Prior Authorization Process Overview

Evolent's Clinical Foundation and Review

- **Clinical guidelines** were developed by practicing specialty physicians through literature reviews and evidenced-based research. Guidelines are reviewed and mutually approved by ConnectiCare and Evolent Medical Officers and clinical experts. **Clinical guidelines are available on [RadMD.com](https://www.radmd.com).**
- Algorithms are a branching structure that changes depending upon the answer to each question.
- The member's clinical information/medical record will be required for validation of clinical criteria before an approval can be made.
- Evolent has specialized clinical teams.
- Peer-to-peer discussions are offered for any request that does not meet medical necessity guidelines.
- **Our goal – ensure that members are receiving appropriate care.**

Authorization for Medical Specialty Solutions

Special Information

- Ordering physician information, member information, rendering provider information, and requested examination.
- Clinical information that will justify examination, symptoms and their duration, and physical exam findings.
- Preliminary procedures already completed (i.e., x-rays, CTs, lab work, ultrasound reports, scoped procedures, referrals to specialist, specialist evaluation).
- Reason the study is being requested (i.e., further evaluation, rule out a disorder).
- Refer to prior authorization checklists on RadMD for more specific information.

Evolut to Physician: Request for Clinical Information

- 

A fax is sent to the provider detailing what clinical information is needed, along with a fax coversheet.
- 

We stress the need to provide the clinical information as quickly as possible so we can make a determination.
- 

Determination time frame begins after receipt of clinical information.
- 

Failure to receive requested clinical information may result in non-certification.

Clinical Review Process

LEGEND

✓ Key Evolent differentiator.

Generally, the turnaround time for completion of these requests is within two or three business days upon receipt of sufficient clinical information.

Urgent/Expedited Authorization Process

- If an urgent clinical situation exists (outside of a hospital emergency room) during business hours, please call Evolent immediately.
- The Evolent website [RadMD.com](https://www.RadMD.com) cannot be used for medically urgent or expedited prior authorization requests during business hours. Those requests must be processed by calling the Evolent Call Center at **877-607-2363**.
- Turnaround time is within 1 business day not to exceed 72 business calendar hours.

Authorization Validity Period

- Authorizations are valid for:
 - 60 days from date of request or final determination.

Denial Notification

- Notifications include an explanation of services denied and the clinical rationale.
- Reconsideration peer-to-peer discussions can be initiated once the adverse determination has been made.
- Reconsideration may be available with new or additional information.
- Reconsideration must occur within 15 calendar days from the date of denial and prior to submitting a formal appeal.
- **Medicare:** Once a denial determination has been made, it is considered final.
- A request to reopen may be initiated by the requesting provider within the following time frames:
 - From the date of denial and prior to submitting a formal appeal.
 - Anytime to correct a clinical error on which the determination was made.
- Reopen peer-to-peer discussions are offered prior to the final denial decision for any request that does not meet medical necessity guidelines. The peer-to-peer must take place prior to the denial decision being issued.
- In the event of a denial, providers are asked to follow the instructions provided in their denial letter.

Claims and Appeals

Claims Process:

- Providers should continue to submit their claims to ConnectiCare.
- Providers are strongly encouraged to use EDI claims submission.
- Check on claims status by signing on to ConnectiCare's website at connecticare.com/providers.

Appeals Process:

- In the event of a prior authorization or claims payment denial, providers may appeal the decision through ConnectiCare.
- Providers should follow the instructions on their non-authorization letter or Explanation of Payment (EOP) notification.

Radiation Safety and Awareness

Studies suggest a significant increase in cancer in dose estimates in excess of 50 mSv.

- 1mSv = 4 months of natural exposure/50 chest x-rays.

CT scans and nuclear studies are the largest contributors to increased medical radiation exposure.

According to the [2019 NCRP Report](#), a dramatic decrease in average radiation dose per person by as much as 15% – 20% has been demonstrated due to radiation safety and technological advances.¹

Evolent has developed a Radiation Awareness Program designed to create member and physician awareness of radiation concerns.

¹Chair: Fred A. Mettler, Jr., & Co-Chair Mahadevappa Mahesh, (November 2019). *National Council on Radiation Protection and Measurement*. NCRP Report No. 184 Medical Radiation Exposure of Patients in the United States evaluates changes in medical radiation exposure to patients since NCRP Report No. 160, Ionizing Radiation Exposure of the Population of the United States (2009), The Centers for Disease Control and Prevention (CDC).
