

PHARMACOGENETIC PANEL TESTS

- I. The use of pharmacogenetic testing panels (81418, 0029U, 0030U, 0033U, 0173U, 0345U, 0347U, 0348U, 0349U, 0350U, 0380U) is considered **investigational*** for all indications.

*See *HLA-B*15:02* and *HLA-A*31:01* Variant Analysis and *TPMT* and *NUDT15* Variant Analysis below for coverage criteria. These tests involve analysis of more than one gene, but are not considered experimental/investigational as a panel ("panel" defined as a genetic test analyzing more than one gene)
