MISCELLANEOUS	
How is medical necessity defined?	 Evolent defines medical necessity as a service that: Meets generally accepted standards of medical practice; is appropriate for the symptoms, consistent with diagnosis, and otherwise in accordance with sufficient evidence and professionally recognized standards; Is appropriate to the illness or injury for which it is performed as to type of service and expected outcome; Is appropriate to the intensity of service and level of setting; Provides unique, essential, and appropriate information when used for diagnostic purposes; Is the lowest cost alternative that effectively addresses and treats the medical problem; and rendered for the treatment or diagnosis of an injury or

	 illness; and Is not furnished primarily for the convenience of the member, the attending provider, or other provider.
Where can a provider find Evolent's Guidelines for Medical Specialty Solutions Services?	Evolent's Clinical Guidelines can be found on Evolent's website, <u>RadMD.com</u> under Online Tools/Clinical Guidelines. Evolent's guidelines for Medical Specialty Solutions Services have been developed from practice experience, literature reviews, specialty criteria sets and empirical data.
What is an OCR Fax Coversheet?	By utilizing Optical Character Recognition (OCR) technology, Evolent can automatically attach incoming clinical faxes to the appropriate case in our clinical system. We strongly recommend that ordering providers print an OCR fax coversheet from RadMD.com or contact Evolent to obtain one. Evolent can fax this coversheet to the ordering provider during authorization intake or at any time during the review process. By prefacing clinical faxes to Evolent with an OCR fax coversheet, the ordering provider can ensure a timely and efficient case review.

Which link on RadMD will I select to initiate an authorization request for an outpatient exam or specialty procedure?	Clicking the "Exam or specialty procedure (including Cardiac, Ultrasound, Sleep Assessment)" link will allow the user to submit a request for an outpatient exam or specialty procedure.
How can providers check the status of an authorization request?	Providers can check on the status of an authorization by clicking the "Search for Request" link on RadMD's main menu.
How can I confirm what clinical information has been uploaded or faxed to Evolent?	Clinical Information that has been received via upload or fax can be viewed by clicking the member name via the "Search for Request" link from the main menu. At the bottom of the "Exam Request Verification: Detail" page, click "View" in the "Documents Received" section and select the appropriate link for the upload or fax.
Where can providers find their case-specific communication from Evolent?	Links to case-specific communication to include requests for additional information and determination letters can be found via the "Search for Request" link.
If I did not submit the initial authorization request, how can I view the status of a case or upload clinical documentation?	The "Track an Authorization" feature will allow users who did not submit the original request to view the status of an authorization, as well as upload clinical information. This option is also available as a part of your main menu options using the "Search for Request" feature. A tracking number is required to use this search method.
Can I share my RadMD access with my coworkers?	Yes, through our "Shared Access" feature. This process allows providers to view authorization requests initiated by other RadMD users within your practice. By sharing access with other users, the user will be able to view and manage the authorization requests that you initiated, allowing them to communicate with your patients and progress with treatment if you are not available.

Paperless Notification: How can I receive notifications electronically instead of paper?	 Evolent defaults communications including final authorization determinations to paperless/electronic. Correspondence for each case is sent to the email of the person submitting the initial authorization request. Users will be sent an email when determinations are made. No PHI will be contained in the email. The email will contain a link that requires the user to log into RadMD to view PHI.
