# Prior Authorization Process Overview

# Evolent's Clinical Foundation & Review

- **Clinical guidelines** were developed by practicing specialty physicians, through literature reviews and evidenced-based research. Guidelines are reviewed and mutually approved by Peach State and Ambetter from Peach State and Evolent Medical Officers and clinical experts. **Clinical Guidelines are available on [RadMD.com](https://www.radmd.com)**
- Algorithms are a branching structure that changes depending upon the answer to each question.
- The member's clinical information/medical record will be required for validation of clinical criteria before an approval can be made.
- Evolent has a specialized clinical team focused on IPM.
- Peer-to-peer discussions are offered for any request that does not meet medical necessity guidelines.
- **Our goal – ensure that members are receiving appropriate care.**

# Authorization for IPM

## Special Information

- Every IPM procedure performed requires a prior authorization; Evolent will not authorize a series of epidural injections.
- Bi-lateral IPM injections performed on the same date of service do not require a separate authorization. An authorization will cover bi-lateral as well as multiple levels on the same date of service. (Please refer to clinical guidelines for potential restrictions)
- Add on codes do not require separate authorization and are to be used in conjunction with the approved primary code for the service rendered.

# IPM Clinical Checklist Reminders

## IPM Documentation

-  **Conservative Treatment:** Frequently, specifics of active conservative treatment/non-operative treatment are not present in office notes. Details such as duration and frequency should be provided in order to ensure 6 weeks has been attempted with the past 6 months. Official physical therapy records do not need to be obtained but the provider should supply a summary of these details. Physical therapy is not the only means of active conservative treatment acceptable; physician directed home exercise programs as well as chiropractic care are among other examples of appropriate treatments.
-  **Visual Analog Scale (VAS) Score and/or Functional Disability:** A VAS score is an acceptable method to relay intensity of pain. However, a description of functional disability is also accepted as a means for measuring pain (e.g., noting that the member is no longer able to perform work duties, daily care, etc.).
-  **Follow Up to Prior Pain Management Procedures:** For repeat treatments, follow up is required in regard to what procedure was completed, how much and for how long relief was obtained, active participation in ongoing conservative treatment, and to what level the pain has returned. A follow up office is not required; documentation of telephone encounters with the member are acceptable to satisfy this requirement.

# Evolent to Physician: Request for Clinical Information

- ✓ A fax is sent to the provider detailing what clinical information that is needed, along with a fax coversheet.
- ✓ We stress the need to provide the clinical information as quickly as possible so we can make a determination.
- ✓ Determination timeframe begins after receipt of clinical information.
- ✓ Failure to receive requested clinical information may result in non certification.

The screenshot displays two main sections of the RadMD website. The top section, titled "RadMD Sign In", has a green background and contains the text: "For URGENT/EXPEDITED authorization requests, please contact the Evolent call center." Below this text are two buttons: "Sign In" (orange) and "New User" (grey). The bottom section, titled "Track an Authorization", has a light beige background and features the text "Authorization Tracking Number" above a white input field. To the right of the input field is an orange "Go" button.

# RadMD New User Application Process - Ordering

## STEPS

1. Click the **“New User”** button on the right side of the home page.  
*NOTE: On subsequent visits to RadMD, click the “Sign In” button to proceed.*
2. Under the Appropriate Description dropdown select **“Physician’s office that orders procedures”**.
3. Complete the application and click **“Submit”**.
4. Open email from Evolent webmaster with new user password instructions.

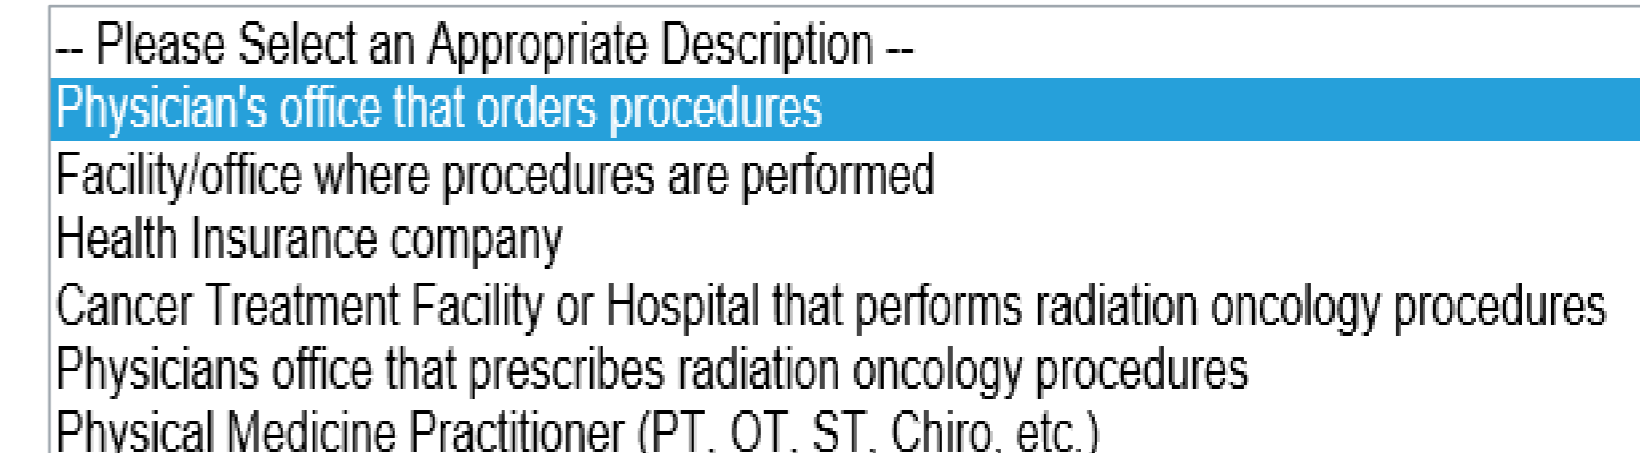

## IMPORTANT

- Users are required to have their own separate username and password due to HIPAA regulations.
- Offices that are both ordering and rendering procedures should request ordering provider access. This will allow you to request authorization on RadMD and see the status of requests.

# Shared Access

Evolut offers a Shared Access feature on our [RadMD.com](https://www.radmd.com) website. Shared Access allows ordering providers to view authorization requests initiated by other RadMD users within their practice.

If practice staff is unavailable for a period of time, access can be shared with other users in the practice. They will be able to view and manage the authorization requests initiated on [RadMD.com](https://www.radmd.com), allowing them to communicate with members and facilitate treatment.
