Prior Authorization Process Overview

Evolent's Clinical Foundation & Review

- **Clinical guidelines** were developed by practicing specialty physicians, through literature reviews and evidenced-based research. Guidelines are reviewed and mutually approved by Louisiana Healthcare Connections and Evolent Medical Officers and clinical experts. **Clinical Guidelines are available on [RadMD.com](https://www.radmd.com)**
- Algorithms are a branching structure that changes depending upon the answer to each question.
- The member's clinical information/medical record will be required for validation of clinical criteria before an approval can be made.
- Evolent has a specialized clinical team focused on IPM.
- Peer-to-peer discussions are offered for any request that does not meet medical necessity guidelines.
- **Our goal – ensure that members are receiving appropriate care.**

Authorization for IPM

Special Information

- Every IPM procedure performed requires a prior authorization; Evolent will not authorize a series of epidural injections.
- Bi-lateral IPM injections performed on the same date of service do not require a separate authorization. An authorization will cover bi-lateral as well as multiple levels on the same date of service. (Please refer to clinical guidelines for potential restrictions)
- Add on codes do not require separate authorization and are to be used in conjunction with the approved primary code for the service rendered.

IPM Clinical Checklist Reminders

IPM Documentation

-  **Conservative Treatment:** Frequently, specifics of active conservative treatment/non-operative treatment are not present in office notes. Details such as duration and frequency should be provided in order to ensure 6 weeks has been attempted with the past 6 months. Official physical therapy records do not need to be obtained but the provider should supply a summary of these details. Physical therapy is not the only means of active conservative treatment acceptable; physician directed home exercise programs as well as chiropractic care are among other examples of appropriate treatments.
-  **Visual Analog Scale (VAS) Score and/or Functional Disability:** A VAS score is an acceptable method to relay intensity of pain. However, a description of functional disability is also accepted as a means for measuring pain (e.g., noting that the member is no longer able to perform work duties, daily care, etc.).
-  **Follow Up to Prior Pain Management Procedures:** For repeat treatments, follow up is required in regard to what procedure was completed, how much and for how long relief was obtained, active participation in ongoing conservative treatment, and to what level the pain has returned. A follow up office is not required; documentation of telephone encounters with the member are acceptable to satisfy this requirement.

Evolent to Physician: Request for Clinical Information

- ✓ A fax is sent to the provider detailing what clinical information that is needed, along with a fax coversheet.
- ✓ We stress the need to provide the clinical information as quickly as possible so we can make a determination.
- ✓ Determination timeframe begins after receipt of clinical information.
- ✓ Failure to receive requested clinical information may result in non certification.

We have received your request for Lumbar Decompression. We are unable to approve based on the information provided to date, please respond to this fax as soon as possible.

Missing Clinical: Specific dates and duration of conservative treatment for 6 consecutive weeks in the last 6 months. Must include at least two of the following: physical therapy, physician-directed home exercise plan, epidural steroid injections, and/or medications.

Additional information is still needed.

We have received your request for **Lumbar Decompression** along with additional records. However, the information provided still does not support the medical necessity of these services to make a determination on this case. Please see the documentation needed below which may allow us to make a positive determination. Only sending daily notes may delay authorization.

Missing Clinical: Specific dates and duration of conservative treatment for 6 consecutive weeks in the last 6 months. Must include at least two of the following: physical therapy, physician-directed home exercise plan, epidural steroid injections, and/or medications.

You may submit records for this episode of care as requested by uploading them on www.radmd.com. Please do not resend the information previously submitted.

The ordering physician is responsible for obtaining prior authorizations and for submitting the clinical records if requested. Please respond as soon as possible with the clinical information identified above.

Receipt of written records is required in order to process your request. Once this information has been received, the case will be reviewed by a clinician, and you will be notified of the determination. The ordering provider may call to have a peer to peer discussion.

Submitting a prior authorization request on RadMD is fast and efficient!

IPM Clinical Review Process

Urgent/Expedited Authorization Process

- If an urgent clinical situation exists (outside of a hospital emergency room) during business hours, please call Evolent immediately.
- The Evolent website [RadMD.com](https://www.RadMD.com) cannot be used for medically urgent or expedited prior authorization requests during business hours. Those requests must be processed by calling the Evolent call center at 1-800-424-9231.
- Turnaround time is within 1 business day not to exceed 72 calendar hours.

Authorization Validity Period

- IPM
 - 30 days from date of request or final determination
- The date of service that is selected at the time of the prior authorization request, will be used to determine the validity period. If the date of service changes, please contact Evolent to update.

Denial Notification

- Notifications include an explanation of services denied and the clinical rationale.
- A peer-to-peer discussion can be initiated once the adverse determination has been made.
- Reconsideration may be available with new or additional information.
- Re-review must occur within 10 calendar days from the date of denial and prior to submitting a formal appeal.
- Medicare re-opens are not allowed.
- In the event of a denial, providers are asked to follow the instructions provided in their denial letter.

Claims and Appeals

Claims Process:

- Providers should continue to submit their claims to Louisiana Healthcare Connections.
- Providers are strongly encouraged to use EDI claims submission.

Appeals Process:

- In the event of a prior authorization or claims payment denial, providers may appeal the decision through Louisiana Healthcare Connections.
- Providers should follow the instructions on their non-authorization letter or Explanation of Payment (EOP) notification.

IPM Points

Injections in all regions of spine are managed

Date of Service is required for all requests

Each IPM procedure must be prior authorized

The screenshot displays two main sections of the RadMD website. The top section, titled "RadMD Sign In", has a green background and contains the text: "For URGENT/EXPEDITED authorization requests, please contact the Evolent call center." Below this text are two buttons: "Sign In" (orange) and "New User" (grey). The bottom section, titled "Track an Authorization", has a light beige background and features the text "Authorization Tracking Number" above a white input field. To the right of the input field is a "Go" button (orange).

RadMD New User Application Process - Ordering

STEPS

1. Click the **“New User”** button on the right side of the home page.
NOTE: On subsequent visits to RadMD, click the “Sign In” button to proceed.
2. Under the Appropriate Description dropdown select **“Physician’s office that orders procedures”**.
3. Complete the application and click **“Submit”**.
4. Open email from Evolent webmaster with new user password instructions.

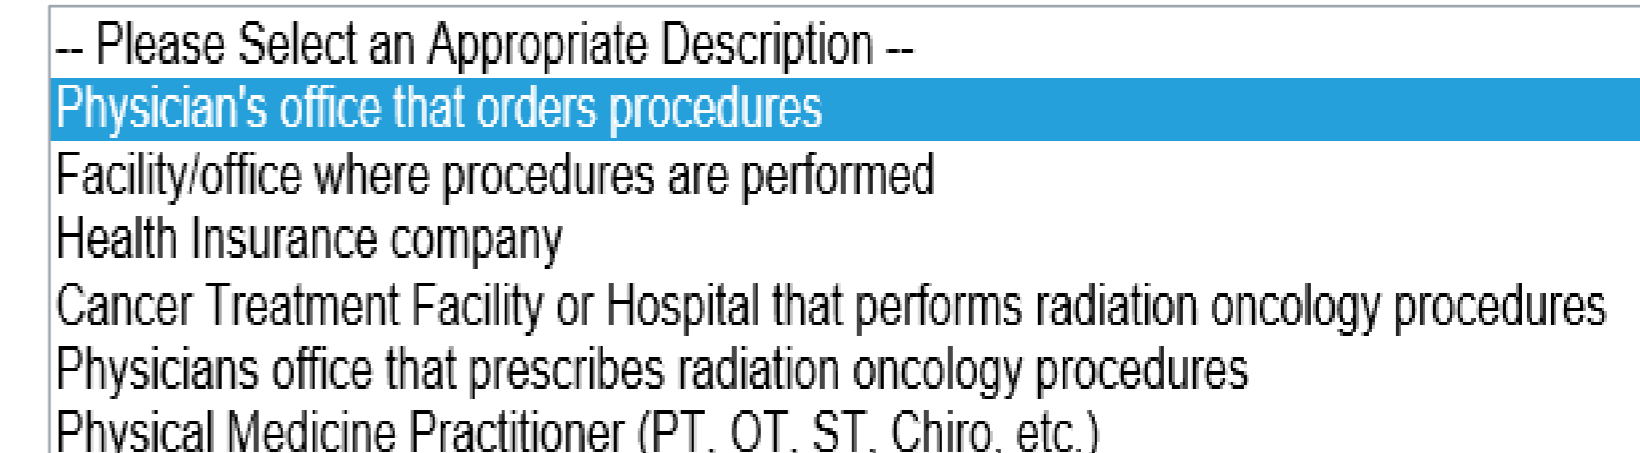

IMPORTANT

- Users are required to have their own separate username and password due to HIPAA regulations.
- Offices that are both ordering and rendering procedures should request ordering provider access. This will allow you to request authorization on RadMD and see the status of requests.
