Prior Authorization Process Overview

Evolent's Clinical Foundation & Review

- **Clinical guidelines** were developed by practicing specialty physicians, through literature reviews and evidenced-based research. Guidelines are reviewed and mutually approved by Fidelis Care NJ, Wellcare and Ambetter from WellCare of New Jersey and Evolent Medical Officers and clinical experts. **Clinical Guidelines are available on [RadMD.com](https://www.radmd.com)**
- Algorithms are a branching structure that changes depending upon the answer to each question.
- The member's clinical information/medical record will be required for validation of clinical criteria before an approval can be made.
- Evolent has a specialized clinical team focused on MSK.
- Peer-to-peer discussions are offered for any request that does not meet medical necessity guidelines.
- **Our goal – ensure that members are receiving appropriate care.**

Authorization for IPM

Special Information

- Every IPM procedure performed requires a prior authorization; Evolent will not authorize a series of epidural injections.
- Bi-lateral IPM injections performed on the same date of service do not require a separate authorization. An authorization will cover bi-lateral as well as multiple levels on the same date of service. (Please refer to clinical guidelines for potential restrictions)
- Add on codes do not require separate authorization and are to be used in conjunction with the approved primary code for the service rendered.

IPM Clinical Checklist Reminders

IPM Documentation

-  **Conservative Treatment:** Frequently, specifics of active conservative treatment/non-operative treatment are not present in office notes. Details such as duration and frequency should be provided in order to ensure 6 weeks has been attempted with the past 6 months. Official physical therapy records do not need to be obtained but the provider should supply a summary of these details. Physical therapy is not the only means of active conservative treatment acceptable; physician directed home exercise programs as well as chiropractic care are among other examples of appropriate treatments.
-  **Visual Analog Scale (VAS) Score and/or Functional Disability:** A VAS score is an acceptable method to relay intensity of pain. However, a description of functional disability is also accepted as a means for measuring pain (e.g., noting that the member is no longer able to perform work duties, daily care, etc.).
-  **Follow Up to Prior Pain Management Procedures:** For repeat treatments, follow up is required in regard to what procedure was completed, how much and for how long relief was obtained, active participation in ongoing conservative treatment, and to what level the pain has returned. A follow up office is not required; documentation of telephone encounters with the member are acceptable to satisfy this requirement.

Authorization for Surgery

Special Information

- Most surgeries require only one authorization request. Evolent provides a list of surgery categories to choose from and the surgeon's office must select the most complex and invasive surgery being performed as the primary surgery.
 - Example 1: A lumbar fusion authorization includes decompression, instrumentation, etc.
 - Example 2: A knee ligament reconstruction includes meniscectomy, debridement, etc.
- Bilateral hip, knee, or shoulder surgeries require authorization for both the left and right side. ACDF and posterior cervical fusion require authorization for each procedure. These requests can be entered at the same time and will be reviewed concurrently.
- The ordering physician must obtain prior authorization with Evolent prior to performing the surgery/procedure.
- Date of service is required.
- Inpatient admissions continue to be subject to concurrent review by Fidelis Care NJ, Wellcare and Ambetter from WellCare of New Jersey.
- Facility admissions do not require a separate prior authorization. However, the facility should ensure that an Evolent prior authorization has been obtained prior to scheduling the surgery/procedure.

Surgery Clinical Checklist Reminders

Surgery Documentation

-  Details regarding the member's symptoms and their onset/duration
-  Physical exam findings
-  Conservative treatment modalities with dates and duration (e.g., physical therapy, home exercise plan, injections, medications, activity modification)
-  Diagnostic imaging results
-  Ordering physician's surgical plan (including a discussion about the potential risks and benefits of the procedure) (BMI, smoking history, mental status for some surgeries)

Evolent to Physician: Request for Clinical Information

- ✓ A fax is sent to the provider detailing what clinical information that is needed, along with a fax coversheet.
- ✓ We stress the need to provide the clinical information as quickly as possible so we can make a determination.
- ✓ Determination timeframe begins after receipt of clinical information.
- ✓ Failure to receive requested clinical information may result in non certification.

LEGEND

✓ Key Evolent differentiator

Generally, the turnaround time for completion of these requests is within two or three business days upon receipt of sufficient clinical information

Urgent/Expedited Authorization Process

- If an urgent clinical situation exists (outside of a hospital emergency room) during business hours, please call Evolent immediately.
- The Evolent website [RadMD.com](https://www.radmd.com) cannot be used for medically urgent or expedited prior authorization requests during business hours. Those requests must be processed by calling the Evolent call center at Medicaid & Exchange: 1-866-249-1585 or Medicare: 1-800-424-5388.
- Turnaround time is within 1 business day not to exceed 72 business calendar hours.

Authorization Validity Period

- IPM
 - 60 days from date of service
- Surgery
 - Inpatient — 60 days from date of service
 - Outpatient — SDC/Ambulatory – 60 days from date of service
- The date of service that is selected at the time of the prior authorization request, will be used to determine the validity period. If the date of service changes, please contact Evolent to update.

Denial Notification

- Notifications include an explanation of services denied and the clinical rationale.
- **Medicare plans:** Effective 8/5/2024, peer-to-peer discussions must be performed before a final determination has been made on the request.
- **Medicare** re-opens are only allowed if the request complies with the CMS definition of a re-open. Providers will continue to have the option to submit an appeal utilizing the health plan's process.
- A peer-to-peer discussion can be initiated once the adverse determination has been made – **Re-review/reconsideration.**
- Re-review/reconsideration may be available with new or additional information.
- Re-review/reconsideration is 7 business days (Medicaid) or 180 calendar days (Ambetter) from the date of the denial and prior to submitting a formal appeal.
- In the event of a denial, providers are asked to follow the instructions provided in their denial letter.

Claims and Appeals

Claims Process:

- Providers should continue to submit their claims to Fidelis Care, Wellcare, & Ambetter from WellCare of New Jersey.
- Providers are strongly encouraged to use EDI claims submission.

Appeals Process:

- In the event of a prior authorization or claims payment denial, providers may appeal the decision through Fidelis Care, Wellcare, & Ambetter from WellCare of New Jersey.
- Providers should follow the instructions on their non-authorization letter or Explanation of Payment (EOP) notification.

IPM Points

Injections in all regions of spine are managed

Date of Service is required for all requests

Each IPM procedure must be prior authorized

No series of epidural injections

Specialty Nurses and Physicians review IPM requests

MSK Surgery Points: Lumbar/Cervical Spine Surgery

Inpatient and outpatient non-emergent surgeries

Spine Surgery is focused on lumbar and/or cervical spine surgeries

For spinal surgeries, only one authorization request per surgery. For example, a lumbar fusion authorization includes decompression, instrumentation, etc.

Reconstructive spinal deformity surgery does not require prior authorization. However, Evolent will monitor provider use of CPT codes 22800-22819.

MSK Surgery Points: Hip, Knee, or Shoulder Surgery

Bilateral hip, knee, or shoulder surgeries require authorization for both the left and right side. These requests can be entered at the same time and will be reviewed concurrently. ACDF and posterior cervical fusion require authorization for each procedure. These requests can be entered at the same time and will be reviewed concurrently.

Surgeries addressing the following are not included in the MSK program: trauma, amputation, fracture, active infection, pediatric conditions, congenital malformation, dysplasia (hip), palsy/plegia, osteochondritis dissecans (knee), osteotomy (knee), tumor, cyst, cancer, arthrodesis, girdle resection (hip), denervation (hip), joint dislocation, hemiarthroplasty (hip), hardware & foreign body removal.

MSK Surgery Points: All Surgeries

Specialized Orthopedic Surgeons or Neurosurgeons will review surgery requests. Inpatient admissions will continue to be subject to concurrent review by Fidelis Care, Wellcare, & Ambetter from WellCare of New Jersey.

The ordering physician must obtain prior authorization with Evolent prior to performing the surgery/procedure.

Facility admissions do not require a separate prior authorization. However, the facility should ensure that an Evolent prior authorization has been obtained prior to scheduling the surgery/procedure.

Authorizations are valid for 60 days from the date of request. Evolent must be notified of any changes to the date of service.
