes meniscectomy, debridement, etc.
- Bilateral hip or knee surgeries require authorization for both the left **and** right side. ACDF and posterior cervical fusion require authorization for each procedure. These requests can be entered at the same time and will be reviewed concurrently.
- Inpatient admissions continue to be subject to concurrent review by Oklahoma Complete Health.
- Date of Service is required.
- The ordering physician must obtain prior authorization with Evolent prior to performing the surgery/procedure.
- Facility admissions do not require a separate prior authorization. However, the facility should ensure that an Evolent prior authorization has been obtained prior to scheduling the surgery/procedure.

# Surgery Clinical Checklist Reminders

### Surgery Documentation:

- Details regarding the member's symptoms and their onset/duration
- Physical exam findings
- Conservative treatment modalities with dates and duration (e.g., physical therapy, home exercise plan, injections, medications, activity modification)
- Diagnostic imaging results
- Ordering physician's surgical plan (including a discussion about the potential risks and benefits of the procedure) (BMI, smoking history, mental status for some surgeries)

## Evolent to Physician: Request for Clinical Information

A fax is sent to the provider detailing what clinical information that is needed, along with a fax coversheet.

We stress the need to provide the clinical information as quickly as possible so we can make a determination.

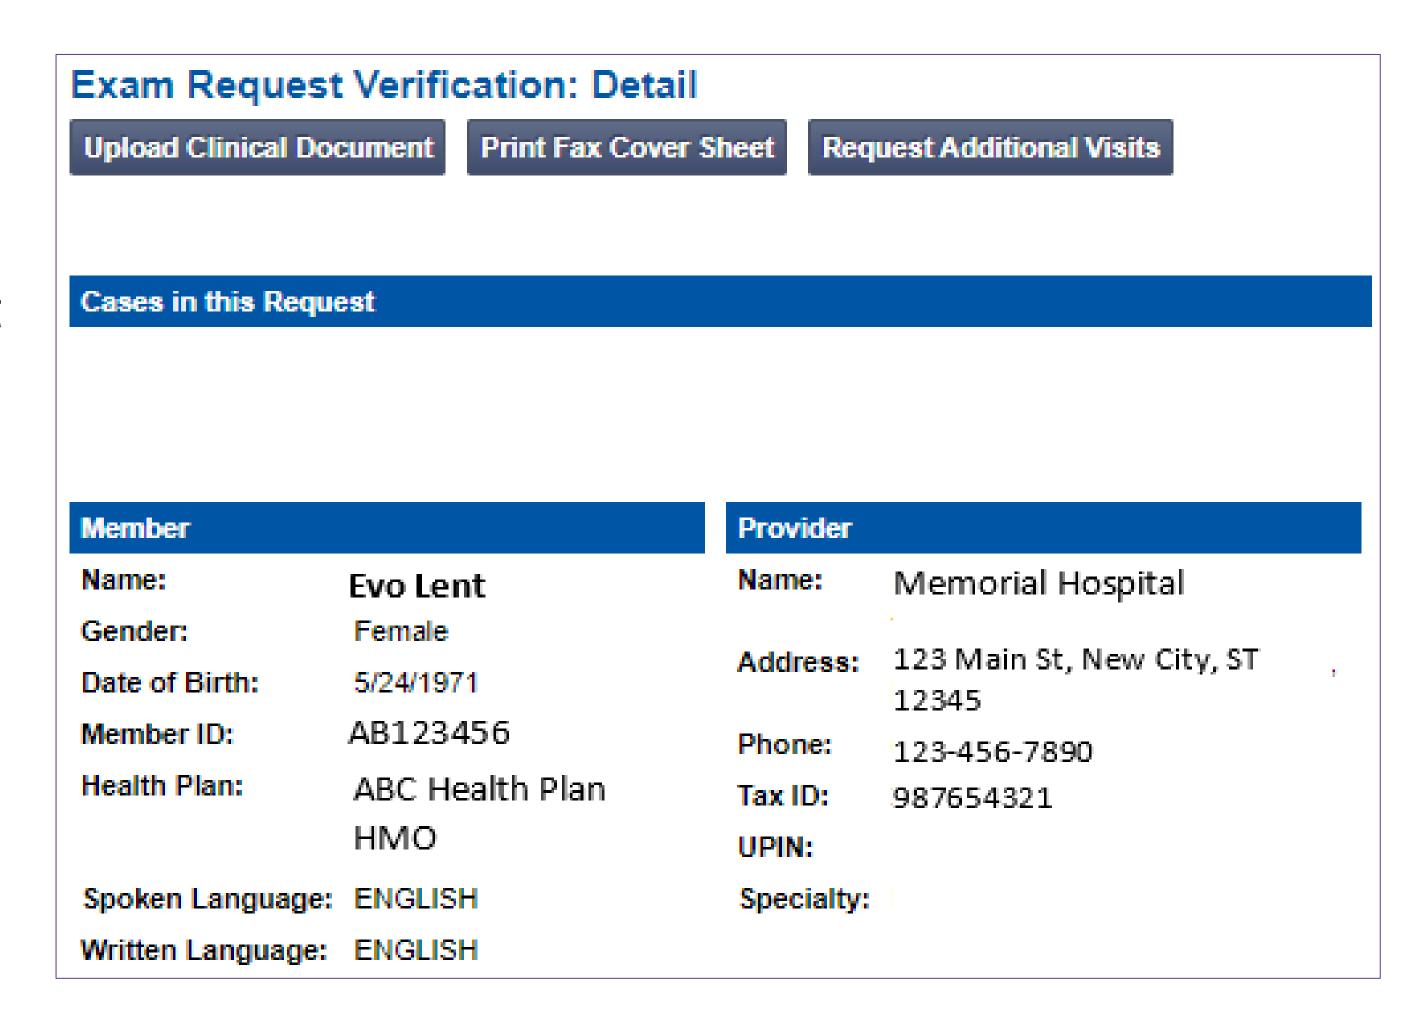

Determination timeframe begins after receipt of clinical information.

Failure to receive requested clinical information may result in non certification.

### Submitting Additional Clinical Information

- Records may be submitted:
  - Upload to <u>https://www.RadMD.com</u>
  - Fax using Evolent coversheet
- Location of Fax Coversheets:
  - Can be printed from https://www.RadMD.com
  - Call 1-866-249-1581
- Use the case specific fax coversheet when faxing clinical information to Evolent

## Clinical Specialty Team: Focused on IPM and MSK

### **IPM Review**

Initial clinical review performed by specially trained IPM nurses

Clinical review team will contact provider for additional clinical information

Anesthesiologists and pain management specialists conduct clinical reviews and peer-to-peer discussions on IPM requests

### **MSK Surgery Review**

Initial clinical review performed by specialty trained surgery nurses

Surgery concierge team will contact provider for additional clinical information Orthopedic surgeons or neurosurgeons conduct clinical reviews and peer-to-peer discussions on surgery requests

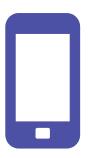

### MSK Clinical Review Process

### **Physicians' Office Contacts Evolent for Prior Authorization**

### **Evolent Initial Clinical Specialty Team Review**

- Additional clinical information submitted and reviewed Procedure Approved
- Additional clinical not complete or inconclusive Escalate to Physician Review

Designated & Specialized Clinical MSK Team interacts with Provider Community.

2

### Request Evaluated Based on Information Entered

Additional clinical information required

#### **Evolent Specialty Physician Reviewers**

 Evolent Physician approves case <u>without</u> peer-topeer

Peer-to-peer outbound attempt made if case is not approvable

- Evolent Physician approves case with peer-to-peer
- Ordering Physician withdraws case during peer-topeer
- Physician denies case based on medical criteria

Generally, the turnaround time for completion of these requests is within two or three business days upon receipt of sufficient clinical information

### Urgent/Expedited Authorization Process

- If an urgent clinical situation exists (outside of a hospital emergency room) during business hours, please call Evolent immediately.
- The Evolent website <a href="https://www.RadMD.com">https://www.RadMD.com</a> cannot be used for medically urgent or expedited prior authorization requests during business hours. Those requests must be processed by calling the Evolent call center:
  - **1-866-249-1581**
- Turnaround time is within 1 business day not to exceed 72 calendar hours.

### Notification of Determination

#### **Authorization Notification**

• Authorizations are valid for:

### **IPM**

60 days from date of request

### Surgery

- Inpatient 2 business days from date of request
- Outpatient- SDC/Ambulatory 30 days from date of request

### **Denial Notification**

- Notifications include an explanation of services denied and the clinical rationale.
- A peer-to-peer discussion can be initiated once the adverse determination has been made.
- Re-review may be available with new or additional information.
- Re-review must occur within 5 business days from the date of denial and prior to submitting a formal appeal.
- In the event of a denial, providers are asked to follow the instructions provided in their denial letter.

### IPM Points

Injections in all regions of spine are managed

Date of Service is required for all requests

Each IPM procedure must be prior authorized

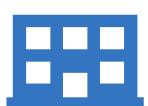

No series of epidural injections

Specialty Nurses and Physicians review IPM requests

# MSK Surgery Points – Lumbar/Cervical Spine Surgery

Inpatient and outpatient non-emergent surgeries

Spine Surgery is focused on lumbar and/or cervical spine surgeries

For spinal surgeries, only one authorization request per surgery. For example, a Lumbar fusion authorization includes decompression, instrumentation, etc.

Reconstructive spinal deformity surgery does not require prior authorization. However, Evolent will monitor provider use of CPT codes 22800-22819.

# MSK Surgery Points – Hip, Knee and Shoulder Surgery

Bilateral hip or knee surgeries require authorization for both the left **and** right side. These requests can be entered at the same time and will be reviewed concurrently. ACDF and posterior cervical fusion require authorization for each procedure. These requests can be entered at the same time and will be reviewed concurrently.

Surgeries addressing the following are not included in the MSK program: trauma, amputation, fracture, active infection, pediatric conditions, congenital malformation, dysplasia (hip), palsy/plegia, osteochondritis dissecans (knee), osteotomy (knee), tumor, cyst, cancer, arthrodesis, girdle resection (hip), denervation (hip), joint dislocation, hemiarthroplasty (hip), hardware & foreign body removal.

# MSK Surgery Points – All Surgeries

Specialized Orthopedic Surgeons or Neurosurgeons will review surgery requests. Inpatient admissions will continue to be subject to concurrent review by Oklahoma Complete Health.

The ordering physician must obtain prior authorization with Evolent prior to performing the surgery/procedure.

Facility admissions do not require a separate prior authorization. However, the facility should ensure that an Evolent prior authorization has been obtained prior to scheduling the surgery/procedure.

Authorizations are valid for 60 days (IPM), 2 days (inpatient surgery), and 30 days (outpatient surgery) from the date of request. Evolent must be notified of any changes to the date of service..

### Provider Tools

# RadMD Website RadMD.com

### **Available**

- IPM Checklist
- RadMD Quick Start Guide
- Claims/Utilization Matrices

# RadMD New User Application Process - Ordering

Users are required to have their own separate usernames and passwords due to HIPAA regulations.

#### STEPS:

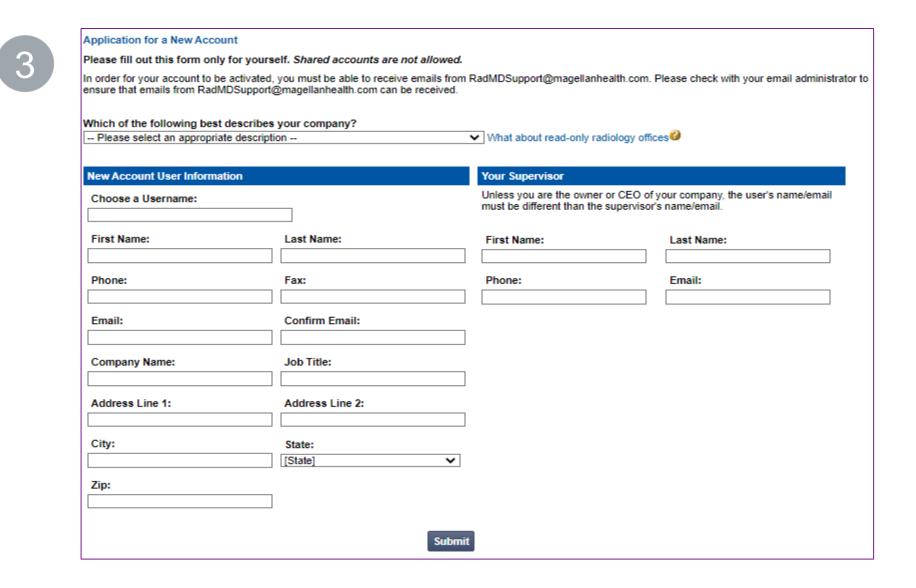

- 1. Click the "New User" button on the right side of the home page.
- 2. Select "Physician's office that orders procedures"
- 3. Complete the application and click "Submit".
- 4. Open email from Evolent webmaster with new user password instructions

NOTE: On subsequent visits to RadMD, click the "Sign In" button to proceed.

Offices that are both ordering and rendering procedures should request ordering provider access. This will allow you to request authorization on RadMD and see the status of requests.

-- Please Select an Appropriate Description -Physician's office that orders procedures
Facility/office where procedures are performed
Health Insurance company
Cancer Treatment Facility or Hospital that performs radiation oncology procedures
Physicians office that prescribes radiation oncology procedures
Physical Medicine Practitioner (PT, OT, ST, Chiro, etc.)

# RadMD New User Application Process - Rendering

#### **IMPORTANT**

- Users are required to have their own separate username and password due to HIPAA regulations.
- Designate an "Administrator" for the facility who manages access for users.

#### STEPS:

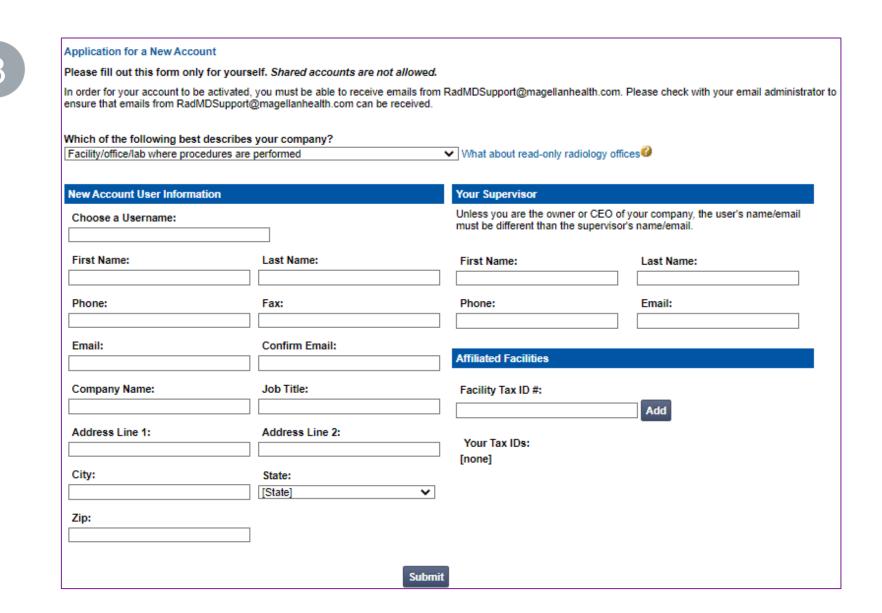

- 1. Click the "New User" button on the right side of the home page.
- 2. Select "Facility/office where procedures are performed"
- 3. Complete the application and click "Submit".
- 4. Open email from Evolent webmaster with new user password instructions.

NOTE: On subsequent visits to RadMD, click the "Sign In" button to proceed.

If multiple staff members entering authorizations need to view approved, pended, and in-review authorization requests, they will each need to complete and submit a new user application. The account administrator is responsible for granting rendering access for each employee.

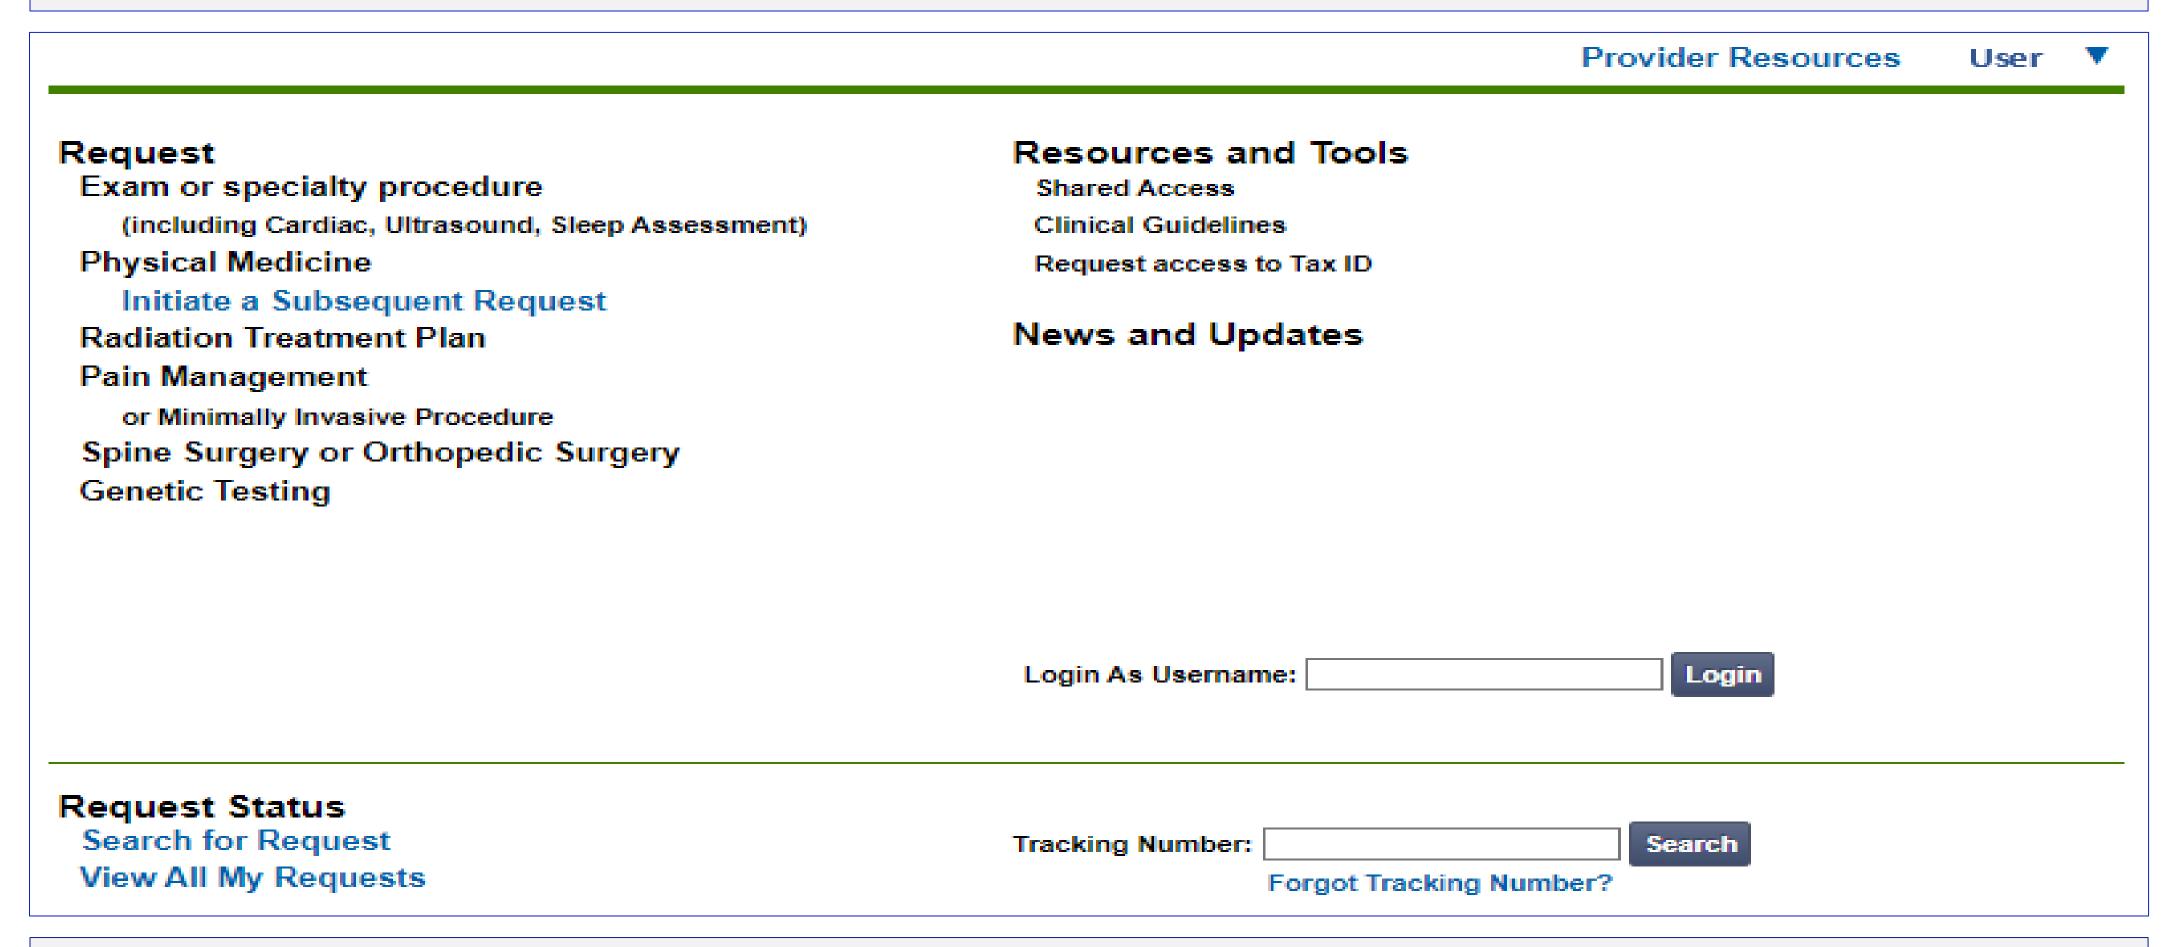

-- Please Select an Appropriate Description -Physician's office that orders procedures
Facility/office where procedures are performed
Health Insurance company
Cancer Treatment Facility or Hospital that performs radiation oncology procedures
Physicians office that prescribes radiation oncology procedures
Physical Medicine Practitioner (PT, OT, ST, Chiro, etc.)

### Shared Access

Evolent offers a **Shared Access** feature on our <u>RadMD.com</u> website. Shared Access allows ordering providers to view authorization requests initiated by other RadMD users within their practice.

If practice staff is unavailable for a period of time, access can be shared with other users in the practice. They will be able to view and manage the authorization requests initiated on <a href="RadMD.com">RadMD.com</a>, allowing them to communicate with members and facilitate treatment.
