# Prior Authorization Process Overview

# Evolent's Clinical Foundation & Review

- **Clinical guidelines** were developed by practicing specialty physicians, through literature reviews and evidenced-based research. Guidelines are reviewed and mutually approved by Magnolia Health Medicare and Evolent Medical Officers and clinical experts. **Clinical Guidelines are available on [RadMD.com](https://www.radmd.com)**
- Algorithms are a branching structure that changes depending upon the answer to each question.
- The member's clinical information/medical record will be required for validation of clinical criteria before an approval can be made.
- Evolent has specialized clinical teams.
- Peer-to-peer discussions are offered for any request that does not meet medical necessity guidelines.
- **Our goal – ensure that members are receiving appropriate care.**

# Authorization for Medical Specialty Solutions

## Special Information

- Ordering physician information, member information, rendering provider information, and requested examination.
- Clinical information that will justify examination, symptoms and their duration, and physical exam findings.
- Preliminary procedures already completed (i.e., x-rays, CT's, lab work, ultrasound reports, scoped procedures, referrals to specialist, specialist evaluation).
- Reason the study is being requested (i.e., further evaluation, rule out a disorder).
- Refer to Prior Authorization Checklists on RadMD for more specific information.

# Evolut to Physician: Request for Clinical Information

- 

A fax is sent to the provider detailing what clinical information that is needed, along with a fax coversheet.
- 

We stress the need to provide the clinical information as quickly as possible so we can make a determination.
- 

Determination timeframe begins after receipt of clinical information.
- 

Failure to receive requested clinical information may result in non certification.

✓ Key Evolent differentiator

Generally, the turnaround time for completion of these requests is within two or three business days upon receipt of sufficient clinical information

# Urgent/Expedited Authorization Process

- If an urgent clinical situation exists (outside of a hospital emergency room) during business hours, please call Evolent immediately.
- The Evolent website [RadMD.com](https://www.RadMD.com) cannot be used for medically urgent or expedited prior authorization requests during business hours. Those requests must be processed by calling the Evolent call center at:
  - Magnolia Health Medicare – HMO 1-844-786-7711
  - Magnolia Health Medicare– DSNP 1-833-260-4124
- Turnaround time is within 1 business day not to exceed 72 calendar hours.

# Authorization Validity Period

- Authorizations are valid for :
  - 30 days from date of request

# Denial Notification

- Notifications include an explanation of services denied and the clinical rationale.
- **Medicare plans:** Effective 8/5/2024, peer-to-peer discussions must be performed before a final determination has been made on the request.
- **Medicare** re-opens are only allowed if the request complies with the CMS definition of a re-open. Providers will continue to have the option to submit an appeal utilizing the health plan's process.
- In the event of a denial, providers are asked to follow the instructions provided in their denial letter.

# Claims and Appeals

## Claims Process:

- Providers should continue to submit their claims to Magnolia Health.
- Providers are strongly encouraged to use EDI claims submission.
- Check on claims status by logging on to Magnolia Health website at [MagnoliaHealthPlan.com](https://MagnoliaHealthPlan.com)

## Appeals Process:

- In the event of a prior authorization or claims payment denial, providers may appeal the decision through Magnolia Health.
- Providers should follow the instructions on their non-authorization letter or Explanation of Payment (EOP) notification.

# Radiation Safety and Awareness

Studies suggest a significant increase in cancer in dose estimates in excess of 50 mSv.

- 1mSv = 4 months of natural exposure/50 chest x-rays

CT scans and nuclear studies are the largest contributors to increased medical radiation exposure.

According to the 2019 NCRP Report, a dramatic decrease in average radiation dose per person by as much as 15 – 20% has been demonstrated due to radiation safety and technological advances.

Evolent has developed a Radiation Awareness Program designed to create member and physician awareness of radiation concerns.

# Radiation Awareness Program

Identification of High Exposure Members.

Point of Services Provider Notification and Opportunities for Provider Education.

Promote Member Awareness and Education.
