Prior Authorization Process Overview

Evolent's Clinical Foundation & Review

- **Clinical guidelines** were developed by practicing specialty physicians, through literature reviews and evidenced-based research. Guidelines are reviewed and mutually approved by Neighborhood Health Plan of Rhode Island and Evolent Medical Officers and clinical experts. **Clinical Guidelines are available on [RadMD.com](https://www.radmd.com)**
- Algorithms are a branching structure that changes depending upon the answer to each question.
- The member's clinical information/medical record will be required for validation of clinical criteria before an approval can be made.
- Evolent has specialized clinical teams.
- Peer-to-peer discussions are offered for any request that does not meet medical necessity guidelines.
- **Our goal – ensure that members are receiving appropriate care.**

Authorization for Advanced Imaging

Special Information

- Ordering physician information, member information, rendering provider information, and requested examination.
- Clinical information that will justify examination, symptoms and their duration, and physical exam findings.
- Preliminary procedures already completed (i.e., x-rays, CT's, lab work, ultrasound reports, scoped procedures, referrals to specialist, specialist evaluation).
- Reason the study is being requested (i.e., further evaluation, rule out a disorder).
- Refer to Prior Authorization Checklists on RadMD for more specific information.

Evoltent to Physician: Request for Clinical Information

-  A fax is sent to the provider detailing what clinical information that is needed, along with a fax coversheet.
-  We stress the need to provide the clinical information as quickly as possible so we can make a determination.
-  Determination timeframe begins after receipt of clinical information.
-  Failure to receive requested clinical information may result in non certification.

Clinical Review Process

Urgent/Expedited Authorization Process

- If an urgent clinical situation exists (outside of a hospital emergency room) during business hours, please call Evolent immediately.
- The Evolent website [RadMD.com](https://www.RadMD.com) cannot be used for medically urgent or expedited prior authorization requests during business hours. Those requests must be processed by calling the Evolent call center at 1-877-469-7949.
- Turnaround time is within 1 business day not to exceed 72 calendar hours.

Authorization Validity Period

- Authorizations are valid for:
 - 60 days from date of request or final determination

Denial Notification

- Notifications include an explanation of services denied and the clinical rationale.
- **Medicare plans:** Effective 8/5/2024, peer-to-peer discussions must be performed before a final determination has been made on the request.
- **Medicare** re-opens are only allowed if the request complies with the CMS definition of a re-open. Providers will continue to have the option to submit an appeal utilizing the health plan's process.
- A peer-to-peer discussion can be initiated once the adverse determination has been made – **Medicaid and Commercial.**
- Re-review/reconsideration may be available with new or additional information.
- Reconsideration/re-review must occur within 5 business days from the date of denial and prior to submitting a formal appeal.
- In the event of a denial, providers are asked to follow the instructions provided in their denial letter.

Claims and Appeals

Claims Process:

- Providers should continue to submit their claims to Neighborhood Health Plan of Rhode Island.
- Providers are strongly encouraged to use EDI claims submission.
- Check on claims status by logging on to Neighborhood Health Plan of Rhode Island website at nhpri.org

Appeals Process:

- In the event of a prior authorization or claims payment denial, providers may appeal the decision through Neighborhood Health Plan of Rhode Island.
- Providers should follow the instructions on their non-authorization letter or Explanation of Payment (EOP) notification.

Radiation Safety and Awareness

Studies suggest a significant increase in cancer in dose estimates in excess of 50 mSv.

- 1mSv = 4 months of natural exposure/50 chest x-rays

CT scans and nuclear studies are the largest contributors to increased medical radiation exposure.

According to the 2019 NCRP Report, a dramatic decrease in average radiation dose per person by as much as 15 – 20% has been demonstrated due to radiation safety and technological advances.

Evolent has developed a Radiation Awareness Program designed to create member and physician awareness of radiation concerns.
