

Evolent Interventional Pain Management (IPM) Frequently Asked Questions (FAQ's) For Iowa Total Care Providers

Question	Answer
GENERAL	
Why is Iowa Total Care implementing an Interventional Pain Management (IPM) Program?	Iowa Total Care is implementing this program to improve quality and manage the utilization of non-emergent, IPM procedures for Iowa Total Care members.
	Iowa Total Care providers will utilize the same tools through RadMD to request IPM procedures as they do today for advanced imaging procedures.
What IPM procedures does this include?	 IPM Procedures that are included in this program: Spinal Epidural Injections Paravertebral Facet Joint Injections or Blocks Paravertebral Facet Joint Denervation (Radiofrequency Neurolysis) Sacroiliac Joint Injections Spinal Cord Stimulators Sympathetic Nerve Block
Why did Iowa Total Care select Evolent?	Evolent (formerly National Imaging Associates, Inc.) was selected to partner with us because of its clinically driven program designed to effectively manage quality and member safety, while ensuring appropriate utilization of resources for Iowa Total Care membership.
Which Iowa Total Care members will be covered under this relationship and what networks will be used?	Evolent will manage non-emergent outpatient IPM procedures for Iowa Total Care members effective June 1, 2023, through Iowa Total Care's contractual relationships.
PROGRAM START DATE	
What is the implementation date for this IPM Program?	The effective date of the program is June 1, 2023. Iowa Total Care and Evolent will be collaborating on provider related activities prior to the start date including provider training materials and provider education.

PRIOR AUTHORIZATION	
What IPM services will	The following outpatient IPM procedures require prior
require a provider to	authorization through Evolent:
obtain a prior	Spinal Epidural Injections

How does the ordering	Providers will be able to request prior authorization via
provider obtain a prior	the Evolent website RadMD.com (preferred method)
authorization from	to obtain prior authorization for IPM procedures.
Evolent for an outpatient	RadMD is available 24 hours a day, 7 days a week.
IPM procedure?	For Providers that are unable to submit authorizations
	using RadMD, our call center is available at 1-866-493-
	9441 for prior authorization, Monday-Friday, 7:00 a.m.
	to 7:00 p.m. (CST)

What information will Evolent require in order to receive prior authorization?

To expedite the process, please have the following information available before logging on to the website or calling the Evolent call center staff.

(*denotes required information):

- Name and office phone number of ordering physician*
- Member name and ID number*
- Requested procedure*
- Name of provider office or facility where the service will be performed*
- Anticipated date of service*
- Details justifying the pain procedure*:
 - Date of onset of pain or exacerbation
 - Physician exam findings and member symptoms (including findings applicable to the requested services)
 - Clinical Diagnosis
 - Date and results of prior IPM procedures.
 - Diagnostic imaging results, where available. Conservative treatment modalities completed, duration, and results (e.g., physical therapy, chiropractic or osteopathic manipulation, hot pads, massage, ice packs and medication)

Please be prepared to fax the following information, if requested:

- Clinical notes outlining onset of pain, conservative care modalities, outcomes, and physical exam findings
- Date and results of prior IPM procedures
- Effectiveness of prior procedures on reducing pain
- Diagnostic Imaging results
- Specialist reports/evaluation

How do I send clinical information to Evolent if it is required?

The most efficient way to send required clinical information is to upload your documents to RadMD (preferred method). The upload feature allows clinical information to be uploaded directly after completing an authorization request. Utilizing the upload feature expedites your request since it is automatically attached and forwarded to our clinicians for review.

Can a provider request more than one procedure at a time for a member (i.e., a series of epidural injections)?	If uploading is not an option for your practice, you may fax utilizing the Evolent specific fax coversheet. To ensure prompt receipt of your information: • Use the Evolent fax coversheet as the first page of your clinical fax submission. *Please do not use your own fax coversheet, since it will not contain the case specific information needed to process the case • Make sure the tracking number on the fax coversheet matches the tracking number for your request • Send each case separate with its own fax coversheet • IPM Providers may print the fax coversheet from RadMD.com. • Evolent will fax this coversheet to the IPM Provider during authorization intake or at any time during the review process. *Using an incorrect fax coversheet may delay a response to an authorization request. No. Evolent requires prior authorization for each IPM procedure requested and will only authorize one procedure at a time.
What kind of response time can order providers	The best way to maximize the turnaround time of an authorization request is to initiate the request through
expect for prior authorization?	RadMD.com.
	Generally, within 2 to 3 business days after receipt of request with full clinical documentation, a determination will be made. In certain cases, the review process can take longer if additional clinical information is required to make a determination.
What will the Evolent authorization number look like?	The Evolent authorization number consists of alphanumeric characters. In some cases, the ordering provider may instead receive an Evolent tracking number (not the same as an authorization number) if the provider's authorization request is not approved at the time of initial contact. Providers will be able to use either number to track the status of their request online or through an Interactive Voice Response (IVR) telephone system.
If requesting an authorization through	You will receive a tracking number and will need to submit clinical documentation that supports the

authorization request for IPM procedures?	·
How can providers check the status of an authorization request?	Providers can check on the status of an authorization by using the "View Request Status" link on RadMD's main menu.
How can I confirm what clinical information has been uploaded or faxed to Evolent?	Clinical Information that has been received via upload or fax can be viewed by selecting the member on the View Request Status link from the main menu. On the bottom of the "Request Verification Detail" page, select the appropriate link for the upload or fax.
Where can providers find their case-specific communication from Evolent?	Links to case-specific communication to include requests for additional information and determination letters can be found via the View Request Status link.
If I did not submit the initial authorization request, how can I view the status of a case or upload clinical documentation?	The "Track an Authorization" feature will allow users who did not submit the original request to view the status of an authorization, as well as upload clinical information. This option is also available as a part of your main menu options using the "Search by Tracking Number" feature. A tracking number is required with this feature.
Paperless Notification: How can I receive notifications electronically instead of paper?	Evolent defaults communications including final authorization determinations to paperless/electronic. Correspondence for each case is sent to the email of the person submitting the initial authorization request. Users will be sent an email when determinations are made.
	 No PHI will be contained in the email. The email will contain a link that requires the user to log into RadMD to view PHI.
	Providers who prefer paper communication will be given the option to opt out and receive communications via fax.
